Alec Schulmeister Wins Jaycee Outdoor Lighting Contest Bedard Second, O'Neill Third

MILD WEATHER AND LACK OF SNOW CURTAILS NUMBER OF ENTRIES

Numerous entries in the Junior Chamber of Commerce Christmas outdoor lighting contest and elaborate decorations fell down below last year's initial level, but the lighting spirit nevertheless reigned in abundance as a greater number of St. Paul citizens lighted their homes for the yule-tide season.

Absence of snow until a few days prior to Christmas is blamed for the lack of elaborate displays which are not compatible with black earth.

Of the ten who submitted their names in competition, Mr. Alec Schulmeister's Christmas card format of Carolers and Santa Claus with yuletide trimmings was awarded the first prize. Romeo Bedard embellished his house with a bright display of colored lights, reflecting enough points to place him in second place while G. O'Neill, first place winner last year, took third with a Christmas entourage of Santa Claus and brilliant lighting effects.

Other contestants entered were: Fred Bellveau, Jack Stinson, Eugene Gamoreux, Urgele Pigeau, Jack Dupuis, Dr. Mandin, Gerry Skitch.

The contest sponsored by the Junior Chamber of Commerce offered three prizes, first: $25.00, second $10.00 and third $10.00.

Judges were Mrs. Stan Shaigan, Mr. Paul Drolet and Mr. Bernard Rietard. In charge of organization for the Junior Chamber of Commerce, Mr. Stan Shelson and Mr. Greg O'Neill.

Ice Fantasy At St. Paul Arena Friday, Jan. 7th

A gaily costumed, brightly lighted professional ice show featuring 44 skating champions from all parts of the continent is coming to St. Paul arena on January 7th. Announcement was made by Mr. Mike Pazylyk of the Jaycees who will sponsor the show.

The all new third annual Edition of the Canadian Ice Fantasy of '55 is bigger than ever and has something for every member of the family.

Everyone will enjoy the new lavish productions "Three Coins In The Fountain," "The Gypsy Dance Festival," "Adrian Mambo" and for the kiddies that beautiful fairy tale version of "Little Red Riding Hood and Peter the Big Bad Wolf" and flirty animals from the wooded forest.

Lovely Miss Lorrie Parkins, Pacific Coast Champion will steal your hearts away with her Southern American Samba. Ken Hoefaert of Dallas, Texas will share the male lead with Vancouver's senior Champion, Charlie Murphy. Iris Peeples, Joyce McFarlane, Dorothy Yackman, Marie Sigurdson and Jean Turner, well known skating professionals in the skating world will thrill you with their all new production.

Comedy for all is provided in the side-splitting antics of Johnny Yaro, Lorne Shurr of Saskatoon and Bob Clement of Spokane. The trio combine as "Crazy Wo Sailor" act that is guaranteed to bring the house down in laughter.

These brilliant stars combine to make the all new Canadian Ice Fantasy of '55 truly the most extravagant ice production ever released outside the big cities.

Advance tickets are now on sale at Bedard & Sons and Brousseau's.

Coming Events

The regular Squaredance to be held in the Legion Hall Jan. 7th has been postponed until Friday, January 14th. All members please note. Art Zeigler of Vegreville will be calling.

Sunday Service, December, 11 a.m.; Orchestra, 2:30 p.m.

Prayer meetings on Thursday at 8 p.m. Rev. F. T. Nelson pastor.

Bob Geddis Of Agent Dies At 61 Years Old

To a great number of friends of Mr. Robert Hamilton Geddis, a holiday was marred by his untimely passing on December 30... at the St. Paul Hospital.

Sixty-one years of age, Mr. Bob Geddis was one of the oldest CNR agents rating with the top ten in seniority. He started his railroad career as a telegrapher in 1914 for the CPR and two years later transferred to the CNR, he has been with for 39 years. He came to St. Paul in 1934 and since that time gained high esteem as a competent agent and a congenial man in our society.

It was Mr. Geddis' black Chrysler car, later sold, that was used to carry Mr. St. Laurent during his tour of St. Paul several years ago.

Mr. Geddis had been in ailing health for several years prior to his death, but despite of his affliction, maintained an even humor.

He leaves to mourn their loss his loving wife, Mrs. Nellie Geddis of St. Paul, 2 sons and 3 daughters, James of Calgary, Robert of Blue River B.C., Mrs. Eileen Gaugnet of Toronto, Mrs. Doreen Boland of Edmonton, Miss Merle Geddis at home; also 1 sister, Miss Myrtle Geddis of San Francisco.

Funeral services were held on Friday, December 31, at 2:00 p.m. at the Andrews-McLaughlin funeral Chapel Edmonton. Rev. R. C. Taylor officiated and interment was made in the Mount Pleasant Cemetery.

Park Dale Funeral Home of St. Paul was in charge of arrangements.

UNITED CHURCH SUNDAY SERVICES

Services January 9th, St. Paul 11 a.m., Saddle Lake 3.30 p.m., Ashmont 7 p.m.

Your are cordially invited to come and worship with us. Rev. Roy Taylor, Minister.

SAILORS ARE HOME FOR CHRISTMAS

—Central Press Canadian

A wide straw hat, a present for his son, is brought back from Japan by Able Seaman Ed Bragg of Victoria, B.C., as HMCS Cayuga steamed into Esquimalt after a 50,000-mile tour of Korean and Japanese waters. Hundreds of relatives of the crew lined the docks to welcome the 320 sailors, happy to be home for the Christmas season.

St. Paul district sailors who also came of the Cayuga for Christmas holidays were Leading Telegrapher Royce Dennis, son of Mr. and Mrs. J. M. Dennis of St. Paul and Pierre Turcotte, son of Mrs. Guilbault of Ashmont.

Mayor Lambert Opens First League Hockey Game Locals Lose To Wainwright Nine - Five Score

By CLAUDE LAGASSE

At long last the temperature has dipped low enough for the making of ice in the Arena and for hockey to come back into the spotlight.

Last Sunday Mayor Walter Lambert officially opened the season on the occasion of the Hornet's debut in the Eastern Alberta Hockey League — an entrance which has long been sought — and the local boys suffered a 9-5 defeat. But don't be discouraged, the score wasn't bad considering the fact that so little practice was given to the Hornets. With so many of last year's talent gone astray, new players had to be rolled and it will take a few more games before they can get used to playing together.

Again this year we are fortunate in having the services of Nick Pundek who showed routine form in the nets last year and apparently has lost none of it. Another great shot in the arm will be received from the Two Hills "Kid Line" namely Debid, Hrynie and Melnychuk. These boys are sure to give any opposition more than they can handle.

The lack of practice was apparent in the opening frame of the game. The Hornets looked completely befuddled but through some unexplainable phenomena they finished the period only two goals behind the Wainwright squad.

The second period displayed a different brand of hockey with Clarence Richard making the Hornets' first goal of the game. Not remaining idle during this frame, the Commandos slapped in two more and now led 4-1. Hard luck rode the Hornets heavily during this period and on many occasions the puck bounced off the goal post when shots were taken on open nets.

Through goals by Debid (3) Richard and Shakun, the Hornets managed to creep within two goals of the Commandos but in the final minutes of the game the Wainwright team scored twice more to make it 9-5.

Next Saturday night the Hornets will play host to Viking (recent victors over Wainwright) and on Sunday afternoon Vermilion will be playing to the local Arena.

SNOWS VIGOR

—Canadian Press Staff Photo

Farewell elegantly from his hat to his admirers in Ottawa, Prime Minister Sir Winston Churchill appears in vigorous health as he embarked the Canadian steamer St. Clement.

Brosseau Transfered To Eagle M.D., Two Hills

Annex Parts Of Eagle Municipality Vermilion South of River At Elk Point, Smoky Lake and L.I.D.'s

Final report of the provincial co-terminus boundaries commission submitted to the government and released to municipal authorities here on January 1st has cut off a south west portion in division 4 and transferred it into Two Hills municipality — enters Mallaig and includes Thorlon and St. Vincent regions, but has cut off St. Lina to the north.

No. 2 has stretched out into Smoky Lake, L.I.D. 102 and 101 included territories generally known as Sugden, Beaver River St. Lina, Bordenave and Floating Stone Lake.

The north west boundaries have been extended to incorporate part of the Smoky Lake Division and have taken in a portion of L.I.D. 102 and 101. Area's the Saskatchewan River north of Elk Point, territories of both the Vermilion River District No. 24 and M.D. of Eagle have been annexed into St. Paul as well as portion of Vermilion and L.I.D. 85 on the western end.

Elections in All Divisions

Limits of the new divisions, both for the Municipality as a whole and its sub divisions become effective on January 1st, 1955. The present councillors, however will be permitted to sit a the council until their terms expire on February when nominations will be called and elections held in each and every one of th new co-terminous divisions.

The commission to deal with t. re-establishments of school and municipal borders on a co-terminus basis was appointed in 1953 by the provincial government and on boundaries which affected 220 municipal districts and districts in Alberta. Four separate reports have been made to cover the entire province.

Division No. 2 is the territory of Paul Lesuk, part of which was 3, includes ranges 7 and 6 cutting down south, past the Saskatchewan to about township 55, annexing new territory from Eagle Municipality.

Division No. 3, most of it which was formerly 2 and Steve Demchuk's responsibility extends to the northern boundaries of the municipality to include the St. Edouard district, Lac Bellevue and Lake Eliza, but cutting off the Armistice portion which has fallen into Division 2.

Division 4, represented by John Chrapko lost its south western portion to Two Hills, cutting off the councillor's own land, but included Foxy Post Office. It is comprised of the territories adjacent to the Town of St. Paul proper to two miles north, Lake St. Brides to the West and Cork, north.

New Division No. 5 of councillor R. D. Sloan has picked up a portion of No. 7 and Reeve R. J. Hawke's territory in such a manner that if the two who now reside within its boundaries wish to sit in office, they will have to contest the seat against each other. It runs off north at Bonnevale and includes Ashmont, Abilene, Owlseye and the Charter district

Division No. 6.—Henry Cuil-

Hospital Notes

Patients recently confined to the St. Therese Hospital were:

Mrs. Charles Bouvre, St. Paul; Steve Chornenius, St. Paul; Linda Tzuchuk, Brosseau; Loreta Lefrance, St. Paul; Mr. M. Hrynkiw, St. Paul; De La Chevrotiere, St. Paul; Henry Smuk, Pauzy. C. Collette, St. Paul. R. Botsczyk, St. Paul; Jocelyn Rivet, St. Paul; Theresa Christian, St. Paul; Roger Pederson, St. Vincent; Lorraine Gagne, Lafond; Mrs. C. Cooper, St. Paul; Yvonne Laramee, St. Paul; Mrs. E. Drolet, St. Paul; Harold Poulin, St. Edward; R. Gorlen...er, St. Isidore; W. Arsenault, St. Paul; Mrs. A. Ekker, Cooperage, Leonard Bell, St. Paul; Jean Cantara, St. Paul; Mrs. Hattie Smith, Therien; R. Chrevier, St. Paul; Mrs. J. Swierzsky, Mallaig; Mrs. B Robitaille, Mallaig; Yvette Belanger, Lafond; Mrs. Walter Mathiassen, Vilna; Mrs. Jean-Paul Fontaine, St. Paul; Claire Mahe, St. Lina.

Recent births were to

Mr. and Mrs. Jules Boucher, Therien a girl; Mrs. and Mrs. Armand Fenerieien, St. Edward, a girl; Mr and Mrs. John Bodnar, Lafond, a girl; Mr. and Mrs. Armand Lapierre, St. Paul, a boy.

Lafond Couple Win 1955 Baby Derby

Mr. Stork of 1955 nearly missed St. Paul in the Baby race of the new year, but he finally made it on January fourth to deliver A winner for Mr. and Mrs. John Bodnar of Lafond, for the form of a baby girl weighing in at Lbs. 3 ounces. He knocked at the door of Ste. Therese Hospital for admittance at 2.30 a.m.

The Ladies' Auxiliary to the Hospital, as in the past, were waiting for the new arrival to present her with a number of useful and practical baby gifts.

Mrs. Armand (Carmen) Lapoer e, a petetl al winner Saturday sat the holidays came in second with a boy born on the month day but too late in the evening, at about 7:00 p.m. She received congratulations and a gift from the ladies.

Plasterboard Contributions

With the exception of a very few potential Curling Club members who have not been contacted, the response to plasterboard solicitations for the Curling Rink rubber has been most gratifying. The following members have all but completed the job and the interior of the lobby is taking on a new look. There still remains a shortage of a few sheets and it is hoped that members not yet approached will do their share to assure completion. Each of the following names is represented by a sheet of plasterboard already laid.

Ted & Anne Genereux, Don and Kay Guthrie, Ed Dennis sid, A. Tanner, Romeo & Paul-a Bedard, Jos. O'Driscoll, W. H. Riglee, E. Lavoux, Phil Desaro, C. Bender J. & S. Bagan, Paul Lamontagne, L. J. Portier, Vi. Lacasse, Robert & Alma Drouin, S. Cooper, M. Leonard, Mrs. Robbins, K. Nicholson, A. Rudy, R. E. Brousseau, Ed Cooper, R. & C. Richard, E. McGuire, Ora Pigeau, E. Gagnon, Rod Jackson, Charron, M. Pranyck, Dr. L. Mackin, Dr. E. Dennis, Dr. L. Trudeau, Leonard Bedard, J. Canivet, Ray Falkenhen, Jean Prom, Steve Melnychuk, D. H. Devlin, Paul and Grace LaBeaume, Mike Marchenski, Conroy Perret, Mary Tkachuk, Jerry Steadman, Nick Cardinal, Ed Jansen, Ernest Bourdeaguette, R. Bellinger, Jules Van Beukern, Walter Lambert, Wm. Nolan, Albert Trembley, Mike Rykiewich, Armand Lamothe, G. O'Neil, W. Lacy, Marcel Joly, W Arsenault, Lucille Desmarais, Fred Dion, Paul Pagnan, Fred Sadlowski, Paul Drolet, Dr. K. Greaves, George Perry, Tony Joly, Nick Wernika, Norman Slevinsky, Marcel Beirel.

LOCAL NEWS

Mr. Art Devlin, partner in St. Paul Motors left this week for a three month holiday which is to take him to Ireland where he will be at home visiting every part of the country. Art was born in the land of the green, coming to Canada with his parents when he was 11 years old. He says he has a vague recollection of the old sod and will enjoy seeing it again through adult eyes. Boarding the Saxonia at New York on the 7th, Mr. Devlin will sail for Dublin, Ireland.

Mr. and Mrs. N. Cain and three children of Sunny Mountain Home were holiday visitors with the Labrousse family including Mr. and Mrs. Paul Labrousse, her mother and Vic.

Mr. and Mrs. Bisleott (nee Cecile Maillioux) were new Year's visitors attending the family dinner at Mr and Mrs. Edmond Maillioux.

Mr. and Mrs. Douglas Pearcyot of Fabbar and the four girls were guests of Mr. and Mrs. H. Landreville.

Mr. and Mrs. Ed. Cote were Christmas visitors at the home of their daughter, Mrs Steve Kalita of Nestow.

Caroline Gregory Sawrey adorned the christmas table of Mr. and Mrs. Ed Cote. We were informed that several guests in full bloom were picked out of flower beds during the south side of the house where the sun shines and the observation was very weather favorable to maintain summer conditions.

Bill Hrushka of Stettler was a holiday visitor with his parents and the Chartiers.

Georgie Chmiel was a visitor to the H. Brousseau and P. J. Labrousseau homes over the Xmas week.

Entertaining at one of the family's in a traditional New Year's Family dinner, Mr. and Mrs. Joseph Girard had besides the immediate members, visitors from outside including Rev. Fr. Adelard Girard of Meadow Lake. Miss G. Girard, corps-in-training, Calgary.

St. Paul Clinic Will Close Set. Open Wed. Afternoons

The St. Paul Clinic wishes to announce that its offices will be closed on Saturday afternoons and remain open on Wednesday, effective from Jan. 1st, 1955.

It is felt that with the present trend for business closing on Saturday, more efficient hours will be more practical.

The Clinic would appreciate co-operation from all concerned that hours be kept and immediate surroundings call on Wednesday afternoon as much as possible, to relieve pressure on other days when district patients are more likely to call.

A doctor will remain on call at the hospital to handle all emergencies.

ST. PAUL ALBERTA

A Personal Ad

In the 30 days I have been in St. Paul I have shaken hands 500 times, answered 1000 enquiries as to whether I am back to stay, sold over 4,000 toys, given away to my friends — the children of the district — many many chocolate bars, had lunch with 15 different families, received over 100 Xmas cards, was chosen to be Santa Claus to a party of over 75 children plus their parents, stayed by 18 grass widows; gained three pounds, worked hard early and late. But believe it or not I enjoyed every minute of it. So to satisfy that insistant demand I do believe I shall stay in this nice friendly town of St. Paul.

It's the best in the West.

Tom Knight and his community look back on a busy year

TOM KNIGHT'S home town will remember 1954 as a good year. Trade and industry thrived . . . and right in the thick of things was Tom himself, as Dominion Bank branch manager. Handling his bank's growing business took most of Tom's time—but, he declares, "The progress we made was worth it!"

Growth boosted the progress of The Dominion Bank in 1954, with assets increasing by $31 millions to a record level of $826 millions.

Thanks to Dad's teaching, young Bobby Knight already appreciates the value of thrift. Whenever his piggy bank is full, he adds the money to his savings account "at Dad's office".

More and more Canadians have found The Dominion Bank a good place to save. In 1954, personal savings deposits rose by 10.4% to a new high of $762 millions.

Keeping pace with the town's expansion, Tom Knight's staff was increased to 7 persons, to meet the growing demand for the services of his branch.

The entire Dominion Bank showed important progress in 1954 . . . 10 new branches were opened, bringed the total to 193; personnel reached 2,832.

Local businessmen welcome the friendly visits Tom Knight often pays. They appreciate the financial advice and assistance he's able to offer.

The Dominion Bank helped thousands of Canadians with their business problems in 1954. Nearly 80,000 individual loans amounting to $271 millions, were outstanding as at October 31.

F.U.A. Office Swamped By Membership

F.U.A. Head Office reports that steady progress is being made in dealing with the flood of membership which came in as the result of Roundup Day. Memberships so far recorded are in excess of 44,000. And there are still a considerable number of returns on hand which it has been impossible to deal with as yet.

In the circumstances it is impossible to get out all membership cards for some time yet. Also many new subscribers to the FUA paper cannot be put on the mailing list for this month's issue. The FUA is asking all persons concerned to be patient until the situation can be cleared up.

Dr. F. L. McDougall
THE FARM PEOPLE OF CANADA

Owing to the many sacrifices and efforts that have been made by these people, the rural young people of Canada have been provided with better educational opportunities than were available even a generation ago. Consequently we find that today's farm boys and girls are not only physically fitter, but are better, more well-educated, and wiser than their parents. Nevertheless, it is not enough to tell young people to "stay down on the farm"; they must see the fruit on the plant and ripen under the encouragement. They not only appreciate the contributions agricultural science is making, but are carving for themselves positions in their own farms.

It is safe to say that no voluntary movement in education is exerting a more beneficial influence on the development of the rural young people of Western Canada than the work of the 4-H Clubs. Although the full story of the Club movement is a big one; its main objectives are quite simple—to teach the boys and girls better farming; the Heart to better loyalty; the Head to more useful; and to promote Health to better living. Since May, 1913, young farm people in 4,700 4-H clubs throughout Canada have actually "learning to do by doing" but, it is more important, actively practising the principles of younger rural leaders and better citizens.

The Line Elevator Companies, our customers, deem it a privilege to be associated with the work of the 4-H Clubs. As early as 1919, the late Sir Horace of Western Canada is engaged with the future of its rural youth — the farm people of tomorrow — and has contributed to agricultural work offers a greater opportunity for service.

"Seedtime and Harvest" to all our readers. May all the Joys of Christmas be yours, and may 1955 bring you Health, Happiness and Prosperity.

Government Sponsors Research Team For War On Polio Outbreak

Statistical research into the transmission of the poliomyelitis virus is being completed by a research team of the Alberta Department of health.

At the beginning of 1954, the Health Department appointed a small group, headed by Dr. R. Crawford Smith, to make a survey of polio cases in Alberta between April 1, 1953, and March 31, 1954. A total of 1,427 cases, or nearly one-quarter of the number of persons stricken by polio during the 1953-54 outbreak, have been investigated and Dr. Smith is now preparing an interpretive report on the survey. This report will be presented to the Alberta Minister of Health early in 1955.

Valuable information on the spread of polio through sanitary conditions is being sought by Dr. Rosella of the team's investigators, who is making a special examination to epidemiology, the branch of medical science that deals with the origin and spread of disease through a community.

Already analysis of case histories show that polio can be spread by food, by air, but also through the air, the source of infection is a person infected with polio virus. Transmission by food alone, however, appears to be the explanation for infection in only half of the cases.

The traditional precautions against polio are supported by results of the research. To stay away from crowds still seems to be the best advice since crowded gatherings increase by 21 percent of the Alberta polio cases, and lake resorts and public transportation for five percent. There is no evidence yet directly linking swimming with polio, however, swimming places are usually crowded and therefore hold the same risk as other places where people congregate.

The Alberta Government's polio survey has been conducted with the co-operation of doctors and public health nurses and with the aid of Western statistical methods. Dr. Smith's survey team was made up of nurses, a statistician and a secretary. Questionnaires containing 73 questions were prepared and distributed to public health workers.

The questionnaire embraced all factors that might have a relation to the contraction of polio. Public health workers asked about each patients home environment, travels, social activities, degree of exercise and physical activity, sleeping habits and about his general health at the time he became infected. Information was obtained on city sewerage systems, vaccinations, inoculations, tonsillectomies and medical care received prior to the onset of polio. Attending physicians were asked to provide details on the type of polio, its degree and its outcome.

As the questionnaires were completed, the information was coded and transcribed onto punch cards that were sorted and counted mechanically on an electronic wizard. It is from tabulation compiled in this manner that Dr. Smith is preparing his report.

Ashmont F.U.A. Meet

The Ashmont F.U.A. held a chicken supper on Dec. 16th and it very successful. On behalf of the local I wish to express my thanks to all those who came to the supper and supported our local. I wish to thank the ladies who donated the food so generously and for their help to make the supper such a success.

Thanks are also extended to the girls who helped in serving the ladies.

Just like a miracle, the way you whisk through the family wash with a natural gas clothes dryer. Do your whole wash right in the comfort of your own home . . . dry it the way you like it — damp-dry for ironing, or completely dry ready to use. Every piece fluffier and fresher than if it was dried out-of-doors — in a fraction of the time, too. And at but a few cents each washday, because gas is so economical. You can't beat gas for a truly "bright" washday.

The exciting new idea behind the *motoramic* Chevrolet

Like most good ideas, this one is pretty simple. Chevrolet is the first low-priced car to do all these things . . .

Real Show-car styling!
You see the new idea because motoramic Chevrolet is as sure as a French fashion designer's hemline! . . . soft swiftness from its sleek rear fenders to its wide-eyed Sweep-Sight windshield. And the model that's in charge when you slip inside . . . there, exciting fabrics and trims harmonize with the whole car.

Power Beyond Compare!
You feel the new idea quickly! There's power quick as a panther's pun in the "Turbo-Fire V8" (162 h.p.) and two new "Blue-Flame" 6's. And you have a transmission choice of economical Overdrive, improved, automatic Powerglide (optional at extra cost) or standard shift.

A Sensational Ride!
You live the new idea instantly! You "roll with the punch" of the road with Chevrolet's new Glide-Ride front suspension. Outrigger rear springs give you a smoother ride . . . turns made so effortless by new Ball-Race steering. New Anti-Dive braking control checks that nosby dive in front during sudden stops.

Every Luxury Option
And if you want to enjoy the new idea in the convenience of power assists (optional at extra cost) you can have anything offered by even high-priced cars. Only Chevrolet offers complete luxury driving on a modest budget.

Won't You Try It?
Here, we can only tell you how successfully the Motoramic Chevrolet expresses the new idea behind it. But the car itself can quickly show you! Come in for a demonstration drive, won't you, first chance you get?

THE SEED SITUATION

GUEST EDITORIAL

By STAN POWERS, M.D. FIELD SUPERVISOR

Most farmers are aware that seed will be scarce this spring. This situation is common . . . concern among farmers whose crops were hard hit by frost during the pa . . .

The Department of Agriculture, recognizing the need for assistance, has undertaken a programme to provide assistance where the seed situation is critical. Although their main programme at LID's and other areas over which they have direct control they will also give some assistance and to farmers residing in Municipalities.

Insofar as Municipalities are concerned the Department will make provisions to locate seed not supplies and perhaps pay the freight on seed moving some considerable distances. However, neither the Department nor the Municipality will undertake to play any part in the actual distribution of the seed. This will be handled entirely through the seed trade that is established commercial merchants. Orders should be placed early to enable agents to order sufficient quantities to supply the demand before stocks in the area . . . are depleted. It is doubtful if any company will guarantee delivery unless orders are placed immediately.

Many farmers are under the impression that the Municipal District will supply and finance all seed requirements of needy farmers. This is definitely not the case. Before Seed Grain Advances can be made the Council must pass a by-law authorizing such loans to be made. This has not yet been done and the Council has not indicated it will or will not authorize such . . . to be made.

If the council should decide that the situation is serious enough to warrant making such loans it is probable that each application will be thoroughly investigated before such a loan is made. However, if the Council decides against making such loans farmers will have to rely on other sources of credit or obtain loans with which to purchase their seed supplies.

Since such a by-law has not yet been passed and there is the possibility of it not being passed, farmers would be well advised not to rely too heavily on this source for assistance. Every effort should be made to obtain credit should be fully explored before resorting to this last ditch stand.

Elevator agents and seed merchants are presently taking orders for seed grain which they will bring in by carload lots as soon as sufficient orders are obtained. Plac- an order with your agent today.

LETTER TO THE EDITOR

Many congratulations you on the Christmas issue of the St. Paul Journal, which, as always, . . . received a most cordial homage, and re-maximates my opinion that the St. Paul Journal is one of the best, . . . stories and articles are all good and informative . . . however I can . . . I see I am not alone in voicing by objection) I feel the . . . paper is . . . filled . . . with too . . . before Xmas (May) . . . most unnecessary and unseasonable on a Christmas issue.

I am unchanged all the events and . . . I have experienced in the poem are those held by an appealing number of people in rural homes, but, to . . . Weeks of cleaning were rushing . . . sessions, . . . stories and legends, and . . . came to the end . . . Christmas Day, . . . of course prevented . . . crowd and to comment . . . later treat it to me what they were taking about and I . . . so do think I am a prude or . . . but I . . . annoyed to say it nauseated me.

I wish the author of such trips were not anonymous for . . . I would surely direct a few uncomplimentary remarks in his direction, even though it may have been written . . . in-chief.

Wishing you, your staff and your families a very happy and prosperous new year.

Sincerely
Mrs. Irene Magnuson

TIME FOR LONG RANGE PLANNING

Emanating from Victoria is the comment that the Federal Government's threatened veto of the Arrow Lakes Kaiser dam project is an invasion of provincial rights and . . . in view of Ottawa's willingness to see oil, natural gas and other natural resources exported to the United States, reports Western Business and Industry.

Thus far there has been singularly little outcry on the part of the public against any invasion by Ottawa of the rights of the province in this matter but rather a tendency for expression to take the line that it is good for British Columbia that Ottawa is in the picture.

Yet oil and natural gas are . . . is not parallel. Canada is now producing about half of its own needed supply of oil. To get this oil, it flows immense quantities of natural gas to waste. If more oil is to be produced, there must be a much widened sale of natural gas. Beyond this, the search for oil has discovered many areas capable of producing natural gas but not oil. And only a small part of the area in Canada favorable for oil occurrence has been explored. Canada's natural gas reserves now stand at about 10 trillion cubic feet and may soon be doubled that amount. It is more gas than Canadians can use until well along into the Twentieth Century.

The views and opinions expressed in this column are those of the author and not necessarily those of the St. Paul Journal.

It is start off the New Year, a little believe in regards to merits of the main stories, would not be an adroit or well as a timely subject, particularly when New Year resolutions are still fresh in mind.

The festive season week holiday permitted me an opportunity to review a number of magazines a host of necessity been neglected. An article by an eminent Ph. D. and marriage counselor captivated my attention and will perforce be the basis of this short, but to the point, story.

How many wolves between the age of sixteen and sixty have actually never given any thought to the frustrated feelings of a girl's mental development, when these same "wolves" are seen to choose women who aren't so nice companions — while the girl with a high moral standard has to sit at home, or pal around with other girls?

Many men seem to think it is perfectly permissible for them to go about without giving too much thought to their morals, but, they . . . must be . . . possessive of victim. When they marry they feel they are entitled to the best, often all they have to offer in exchange is a shabby pal.

How often the . . . (rightfully so) that the man they go out with, will not take no for an answer, but, garnered to make themselves demonstrate by request, or attempts to break down resistance. With the increasing means available to men today, such as car pooling, mixed drinking, cocktail bars and open air theatres, it has become quite a problem to the young lady of today to maintain her moral standards, unless she wishes to stay-at-home or appear prudish and often rude, or gradually lower her defences.

Men may claim that it is women who have changed their ideals, but surely taken his cue from her. That is very poor logic. To demand virgins for wives — and then make every effort possible to reduce the available supply of virgins, is not only what a lot of men are doing today. The possible results of such conduct could be tragic.

The sum and substance of a technique of this kind adds up to the following: by breaking down a girl's moral standard, she may lose her self respect and drift into a life of loose morals, in any event, this leads to a decay of morals. It renders a woman more susceptible . . . unfavorable for marriage. It strikes a severe blow at solid and stable family values.

If forces girls to be forever on the defensive with little opportunity to discover what their future husbands may have to offer besides sex. It leaves doubt in their mind's of men's fidelity after marriage . . . successful marriages must be based and built on well founded mutual trust. It makes it difficult for nice girls to find husbands with equal standards. It cheapens the symbol of deep love. By putting girls on the defensive against men, could be difficult for these same women after marriage to keep themselves in intimacies, against which they have conditioned themselves against before marriage. Two other factors also become very pronounced, the male view of women in other circumstances. It also forces unwanted marriages or creates illegitimate offsprings.

I would appear men would have to take more responsibility for determining the attained to which partying and intimacy should go. After all, it is they who call the tune, society gives the man the initiative in dating. She a . . . bound in entering that room, they have the power to decide on what kind of a . . . evening they wish, well, shall it be the "show" or the "movie" girl?

The moral code of men and women today has to be upheld by both, . . . cannot be together . . . merely by women alone. Apparently the moral standards between men and women is slightly different, but, it is the man who regulates the scales — who must decide on which side to throw his morally weight. It's as simple as that, but, on their decision rests the course of their own lives and that of their children.

How many Don Juan's or sometimes better known as "swingers" have actually sat down to meditate a bit on the subject. It is well worth considering, if honest with yourself and with your girl friend. How many have or will, I wonder.

HOMAGE FOR CANADIAN CARDINAL

M. Fried, chief of the French cabinet, is shown kissing the ring of his successor, Emile Cardinal Leger, archbishop of Montreal, as French President Rene Coty (at r.) receives the prelate who called at the palace of the Elysee in Paris. President Coty can be seen directly behind the archbishop.

Why Years' Potato Crop Spoiled By Excessive Bitterness

From many parts of Alberta varying degrees of bitterness in this year's potato crop have been reported and enquiries for information received. Ill effects can result if there bitter potatoes are eaten in quantity, says Dr. R. J. Hilton, Professor of Horticulture, University of Alberta. Nausea, vomiting, mental cramps and diarrhea have been noted in the occasional case this year. Complaints in previous years have been limited to rare threats or to a persistent acrid bitter taste after eating.

When present, the bitter flavor is quite prominent in the raw potato, so the taste test many will be used for its presence before cooking and the unpalatable tubers discarded. Baking potatoes offers no opportunity for the bitter principle to escape, says Dr. Hilton. When the potatoes are boiled and the tubers peeled thickly, some of the bitterness is removed with the skin and some leached out in the boiling process.

This bitterness in potatoes is caused by a complex alkaloid compound known as solanine. For the past four years horticulturists at the University of Alberta have been trying to determine why, under certain conditions, this compound should build up in quantity. Solanine, says Dr. Hilton, is a normal part of the potato, and in the small amounts usually present is harmless. Under certain conditions, however, it builds up to such an extent that it becomes toxic and causes the various ills mentioned.

Two things are chiefly responsible, the horticulturists say. The variety of potato is one them. Conditions at a critical period during harvest and storage is the other. Rotted clems especially are susceptible to this build-up of solanine. In a normal season little trouble occurs, but during the 1954 season it seemed that every thing combined to bring out the worst in this popular tuber.

Exposure to light and particularly to the infra red rays of light during the harvest and early storage period tends to increase the solanine content rapidly. Shape of maturity of the tubers is important here Dr. Hilton. Exposure to low temperatures at the stage approaching maturity is another factor.

During the past season the potatoes were not quite mature at harvest. They were also dirty and were left for varying periods to dry before being stored. That exposure to light. In many cases then they were lightly covered in the field because ordinary storage quickest were still too warm. That constant exposure to low temperatures. It also meant continued exposure to the infra red rays since a light covering of sacks or straw does not exclude all these rays.

All in all, circumstances combined to make this the worst year on record for bitter potatoes in Alberta Cats will be tended in their consumption but no benefit need be felt in using them for seed, Dr. Hilton advises. Unless circumstances again combine to produce conditions similar to those experienced during the past season, the bitterness will not carry through to next year's tuber crop.

The Bang's Disease Question Box

BY MARCEL CHEVRETTE, D.A.

QUESTION — Why is Bang's disease important?

ANSWER — Bang's disease, also called bovine brucellosis, has caused an estimated $2,500,000 loss annually in Alberta.

The loss is going down every year through the co-operation of the cattlemen in building up Bang's resistant herds by the calfhood vaccination program. The loss to some individual cattlemen has been as high as $15,000.

The disease is also important because it can be spread to humans to whom it causes undulant fever.

QUESTION — What are the symptoms of the disease?

ANSWER — The main symptom is the premature birth of calves during the fifth to eighth month of pregnancy. Frequently a lot of cows lose their calves in what is called an abortion storm. Sometimes when the disease is very bad a whole calf crop will be wiped out. Following that the wild cow may be sterile — not many, some will have retained after births, and dairy cows will give less milk for that lactation period. A cow usually only loses one calf and then given birth to normal, healthy calves.

Among the benefits of Branch Banking...

Your local bank is an essential link between your community and the whole banking world.

In remote areas, Canadians enjoy the same broad range of bank services, the same sense of security.

As communities develop, banking services are made available to meet new and growing needs.

Banking in Canada works in such a way that your local branch manager brings you all the resources, knowledge and experience of the bank he represents. It has branches throughout Canada and provides contacts the world over. The benefits of this branch banking system, developed to meet Canadian needs, are demonstrated every day by the quality and scope of your local banking service.

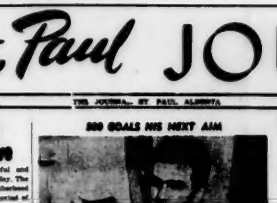
Wishes From Representative

1955, may it be peaceful and prosperous; a new 'solar' day. The establishment for the brotherhood of mankind. What is the period of the day? 24 hours—morning, noon and night, 8760 hours—the equinoctial cycle, spring summer, autumn and winter, or at the good book states, "A thousand years is as one day in the sight of god." The millenium, no matter how you reason the period of time, it was, it is, it always will be. Jan. 1st is the beginning of a new day. Advice of things to be, beyond the comprehension of man, in comparison to all the past days since the ages.

Today—this day of atomic power; will it be for good or evil, construction of destruction. The earth shiddth forever but the world changes each day. Let us hope this day will bring glad tidings of joy, peace on earth, good will to mankind. Let it be on earth as it is in heaven.

With this New Year your representatives wishes you the best of all your desires.

Our desire is to serve Elk Point and district through the medium of this edition of Elk Point News in connection with the St. Paul Journal, bring to you local news world news, and trading news Your contribution will be appreciated, your opinion will be valuable creating interest to all. With this co-operation, your new sheet will become a voice of your community



Although Montreal fans missed seeing their beloved Rocket score his 500th goal, his teammates made it a memorable night for Rocket Richard and their hefty sticks 4,386 fans in the Montreal stadium cheered. The 33-year-old right-winger is the first NHL player ever to reach the 500 mark. His record includes 60 goals in one season and 12 goals during the 1945-46 playoffs for the Stanley Cup. Despite these milestones, Richard has never topped the NHL scoring championship.

LOCAL NEWS

A 70th birthday was celebrated at the Elk Point Hospital by the staff in honor to Mr. F. Miller Many happy returns Doctor May you enjoy many more.

Spring Park was the scene of lively activity on New Year's Eve. The floor was packed to capacity and only persons present by invitation. Music was supplied by the Rambling Cowboys of Elk Point which gave pep and life to the occasion.

Peter Tawshin and family returned to Vermilion, spending the holidays with his brother Miles. Pete said he enjoyed the 30 above weather with rain and snow. Glad to get back.

Two engagement announcements were made at the High School Dance. Mr. Dan Hordan will walk to the altar with Miss Dorris Bristow and Phillip Sluzalesky will travel the aisle with Miss Vickie Fedorchuk.

The Elk Point fire siren made a feeble sound at about 3.30, Jan. 1st in fact time the brigade was on its way to the home of Mr. W. Gardiner 2 and a half miles out of town.The home was destroyed. Much of the contents were saved.

Mr. G. J. Fish an old timer of Elk Point will be spending the next few months with friends and relatives in Iowa.

Rumors of a Roman Catholic separate school to be built in Elk Point are in circulation but the trustees of the Church Board could not confirm this report.

Bill Bampton who is attending University is spending the holidays with his parents.

Miss Joan Bampton and Miss Rose Twissel of RCAF located at Cold Lake, spent the New Year with the Bampton home.

Miss Rose Prusak returned home to enjoy the holidays with her parents. Rose is attending Mactavish Business College, Ed

Everything is in good shape at the curling rink. Draws for rink took place Wed evening with everybody welcome.

Mr. Jenkings Sr. is home by Long Lake after spending a few months with his daughter Mrs. Hoskinson, now resident at Bad Heart.

John Rozychuk visited friends and relatives at Vilna for the holidays.

Miss Gertrude Kent R.N., after spending holidays at home, is now going to Indianapolis to take up special training in pediatrics. It will take one year for the course.

At St. Paul five Elk Point lawbreakers were convicted on charges of obstructing the police and creating disturbances. Three were fined $40 each. The others were fined $27 each. Crime does not pay.

Harry Keck, Ox village policeman, was presented with a purse containing $30, a goodwill picture by the merchants and friends. Harry made appropriate response of appreciation.

The water and sewer system has proved its value with no freeze ups as yet. Efforts are being made to improve the water.

Bob Daniels is busy getting the Skating rink ready for the young fry and hopes for favorable ice for everybody. Don't forget to get your ticket.

Armistice News

Grim Old Man Winter arrived the evening of December 25th. (last year) leaving no doubt in our minds as to whether the weather was feeling! Unfortunately it was the same evening a social party had been planned for Mr. and Mrs. Ed Gauthier. About 30 guests and hosts turned to gale and gathered in the hall to last the departing holiday and in with them well. There was some dancing and lunch was served. An electric mantle clock was presented to Mr. Gauthier by Edmonton to start his new job on the 1st and Mrs. Gauthier and son Garfield will follow shortly.

The New Year's dance in the Community Hall was well attended and a lovely time was enjoyed by all, despite the low temperature. We were favoured by a "White Christmas," but not enough of it to bother driving and roads around Armistice.

Miss Bela McKinnon, lovely young high-school student, was seen wearing a brand new diamond ring; congratulations are in order for her and Beach Appleton. We understand Mr. Appleton has left to work in B.C. for a time.

OBITUARIES

On December 29th., Mrs. R. Fayras of Elk Point passed away at the age of 63 years. She is survived by 2 sons and 4 daughters. Pete and Alex of Vancouver; Sam and Bob of Calgary; Mrs. Mary of Northern Valley, Mrs. Mary Pary of Lethbridge, Mrs. Annie White and Mrs. Doris Wysocki of Vancouver, Mrs. Lena Wysocki of Derwent, Mrs. Anne McDonald of Edmonton, Mrs. Katherine Beauchamp and Mrs. Pauline Quenin, Grace all of Ontario; also 21 grandchildren.

Funeral services were held on Thursday December 30 at 10.30 a.m. at the Northern Valley Catholic Church. Rev. Fr. Chawkaski officiated and interment was made in the church cemetery.

Park Dale Funeral Home of St. Paul were in charge of funeral arrangements.

To Whom It May Concern

For those of you who have been wondering why my picture has been appearing every week in the paper in connection with my ads, it is not because I think I am any Clark Gable, for from it, that is the way God made me and I suppose I should thank him for small mercies.

The reason for the picture folks is that when I meet you more personally that is, you will immediately associate me with the person then we can get to the point of my sell right off the bat that way, saving you time and time.

I wish I was an architect so that I could think of something to set down here in writing to let you know just how very much I appreciate having you as my customer. What I have been trying to say is that I am quite aware of the fact that I own a particular business today not because of me but rather because of you by virtue of the wonderful confidence you have placed in me and the overwhelming support you have given me by your business.

If my advertising should get a wee bit cocky at times think nothing of it. Just as a mustache covers up a weak upper lip so also does my corny advertising cover up a lack of good advertising ideas.

Folks, you have been good to me and I am grateful to see that by your attitude you will continue to do so. In return I hope that God will be good to you and that you will realize the fulfillment of every one of your prayers and dreams.

To you, and you, and especially to you, a Happy and Claim Free New Year.

New Refinery At Beauvon Creek

Excelsior Refineries Ltd., one of the first independent refining companies to pioneer in the Peace River district of B.C. broke ground recently for one and a half million dollar thermalcracking unit, to be erected at Beauvon Creek, reports Western Business and Industry.

L. R. Cox, general manager, advises plant capacity will be 2,000 barrels per day, and will supply oil products in this northern territory. Light crude oil from the Bluesky-Lake and Fort St. John oil field will be utilized by the new plant, expected to be in operation by July, 1955.

Home and School Conference on Saturday, January 22

Carry Lawson Editor
The St. Paul JOURNAL
Volume 30, No. 2 THE JOURNAL, ST. PAUL, ALBERTA THURSDAY, JANUARY 13, 1955

Parents-Teachers To Confer At St. Paul School

To Discuss Home And School Relations

In conjunction with the Alberta Federation of Home and School Associations, the St. Paul organization has taken over duties as host for a conference to be held in the St. Paul School on Saturday, January 22nd.

Association President, Dr. L. G. Mandin of St. Paul, and Mrs. Hector Brosseau, Secretary have released the program which calls for a complete day of deliberations, culminated in the evening with a banquet in the parish hall. There will be a fee of 50c per registering delegate and a small charge for meals provided.

The conference, drawing delegates from Vermilion, Smoky Lake, Two Hills, Bonnyville and Lac La Biche calls for presentation of mutual and individual problems in education concerning home-school relations and how to bring them about successfully.

There is no limit on delegations, urging strong representation especially from parents in St. Paul. Registrations open at 9 a.m.

Further information on the subject may be obtained from Mrs. Hector Brosseau, St. Paul. Program will be found on editorial page.

Hornets Take Two Loses Over Weekend

The St. Paul Hornet's valiant effort to make the Alberta Northern Alberta League, including teams from Valleyview, Peace River, Vermilion and Vegreville has turned out to be a near hopeless venture against superiority of the Spring Coal Kings, who defeated them 16-1 on Sunday and Vermilion 13-4, Saturday.

The Hornets, out of 4 starts, have been unable to rack in any points and sit at the bottom of the league.

* * *

Terry LaBrosseau suffered injuries of a broken nose in Sunday afternoon game and has been hospitalized since.

* * *

Tuesday evening the Hornets host to Beaverlodge.

* * *

It will be announced that last year St. Paul had a club of the caliber for league competition, but were refused entry in the league. There was a natural follow-up to the demand this season for acceptance came at a time when St. Paul has suffered the loss of a good number of its star players.

St. Paul fans are urged to continue supporting the team and at this time it might be wise for the local sports executive to get their heads together in an effort to secure a regular summer hockey material, even if it came out . . . to keep our prestige and pride . . .

We do not like to be critical and as inconsiderate next hockey season.

MRS. H. TROTTIER PRESIDENT OF LEGION AUXILIARY

The annual meeting of the Ladies' Auxiliary to the Canadian Legion B.E.S.L. took place on January 5th in the Legion Hall. Reports showed much work and a successful year. There was a large attendance.

Retiring President M. Mellinson and past President J. Hartshorne conducted the election and installation of officers.

Mrs. H. Trottier was re-elected President. Other officers elected were: First Vice President, Mrs. Bill Guthrie; Second Vice President, Mrs. Ed Hall; Secretary Treasurer, Mrs. N. Shaw; Sergt. at Arms, Mrs. Dubois.

Legion President Matthews gave an informative talk on the forthcoming Polio campaign, also on what had been done for polio patients in the St. Paul area. Auxiliary members will conduct a house to house canvass as their part in the Legion's Annual Polio Campaign.

HAPPY BIRTHDAY

A Special Photographic Feature Presented By PETER VAITKUNAS STUDIOS St. Paul, Alberta

LOCAL NEWS

Miss Carolyn Tourny has left for the U.S. to spend a year with God's Invasion Army, a group of young lay-people who have answered the call of God to give at least one full year of their lives in his service, without salary. Miss Tourny is the daughter of Mr. and Mrs. John Lucy of St. Paul.

Mr. and Mrs. (Don and Kay) Guthrie have taken off for the Mexican climate to spend a winter holiday travelling parts of the U.S.A. and south of the border in Mexico. Duration will be one month.

Mr. and Mrs. Joe O'Driscoll are back delivering in our northern climate after a trip to California where Joe visited his mother.

SCHOOL OPENING AT BROSSEAU

Official opening of the new St. Laurent school, Brosseau, Sunday, the 16th at 3 p.m. Supper will be served to special guests and parishioners at 6 p.m., followed by a concert given by the Roxanne Choir of St. Paul at 8 p.m. A special invitation is extended to all the public.

Local Curling Championships Open Open Bonspiel January 21, 22, 23

Curling ice has finally set to the satisfaction of the sportsmen and the year's scheduled draws opened on Monday this week with 20 men-a rinks and 8 ladies' in a club championship which should run until the 19th and the 20th. This entails 32 games in round robins leading to playoffs involving winners of three sections and two to compete in the semi-finals and finals for club championship crests. Ken Wolsenholme is in charge of the draw.

Publicity has been released by Club Secretary Bill Lander and Bonspiel Chairman, Mr. Ed Desmarais that the annual open bonspiel scheduled for January 21, 22 and 23, Friday, Saturday and Sunday.

Below is published official draw for curlers who should wish to clip in order to conveniently keep posted on the time of draws:

WEDDING

Tremblay — Letourneau

In a double-ring ceremony at the Immaculate Conception recently, Miss Jeanne Letourneau became the bride of Mr Raymond Lemaire Tremblay.

The bride is the daughter of Mr. and Mrs. J. O. Tremblay of Edmonton, and partners of the groom are Mr. and Mrs. Donat Letourneau of St. Paul.

Bouquets of carnations and painted pinks were arranged on the church altar for the ceremony performed by Rev. Father Richard.

Given in marriage by her father the bride wore a floor length gown of lace and tulle styled with a lace pedal with matching veil. Her veil was held in place with a pearl-trimmed crown and she carried a bouquet of deep red roses.

Attending the bride was the groom's sister, Miss Aurore Letourneau. Miss Rose Marie Lemire and Miss Eileen Melnyk. They wore gowns of pink, pale lime and green tulle respectively and carried bouquets of pompon roses to match their gowns.

The groom was attended by Mr. Jean Letourneau. Julien Tremblay, best man, and Mr. Lucien Gauthier and Mr. Jean Tremblay ushers.

The wedding music was played by Mr. Levis Brodeur and Mr. Lucien Gauthier sang "Ave Maria."

Following the service a reception for 85 guests was held in the Parish hall of the church. Pink and white carnations and roses were used throughout the hall.

The newlyweds will reside in St. Paul.

Last Friday, Father Quirion left St. Paul in his car with four jewels who were returning to the seminary in St. Boniface, after having been at St. Paul for the Christmas vacation.

Father Quirion had offered to take the boys in his car in order to save them expense. Supposedly he had completed the trip to St. Boniface and was returning home when the tragedy occurred.

Bishop Lussier spoke highly of Father Quirion's work in the diocese.

Surviving Father Quirion are a brother who is farming in the St. Paul district and a sister in Mrs. Champagne who lived with her brother at the rectory.

Funeral services will be held form the R.C. Cathedral on Friday morning.

Police and robbery apparently was the motive for the shooting of Father Alfred Quirion, 44, Church authorities said the priest probably would have given the money for the asking—in his parish he was known as "the pushover priest of St. Edward"—because he was repeatedly giving away even his meager allowance.

The bullet-pierced body of Father Quirion was found by a passing motorist on the floor of his living room in which the priest had given him.

Arraigned in Brandon city police court on a charge were Gus Pervaiglas, 18, Clovis Prupas, 19, and Gerald Bone, 18, all of Brandon, Dec. 17. They were formally charged with murder and the latter two had been committed for trial. Pervaiglas was remanded for one week without plea.

Ordained by the late Cardinal Villeneuve, Father Quirion came from the archdiocese of Quebec to the diocese of St. Paul in 1949. He was in charge of immigration work in the diocese, devoting much of his time to the interests of immigrants.

In 1951 he was placed in charge of St. Edouard parish.

Father Quirion Shot At Brandon

Killed By Three Youths Mitish Hikers Funeral in St. Paul Friday Morning

BRANDON (CP) — The body of Rev. Alfred Quirion, parish priest of St. Edouard, was found about 4 p.m. Sunday slumped in his car, which was in a drift five miles east of here. Father Quirion had been shot once through the right side of the body and twice in the right arm.

Two hours later, a passing motorist made the discovery, and after RCMP had issued a general alarm, and set up road blocks, three youths were arrested in the Brandon Canadian Pacific Railway depot.

A charge of murder was read to the three Quebec youths in the charging of the priest—shot three times and left to die in his car in a roadside.

Police said robbery apparently was the motive for the shooting of Father Alfred Quirion, 44. Church authorities said the priest probably would have given the money for the asking—in his parish he was known as "the pushover priest of St. Edouard" because he was repeatedly giving away even his meager allowance.

The bullet-pierced body of Father Quirion was found by a passing motorist on the floor of his living room in which the priest had given him.

Arraigned in Brandon city police court on a charge were Gus Pervaiglas, 18, Clovis Prupas, 19, and Gerald Bone, 18, all of Brandon, Dec. 17. They were formally charged with murder and the latter two had been committed for trial. Pervaiglas was remanded for one week without plea.

Ordained by the late Cardinal Villeneuve, Father Quirion came from the archdiocese of Quebec to the diocese of St. Paul in 1949. He was in charge of immigration work in the diocese, devoting much of his time to the interests of immigrants.

In 1951 he was placed in charge of St. Edouard parish.

Glendon Opens Curling With Mixed Bonspiel

The Glendon Curling season got underway with fine style, launching a mixed bonspiel during the week-end.

In the first event, honours went to the Billy Boudreau rink, ending first in the Pool Section play, and second west in the Pool Section play, and second west in the first west in the Elk Point section of the rink, and second to S. Rozpedzik. The following officers for the 1955 curling season were elected: President, Mrs. A. D. Mosier; vice pres., T. A. Bednar; Sec.-Treas., Percy Hodgson; directors, Mrs. E. Marshall, Mrs. T. Weirich, Jack Best, Wm. Kindrake and Mike Pilatzke.

Draw committee: Erick Brosseau, T. A. Bednar and Percy Hodgson; ice Committee: K. Marshall, Alec Kindrake and Albert Lukan; Fund raising committee: Mrs. A. Lukan, Marvin Senkpiehler and Miss Maureena Doneson; lunch committee, Mr. P. Perreault, Charlie Rodych and Mrs. K. Brower. Miss Traudt and Tony Senkpiehler.

* * *

The Alberta Government Telephone crew has been in town for the last week installing the long awaited telephones direct in the residential area.

The Glendon Hockey Club held its first game of the season on January 5 by defeating the St. Vincent Hockey Club.

L.A.C. Paul Monin, RCAF of Trenton, Ontario, spent the Christmas holidays at his home in Glendon.

Mrs. A. D. Mosier, local postmistress, visited Edmonton, recently.

Elite Theatre Show News

Monday and Tuesday, January 10 and 11 — Drama in technicolor, starring Robert Ryan, Rhonda Fleming, William Lundigan and Leroy Keating. An exciting story of a perfect crime that was not quite perfect. A tale of suspense, adventure and breath-taking action.

Friday and Saturday, January 14 and 15 — The Black Knight. Action drama in technicolor starring, Alan Ladd, Patricia Medina, James Robertson Justice and Andrea Martell. Adult entertainment.

St. Paul Legion To Launch Polio Campaign

St. Paul Received Direct Benefits

Co-operating with the Provincial and Dominion Commands, the St. Paul Branch of the Canadian Legion is launching its second appeal on behalf of Canadian Foundation for Poliomyelitis.

St. Paul's response to this appeal should be proportionately generous. During the year 1954, St. Paul and district received an all time high percentage of polio cases and consequently was in a position to benefit directly from the fund provided by this co-operation.

The Poliomyelitis fund contributed to the respiratory machine in use at the hospital, made several trips with an iron lung to Edmonton, organized a transportation to the city, paid hospitalization bills for 6 months to a district mother, assisted with doctor bills, nurses and bills . . . for an afflicted in-law.

Here is another . . . a . . . to say in cross . . . the campaign will provide.

The Foundation is also . . . Alberta to contribute $.50c per capita to the Provincial Fund. Before fight a costly war against poliomyelitis.

Between January 17th and February 15th, Legion Branches throughout Alberta will attempt to collect the money in our Legion's second "Fight Polio" campaign.

Conducted on behalf of the Canadian Foundation for Poliomyelitis, the campaign raises money which is used to assist those victims not eligible for assistance from provincial government or other sources.

From money raised last year, Legion Headquarters has authorized payments throughout Alberta amounting 10,000 per month to provide for special treatment, equipment for treating polio victims, housekeeping assistance for stricken families and ambulance transportation which in some cases has saved lives.

The specific project of the "Fight Polio" committee is to provide portable iron lungs and distribute them to hospitals in various parts of the province.

To date, the respirators have been supplied to the Deer Horn Hospital, Edmonton Hospital, to serve the Peace River District; Calgary General Hospital, Holy Cross Hospital, Lethbridge, Medicine Hat General Hospital; Drumheller Hospital and the Royal Alexandra Hospital, Edmonton.

There also is another portable respirator used for ambulance trips from distant points and return. Similar arrangements are made for portable "lungs" that are taken from other centre in the province.

In one recent case, the Legion received word that a seven-year-old boy was stricken with polio at Vilna, 90 miles northeast of Edmonton.

George Gleave, provincial executive secretary of the Legion, dispatched an ambulance and one of the RCAF lungs. The boy was brought to hospital in Edmonton, but decision could be reached and he arrived 36 minutes later.

Mr. Gleave points out that except for the Legion's ambulance service, there would be no way to transport the boy to hospital, and the Legion's respirator would not include transportation to Edmonton.

Other services provided by the Legion's Provincial Command are: a home for the head of a family is stricken; purchase of wheel chairs, crutches, special shoes and other equipment; and in the rehabilitation of recovery and convalescence to the Legion. "All in our province will be covered by the department of health."

Notice Of Sales And Redemption of Impounded Animals

NOTICE is hereby given under Section 50 of The Domestic Animals Act (Municipalities) that One gelding, Bloch, weight about 1300 lbs., about 6 yrs. no visible brand also One gelding, Black, White stripe down face, 3 white hind feet, weight about 1100 lbs., about 4 yrs. old, no visible brand, were impounded in the pound kept by the undersigned Jacob Williams Located on the NW 5-61-10-4 on the 10th day of December A.D., 1954, and that the said animal was sold on the 29th day of December, 1954, to Aubin Gendreau of St. Lina that the said animals may be redeemed by the owners or on their behalf within a period of thirty days from the publication of this notice in The Alberta Gazette upon payment of all fees and costs due to the municipality and the pound keeper and animals.

For information apply to the undersigned.

W. T. Gratzl,
Sec.-Treas of the Municipality of St. Paul No. 86.
Post Office St. Paul, Alberta.

St. Paul Clinic Will Close Sat. Open Wed. Afternoons

The St. Paul Clinic wishes to announce that its offices will be closed on Saturday afternoons and open instead on Wednesday, effective January 19th, 1955.

It is felt that with the present trend for business closing on the Saturday afternoon, this change will be more convenient.

The Clinic would appreciate an expression of views and suggestions that those in town and the immediate surroundings will endeavour to express as many as possible, to relieve pressure on other days when clinics for clients are more likely to call.

A doctor will remain on call at the hospital to handle all emergencies.

Report On 48th. Annual Meeting Of The U.G.G. Held At Calgary

It has been my privilege to represent our United Grain Growers of St. Paul Local No. 416 for my first time and I have drawn up a short report on what has been done and some highlights of the 48 annual business meeting held in Calgary. Again I wish to say what I have said before, that it has been a pleasure for me to have this opportunity to make this first hand report to our local shareholders.

G. E. Brownlee Q.C., President, welcomed all attending delegates to the 48th annual meeting of the United Grain Growers Limited and that the fiscal year ending July 31st, 1954 continued the record of satisfactory operating results experienced in recent years. It was also a year of continuous expansion for the company's elevator system. The meetings are being held in the Paget Hall.

Operating results were very similar to those of the previous year, increases of charges were off-setting a decline in grain receipts due to unfavourable delivery elevation and restrictions on farmers deliveries of grain. The year earnings were $3,422,238 after charging $1,036 for provisions against inventory valuations and $750,000 for patronage dividends on grain receipts, sufficient to pay the same rate of patronage dividend as the previous year — 1 and a half cents per bushel on wheat and seven-eighths of a cent on other grains. The corresponding amount a year ago was $3,201,272 after charging $731,000 for patronage dividend.

Country elevator capacity is 42 million bushels and total capacity, including terminals at Port Arthur & Vancouver is 53,500,000 bushels. Nearly 80,000 farmer shareholders are represented at the meeting by 200 delegates from shareholder' locals.

One of the main highlights of the meeting was guest speaker Mr. Frank Anderson, London, England, Chairman of the International Wheat Council. I will quote briefly a few topics. Government policy could be changed over-night and it was impossible for only one country to guarantee itself against events. Only long term co-operative international action could stabilize world wheat trading. The short term problem would also be settled in the same way he said.

The I.W.A. is designed to ensure a stable supply of wheat within reasonable and workable price range and it can form a structure in which national production programs can be developed. It also pointed out that it was less effective than something hoped because less than 25 per cent of world trade is covered by the agreement.

Mr. Anderson said that in his opinion Canada would be "quite willing" to discuss coming in on the agreement and that he also he had declined the current one for the reason that the large

Elk Point Hotel, Friday, Jan. 28th.

figures of the many things quoted by the C. McKinnon Agricultural Chief Commissioner for the Canadian Wheat Board—

"Over four million bushels of grain were delivered to country elevators by producers during the past year. Out of these deliveries 396 million bushels of wheat, 88 million bushels of oats, and over 100 million bushels of barley were marketed for account of delegates and their friends to the Banff School of Fine Arts where we were served refreshments. Mr. Brownlee presented us as we toured the entire chesties and we were given an address by Mr. Fergusson of his Assisting school director. Some of the highlights of his speech were how he raised funds to open this school and the training that can be obtained there. We also had a wonderful time touring the Calgary Herald, posts, etc.

In closing I will express my own opinion as I see it. The superior personality and strenuous ability of Mr. Brownlee in his conducting and we should be proud to have such a capable President and General manager due to his enthusiasm in our affairs.

I must thank our local secretary, Paul Gendron and Mr McDonnell, my local agent for handling my arrangements.

I wish to extend my Christmas Greeting to all with my best wishes for a promising year and may 1955 be a year of abundance in grain and not only in rain.

Illustrated—Buick "Super" Riviera
A GENERAL MOTORS VALUE

All this—and more miles per gallon too!

Be sure to try out the phenomenal effect of "variable pitch propellers" in Dynaflow Drive!

MAYBE—among the current crop of 1955 models—there's another car with an advance that can hold a candle to this one.

But we doubt it. We doubt it because nowhere—among the features of other cars that we've looked over—is there anything to compare with what's actually happened to Buick.

It all started with the fact that modern air liners get two big advantages from changing the pitch of their propellers.

First, they get off the ground handsome loads of fuel and passengers.

Second, they can stretch their gasoline by running propellers at the just the right "pitch" for cruising. So Buick engineers asked themselves—"If you can do it with air, why can't you do it with oil—the oil inside a Dynaflow Drive?"

And to make a long story shorter—they could, and they did.

They engineered the propeller-like blades inside the "stator" of a Dynaflow Drive so they can change their pitch as much as 75 degrees.

Then provides easy starting for snappy get-away, and another for gas-saving cruising.

All you have to do is push the accelerator pedal the last half-inch beyond the full-throttle position—and you've got it!

Of course, there's a lot more to make a visit to our showrooms the "must" of the new-car year.

There's a step-up in styling as sensational as the step-up in power.

And the step-up in horsepower is this: 256 in the Roadmaster, Sixteen and Convert—188 in the Special.

But the thrill of the year is Buick's lower engineering "first"—and what it's meaning to drivers for the

Pay-off on progress!

Dynaflow Drive gets a lot further on a gallon of gas than ever before. Because it's smoother, and it couples power flow more efficiently. Because it's lighter than other parts—by hundreds of pounds.

*Standard on Roadmaster, Super, Special at extra cost on other lines.

Thrill of the year is BUICK

CONROY MOTORS LTD.
Phone 59 St. Paul

Alberta Treasury Department

The Treasury Department is concerned with any governmental activity that involves the receipt, custody or payment of money. The Department is also established by an Act of the Legislature known as the "The Treasury Department Act" and is headed by the Provincial Treasurer.

The Treasury Department Act prescribes the main function of the department which is the management and control of revenue and expenditure. Each year the Provincial Treasurer prepares a budget containing estimates of revenue to be received by the various expenses and capital expenditures as well as the estimates of revenues accruing from various sources.

The Budget Speech, delivered by the Provincial Treasurer to the Legislature, is in fact a financial statement explaining the financial condition of the province and the fiscal program of the government. The estimates are lists of amounts of revenues and expenditures expected by each department and when passed by the legislature, they control the company's expenditures.

The Provincial Auditor, an official appointed by the Lieutenant Governor in Council under the head of the Treasury Department, examines the accounts of the departments. His responsibilities involve the checking of the items of revenue and the approval of each expenditure. He prepares the Public Accounts in which all the financial transactions of the province during the fiscal year are set out.

As the Treasury Board, the Executive Council frames regulations respecting the bookkeeping and accounting of the Government.

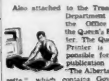
The Treasury Br.. Act authorizes the Provincial Treasurer to establish and operate branches of the Treasury at points throughout the province. To date 42 branches 12 sub-branches, and 84 agencies have been established.

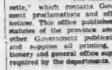
The Alberta Government Purchasing Agency Act is administered under the supervision of the Provincial Treasurer and the Director of Purchases is responsible to him. The Purchasing Agency purchases supplies required by government departments.

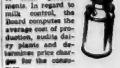
Also attached to the Treasury Department is the Office of the Queen's Printer. The Queen's Printer is responsible for the publication of the Alberta Gazette," which contains Government proclamations and official notices. This office publishes the statutes of the province and all other Government publications, and supplies all printing, stationery and general office supplies required by the departments.

The Provincial Treasurer administers The Retirements Annuities Act through which Alberta citizens may purchase annuities with a small initial deposit.

For administration purposes, the Board of Public Utility Commissioners is attached to the Treasury Department. Among its many responsibilities the Board regulates the rates charged by utility companies, protects the people of Alberta from unwise investments, approves debentures and regulates the financial activities of local governments. In regard to milk control, the Board computes the average cost of production, audits dairy plants and determines price charges for the consumer.







Your garments will be ready for wear when you pick them up—because we know perfect. Bring your clothes to us now.

WOMAN WITH A PAST

CHAMBER OF COMMERCE TO MEET

Things are startin . . . up for our dormant Chamber of Commerce which has been sleeping since the installation of officers. Well, not quite . . . a regional conference was formed upon it and as far as the year's activities were concerned that was it. A general meeting is being called for Wednesday, January 19th.

The blame should not all be cast upon the shoulders of the executive, for they just followed the trend established in St. Paul for years by the Chamber. When an election is held less that a minimum turn out and the same group consecrated for a (dictatorial) job whom had to be done comprised of the business men in St. Paul.

It is hard to understand why so many of our business men can devote so much time to the "essential" recreative sport such as curling, which they claim is necessary for the promotion of the town and yet on the other hand fail to actively promote the establishment of an organization which above all should come first and foremost and could probably greatly help those other necessary but incidental causes.

For the past two years, the St. Paul Chamber of Commerce has been called upon to be host at a district conference. We will say this: that on both these occasions the show was spoiled on protestation and we have made favorable impression with affiliated Chambers, Edmonton and provincial executives.

However, we have but made of the present, and we are now asked to follow up on other Chamber work, no effort has gone forward.

We might possibly be asked to again sponsor the conference this year. If the present trend is to continue there is no purpose in going through the motions of a convention which is hastenedly sponsored to discuss new ideas and stimulate community promotion. What good are we deriving out of the sessions if we are to fall apart immediately when it is over.

A Chamber of Commerce should receive primary support over all organizations. It should be the parent body directing all phases of community activity, supervising, if not active, to their function and step in wherever there is a need for stimulation.

It should serve as the Town's liaison officer and public relations department with other centers and keep in touch with them, also, always be mindful in the interest of the community at home and abroad.

We should take advantage of the opportunities provided by the Alberta Associated Chambers of Commerce and Agriculture, where we can find a medium of exchange, which our demands can be imprinted on senior governments.

There is a need for a program to bring about a better and broader understanding of the aims and object of the Chamber of Commerce movement. You should take a part in it.

On a personal basis we have been subject to form part of an initial public relations and publicity committee representing St. Paul, to promote the above principles of understanding between the Chambers throughout the Association. We would like to accept, but hesitate to do so, having no time or prudence to bring out from a defunct organization.

Who is going to take the bull by the horns and keep alive our chamber for the next year?

HOME & SCHOOL FEDERATION

For the benefit of parents and teachers interested in the Alberta Federation of Home and School Associations being held in St. Paul on January 22, we publish text of the day's programme:

9:00 Registration and Reception by Local committee.
9:30 Opening: O Canada and Prayer.
Introduction of Executive Members and Special Guests

I WONDER
BY C. E. B.

The views and opinions expressed in this column are entirely those of the C. E. Bolliveau.

It is far or not getting along, with coal, wood, and water, and the cattle are looking fine. Some of the boys are getting a little short of feed, a few are getting out and buying, but most are looking forward to a good crop of oats, and with sufficient feed on hand.

Norman Scott and family have moved into Edmonton where Norman has permanent employment.

Mrs. Paul Robitaille was a visitor to Edmonton this week.

The college boys all returned to their various institutions of learning. Hector Asquith, Lionel Chartrand and Paul Magnan to Jasper Place College in Edmonton, Richard Magnan and Denis Bellefeuille to St. Boniface College, he seeing you at Easter folks, be sure you pass with high marks or better, we'll be looking forward to your help again next winter.

Hockey is now in full swing at Mallaig and St. Lina met on Thursday in a league game at St. Lina. Mallaig came out the victors by a score of 4 to 1.

St. Paul Juniors played the Mallaig Juniors in an exhibition game on Friday night, Mallaig were the winners by a score of 7 to 2.

Bonnyville senoirs took on the Mallaig Rangehiders Sunday afternoon and after three periods of fast and hard hockey the game ended in a tie of 6-6. The tie was played in abeyance with a futile date.

The district is shocked to hear of the tragic and brutal death by Rev. Father Quinlan, the parish priest of St. Edouard. Our sympathies are extended to his family and relatives as well as to the parishioners of St. Edouard. His loss will be keenly felt in the district.

co-operation and understanding with others, that we move on to better things.

To learn that either people are in any way harder to get along with or less pleased to another, and that we are developing "Hollywood complex" for about eighty eight percent on our own conduct and behaviour. To try and improve some of our good points, virtues would go a long way towards eliminating this horrid moniker tacked onto our nationality. It certainly was not god-given, but the issue of our own characteristics.

How many of us will try to be kinder, more considerate to others and less vindictive, gossipy and malicious during this New Year ahead of us. I wonder!

Mallaig News

Our mild weather is still with us, temperatures remain in the zero to 25 above, with continued mild weather forecast. This week-end Mallaig and St. Lina are faced with a shortage of feed, a few days of the finest climate we have looked serious, now, most farmers will be able to pull through with sufficient feed on hand.

Arthur Brown Elected Legion President

At an annual meeting of the Mallaig Canadian Legion held in the Legion Hut on January 8th, Arthur E. Brown was re-elected as President for another term and Hector Marchand re-elected as Secretary, both of these men have turned in such a splendid job the membership felt they should continue for another term by acclamation.

At a meeting earlier in the evening, a woman's Auxiliary to the Legion was formed with the following executive elected: Pres. Mrs. Yvette Magnan and Sec. Mrs. F. Black his group of Vets wives shall work jointly with the Legion in their many enterprises.

To Help Residents File Income Tax Returns

Mr. R. Bannerton and M. Devine, representative of the Prairie Accounting Agencies of Edmonton are in the district soliciting accounts with Farmers and Business in the interpretation of Income Tax returns. Their arrival is most timely as the period with Income Tax return time Bottle approaching, many farmers who have not filed returns and those that have filed returns but find them progressively more difficult to understand and make out, will seek their advice and assistance. There are two things man may be sure of during life, one is taxes and the other death.

EDITORIAL

DREAMS CAN COME TRUE

For years the hockey fan was without a skating rink, along came an individual who had a bit more enthusiasm and interest in skating and hockey than the average, through his efforts, drive and enthusiasm, an open-air skating rink was realized.

After a number of years of operation this rink eventually repaid the monies disbursed by this progressive citizen, hockey as a winter sport was firmly established in the district. Through the evolution of time and the growing up of the youngsters into young men, the Mallaig Rangehiders were formed into a formidable and respected hockey team.

Also, one fine day, some three years ago, a letter was received by the Provincial Government Dept. of Public Works, advising us that the land on which the open-air skating rink was situated, belonged to the hamlet of Mallaig, but was the property of the Province and was to be used exclusively by the Department of Public Works for their own affairs. No longer could we use this property for recreational purposes (as designed in the plan of the hamlet) So, what to do?

When the town-site was laid out by the powers to be at that time, this property was allocated for recreational purposes only, as we understand it from the blue-print, not only by the laying out of Recreation Areas, but another 20 pieces as such, our present Government saw fit to repossess this land, regardless of how it may affect Agents or the youth of the district, no consideration or suggestions were offered as to how we should purchase or borrow enough property and secure title to same, to replace what we lost.

Fortunately at that time the hamlet was blessed with an energetic citizen and approached individual who took up the matter where the other left off. After much planning, financing, and the help of a few, we did well to result in obtaining a new open-air skating rink was realized and built. To this person we owe a debt of gratitude for the remainder afternoons and evenings we enjoy during the winter months of clean healthy sport, in spite of our Governments evident poor judgement of thoughtless actions.

Commencing a couple of years ago, many of us began dreaming of a Curling Rink, particularly those that have reached the age where skating is no longer a pleasure but a decided physical effort. Curling is a common topic of conversation in the winter months and creates more enthusiasm than in the past, with the result that if we apply the same will and ambition as did the two individuals did in respect to a skating-rink, Mallaig should be able to boast of a Curling rink next winter.

There are several ways in which this dream can come true. To begin with, reclaiming the property now in rightfully ours, would give us a site. Fortunately, when is always the largest obstacle in all these enterprises, can be easily overcome by a slight amendment to the Municipal Act, the details of which can be published if the written requests warrant such action.

Mallaigers, do we keep on dreaming or do we settle down to serious curling this winter? It's up to each and every one of you to decide.

Mallaig Rotes

Mallaig's, do we keep on dreaming or do we settle down to serious curling this winter? It's up to each and every one of you to decide.

Distant Travellers Unsatisfied With Cancellation Of Legion Dance

The Editor
St. Paul Journal
St. Paul, Alberta

Dear Sir

I beg a little space in your paper to talk of a rather dismal incident that was the lot of the writer and a group of our friends on the evening of January the 3rd.

Having seen posters and verbally told that a dance was to be held in the Paul Legion Hall on that night, we immediately started contacting our wives and group of friends to make the trip from Edmonton and attend, as the undersigned had never had the pleasure of being at a St. Paul dance other than in the capacity of with the orchestra.

Their first reaction was that I should get my head examined for wanting to go so far to a dance but after much insistance, plus energetic assurance that this was a particularly good place to go, that there was a reasonably good floor, lovable and fascinating people, and mostly an excellent orchestra in the Keystone, I finally won them over, and we arrived in your town at about 10 P.M.

We are welcomed by a dark, gloomy and almost spectral Legion Hall, with what appears to us like a three foot lack on the door. This seemed to be the first item itself into our minds, which we valiantly resisted and refused to believe; but our hearts went down into our boots when we phoned genial George Parrot, who confirmed our fears, saying that the dance had been called off that same afternoon. We proceeded to tell George very frankly (apologize frankly) (just what we thought of such a thing) and his assurance that he was not responsible, we trotted over to the Chairman of the Legion Hall Committee, who had by this time retired. We unhesitatingly got him out of bed to voice our disapproval of the dance cancellation. We even went so far as to jokingly suggest that the St. Paul Legion should re-imburse us for our out-of-pocket expenses, plus the wear and tear and tear on our automobiles as a result of the trip, and that we should also have the fun. We were considerably taken back when he calmly invited us to do so.

We are to dorn fond of those French remarks of his, and I never seriously consider a thing of that nature, and will admit that the expenses involved will not lend to immediately into bankruptcy, but now, as we have surely mull this over in our minds, admit we are fascinated with the idea of finding out just what the outcome of a legal suit must be as this would be in a court of law. Could it be that even the Legion members of St. Paul would also be keenly interested.

TO CARRY POLAR EXPEDITION

This plane has been selected to load the main party of an Arctic expedition at the North Pole next March. Peggy Keenan will be in charge of the expedition's film production unit. It is believed she will be the first woman to land on the top of the world. The craft's flight from Alert, NWT, to the pole, is scheduled for March 16. Ott board the plane will be 20 expedition members and 41 dogs.

—Central Press Canadian

By this time we were reconciled to the fact that there was nothing else to do but to turn around and go home, thinking we had had enough trouble for one day. However, and also fate had not as yet been cruel enough a pest prior to our departure, we decided to drop in at the Legion for a much needed cup of coffee. So, it is here that our wives fell in love with you, with the locale and residents, and we have a dream of a time to get them away and to home.

It is all over now, and we recollect the incident with a certain degree of amusement. We'll get back to Edmonton and have forgotten, that when the writer is not acquainted with the orchestra, which was the big attraction that night, but we will phone before we leave home."

As we think of this dance cancellation further we can't help but recall the ancient story of the little sheep herder who would call "wolf, wolf" just for the excitement of seeing the woodcutters from a nearby field rush to his assistance, but was in such a dilemma when he called again in right time, and a wolf was seriously devouring his flock, but the woodcutters, thinking he was again fooling, paid no attention. We are wondering if some day the St. Paul Legion will badly want to hold a dance, will advertise same, and cry out "dance, dance" but no one will come or send in the cheque, expecting it to be called off.

Thank you Mr. Editor. Realize and respect that this message is rather lengthy. However, the writer has gone further we can't help this medium, to extend prayerful wishes for a very happy New year.

Your very truly
Jos Dubuc

WEDDING

BOISSEAU - MICHAUD

A recent holiday season wedding was performed in St. Vincent Church when Miss Cecile Boisseau, daughter of Mr. and Mrs. Leon Boisseau of St. Vincent was united in marriage to Jean Michaud, son of Mr. and Mrs. Joe Michaud of St. Vincent. Officiating Clergyman was Rev. Fr. Chalifoux.

Given away as marriage by her father, Mr. Leon Boisseau, the bride chose a white nylon net over taffeta length gown, enhanced by a fingertip veil. She wore a rhinestone necklace and earrings and carried a bouquet of white and pink roses.

Her mother accompanied in a wine crepe dress, corsage of yellow tea mix flowers.

Bridesmaids were Miss Florence Boisseau, in a lilac nylon net over taffeta and a veil cap. Miss Louise Michaud in pale blue nylon over pink taffeta with pink cap veil. Best man was Adelard Michaud and Bernard Hebert.

The fill. Vincent Chesul sang for the occasion, accompanied by her sister Sr. Agnes L'Barbarini.

Wedding receptions and luncheon were served at both the bride and groom's parents home and in the evening a dance was held in Therien Hall. Couple will take up residence at St. Vincent.

Out-of-town guests were Mr and Mrs. Philip Michaud of Penny, B.C.

This is THE MARK OF A NEW AGE!

That big, bold Sweep-Sight Windshield — curving back to vertical corner posts — is easy-to-see evidence that Chevrolet has cast aside the tradition of the past to start a whole new age of low-cost motoring.

It's smarter to look at — safer to look out of — and it's only part of Chevrolet's new outlook for '55!

Yes, Chevrolet brings you a whole new outlook in low-cost motoring for 1955! It's best symbolized, we think, by the sweeping expanse of windshield that widens your view of the road and lets you "see through" the corners for greater safety.

The car with the new idea!

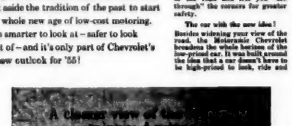
Besides widening your view of the road, the Motoramic Chevrolet broadens the whole horizon of the low-priced car. It was built around the idea that a car doesn't have to be high-priced to look, ride and perform like it. A lot of time and exact went into the building. A lot of old traditions went out the window because they didn't measure up to this daring new concept. Trust Chevrolet to have the reasons and the skill — yes, and the courage — to break so completely with the past.

Everything's new in Chevrolet!

Everything — from its tubeless tires to its lower top. There's new beauty with that long, low "ho's go" look! New fun underfoot with the new "Turn-Pilot" V8 and the new "Blue-Flame" six! A new choice of drives — new Overdrive, Super-Smooth Powerglide (extra-cost options), and new synchro-transmission! A wonderful ride! New High-Level ventilation! But we can't even begin to give you the whole story here.

Look who's stealing whose thunder!

Chevrolet's stealing the thunder from the high-priced cars in more ways than one! Come in, drive it, and you'll see why the Motoramic Chevrolet starts a new and exciting age of low-cost motoring. This you're going to love!



MORE THAN A NEW CAR... A WHOLE NEW CONCEPT OF LOW-COST MOTORING!

Everything's new in the motoramic

Fire Destroys Home Of Elk Point Family of Twelve Children

The most tragic thing happened in the family of Fred Shorstyra, 4 miles west of Elk Point. The fire was discovered in the attic at 5.30 p.m. on Saturday, Jan. 8th.

Mr. and Mrs. Fred Shorstyra put the fire out and returned to bed. At 2 p.m. it broke out again, this time Frank Bagnis was called in building or donating lumber, while furniture, etc., was taken by family in such a time of need.

The family, having slept down stairs, were again aroused. Each time the fire broke out in a new place in the attic which was stuffed with shavings and sawdust. The roof was burning but George Petts and Frank Bagnis, with the help of the family put this out.

All was declared safe and all the workout removed and the house cleaned up.

All went well until 6 p.m. that evening when the house again filled with smoke and the Civil Defence were notified in town.

A large number of cars rushed out and the fire was put out. The house was checked at 9 p.m. again and all was under control, no smoke or fire. Sometimes after 9 p.m., the burning rose, the north corner of the house blew out and it burned down. Frank Bagnis again notified the town who had returned home.

Mr. Shorstyra had earlier in the evening been taken to the Elk Point hospital for treatments on his eyes, having gotten some ointment dust and smoke in them. Mrs. Shorstyra also is in the hospital suffering from shock.

So folks this leaves a family of 12 children, anyone having any old clothes of any size, bundle them up and donate to same and Mr. and A. Pitts where most of the family are, staying also anyone wishing to help are asked to have a hand in building or donating lumber, nails, furniture, etc., to help this family in such a time of need.

Mr. Shorstyra has been a resident here so there is there have been many different times he has turned downed in this district.

We, the neighbors, would like to take this opportunity to thank everyone who came to help us from Elk Point and district. Everyone worked hard and pouring water etc. to save this lovely home which we have been building and clothes for these 10 children in the big issue now in such cold weather.

Ed Scott Now Pres. Of Legion

The regular monthly meeting of the Elk Point Legion No. 181 was held on January 3 at 8.30 p.m.

Zone Commissioner Lord was present from St. Paul. Officers for the coming year were initiated by him. Ed Scott took over the president's duties from Sid Mole. Our thanks and appreciation go to Sid for the time and energy he has spent in carrying out his duties as well.

Frank Bagnis was installed as Secretary-Treasurer.

Comrade Lord gave several interesting bits of advice to the body and Dons for 1955 were taken, any members not present and wishing to receive his card contact Frank Bagnis.

Plans for the Polo Fund Drive will commence this month were made.

All people and business places are urged to contribute generously to this worthwhile cause. A list will be sent to the paper of all donors over $1.00.

Retiring Secretary Lou Wirth from west Elk Point is not quite patient in St. Joseph's Hospital in Edmonton. Those patients are all cured for out of your contributions.

This dreaded disease strikes at any age, you may be the next victim, so when the canvassers call don't try to think up an excuse to get by, just think of the poor people like Don Wirth who you see walking around one day and struck down by this disease the next. Contact the Legion and they'll cheerfully remember who will issue you a receipt.

Gina Started Fad Of Ear-Piercing

When Gina Lollobrigida, the Italian movie actress, visited Paris a few months ago, it was reported that she had her ears pierced to hold her earrings. Now it's a fad for girls in Canada to have their ears pierced.

Hold Turkey Shoot

On Wednesday, Jan. 5th, the Elk Point Curling Club started off the season with a Turkey Shoot. Everyone took one shot and also tried their skill at the various shots and after a day of entertainment the following were declared winners with the following points.

In the play-off Bill Mihalluk defeated Peter Yewchuk and Ed Scott Jubkan to win the match and the turkey. The proceeds will help to pay for the new scoreboard ready which the club recently purchased.

The slate of officers for the Curling Club's coming season is: President, Jack Sidney; Secretary, Clarence Ross (Jr.).

With Charette Ross (Sr.) as caretaker of the rink and any help from the vice-chairmen, Elk Point is looking forward to a full quota of curling.

Red Cross Formed In Elk Point

Some weeks ago it was decided that Elk Point should make a real effort to form an official branch of the Red Cross society.

A slate of officers was elected as follows:

President, Miss D. Wagerisch; Secretary, Mrs. M. Kovach; Treasurer, Mrs. Vas Arenson.

Because Miss Wagerisch will be away from Elk Point for some months, Mrs. Wellwood Adam is acting president.

A drive is being opened in all of discussed families canvased by Red Cross Anyone wishing to support this cause are asked to contact Mrs. W. Adam, the United Church Master, Elk Point, A request will be duly given for any sum, large or small.

W. A. Meeting

The regular meeting of the United Church W.A. was held at the home of Mrs. Metcalfe on January 5th., and was well attended. Various work committees were formed for the coming year. The W.A. wish to remind you that they are always available for catering purposes.

SPRING PARK NEWS

Hello, everyone, hope you all had a wonderful Christmas and we all wish you a very Prosperous New Year.

Our New Year's Dance was a "Send-up" affair. The hall was packed and everyone began by Sterling's orchestra supplied the music and everyone began to dance.

Our dance on the 7th of January was not so successful as all had a wonderful time and if anyone wishes to learn to dance the "Saucy-Jane" or the "Rosemary and Dennie Darling, good luck.

Our December meeting was held at the home of Mrs. Pitman, a very good attendance. Our Feb. meeting will be held at the home of Mrs. Geo. Smith.

The Spring Park Mail is now supplied with 110 volt lighting plant, certainly a wonderful improvement.

Mr. and Mrs. Smith from B.C. spent Christmas with relatives. We were all so pleased to see them again as they have been greatly missed in this district. We had a party at the hall in December for the children and a splendid evening.

Mrs. Nick Mydanuisk has been confined in the Elk Point Hospital. We all wish her a speedy recovery.

Brownies Very Active In District

The Elk Point Brownies have been faithful in attending the regular meeting on Tuesdays. On Dec. 21st they had a party with the "Golden Bar."

They had an enjoyable get-together with the St. Paul brownies during the month of December.

As a Christmas project the brownies have been distributing scarves and many books which were given to the children.

Miss Engler and Mrs. Sadlowski are in charge of the Brownies.

Legion Auxiliary Elects Same Slate

The Women's Auxiliary to the Elk Point Legion No. 181 held their meeting on January 6th at 8.30 p.m. The meeting was very well attended by a large number of members.

Last year's officers were re-elected this year.

The meeting donated a sum of money to the Legion to help pay off the mortgage and for the installing of two tail rooms in the basement. The ladies joined the Legion in a body and purchased a piano for the Polio Drive.

Committees of 4 men and 4 Ladies were formed to canvass for the Polio Drive starting on the 17th. At the close of the meeting lunch was supplied and served by Mrs. M. Keller, Mrs. E. Bahan Mrs. H. Hanna. The next meeting will be on February 3rd. at 8 p.m.

WEDDING

Decorated for the Christmas Festivities, the St. Paul Greek Catholic Church formed an attractive setting for the recent wedding of Miss Yolard Theresia and Mr. Richard Meduk. Rev. Father Mandzy Hrom performed the double ring ceremony.

The bride is the daughter of Mr. and Mrs. Louis Theresia of Cold Lake and the groom's parents are Mr. and Mrs. Louis Meduk of Edmonton.

Given in marriage by her fa-ther, the bride wore a three-quarter length gown of net over satin, accented with a brocade panel fashioned with a high neck sleeves and train; her head-pointed, silk net Juliet veil was held in place by a pearl-set-tal crown. Her only jewelry being pearl earrings and a gift with cross. She carried a bouquet of red roses Assorten Beauty roses.

Miss Pauline Gamache, cousin of the bride, was her only attendant. She wore a floor length green of net over satin taffeta with matching veil and nosegay of golden roses. The groom was attended by Mr John Skrisuk of Edmonton.

The Bride's mother wore wine with grey accessories and a corsage of pink rose-buds.

Mrs. Meduk was wearing navy blue with pink accessories and also a corsage of pink rose-buds.

Thirty-five guests attended a banquet and dance held at Lavoie Hotel. Rev. Father Gorai attended by Mr. and Mrs. Wm. Hutsul and Mrs. J. Pavlinski toasted the newly-weds Out of town guests present were sister and brother of Edmonton, cousin Orest and uncle and aunt Mike Kolesy, Hector Gamache and Mr. and Mrs. P. Peasmask, Gerry Merryfield, Ralph Nay, all of Mundare, Mr. and Mrs. P. Thomas from Smoky-ville and Homer Cassidy from Grand Prairie.

Mr and Mrs. R. Beisvert, Mr. and Mrs. Andre Lamoureux and Mrs A. J. Doucet and Claire, Gaston, Mr. and Mrs. P. Lord and Felix Cassidy all of St. Paul also attends dike wedding.

During the afternoon guests were received at the home of Mr. and Mrs. Ted Thompson and a dance was held a Cold Lake the following evening.

For travelling, the bride wore a rosewood knitted suit and taupe mod accessories with a white rose corsage. They will reside in Cold Lake.

CARD OF THANKS

It is with gratitude in our hearts that we wish to express our thanks and appreciation to all our friends and neighbours who contributed so generously and so sincerely to our recent loss.

We extend a special word of thanks to the Rev. Father Gorai for his kind words of comfort and consolation.

Mr. and Mrs. P. Bell and Family

Important Notice To Elk Point Of Red Cross Meet

A meeting of the Elk Point & District groups of the Canadian Red Cross Society will be held Wednesday next, January 19 at 8:00 in the Scout Hall in Elk Point.

All groups are urgently asked to attend as as large numbers as possible.

Glen Smith, one of the main organizers of Edmonton Red Cross will speak and an ski film will be shown.

Lunch will be provided by the Elk Point branch at the close of the meeting.

Mrs. Wellwood Adam
Group President

WEDDING

On November 27th. at St. Joseph's Church in Drummondville, Miss Florence Fleury, daughter of Mr. and Mrs. Henry Fleury of 419 St-Claude St., was united in marriage to Marcel Lebeau, son of Mr. and Mrs. W. Lefebvre of Thorton, Alta. Performing the double ring ceremony was Rev. Ed. Medeau.

The bride wore a gown of blue satin fashioned with a pastrel neckline and bodice and over-skirt of imported chantilly lace, caught in by veil of illusion worn caught in a jewelled queens coronet, she carried a cascade bouquet of white pompoms with ivy.

The bride was given in mar-riage by her father John Lebeau, the groom's uncle was the witness.

The Bridesmaids were; Miss Blanche Rivard and Miss Debrosa Heine. Miss Rivard wore a pink satin gown and carried a bouquet of blue daisy pompons with ivys. Miss Heine wore a yellow satin gown and carried bouquets of pink daisy pompons with daisys.

The best man was Andre Fleury and Lionel O'Donnell.

Abbout 150 guests attended the reception at the Central Club Hall in Drummondville, P.Q.

For the wedding trip to New York the bride wore a beige suit with a mustard coat and brown accessories.

The newly weds will reside at St. Joseph of Drummondville.

CURLING NEWS

38 Rings Entered In St. Paul 14th Annual Spiel This Weekend

Registration of entries in St. Paul's 14th annual Bonspiel, slated Wednesday morning, has turned in with a potential of several more before the deadline.

The four events evolving in competition on five sheets of ice in the new curling rink were loaded with an impressive array of prizes and cups which can be seen on display at Darling Ladies Wear.

Bonspiel Schedule for Friday morning at 9:00 a.m. and continuing for three days, ending Sunday may involve early finals draws Thursday to speed up play along the way in an attempt to finish the playoff games on early or possible Sunday evening.

Ken Wellwalker, the genius of the draw sheets is all set to line 'em up on the bog line. We understand Ken's reputation has travelled afar and the demand on his services has spread as at least in one instance to Glendon.

Two Local Rinks Take First and Second At Vilna Bonspiel

We couldn't get the straight facts and just what the score was and just what kind of contest took place in Vilna last Sunday when Alec Tetrault and John Price crossed brooms in the finals of the second event of the spiel.

We did find out that Tetrault won, but Price claims he threw the game.

The salient fact remains that Alec is one up on his arch enemy with John looking forward to square the account.

Players: Tannas, Ed Desmarais, Marcel Joly, and Ray Pulkrabek. Alec, Bill Lemire, Fred Bunn and Harry Tanchuk.

McLeod, Hutton Awarded Good Conduct Medals

Two well-known RCMP Officers in the St. Paul District, Sergeant H. McLeod of the Edmonton sub-division Headquarters, formerly of St. Paul and Sergeant J. R. Hutton, formerly of Lac La Biche and the St. Paul detachment, were among seven honored in an impressive Ceremony on January 13th, and presented with Long Service and Good Conduct Medals.

To qualify for the award, a minimum of twenty years must represent the long service and of course good conduct and conscientious work are requirements.

Presentation was made by Assistant Commissioner G. B. Cambleigh, Officer Commanding K Division which includes Alberta. One of the largest divisions of RCMP officers and the first to take part in the impressive ceremonies.

Congratulations to both S/Sgt McLeod and Sgt. Hutton.

Coming Events

Ladies Auxiliary to the St. Thomas Hospital will hold their monthly meeting on Wednesday, January 26th, at the Hospital at 8:30. Members are especially requested to attend this important meeting.

Square Dance, Friday evening, January 21st., 8:30 p.m. at the Legion Hall. Alex Schuhmeier calling and rounds.

Heading a long line of mourners, young and old, Mrs. Pie-dimo Jodo, an elderly woman pilgrim from Japan, pays her respects to Rev. Alfred Quirion, Parish Priest of St. Edouard before he rests in St. Paul's Cathedral crypt. Mrs. Jodo was one of the many pilgrims to St. Edouard cemetery, Rev. Tardif, parish priest of St. Paul reads the final burial prayers in the presence of mourning laymen and priests.

PETER BATTERSLEE STUDIOS

Deseaux Moves Up in Legion Curling Playoffs

Annual Legion curling competitioners which could lead to Dominion honors, opened for St. Paul Legionaires January 8th., for local eliminations. Dr. F. Deseaux took the lead and the right of representation in the zone by defeating Bert Camire and his tribe by a 1-4 scoring.

Other rinks with Emile Lecours third, Phil Demers Second and Ernie Lamoureux throwing the lead rocks. Camire had Ray Pulkrabek, Dr. L. Trottier and Nick Gordy.

In the Zone playoffs this Sunday, December conditioned his sweep of victories, first defeating the Bonnyville Legion representation and Smoky Lake in the final. Other zone elimination saw Smoky Lake draw a bye while St. Paul took out Bonnyville and Elk Point got the best of Wasbatineau.

In semi-finals the flip went to St. Paul who cleared the ice for Smoky Lake to defeat Elk Point. Lake Smoky gave way to St. Paul in finals of 13-12.

The zone win for Deseaux qualifies him to represent the local Canadian Legion Branch in the district playdowns, scheduled in St. Paul on Sunday, January 30. Winners of this series meet other district winners at finals played in Wetaskiwin for provincial championship honors.

Part of Deseaux's team are veterans in Legion spieling. The skip and Lamoureux Richard made the provincials with Bill Lingage 3 years ago and captured the Cat's eyes Trophy.

Bert Camire, clerking this first and order of business Secretary calling and rounds.

St. Paul Chamber Of Commerce Annual Meeting

Large Attendance For Urgent Matters

Official word has been received that the annual meeting of the St. Paul Chamber of Commerce is scheduled for Wednesday, January 26th. It will be in the form of a dinner meeting at the Dominion Hotel Banquet rooms at 12:30 noon.

The Chamber is faced with some important business relative to the welfare of the community as a whole. A special, very special appeal is being made to have a substantial number of members and all the business men whom representative, interest and duty it is to promote, Paul and District.

We stand to lose a lot if interest continues to be at the low ebb it has been.

In semi-finals the flip went to St. Paul who cleared the ice for Smoky Lake to defeat Elk Point. Lake Smoky gave way to St. Paul in finals of 13-12.

The zone win for Deseaux qualifies him to represent the local Canadian Legion Branch in the district playdowns, scheduled in St. Paul on Sunday, January 30. Winners of this series meet other district winners at finals played in Wetaskiwin for provincial championship honors.

Part of Deseaux's team are veterans in Legion spieling. The skip and Lamoureux Richard made the provincials with Bill Lingage 3 years ago and captured the Cat's eyes Trophy.

Bert Camire, clerking this first and order of business Secretary calling and rounds.

TRAFFIC SAFETY LANE

By J. W. McKAY

Inspector, Highway Traffic Board, Edmonton

Greetings! May 1956 be a real peaceful, happy and a prosperous year for you.

Wouldn't it be wonderful if we could go through the year 1956 and have nothing else before us but a year of peace and happiness for everyone in our Province, but, accepting in part experience, the year commences and ends with its sprim and horrible picture of deaths, injuries, accidents an difinancial losses caused by human recklessness. That is so true in our traffic life.

Last year we had a toll of two hundred and thirty-seven highway deaths. This year's figure, not yet completed, will be very close to it. I believe that we can safely assume that almost all of the highway deaths are due to human error and misjudgment, one thing is sure, accidents are not an Act of God.

Progress is made by overcoming new error. This is true in any field of endeavour What are the errors we made in 1954, do we know? As individuals we may have to check for ourselves. If we are to progress safely in our 1955 traffic life, each of us will have to overcome errors. As we do this in all conventions and seriousness, then collectively, we will have a much less horrible picture to face at the end of 1955.

I say again, may 1955 be a real peaceful, happy and a prosperous new year for you.

Car Licenses In Alberta To Reach Record High In 1955

Car license in Alberta already appear to be heading for a new record for the 1954-55 license year, which ends next March 31

Officials at the provincial highways department have reported that up to Dec. 31, 211,362 passenger car licenses have been issued in Alberta. The figure already is about of the total at Dec. 31 1953. In addition to cars, there were 114,317 licenses issued for motor trucks and trailers.

Next year, the province will return to the double motor plate system which was recommended to the provincial highway conference held in Edmonton last May.

It is claimed that the double plate system one in front and the other at the rear, assists the police in highway patrol work.

The provincial authorities have ordered 225,000 pairs of plates for the next year, in addition to 110,000 truck plates. Delivery is expected during January. The new plates will have gold figures on a black background, in recognition of the province's 50th anniversary next year.

look at it from this angle!

1. GMC AXLES—husky, heavy, extra-tough axles—engineered for the load . . . and the road! Choice of single or double-reduction axles give you full, non-sized power range to handle any job!
2. GMC OPEN DRIVE LINES—with heavier carrier bearings that last and last! Universal joints wipe out harmful shock and strain . . . give smoother flow of power!
3. GMC TRANSMISSIONS—Finest package of precision engineering you ever saw! Choose from a complete range of Synchro-Mesh and Hydra-Matic transmissions that deliver all the power!
4. GMC FRAMES—new, more rugged frames are solid . . . give good-solid support under the toughest severe operating conditions. These are frames you can trust!
5. GMC VALVE-IN-HEAD ENGINES—absolutely unbeatable for economy, performance and endurance! Wider choice of engine fuel economizers—with power to spare!

Whatever your particular hauling needs may be, you can be absolutely certain of finding exactly what you want at your GMC dealers. See him soon!

HOW ALBERTA'S FINANCIAL PROGRAM HELPS YOU

Orderly debt retirement, satisfactory use of investments and aid to municipalities mark the Alberta Government's program.

Accumulated financial investments & surpluses now are $140,-000,000 more than the remaining public debt. A provincial debt which totalled $130,158,819 in 1943 has been reduced to approximately $47,000,000 in nine years. Provincial debt retirement plans call for the payment of the entire provincial debt by 1973, but allow the province the right to call in over 70 per cent of its debt at any time after 1963.

Under the debt re-organization program of 1943, retirement of the debt had been guaranteed by 1961 as all revenues made this goal possible many years earlier than expected.

Although total payment of the provincial debt is possible after June 1st, 1960, the Alberta Government has considered that the interests of the people would be served better by the investment of surplus funds in low-interest loans to finance urgent municipal capital expenditures.

The Alberta Government's municipal assistance program is intended to allow municipal rate payers to share in the benefits from the development of provincial natural resources.

During the past four years, direct grants & indirect financial aid to Alberta Municipal totalled $146,-274,000. Assistance through mineral rents during the same period totalled an extra $19,905,000. The total value of municipal assistance amounts to $270,827,-906.

The program of financial assistance to municipalities is not intended to weaken the independence and the financial self-reliance of local governments. These new-interest provincial government loans are being offered to help municipalities to attain a financial position which will eliminate further large scale borrowing, retire municipal taxation, and permit an orderly retirement of municipal debt.

The material benefits of provincial loans to municipalities are evident throughout the province. Local governments have used the source of financial assistance to provide such utilities as water and sewer systems, which have improved the living standards of their residents as well as providing valuable assets capable of producing long-term municipal revenue.

Under the Rural Electrification Revolving fund loans are granted to rural electrification associations. In 1953 an amount of $10,-000,000 was provided to assist in the rural electrification program. As at October 31st, 216 loans of $7,476,567 had been made to these associations. The balance in the fund as of November 1st was $2,323,403.

National Eighth School Act

The Alberta School Act itself, throughout the natural rights of parents to conventional matters, particularly where homebody's groups of either denomination, various or both, desire the privilege and opportunity of establishing separate schools in their respective districts. And it quite from the Alberta School Act 1952 (Acknowledgment of Separate School Districts) Sec. 3-1. Provisions are made in the Alberta Act for the Protestant or Roman Catholic minorities in any district where there are fifteen resident ratepayers of either persuasion to establish separate schools and to secure aid to the same, and what have you, some watched of government such popular votes, shall not be taxed.

In the Peace River School District we have numerous areas that are presently operating with perfect harmony, some of these communities are composed entirely of one religious denomination, others are composed of a mixture of Protestant and Catholic people. Under the present School Act, as amended in 1950 (Alberta Statutes 1950 Chapter 49) Section 3 (1) Subsection (2) Clause (a) (ii) it is possible for a group of ratepayers to establish a Catholic Separate School in any of these communities, even though the majority of the ratepayers are Protestant. Under the present School Act, the Protestant ratepayers have the same privilege.

Taxes

In order to build and operate a Catholic Separate School, large sums of money are required, for one reason, taking us home the point, before dream to us to appeal from ourselves of taxes, create groups of this sort to taken, based in the over-all Act, it would be normal to expect there to be some 60% (about 60% Alberta Report of the Alberta Department of Education) the cost per school per year on the St. Paul School Division who 1954 70 in taxes, while on the proposed Elk Point Catholic Separate School, it is expected to be approximately $41.00 per child. Under the present School Act, the Protestant ratepayers have the same privilege.

Language in Schools

Section 281 of the Alberta School Act 1957 reads as follows:

All records shall be taught in the English language. This rule obliges all schools in Alberta without exception, but it naturally is to serve us by during the official and regular school hours that is to say 10 o'clock p.m. After this time, religious and other related subjects may be taught in any other language which would accordingly be the same report, we find that in Alberta,

(a) each Divisional school child costs $1,285 or $2.30 per day and

(b) each Roman Catholic Separate School child costs $5.50 or $6 per day

Therefor, at the same mill-rate as in St. Paul School Division, and with the same government grants as any other school, it would cost any more to build and operate a Catholic Separate School in Elk Point.

The term "Catholic Separate School" means only that the Catholic parents of the Elk Point School District would withdraw their children and their taxes from the St. Paul School Division. And the School Act states clearly that

> in such case the electors establishing a Protestant or Roman Catholic Separate School in Elk Point, there is no reason taking us home the point, before dream to us to appeal from ourselves of taxes, create groups of this sort to taken, based in the over-all Act, it would be normal to expect there to be some 60% (about 60% Alberta Report of the Alberta Department of Education) the cost per school per year on the St. Paul School Division who 1954 70 in taxes, while on the proposed Elk Point Catholic Separate School, it is expected to be approximately $41.00 per child. Under the present School Act, the Protestant ratepayers have the same privilege.

according to this same report, we find that in Alberta,

(a) each Divisional school child costs $1,285 or $2.30 per day and

(b) each Roman Catholic Separate School child costs $5.50 or $6 per day

Therefor, at the same mill-rate as in St. Paul School Division, and with the same government grants as any other school, it would cost any more to build and operate a Catholic Separate School in Elk Point.

The term "Catholic Separate School" means only that the Catholic parents of the Elk Point School District would withdraw their children and their taxes from the St. Paul School Division. And the School Act states clearly that

> in such case the electors establishing a Protestant or Roman Catholic Separate School in Elk Point, there is no reason taking us home the point, before dream to us to appeal from ourselves of taxes, create groups of this sort to taken, based in the over-all Act, it would be normal to expect there to be some 60% (about 60% Alberta Report of the Alberta Department of Education) the cost per school per year on the St. Paul School Division who 1954 70 in taxes, while on the proposed Elk Point Catholic Separate School, it is expected to be approximately $41.00 per child. Under the present School Act, the Protestant ratepayers have the same privilege.

Government Grants & Loans

(a) Special grants may be obtained from the Department of Education by any Public School Board, either Catholic or non-catholic, for the building and operation of its schools, are exactly the same as those granted any Public School Board of Alberta School Act, Sec. 131.

(b) Section 1954, the Government grants for school-building purposes in Alberta (at 3.5 per cent) has also been increased up to a maximum of 60 per cent of the total school building project. (cf School Buildings Assistance Act Ammendment, April 1954) Which means that the grants may count up to 60 per cent of the total cost, in larger schools.

As to Government loans, the amount available for school-building purposes in Alberta (at 3.5 per cent) has also been increased up to a maximum of 60 per cent of the total school building project. (cf School Buildings Assistance Act, Ammendment April 3, 1954)

Tuition Fees

To and from the St. Paul School Division.

1. In order not to force Catholic children of the Elk Point Catholic Separate School District to attend the Elk Point Catholic Separate School, the Elk Point Catholic Separate School Board will have the necessary funds, out of its own school taxes and government grants, to pay tuition fees to the St. Paul School Division for any Catholic school children from our local Catholic Separate School district, who would in fact continue to go to the Elk Point Public School. (cf Alberta School Act, 1955, Part XI).

2. The St. Paul School Division, of course, would pay tuition fees for Catholic children coming from the school territory to attend the Elk Point Catholic Separate School. (cf Actual case of St. Paul rural school). A principle which applies to one case must be called to vote in a plebiscite to decide the issue of a Catholic Separate School in Elk Point. To be entitled to vote at the Plebiscite

1. One must be a born or naturalized Canadian citizen. (Sec 106-a

2. Baptized in the Roman Catholic Church. (Sec B—1 (b) either the Greek or the Latin Rite, and still officially members of same Church.

3 Be of the full age of 21 yrs at the date of the Plebiscite (Sec 106—b)

4. Be a resident of the Elk Point Local School District No. 3. (Sec 106—c) (The Public Notice prepared by the Minister of Education (Alberta School Act, 1955, Sec 11—a))

Unless a person has all four qualifications mentioned above, he is not entitled to vote in any Plebiscite held in the Province of Alberta School Act, 1955, Sec 11—(a)

Qualification of Electors

After examining the above data, all Roman Catholic ratepayers in the Elk Point School District, who are entitled

DISTRICT SCHOOL CONFERENCE

May we remind the teachers and especially the parents of St. Paul that the annual school conference will be held ... reservations for next Saturday night ... and ... a meal at the district conference and dedication of delegates from eight district points, meeting in the school.

Education and its many complexities of a modern age make it important today that all those interested in culture, in operate extensively to surmount the many problems being confronted.

Unity is the keynote to collective success and in this instance cannot be overlooked. With parents and teachers from a large area, sitting in summon, discussing problems covering the system of education as a whole and its many complications, a great amount of beneficial information should emanate from the conference.

If you are a conscientious parent, and you should be, your place on Saturday, January 22 will be at the St Paul School in being out your opinions, all of which collectively analyzed will form strong policies of influence in education.

LEGION POLIO CAMPAIGN

Several ads in this newspaper and in the press elsewhere no doubt, have drawn your attention to the Canadian Legion Polio Crippling Campaign. In a circular letter to the public of St Paul, the appeal has been launched by President Maurice Mailloux who addresses himself below:

Dear Sir or Madam:

The Poliomyelitis Foundation through the Canadian Legion is again this year conducting a campaign for funds.

You will be aware that St. Paul, last year, overwhelmed its objective by a great margin. That you did with confidence knowing that your contribution would be for and in the interest of the people of this province Little did we know then that the lion's share of this fund would be spent in the St Paul area as St. Paul soon became the No. 1 spot of the Province in the polio epidemic

We have no doubt that the contributions from this fund to us would have been just as generous, even though we had not made so good a showing during the campaign, but how much easier it is to make a request for funds when we have so have contributed all that was expected and more.

There are many worthy charities and we do not know what disaster may strike us next but let us not let this opportunity pass without acknowledging the helping hand extended to so many of our homes stricken with polio.

USEFULNESS SHOULD BE RESTORED

The usefulness of the senate can and should be restored says The Financial Post. It it is not, that institution must surely go the way of similar bodies in the provincial legislature, which have now all but disappeared.

First step in that restoration lies in a new conception or appointments. To do an efficient job the Senate must be representative of all that is best in our country as a whole, not just what is regarded as most deserving in a political party. The Senate is a good place to use the brains and mature experience of Canadians who, in various ways, have served more than an ordinary contribution to our national life—outstanding figures in arts, literature, science, business, diplomacy and other branches of human endeavor.

If something is not done soon to give us that sort of a Senate, then pressure will certainly grow for its abolition entirely.

LESS DEMAND FOR WHEAT

We referred some time ago to the fact that during the past number of years the consumption of wheat in both Canada and the U.S.A. had failed to keep pace with the population.

Closely linked with the question of wheat consumption are several others. In the first place, general prosperity and the higher standard of living always bring with them an increased demand for meat and dairy products and a tendency to swing away from the simpler and less expensive diet, in which cereals play an important part. This increase has been quite marked, but only on the North American Continent, where the per capita consumption of meat has shown a percentage increase since pre-war years as close to 10 per cent, but also in Europe as well.

All this means that it is necessary to feed a greater quantity of grain if the demand for meat and dairy products is to be met. Thus, livestock population affects the acreage needed for feed grains, as well as the proportion of those grains that were fed or marketed. People's changing tastes, as reflected in their diet, may have quite a marked effect upon the pattern of agricultural production and marketing. At the present time the trend is toward a higher protein diet, or a greater consumption of meat and dairy products, but that is a reflection of the times, and times change.

Babies Infection Reported In St. Paul District Farm Dog

A report from the Alberta Department of Health states that a rabies case has been confirmed recently in the district of St. Paul. It was a dog on the farm of Andrew Lamoureux, 8 ½ 32-3-16-4. The dog was shot after it had been bitten by a fight with two cyclists and subsequently attacked small pups. Upon advice he confined the dog and two days later some back to say that he was homicidal of the dog. The Veterinary was summoned, a suspected case being diagnosed, the dog was killed and sent to the Federal Veterinary Research Laboratory at Lethbridge — good condition for examination. Negri bodies were found in the brain, proving the case positive.

The case was taken. The owner had said the dog may also have bitten other animals before it died.

In 1946 six positive cases of rabies were found in the St. Paul district.

We do not want to create panic but it's our duty to remind every one of you to be ever so careful as rabies injections is nothing to fool with as there is no treatment once the symptoms develops. Fortunately for humans, the Pasteur treatment is a good preventive. Once when administered shortly after a person is bitten or has been in contact with a rabid animal. No one in Alberta has developed rabies, thanks to the good co-operation of everyone who has been bitten as they have immediately reported the bites or their dogs' bites to their medical doctor, Dr. [illegible] game warden, Dr. [illegible] Inspector, District Agriculturist, or R.C.M.P. No human cases will occur in Alberta as long as people do report bites and suspected cases in animals. There are no human deaths every year in the United States from rabies and we don't want that to happen here.

In the past year there have been 53 laboratory diagnosed cases of rabies in Alberta including dogs, coyotes, foxes, cattle, one horse, cats and one bear. Two of these were in unorganized districts in coyotes, thus the control of these animals is very important. Half of these cases were in the Athabasca - Peace country, with eight of the others being in the Peace River district. Dogs still have to be kept under control and strays should be destroyed. Watch cats too, as a stray cat jumped on two children at Moose Lake, biting them on the face.

With regards to coyotes, we cannot afford to be sentimental about their survival in the past year bites from coyotes were known to have occur on cows on farm premises and four in dogs. No doubt many of the others were due to coyote bites too. Every farmer, whether he has livestock or not, is asked to help control rabies control by helping to control coyote. Strychnine pellets, and coyote-getters are available free of charge at supplies by the Alberta Department of Agriculture from your nearest Municipal Field Supervisor, Post Control Officer, or District Agriculturist's office.

Remember, success in preventing human cases and livestock losses depends on controlling dogs and coyotes and reporting suspected cases of rabies or bites to nearest Report to your closest veterinarian, medical doctor, public health nurse RCMP detachment, Forest Ranger or District Agriculturist. A bulletin on rabies is available from your District Agriculturist.

STORK BRINGS TWINS AT ONCE

The one-in-a-million chance happened at the farm of Wesley S. Johnston near Edmonton. Twins arrived for a baleful row and all as poor strand and healthy Eric Kennedy is their

Benefits Derived From Money Collected In Polio Campaign

Below we are continuing with a series of items accomplishments and benefits derived from funds raised by the Canadian Legion Polio Campaign of last year.

The St. Paul Legion is getting organized for the drive and will contact St. Paul citizens soon. Be ready for the canvasser and give him your help. Remember many patients from this territory received benefits during the epidemic of the year.

During the year the committee had spent money on special polio training for nurses and doctors and on bursaries for young people wishing to take courses in occupational therapy, physiotherapy or other professions necessary to the treatment of polio patients.

For example a Legion aid in the case of a 16-year old Lethbridge girl who was her own battle against polio and now is dedicating her life to helping others similarly afflicted.

On August 15th the committee received a letter from a Lethbridge mother stating that girl was recovering from polio and desired to take a course in occupational therapy and physiotherapy at McGill University. The only trouble was, she didn't have enough money.

The Legion agreed to pay $600 and the $1,200 fee for her first year of training. She enrolled at McGill taking the fall and is doing well, coming to reports.

In all probability, the Legion will grant her another $600 next year to complete her training. The money being attached to the grant is that she must practice her profession in Alberta for at least a year after graduation.

In addition to such special grants, the Legion during the past year, paid out $4,500 in grants for day-to-day and home-visiting polio care treating at a number of universities, including McGill University of Toronto and the Boston Medical Centre.

Six bursaries valued at $350 each, were awarded to students taking physiotherapy courses at the University of Alberta.

During an average day in the [illegible] office officials may receive a ten or more applications for assistance from polio victims in all parts of the province, mutually assistance is given.

Officials point out that this is the time when the full effects of last year's serious polio epidemic are being felt. Victims are reaching the point where they can be discharged from hospital. That's where government aid ends, and where Legion aid starts.

When the patients are well enough to leave the accredited polio treatment hospitals, they still are a long way from recovery and regular treatment still must be given, either at the victim's home or in the local hospital.

In some cases, the head of a family is stricken and unable to earn a living. If there are children to be cared for, the wife cannot work. In cases such as these, the Legion pays a monthly allowance to help a housekeeper, and in some cases has paid bills for rent and grocery [illegible].

In most cases, victims must receive physiotherapy treatment to insure use of muscles and limbs, and social rehabilitation to permit them to regain a place in society.

This is the work of the "Fight Polio" committee, which is asking Albertans for their support between January 15th and February 17th.

Can Now Haul Commercial Grain

The Canadian Wheat Board has again put into effect the policy originated in 1914 whereby farmers may be permitted to haul commercial grain over the quota and to apply the proceeds towards the purchase of Registered or Certified seed. This year however the policy is to be broadened the quantity of grain that can be delivered over the quota [illegible] to 1,000 bushels and the quantity of Registered or Certified seed that may be purchased to 150 bushels.

Coming as it does, at a time when strict delivery quotas are in force at all stations, and when farmers are finding it increasingly difficult to provide the necessary cash with which to purchase good seed, this provision is a very timely one and there is no doubt that many farmers will want to take full advantage of it.

The maintenance of quality in Canada's chief factor in selling her grain abroad. But the farmer should be given his own share of the responsibility for higher yields and better [illegible] that the small sum expended on a few bushels of Registered or Certified seed, each year is a sound investment.

Explanation Why A Catholic Separate School Is Asked In Elk Point

Editor,
St. Paul Journal.
Dear Sir:

Would you be kind enough to allow us space in your newspaper, to explain and explain some important and basic reasons why a Catholic Separate School in Elk Point is justified.

Separate School Committee.

Let the little children come to me and do not hinder them, for of such is the kingdom of God." St. Marc X-14

These words of Christ still have their bearing today, and reveal the supreme love of Jesus for the little ones. How is these little ones to be able to respond to His invitation to come closer to Him, or to love and serve Him better, if they do not know him? And where will they receive a sufficiently necessary and adequate knowledge of this necessary science of God that will lead them to the Kingdom of Heaven?

Experience has revealed that the minimum of religious instructions which is given on Sundays and during summer holidays is, in fact, not sufficient. It is not the children to acquire the religious principles and training that should guide all men through life. It is highly difficult, then owing to different circumstances and reasons, only a very small proportion of the children are by attained by the forms of religious teaching. As far as catechizing is concerned, parents do not always find it easy or possible to instruct their children properly. Religious instruction must be provided by other means and the most commonly united medium to supplement and complete the work of Christian education.

Desiring to fulfill the mission of teaching which was entrusted to her, the Catholic Church, as always, makes it an obligation for all her faithful to provide religious instruction for the children and for this purpose to establish and maintain Catholic schools."

(Continued on page 6)

NEW YEAR BABY BORN AT ELK POINT

The New Year Baby of the Elk Point Hospital was the son of Mr and Mrs Clyde Basler of Heinsburg. The rumour up was also a booming boy, son of Mr Mr and Mrs Louis Dumont of Frog Lake.

On January 8th, another son was born to Mr and Mrs. Fred Andrychuk at Elk Point. Mr and Mrs. Charles Cwarny of St Paul had the first six-mo nths baby of the year Baby boy Smaychuk was born on the 10th, son of Mr and Mrs. Wm Smaychuk of Elk Point Mr and Mrs. Wm Shopley had a fine baby girl on the 13th. The stork has been quite a busy bird these last two weeks, probably felt they take the rest of us after Christmas.

Donations To Polio Campaign

Below is a list of those in Elk Point west who have contributed to the Canadian Legion Polio campaign drive canvassed by Frank Regali

$6.00 Donations
Mr. and Mrs. Cwarny

$3.00 Donations
Mike Dziwenka

$2.00 Donations

$1.00 Donations
J. B. Keene, J. G. Rasmussen, Gil Dowell, Walter Ojinsko, Fred Andrychuk, Max May, A. Sgrazzutti, Sandy Krywenchuk, Steve Demchuk, Ruth Mellinchuk, Carl Zavarsky, Mike Trush, Joe Krushowsky, W. Tymchuk, M. R. Dumonski, Alex Yakimowich, Willie Poly, Mike Shaluan, John Prodaniuk, Anne Kreutzinger, Bishop O'Kane, Elk Point Motors, W. L. Warren, E. McDonald, R. Bowles, Bishop Greenough, Willie Yakimowich, John Drebot, Andrew Pearson, R. Demchuk, C. Johnson, E. L. Lester.

Monthly Meeting Of Chamber Convenes

The regular meeting of the Elk Point Chamber of Commerce was held in the Legion Hall, January 16th Good attendance prevailed with numerous subjects for discussion. A committee was formed to approach willing candidates to stand for office.

It is hoped a good number will turn out for this annual meeting to vote for the respective directorate.

The luncheon that have been part of the past program are to be discontinued.

Mr Mike Hatash was elected to attend with other delegates from towns on Highway 41, Cold Lake to Mallaine Bay, for a conference with Hon. Gordon Taylor M.L.A. Minister in Highways.

DEAD, BUT WON'T LIE DOWN

Five-year-old John Gilcreese is wide-awake from the grave at a station that lost he will not refused to die. John's father, Dave W. Gilcreese, said the boy was one of three that lost their hearts prospective to keep the table feature of the Gilcreese' New Year party. The other two birds did at all good chickens do and went to pet. But not this bird, it was still dead. Dave put it back and this a chicken with its head cut off, which is scarcely what it is.

OBITUARY

The community mourns the passing of an old timer in the death of Mrs C. Fraser who passed away in the Elk Point Hospital, Jan. 19th.

It cannot as a great shock to everybody who has known her and loved and respected her for her many kindnesses and acts of sympathy that she was always so ready to give.

For many years, she and her husband lived in the Witney Lake district where they operated a ranch during the summer months.

The Rev Reach conducted the service taking for his text — In my fathers House are many Mansions. Pallbearers were G Bruce, L. Coombe, Paul Brick, H. Sedlacek, F. Cameron and Bd Lorenson.

There were many beautiful floral tributes.

She leaves to mourn her loss, her loving husband, one son and three grand-daughters and five great-grand-children.

Burial took place in the Lindbergh cemetery with Park Dale Funeral Home directors in charge. Our deepest sympathy goes out to the bereaved in their great loss of a loving wife and mother

Frank Keirgan Visits Interior of B.C.

Frank Keirgan returned home Monday after several weeks of a combined business, pleasure trip to the interior of B.C After traveling from here to Spokane Washington in a round about way Mr Keirgan turned north and proceeded to Vernon BC by way of the Old Cariboo Trail.

Fifty miles east of Vernon, at Lumby, he visited with Pete Mazerolle, Marcel Chorel, Dave Pesner and Charlie Marine, all former residents of Elk Point, continuing his travels approximately 200 miles north to Salmon Arm, and then westward to Kamloops Lake, 200 miles west of Prince George, looking for a timber limit. One was located at Barriere. On the way home Frank visited the Grand Coulee Dam in the U.S.

A geography of B.C's climate which the traveller noticed was snow drifts 4 feet high around Fernie while there was little or no snow up. Mr. Keirgan is thoroughly satisfied.

Appeal For Fire Victim Responded

The appeal for clothing for the fire victims by the Elk Point High School Student's Council, through the columns met with whole hearted support. The clothing was turned over to the local Red Cross for distribution.

Local Mixed Splel Draws Interest

The curling rink is buzzing like a bee hive these days. There are two splels on every day up for a mixed local bonspiel and as well as curling their games the rink is a popular meeting place for the [illegible] of the district.

Like leaves to mourn her loss, her loving husband, one son and three grand-daughters and five great-grand-children.

Burial took place in the Lindbergh cemetery with Park Dale Funeral Home directors in charge. Our deepest sympathy goes out to the bereaved in their great loss of a loving wife and mother

Local News

Jean Ross who returned to Can- ada in December after working for a couple of years in England is visiting her father, Dr A G Ross.

The Yeowens property in the west end of town presently oc- cupied by Mr and Mrs E.Krach, has been sold to Mrs B.spoka

We are sadden to hear of the death of Mrs Carl Fraser She will be greatly missed in the Heisburg community and all the sad company of Whitney Lake. Our sympathy is extended to Mr Fraser

We see Mr Jenkins fr. home after travelling that he was spend- ing the winter at Rel Deer ? His excuse is that he prefers our climate here at Elk Point

We are sorry to hear that Mrs Court Smith is in hospital but hope that she will soon be home and around again

Another sad loser, Mr. D C Nelson is at University Hospital in Edmonton recovering from an operation Hope you're feeling well enough to drop a rink in the Bonspiel Mr Nelson

INTRODUCING LADY 'SPIEL WINNERS

Sweeping and throwing rocks some nice ... this panel of Ladies who took honors in St. Paul's Introductory Bonspiel, Saturday and Sunday. Winner of the first event, top in blue, Mrs. Bedard on the right with her crew reading right to left in the order they played — Mrs. Yvonne Parkinson, Marysville Foley and Trudy Beaudoin. Bottom, second event skip, Mrs. Fortier on the left with Yvonne Lachance, Cecile Gosselin and Pat Yvon Poirier.

Bedard and Fortier Win Top Honors In Ladies Introduction Bonspiel

Eight teams of St Paul Lady Curlers shook hands in an introduction Bonspiel curled Saturday and Sunday with Bea Bedard taking sweeping honors in the first event and Pat Fortier brushing off all competitors on the other side of the draw sheet.

Ladies with strong arm for champion Bedard were Mrs Yvonne Parkinson, Marguerite Patry and Trudy Beaudoin! Pauli was played against second pot-of Lorette Couts added an assetset by Bertha Fryer. Miss Hermanuk and Helen Kaller They suffered an 11-5 set-back in the eighth under Lucille Desmarais took third prize and Emelda Lachance was in for fourth place.

In the second event, Pat Fortier forged steadily ahead after losing her first game and skipped to victory Sweeping and curling for her were Yvette LaRocque, Cecile Bayrock and Terry Peters.

Debut at the finals was inflicted on the rookie skip by a 9-6 game, nearly tied in the last end, but stunned by a three With Ann were Beula Keen, Mrs. O'Neill and Jeanne Lord. Sliding in third place came Lorraine Doucet and Lynn Desmarais, fourth

Home and School Conference Registers Ninety

Parent-Teacher Problems Discussed

Problems of organization, well-being of school children, better understanding, and relations between parents and teachers were among the more important aspects discussed during the district home and school conference held in St. Paul on Saturday, January 25. Ninety delegates representing 19 centres from the St. Paul area took part in the deliberations and contributed a host of valuable ideas.

Mr Floyd A Johnson, President of the Home and School Provincial Federation, was introduced at the opening session by Mr. Yvo Dupuis, Vice President of the local association acting as chairman in the absence of Dr Louis Mandic, President

Mr. Burton made the commendation before the conference, national, provincial and district constitutions, pointed out the tremendous growth of Home and School. The work has become so important and vital that complete cooperation of parents, between parents, teachers and children is essential for progress in education, and maintenance, education.

Morning sessions were devoted to "buzz" sessions discussions of problems in groups, reports and other important matters.

Afternoon sessions opened with a word of welcome from Mayor Walter Lambert followed by Miss panel discussion for leader discussion and program committees

One of the guest speakers at the evening banquet, Rev Father Chalifoux of St Vincent enjoyed and complete corroboration with the principles and objects of the Home and School "Parents," he said, have the first duty of education of their own children and are responsible for the moulding of character through their home until school age. But there interest, although abbreviated and abated by the teacher, still play a predominant part in education.

"They know their child individual class. By knowing and also understanding the teachers and their methods of education, parents provide the home which is necessary for the personal understanding in character for the support and encouragement children."

Mr. R. Rawcle, Superintendent of Schools, was the next speaker then ever the Home and School should be a two-way street you to help them guide the destinies of your children Co-operation with teachers is one of the best guarantees of success

Mr Floyd Johnson, Edmonton President, summed up the purposes ...

Re-organization Of Chamber Of Commerce

Election Meeting On February 9th

A determined effort was put forth by a group of businessmen of 1 Paul attending a special meeting of the Bonker Chamber of Commerce held recently to re-gamize an association which has been dormant for over a year.

The fact that there is urgent necessity to set up an active organization devoted to the betterment of St Paul was fully concurred and co-operation of purpose was evident amongst the membership in attendance.

Financial statement of the past two years divulged that the Chamber is approximately $150 in the red. Immediate moves made to have this liquidated as soon as possible and get on a sound basis

Most of the discussion centered around the responsibilities and importance to the community. Towards that end a nominating committee was appointed to recommend an executive at a meeting to take place on February 9th, 12:30 at the Donald Cafe Banquet room. Limit of discussion for the meeting was set at five o'clock in order to make it convenient for all who have business to transact later in the afternoon.

On the committee are: Bill Gutherie, L.J. Fortier, Sonny Bedard, Maurice Mailloux and Alec Thomas.

A membership committee of seven was appointed to beleive up the ranks and activity. Soliciting memberships will be Alec Thomas, R. Drouin, Clarence Lavoie, Ron Wolstenholme, John Hull, Ted Genereux and Gerard Mailloux

Again we bring attention to the date of the next meeting for the purpose of election ... on Wednesday, February 9th., 1958, Donald Hotel Banquet room, 12:30 p.m. to 2.00 p.m. Be on time so that the meeting can start promptly and finish expediently.

Hornets Win First Game Against Vermilion; Lose To Wainwright

New Coaching and Playing Material Raises Hopes For League Playoff Berth

Roaring St Paul Hockey fans cheered to the new thrill of seeing Hornets change stride for their first win in the Eastern Alberta Hockey League, defeating Vermilion Tigers 6-3 on home ice Saturday night.

Sunday afternoon, they dropped a fixture to Wainwright by an behemoth score of 8-2. The stands were all in agreement that brooms counted and the locals with the right ones could have been on the other end They were every bit as good in their powerful opponents and showed vitality under a new coach who is the short spacy of three partsewe imported a great deal of confidence in the ranks of the Hornets. They still have a mathematical chance to make the finals.

Paul Dion, a comps atively young man (19), with plenty of speed is the newly appointed coach Jaycees brought him in from Barrh, Saskatchewan where he has teamed under professional coaching and with some semi-professional clubs. While in the Junior ranks, he toured with the Saskatchewan All-Star squad to the Soviet Union. Dion, almost of the Jaycees Sunday's game, Mahaffy, Bedard, Hector Hrycew, Leavey Kitt, Bill Skaban, Paul Dion, Clarence Richard, Ed Mandish, Albert Delisle

Entire power is concerned from the huge 210-lb. frame of George Vilaire, Laplanche, Saskatchewan who knows how to throw his weight around and plays a crappy experienced game He also has a sentient touch.

The net has been served up by J. Denis (Bebe) Gauthier, a high flying, joking Frenchman who is a riot both on the ice and in the dressing room For moral he's tops. In goal he performs with unorthodox, and grandstand style, but is very effective and has been the fancy of the crowd "Bebe" hails from Victoriaville, Quebec, and claims he played hockey in backlets with the famous "Gros" Jean Beliveau of the Canadians as well as Marcel Pelletier, Vancouver Canucks.

A line and several spares from Two Hills are puttering with new spirit and speed hopes are soaring

• • •

St. Paul - Vermilion

In the St Paul-Vermilion game paint getters were Hector Hrycew 3 goals, Leavey Kitt, 1 goal, 1 assist, Bill Skaban, Paul Dion, 1 goal and assist, C Richard, Marshall Bedard, 4 assists.

Penalties: Bebe Gauthier, high sticking, George Vallaere, roughing, Zaharuk, crosschecking.

Vermilion: E Kreller, goal and assist, A. Cooper 2 penalties; W Novak, M Little Even

Wainwright - St. Paul

Wainwright: Hallet, Cork, 2 goals, 2 assists; Lamb, Mahaffy, 1 goal, J Hardin, 1 assist. Two-thirds goal, assist penalty. Guilford, Cooper, 2 assists, Lamb, Berry, 2 penalties

St. Paul M. Bedard, 2 goals, Hector Hrycew, 1 goal, 2 assists; Gerry Vallaere, roughing, 2 minutes. Zaharuk misconduct, 2 minutes. Kitt, tripping, 2 minutes

• • •

UNITED CHURCH SUNDAY SERVICES

Services Sunday, January 26th., St Paul: 11 a.m., Rite 2 p.m. Come and worship with us

Rev. Ray Taylor

• • •

The Annual Meeting of the St Paul Congregation will be held Thursday, Jan. 27th, beginning with a Buffet Supper at 6:30 p.m. in the hall. Reports of the various organizations of the Church will be given. You are cordially invited to attend.

Steve Zaraluk of Derwent Wins First Event; Bill Karuluk Second; Kent Third and Sutherland Fourth

Semi Finals Provide Closest Contests; John Bogan and Dancers Make Presentations

Playing the part of perfect hosts, St Paul Curlers yielded graciously to visitors, consisting semi-finals with only five out of seventeen entries whittled down to two in the finals and none after the rocks cleared during the 13th annual bonspiel played on 3 sheets of the new curling rink, Friday Saturday and Sunday featuring 43 entries in four events.

(Continued on page 11)

Mixed Bonspiel Called On January 29th To February the 4th.

Competition in a mixed bonspiel at the St. Paul Curling Club will open on January 29th and continue until Friday, February 4th.

There will be two competitions played on evening draws only to give an opportunity to all curlers. An invitation is extended to non-curlers to participate. Registrations should be made at either the Bank of Commerce or at Bedard's store on or before Saturday noon Entry for teams-of 2 or 4, members 50c

Book of the Rink

The first Rock curling down the ice on opening the 14th annual was skipped by Steve Zaraluk from our genial friend and Vice-President, John Bogan. The last was released by Alec Thomas . . . or it should have been.

• • •

We heard John Press confidently predicting he would have no trouble with the Bedrowed entry (all denims) because they were "nothing." John figured wrong they had some pretty solid

All of the above described lands lying west of the fourth meridian.

Division No. 7

The south half of township 53, the west half of section 1, sections 2 to 11 inclusive, the west half of section 12 and sections 14 to 18 inclusive in township 54, all in range 9

The north half of township 55, township 59, all in range 10.

Township 59, in range 11.

Sections 24, 25 and 36 in township 59; in range 12.

All of the above described lands lying west of the fourth meridian.

Dated at Edmonton, in the Province of Alberta, this 10th day of December, 1954.

S. Cochrane,
Minister of Municipal Affairs

Main Customer Has Low Income

The problem of the wheat producers in the prairie provinces of Canada, like the fact that our main customers have relatively low incomes.

Human consumption of wheat within the confines of Canada runs about 25 million bushels a year. That is a very small percentage of the total production in the West averaged 481 million bushels over the 1950-51 period. Great Britain, Continental Europe and the Far East provide the big market for surplus Canadian wheat and the settlement in these countries are relatively very poor.

The average wage of electrical workers in Canada is $1.61 an hour, in Belgium 68 cents, in France 55 cents, in the United Kingdom 13 cents and Switzerland 42 cents. In other industries the averages run about the same. In the Far East wages are still lower. Yet these people are the main customers for Canada's wheat.

CANADIAN RACQUETEERS OFF TO EUROPE

Dan Fontana holding the preserver and Robert Bedard, members of Canada's Davis Cup team, are shown as the Queen Elizabeth as Bedard tried to hit snowballs through the life ring just before they sailed for Europe. They will play in the Davis Cup tennis tour of Europe that will end in England for the Wimbledon tennis tournament.

(Canadian Press Cutaway)

the east half of section 8 and sections 7 to 20 inclusive; all or townships 57; townships 58; all in range 11.

Sections 25 and 36 in township 56, all in range 12.

All the above described lands lying west of the fourth meridian.

Division No. 8

The south half of township 53, the west half of section 1, sections 2 to 11 inclusive, the west half of section 12 and sections 14 to 18 inclusive in township 54, all in range 9

The north half of township 55, township 59, all in range 10.

Township 59, in range 11.

Sections 24, 25 and 36 in township 59; in range 12.

All the above described lands lying west of the fourth meridian.

The west half of section 13, sections 14 to 23 inclusive, the west half of sections 24 and 25, sections 26 to 35 inclusive and the west half of section 36, all in township 61, sections 1, 2, 11 and 12 in township 62, all in range 9.

The north half of township 61, township 62, that portion of township 63 lying south of the Beaver River excepting thereout the east half of section 1 and that portion of the east half of section 12 lying south of the Beaver River, all in range 10.

Townships 60, 61, and 62, all in range 11.

The north half of section 23, sections 22 to 26 inclusive and 35 to 36 inclusive in township 62 sections 1 to 4 inclusive, 9 to 16 inclusive, the east half of section 33, sections 21 to 28 inclusive and 32 to 36 inclusive in township 61, section 1 to 3 inclusive, the north-east quarter of section 4 and sections 7 to 36 inclusive in township 62, all in range 12.

Sections 13, 24, 25 and 36 in township 62, in range 13.

All the above described lands lying west of the fourth meridian.

That the council of the said municipal district hereby constituted shall consist of seven councillors one councillor to be elected from each of the said electoral divisions.

That this order shall become effective on the 1st day of January, 1955, except for the purpose of Certificates of Assessment as required by section 322 and 396 of The School Act, 1950 and section 73 of The Municipal Hospitals Act for which purposes this order shall be deemed to have been in effect as of the 31st. day of December, 1954.

Dated at Edmonton, in the Province of Alberta, this 10th day of December, 1954.

S. Cochrane,
Minister of Municipal Affairs

Elk Point Catholic Separate School Project

(continued from Elk Point Page)

3 There are 294 Roman Catholics of Latin or Ukrainian or other rites who go to the school presently, with probably a maximum of 313 next September, when other children will be also centralized in Elk Point.

3 By a system of grants and taxes, the education of Elk Point Catholic children can be provided for in a manner desired by their parents and required by the School Act in a Separate School District. There are 24 children in this category, but 84 are exempted from less reliable sources. The education of Caldbeck Chasters coming outside of Elk Point district can also be provided in the Separate School at the discretion of the Board. In other communities this is being financed at no extra cost to the parents by Government Grants and by tuition fees paid by the Public School Division which collects the taxes from the parents concerned.

4 The St. Paul School Divisional Board will send to Elk Point the children of all districts whose schools have closed. They cannot designate whether these children attend the Public or the Separate School in Elk Point. They are charged a tuning fee for the privilege. The object in effect is for Elk Point Separate School to refuse to pay tuition fees for them there. It is true the Minister has already stated and understood in the name of the St Paul Divisional Board, for they are the only ones who can decide that this cannot be done. The Catholic parents of these appealing district of Catholic majority to make use of the School Act to withdraw from the St Paul School Division and provide their own training, and such tuition fees as they would easily be able to pay for their children at the Elk Point Catholic school. As a matter of fact, Dr Miller's attitude is liable to be a blessing in disguise, for the Catholic School of Elk Point would receive far more revenue from these adjoining districts by way of their own taxes than it would from the St Paul Divisional Board, who would probably pay tuition fees at their present rate One thing is certain No Catholic parent may, or ever will be asked to pay higher or double taxes to provide Catholic education for his children in this province of Alberta

5 According to the School Act when a Catholic School is established, the religious faith of the rate-payers determines the school priority they will be asked to support As also the Board of a Separate School District could refuse to pay tuition fees for the children of any Catholics of Elk Point who wish to attend the public School, and to turn the added burden of tuition fees over to the parents, who have been it is to-day But this is so like Dr Miller's attitude, which the future Separate School Board of Elk Point is certainly not obliged to follow.

6 The conduct of the future Catholic Separate School of Elk Point will also be in the hands of the future Separate School Board of Trustees, the provisions of the School Act Do you know, they will have almost as much revenue per child as the Divisional Board spends and some right now Educational costs increasing in Elk Point become a Catholic School will be formed there is Dr Miller's hope? — well, but it lacks substance We will hold the proposed new school, we will fill it with Catholic children, thus we will take from the St. Paul Divisional Board almost the same proportion of taxes as we do

Be Wise...now is the time to schedule your machines for winter servicing...

AND BEAT THE SPRING RUSH!

Last year it was awful. A late, wet spring and everybody wanting last-minute work done on their tractors and other farm machines at once. Maybe your crops suffered from delays caused by the spring rush. No need to let it happen again.

Let us come to your farm and inspect your McCormick-Farmall tractor and other McCormick machines, without charge now. Then schedule them for 100 % Sure Service in our shop well ahead of spring. Play Safe. Save money and time and avoid costly delays. Call us now!

CALENDAR GIRL, NO CHEESECAKE

Mary Sean, new teaching school at Hazeldale, Sask., could qualify as Canada's best-known calendar girl even though she never posed for cheesecake photos. She is 19 now, but her picture when she was three, when her grandfather first used her picture in a calendar that had nation-wide distribution. Her last mail, which started with the first use of her photograph, includes letters from correspondents in Halifax. The calendar she is holding shows her at age three.

Results Pass 50,000 Mark

The farmers' Union of Alberta announced today that with results 73 per cent of its local organizations having reported to the membership had passed the 50,000 mark

Campaign Director W L Bawden, who returned last week as direct Mopup operations are signed to secure Provincial farm body reaching its enrollment objective of 51 per cent expired, and the opinion that the membership would level off around 53,000

That would mean her explained that 26,000 heads of farm families had joined The Union's ranks — be only a couple of thousand short of our target for a year's majority It might well mean an immediate job to obtain the extra memberships The last 1,000, 2,000 climb up the mountain always is the hardest. And so are the last 1,000 members the hardest to enroll, he remarked

A subsidiary instrument-life every available farm, organization and an intensive campaign had been prepared, it was declared The plans call for the holding of 53 Substantial conventions within a three week period with Provincial

Area, and locals having to report by February 15th — to be given top priority attention. P.A. headquarters called Bawden of be uniquely some when the Peace River floors in B.C claimed to have almost doubled its membership over previous membership

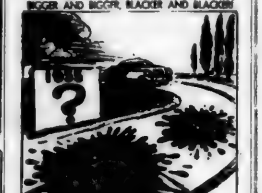
BIGGER AND BIGGER, BLACKER AND BLACKER



NO TIME TO THROW ROCKS
Sometimes one wonders a little about some of the attitudes of the community and make it talk. The rules current from observing and overhearing the comments of several of our local hockey fans during a game about a week ago.
These stemmed from the fact that the locals haven't been doing well, in fact have been taking a merciless and heart-breaking beating justified in discouraging the most courageous. The management and coach combined in their almost hopeless efforts to make the best of the situation, overlooking all apparent weaknesses.
Why is it that people must kick at something that is down, laugh and deride it? Would it not have been better for those who gained contagious disagreement to have stepped out in the dressing room with a word of comfort and perhaps maintaining a friendly hand with a few dollars in it, supporting with moral and financial support that is necessary to make the best of a bad situation.
May we humbly suggest that St. Paul lend material to compete in the Eastern Alberta League last year, but was turned down. This year, they are accepted at a time when their forces have been depleted and their management are making plans to really picking up It is also gratifying that a generous number of business men have co-operated to back the league. The impact of three players who already have proven the worth, of aggressiveness and systematic play. A coach and assistant coach are now on the payroll, full time.
St. Paul calm, those of them, The Lavoie, Donald and Baxter have agreed to lease three players two; Lavoie Hotel, free room, St. Paul Sales and Service has hired a men full time to keep in St Paul. Secretary have volunteered help, and others will have to be solicited for more money . . . we need it to keep our hands up where they belong, so that next year we will have a racketeer.
Probably one of the main reasons why our hockey material is depleted comes from a lack of ice both for coaching purposes, juvenile and junior ranks The ice been only re-placed in the past and we are pleased to note that some thought is being given the matter, and supervision of an organized league on the parochial outdoor skating rink is laying foundations for future hockey material in St. Paul.
The question of hiring a full time sports supervisor whose duties would keep him busy coaching winter sports as well as summer sports has been presented on several occasions.
We all understand the necessity of bringing up youngsters along the proper sportive trails, but it is difficult to expect the same men, year after year, who have their own business and personal occupations, to take on the added responsibility and de justice on all spheres.
We'd like to hear more discussion on the subject with perhaps some definite ideas towards that aim — employing a full time sports promoter for the healthy development of our youth.

REFORM AT LAST
At long last there is some real hope of reform in the way Parliament conducts the nation's business. Prime Minister St. Laurent has promised that, as an experiment, the many standing plans for several departments of the Government will be placed early in the session before a special committee for study and review.
That's an excellent idea provided the members of this committees are well informed and that their members attend seriously Their job will be to check and to dig, to separate the essential from the non-essential. If they do that, well they can save Parliament time and the taxpayers money.
Until now the usual practice has been for most estimates to be held until the end of the session was in sight. Then, in the last few days, hundreds of millions of dollars of government expenditure would be rushed through a tired house, with no hope of any real appraisal or understanding by the great majority of private members. In the meantime, with little real work to do, the members indulge in every dreary specialty of no interest except to a few voters back home.

CAR COMPETITION KEEN
Amid the brow-wrinkling imponderables now clouding the outline of the Canadian Auto Market, there's agreement on this, says Jack MacArthur, in The Financial Post: Competition among automakers the year will make last year's sales battle look like a pink tea party.
Only one thing could throw this calculation: Indefinite continuance of the Ford strike.
If an extended walkout continues to paralyze Ford production and prevents Ford from hitting the big spring and summer sales period, Canada could suddenly find itself short of new cars.
But there are strengthening signs that 1,000 Ford workers will soon have the picket line for the precious lion.

MALLAIG BULLETIN
C. R. BELLEVILLE, LOCAL REPRESENTATIVE

Beaver River NEWS

The school closed last year with [illegible] Some children have been in the hospital at Dec. 23 All parents and friends were invited Santa arrived on time to pass out the things of treats to the children
Among some of the guests in the district for Xmas holidays were Mr. and Mrs. John Kane & son Robert, of Edmonton at the home of Mr. and Mrs. William Kane. The Misses Mary and Shirley Miller of Edmonton at the J. Miller home. Mr. and Mrs. Don Fairchild and [illegible] Mrs. Fairchild and Mrs. [illegible] of Cambridge at the Beckford home Mr. and Mrs. [illegible] Sunset and family of Grande Prairie, Mrs. Blakeman and [illegible] and Mr. and Mrs. Homer [illegible] at the residence of the J. Columbian home Paul Mabe Lemay of Edmonton and Charlotte family of Mallaig at the J. Vallee home
Dusty Carleton, who has been working [illegible] was also home for Xmas We understand he had the misfortune to break his arm so was unable to work Beaver re-covery Plant.
Mrs. J. Vallee as well as Rose Miller are in hospitalized during the holiday season.
Mr. Carl Wahlsky has been visiting in Edmonton for a couple of weeks.
Mr. and Mrs. H. Bernfield and family also New Year's day visited at the Dan Zaleski home of Ida Point
Trapping has been a lot of fun during the months of the district but it is hoped with cold weather it may be checked
A card party is to be held at the J. Vallee home this Friday evening Jan 14

Expresses Thanks To Mailers

The Editor,
The St. Paul Journal,
Dear Sir:
May I, through you, extend to the people of Canada the very warm thanks of myself and other members of the Post Office staffs from coast to coast for the exceptional co-operation extended in the mailing of their Christmas cards and gifts.
Reports now being received from postmasters in all parts of the country indicate clearly that more than ever before, the public showed its sincerity to mail the at the earliest possible date, with the result that the postal staffs were able to effect most Christmas deliveries in good time for the holiday
The reports also indicate that the proportion of correctly addressed and well-packaged mail was higher than ever before, although, as in the past, delays and difficulties were experienced as a result in failure in the part of some mailers to observe good mailing practices.
Much of the credit for the success achieved in our handling of the Christmas mails must, of course, go to the newspapers, who in many cases took great pains to remind the public of the advantages to be gained in observing the various mailing dates and in correctly addressing and packaging their mail. Needless to say, the co-operation has been much appreciated.
Yours sincerely,
W. J. Turnbull,
Deputy Postmaster General

I REMEMBER

We, the editor and publisher of this paper, have decided to run a series of articles under the above heading, dealing with the history of the St. Paul district.

If this truth would not be a splendid time to have a diplomatic visit with our British Columbia friends and their Provincial administration.
Driving in a bit of history, it develops that until the fourth decade of the nineteenth century, Britain claimed and occupied not only the Fraser, but the entire Columbia, from the mountains to the sea. The Oregon Treaty of 1846, fixing the boundary on the 49th parallel, gave the United States roughly half the Columbia, while the Fraser remained entirely within territory which has become British Columbia.
At that time and in the early days of fur trade and settlement, the Columbia seemed to have little value except for navigation between the mouth Today it is soon that, perhaps the Largest single source of potential power left in Western America
The Social Credit Government in B.C. is seeking to export power potential via the Columbia River It is difficult to understand how a statement by a public men in B.C should even outander, parting with power potential [illegible] T hi s would indicate lack of experience and sound judgment. Less than 20 years ago the Liberal Government of Ontario, believed their power had been developed to the extent of its primary demands.
The late Ontario Premier Mitchell Hepburn, applied to the Federal government for a permit to export power in vie wof their abundant supply, this was declined by the late Premier. Mackenzie King. Mr Hepburn came out of Mr King's office quite furious, made a statement to the press correspondents (such as Mr Sarc ent of B.C is making) if they want a fight they are going to get it."
This vast surplus of power as seen by the Hepburn government in 1937, remained in the heart open of a desolate [illegible] in Ontario, having used up all available power, ran into a shortage They were obliged to have brownouts, electricity in business and residential buildings run only a few hours a day. There was no power to run the Welland Canal, lighting was reduced to a minimum, in other words, the Hepburn government was completely wrong in the assessment of their power needs These facts should be of considerable interest to the B.C Social Credit government.
The Columbia River Treaty becomes a turbulent waters river in 1960. he supposed he was on the Columbia As a pioneer Alexander Mackenzie discovered a mighty tributary flowing in from the eastward, he named it the Thompson in honor of another great explorer, David Thompson The Thompson rises close to the Columbia and consequently the two rivers could be joined. There is an approximate seven miles that separates the main channel of the Columbia and the source of the Thompson at Samuel Lake.
While it is not appear as using sound judgment, by waiting until the Federal government engineers find out if this continual water-shed cannot be overcome, by raising the Columbia's level, before committing Canada to a new international power development One of the world's largest power schemes is in question, export of the power should be held in abeyance until the larger possibilities are thoroughly investigated.
If Thompson's river can be joined with Fraser's, the use and distribution of the western waters will be altered in a fashion unconceivable to their orginal explorer's wildest dreams As the B.C. government insists on keeping power to the U.S. the Federal government will be asked at the present session to amend the law Unless the part is no push the amendment will be approved unanimously by all, except the Social Credit federal members

Mallaig News

We across Sunday morning to witness our first [illegible] weather [illegible] The Liberal Government was only supported by a strong north west wind, had all indications of a blizzard. This continued most of the day but by up towards evening some reports of heavy snowfall in the prairies and a very mild storm nature After all we are almost into the month of February, and some [illegible] weather is to be expected.

Bernice Guilbault is a visitor to Edmonton this week for a minor operation from the effects of a bout with polio, she is making very excellent progress towards complete recovery.

Asst Principal, Mr. O LaFleur has returned from the interment of his father at Kitchener, Ont. Mr. Marcel Bonnetta was visited at Mallaig over the weekend

We hear the Dances in Lavoisan have some of their Inspectors out in the districts immediately south of us and the boys that have not filed license The report are keeping the Provincial Licensing Agency lads pretty busy

More Carelessness Should Read Manual

More people should read Hansard, the official report of debates in the House of Commons By following the debates printed in Hansard, the average citizen can keep up with the operations of the masters discussed in Parliament and judge the effectiveness of his MP, and can pick up an astonishing amount of detailed information that is crowded out of the columns of newspapers.

CARD OF THANKS

Our sincere thanks are extended to all our friends and neighbors who have kind assistance, prayers and tributes greatly helped to alleviate suffering during our recent bereavement.
O. E. LaFleur and Family

Non plus ultra to carelessness is a certain [illegible] on the floor sides at sympathetic an contributor a short note thereof is a sort d'en pere bien sins

Boat Clubs Enjoy Meeting

The members of the St Leo Boat Club enjoyed meeting members of the Beaver Crossing, Ashmont and Mallaig Clubs on January 22 nd Our thanks go out to Mr and Mrs Bendelbauer who welcomed us at their Beaver River Ranch
Mr Cooper from edmonton, led a very instructive discussion on the condemnation of the good beef animal He showed us how to choose the best type of animal for beef purposes He demonstrated his points with four well bred bulls belonging to Mr Schmeisbauer
The clubs were then asked to judge the bulls and animal "B" was chosen unanimously as top bull Joseph Corbierre of Mallaig made a very intelligent choice of the best of four bulldom
Altogether we had a very enjoyable day and wish to thank Mr Chevrier and Mr Sutton for arranging that rally Thanks also to the kind people who used their cars to transport us there

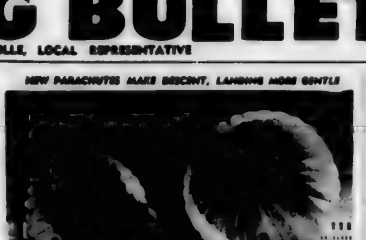
NEW PARACHUTES MAKES DESCENT, LANDING MORE GENTLE



Canada's paratroops will get a new kind of parachute next month Adopted as standard equipment by the Canadian Army, the new apparatus is known as the T10 and replaces the veteran T7. Developed in the U.S. and now manufactured in Canada, the T10 almost completely eliminates the opening jerk and oscillation to the air The rate of descent has been reduced from about 22 feet per second to 16 feet, and landings are therefore much more gentle. Old-style chutes now in stock will be used to drop equipment A cluster of seven, for example, can lower a jeep from a speeding transport plane Paratroops ground-testing the T7, left, and the T10 show the difference in the sizes of the canopies of the two chutes

EDITORIAL

ATTENTION ALBERTA CITIES

Most of the cities in North America have by-laws governing the use, art and emitting pass-time of skywalking These by-laws are generally enforced with increasing severity during the dark winter months
It comes as a surprise to learn that in the biggest city of all, New York, the pedestrian not only is free to step off the curb anywhere at any time but also stands as good a chance, or reaching the opposite curb, (statistically speaking) as any of his fellow citizens in other more regimented cities where such by-laws exist.
It may be of interest to, anti-jaywalking by-laws are designed to protect the tempers of the motorists, not the pedestrians life A dead vowe, after all, isn't nearly so noisy and vociferous before a car entering wheel, caught in a traffic jam, exposing his vexedness.

Bang's Disease Question Box

By DR. R. E. CHEVRETTE, D.S.

QUESTION — How does the disease get into a herd?

ANSWER — Usually by the purchase of an infected animal. A blood test taken by a veterinarian will say whether the cow is infected or not. Cure on buying additions is very important. Bringing over herd replacements is the best plan, or buy only vaccinated stock. One man this year brought in 30 pregnant Bang's reactors and infected his herd and most of them aborted. This could have been prevented to a great extent if he had purchased only cows which had been vaccinated or calves against the disease.

QUESTION — How can I protect my family against undulant fever?

ANSWER — Have the milk ever blood tested by a veterinarian and only use milk from Bang's free cows. If that can't be done, pasteurizing, or boiling the milk for three minutes, will render the milk safe to drink. Personal cleanliness when helping with calving cases will help kill any Bang's bacteria on hands and arms.

QUESTION — How should I clean up my infected herd?

ANSWER — The most practical and economical method is to follow a program of yearly calfhood vaccination. As these vaccinates matures the infected cows should be sold for slaughter and in a period of a few years the disease can be practically eliminated. Proof of this is the excellent results in the University of Alberta herd, on ranches and in dairy herds in Alberta.

If there were only a few infected animals they could be sold for slaughter right at the first, but the test and slaughter policy hasn't proved successful in large infected herds. Consult your veterinarian before making these outlays though, as his advice may avoid costly mistakes.

QUESTION — Should vaccination be done in a clean herd?

ANSWER — Definitely yes, to build up a Bang's resistant herd. With a resistant herd, a outbreak doesn't need to worry too much if his neighbor's herd becomes infected. He may have the odd calf abort but certainly won't have an abortion storm and lose six-upwards of dollars in great losses.

QUESTION — What is Calfhood vaccination?

ANSWER — It is the vaccination of calves with Brucella-abortus cream 3 months, giving them a good resistance against Bang's disease so that they won't lose their calves when their heifers are and take their place in the breeding herd. Calfhood vaccination isn't 100 percent perfect, but has proven to be about 95 per cent effective, which is very good.

QUESTION — Does the vaccine cause abortion?

ANSWER — No. The vaccine is not strong enough to cause the disease, but it is strong enough to build up a good resistance, as proven in many Alberta herds.

QUESTION — Does vaccination interfere with breeding efficiency?

ANSWER — No, according to report of the United States Livestock Sanitary Board Executive in Alberta shows no difference in breeding records in vaccinated or non-vaccinated cows. If breeding stock, call your veterinarian to work for other causes.

QUESTION — At what age should calves be vaccinated?

ANSWER — To be classified as official vaccinates, calves must be vaccinated between the first day of the sixth month and the 1st day of the eighth month of age. Calves can be vaccinated though down to four months and up to nine or ten months in areas where they are for herd replacement is Pastured owners should get calves all done as official vaccinates, as they can sell at the Yellow Brand, almost three last up to 22 months after vaccination.

QUESTION — Are vaccinates worth more money?

ANSWER — Yes, stag buyers are only purchasing vaccinates and they are paying $10.00 to $12.00 more. One dairyman in Liberty paid $60.00 extra each for several heifers because they had been vaccinated as calves (the reacher got $18.00 extra each as vaccinated heifers.

Vaccinated stock are the only kind that should be bought as additions to infected herds.

QUESTION — How are vaccinates identified?

ANSWER — A numbered tamperproof tag is put in the ear and that number is registered on the vaccination certificate that the veterinarian gives to the owner.

QUESTION — Who does the vaccinating?

ANSWER — The practicing veterinarians in the province. To get calves vaccinated, contact your local veterinarian or list them with your district agriculturists, or Agriculture Service Board.

QUESTION — Are there many calves vaccinated in Alberta?

ANSWER — 147,000 calves were vaccinated in Alberta in 1952 compared to 6,700 in 1947. Alberta has the second highest number of calves vaccinated in Canada, only Ontario has a few more. Provincial Farmers' associations are Brucellosis Restricted Areas and are vaccinating every heifer calf. In a few years, the whole cattle population in these municipalities will be Bang's resistant. Losses from the disease, and cases of undulant fever in humans practically eliminated. Two municipalities will be vaccinating their fifth calf crop this Fall. They report that the enthusiasm are very pleased with the program, as their losses are negligible compared to heavy losses a few years ago.

Marconi perfected wireless telegraphy in Nova Scotia at the turn of the century. Canada gave him an $80,000 grant to help with his experiments.

HONOR PRINTING TRADE THIS MONTH

Construction of the printing industry in the program of celebration will be recognized this month by the Journal, as observed by the International Association of Printing House Craftsmen. Hailing as the oldest craft in the world, printing has, for it was there the first printing press in the country was established. The first printing was brought to Canada by Samuel Cowan 1800 years ago. It was not until some 100 years later that newspapers began to be published. The first regular type of printing was begun. The book, shown, is believed to be one of the first three books printed in Canada. It was published in Quebec by printer by printed in Quebec 1800.

Today's huge newspaper and magazine presses rely wholly thereto in turn on the edition, and in so doing support Canada's most profitable industry, that of production of wood pulp from which the paper is made. Last week was a Save Christian month who pioneered in production of paper from wood pulp and thereby contributed the basic step in the progress which has made the printing industry — the Mother of Progress — more than 1.5 billion Canadian and U.S. newspapers and magazines, which will coincide with the birthday of one of the most famous journals of the time, Benjamin Franklin.

Canadian Quiz

1. Do Canadian trappers take more pelts of the red fox or the white fox?

2. Since 1939 has the total of federal income taxes paid by Canadians increased by 50% per cent, 1,000 per cent, 1,000 per cent?

3. Of the nine dependents to attempt the trip over Niagara Falls, how many survived?

4. What proportion of Canada's population is in the sixteen yrs. and under age group?

5. Are there more or less Canadians now employed in manufacturing $. Four surveyed. Trappers take twice as many pelts of the white fox as of the red. 4. Nearly one third. 5. The total has increased by 1,000 per cent.

Other Side of Question Re: Separate School In Elk Point

(continued from Elk Point Page)

Last but not least if this scheme is put into operation then what about Catholic teachers in the RC Public schools? They too will have to be separated and I would sincerely hate to see that come to pass because they are good teachers and part of our community.

If these gentlemen had put their energy into forward planning risk for our young people, Wright or non-com. Messrs. would be happy, then physically, mentally and morally good, it would do more for our community than trying to dismember the district. Then we could all have said to them, "well done and God bless you all."

Yours Truly,
Ray Ware

In the unsigned pamphlet distributed in the Roman Catholic electors of Elk Point in 1948, and later printed in the St Paul Journal, the writer expresses his own views on the question of religious instruction in schools.

There is however another view at least equally reasonable, held by many Roman Catholics and Protestants alike namely that by giving religious instruction in schools the spiritual impact of the teaching is lost and instead of it being a profound religious experience, it is merely something else to study or to many children more mental drudgery.

A Roman Catholic separate school in a small community like Elk Point will promote untold bitterness and ill-feeling between the two groups of children involved. It decides children who have heretofore been friendly playmates into separate enemy factions between whom organized gang warfare inevitably develops.

There are at present 42 R.C children attending Elk Point Public School in grades 1 to 9 and 9 in high school. This means at most a two-room Separate school ungraded, where two teachers would attempt to give the work three in Public School by one or more teachers to each grade 11 is a long step backward from an educational standpoint.

In the Roman Catholic schools at present operating in the St Paul area, one hour each morning is given to teaching French and a half hour each afternoon given to teaching religion This leaves only four hours a day instead of five and one-half for regular school subjects, which is little enough for the present Alberta curriculum of studies.

As regards the expense of running the school — of it kept at a one-room school with a self-sacrificing R.C nun doing the teaching for nothing it can be run very cheaply. If, however, the school is operated with adequate teaching staff and equipment, taxes are certain to be high. The assessment of the proposed Separate School is too low to permit much expenditure on staff, equipment and transportation without a greatly increased mill rate The School Board of the Separate School has the power to levy what taxes it considers necessary, on the ratepayers are at their mercy as far as taxes are concerned.

The anonymous pamphlet is misleading as to the amount of government grants. The building grant per room for a school up to 5 rooms is $4,000. A modern school costs at least $10,000 per room, so the grant covers only 40 per cent not 50 per cent as implied in the statement. Also implied in the statement referred to large city schools of brick or reinforced concrete buildings.

The pamphlet is also misleading on the subject of tuition fees. Once the Separate School is started any of its children wishing to attend the Provincial High or Public School must pay tuition fees as follows:

Grades one to six — $60.00 per year. Grades seven to nine — $75.00 per year. Grades ten to twelve — $90 per year

On the other hand the Elk Point Public Division of [illegible] will on several pay no fees to the Separate School. The divisions says tuition fees to the town of St Paul because it has no Divisional school there. Here, where we have an excellent Public School with all grades taught, no tuition fees will be paid.

The Division, is unable to obtain the real value of the Separate School District To do so would probably cause trouble between the two factions being Catholic and Protestant. If it were done, it would be at a cost of from fifty to sixty cents per day per pupil, payable monthly, which is the approximate cost to the Division.

If you vote in favor of establishing a R.C Separate School at Elk Point, you are deliberately throwing away all the effort and money you as ratepayers and persons have put into the present excellent Public School set up. Use your common sense and refuse to be stampeded into this questionable enterprise

To vote on the plebiscite at the meeting one must be:

1 A Canadian citizen, 21 years of age, and a resident of the district for at least thirty days.

2 Officially of the Roman Catholic faith.

3. The owner of property in the district liable to assessment for school purposes.

4 The tenant of property assessable for school purposes.

5 The husband, wife, son, daughter, father or mother of the person described in 3 or 4, if qualified as in 1 and 2

No Protestant owned property may be assessed for the R.C Separate school purposes. It is therefore questionable whether the Catholic tenant of Protestant on this question. The school Act Property has any right to vote is not clear on this point.

This statement is not issued at the request of or by the said privy of the St. Paul School Division, but is a personal presentation of facts available to anyone interested.

TRAFFIC SAFETY LANE

By J. W. McKAY
Inspector, Highway Traffic Board, Edmonton.

Nature of the Driver
Accidents! Accidents! Accidents! Why do we always talk about accidents?

Well, for one reason, they are a fact. They are facts which take innocent lives. Fatal accidents can happen with one person, the driver, and one car. Many fatalities have happened in solo driving. This being the case, then, each individual driver should always be alert to this fact.

We can again, to what factors and issues can accidents be attributed?

The answer comes back from our statisticians and experts, — "Speed — Liquor — Recklessness."

Do many individual drivers cling to the notion that, "accidents just happen to the other fellow?" Can the high toll on our highways be regarded simply as the end-product of "carelessness?" Expert opinion holds that everyone for himself can then these must be found.

The rapid development of our modern highway system has created many problems, but provided for the high accident rate during these are precautions which, and this example, none of which can serve to provide a sound basis upon which to develop protective safety programs. For example, such fallacious reasons as the following are frequently regarded as true remedies for inefficient motor transportation and street-and-highway conditions.

1 Only blow-out proof tires should be manufactured.

2 Traffic signals should be put on every road.

3 Many persons should be arrested.

4 Speed governors installed in automobiles.

5 Cars should be built smaller.

6 Roads should be straighter and wider.

7 Fines for violations should be raised.

8 Trucks and buses should operate on separate roads.

The foregoing suggestions are good reasons, but they have their place and are not the basic factors in safety. The solution of the accident problem must be sought in basic factors that necessarily involve people, inter-relationships. Among these are:

1 Street and highway use and design.

2 Vehicle construction and operation.

3 Enforcement policies and their application.

4 Vehicle-use legislation and driver licensing.

5 Public education — driver education.

The institution of the driver on survey of his physical, mental, and emotional qualifications.

While each of the above factors is important in the accident-reduction program, it is upon the driver that paramount attention must be focused. Statistics indicate that the human factors such as bad habits, ignorance, lack of skill, various physical disabilities, wrong attitudes and other personal limitations account for the majority of accidents.

St. Paul JOURNAL

THE JOURNAL OF ST. PAUL, ALBERTA — THURSDAY, JANUARY 20th, 1955

Other Side Of The Question Re: Why A Separate School In Elk Point

The Editor
The St Paul Journal
Dear Sir

Hope you will find the space in your valuable paper for the other side of the question re separate school in Elk Point.

First, why no signatures at the end of the letter or did you wish that letter to be anonymous? Personally I think we have a good school system in Elk Point today and a place in which I am proud to live. Now we have a few gentlemen that are trying their utmost to dissolute us when the world today is trying to get away from that word separate. And the outcome of it is the United Nations, NATO and the S.E. Asia organization. All creeds, races and colors working together for the betterment of the whole. These gentlemen of the separate school committee, in all probability have very little if any children in the Elk Point School. To be very interested you should have children of your own attending school, and to say that the taxes would remain the same as reductions to say the least, being that our School Division is already scrutinizing to make both ends meet financially.

Now to build another school our district is not large enough. One never runs like 24 for the farmers then what.

Another point, I may bring up in the pupils. I'll wager not 1 per cent of the pupils on their own want a change, and after all they are the citizens of tomorrow.

And now for the teachers, we have some good ones of both religions who keep on turn guided those pupils through the various grades, and some of those same pupils, as many of us know, have gone out in the world and made a name for themselves.

Schools are for the three R's I have always been told and being we have Dene Catholic Churches in Elk Point, surely between them they can teach all their children should have in their churches and Sunday schools as they can become good law abiding citizens.

In reading the letter written by the committee, in all months cases like a political campaign with its quotations of statistics and School Acts.

(continued on page 9)

Most of Canada will have normal or above normal temperatures for the next 30 days, according to the meteorologists. Only cold period expected is Southern Ontario and part of the maritimes. This will occur the period from mid-January until mid-February.

Guides Burn Their Toasts

Since 1st September the First Elk Point Guide Co. has doubled its membership and all but two have been enrolled. The senior group is now working for the Golden Hind Badge under the guidance of Mrs B Cain and Mrs A. Johnson. The strange burning smells possibly noticed by townspeople the last two Thursday can be explained best by the girls who triumphantly returned home the toast and announced that they had passed their first lighting test. Another group were busy practising First Aid.

Thursday, January 20th, the Guides had a successful banning party. They would like to tender a special thanks to those who provided transportation. Mrs Hatchard, Mrs. Fenton, and Mr G Meahams.

F.U.A. NEWS

The regular monthly meeting of the Elk Point FUA Local No. 438 was held at the home of L. Babcock on January 18

Owing to the extra work at he Hood Office following the Round-up Day there was little correspondence to attend to.

It is interesting to know that the F.U.A. now has a total membership of over 50,000

The next meeting is to be held at Ronald Flanders on Sunday February 20 at 2.30 p.m. All members are requested to attend as considerable business has been lined up for that day

Conference Of Home & School

On January 22 a conference of the Provincial Executive of Home & School Associations was successfully conducted in the St. Paul School. Interesting information and talks were given by Mr. F. Barnes, Mr. Johnson, Mrs Mackenzie and Mrs Hunter

The program got under way with a "buzz session" the topic of which was "Why have we come today" The answers ranged from serious thoughts regarding organization of local Home and School Associations, to the humorously frank reply, "I came to play the piano."

An interesting point made by Mrs Mackenzie revealed that the Home and School Association is the International Organization, having members in 32 countries Following a film on Discussion of Vertuspeak, successful programs were reported by members from Hafenburg, Glendon, Wuregate, Grand Centre, St. Paul, Mary Hill, Spedden, Bon Accord, Smoky Lake and Bellis.

Any group wishing to organize can obtain a bit of information and suggestions by writing to Mrs. Ken Terry, Association Headquarters in Calgary

Representatives from Elk Point included Miss M. Lefton, Mrs. Bartling and Mrs. Van Aarssen.

Old Timers Committee Meet

A committee appointed by the Elk Point Old Timers' Association met at the home of Mrs. A. Bartling to arrange the details of a Valentine Party to be held in the Legion Hall on Friday February 11. It will take the form of a social evening with old time dancing and cards. Old timers and new are welcome to come.

CURLING NEWS

The Elk Point Farmers Bonspiel, participated in by sixteen rinks was held Friday and Saturday January 31 and 42 There were two events

In the Fun event, Bill Keller skipping a rink consisting of Gus Helquist, Charlie Keller and Ole Helquist edged the Derwent rink of Marvin Wilson, Max Brandt, John Perrins and Clifford Willmer in an extra end thriller to win the trophy and first prize Third went to the Aarts rink and fourth to Bill Bartling.

In the Rye Event, MacPhee of Clandonald topped Lyndhurst of Derwent to end a very successful Farmers Bonspiel

All prizes were donated by the local business places

At long last the coveted Derwberry Grand Challenge Cup has been brought to Elk Point. Members are off to Paul Stepps, Peter Yewchuk, Jack Bishop and Tom Lambe.

The Elk Point Lady Curlers were represented at the Derwent Bonspiel by Mrs J. Trudger, Mrs J. Millholland, Mrs. Dyrda and Mrs. T. Lambe The team placed third in the Second Event.

Four rinks skipped by Paul Stepps, Hank Ereen, Harry Shoverdak and John Bykowski were entered in the St Paul Open Bonspiel but were not successful in bringing home any big trophies.

The Bonnyville Curling Rink, on Sunday afternoon, January 23, was the scene of a round robin play-off to determine the team representative in the Taylor & Pearson Provincial High School Bonspiel to be held in Edmonton next week.

Bonnyville, Cold Lake, Elk Point, St Paul and Heinsburg were represented and Cold Lake edged Elk Point to win the playoffs for the second consecutive time.

Elk Point's rink was skipped by James Kreuth with Morris Anderchid, Milton Lawrenson second, and Max Perrin, lead.

R.C. Separate School Project

In an article contributed to the Elk Point population a few days ago, which was signed by Dr F G Miller and was in reply to an article published in the St Paul Journal by the Separate School Committee," whose names are on the posters under the Separate School formation meeting, there are several statements of serious misnomer, of fact, that should be rectified for the sake of understanding the problem correctly.

1 There is no religious teaching in Elk Point school and probably will not be any no matter how large the school will grow. There is an old resolution of board to that effect. There is Dr Miller's

NEWS

LAMBERTON RESULTS

Paul Letourneau-Stolts combination first round robin tourney

These two combines found themselves to some exhaustion at the Cyrus Lamberton night but came out top, defeating the almost invincible Parsons - Letourneau pair in the finals.

The first game was staged on court 3 between Letourneau-Stolts and Richard-Moore. These two teams staged a very fast game which ended with a slight lead for the L.S. team. Richards terrific placement shots were hurled back with overwhelming agility

The second game between Parsons-Letourneau and Richard-Moore ended with the former team in front. Richard displayed a magnificent form but, the opposition's constant passing piped off in the end.

The third match was between the high school girls, Kay Hamm vs Huggins-Dupuis. This was a close contest which ended with Zak-Bruneau as the better performers. The fourth set ended with Zak-Bruneau and Demers-Gordy These two teams have very high possibilities with a little practice. The eventual winners of this hard fought battle were Demers-Gordy

The girl's round was as follows: Letourneau-Stolts defeating Zak-Bruneau, and Parsons-Letourneau defeating Demers-Gordy

Women's Badminton Results

Unfortunately, several of the women were absent on the previous day night for various reasons and a record rush could not be completed Nevertheless a brush-ing contest was held between Traiel-Castle and Homemish-Desmarais. The former team started with a 16-9 lead but these there sighted when the latter tied the score and were completed of the rally with a 17-16 score. The other games were completed on Wednesday, too late for the press.

Fellow members! We have finally received another four rackets and the nets have been thrown out of do-lies. This should give everybody a chance to practice even during contest games. After the season games are completed we will have Monday and Wednesday open for general practice and challenges. We urge everybody to attend in order to better their playing and encourage others to do so.

Would like a volunteer for editor of this column.

Book of the Week

(Continued from page 1)

readers and drilled him right out of the main event semi-final

Good friend Louis Ringuette one of the boys representing Edmonton motors curled very well in the bonspiel but was finally reverted to "consolation" in his time home and Dale were along to keep an eye posted and see him safely home

Happy, indeed, we were to welcome our genial friend Tom McPherson, formerly bush manager here and now of Vermilion. He was accompanied by the Mrs. and Alec "Trusting stage hand" of his ship, Bill Sutherland, "seasoned man have given him a leg to the town and he's a hard man to keep track of off the ice."

• • •

Ken Whittenbolme took on a double shift keeping the drivers posted up to date and curling duties which kept him out of bed for practically the whole three days.

• • •

A quiet in St. Paul without Bert Claude would lack all color and "zonse" Bert is one of those fellows who can't be idle so gallop away with a game leaving his opponent miles behind or vice versa Whatever way it turns out, Bert has proved beam his good humor and remains the life of the curling room and the curling house.

LAKEVIEW WIN SUNDAY

TOURNEY JOURNEY SCOUTS

Nothing can hold the St. Paul Sunshine down They had to overcome two losses and travelling card conditions yet they came out on top of many pile and bravely continued on the Parchelle curling rink.

Five games of the tournament featuring four entries was played between the St Paul Scouts and Blue Quills' with the shot out honors going to St Paul, 4-0. The Scouts took a commanding lead in the second fixture 4-1 moving into evening finals

They kept the power on and blew themselves to a bowling alley feast.

St. Paul Scouts are being drilled by Cecil Bellehumeur and the boys are over 14 years of age. It is hoped they could have played the game more completely in the arena, but apparently previous commitments ruled out the possibility

Scouts are looking for a troop in the Parish Hall to help finance some more of the rink. Tickets are being currently sold for the 30th, at 50 games for 50c. Your encouragement and support is solicited.

Agricultural Short Courses Present Guest Speakers Discussing Hog Marketing, Forage, Dairy Industry

St. Paul Farmers Shipping Better Hogs Feed and Labor Important in Dairying

The first Agricultural Short Course to be held in St Paul for a number of years drew an audience of nearly 70 farmers last Thursday and Friday. Although the comparatively small turnout was somewhat disappointing to the sponsoring organizations, the St. Paul Agricultural Society Agricultural Service Board and the Department of Agriculture, the interest shown by those present made the sponsors feel that it adequately served its purpose.

The speakers, all well known in agricultural circles spoke on a wide variety of topics of interest to the local farmers Mike Syrnchuk, Supervisor of the Advanced Registry Station in Edmonton outlined, in his slide illustrated talk, what was required to produce grade A hogs

He emphasized the fact that to produce top grade lean it was necessary to start with the type of hog which would give it. Then by proper feeding and management, feed that type of hog to produce the fat grade. It was the farmers tendency to feed too much fat, he said.

He had a word of praise for the farmers in the St. Paul area. They are producing a considerably better than average quality hogs to the Edmonton market. This, he said was a complete reversal of the situation which existed 20 to 25 years ago when the quality of hogs from this district was the poorest in the province He, however, warned the farmers not to become too complacent about their present accomplishment and to continue to improve the quality of their market lean. He got a greater percentage of them in the top grades than the Edmonton packers, with the Livestock Branch, Alberta Department of Agriculture, Edmonton, was the next speaker. He pointed out that in Edmonton last year 1,000 more hogs were graded by the Alberta Hogs graded 'A' — and over 16 per cent were in the 'C' grade He left that it was up to the producers to do something about this situation. Much could be done by careful selection of breeding stock from approved boars, proper feeding of hogs The feeding of smaller litters, more concentrated rations until they reach 180 lbs. then adding lighter feed such as more oats or 10 per cent alfalfa meal until the hogs reached the market weight of 200 lbs will result in higher grades at no extra cost He also dealt with swine disease and suggested that far are should consult their local veterinarian at least once a year about their herds. He stated that Bull Pen of Rhubarb was fast becoming the gay test scourge of the herds and the only solution was to dispose of the entire herd and then thoroughly disinfect all hog areas and begin with a disease free herd

On Friday afternoon the speakers dealt with grain and forage crops and dairy cattle. The session was opened by Mr. W. E. Hall, of the Plant Science Department of the University of Alberta, discussing his recommendations on grain and forage crops. For pasture and hay he felt that Brome Grass mixture was about the best he excelled. He stated that a shortage of hay produced twice as much forage per acre as pasture needed alone. He was very important in his recommendations for the seeding of sweet clover in their mixtures, grain crops and sweet clover were not adverse to their growth and gave to much competition to the weaker and slower growing alfalfa and brome seedings thus reducing the eventual stand of forage.

"Securing forage crops in their first year was" he said, "a hard mistake and should never be practiced." In grain crops he recommended that farmers stick to the following varieties: wheat — Saunders and Thatcher; Oats — Eagle and Laredo with Rodney, a new variety showing up very well

(Please turn to page 10)

Coming Events

Square Dance on February 4th, Friday, Legion Hall. Art Bagley, Vegreville, calling.

Meeting of the Ladies of the St. Thomas Hospital Auxiliary, Wednesday, February 9, 2:30 p.m.

...LOOK WHAT ARROS ARE DOING!

While other Big Four and Western Conference clubs are in their 3 a succeeding agreements with the Arros, Calgary has thrown a monkey wrench into the proposed pact. It's the public as a scheduled game. They are objecting to the Arros playing on Sunday already signed by the Double Blue. Two of the Arros' games are scheduled for Calgary and the Arros owners are protesting. Arros' general manager Bert Warburton, left, Tiger of the Arros, and Lou Hudson, right, of Detroit Lions. They are both Shamrock.

WEDDING

Pankiw — Lypowy

Myrnam, Greek Orthodox Church, was the scene of a pretty wedding on Saturday, January 22, when Miss Mary Lypowy, daughter of Mr. and Mrs. John Lypowy of Myrnam, became the bride of Mr. Peter Pankiw, son of Mr. and Mrs. Peter Pankiw of Lac La Biche.

The bride was given in marriage by her father. She wore a full-length lace gown, heart-shaped crown and veil and carried pink and chrysanthemums.

Bridesmaid was Miss Mary Lypowy and corsage and carried a bouquet. She carried a bouquet of red and white roses.

The bride's mother was dressed in a navy and white dress with matching accessories.

Best man was Peter Pankiw, brother of the groom. Mary Kaskowsky, attired respectively in yellow net, green taffeta gown and lace gowns Best man, Eugene Lypowy, Creek Bhakal, Miss Gerrish, Mike Mazurenuk. Master of honor was Mrs. Jessie Pankiw.

Wedding reception was held at the home of the bride's parents and a dance in the evening at Lac La Biche hall Couple will take up residence at Cumbria.

Firemen Take On Old-Timers In Hockey Game

At The Arena On Friday, February 5

We'd hate to make any guesses as to the outcome of this contest — we'll merely bring you a report following the Friday evening at the Arena, the game will be played, time of the month of the old timers when the firemen were in great form. Elkin speared one and on squad B. Demchuk, one and on squad B. Chorak, one; Boudreau, one and assist.

It might be the impression of the onlooker that St. Paul, playing their first game of the season is trying to hard with a consequent tenseness that impairs them around the net. Can't blame anybody for trying and if that's the only reason behind the loss it's at least a comforting one.

• • •

Of special interest at Vegreville was the fact that the St. Paul crowd, cheering for the Firemen squelched, if not outnumbered the local attendance The excitement and heat of the game spread to the bleachers and there were some barbourer grudging

Thanks to Bedard & Sons for loaning us a dozen free shirts for the boys At $3.75 per it's a great help to the treasury

We nearly got a stick rapped around our head at first last week when we declared that our new navigator could Paul Dahl was only 19 He's young, but not that green, says he, so we're adding a few more years Sorry Paul

Harvests Lose All Hope For Eastern League Finals, Are Eliminated

Blazing, Thrilling and Close Games Give In To Viking 8-4, 4-4; Vegreville 2-1 Goaltier Stars In Vegreville Match

Hockey fans who have been following the Harvests in the Eastern Alberta League are nervously that St Paul now has a team worthy of the Town

In three scheduled games the past week, at Viking, Wednesday Vegreville, Saturday and at home Sunday they lost 8-4, 2-1 and 4-4 and have dropped to become any of these, with the right amount of luck might have been reversed.

They had the Viking game won going into the third period, slipped on a few tough ones, pulled the goalie out in a desperate attempt allowing a last goal At Vegreville Saturday, Paul Dion went up after five minutes of play and on a pass from Clarence Richard, moved the only goal of the first and second period. The Harvests held until the last 16 minutes of the third frame, when Bill Lamb scored and Art Jeapperhuis passed to Clarence Richard shortest the game and Vegreville had advantage for a quick goal load.

"Baby" Gauthier put on a sensation in the net beating many long bursts a sharp, quick and accurate eye, to the puck, holding and clearing the path out of many uncomfortable times. — and as a cucumber

Hayden Scores Three

The Viking Cub Kings were many Sunday and left no room for doubt as to which team is the powerful, deadly & earnest game The 1953-54 Champs are still one of the best teams in the league but they were very lucky and Hayden scored three for a hat trick. An important factor was The Hitch. Hester stands out as a tenacious checker on the ice, never giving his rushes to an odessee point and will to win He pulled in an assist to his record and was the star of a number of beautiful plays.

Medvechuk made the other goal, and further assists went to Clarence Richard (2), George Vallance. One penalty to Leduc rub for trapping

A flurry of Viking blade the game record with four goals for the Kings and Jerry Mercy, Gus Gaudreau, Ed Dunnigan J helped with the spares, scored with to E. Brown, L. Mercier, Ladouceur, Proctor and Burns Jeapperhuis handled on the Viking nets.

Playing a delayed early schedule Vegreville came out all hopes of St Paul making the finals by beating them 7-1, Tuesday evening.

Vegreville Goalie Good

From the press box we are pleased to report that Vegreville part of the credit of that win to Lemuck, guarding the Harvests' net in unbelievable style The Norwich plainsman had from time to time, slammed it from every angle, high and low, screamed at, but he kept them out, cashed up Fielding them out of reach He was dominating the battle and at the 15 minute mark of the third period, he had stopped 27 shots in the game with vigor and a big hand

Medvechuk for St. Paul was the only player to get the 15 minute mark in the second, assisted by Gerry Hayrie and Gadreau.

Jerry Uhryn was formerly with St. Paul Jerry made it rough for his ex-mates by scoring three of the Veg goals, cleaning one assist and generally Jerry was in great form. Elkin speared one and on squad B. Demchuk, one and on assist. J. Chorak, one; Boudreau, one and assist.

It might be the impression of the onlooker that St. Paul, playing their first game of the season is trying to hard with a consequent tenseness that impairs them around the net. Can't blame anybody for trying and if that's the only reason behind the loss it's at least a comforting one.

• • •

Of special interest at Vegreville was the fact that the St. Paul crowd, cheering for the Firemen squelched, if not outnumbered the

Legion Loses In Curling Playoffs

District Legion Curling playoffs scheduled at St. Paul last Sunday were transferred to Vegreville because of uncertain ice conditions during a mild spell.

St Paul's entry and contenders, the Desmons rink, went down on the firing line with two defeats in a round robin series, losing all hopes of continuing along the path to the provincial playoffs They had previously made it by winning in zone competition.

St Paul Legionaires: Dr F. R. Desmon Emile Laroux, Phil Desmon and Leonard Bedard.

Rabies Control In Alberta

By SAMUEL CHEVRETTE, D.S.

Since the Fall of 1952, one of the largest campaigns ever undertaken anywhere in the world has taken place right here in Alberta to control the disease. The results have been very encouraging as the front of the infection has been rolled back from Lethbridge to 50 miles north of Edmonton.

The following is a brief summary of the control measures:

Fox Area

The Alberta Department of Lands and Forests, through the Forestry Division, employed up to 170 trappers to operate 5,000 miles of traplines in forested areas, mainly in areas adjacent to farming areas as a means of controlling the protection of humans and livestock. During the Summer months the trappers worked into the woods after dogs and the breeding grounds. There has been a gradual reduction in the number of trappers employed as more fur farms, coyotes and wolves were in the forests except in a few localities. The following is a fairly accurate estimated number of kills of the main animals in the forest areas from the Fall of 1952 to August 31, 1954.

Foxes	34,150
Coyotes	48,200
Lynx	5,500
Wolves	4,900
Bear	3,400
Skunk	670
Fisher	10

Rabies has been diagnosed in Alberta in several wild animals [illegible] foxes, lynx, coyotes, a bear, a wolves, rabbit, and a beaver, with cattle and skunks being suspected of being infected.

Agricultural Areas

The Alberta Department of Agriculture through the Pest Control Act, administered by the Field Crops Branch, have been very aggressive in coyote control. Coyote-getters and strychnine pellets in very large quantities have been distributed free of charge to farmers through pest control officers. The areas that mean the most solid spreader of rabies in the past year and took quite a beating from control measures it is estimated that 60,000 to 80,000 coyotes have been destroyed by farmers since January 1, 1953. This work should not let up, especially on districts where there have been cases of rabies.

Vaccination vs Destruction

Dogs are still under quarantine North of 53 as a Federal Order. The Federal Health of Animals Division vaccinated all dogs north of 53 in the Fall of 1952, again in the Fall of 1953, and will be doing them in 1954. This no doubt has greatly contributed to the absence of rabies cases because a vaccinated dog is a good safeguard. Most human bites are from dogs and they must be controlled to prevent being bitten by wild animals or other dogs. The stray dog is very dangerous and should be destroyed.

Educational Programme

An educational programme was undertaken in 1953 to acquaint the danger of rabies and the necessity of reporting bites or suspected cases to a veterinarian. Bulletins mailed to Forest Ranger, RCMP or District Agriculturist, who will take necessary action. Specialists don't shoot the dog. Keep it tied up for fourteen days. If it is still living, then it didn't have rabies. If it has to be shot, don't shoot it through the head.

A bulletin on rabies is available from your District Agriculturist or veterinarian.

LYNX RUNS INTO TROUBLE "DOWN SOUTH"

Mistaken for a wolf, this lynx is believed to be the first one ever shot in the district around Fort Lac Bellevue, Alta. Thomas trapper, and he was out on his trap line near Sparta when the animal appeared about 50 feet in front of him. He was a wolf, he shot it. The animal, which stands three feet high and weighs 30 pounds is native to the area. Daniel Heidt, at left, St. Thomas game warden, was on hand to identify the animal.

Inter - Provincial Insurance Sales FBA Delegation At New High

President Henry Young and Mrs W C Taylor of the Farmers' Union of Alberta have just returned from Ottawa where they accompanied an Inter-provincial Farm Union delegation of ten persons, headed by Jake Berzelli, President of the Inter-provincial Council.

While in the East the farmer representatives interviewed the Federal Cabinet and also held separate Conferences with the members of all political parties represented in the House of Commons.

The farm delegation reinforced for a day with the heads of the Labour organizations of the East met for the first time in history, at a meeting with the top officials of Canadian Farm Machinery [illegible].

The purpose of this delegation was to impress upon the Government and all others concerned, the need for a system of Parity Prices on farm products in the Canadian Market Mr. Young reports that the delegation was well received on all sides and that he is hopeful of good results from their efforts.

The Manufacturers' Life reports that policies in force, policy contracts in force, increased in a record 12 months. Life insurance purchases increased 321 and group life insurance 7%. Net additions to assets totalled $91 million and [illegible] $10 million and paid to the beneficiaries of those who died.

Assets held in trust for the payment of future policy benefits increased $50 million to $380 million. Government and government guaranteed bonds constitute 15 per cent of assets, mortgages 41 per cent, and [illegible] bonds 44 per cent. mortgages constituted 18 per cent preferred and common stocks 19 per cent. The rate of interest earned on the assets was 4.3 per cent.

In 1954, the Company's new business totalled $250 million. Business in force now stands at [illegible] million. The Company's assets and surplus increased to $30 million.

I WONDER

by C. S. B.

The views and opinions expressed in this column are entirely those of the writer and do not necessarily represent those of the B. Local Press.

How many farmers plan on seeding Flax this year? Some flax has been seeded in the district. The Department of Agriculture has issued rather misleading information in this connection, dealing with the new flax variety Raja, this may be of interest to us may farmer having flax seeding in mind.

Raja is a new early maturing variety that was developed by the Central Experimental Farm, at Ottawa, and released for sale in Canada in 1953. All available seed was increased at the experimental farm at Indian Head in 1953 and 1954, in 1954 other experimental Farms and Stations in western Canada assisted with the increase.

Experimental results suggested that Raja may easily be seeded into June 1st to 15th and still mature properly in the fall under normal conditions The yield may be disappointing if the variety is sown too early Compared with Marine it is not satisfactory where an early maturing variety is needed for seeding at normal time to escape early fall frost, however tests indicate that Raja is somewhat less delayed seeding may be necessary.

A limited amount of certified seed of Raja flax is now available for distribution in 2 or 4 bushel lots at $2.25 per bushel Applications for seed should be made to the Experimental Farm, Indian Head, Sask.

The department goes on further to say, many farmers are greatly concerned about the contamination of their seed grain because of poor harvesting conditions which prevailed last Fall Many are sending samples to District Offices of the Field Production Division for germination tests For the convenience of farmers received in an unbleached cardboard sample bag, which allows moisture to escape, thus ensuring a representative sample of the seed chaff, straws dirt and light kernels.

Probably many farmers and elevator agents assume that these samples are cleaned before they are tested This is not the case The inspection of the sample must be to evaluate the grade submitted. Screening out the [illegible] samples slows down the output of inspectors and increases the [illegible] containing weed seeds and [illegible] plus mechanical seed counters and reduce the number of tests planned per day Two results may be expected with field [illegible] because light and immature kernels often germinate poorly and may lower the percentage germination.

Farmers should clean up a bushel or two ready for the spring and send in representative samples. This would help laboratories to give the extra service needed this year.

Mallaig News

Our weather is the truest friend we have had this winter. Dependably keeps the temperatures up to the 30 and 35 degrees above, some slight snow has fallen but nothing of a very serious nature as yet. Days are lengthening, with a slight thinness blowing over the week end, gave us visions of spring in the not too far future

We are pleased to announce that Short Agricultural Course was a huge success many valuable facts were gained from the course which are being put into practice

It would appear that a rate-payers meeting of Division No. [illegible] will be held in Mallaig on [illegible] [illegible] [illegible] official business will announce the time and place.

The Hotel Cafe is under new management. Mrs. Shermack of Edmonton has taken over the operation. We welcome her to Mallaig and wish her every success in her new venture

Nominations closed today (Jan 21st) at 3 p.m. for the position of Divisional School Trustee. Three candidates have entered Mr W J Dachuns, the present incumbent who has held this position for the past two years, Mr Charles Williams of St. Leon, a newcomer to Educational Administration and Mr P. Martin of Thorsby, who has had previous experience as a Divisional Trustee. Voting will be held on February 15th. vote for the candidate of your choice but be sure to vote

EDITORIAL

TO THE HOPEFUL

The newly formed Municipal Divisions No. 6 and No. 7 of the St. Paul Municipal District, are ringing with the voices of the large number of aspirants clamouring for the position of Councillor in each Division.

Division No. 6 boasts of no less than four and Division No. 7, five, would-be candidates at the time of writing Nomination date is set for February 8, at which time this number may be decreased and again it could probably be increased as the wish to be a "Councillor" is apparently catchy. In any event on the 15th we shall know exactly how many will enter the Municipal political field.

If the pre-nomination nebulous speeches are a forerunner of the actual campaign speeches, we should be recipients of some lively entertainment, promises and frantic claims. The apparent keen interest shown by the ratepayers at this time is a happy indication of their concern in matters of municipal importance.

A word of advice to these aspiring candidates. If elected, words of promise are fine and for instance, now is small, criticism grants you on all sides. If your shall is not hard when you enter, it will be "rock-chuckers" by the time you have served a term.

Be Wise... now is the time to schedule your machines for winter servicing...

World Skating Laurels Must Be Newly-Crowned Canadians

A happy moment for Canada's two world skating champions, Barbara Ann Scott, of Ottawa, and Jacques Lamoureux, of Montreal, as they were presented with the Lou Marsh trophy, emblematic of Canada's sports supremacy for 1953. Miss Scott, 17-year-old Canadian Ladies' figure skating champion, is the first girl to win the trophy since it was established in 1945. Lamoureux, 21, is the first speed skater to win the award. Both have won world championships.

A happy moment for Canada's two world skating champions, Barbara Ann Scott, of Ottawa, and Jacques Lamoureux, of Montreal, as they were presented with the Lou Marsh trophy, emblematic of Canada's sports supremacy for 1953. Miss Scott, 17-year-old Canadian Ladies' figure skating champion, is the first girl to win the trophy since it was established in 1945. Lamoureux, 21, is the first speed skater to win the award. Both have won world championships.

Short Course Held In Mallaig

A highly successful Agricultural Short Course was held in the Mallaig Parish Hall, Wednesday and Thursday, Jan. 20 and 27th.

On Wednesday Mr Syrotuck gave an excellent and interesting lecture on the quality of hogs to compete with the demands of the consumers and export market In his remarks Mr Syrotuck pointed out that in Germany if a producer has a boar of poor quality and uses it for breeding purposes contrary to Government instructions the producer is subject to a fine of 4 thousand kroner for the same offence

Mr Chatterton spoke on the economic aspect of hog production which was keenly received by the interested audience An interesting series of films were shown on Wednesday evening

On Thursday Mr Chesbro spoke on the different methods of constructing fence and machines necessary to make salvage the task was accompanied by slides

Mr Dickson spoke on mule production and the economy thereof Mr Pharis spoke on grain production

All speakers expressed their pleasure at the large interested audience on the day A breakdown of the attendance on Wednesday follows: 50 from Mallaig, Thurston 2, St. Vincent 3, Shalley 1, Cleardridge, 4 Malloy 2, St. Leon 21

This being the first Short Course of its kind held in the district the organizers are to be congratulated on their successful efforts The value of such a course is definitely established and it is presumed any future similar courses will decidedly interest larger audiences

CORRESPONDENCE

Dear Sir

Mallaig residents like to pride themselves of one of the prominent features of the district. From our point of view, there is sometimes a lasting respect of welcome, especially after a present snow storm when it was necessary for visitors and those [illegible] to plow through drifted snow on the sidewalks.

Only one business man had the initiative and obligeance to shovel off his walk

What's the matter Mallaig' don't we have any more of this A. S. Kravenuk

RABIES AND DOG CONTROL

Editor, St. Paul Journal

Dear Sir:

A few weeks ago you published a news item about a rabid dog killed at Cold Lake. The dog was destroyed by a Mounty. The town caused quite a furor and alarmed a great number of our citizens who are suggesting that we in the town of St. Paul take immediate measures to control the situation and destroy all dogs running at large.

After investigation, it was found out that the dog in question was killed last April and was the first rabies reported in this area. There has been no outbreak, so yet this year, a fact which should relieve many people who are stanchly supported by a few.

(Editors Note: The report on the Lobrad rabid dog was released to us by Government officials with no indication of the actual time the dog was killed and although no date was mentioned it was only natural to assume the intention had occured this year.)

Following a normal pattern, experienced every spring, the dog population has arrived at a peak. Some of these animals are only considered quite valuable others always end up as "mongrels" and a source of pests. It is necessary to maintain a proper balance by destroying the undesirable. It is a very difficult and delicate one. For the true type of supervision of every owner is necessary and those who value their pets should make every effort to abide by the existing laws of protection.

Female Dogs, a great centre of attraction and disturbance, if not confined properly will be destroyed. Most complaints received at this department come from that source —unless running in large with a retinue of dogs barking on their heels, fighting and generally creating a great hazard to children in their vicinity

After discussing rabies with the local veterinarian I received a bit of professional advice and the following recommendations passed on to you, rabies vaccine is $7 per cost effective immunization. Booster shots are recommended for one year. All dogs vaccinated are issued with a tag recording time of vaccination and kept on file by the veterinary Cost of immunization is $2.00.

Further advice is directed at dogs who are not immunized. These should be kept strictly confined when they are potential carriers. This doesn't necessarily mean that immunized dogs have the privilege to run and act at will and it is wise to keep them under reasonable control.

The above has not been written to frighten dog owners, but to bring out a situation considered very important to the welfare of our society. No one wants to lose a loved animal or pet destroyed, but a poor stray, suffering exposure without proper care, and possible contact with rabies raises a certainty a menace and should be destroyed for his own good and that of society. Any dog reported vicious will also be taken care of.

If you have a dog problem and need help in disposing of him, please contact the Town Office and the unpleasant job will be done as humanely as it is possible.

L. P. GERMAIN
Town Works Foreman

SLUGGISH WHEAT EXPORT

The Speech from the Throne at opening of Parliament contained this sentence: "Although the national economy is in a generally healthy condition the relatively sluggish crop is being reflected by a small decline in the total national income."

Easy answer to this is contained in Bank of Nova Scotia's Monthly Review for December: "The decline in the total cash income in the calendar year 1954 is almost entirely to be attributed to the smaller wheat crop. It has had little to do with the poor 1954 crop. Rather, it reflects the relatively small export movement of wheat in the past year and a half, which has made necessarily little space available in the enlarged elevator system and has thus resulted in sharply restricted farm marketings. Farmers would have been able to deliver little more than half as much wheat during 1954 as they did during 1953."

It so far as wheat had anything to do with last years decline in national income, it was not the failure of nature to produce a good crop that did the damage but rather the failure of the Canadian Wheat Board to market the good crops put over from previous years.

COSTLY STRIKE

Little money to have been accomplished by the Ford strike, comments the FINancial Post, except for the dubious achievement of breaking the former 50 day record (Ford '45) for a strike, " the automotive industry

For Ford workers, the marathon strike has meant a direct pay loss of some $2 millions. Added to that is the considerable wage loss for employees of supplier industries idled by the walkout.

More Farms To Electrify

Honourable N. A. Willmore, Minister of Industries and Labour, announces that 6,333 farms were electrified in 1954. The comparative figure for 1955 is 6,126 electrified in 1955

There are now 30,564 electrified farms in Alberta and with the addition of non-farm and hamlet customers served off rural lines, the total number of customers is 35,170

It is expected that this pace will continue during 1956 since the Alberta Power Commission reports that there are 5,973 more farmers organized into associations and requesting service. More are expected to organize during the year

Program Of Activities For Alberta's Golden Jubilee Celebration

The fiftieth year has been a year of Jubilation ever since the children of Israel were commanded to mark that year as a time of rejoicing and celebration. It is right that we in Alberta, also, should harbour our fiftieth year for there is much cause for thanksgiving and rejoicing in a land so richly blessed. By the Creator A Golden Jubilee Year serves only to increase and accentuate the praise that should continually be going forth to God from a free and prosperous people.

Alberta Jubilee Celebrations will continue from January to December but activities will be concentrated during the coming months beginning June 6th. The climax will come during Golden Jubilee Week of September 5th to 10th., when our province will more than ever, crowded streets and groups will join in the processions of colorful pageantry. Work completed will be dedicated and new plans for the future will be officially recognized by the prominent laying of the cornerstone.

Premiering this week of festive activities will be Provincial Day of Prayer September 5th when bells will peal out a day of salute all citizens may give thanks for the bounties we paid with bounty and humbly ask for continued prosperity in coming years.

All indoor days in Alberta on Jubilee Day, September 5th, will be reserved for sports events and a proclamation will also be made to all those married in the Province on Jubilee Day. Simultaneously with the Jubilee Week will be a special appeal to senior citizens who were living in Alberta during 1905 and are residents during 1955.

Rustic arches are to be built to promote a permanent memorial to entry by the Provinces, and will be erected on main highways leading into the Province to welcome tourists and Jubilee visitors. The program of identifying and entering Alberta historic sites will be remodelled during 1955, while the Department of Highways will establish as many picnic table sites as possible, placing shelters near those where necessary and providing rest rooms wherever possible.

A Red Deer River Valley Memorial Park is to be established in that area of Alberta noted for its [illegible] of the prehistoric age. The park will be developed as a living celebrations in the Badland district of Steveville.

A special information display will be erected at the Port Macleod Tourist Information Bureau, a joint project of the Department of Economic Affairs and the Canadian Rockies Tourist Association. This part of an extensive publicity plan including undertakings to advertise and promote all features of the Alberta Golden Jubilee.

Special programs will ensure around building projects in the Province, including the new projects in Edmonton and Calgary. Contracts for their construction provide for completion by September 1st., 1956

Two musical festivals are to be combined to carry and salient Science Function displays. Two will events, which will be equipped with facilities for the projection of motion pictures, will tour Alberta towns, villages and municipalities from June to September as part of local Jubilee programs.

A professional square dance caller will be employed for three days weeks to assist on local Jubilee celebrations and provincial a dance orchestra will be invited to play at special Jubilee dances

In the field of cultural activities, the University of Alberta Band Clarion will tour the Peace River district from May 1st. to 18th., after which it may be available for performances in different parts of the Province. A song-writer competition, sponsored by the Alberta Music Board and offering three cash prizes for acceptable Jubilee songs, is hoped to lead to the publication of a book of Alberta Songs, while a play-writing competition for Alberta authors will offer three cash prizes of $250 each.

Plans for the Golden Jubilee Anthology is expected to be off the press early in March. Included in this book of Alberta articles, fiction and poetry, are reproductions of eight Alberta paintings. These paintings, purchased by the Government, will be on display during the year Ten thousand copies of the Anthology are being purchased and will be distributed throughout the Province.

Special Jubilee activities in Alberta schools will be arranged by the Alberta Department of Education, with the Department of Agriculture providing assistance for boys-girls projects. On June 8th., Jubilee activities in the schools will with a parade, sports and the dedication of [illegible] trees.

To assist municipalities in the organization of local Jubilee celebrations, the Government will make available a grant at $2c per capita. This fund may be used for the purchase of souvenir plaques, Jubilee burning or decorations but it is hoped that many municipalities will use the fund for the purchase of assets of permanent benefit such as rest centres, parks or playgrounds.

As each community is being urged to set up its own Jubilee Committee and to arrange local celebrations, the Alberta Golden Jubilee committee has sent out questionnaires to each municipality. When returned, these questionnaires will give the Committee information which will enable them to help each community plan their celebration.

U.S. Contests To See Canadian Ballet Group

Already highly ranked among ballet groups in North America, the National Ballet Company of Canada is about to embark on the biggest and most lavish tour of the country ever. Lois Smith and Bruce Alpine are two members of the cast of Swan Lake, which will be presented in its entirety for the first time since Sadler's Wells Company of England performed it. The tour will take the company to New York, Buffalo, Detroit, Philadelphia and across Ontario.

Glendon News

Word has just been received of the death of Mrs Esther Smith Somerton who passed away at her home in Hazey B.C on Monday evening, Jan 24

Mrs Smith was born in Montreal, England on Feb 6th, 1879 She came to Canada in May 1902 and settled in Lorn in the Flat Lake district Later she moved to a Lorn one mile north of Glendon About ten years ago the parents and family moved to Lac St. Paul where she has lived ever since. Mrs. Smith was a member of the local branch of friends wherever she went. Due to her exceptional ability as a nurse and seamstress, she contributed much to the social life of the community, as she never refused to assist whenever called upon.

In 1913 she was married to Mr S. Somerton at New Westminster B.C.

She leaves to mourn their loss, two daughters living in England Esther and Margaret and five sons Charles in Los Angeles, Thomas and Truman Denny at Bibb, Reg at Glendon and Albert at Trail B.C. She was pre-deceased by two sons, Charles in England and Jack at Flat Lake The Funeral was held on Friday Jan 28th at her late home in Somerton B.C with interment at the Anglican Cemetery The sympathy of the community is extended to the bereaved family.

TRAFFIC SAFETY LANE

By J. W. McKAY

Inspector Highway Traffic Board, Edmonton

Nature of The Driver

A sound understanding of the true causes of accidents must be based upon an appreciation of the physical, mental and emotional structure of the driver, the physical and traffic influences that surround the varying degree of intelligence, the driver brings to a focus in society that requires upon him. The relationship between these factors is difficult to analyze. Psychologists have studied and the first is human behaviour must be considered as an interrelated whole and that the individual cannot be regarded as a complex reflex machine that responds now to one stimulus and then to another.

In calling attention to this they serve to stress the fact that an improved understanding of the causes of accidents will come from sound analyses of the interaction of human responses. To make the problem even more challenging, it should be noted that the performances of a driver varies from time to time and under a variety of conditions. A high degree of consistency is not characteristic of the "typical man" when he is behind the wheel. Recognition must be given to fluctuations in behaviour.

We must do more than blame the driver for "recklessness," "carelessness," or "inattention." Rather, we must regard him as a product of circumstances as a living organism with his own inherent nature — without prejudice and malice — with his own limitations — without perfection and subject to error. Therefore, we must be alert to certain responses to given noxious stimulants. The quality of the response, in terms of the individual, should be said to determine whether or not involvement is accidental and instead of a combination of a number of underlying causes.

The statistics for Alberta's 1954 traffic accidents, to released by the safety council now.

Accidents, 1,388, a decrease of 7.5 per cent. Injuries, 2,338, a decrease of 16.4 per cent. Deaths, 205, a decrease of 14.6 per cent.

The above figures are 1954 compared with 1953.

SPEAKING OF PEACEFUL CO-EXISTENCE . . .

Bert Bell (right), commissioner of the U.S. National Football League, is shown talking over a "peace program" with Bobb Cheney of Hamilton, president of Canada's Big Four, at a meeting between the two professional football organizations in Philadelphia. Although they took as if peaceful co-existence shouldn't be too difficult, the program no-trading pact broke up when Toronto Argonauts insisted they would play the NFL stars already signed. Bell and Cooper will next again in New York next week.

Farmers' Union Workshops

The Farmers' Union of Alberta will start its proposed Provincewide series of "Grassroots Workshops" February 14, it was announced this week from Union Headquarters here.

Eleven of the fourteen districts into which Alberta has been divided by the farm body have agreed so far to participate. The BC edited district held its workshops at mid-January.

Saskatoon record has already been achieved by the "Roundup" membership drive last Fall, it was learned. The previous membership record was made by the Saskatchewan Farmers' Union in the Fall of 1953 when nearly 60 per cent of the farm heads of the province were signed up.

According to a statement released by W. D. Summers, FUA Chairman, Director, the present number of farm heads of families enrolled in Alberta has topped the 40 per cent mark.

"I am confident the Workshops now being planned will realize finally the lifelong ambition of the rural farmers to secure unity," Mr Summers asserted. "That is to build an association that will speak for the clear majority of the men and women on the farms of Alberta Today we're on the eve of achieving the goal that has eluded us since the beginning of farm organization in Canada. In Marshall parlance, the FUA team could be described as being on their opponent's one yard line, first down and with two downs to go for a victory touchdown."

More than 430 companies in Canada's electrical manufacturing industry are capable of producing practically all of Canada's electrical requirements.

High School Team Suffers Defeat

The Elk Point High School Hockey Team visited Heinsburg Sunday where they dropped a 8-3 decision At the end of the first period the score was a dismal 5-0 but the second period showed some improvement when Elk Point tallied with 3 goals in the third period. Heinsburg showed little opposition by scoring 8 goals to Elk Point's 3 and generally out-playing them. Barry Keck supplied the transportation to Heinsburg. A return game is scheduled for 2:00 o'clock this Sunday at Elk Point.

In a midget game played here Tuesday evening, Elk Point dumped Lindbergh 6-1 Barry Keck refereed the game

PARATROOPS REHEARSE FOR ARCTIC RESCUE

Rehearsal for Exercise Bulldog III which is scheduled this winter at Yellowknife, NWT., was held in Canada's paratrooper base Edgewood, Chil. An assortment of sprains and bruises and one broken leg resulted from the jump but the exercise was a success. This scene shows the troopers climbing up a lone camp with equipment dropped from the skies.

Scouts Winners Of Tournament

The bowling 10-yard contests under which the Bantam and Scouts contested a recent tournament in the upper air pocket rail win were turned in our directors and on to so for a chil-ling represented by members of the Scout team who are across supply reported their opponents had won instead of them. Our humble apologies!

Committee in charge of the Parochial rink wishes to express its gratitude towards all those who patronized the Bingo at the Parish Hall last Sunday evening. It was a great success and the funds realized will be a great help towards the rink.

Special thanks to the scouts who were in charge of advance ticket sales and a generous promotional job for the event.

Committee in charge: Messrs. of Marcel L'Heureux, Phil Mouli-ur, Phil Lariviere, Phil Kernaid and R. Mithen.

In a recent encounter with Lafond the Scouts won with a comfortable margin.

AUCTION SALE

Agricultural Short Courses

(Continued from page 1)

Reports were taken at Bonnyville, Cold Lake, Elk Point and Vermilion. Those who attended the meeting at Vermilion were unanimous in their opinion that the meeting was very much worthwhile.

He also mentioned the possibility of registered or a good grade bull being put into these districts who were having difficulty in disposing of their cream to the cream gathering station. His next could be grown under the present rate with a syndicate which guaranteed a price of two and a half cents per pound for the cream crop with a possibility of obtaining a few cents more per pound after the crop was sold by the syndicate. He stated that this was not necessarily a high paying crop but would give some farmers many cash in the fall of the year.

Mr. R. P. Dixon followed with a talk on Summer of Dairy Production. The two largest in dairy costs, he said, were feed and labor with feed accounting for 50 per cent and labor for 20 per cent. Efficiency in feed was dependent largely on use and management of pasture, high yielding crops which made up 75 per cent of feed consumed by dairy stock. Good management of pasture and forage crops was necessary for maximum efficiency in feed use. High production per cow was the chief factor in labor efficiency and the use of loose housing on im-portant factor in labor saving.

He stated that dairy farmers could expect a vast improvement in dairy cattle in the very near future through the use of frozen semen. This, he said, would enable supremely old dairymen to obtain the services of very high quality bulls in the country and that eli-minating bad or inferior animal bulls presently being used.

He urged dairymen to watch developments very closely and take advantage of the service immediately it is put into effect.

Mr. Dixon stated that silage was probably one of the best feeds for farmers to handle roughage and then asked Mr. Chambre, Provincial Agricultural Engineer to outline methods or harvesting and making silage. Mr. Chambre stated that the use of silage was common at Alberta stating that it was the best feed for this province. Many reasons against the use of silage including the cost and that in Europe but did not practise it have also been given. The cost of the amount of work involved. In the past years interest in silage was reversed with the ad-vent of power machines which enabled farmers to make it with com-parative ease. He recommended that silage structures be built on perhaps the most economical, these could be erected at a very small cost and were just as efficient as any other. Also he stated that many farmers against purchasing too many high priced machines. On the whole he said they might find that they would not pay for themselves and all farm machines should pay for themselves or they were not doing the farmer any good. He advised all farmers with livestock to put up silage as a feed but before attempting to go into production to find ex-pert advice on the building of silos and preparation of silage. Interest in this phase of the short course was evident from the numerous questions asked by the audience. It was apparent that a number of farmers in the dis-trict already had silos but many more were contemplating con-struction of same.

Mr Armand Lamothe, President of the St Paul Chamber of Com-merce welcomed the speakers and farmers to the short course and at the close on Friday, Mr. Che-rette thanked the speakers for their contribution to the course and commended the farmers for the interest they had shown in at-tending present to take part in what he hoped would again become an annual affair.

Assemblée de la Caisse Populaire de Saint-Paul

Albert Bernard réélu Président entre temps

Le 1e janvier, en la Salle pa-roissiale, se tenait la 1ère as-semblée générale pour la Caisse populaire de St. Paul. L'assis-tance se réunissait à 21 h.

Le président de la Manutenue Albert J. Bernard, faisait une re-vue des activités de la Caisse pen-dant les douzes premiers mois de son fonctionnement. Il fit part des démissions de la part du pré-sident, Gustave Gaudet, membre du Conseil d'administration, ainsi que de celle du secrétaire-trésorier Jean Lemire. Il remercia ces deux officiers pour leur dévoue-ment et leur collaboration.

Le président remercia également les membres du Conseil d'administra-tion, du Bureau de Direction et du Comité de crédit pour leur coopération, qu'elle intellectuel, au cours d'cet-te année écoulée.

Le président annonça que le nombre de membres actifs était de 116 en 1954 et le capital, sous forme de parts sociales, était de $1,140.00 à la fin de décembre. Le montant des dépôts s'élevait à $22,000.00 et une augmentation de $16,000 à $17,000 était prévue pour 1955. Le président termina ses remarques en invitant les membres à con-tinuer à prétendre l'économie, et à encourager la Caisse populaire dans son service qu'elle rendent.

Les rapports des Commissions suivirent et le président annonça les noms des membres Camille Lavoie et Lucien Wickel, aux postes vacants.

Le rapport financier fut lu et adopté par le Secrétaire-Gérant, Jean Lemire, démissionnaire. La recommendation des Directeurs d'un dividende de 4 pour cent sur les parts de 2 pour cent.

Les élections de charge sur la table l'honorable de l'assemblée vu goût. Après discussion cette recommendation fut adoptée.

Les scrutateurs de charge pour le Bureau de Direction étaient Mes-sieurs Albert J. Dionet, Jules Van Thienen et Marcel Joly. Le vote fut re-dû pour un terme de trois ans. Les résultats se trouvaient de cette façon: Messieurs Charmes Le-clerc, Albert Bernard et Jean Gau-det pour un autre terme de trois ans. Sur la Commission de Surveillance, Messieurs Léo Charron fut élu pour un terme de trois ans en remplacant Monsieur Léonard Ri-chard, démissionnaire de celle-ci.

Monsieur le Président invita en-suite Monsieur Jean Gilles Cha-put, directeur de la caisse de la paroisse Monsieur Chaput se dit heureux de rencontrer à nouveau ses amis de la paroisse St. Paul. Il remercia Monsieur Albert Bernard pour l'hospitalité qu'il lui a toujours témoignée. Il félicita les officiers du bureau de direction pour leur belle collaboration. Il remercia le comité de crédit pour son travail. Il remercia le secrétaire-trésorier pour son travail et son dévouement. Il remercia le président pour son travail et son dévouement. Il remercia le président pour son travail et son dévouement. Il remercia le président

St. Paul Juveniles Defeat Two Teams To Win Tournament Sunday

(Juvenile Reporter)

A large crowd turned up at the arena on Sunday to witness St. Paul's two teams Vincent and Saddle Lake Juveniles. The tournament followed the league, using a rotate 3 pm — St Paul's vs St Vincent, 4 Saddle Lake vs Beauralion & St Paul vs Saddle Lake.

Our boys seemed nights sure of themselves as they got on the ice with St Vincent Both teams showed some fine passing combinations but Brochu, our goalie stood out during a not accountable Bernou injury was stretched with a possible loss of an eye. Edmond Hiverly substituted. Paul Dion made a nice shot but was Vincent goal and Jack Bendel scored for St. Paul one rebound. Joe Vaillancourt took first penalty 2 minutes for interference.

The second period opened after a 15-minute delay due to minor goalie Peter Gardner took over net, matching duties for St Vincent. Umbrella started tying the game. Two more goals for each side by Hansen and Jean Labbe kept things on even keel.

Winning goal in the third period by Hiverly on Hill Hagens assisted by Henry Bellaud. Final scores St Paul 3, St. Vincent 2.

Saddle Lake vs Beauralion

Straight line was played with Orest Saguisag scoring for Beauralion assisted by Mike Sawchuk, Ray Cardinal assisted by Leo Cardinal and Ernest Johnson assisted on Ray Cardinal's goal to make it 2-0 for Beauralion.

In the second period Ray Cardinal and Ralph Rondeau scored unassisted and Peter Cardinal scored assisted by Leo Cardinal, bringing the score to 5-0 for Saddle Lake.

In the third period Robert and Peter Cardinal, the latter assisted by Calixte Jackson scored each to turn the final penalty of the game was given to Norbert Cardinal of Saddle Lake 2 min for tripping Orest Cardinal 2 min for tripping Sinclair Jackson up for the 1st and Adam Kroak made the last attempt for Beauralion.

Saddle Lake 9 Beauralion 2

St Paul vs Saddle Lake

The 11th and 3rd final game of the tournament started off with both teams out to win. Peter Cardinal assisted Jesse Dubaniet to score the first goal of the game Jesse Cardinal returned the compliment to Fred Dion and Hagens one handed set penalties for charging Peter Cardinal, netted it for 2-1 in favor of Saddle Lake.

St Paul retorted for the second goal with Gerry Horner assisted by Jack Bendel scored from Hagens and Bernard Bellaud and Paul Dion then scored on a rebound from Horner. The last goal was scored by Jack Bendel assisted by Hagens and Bellaud.

The final score was 3 and 1 in favor of St Paul.

Peter Cardinal was the outstanding player for Saddle Lake.

J. N. Beckenc, Liberal M. P. Speaks To Constituents Over CJCA

I am Gordon Radio Broadcasting Station CJCA. Now wants an exact for until now Dingwall Alaska so that the town may enjoy commercial television facilities.

It is such a feeling of great satisfaction that following the recommendations of the Committee I have obtained the Government's O.K. to table the matter on the matter, which I am pleased to say, I have been entirely successful.

Mr. Speaker, one of the two first difficulties of my disposal to explain was that of the Canadian Broadcasting Corporation's television policy. Many people have asked me why the C.B.C. has not yet established television stations in Canada's two largest cities, Montreal and Toronto, and

Elk Point Catholic Separate School Plebiscite, February 2nd.

(Continued from Elk Point Page)

The term "Catholic" naturally includes those investors in the Latin, the Ukrainian and other Catholic Rites But as has been explained several times and cannot be clearly understood, those of the Greek Orthodox faith do not belong to the Roman Catholic Church, and are not subject to the same Roman Authority. Regardless of Mr Bell Mabe's statement in his open letter to the St Paul Journal, January 27th issue, there are just "Three Catholic churches in Elk Point," but two the Ukrainian Catholic Church and St Michael's Church for those of the Latin Rite.

The term of our Churchs make it a serious obligation for all the faithful to provide religious instruction in the school for these children, and the Alberta School Act makes provision for such facilities With a comparatively generous local Catholic population and the born-evening annexations of surrounding districts, the Catholic pupil enrolment becomes for next September a around 225, which number would then constitute 60 per cent of the total enrolment in the Elk Point Centralized Public School These figures speak for themselves, and to us clearly pointed to the need for a Catholic Separate School

All the aspects of the question were thoroughly investigated legal, financial and educational, reports were consulted, and from these discussions and study the possibility of establishing such a Catholic Separate School appeared distinctly feasible This without refuting an extra burden of taxes or other financial obligations, due especially to the present (April 1954) governments generous grants, which are now many previous than ever and permit minority groups to accomplish more easily what had been done by others in the past Does it not seem more reasonable to believe and accept the official government documents, particularly the Alberta School Act and its very recent Amendments, rather than be misled by the a inverse propaganda which seeks to serve its own purposes by misleading the less informed population

Upon request, the Department of Education was supplied with exact data regarding taxes, etc., and the Petition was prepared in due time and manner according to the requests of the Government of Alberta and religious Authorities concerned, and then by duly filed at the Department of Education, Public Notice posters were prepared by the Minister of Education, in conformity with the requirements of the Act, and posted in Elk Point on the appointed date, another instruction not to add, or remove in a single word. I wish here to express appreciation to the Department for the mention, and especially Mr Swan, who kindly gave all necessary information, and later was personal representative of the Department in Elk Point on the day of the Plebiscite

As I have explained, right up to the moment of the actual vote, the party patronizing for the enjoyment of their natural right in matters of education, scrupulously adhered to the rules and regulations that govern procedure in such cases, and free and clear for need of our opponents. There took place in the Lot-ish Hall on the day of the Plebiscite but most outrageous public display of the result of propaganda at its most contemptible form ostentation, threats, anonymous letters, calumny, etc., on the part of persons who are influential in the district but evidently lack fair-mindedness. It is nothing less than moral cowardice

The right to vote in this Plebiscite was strictly restricted to Catholic electors, i.e. local Elk Point S.D. No. 3855 who are otherwise qualified to age, residence and property requirements) and eligible. But on that day many of people who have never been recognized [illegible] Catholic, and those of no [illegible] Catholic Church, were not even residents of the district became suddenly imagined right to vote There is really due to the Chairman of the polling for his efforts to comply with the instructions and rules in connection with the conducting of the said meeting. He did, however refuse to permit me the carbon copies of the signatures of those who had signed the Declaration, and Excellency Bishop Basil Ukrainian Exarch for Western Canada, addressed to Rev John Chortawsky of Derwent, Alberta, which I am permitted to quote and which sums up the request for a separate school district and attempts to establish Catholic education in the Ukrainian language in Canada. Here are some of the statements of the Bishop:

"In the past we had a fruitful opportunity to establish Separate Schools in the Province of Ukrainian origin, and bring up Catholic children in the spirit of some of the national and religious traditions. We appreciate their awareness of themselves as Catholics, and as such, as Ukrainians, and we are very much interested in their [illegible] faith. We are grateful to the Government of Alberta for the [illegible] Act, which gives us the opportunity to establish Catholic schools in which the children will be taught the Catholic faith and the Ukrainian language. We are also grateful to the Government

CITIZENSHIP BY DEFAULT

The following reflection on the duties of citizenship is taken from the Leducing Pic, digest of municipal news published in the interest of local government in Canada. It is timely, and precedes nominations and elections for Towns, Villages and Municipalities.

For a long time now there has been a growing concern expressed in many quarters with respect to the low voting turnout at municipal elections and which is frequently interpreted as a measure of the average citizen's lack of concern regarding the administration of local affairs.

It is difficult though, to understand just why an adult [illegible] apathetic about the vital services rendered to [illegible] surrounded for these are mainly concerned with the things that make modern urban living tolerable [illegible] services as water, sewerage disposal, parks, playgrounds, schools, roads streets, police and fire protection, [illegible] made unless it difficult if not impossible. Municipal in contrast terms these services provided by municipal governments costs the municipal taxpayer more and more money each year. For example Canadian municipal governments spent a total of approximately $850 million in 1952 to compared to a total of some $3.5 million in 1954. It would appear that from the point of view of self-interest alone, the municipal resident would be interested in those who will administer the outstanding business — sufficient at least to exercise his right to help choose them. A recent survey conducted by the Citizen's Research Institute of Canada reveals that far too few persons even this degree of interest.

The continuing challenge confronting us is to find the means to keep [illegible] growth of the responsibilities of democratic citizenship can be converted. It may well be that the structure of municipal government is becoming too complicated for the average citizen to understand. If this is the case then techniques must be developed whereby municipal government can be made more meaningful and intelligible to the average citizen. Persons campaigning for votes on such slogans like 'let vote' will hardly suffice. As the Citizen's Research Institute points out "a comprehensive program of civic education in citizenship must be undertaken." If any solution is to end only increase in the manner of responsible [illegible] citizens is to be expected. Such a program, says the Institute, would require the combined efforts of [illegible] organizations, service clubs, schools, churches, [illegible] and leaders and indeed it would have to be [illegible]

Accordingly be spared in the attempt to stimulate a growing [illegible] citizens interest in municipal affairs. The [illegible] the massive municipal electorate must be recaptured if we are to continue to believe with deTocqueville that Municipal institutions constitute the strength of free nations."

SOMEBODY GETS SPLASHED

In attempting to explain Agriculture Minister Gardiner's new fourteen point program freezing the Government's butter purchases at [illegible] Prime Minister St. Laurent told the House of Commons:

"The policy will be to exercise very strict supervision to see that it is restricted only to public institutions and does not affect general marketing conditions.

From his own early storekeeping experience, Mr St. Laurent must know that what at a even hope, comments The Financial Post. General marketing conditions are bound to be affected. The butter that the hospitals, the armed services, institutions get at bargain prices or as a gift from Mr. Gardiner, will simply replace butter the institutions would normally buy. You can't drop millions of pounds of butter anywhere without somebody getting splashed.

FORT SASKATCHEWAN BOOMING

At Fort Saskatchewan, 18 miles from Edmonton, a quiet rural town has been transformed into an industrial centre by a $30,000,000 metallurgical plant which receives its ore concentrates from northern Manitoba, reports Western Business and Industry. Using a leaching process to recover nickel, copper and cobalt from the ore, the Sherritt-Gordon plant requires large quantities of ammonia and uses natural gas for its source of the liquid. First shipments of nickel refined at the plant have gone to the United States to produce high-alloy and stain-resistant steels and ultimately the plant will have an output of 25 tons a day of the nickel. Other products are copper, cobalt and ammonium sulphate.

GREG'S RESISTANCE reached a new low over the Holiday season just past and got talked into taking a full page of advertising. We will probably go broke paying for all this . . . so do not be surprised if next week our ad will be an appeal for some kind soul to take us under his roof.

The idea of this page is to let you know that when you are in the market for insurance — you DON'T have to wonder if O'Neill handles that type. You may buy all your insurance under our roof. You may even buy insurance from us on the instalment plan

GUESS ?

WIN A $25.00 VOUCHER

The space at the left was going to be put to good use. Instead we have decided to give your eyes a rest before going on to the horrible details of this page. If you write below what you think this space was intended for, your entry will go into the barrel for the draw. The lucky entry will receive a $25.00 voucher. For the benefit of those who get their Journal by dog sled, river boat or for those who may be away on holidays, etc, this draw will not take place until March 17th of this year

And we make it simple for you

The average man today should carry several kinds of insurance. He's foolish not to —the cost is so little, considering the protection it gives.

His house, his place of business his other possessions, his family . . . all call for insurance of various kinds.

He should have insurance against loss by fire, theft and lawsuits. He should be protected against accidents to himself and family. He should be protected in case he or his family causes accidental injury to others.

There are at least 100 kinds of insurance protection today. The subject can become quite complex. But we eat, sleep and dream insurance, and it's simple to us.

We can keep it simple for you.

LAND FOR SALE

¼ Section with good well and poor buildings. So acres broken. Full price $4,000

½ Section, 215 acres under cultivation, large steam heated dwelling with all utilities if you are looking for the best this is it

¼ Section right on highway 28 good buildings. Power and telephone, most of this land has been down to grass for the past few years and is all set to burn over for half a dozen good crops. priced at $6,000 for a 24 hour deal

Business Properties FOR SALE

Three business lots on main street, $5,500
Cafe in good north-eastern Town — Doing $180,000 yearly turnover
For a $10,000 investment in a good country store — you will net a $3,000 yearly profit

P. S.

I asked Ralph to cancel these items intended for this page so that I could have space to tell you that when you come to for a policy or advice, you will get exactly what is best for you, not only for us.

Is he kidding?

No, nobody ever asks us to insure only one end of his house against fire, windstorm, [illegible]

But, in effect, many people DO carry insurance on only a fraction of their property.

We mean, they carry only a percentage — perhaps 40% or 50% or 60% — of as much insurance as they should.

They insured their property when property was worth much less. Insurance should be carried not on original cost, but on present replacement costs, less depreciation. (This depreciation is normally very little for well maintained property.)

GERMINATION TESTS IMPORTANT FOR 1956

The growth of this season's crop is of compelled to the farmer upon an accurate knowledge of the sample of wheat, oats and barley from the 1955 crop since that is on hand. Such germination tests determine the germinating energy of the seed, that is to say the number of days it will take the seed to germinate and have grown it to the stage...

At some Farm Institute Meetings held throughout the province during the past winter, a germination test demonstration was given by the Provincial Seed Laboratory at Edmonton. This demonstration showed the importance of germination tests and how they are carried out. Farmers can test their own seeds for germination by following the instructions given in the Seed Branch Circular No. 1951 entitled "Germination Tests for Farmers" which may be obtained from the Publications Office, Department of Agriculture, Edmonton. Farmers can test their own seeds for germination by following the instructions given in the Seed Branch Circular No. 1951 entitled "Germination Tests for Farmers" which may be obtained from the Publications Office, Department of Agriculture, Edmonton. He's helping to build houses by the thousand!

This trick is not as difficult as you may think. In fact, you know probably does it yourself!
Actually, this man is simply making a payment on his life insurance policy. And the reason he's helping to build so the record-breaking homes made for him out of the money his life insurance policy pays.
In the same way, every life insurance policyholder renders many other valuable services to his fellow-citizens. For investment money also helps to create jobs, to keep that body known as your local schools, universities and other important projects.
So, if you own life insurance, you're probably helping to build security for your family and yourself, you're also helping to make Canada a better land to live in!
P.S. from your life insurance man
"Invested life insurance dollars earn interest that makes it possible for you and your family to enjoy that benefit of life insurance at such low cost. If you have any questions about how it helps this business. If your own special needs, give me a call. I'll be glad to help you!"
THE LIFE INSURANCE COMPANIES IN CANADA

Your bank has a new name

- and offers a greater service to you

The Bank of Toronto and The Dominion Bank have amalgamated to become The Toronto-Dominion Bank.
Both strong, independent institutions, the two banks have long and honourable histories in Canadian business. Their combined strength will form an organization with assets of more than one billion dollars, 450 branches across Canada and offices in New York and London, England. Thus The Toronto-Dominion Bank offers you the best in banking service.
Depositors, for example, will find it easier if they move to transfer their account to a nearby branch of the bank where they are known. Businessmen will enjoy greater banking facilities when they travel . . . benefit from increased credit facilities . . . and faster service on business and credit reports.
With its greater new resources, The Toronto-Dominion Bank is prepared to serve the largest business; at the same time its regular customers, both large and small, will continue to receive the same friendly, courteous service to which they have long been accustomed.
Our facilities are greater, our name is new—our policy remains the same.

TYES DUPUIS
Returning Officer

Elk Point Catholic Separate School Plebiscite, February 2nd.

At the request of several persons of Elk Point that surrounding district who took interest in the Schools over the Catholic Separate School question, and Mayor Wallace, the evident absence of four-plex, I think it proper to advise of the following situation.

On the afternoon of February 2nd last, there were two big buses on the road of Elk Point, both apparently free for all the Elk Point Boys Basketball Show at the Arrow Theatre, all in the credit of the Company, and Mayor Wallace, the Pleasure in the

Legion Hall, all to the discredit and shame of the district.

May I reverse briefly the facts and events leading up to said Plebiscite. The Alberta School Act allows any groups of either religious denominations, Protestants and Catholics alike, the privilege, under certain conditions, of operating a separate school in their respective district, said school possessing and exercising the same rights, powers and privileges, and being subject to the same duties and liabilities as a public school. In the Elk Point here: District No. 2003, 26 per cent of the total assessment qualified to vote in this connection. The portion of the population fixed, according to figures obtained November last, 74 children attending the town public school.

Now, it is a matter of record that a resolution was passed by the Elk Point School Trustee Board a few years ago, and is still in force, forbidding all "religious" teaching in the school." Judging by the well-known attitude of some persons having authority in educational matters in Elk Point, the antagonism seems to be part of a program of systematic opposition for the future as well. This to a school where the total number of children of the Catholic faith is presently 234, that is to say, 55 per cent of the total Elk Point school attendance.

(Continued on page 4)

Elk Point High School Defeats Derwent Team

On Sunday at Elk Point, two fast teams saw the High School Hockey Team whip Derwent by a score of 8-5. The end of the rough and tumble game ended the score tied at two all.

In the second period Elk Point tallied three to one of Derwents' goals before swinging ahead in the third period with four more scores Derwent scored one goal.

Elk Point Line up — James Kraus k, Eric Johnson, Nels Morrow Asst., Ron Nolsby, Dean Perdue, Larry Rasmussen, Vic Hall, Ed Soldier, Mac Perdue, Asst., Peter Germann, Milton Lawrenson, Sig Johnson, Andy Borowsky relieved the goalie with Barry Keck taking on the lonesome duties.

Men's Annual Open 'Spiel 24, 25, 26 Feb.

Officials of the Elk Point Curling Association have announced that the men's annual Open Bonspiel is scheduled for February 24, 25 and 26th. Three events. Entries should be in the hands of the Secretary Treasurer not later than 12 noon, Tuesday, Feb. 22nd.

Grade One Pupils Hold Birthday Party

The Grade One pupils of the Elk Point School entertained at a birthday party in honor of Feb. 4th in the Grade One Room. Guests of honor were Mrs. Van Arnem and Mrs. Barking whose birthdays were over the weekend. The party was the culmination of an enterprise with social service as the note. The children are to be highly commended for their table setting and excellent report-mind.

W.A. Monthly Meet

The United Church W.A. held its monthly meeting Feb. 2 at the home of Mrs. Peterchuk. During the course of the meeting a Valentine Tea and Sale of home cooking was planned for February 10. We hope to see a good number out to our tea

High School Elects Council

The election of new officers in the Elk Point High School Students Union took place on Jan 25 in the Assembly.

President, Miss Pardue, Vice President, Sandra Sunday, Sheila McKinnon, Secretary, Anne Marie Gerlitz, Assistant Secretary, Lorelle Barling, James Krutik and Tom Melnyk make up the Social Committee Members of the Year. Cheerleaders are Robert Holday, Milton Lawson, Ernest Berdan and Marvin Valentine. Eve Soldier holds the position of editor of the WeWere with Marvyn Fischer as assistant editor.

In the Junior High School the election of officers was conducted by Miss Bechtold, Secretary-Treasurer, Bernard Anderson, Sec.-Treas Babe Pruska and Games Officer, Jill Farmer.

On March 4, the third annual Amateur Nite is all to held in the High School Auditorium. Every home may be obtained from Sheila McKinnon Ann Peterchuk or Joe Soldier. Entering such as recitations, dances, piano duets monologues, duets, and action songs which will make up the program. For some exceptionally good entertainment be sure to take in this evening's fun.

Curling News

The Elk Point Curling Club held a tournament at both Heinsburg and Derwent over the week-end. Jack Rodney, John Berryschuck, Herm Medwyk, and Mrs. Dannick brought home the second prize in the Grand Challenge from Heinsburg. At Derwent, Paul Stepa, Walter Lavoy, Tom Landon and Larry Rabruck were successful in capturing second in the final round.

The Elk Point Eight Rotary Bonspiel was won by James Marsh, Jean Kapel, Vivian Aarin and Lillian Marsh who edged Mac Fenton, Jerry Boyles Rodney Male and Donna Aarin in a close fought game. It was James Marsh's first appearance which promised the opposing skip from knocking out the shot rock and winning the coveted event Neal Hall's rink edged Marvin Valentine to end another local High tournament.

Mr. Beattie's rink with Mrs. Trodger skipping, Mrs MacDonald, Mrs. Beattie Sec. and Mrs. Barwick lead representated the Elk Point Club in the St Paul Ladies Spiel at press time the finals could not be reached for comment however a win is estimated as all lady curlers to attend the Elk Point Spiel on Feb 12 and 13

SWEEP TO TOP HONORS IN LADIES' BONSPIEL

These ladies had the last word of the St. Paul Ladies' Annual Open Bonspiel. Miss Laurette Cooke, above and her rink are seen holding the Donald Hotel Trophy and regalia. Playing third was Mrs. Paul Lord; second, Miss Solange Couillard, lead Mrs. Tommy Parkinson. Below, second event winners, skipped by Mrs. Emile Lorenz with Jeanne Trottier, Rose Bugeau, Laurette Belland.

Laurette Cooke Wins Ladies Spiel

Lorenz-Trottier Take Second Event

Fourteen Rinks Enter Two Day Contest Farmerettes Bonspiel On February 16th

Fourteen Ladies' rinks enriched household treasuries for curling brooms over the week end in a sweep at St Paul Ladies' annual open bonspiel. Stronger strokes were delivered by Miss Laurette Cooke's four belles who polished off the event easily to win first honors in the main event against Mrs. Joe O'Driscoll.

During the chaos for Laurette were Mrs Paul Lord, third; Miss Solange Couillard, second, and Mrs Tommy Parkinson, leading Following O'Driscoll's broom Mrs Pat Fortier, Miss Bertha Pragnell and Mrs R. Dumont.

Mrs. O'Driscoll who had been out in the event against Mrs Andre Joly let down her guard and complained Mrs Cooke was beat all the way, but leading with a narrow margin in the end. Mrs Lorenz's four-ender effort was earned right back by O'Driscoll who clung on. The eleventh did it for Laurette A 3-ender gave her a four advantage coming in home The home was cheered and she counted

The Laclan rink of Glendon took third in the event and Mrs Andre Joly, fourth.

Second Event

On the left were Cooke, Lord, chief, dueling was done in Trottier, Lorenz and Parkinson against a Beauty Lake rink skipped by Mrs Nancy Rose. The game was called in N. Paul Town in the face of a 12-1 advantage in the 10th end

A regular lady-like rink was Mrs Trottier, Mrs Lorenz, Mrs Parkinson and Mrs Rose skipped and lead Laurette Belland

Beauty Lake Mrs Nancy Rose, vertish Mrs. J. C. Kinzie, Mrs. Pearl Skaine and Mrs Kay Richards

Third Rose rinks cleaned up by Mrs Ken Robertson of Bonnyville fourth stacked in Kay Guthrie's winning part

Maurice Jean and An All-Farmer Rink Win Main Event of Bonspiel

Vic Labeaucane Second, Phelps Third

John Began Makes Presentation of Awards And Invites Farmers To Join Curling Club

Farmers of the St Paul district are coming into their own as curlers and bonspielers. In the annual event run off February 7th and 8th first prizes in the main event, the Cenney Trophy and replicas were harvested by Maurice Jean of Lakeland, playing with a rink whose personnel was made up entirely of farmers. It has been the custom, as an inducement incentive to supply strips from the local town representatives, but performances such as Mr Jean's and several other farmers' rinks indicate that soon they will challenge the best on the curling issue

Mr. John Began, Vice President of the St. Paul Curling Club presented the first rink to make presentations and extended a cordial invitation to district farmers to join the ranks of the club to greater acquaintance for better social and sporting relationship.

Oddly enough, Maurice Jean started with his name at the top of the draw sheet and he ran it all the way down in that position to defeat P. J. Labeaucane in the final game

Maurice had Emil Robinson as third, Alcide Jean second and Ernest Jean lead. Their opponents were Vic Labeaucane, skip; Joe Reves, third; Ernest Jean,

Taxpayers Meet With Council

(continued from page 1)

ministration and to make recommendations for the next year These recommendations are not necessarily in the form of binding motions, to be considered carefully, but simply directives by which to guide themselves in the year

It was recommended that the membership fee be increased to the Junior Chamber of Commerce for next year and that a letter be urged to co-operate in contributing to the Community Chest. For those who have not done so due to the present cost of living, it was suggested to look into the matter of adequate hospitalization

The annual meeting went on record favoring the establishment of an old age home in St. Paul in the line suggested by Mayor Lapointe. Resolutions and for which special funds are being collected at the present time was directed to look favorably into the situation.

Mayor Lapointe outlined strategy urged to give consideration to the possibility of establishing a service small hospital establishment and adult training for services of a full time physician. Interest is pointed out that Fort St. John and St Paul has aligned to all old Ice Automatic Lubricants, donation by Charron & Auto Brush Set, donated by Greg Oleo and Co.

Mayor's Report

Retiring Mayor Walter Lambert expressed satisfaction at the year's activities and in particular the co-operation of the council. Letters and papers were read by the secretary of the past year in connection with the current rock started in the council he brought attention to the various matters that the south and its value to St Paul in locating population, assessment, etc. and all a very hearty invitation to join with us in the Family of God in His work together to extend His Kingdom May God bless us all in our fellowship.

Rev. Ber Taylor.

President Sweeney Addresses Dairymen At Convention in Calgary

At the outset I wish to extend a hearty welcome to the delegates assembled at our 38th annual meeting of the Alberta Dairymen's Association. I offer a special welcome to our guests and visitors from outside the province.

This is a Provincial Association and the annual convention is an occasion of considerable importance to Alberta Dairymen. The meeting this year may be one of the most important in the history of the association. We shall have some interesting reports There will be formal addresses and panel discussions on some of the problems facing the dairy industry. At every convention we have had problems that you will be no exception I am confident, that as a result of the discussions here we shall have a better understanding of our own difficulties and the best way to solve them. I particularly recommend a course of action which will safeguard the future progress of the industry.

Production of Milk

The year that has just closed was a good year for dairying in Alberta. Total dairy production and total dairy farm income were slightly higher than in 1953.

The total value of all manufactured milk products plus the value of milk sold for fluid products retained on the farms amounted to $50,000,000 or $1 million dollars An increase of approximately one million dollars over 1953.

The milk cow population was estimated to be 360,000 head on June 1st, an increase of 4.6 per cent over 1953.

The total milk production was 1,307,000,000 lbs., an increase of 32 million lbs. or 1 per cent

Creamery butter production amounted to 30,300,000 lbs., an increase of 1.2 per cent over 1953.

Ice cream volume was 2,400,000 gals., an increase of 13 per cent.

Cheese production was 2,500,000 lbs., an increase of 7.1 per cent

The quality of creamery butter reached a new high record for the year with 93.2 per cent qualifying for first grade.

Cheese also showed improved quality with 87.2 per cent on first grade and a very high proportion qualifying for the Federal Government bonus paid for the quality of cheese. Alberta dairy instructors won 217 prizes and 3 special awards at the leading Canadian exhibitions while Alberta cheese won 17 prizes for cheese

The quality of cream has also improved greatly with 87.3 per cent on first grade and a very high proportion qualifying for the Federal Government bonus paid for the quality of cream. Alberta dairy instructors won 217 prizes and 3 special awards at the leading Canadian exhibitions while Alberta cheese won 17 prizes for cheese

The quality of cream has also improved greatly with 87.3 per cent on first grade and a very high proportion qualifying for the Federal Government bonus paid for the quality of cream. Alberta dairy instructors won 217 prizes and 3 special awards at the leading Canadian exhibitions while Alberta cheese won 17 prizes for cheese

There is a record of steady growth, of improvement in quality of sanitation and progress on the part of the producers, manufacturers, and those associated with the dairy industry in the province. Further setting of your standards and the meeting for the June or July meeting of the Alberta Dairy Council and was at the rate of one cent per pound of butter fat on all milk and cream delivered to processing plants, effective the first month of June The money was forwarded by the Dairy Farmers of Canada. Details of the use of the national producers organization authorized to administer the

"ONE-BOOM" BONIN

Retired Prize Breeder

"He has no diet, can't take a pen and puts the dairy herd before position. But he's wonderful." That is the verdict of Department of Agriculture officials Bonin and rival 3102, players games by the Bonin Farms Limited who is 170 pounds of muscle is credited with helping Detroit's rise to second place in the 1954 National dairy cattle activities as play-throwing and heart-warming, the Bonin Farms Limited has secured 97 points in the 54 record 1951, season—12 goals and 15 assists. The signing of Detroit's big Bonin is known as "one Boom."

Department of Agriculture

Alberta's Department of Agriculture was reorganized under the Province was created in 1905 to shortcomings in the constant improvement of farming practice, so that the farmer may receive the greatest return for his effort without impairing the soil's fertility.

The work of the department is carried on under a number of branches, each established with men trained for the particular activities as plant-thieving and heart-warming, the Bonin Farms Limited has secured 97 points in the 54 record 1951, season—12 goals and 15 assists. The signing of Detroit's big Bonin is known as "one Boom."

The Field Crops Branch has four divisions, all concerned with better crops and the improvement of cropping methods These are

1 Crop Improvement The division investigates and distributes information about crops and varieties of seed. Special emphasis is placed on forage crops The use of inoculants is encouraged and contributions are made towards the cost of municipal seed-cleaning plants.

2 Weed Control and Soil Conservation. Work is done closely with the Agricultural Service Boards, and information and advice obtained reports to the farmer through farmer land use

3 Horticulture This division includes the provincial horticultural station at Brooks and a forest nursery station at Oliver. Information on trees, fruits flowers, lawns and vegetables is provided, and improvement of home grounds encouraged by the supplying program with an output of 10,000,000 trees a well underway.

4 Crop Protection This division deals with weeds, pests and disease Information is distributed and active campaigns for the control of field crop insects, rat beginning and vegetables pests and wages

The Agricultural Extension Service Branch, through the preparation and distribution of useful information, endeavors to improve the effectiveness of their operations of the various branches employs 47 district agriculturists, 18 district home economists, 4 staff of supervisors as well as specialists in agricultural engineering, nutrition and home design Many thousands of public meetings, home visits and office interviews are held each year Agricultural statistics are compiled for general use, and Alberta's Master Farm Family programs honoring outstanding families in five sections of the province is conducted by the branch

The Radio and Information Branch is responsible for the radio programs "Voice of the Land" information of agricultural interest is broadcast Monday through Friday from six Alberta radio stations. Other publications are prepared and distributed weekly to the farm press and others.

The Poultry Industry Branch assists farmers with poultry enterprises. Floors supplying eggs to hatcheries are tested and an experimental breeder farm is operated at Oliver

The Agriculture Branch is concerned with the promotion and efficiency of the co-operative

Schools of Agriculture and Home Economics are operated by the department at Olds, Vermilion and Fairview Practical two-year courses in agriculture are offered to boys and in home economics to girls Courses start in October and continue until early April

The Veterinary Services Branch seeks to reduce disease losses in the livestock and poultry industries, to the send maintaining a modern laboratory for diagnostic services.

The Livestock Branch promotes better breeding in cattle, sheep and swine through the greater use of purebred sires, and encourages improvement generally through competitions, breeding and management practices.

The Dairy Branch is concerned with the many aspects of the dairy industry from the raw to the finished product. As well as directing activities in production on the farm, the branch is responsible for dairy factory and frozen food locker plant inspection.

The Fur Farm Branch provides Alberta's 500 fur farmers with information and assistance designed to improve quality, reduce losses and generally to increase efficiency in the production of ranch furs

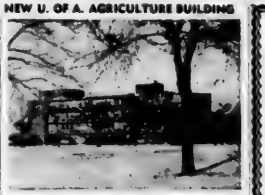
NEW U. OF A. AGRICULTURE BUILDING



The above new University of Agriculture Building is one of the interesting Campus places you are invited to visit during the Annual Varsity Guest Weekend February 25, 26, 27. Highlights of the week end will include conducted tours throughout all the major buildings where a number of displays have been prepared. Special programs and entertainment are also on the agenda. It's going to be open house at the University. Everyone is invited including parents and prospective students now in High School.

TRAFFIC SAFETY LANE

By J. W. McKAY

Inspector Highway Traffic Board, Edmonton.

Why is it that so many accidents occur when no one in his right mind likes to be in a smash-up? Why is it that today special concern and attention is paid the accident-prone and accident-repeater driver? To what may we attribute the huge accident rate among the small percentage of our driving population? What influences may we expect law enforcement, traffic engineering, driver testing and other activities to have on driver behaviour? How important for safety are psychophysical testing devices?

The questions asked above are really a fact that face those whose job it is improving the driver. With the accident-prone driver we must study his complex nature, his behaviour and environment in order to help him drive. This is easily attitudes and emotional responses behind the wheel constitute only one important aspect of his total personality, he must be studied as a total individual and as a member of society as well as analyzed as a driver who is susceptible to involvement in accidents.

There exists today only a limited amount of proved facts and reliable data to work with. These data provide only limited answers to the many questions which are asked. When final and justifiable the contributors have included their conclusions or the expert opinion of other technicians and specialists. It should be noted that in no instance is the intent of the contributor merely to supplement proved fact nor as a means of furnishing additional information of particularity, even though it may be of limited value.

Highway accident-prevention and driver-improvement are a challenging and complex problem. The solution requires concerted effort, systematic thinking, exhaustive research.

As Lower, early states "Let us not, however, ourselves. The problems of highway and traffic safety is going to require many arduous hours of hammer and toil. There will be no easy solution. In the meantime, we must be on the lookout for blind alleys. If perchance we follow one to its termination, there are always plenty of arguments left to be explored. One of them may lead us to where we wish to go. The fundamental objective is conservation of human life. It is a problem which cannot be considered lightly."

BIG VALUES IN LATE MODEL USED CARS

CLEARANCE

Yes sirs! drive off in a top-value car – from any of these listed below. The customer is king . . . come in and look these cars over, drive them yourself, and then make a good deal. Don't miss this special event!

1951 Chev 4-Door Bill Belego of St. Paul fell in love with the new 1955 Pontiac so we took this dandy car in trade Deluxe model fully equipped. No trade-in at $1075

1954 Fargo half-Ton We get [illegible] you'll find it just a new second-[illegible] in it. You should have seen the comments rolls passing out of the block before we did. You can probably talk us out of some new tires too (if you have to $850 trade-in?).

1951 Studebaker V8 4-Door. Dr. Louis Mandin almost bought the car back when his new 1955 Pontiac and the green (small G) burner looked fenders the other day. Overdrive, radio, turn signals, and covers A bath of a fine clean and guaranteed at $1250

1955 Chev 2-Door A sight for sore eyes in this turquoise green and light gray two covers, heater, spotlite, turn signals and a goodwill guarantee about at the fantastic price of $1475

1947 Chev 2-Door We sweet talked Metro Arychuk of Glendon out of this dandy car in excellent condition with heater, seat covers, radio, turn signals and new tires Metro is a mechanic and he must have done his best work on the car $695

1951 GMC half-Ton Ask John Bertuzzi about this jalopy. It's just had and we think it's real good value a goodwill guarantee at $760

1951 Studebaker Champion 2-Door Keep big value Used's the word from Chief Pontiac of the G.M. trade radio underseat heater and many extras Good-will guarantee $1150

1950 Studebaker 6-Door What's the matter Henry Lawrence, you can't be spreading the good word about your former car But we think in a family with overdrive, radio and seat covers Two former owners of St. Paul owned by Studebaker But you won't swear when you see the excellent value of this goodwill guaranteed car at $1250

1947 Dodge 4-Door This is the lowest powered, highest priced used car we have Used to belong to Bill Bjarnason and he'd wrap it use us offering this long drink of water (or do you just want us water). Repaint it yourself and pay us $150

1952 IHC half-Ton Thereon of Brosseau and other 4.9 points traded us this on a new Pontiac He's satisfied, we're satisfied and we know you'll be $1075 to at

1950 GMC three-quarter ton The two packer loops — we mean buyers; who twists our arm enough can walk away couple we mean drive away) with this spacey $490

1951 Chev 2-Door Ask Adam Kaszevski, another 1955 Pontiac owner, about this neat family car We honestly don't know where you could get better $1275 value at

EXCHANGING GRAIN FOR SEED

A regulation permitting farmers to 'seed grain over the quota against the purchase of Registered or Certified seed has again been put into effect for 1955. However, the quantity of grain that can be delivered has, this year, been increased to 400 bushels and the quantity of Registered or Certified seed that may be purchased to 150 bushels. Many farmers will take advantage of this arrangement. All should consider it. See your nearest Searle Agent for full information.

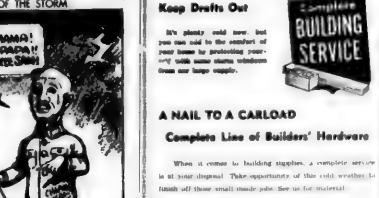
ORPHAN OF THE STORM



CIVIC INTERESTS

The Town and Village Act (Section 127) states that the Council of a municipality must call an annual meeting once a year to give a complete report of the year's operations at all interested ratepayers.

Complying with the edict this sparsely meeting was held in the St. Paul Town Hall on Monday, February 14 with a very small percentage of the ratepayers present to hear what their council has done in the past year.

There is a purpose for such a law. Everyone is prone to criticize the public, believing that it is for either graft in small unofficial groups, spreading a lot of inaccurate information which in many cases detrimental and harmful to the councillors. The annual meeting is the place where all "beefs" should be aired, at a place where they may be heard and dealt the most good. Ratepayers have the opportunity of recommending any legislature to the incoming council. It is their privilege to make suggestions that will become law, but they serve as a guide in influencing policies and engineering legislation.

It is strange indeed that when the ratepayers are really dissatisfied, having a kick coming, that they hesitate to raise the roof. From the attendance of last Monday it would be reasonable to assume that everybody is satisfied at the administration.

Actually they should be because, except for a few minor office changes the Provincial Inspector's report was very satisfactory.

May we remind you that next Monday is nomination time for one mayor, 2 councillors, three school trustees and hospital representative. It is your duty to take a lively interest in municipal affairs in order that we may elect the best citizens to run our business affairs.

PREFER PRIVATE INSURANCE

Conviction that collective responsibility for the hazards of sickness and accident should be voluntary finds expression through such private organizations as the Blue Cross Preference of vast majority of Canadians for private health insurance lies in knowledge that such non-profit schemes are devoid of politics, administrative red tape and bureaucracy.

Those countries where collective responsibility for health insurance has been assumed by the State have discovered to their sorrow that national health insurance is far from being the panacea by leftists.

Trouble with State-run health insurance is that its efficacy depends upon the economic health of the State itself. If cost of service, as is frequently the case, requires such high level of taxation that nation's economic welfare is impaired, financial consequences manifest themselves in form of inflation, or as dwindling level of investment, thus curtailing job opportunities.

Extensive base cost coverage under voluntary health insurance, such as prevails in Canada, is clear indication that people of this country have no intention of repeating mistakes of UK and other countries where health insurance is a State responsibility.

NO PLACE HERE

For Canada, declares The Financial Post, any policy of farm price supports similar to that in the United States would be ruinous. "In the United States it has been bad enough and world food markets in which Canada has such a vital interest have been seriously shaken. But in the United States agriculture is only one of a great many segments of industry. If the taxpayers there voted to subsidize the farmer, that is their own expensive business and they can probably afford to do so."

"But in Canada farming is one of the country's biggest industries and a firm export market for surplus Crown Properties is absolutely imperative. We cannot begin to consume all our own farm production. Under such circumstances price subsidizing simply does not make sense. We haven't got enough taxpayers to pay the bill. Canada's job is to grow food and market it, not pile it up in elevators and cold storage."

KIND OF COMPETITION

Canadian manufacturers are meeting in domestic and world markets as illustrated by report in NY Times, January 30, that factory workers at Frankfurt put in an average of 56 hours a week for pay, including overtime, of $22. In city's many industries, workers average 51 and a half hours. (Legal basic work-week in West Germany is 48 hours.)

Marked difference was found between wages paid men and women. Among skilled workers in Frankfurt's chemical industry, which is considered to have a high wage scale, men average $24 an hour, women 31 cents. Clothing industry pays men $18 for a 44-hour week, women $11.

MALLAIG BULLETIN

C. E. BELLEVILLE, LOCAL REPRESENTATIVE

Mallaig News

Old man winter appeared in his usual form for a few days this week when temperatures tumbled to 30 below, however the worst only lasted two days duration. It is again mild and bright 32 above at present writing.

W. (Bill) Fitzgerald is a patient in the St. Paul Hospital as we go to press recently. Phone calls to the hospital indicate that Bill is getting on the mend after his recent bout with the grippe.

Quite a number of friends and relatives attended the funeral of the late J. K. Wallace on St. Paul's Anglican church on Wednesday afternoon last. Rev. Canon Hewitt officiated.

Mailing held it's first hockey tournament on Sunday, Jan. 23rd with Mallaig, Lac Vert, Lac Des Iles and Lake Alma participating. Lac Vert defeated Mallaig and St. Paul defeated Lake Alma in the first round. Mallaig defeated Lac Vert in a return evening game. Mallaig and Saskatoon Lake race in the finals. Lake Alma and Lac Vert played for third and fourth spot.

The first game was a close and exciting affair with the visitors getting away fast at the start.

Several members of the Mallaig 4-H Canoe Club attended the meeting at St Paul with the 4-H Council there during the meeting an enjoyable evening was spent by both Council members and the Lafrance is to be congratulated on the manner in which he handled the social situation as many girls were present with whom we did not know personnel.

The evening Friday evening, February 18th, a challenge game has been taken up by the ball-teams and would-be-ex hockey mentals of Mallaig, they have the authority to take on the Juvenile Game to commence at 8 p.m. sharp. Would the first-aid crew please be on hand with patent-ent, stretchers and splints, as we feel the Mat-ballers will tumble over like bowling pins after ten minutes of play. After all, they are essential to any evening's entertainment on Saturday, and would like to give as much as possible. Rods don't let him hard on them, but at the same time give them a good training.

Mallaig Juvenile Hockey team defeated Lac Vert Juvenile team on Sunday, Jan. 30th by a score of 6 goals to 3. Mallaig team consisted of Bill Fitzgerald, Ken Fitzgerald, Ken Wallace, Ken Hagsan, Ken Hebert, Ken Hebert, Ken Hebert

Questions you may ask about...

THE TORONTO-DOMINION BANK

The Bank of Toronto and The Dominion Bank are now one—The Toronto-Dominion Bank! With a network of 432 branches, operated by 5,600 employees, Toronto-Dominion offers Canadians outstanding banking service. With offices in New York and London, plus world-wide connections, the bank has excellent overseas banking facilities. With assets of over one billion one hundred million dollars, and more than one billion dollars in deposits, Toronto-Dominion ranks as one of Canada's large banks, serving a million Canadians.

Many customers may be wondering how the amalgamation will affect their connections with the individual businesses. We hope the following may be helped.

Do I continue to use my same cheque book, pass-book and other bank forms?
Yes, for the time being. New cheque books, pass-books and other bank forms with The Toronto-Dominion Bank's imprint will be introduced later.

Will my Savings Account retain the same number?
Yes.

Will my arrangements for business loans and credit facilities continue?
Yes.

Will cheques made out on Bank of Toronto or Dominion Bank cheque forms continue to be valid?
Yes.

Are the personnel of my present branch likely to change?
The amalgamation will not involve any change in policy with respect to staff movement.

The manager of your local branch of The Toronto-Dominion Bank will be happy to give you further information.

THE TORONTO-DOMINION BANK
THE BEST IN BANKING SERVICE

THEIR COMBINATION IS TO BRING WORLD SKATING CROWN TO CANADA

Three state young blade artists hope to nail off with world figure-skating laurels as easily as they walk towards the camera. Pictured in Toronto as they departed for Vienna, Austria, are from left: Charles bowling Canadian senior men's champion, Barbara Wagner and Bob Paul runners-up for the Canadian pairs title, Linda and Jeffery Johnston, the brother-sister pair that won the national waltz and dance trophy. Ann Johnston, second in the senior ladies event. Norris Bowden and Frances Dafoe winners of the Canadian pairs title the last two years, are missing. The group flowered to retain the world pairs championships they copped last year. Ruth member of the Canadian team. Could just finish the senior women's champ, left from Montreal and will join the other Canucks in Vienna. The world events run from Feb. 14-18.

WEDDING

Clarkboro — Idaho

Saint Jean de Brebeuf church at Mailing was scene last week-end of the wedding of interest when united Miss Lucille Charbonneau, daughter of Mr. and Mrs. Alphonse Corbeau, Mr. Rolland Malo, son of Mr. and Mrs. Raymond Malo, also of Ma... Nuptial mass was read by Rev. G. H. Perreaux, pastor of Mailing.

The bride, given away in marriage by her father, wore a white floor-length gown, cut with lace from neckline to waist, pearl trim with floor length veil. She carried a bouquet of pink and white roses tied with wide pink ribbon.

Mrs. Corbeau accompanied her daughter as a grey dress with pearl jewelry accessories.

Bridesmaids were Jeanne Malo, a fellow net gown and crown on her head, Yvette Jodoin in a of pink angle shirt with net trim and small crown; Harvey Corbeau and Simone Gauvin were best men.

Sister Lavelle ... organist at the organ while a girls choir made the usual renditions.

Reception was held at Mr Alphonse Corbeau's and supper at Malo's Dance in the evening at Mailing. Couple will take up residence in Mallaig.

A Comment On Old-Timer Game

Editor
St. Paul Journal.
St. Paul Alberta

A comment on the old-timers hockey game between Edmonton and Calgary.

I am blessed (or cursed) with a large family and am capable of observing the trend of the time and men like me are forced to endorse the respective policy of reform. If organized hockey and entertainment as we know it is to continue at all, not only must there be a consolidation of power but there must be a complete unquestionable control by head it.

Had I spoken to the great white fathers and foremen the results of the game, I would have offered my undivided services to the old-timers club, with the result that the home men could have been whitewashed.

I won't be near the next fire practice as it could happen that the home will accidently point at me with hot pressure

Hockey Enthusiast,
Alfred Bay

No prejudice here either,

Ninth Teen-Age Conference

Re-burg Teen Town this year is being host to the Ninth Western Canada Teen Conference at ... Alberta, from April 14 to 17, 1955. Brandburg is 70 miles west of Edmonton on paved highway 16.

If there a a group of young people who feel ... organization or Club in your community is over the ages of 13 to 18 inclusive, they are invited to attend this conference. If there is not an organized group in your community but there are some Teenagers that there be a consolidation of power but there must be a complete unquestionable control by head it.

Had I spoken to the great white fathers and foremen the results of the game, I would have offered my undivided services to the old-timers club, with the result that the home men could have been whitewashed.

I won't be near the next fire practice as it could happen that the home will accidently point at me with hot pressure

See why the big, beautiful PLYMOUTH is the Big Buy of all three!

Manufactured in Canada by Chrysler Corporation of Canada, Limited

This year, of all years, it pays to look at all three! For this brilliant '55 Plymouth is all-new from the tires up!

Plymouth is the longest car of the Big Three—over eight inches longer than one, over five inches longer than the other! And Plymouth's advanced Motion-Design styling gives a feeling of forward movement, even when standing still

Plymouth's New Horizon sweep-back windshield is the first to wrap fully around at top as well as at the bottom—to give you extra vision where you need it most! Best of all, Plymouth's new 25-Plus V-8, and the stepped-up PowerFlow engine, all give top performance from regular gasoline! Get the exciting story firsthand. Visit your Chrysler-Plymouth-Fargo dealer now!

IT'S THE LONGEST OF THE LOW-PRICED THREE! From bumper to bumper Plymouth is longer—and that means a big extra measure of riding room! It's even longer than the car you want, the luxury you want in a low-cost Plymouth!

A NEW FIRST IN CONVENIENCE! Plymouth's new Flite-Control for the Push-Button automatic transmission means shifting right on the instrument panel.

See and drive the longest . . . lowest . . . liveliest PLYMOUTH ever at your CHRYSLER-PLYMOUTH-FARGO dealers

President Sweeney Addresses Dairymen At Convention In Calgary

(continued from page 1)

funds raised by the June appeals campaign. During the five years we have been associated with the national fund we have sent $315,000.00 to the central institute of the dairy producers of Alberta. We are glad to say the principle established that producers are willing to maintain a share of their earnings toward the cost of public relations and advertising.

The money is spent on the promotion/education of an adequate, based, composed of representatives of the Associated Milk Producers of Canada, the National Dairy Council and the Dairy Farmers of Canada.

Life Membership

At the event at annual convention, it has been customary for the whole-hearted approval of the members at the voting of Life Memberships. Certificates to a few outstanding members of the association. Your Directors feel confident that you will approve the action of the Edmonton Dairy Council in honoring with the name of an ever expanding population. The Directors have accepted the responsibility of promoting, if possible, more production to meet the demands, little with a regard for richness, purity and wholesomeness, unsurpassed in any part of the world.

Dairymen have accepted rigid standards of grading and sanitation, they have maintained continuity of supply and adopted exacting methods of handling perishable foods. They have reduced costs to consumers a reasonable price for their products and they have discharged their responsibility to the public in a manner worthy of the highest commendation.

To make sure that consumers will have as much as they want of dairy products as many products, it is desirable to produce slightly in excess of estimated needs. To this end the output is beyond the control of the dairyman.

Drought conditions can upset predictions and a shortage will result, unusually favorable conditions can produce a surplus and have less the farmer to the dairy industry at the present time.

Dairy production in Alberta is increasing by about 3 per cent of the total milk production going to butter converted into butter and during the years of favorable production conditions.

In the form of butter, his accumulated in a standard proportion. The disposal of an accumulated stock of a non-seasonal product becomes a real problem. A surplus, even when held by a government is difficult to dispose of, in a world of trade barriers, currency difficulties and domestic support schemes such as the United States price of parity prices.

In Canada, as in many other countries, we have had the benefit of these prices, for butter. There is no shortage in the home fits to producers income. This in all the more appreciated when the stability of dairy prices are compared with the price decline that has taken place in other farm products.

The surplus of butter is not due to an increase in production alone. It is due to the fact that margarine has displaced butter in the home market to the extent of 17 per cent. It has consumed with some degree of accuracy that margarine has caused a decrease of 3 lbs per capita in the consumption of butter in Canada. It means that one third of the market has been lost and the trend continues. Where will it end? In the U.S. the sales of butter and margarine are about equal.

Various suggestions have been offered as solutions to the butter surplus problem. Briefly stated these will be debated at the convention. It must be remember that farmers receive 60 cent per pound of butterfat, while vegetable oil, landed in Canada at a cost of ten to twelve cents per pound.

How to remove the disproportion is something to some form of assistance to dairy producers. In granting him such assistance it should be support products. This is hard to understand. For dairy men who produce butterfat, while receives about 60 cents per pound of butterfat, while surveys, show his actual cost is around that figure. Yet there are those who say: Reduce the price of butter and he problem will be solved. The man who received the least for his labor is asked to take a further reduction.

If those who openly advocate a drastic cut in the dairyman's wages were to invoke the same principle in other wage earners, the picture would appear in its true light. If some sellers, who offer the wage cut, as the quota advocates, would visit the farm homes in rural areas I believe they would not have the heart to place the full burden of the price adjustment on the farm family.

The industry needs, and must have, some protection against cheap vegetable oils. I appeal to every group of society to consider the survival of a section of the agricultural industry which is threatened with destruction. I often I for a better understanding of the plight of those people who create so much new wealth every year and who work seven days a week to supply essential food products for the nourishment of our people.

Seventeen per cent of the people in Canada are depending on the dairy industry as a means of livelihood. If we need the dairy industry it should not be a crime to ask for some measure of protection for it. If we unfairly tax one section of the economic structure for the benefit of another section of the economy we are not helping the entire area or retail price. Their cost of production would be increased. Should they get more than a small share of the present income.

If nothing the spread seems to be the price of margarine is unduly governmental policy at the consumer level and creates a premium for those in authority that are asked to decide on the best method of giving relief to the dairy industry. Should they choose to subsidize butter or to subsidize margarine?

Constructive suggestions are invited and our executive will be pleased to receive from the conventional floor, representations of bonds an appreciation for the services of some of the vital problems in the industry and I hope everyone here will be better informed of these matters at the close of the convention.

Acknowledgements

I want to thank the Directors for their support in the work of the association and I want to express my appreciation of the services of Mr W F Kruger, our Secretary - Treasurer. The Directors wish to thank Mr D H McCallum for his assistance on the program committee and his fine co-operation throughout the year.

Our special thanks go to every member of the Calgary Committees for their splendid convention arrangements

Here is a good two-part combination. Like the pair and other outfits it is a French cotton with a contrast all-over small dot and border of polka dots. This is cool and will wash effectively in both the dots. Yellow and pleated skirt. The blue bodice and the yellow is a basic sash. The yellow is a basic sash. The yellow is a basic sash.

CARD OF THANKS

We wish to thank all our friends and neighbors, in St. Paul, Elk Point and Edmonton whose kind expressions of sympathy floral tributes on shoulder during our recent bereavement greatly by alleviated the grief at the loss of our father, Mr Wm. Mornick

Fred, John, Steve and Families.

Plan Improvements on Guides And Scouts' Hut in Future

A very successful meeting was held at the Scout Hut on Monday night, Feb 17, with Dr A Winchester in the chair.

Minutes of the last meeting were read by Mrs. C. Boos as the Secretary and were approved and adopted She also read the financial statement, which was an encouraging one

Appreciation was expressed from the chair of the highly regardable work and appreciation of the recent tea by the Guides and Brownies, realizing splendid results of $76

The main discussion of the evening was the proposed improvement to the Hut, whereby it is to be thoroughly insulated and made draft proof A carpenter is to be employed to organize & groups of voluntary workers, these are to be recruited from a band of very willing men from Spring Park district and from Elk Point Village.

A member of other equally important activities was gratefully discussed, to the benefit of the group of young people who enjoy using the Hut regularly on appointed week nights

The kitchen is also to be properly equipped, so that with both gas and electricity which have been installed for some time past, it is proposed to have out the building at very reasonable rates for such gatherings as teas or banquets.

Mrs Raham, always a very enthusiastic worker has made a wonderful parliament, quilt of many attractive colours to be disposed of for funds for the Scout and Guide movement in Elk Point

Any person masonry interested in the life and welfare of our young people in Elk Point are asked to join the welfare group.

Library Very Popular Place

The Elk Point Library boasted just sort of Zerweck's Corsage for a program on the Wednesday and Saturdays from 2 until 6 p.m. Members came from Arnaudville, Shoonvert Valley and the Bait plant as well as from the Town of Elk Point.

Another section of shelves has been added recently thus taking up all available space in the present, adding Much of the credit for the success of the library goes to Mrs H Vaughn who is most tactful as her duties as librarian.

Derwent Team Beats Local R.S.

A high school hockey game at Derwent Sunday saw the Derwent Dodgers defeat the Elk Point High School team, as a rough and tumble sixty minutes of play Derwent went ahead 5 to 0 the first period and added 1 more to 1 of Elk Point's in the second? In the third period Derwent added 1 goal before Elk Point rallied with two quickies to leave the score at a final 7-3.

National Jaycee President At Lloydminster

Monty Aldous, National president of the Junior Chamber of Commerce of Canada, on a current nation-wide tour stopped over in several Alberta Points last week to bring a message of unity and co-ordination within the organizations.

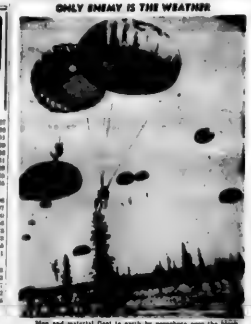
At Lloydminster on Friday, Mr. Aldous addressed a number of Jaycee delegates at a special meeting Representatives were gathered from North Battleford, St Paul, Camrose and other points

At a dinner meeting in the evening, taking the floor as guest speaker, Mr Aldous brilliantly and concisely emphasized the growing power of Canada and the place it is being called upon to fill in international politics.

"It's natural resources," said Mr Aldous, "have great potential and we are destined to play a greater role than any other country. But what really makes Canada the unique nation it is and necessitates for its continued prosperity, is our freedom. We have it in abundance."

Jaycee delegates attending from St. Paul were Mike Pauylik, president, and L. H Drouin.

Mr. G. Ross McIntosh, manager of the "News Optimist," and a Saskatchewan Regional Director from North Battleford was also a guest speaker



ONLY ENEMY IS THE WEATHER

Men and material flow in earth by parachute over the bleak, snow-covered terrain where the U.S. army and air force are conducting the joint operation "Snow Bird" in Alaska.

District Farmers Meet To Discuss Parity Prices and Marketing

On Monday evening February 14 a meeting of great interest to all farmers was held in the

Under the chairmanship of Mr W Parkinson of the Cork Local PUA, Mr Lake Beale, chairman of the International Co-operative Pulp Union was guest speaker. The hall was well filled with farmers from the surrounding districts. Be said did the speaker handle his subject and so kept the attention of the audience that any time during Mr Beale's two hour talk, the proverbial pin could have been heard to drop

One of the first objectives of the Farmers Union in this province is to have a high percentage of the farmers banded together permanently in co-operate with other provinces making a united front in wide organization

Parity prices and marketing boards were discussed both by Mr Beale and Mr. Schulz strongly advocating information was given on the part the federal government having within itself different groups which are responsible to different organizations such as labour unions, agriculture unions, manufacturers unions etc. In the last twenty years no farm organization knew what the government group to which they could bring their problems. Labour unions are starting to support farmers more and more as time goes on

A good examination of what support prices are, and how they are consistent closely price of milk, to the point of deciding exactly which the farmer has to buy before obtaining while farm produce prices consistently drop, is known to the public at large and a depression follows. If the right goals and for agriculture everywhere will be left in darkness

A question period followed the address, and many pertinent questions were asked the speaker

In moving a vote of thanks to the speaker Mr Norman Slater said "I have always found the business like conduct their business on a highly organized plane for showing profits while farmers for years past have been progressing along without organized representation, taking what was handed out to them."

Farmers cannot expect miracles to happen after one year or two of solemn organization. The necessary machinery is now set up and farmers consistent support of the PUA, is the only solution to their problems

22 In Race For M.D. Councillors

Beckaine Wins School Seat On Braw Decision

Paul Back Gets 20 Majority In Div. 2

The nominees had hard to call on everyone any reason and with 67 votes it would be required to ... sibility either would gain the seat for Trustee in Division 2 (Holding St Luke, Therien St Vincent etc.) of St. Paul School Division No 43

The unofficial count was too close for a clean cut declaration and the official count was still more complicated with a deadlock of 336 for Wilfred Desjarlais, Mailing and Mrs. Jeanne Marie Charles Williams of St Line

One ballot, showing a spoiled result, was discarded on supervisor of both candidates, after a hard controversial debate arose out of two ballots. Both of which could be prominently declared void resulting in a tie again on the choice came ballot favored Desjarlais, but after Williams, in favor of either would declare a victor.

The ballot Barney Deckaine had been marked for another candidate, but a change of mind had moved the cross up It was not an Charles On a subsequent ballot, having run short, the Bonner Power Deputy Returning Officer listed Williams with the wrong Christian name of Wilfrid instead of Charles and because that name was not spelled right Deckaine, doubt was expressed as to the intention of the voter.

Faced with the dilemma of making a decision in a perplexing predicament, Returning Officer Yves Dupuis gave the matter proper consideration and finally and after consulting with the Deputy Returning Officers personnel, broke the deadlock with a draw proposal, accepted by both candidates and their representatives

The name of Wilfred Deckaine was then drawn out of a hat by Mr W. E. Gadbois Chairman of the Board of Trustees The other of the newspaper held the hat.

Had the election been declared a tie by the Returning Officer, the candidate whose nomination papers are filed first is automatically elected, according to the Robert Act. Mr. Deckaine entered his at 11 a.m. and Williams at 3 p.m.

Both candidates, before the draw, reserved right to contest the election if the result proved unsatisfactory.

Mr Deckaine was duly elected Councillor for Division 2, but Charles Williams and his supporters have not entirely ruled out contest the election on the eligibility of some voters on the list.

The question of a hospital in Goodridge District may be considered as further grounds for calling a new election. It has been alleged that irregularities and interference with the conduct of an election was made by some Goodridge ratepayers who set out to bring included in the St. Paul Roman Catholic District and School Division, made necessary by the non-co-operation decision, determined at the first of the year. They would number remaining with Bonnyville. Only three votes were required.

Hornets Out of Eastern League Playoffs; Win Last Game Off Viking

The St Paul Hornets, playing from behind, with only a numerical chance of remaining in the playoffs did not give up fighting the heavy odds to the end, with sporting and competitive spirit, which gained the admiration of the local fans and outsiders as well.

Starting the season with a disorganized team, they rallied toward season and turned out a powerful aggregation that was the best in the league. It is believed by some observers that had they been given a few chance and not been, it is rumored, victims of gambling, they would have walked right through the playoffs.

They were knocked off of the finals not by their failure to win, but by a 7-6 loss, the powerful Vegreville team conceded to Vermilion in a crucial deciding league game.

As it was they ended tied for points with the Vermilion Tigers, but lost on a basis of goals for and against.

In its last four games the Hornets have won three and tied one, rapidly climbing into a playoff berth. Their best game in the season was played at Viking last Friday when they defeated the most powerful team of the league 6-5 in a real thriller, ending the League in a blaze of glory

At League Next Year

Official word has it that the Hornets have been accepted in the Eastern Alberta League for next year The enthusiasm being displayed and the support behind the team will make them a strong contender The boys know what the score is and right from the start they will go in there with the kind of competition that will make it tough all the way through and not only at the finish when the odds are in favor.

The Roster of St. Vincent

As soon as Gilbert Brosbu, coach says his score do under . 5 Pat Tessa in the line of road, they were urgently called to save a floundering Meadow Lake rink in the Sasbu Meadow Lake Cup Series. Lineup, Gilbert Brosbu, Pat Tessa, Bill Lemire, Paul Leger, Jack Gauthier. They were back Wednesday for a game in Bonnyville

* * *

The boys, scheduled to leave Tuesday morning by car, were held up by drifting roads, but the urgency decreed that they must be on the line at all cost

In the time of despatching a special aircraft to pick up George Vallieres, Paul Leger and Bebe Gauthier. They were back Wednesday for a game in Bonnyville

* * *

The semi-final will put together Kenie Anderson of Edmonton and Frank Kuzyszyn of Red Deer

* * *

The boys to watch in Lamo (Frenchie) Dubois of Edmonton who will go in with Jerry Joe Edwards of Amber Valley These boys at only 117 and 118 lbs. are very quick and give out a lot. Little Frenchie is as game as they come and always goes in to win. From the previous fights we are sure he can go a long way in the boxing game

* * *

Frenchie's opponent, Jersey Joe Edwards, has always put out his best and is confident that he can win The fans should get some laughs from this bout as Mr. Eden's main fight is to commendan Laugh and the world laughs with you" is the boy's motto

Another 4 rounder will put together Ora Lazarenko of Edmonton and Gordon Russel of Coronation Gordie Russel's last fight was a win over Terry "Terrible" Tarshan at Edmonton

* * *

Dates, who is promoting this fight is trying to line up another 4 rounder to complete the card. So until Saturday, see you at the Legion Hall.

Continue Winning Streak At Two Hills

There is no doubt that the winning spirit has taken possession of our Hornets. In Two Hills, last Sunday, they continued the streak by winning top honors in a 3-game competition.

In the initial game they took Redwater 2-0 and in the finals defeated Bonnyville Two Hills 7-4. Bonnyville lost the first game to Two Hills 5-0.

* * *

Bonnyville, making a bid in the Provincial Intermediate B Playoffs lost the first of a home and home series, total points, 7-1 at Barrhead last Saturday.

In Bonnyville Wed., Barrhead took the series with a 3-1 win.

* * *

Important Players

Our star players from Saskatchewan have developed into some pretty important players. The backbone which bolstered our St Paul Team in its hour of need, the urgency decreed that they must be on the line at all cost

In the time of despatching a special aircraft to pick up George Vallieres, Paul Leger and Bebe Gauthier. They were back Wednesday for a game in Bonnyville

* * *

Brigade Called Out For 'Polky'

The St. Paul Fire Brigade was called out in sub-zero weather, Tuesday at 4 p.m. when they were soon to fight a fire at Roy Pudenuk's main street residence.

Caught in time from any early alarm given by Mrs. Pudenuk, the fire was confined to damage in the children's room clothes closet. Fire damage itself was slight to the clothes, but heat, dense and local smoke consuming from smouldering clothes made it hard for firemen to work and control the building.

It is believed children playing in the room had found matches and accidently set fire.

Over Expenditure Of $73,000 On 1954 Budget

Charged Mostly Against Public Works and Bad Weather Conditions

Re-allocation of Municipal totals into comprehensive classifications and changes of existing allocations effecting bad economic conditions necessitating re-assessment of values in all divisions and special interest at the annual Meeting of the St Paul Municipal District No 26, Saturday, February 19, which recorded nominations for 24 candidates in the seven divisions and a final total of 22 contenders after two withdrew before the deadline, Monday

Nominations to Hospital Boards were unanimous in favor of Mr. Mr. E. L. Gadbois in the St. Paul Municipal Hospital District No. 26, and Mr. Nick Tymchishak representing the Municipal District No. 26, 2.3 Point District No. 12 will be elected by acclamation. Division No. 7
Art Porter
J J Schaff
A S Krvenky
E. A Brown
R F Bolton

E. L. Gadbois, Chairman

Voted by the meeting to take over the chairmanship of the annual session, Mr. E. L. Gadbois of Lakeid called Mr. R Sloan, Acting Deputy-Reeve to make the Reeve's report in the absence of Mr. R. J Hawks, confined home due to illness

Over-expenditure

Gross expenditure of $73,-150.35 above the 1954 budget of $1,282,852 was attributed mostly to public works, all of which were caused by wet weather conditions encountered in the

Government grants provided for at the beginning of the year totalled $1,282,852 calling for an expenditure of $1,282,852 on the part of the municipality on the 26-12 per cent basis. Actual cost of $1,355,000 was spent with government grants amount of $1,282,852 leaving a deficit of $73,000 to be met by the municipality of the Improvement District.

Road Work

Imports of the bad weather, road work was extensive. Gravel was excavated for 65 miles of new gravel, 16 miles of re-gravelled patching and 70 miles of grade built up to standard qualifying for government grants.

Tax Receipts

The Reeve further reported that current tax receipts were 91 per cent of the current tax revenue and the total tax receipts 97 per cent of the current tax revenue, 13 per cent below levy for current and arrears Outstanding tax as of December 31, 1954 was $420,419 against $383,236 for the same period in 1953

The Municipal Mill rate for 1954 was 39 between 22 and 60 for school, depending on the requirements of the individual divisions 8 to 14 on the hospital districts, total ranging from 69 to 77 mills

School requisitions amounted to $171,886.00 and hospital $42,000, all paid during the current year

Votes of the Ratepayers

Out of the Reeve's report, comments on the over-expenditure with relation to the public works and road conditions, a storm of protests and suggestions arose from the floor where ratepayers, for the space of an hour, individually and collectively voiced their views on how the municipal should be handled.

Answering many questions on the over-expenditure problem of country roads, many of which had been remedied during the past wet season The Municipal road construction program was declared too far ahead of the manufacturers ability and it was suggested it should be handled properly with a long range plan to cut down unnecessary cost

Most of the complaints were replied to by councilmen in attendance and noted for attention by the in-coming council.

STAY WITHIN BUDGET

Mr. Walter Lamoureux, in his report stated he had undistributed an over expenditure and recommended to the council to stay within the budget No further declared that the roads and country of the municipality were in their customary good order and well kept.

Still on the council at the time of distribution were, Messrs. J Hawkes, R D Sloane W Lorenson, Paul Leyk, Henri Chamchuck, Steve Demchuk J S Chrapko, former councillor of Division four also attended unofficially by means of transfer in Eagle

(Please turn to page 16)

Guilty Of False U.I. Statements

A rev deed of the Ashmont district was brought before police court at Ashmont Monday afternoon before Magistrate D. Woodcock is having made 11 false statements to the Unemployment Insurance Commission last summer.

He had declared to the Commission that he had not been working nor believed to be working for the purpose of gain. while in fact he had been working. His false declarations had covered a period of 124 days and he had received $726.00 benefit to which he was not entitled and which $10.00 had been paid back to the Commission. He was fined $50.00 and costs or in default of payment, three months in jail. He was also ordered to pay additional penalty covering the balance owing to the Commission of $716.00 and in default of payment to an additional three months in jail The terms to run consecutively.

Mr. L. J. Fortier, barrister of St. Paul conducted the prosecution for the Commission and Mr W. G. Fuller, Barrister, St. Paul was counsel for the accused.

Two Candidates For Mayor; Three Councillors

Hospital and School By Acclamation

The position of Mayor of St. Paul, left open by the retirement of Walter Lamoureux who has served alternately for six years and has contested this year by two candidates who have submitted applications on nomination day, February 21 between the hours of 11 and 12 a.m.

Aspiring Mayors for the next three years of office are Laval J. Fortier, Barrister and Judge Van Brabant, Col. Agent.

Elections will be held for two councillors with three candidates in the running Retiring Councillor Percy will run again for office, along with two newcomers, Mr Romeo Bedard and Mr Phil Lafrance Vacancies were created by the retirement of Councillor Georges Perry and Jules Van Brabant

The election on the hospital board is necessitated by performance He has been entrusted with the position for the past two years

Three School Board Seats are created by acclamation with the required number only filling applications of L. G. Mandin, Frank Lambert and Laurent Duchesneau will sit for the next two years.

Elections are scheduled for Monday, March 7th.

Coming Events

PROVINCIAL AND CONSTITUENCY AFFAIRS

By RAY REIERSON, M.L.A.

On Thursday the 17th of February, Hon. Lieutenant-Governor J. J. Bowlen opened the fourth session of the twelfth Legislature officially opened the traditional ceremony of the reading of the Speech from the Throne by Hon. J. J. Bowlen, Lt. Governor revealed the program expected to be carried out during the session.

His entrance to the Legislature Building itself was heralded by a 13 Gun Salute fired by the 98th Battery of the Royal Canadian Artillery and God Save the Queen played by a Royal Canadian Mounted Police Guard of Honor was also provided by the Navy Band. The whole affair was exceptionally fine to see and

Full report of the Throne Speech will be made to give the highlights, with supporting detail in subsequent issues of this paper in each feature is reviewed and passed in the house.

Of foremost importance is a new School Tax reduction and [illegible] to reduce assessments in every taxpayer by relieving back this levy to a minimum basis, with the differential being paid by Provincial funds. Increased operational costs of education growth for schools as well as all round increases have been made available at low interest rates directly from the Treasury, well assure continual rapid progress in this field simultaneously with reduction in school taxpayers.

Highway and road construction will be accelerated by maintaining our main highway program at its present level, as well as making a new survey of those communities far distant highway construction at low assessed municipal districts on the basis of need. This new fund will be in addition to the regular public works grant previously established.

Considerable satisfaction is personally felt in this more liberal policy, since it is one that I have stressed consistently for the past 3 years and believe will bring about an adequate network of good gravelled roads in this territory as the rest some future. Again a solution, without further burdening the already over-burdened land taxpayer.

Increased percentage of provincial participation in our dollar a day and extended hospitalization scheme will further relieve the taxpayer in this field.

Of tremendous importance to our people is a new Provincial hospitalized medical services plan whereby each one of us may receive modern surgery and other treatment benefit. [illegible] a very long step in establishing medical services and if implementation within the financial reach of all our citizens and remove the fear of destitution resulting from costly periods of sickness and injury. Truly a wonderful goal at the outset and a remarkable achievement in the short period of [illegible] available to develop it.

Another feature of the Speech from the Throne underlies continuation and expansion of all existing forms of assistance and development, spelling about a record Budget and another busiest year in this our Province.

The new Federal Participation in our disabled persons regulations [illegible] increase to approximately 60 per cent of those presently qualified. Full assurance is extended that these provisions will continue to draw their personal financial [illegible] from the Provincial Treasury as in the past should the new regulations have been applied [illegible] appear approximately [illegible] persons now in receipt of the provincial relief [illegible] no longer being qualified.

Its mention was made in the speech concerning marketing Legislation but it will be reviewed thoroughly and if acceptable introduced during the session.

Friday saw the Reply to the Speech from the Throne duly moved by Mr. J. Clark, member for Stettler and seconded by Mr. L. Lewis member for Banff-Cochrane.

Monday the House settles down to business in session with P. Harper Prowse, Liberal, and Leader of the Opposition leading off in the Throne Speech Debate. Every effort will be made to give a concise review of the activities of our legislature each week in this column with the greater emphasis on matters concerning our own particular territory.

QUEEN ELIZABETH ENTERTAINS COMMONWEALTH MINISTERS

A radiant Queen Elizabeth poses with the representatives of the British Commonwealth at Buckingham Palace in London, as she entertained them at dinner. The Queen is wearing a tiara — the dress of a white lace. The ministers are, from left: Sir Godfrey Huggins, Central African Federation; Mohammed Ali, Pakistan; Robert Menzies, Australia; Charles Swart, South Africa; Sir Winston Churchill, Britain; Sidney Holland, New Zealand; Louis St. Laurent, Canada; Pandit Nehru, India, and Sir Javal Kotelawala, Ceylon. All are prime ministers with the exception of Mr Swart, who is South Africa's minister of justice and representing Prime Minister Strydom.

AT 6 WEEKS OF AGE, IT'S EASY TO PICK THE CHICK FED

Yes, it just takes a quick glance to tell which chicks have been given a SHUR-GAIN start. They stand out every time — because after six weeks on SHUR-GAIN Chick Starter they've made 25 per cent faster growth, they're more compact, feathered and they're more mature.

This extra-fast growth means just one thing to you. Your birds will be ready to start producing eggs and meat sooner — which means you start getting a return on your investment sooner.

SHUR-GAIN Chick Starter, as recommended to feed, too. It's a high efficiency, balanced ration — and all three products of SHUR-GAIN produces as much growth as four pails of cod liver starter.

Get YOUR chicks off to a flying start this year — with SHUR-GAIN Chick Starter.

Safety Sam Says...

Better charge a buffalo... than drive too fast on ice or snow!

It's as simple as this. In Winter, snow usually falls. Snow usually gets hard and slippery. If you drive too fast over something that's hard and slippery, you're apt to skid and hurt something . . . yourself, usually. Then for goodness sakes why not drive slow? And use tire chains!

MALLAIG BULLETIN

C. R. BELLEVILLE, LOCAL REPRESENTATIVE

OBITUARIES

Mr. Thomas Chandler of Mallaig passed away on Wednesday, February 16 at about 7.30 p.m. in the Hospital, after a period of ill health. He was 62 years old.

Arriving at the hospital at about 11.00 a.m. the same day he was in good spirit. After having his dinner he was resting in bed. Later he went to the bath room where he passed away in a matter of 3 or 4 minutes.

Dr. Pankowski did everything possible to revive him without avail.

He unexpected death came as quite a shock to his family.

Park Lisle Funeral Home of St. Paul were in charge.

Rev Bop Taylor of the St. Paul service.

Mr Chandler is survived by his wife, Florence, two sons, Horace, address unknown, John of Mallaig, two daughters, Mrs. Brushwood of Edmonton, Mrs. Essie Trehorn of Edmonton; eleven grand-children and seventy-eight great grand-children.

Mr. Chandler was born in Coventry England on November 2, 1873 and spent his younger years in different parts of England until he came to Canada in 1903. Spending a few years in Manitoba and Saskatchewan, he came to Alberta about 1920. He first lived in Edmonton until he moved to the Mallaig district where he resided until his death.

CARD OF THANKS

Mrs. Chandler and family wish to take this means of thanking all our friends and neighbours for their kindness and sympathy during the illness and passing away of our husband and father. Also for the beautiful floral tributes. Special thanks to Rev. Bop Taylor, Park Lisle Funeral Home, and those who kindly consented to act as pall bearers.

Mrs. Florence Chandler
and Family.
Mallaig, Alberta.

Install New Members

Armand Lord, area commander for the H.S. zone of the Canadian Legion, B.E.S.L. attended the Legion meeting held Saturday evening, February 12th in the Mallaig Legion Hut.

Following the regular business of the month, Cmn. Lord took the chair to officially install the January elected officers of the Branch, reviewing their duties for the coming year.

This ceremony proved to be a most interesting experience to those of the members that had had the opportunity of seeing this ceremony performed before.

The Indian Auxiliary of the Legion, held their regular monthly meeting the same evening at the home of Mrs. Arthur Magnus

Slow And Snappy Hockey Played In Mallaig Fri.

Shades of the past appeared in many several localities in Ontario terms, Friday evening, when the Mallaig Juveniles met, and defeated the ancient Hockey Moguls to the tune of 8 to 7 score.

From the outset the game was rough and tumbled, jumble of sticks and players, as many as 4 parks were counted on the ice at one time, as fast goal-tender Leo "Bare's" Gendron, and goal stick mate as a result (mainly) from a post-game by players were frequent and long, he even skated down to the opposing goal pronounced a score with the goalie, at the same time slipped a spare puck from his pocket into the goal and argued he had scored

Fatty "Flash" Martin although crabbily on his pins, managed to play a forward position mostly on the row supporting Jack "Rocket" Richard and Orvale "Rocket" Macleod. These two players must have been considerable time practicing on Maskeg Lake, as they played an admirable position game, either on their toes or on their ear.

Len "Powerhouse" Anderson and Neil "Boom-Boom" McKay, combined their efforts somewhat defence "squeeze-play", much to their consternation, found the ice had generally slipped around them leaving them in a bulging position, onto each other, or going down together. On one occasion, the concussion of the puck hitting the boards, at the opposite end of the rink, caused the feet of "Powerhouse" to take off leaving him in a most unseasonly position, on his seat, a position and seat, that was never intended for the purpose to which it was being abused.

Johnny "Mush of Araby" Fitzgerald, proved himself to be a real find since last [illegible] must have glistened and glittered over the Eastern show evening ago. His fleeting strong, caused a tail-end wind velocity, that hampered his already diminishing glitter and speed, but however was allowed one goal, which is yet doubtful if scored legally.

There being no high or low sale tennis, caused Map "Grainy" Lamoureux to dig out his rusty old skates, don shin pads and under the fray with stick you a flying. Although never in a scoring position, he kept to his feet and gave the spectators a brief glimpse of what must have been a good skater and hockey player, many years ago.

A new ruling was put into force during the second period, when it was found necessary to penalize referee Jerry Beauchamp two minutes and fifteen seconds for fighting, tripping the players, also for permitting the already beaten Mogul, the advantage of 4 extra players on the ice.

The Juveniles played and worked like trojans, for their well merited victory. Richard Martin, Paul Dechaine, Martin Gritton, Pierre Dechaine and Phil Anderson were the strongest contributors towards the winning score The Juveniles had so many times, it was at times difficult to keep them within the correct number of players, nevertheless, they were crowned the winners.

David "Speaker of the House" Gervais, kept up a running commentary on the game over the Public address system. His broadcasting stand at one time during the peak of the excitement, he envisioned he's just instead of his color-guide, a minute recess had to be called in order to restore his throat.

A further game will be played this coming Friday (25th) evening. The Moguls feel they were outsmarted, and outplayed as well as outwitted, they have planned for revenge. What a blood-thirsty lot.

Mallaig Branch of the Canadian Legion will hold a

BINGO

in the Mallaig Parish Hall on

Friday, March 4th. at 8:30 p.m.

PRINCESS SETS STYLE NOTE

Central Press Canadian

Usually our when fixing the camera Princess Margaret is caught in a private mood at the premiere at the state dinner in Port of Spain, Trinidad. For new eighteenth century. Frenchstyle hairdo and lovely white silk organza evening gown created a mild sensation among fashion-conscious guests. She wears a tiara and the sash of the Imperial Order of the Crown of India over her gown.

I WONDER

BY C. B. B.

Why pubs are outlawed on a two hour voting period in the Christmas edition of a rotund trustee. This short period of time is not adequate or reasonable.

Road conditions were fairly good over the midwinters on the occasion of the recent election of a Trustee, thanks to the weather man and the Municipal authorities. Every possible road was plowed out following the heavy fall of snow of a few days previous. This could have been much 6.5 fervent, had the weather not interspersed with the occasion a storm the night of the 12th would of have made it most difficult for the rate-payers to report their respective polling stations. Many would have been unable to vote within the prescribed two hour period

It would appear as a matter for our local M.L.A. and the Provincial School Board, to take up with the proper Provincial authorities, the discrimination connected with the School Act amended, to comply with public demand. A voters list would also be of the greatest value, eliminating the question of doubtful voters presenting themselves at the polls, it would also be of immense financial value.

The present set-up is very clip-shod and unsatisfactory. It calls for some more supervision. Will the proper authorities undertake the task of correcting this unfair time period and flimsy voting system I wonder?

Glendon News

The Annual meeting of the Glendon Sub-Division was held in [illegible] on Wednesday afternoon, February 16th, with an attendance of 15 members. Mr. P. J. Lahlina was appointed as a delegate to attend the convention of the [illegible] Mr. Lahlina was appointed on Wednesday next week with Mrs Eric Brodnicky as substitute. By way of entertainment, a movie was shown by Mr. A. J. Shandro.

In India a week St Paul Journal it was error-neously stated that the ball donated to Beaver School by the late Mrs. Vasey did not come to Glendon. On May 5th, 1954, Mr. William Kostiuk, farmer of Beaver District, purchased the ball from Mrs Vasey and donated it to the Greek Orthodox Church in Glendon

Mr. Philip Bodnar left a couple of weeks ago for Lacombe to take a course in duties of supervisor of [illegible] in the schools in that district.

How Banking keeps pace...

How ideas in bank procedure give you speedier, more convenient, more informal banking service.

Modern machines help bank staffs keep up with greater use of services by more and more customers.

The chartered banks have opened or are branches in recent years to meet the needs of growing Canada.

Today Canadians have 9,200,000 deposit accounts in the chartered banks—2,000,000 opened in the past ten years. Within the same period, branches have increased to 4,000; bank staffs have almost doubled to more than 50,000. Banking has grown in size and scope, continually adapting its services and improving its methods of operation, keeping pace with the greatly-increased banking requirements of the Canadian people.

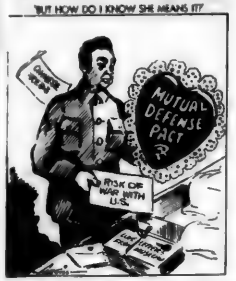
"BUT HOW DO I KNOW SHE MEANS IT?"



CRIME IN YOUR COMMUNITY

To put a curb on the increasing and alarming amounts of crime committed throughout Canada each year, and to help reduce the number of crimes committed, large and small, the Royal Canadian Mounted Police has recently published a small pamphlet dedicated to the prevention of crime. Because this valuable and educational pamphlet was not issued in sufficient quantities for distribution to all citizens, we are pleased to co-operate with the police in bringing you a resume in a series of articles, which will appear in this newspaper.

CRIME PREVENTION

Crime presents a staggering account to Canadians each year. Part of that account is made up of loss of life and loss or damage to property. Another part covers the cost of policing. Still another drain on the public pocketbook is the cost of maintaining prisons, reformatories, and other corrective institutions. No loss real, but more difficult to assess, is the moral cost of crime.

It is our belief that the old adage about an ounce of prevention being worth a pound of cure, has a definite application to the problem of crime. Once a crime has been committed, it is the responsibility of the police to locate the culprit and bring him before the courts, to receive such punishment as he may be judged to deserve — but how much better it would be if the crime could have been prevented.

Experiments and surveys carried out by this and many other police forces establish definitely that a great deal of crime is preventable.

The object of this article is to enlist your aid in measures that will reduce crime by preventing it.

SECURITY IN YOUR STORE

Every year, thousands of articles are stolen from stores by shoplifters.

Daylight thefts of cash from cash registers or cash drawers are a continuous occurrence.

Here are a few hints which will help to prevent this type of crime—common sense if you like, but by no means common practice:

DURING BUSINESS HOURS

DO NOT Keep large amounts of cash in your cash-register or drawer.

DO NOT have the cash register or drawer located where it can be easily reached by the public.

DO NOT display small, valuable items on top of counters where they can easily be stolen.

REMEMBER that frequent checking or stock taking reduces temptation on the part of your employees.

AFTER BUSINESS HOURS

DO NOT leave cash in your cash register, drawer or cupboard.

DO NOT leave the key for your safe or strongbox in an unlocked drawer where it can be easily found by an intruder.

DO NOT leave your premises without checking to make sure that cabinets and safes are properly locked, doors bolted and "watch lights" turned on.

DO NOT leave valuable items in your store windows overnight, to provide an opportunity for the "smash-and-grab" type of criminal.

Keep a record of the name and serial number of office appliances that are easily carried off, such as typewriters, adding machines, cheque protecting machines, electric fans, etc.

If you have any money overnight — and particularly over the weekend — in your safe or strong box, list the numbers of at least the larger bills, to aid in the capture and conviction of the criminal who may break into your store at any time.

Guard against this type of criminal by making your premises as secure as possible.

All rear windows should be heavily screened or barred. Back doors should be strongly hinged and equipped with good locks and bolts.

If your rear laneway or "back alley" is dark, install a light over the back door and make sure that it is on before you leave.

Help the policeman on patrol by making your safe or strong receptacle plainly visible from the street, with a light placed so that it can be clearly seen at night.

SECURITY IN YOUR OFFICE

Thousands of personal articles such as handbags, purses, jackets and overcoats, are stolen from offices annually — often by "someone" thereon who have an established record. The police have little chance of recovering your property in these cases. However, observance of the following elementary rules will help to prevent this type of crime.

DO NOT leave cash in an unlocked cash box, an unlocked drawer, or an unlocked desk.

DO NOT leave your wallet in your topcoat or jacket hanging in a cloakroom or hallway.

DO NOT leave your handbag on your desk. You may often be out of the office for various periods.

DO NOT leave your watch on your desk where it may be picked up by any passerby.

DO NOT take off your watch or rings in the washroom where they may be temporarily forgotten.

TRAFFIC SAFETY LANE

By J. W. McKAY
Inspector, Highway Traffic Board, Edmonton

ACCIDENT REPORTS

Accident reporting has long puzzled policemen alone in the amount of driving experience of drivers involved in accidents and the relation of the experience to the accident problem. However this information given to any competent driver, commercial or non-commercial, is of a great deal of interest.

From records here of 10,000 drivers involved in accidents we find:

Learners in 6 months experience, 1 per cent; one year, 3 per cent; 2 to 5 years, 21 per cent; 6 to 10 years, 27 per cent; 11 or more years, 48 per cent.

It should be noted that three-quarters of the drivers were operators with more than five years experience. According to these records, the driver with many years driving experience is the chief troublemaker on the highways. Of course our knowledge of the relation of driving experience to inattention will be strengthened when data are available to correlate facts in terms of mileage driven, driving conditions and other important factors.

The accident enumeration indicates that drivers in all walks of life are involved in accidents. Usually, a fairly well-balanced distribution of accidents is found among professional and business people, farmers, clerical workers, housewives, domestic servants, students, etc.

A lot of attention is focused on the commercial driver. The General Safety Council of United States points out that for some 127,000 commercial vehicles the ratio was 2.7 per cent or approximately three accidents for every 100,000 miles of travel.

Another factor that is watched for in the accident reports is the characteristics of the driver involved. Illness is seldom a predominant cause of accidents. Comparatively little is known, however, about the sub-par physical conditions of drivers.

We know in a general way that fatigued drivers are involved in many accidents. Studies in night driving accidents point out that fatigue unduly is one of the significant causes. Even slight fatigue has a high influence rate on reported time, particularly so in these days of fast travel. Worry and emotional disturbances are another factor. Experts feel that these disturbances rank high although it is hard to put the finger right on that spot.

Bodily defects comprises another condition that is highlighted in accidents. Mostly defective eyesight and hearing play the major role.

Mental condition of the driver have a part also. But research to date, just point out "apparently normal or sub-normal."

GOODRIDGE NEWS

Mr and Mrs A T Lang, whose recent marriage took place at Mr and Mrs A. Brown's residence in Beaver River, were honored at Goodridge by Mr Lagg's friends and neighbors. A supper was served by the women of the neighborhood and places were laid for 120 people. The bride recently arrived from Edmonton and the residents of Goodridge wish to welcome her to their midst.

The Goodridge Social Society recently held a meeting at which the following executives were elected:

President, Mr Louis Schmatzer. Vice President, Mr. Leroy Christensen. Sec-Treas., Miss Mary Anne Nadachi.

Spedden Subscriber Dissatisfied With Municipal Administration

St. Paul Journal
St. Paul, Alberta
Dear Editor:

From time to time we read a great many letters in your weekly paper from residents in Ashmont, Elk Point and so forth as Bonnyville but we seldom see any news from Spedden. So may I try my people in Spedden, encouraging but we should express our ideas just like any other town.

We people living in Spedden are in the Smoky Lake Municipal District No. 13 which in my opinion is under a very poor municipal council with councillors from all parts of the district. We have many years experience in municipal matters South councillors as Mr J. Hunt and Mr. Mann who were councillors in the old Ashmont Municipal District.

Those men are running their Municipalities very well. They are building roads the way they should have most of the roads gravelled and in good quality.

The people in the Smoky Lake Municipality pay very high taxes and the money is not used mostly to pay our administration their wages and expense and very little is done on road work specially this year when the season was wet all summer.

We had culverts broken on our roads on the old highway for the past two years. One of the culverts was about 300 yards from the town of Spedden but our councillor failed to look at the culvert because he travelled by a Provincial Highway and the old highway was impassable all summer. This councillor travelled by a Government Highway and charged the municipality for supervision. Why doesn't he travel by the municipal road and see what the roads look like instead of travelling on a government highway and charging the municipality for supervision.

There was a special delegation sent from this town to the municipal councillors as that we might have some culverts built on this town but they did not do anything about it. All they did was to bring some quick-sand to spread on the Spedden streets and this sand is just as troublesome as it sticks to the shoes and the shoekeepers and the residents of Spedden have a hard job keeping this sand up and have their floors ruined by it.

There is a lot of work that should be done in our division such as road building. Some of the farmers have been farming for over twenty years and have no road to their farms.

Looking over the Smoky Lake Municipality Provincial Report we see that they have plenty of money in the bank but they fail to do any work to improve the district roads.

Last year the farmers were hit by a crop failure year and many of the farmers were unable to pay their taxes because they have no money but the councillors did not worry, they had plenty of money and up from the previous years to pay themselves for attending meetings, expensives and attending conventions. Money to burn for them.

Last year taxes were paid only by Old Age pensioners that drew pension all through the year. These are the people that had money to pay the taxes.

In my opinion I think that we people in Spedden district should try to get up and try and get the government to include all of township 59 and 60 in Spedden district to belong to the St. Paul Municipality then we really get good service from the municipality because they only elect councillors from experienced men.

If our councillor is not doing the right thing for us and is not the right man, I think that he should resign and let someone else get in the council that could do the work.

Yours truly,
A Subscriber

$2 Year Old Objective Reached By FUA

Realization of an $2-year old objective to enroll a clear majority of working farm families in one provincial union, was announced from Farmers' Union of Alberta headquarters during the week-end.

According to Waldo D Bastuner, who pronounced the one day "ROUNDUP" campaign, energy operations have resulted in the FUA achieving the long-sought-after goal. The objective was reached February 18 he said. The figures from which returns from the B.C Block were received showed there were 82,000 persons in membership as of February 20th. This is the total 30,262 more farm operators, a margin of over 1,000 over the halfway mark.

Alberta now is said to have the distinction of having the first and only non-commercial farm body in Canada to secure the 50 per cent signup in annually paid memberships in the Basin, only North Dakota has so far achieved a majority signup of resident farmers, Mr Bunsmers stated.

Many FUA Locals are considering plans to make Farmers Holiday Week annually on the second Friday in June, a recommendation of the Junior Members are thinking of celebrating both Alberta's Jubilee year and their own golden jubilee of success on the same day, it was said.

Notice To Ashmont

Due to the absence of the pupils in Ashmont School the Amateur and Dance in February 25 has been postponed indefinitely

Local News

Mr H Kent won a Wolfe Jeep raffled by the Recruiting branch of the Canadian Legion. Considering the fact that he sold 3 books of tickets and bought 3 tickets we conclude that the lucky one was good for his efforts.

The Town Foreman had his hands full Monday when a break in a side street water main flooded the road for a considerable. Until the weather moderates a couple of houses will be without water.

Cyth Jate, in a two-handed game of crib, Burn Mabyn managed Georgo Farton with an unplayed 29 score. Jated Burns satisfactorily won the game

A visit to Elk Point by Municipale Government Inspector Pearson resulted in five convictions on Friday. The charges included supplying liquor to minors, creating a disturbance in the Hotel, obnoxious behaviour, and failing to sign at an interrogation. Appearing by the local constable a night on the job.

Mr E. Brailsford has received his appointment as Justice of the Peace from the Attorney Gener-al's Department.

Mr N Smith of Elk Point, was a dull crowned in county court, owing to $25.00 which was raffled by skating rink manager Mr R Barwich donated the doll. Proceeds will help pay for a new skating rink shack.

OBITUARY

Miss Clara Wood, resident of Elk Point passed away in the Elk Point Hospital last Saturday, February 19 Funeral services were held in the United Church. Miss Wood is survived by her sister, Mrs Thomas A Craven of Elk Point and Mrs. Annie Ford of Haddon, England to whom we express our deepest sympathies

DATED at the Town of St Paul in the Province of Alberta this 22nd day of February, A.D. 1955.
WILLIAM G. FULLER,
Solicitor for the Executor

Beaver (Alta) Lumber Held Banquet

The Beaver Alberta Lumber Co. held a demonstration of the uses of plywood in farm buildings on Friday evening at the Legion Hall A large crowd heard Norm Grey, agricultural engineer of the McMillan Blosedel Co., speak on the uses of plywood in farm industry. Ken Porter, a member of the Beaver Company accompanied Mr Grey Superintendent of Beaver (Alberta) Lumber Co. was also present, however he remained in the background throughout the demonstration.

Highlighting the gathering was a film "The Manufacture and Use of Plywood." Another attraction was slides of circular saws, shown by Mr Grey and Norman Byrnes by Beaver Lumber Managers. A lunch of coffee and sandwiches was served by interesting demonstration and film. Yorkton Manager of the Elk Point Beaver Lumber expresses his thanks to those who attended

Donors To Recent Polio Campaign

The Lenton members of the Elk Point Branch No 151 and the Ladies Auxiliary to the Legion held their meeting at 8 p.m. on Thursday, February 3 1955 in the Legion Hall A large number of members were present and coffee and sandwiches were served after the meeting The next meeting will be held on Thursday, March 3 in the hall at 8 p.m.

The Elk Point Legion, who have been canvassing for the Polio Campaign would like to thank everyone who has so generously contributed to this worthwhile cause.

LOCAL NEWS

W Campbell formerly of St. Paul with C.N.R. and now of Brandon, Alberta, was in St. Paul visiting friends on Saturday. He also blew out of town with a new buick.

Phil Germain, George Cyr and Wilf Arsenault were delegates to the annual Provincial Convention of the Fish and Game Association held in Calgary. George reports missed on to the most for a holiday.

St. Paul M.D. Annual Meeting

(Continued from page 1)

Municipality. Paul Bach had served part of the term as councillor being replaced by Henry Lussier.

Service Board Report

Dan Powers, Field Supervisor for the Municipality in his report to the ratepayers advocated the construction of a seed cleaning plant in the municipality.

Bridal shop to a product of this county must come from the district, who must ask for it and authorize its purchase. The Municipality will then remain in service. Whatever product is taken itself heard first with the Municipality will receive consideration.

Mr. Powers said that the St. Paul Municipality is short of seed and that a seed cleaning plant would help to relieve this situation as well as provide a better type of seed and grain generally.

Mr. Murray of Ashmont declared himself in favor of uniting to have the first plant erected in St. Paul because of its central locality. It is possible that other municipalities can apply for grants later and more than one plant could be established with in the municipality.

Investigation Committee

On a motion from Mr Murray Mr Armand Lussier was named to head a committee to investigate the seed plant. Mr Lussier said that he had been glad discussed by the Agricultural committee of the St. Paul Chamber of Commerce and that co-operation with them would be established Mr. L. V Binette, chairman of this Chamber committee also spoke on the subject and will help further into the matter

A motion for endorsing the new Weeds Act was defeated after lengthy discussion.

Hornets Rob City RCMP In Hockey Double Header

COLD LAKE RCAF SHOT DOWN 19-2

The St Paul Hornets changed with dastiard R-obery pleaded guilty on two counts and were sentenced today against a repeat of prosecuting Sr. MP who lost a double header Friday night over the weekend at St Paul are The Saturday game ended 5-3 and the Sunday encounter was an 11-2 getaway.

Hornets playing with 5 forwards and 2 defence Saturday evening made off with the first game of the series defeating the policemen by the tally of 5-3. Scoring for St. Paul were a combination of Belleau, Shakun RCMP marksmen, Irvin Smith and a lanter by Lansdowy of Pemilton, Thorney and Vetsner, RCMP.

Second Period

The Hornet-Policemen's stop signs were disregarded in this period and the Hornets soon showed who was the better team a mere points against a retaliation of 2. For St Paul Delisle-Richard, Melnenuk - Shakun, Blanchette, Lapointe, Bourque, Bryce-Dion RCMP, Ambrose, McPhee-Vonner Pemilton, Gauthier, St. Paul; living RCMP.

The game in Pemilton and police went on in a little more aerobat and some roughing and penalties third. As one stage of the game Delisle and Richard were in for St Paul and Foreman for the RCMP were in the jailhouse singing the blues while for the St Paul boys played cat and mouse, snatching the cheese away in a display of "cute" passing. Three Hornets-Dion, Vallieres and Richard kept the puck out of reach of a disgruntled club, to kill every part of the penalty time. Even "Bobo" Gauthier got in on the act.

Anyhow, the hare were denied twice more on the RCMP evil and once more to the detriment of St. Paul Final score 5-3.

For Hornet Dion-Richard, Delisle, RCMP, Kneeleuch-Verner, Pemilton, St Paul; Delisle, Blanchette, RCMP, Foreman.

SUNDAY GAME

With line ups to full strength the Hornets opened their throttle for an 11-2 win.

Statistics of game:

First Period

ST PAUL — Dion, Richard-Delisle, Hrycyk, Melnenchuk-Hrycyk - Pemilton, Richard-Delisle, RCMP — Ambrose, Mc Pemil.

Second Period

ST. PAUL — Dion, Richard C. Richard R.-Richard C. Zaharchuk-Hrycyk-Melnichuk. Delisle-Richard.

RCMP — Kneleuch-Verner-McPhee Pemilton.

Third Period

St. Paul — Dion-Richard-Dion, Richard C. Pemilton Richard R., Vallieres, Blanchette.

RCMP — Ambrose, Penalties: Furman, Irving, Lavsley.

RCMP — Mirrison, McKinstry, Bourque, Furman, Ambrose, Jamesh, Vetsner, McPhee, Smith, Irving, Faust, Lavsley, Preuss, Jenkins.

St. Paul — Gauthier, Vallieres, Beauchamp, Richard C. Richard R., Delisle, Dion, Richard C. Richard R., Hrycyk, Melnichuk, Zaharchuk.

The St. Paul Hockey management and fans are grateful to the RCMP for a fine exhibition of hockey and the splendid sportsmanship in the competitive world of sport is displayed.

Hospital Notes

Barrons studded down the Cold Lake-Grand Centre BCAF 19-2 Tuesday evening. The boys really climbed to open enjoy hockey. The Blue Tanker had some good individual talent mobilized but it was impossible to have played together very long and were somewhat changed. Most fans they should be a strong contender.

• • •

The corner took a close

(Continued on page 8)

of the clowning art put on by the St. Paul boys . . . and manhood, if any, should be confined to the Grand Centre. We're not that good yet.

Tyler Wins Over Frazer; Anderson Gets Knewman

Sub-Zero Weather Keeps Crowd Away From Five Good Bouts

Less of zero weather in boxing matches, weather and competitive entertainment were as factors which kept a paying crowd away from the Legion Hall Saturday to witness some good hard clean and honest fighting promoted by George Dunn former contender for Lightweight of Edmonton. The Legion was overpowered.

Five events were featured on a card matching Tupper Tyler, 160 lbs. contender for Canadian Title, Edmonton and Jerry Frazer, 150 lbs. Indian Golden Boy of Pemiko in the main event of the evening.

Lightweight Brown Bomber was given a unanimous decision on points all of the 8 rounds. The two rounds was both boxers needed getting and fought in the middle Tyler took the offensive early in the game with fast jabs Frazer crowded Tupper in the third and the dark boy irritated with some fast rabbit punches

Rushes by Frazer on the half of the Fourth sent Tyler on his back for no count keeping up up for a fast pace Tupper exchange of blows which did not lighten minded at the half

Behind in rounds, Frazer came into the fifth in the aggressive determination for a knock out blow, but was unable to land the deadly Tupper, who held his own and then some.

Tyler never gave way to the attack and turned on a barrage of blows which knocked down the boy Indian for a count of 9 The judges in giving their decision, were unanimous, awarding every round of the fight to Tupper Tyler—their winner.

Semi-Finals

The secondary fixture was a bloody affair between Kenne Anderson, 148 lbs. of Edmonton and Frank Knewman 142 lbs. of Red Deer

Knewman was in the first round a hard ruffy to handle and displayed the fire of the Irish in his battle with Anderson but soon the Edmonton boy got down to business and Knewman was unable to withstand the attack and was counted out in the second round.

The second semi-final of the evening presenting Alec Fraser and Nick Barsky ended in the disappointment of the fights in the fact that Barsky was unable to round Fraser KO'd Basarsky with a hard right followed by a killing blow.

Lead off bout starring Jersey Joe Edwards, Edmonton and Bantam weight Champ. 118 lbs. of Ashmont Valley vs Louis Provencher, Dubbo, 117 lbs Edmonton went all the limit 3 rounds in favor of the Pemmichan who was handed down a unanimous decision.

Judges were Marcel Dumas, and Maurice Mailloux and Referee Lord introduced the fighters and gave out the decisions. Leo Turcotte of Edmonton was referee.

Airborne Carriers Entertained

At the invitation of the management of St. Paul Sales and Service, the Airborne Carriers BCAF were entertained at Cold Lake attended St Paul on for some friendly competition with five counter rinks of the garage staff

Four men rinks from Cold Lake and one locker participated in the week end games Saturday Visitors were

Cook, Beach Kerber McIntosh, Bourque, Bergeron, Weimer Bouvert, Turner, Pearse Koding, Dunn, Drake, Smith, Wilkie Taylor, Mrs. Bouvert, Mrs Mc Guerrie, Mrs. Pearse, Mrs. McIntosh.

Vote R. Bedard For Councillor

On Monday, March 7th, ratepayers of the Town of St. Paul are being called to the polls to cast their choice for a Mayor and five councillors.

At the request of a number of St. Paul residents, I have entered my name as candidate for councillor

It is a recognized fact that administration of law is affected by economics and can best be accomplished by men qualified with experience for such

My pursuits in private life as a farmer make me the ne ecessary qualification and I feel that I can be of value on the council

I have also served two terms as councillor of the Town and a number of subdivisions and have always taken the best interest of St Paul at heart.

A majority in my favor will give me an opportunity to be of further service to the people of St Paul.

— ROMEO BEDARD

Grace Gospel Sunday Services

"He that believeth on the son hath everlasting life." Jn. 3:36. Rev. F T. Nelson, Pastor.

Want To Laugh? See 'Aunt Tillie Goes To Town'

On Stage At Parish Hall March 20th

See the hilarious 3-act comedy "Aunt Tillie Goes To Town" on the stage of the St Paul on March 20th at the Parish Hall. This play 'Aunt Tillie Goes To Town' first time to be presented in St Paul, has some of the funniest lines ever to be written into a farce. Lassos, loads of pep and wholesome fun.

It is ingenuous and will present you with a variety of characters from a well-meany maid to manhater runner girl, bright and lovely young man and country lad, his distinguished and wealthy employer, a lady chiropractor who really means business, a chinese cook, a refined and nervous young man in a terrible fix, his charming, romantic blonde fiancee, a mysterious girl in the form of a lovely woman, to say nothing of Aunt Tillie who will forever surprise you — which sure! Actress also really goes to town in more ways than one Enough said, but certainly the performance will keep the audience rumbling with laughter so don't fail to be among the fortunate gathering when the first curtain rises. One male quartet will entertain you between acts

The cast is as follows:

Tillie Trask (who dislikes all males) Mrs. Anne O'Donnell.

Lucinda Tallott (her maid) Mrs. Lucienne Desaulniers, Pamela Marks (Aunt Tillies' charming niece): Mrs Terry Coburn, Lindsay Parson (novelist): Miss Gabby Gascon, Elmo Rowland (who appears suddenly): Miss Phyllis Girard, Randolph Rowland (the self-confident) M. Marcel Desmars, Luther Lorimer (Roland's employer): Mr. Pat O'Neill; Norman Turner (in a pact of trouble): Mr. Gormain Jolly: Charley One Long (chinese cook): Mr. Fred Patry, Mrs. Tillie Tuttler (Memsie's Aunt), Mrs. Gertrude Leonard; Dr. Nettie Bing (chiropractor) Mrs. Alvina Belland.

This entire production is under the direct supervision of Fr. Paul Deleau and Mrs. Hector Beaumont, assisted by a Sunday afternoon committee for the children and an evening committee for the adults.

Fr. Paul Deleau "Aunt Tillie Goes To Town" March 20th. Sponsored by the Ladies of the Altar Society of the Children's parish of St. Paul. Benefit to go towards paying the Cathedral. This play will also be presented in St. Bride's parish hall the evening of March 17th.

• • •

Barrons studded down the Cold Lake-Grand Centre BCAF 19-2 Tuesday evening. The boys really climbed to open enjoy hockey. The Blue Tanker had some good individual talent mobilized but it was impossible to have played together very long and were somewhat changed. Most fans they should be a strong contender.

Notice To Parents

The school is not responsible for the organization of excursions made by school students to outside points such as the one proposed for Saturday to Vermilion or at any future date

Home and School Association

Toastmasters' Club Organized

Course In Effective Public Speaking

Following two meetings held in the past week by a dozen interested men in the Ashmont section, St. Paul will have a Toastmasters Club in operation in the very near future

Although instigated by the laymen to enable their members to obtain experience and training in Public Speaking & chairmanship it will operate as a separate club and membership will be open to all interested men over the age of twenty-one.

The Fundamental purpose of the Toastmasters Club is,

T and its members to master the art of public speaking

The local there is appear of a lectively before an audience.

To train them for leadership and for chairmanship in matters of all kinds.

These purposes are accomplished through the standard club procedure where individuals participate in prepared speeches, impromptu speeches and parliamentary training.

Most Toastmaster Clubs meet weekly, but in the case of the St. Paul club it is to be arranged that every member has the opportunity to speak briefly at each meeting, and every month he must present a prepared talk from 5 to 10 minutes in length. Each talk must be criticized or evaluated by members other than the speaker to note his shortcomings and effort.

The official organizational meeting of the St. Paul Club has been called for Tuesday, March 8th at 8:30 p.m. at the Legion Cafe All men interested are invited to attend

The membership committee consisting of Ted Paradis, Louis Lesoway, Laurent Bissette and Laurent Bissette will be soliciting memberships during the coming week Anyone interested in Toastmasters is asked to contact any one of the above or Dr. K. W. Tenove who is acting Secretary.

OBITUARY

Mr. August Gissner

On February 5th, Mr. August Gissner of Dawson passed away at the age of 84 years

Rev R. C. Tayler officiated and interment was made in the church cemetery

Park Dale Funeral Home was in charge of funeral arrangements.

Guthrie Hosts Firemen In Annual Banquet

Edmond Desmarais Smokes Out Lesoway

Doc. Guthrie claimed to the Sept. Scalp away at the Fireman Hall Sunday and issued the rest of the boys to take heaven in the fire event in the "All-West" meeting on the other side of the conflagration. the siren bore for Ed Desmarais who nearly got blown out of Power Lawson Powers diverted his stream a little on Sunday and failed to edge out the wandering boot getting the fire get away and of control.

Dan Wey a roaring inferno Supervisor Polly Leader like Ray et his nose from a number Desmarais Lesoway and got himself gutted to the tune of 11-2 giving up on the 9th We understand he ordered the insurance against such humiliation

Coupling hose for Don were Mrs Tony Joly, Bert Carnire (how the fifth in the Lawson Desmarais) and Mrs Stanley Joly Polly's fire fighters Mr T. Lesoway Miss Lucie Desmet and Jimmy Guthrie

The second event consisted of using hot and not before a time out decision could be given Leader for a score of 9 The judge Bessie Lawson every one more for 8 ends, leading by four points all but the range and snuffed out the lead with a four ender The 9th was secured and the last ends in the 10th but the day for Pooch. He could have garnered a few more points off Ed's throw with a draw shot, but was loser 8 ends to 6 Score 8 ends 10-7

On the Line Up for Desmarais Mrs. Ted Gemeroux, Mrs. Paul Lussier and Mrs Fred Lord. E. Lesoway Mrs Kay Guthrie, Jimmy Desmarais and Mrs. Yves Dubois

TO WHOM IT MAY CONCERN
From 1950, ago, I made a public declaration to the fact that my wife having left my bed and board I was no longer responsible for debts contracted by her or on my behalf.

Because some debts have been claimed against me on that account, I wish to again give public notice to the effect that I will definitely not be responsible for such debts.

Farm Contracted From Saliva Of Rabid Animals

By MARCEL CHEVRETTE

Rabies is chiefly contracted through bites, but may occasionally be contracted through fresh skin cuts or scratches or contamination of mucous membranes such as those of the eye, with saliva of rabid animals. This is an important fact for trappers to remember They should not skin wolves, etc., that were definitely rabid unless, gloves are worn to protect their hands from contacting saliva Heavy rubber gloves are recommended as by that they can be effectively disinfected after skinning the animal The knife should also be disinfected or boiled The eyes should not be rubbed with the gloves The best advice is not to handle or skin these animals at all Also as one should be used to remove the head of an animal as fluids may splash into a person's eye.

The virus has a special liking for the central nervous system, travelling from the point of bite up to the nerve where he to the brain. Not all rabies animals attack the virus or rabies in the saliva all the time! some subtler than state only 30 per cent) may be capable of exploding about one person in eight will contract rabies even if no treatment is given. He uncertain however that all persons bitten should receive the treatment when the animal is infected

While minor cuts and scratches of less than 24 hours duration may be the portal of the entrance of the virus into the body, large, deep and ragged wounds are the most serious. The virus does not penetrate the unbroken skin. Bites about the head are always very serious, as the virus has a very short distance to travel to the brain. Hence no time should be lost in taking intensive treatment If treatment is delayed, a fatal condition may develop

A BIG MOMENT FOR A LITTLE GIRL!

This is a moment that will be cherished always by this little resident of St. Vincent—one of the 'first-ever' blinds—as she presents a pretty bouquet to charming Princess Margaret during her visit to Kingston. The touring Princess appeared to enjoy every one of the 100 minutes she spent on the ground, much of it in the Commissioner's car and was greatly impressed with the country's beauty and splendor. She was also "impressed" with the enthusiastic reception and kind welcomed, presented to her by the islanders.

Bites through clothing are less serious than those to the bare skin as the saliva may be absorbed by the cloth Rabies virus may be present in the saliva a few days before the animal shows symptoms of the disease and also may survive in the brain tissues many days after the death of the animal

The virus is readily destroyed by drying, boiling or exposure to sunlight It is dead in a matter of a few hours in the saliva after the animal dies This is of importance to trappers as no person has ever developed rabies from handling dried skins The only danger is at the time of skinning around the head, as explained above Chemicals such as 2 per cent cresol will destroy the virus in 15 minutes The care of bites is explained below

Food, one of our basic necessities, comes directly from the soil, or from animals that consume plants such as grass, clover and grain. Life depends upon the soil and the use to which it is put Agriculture is the most general occupation of man. It remains Alberta's most important industry

Alberta's Department of Agriculture makes every effort to help farmers with their problems, to promote interest in agriculture and to conserve the best use of our rich and resources The potential of Alberta agriculture keeps the department's eye on the future Its more immediate task is to create an environment that will help farmers continue to maintain a high standard of living and preserve the qualities of their lands Every effort is made to avoid the use of practices that will reduce the basic productivity of the department

Alberta's farm population is approximately 340,000 living on 140,000 farms. Total value of all agricultural production in 1953 was in the neighborhood of $600,000,000. However, farm income for any year is less than total value, due to a substantial part of field crops being utilized by the farmer themselves in the production of livestock and poultry. Actual cash income in Alberta farms in 1953 is calculated at approximately $402,000,000 a reduction of four per cent from the previous year

We have in Alberta about 66 million acres of land suitable for farming The potential area of arable land in Alberta exceeds that of any other province About 44.5 million acres are now occupied, an increase of 22.3 million acres since improved. Each year about 1,000,000 acres are sown to wheat and slightly less to coarse grains, while some six million acres are in summer-fallow The balance is chiefly in natural grass, seed and hayland.

Alberta has long been noted for its irrigation development, and the Department of Agriculture is assuring the work financially & technically Much of the Province will remain important for ranching and dry farming only, but it is estimated that about 2,000,000 acres within our borders are suitable for highly specialized irrigation farming At the present time projects involving 700,000 acres are operating successfully. Proper water construction or these to which immediate consideration is being given total another 884,000 acres. Other developments which will bring water to another 400,000 acres.

Since irrigation multiplies the carrying capacity of the land and greatly increases its productivity, projects are developed and those planned for the future are of great importance to the stability of the industry and indeed to the entire economy.

Agriculture in Alberta is making an important contribution to the Provincial and to Canada It will continue to do so, in ever increasing measure, as the years go by

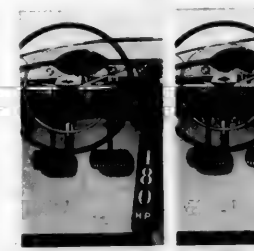
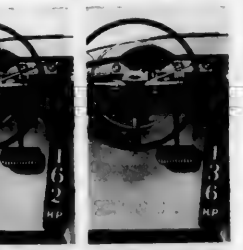
How many "horses" would you like?

DIRECT DRIVE HAS DIFFERENT REQUIREMENTS. Only Chevrolet, with Powerglide, offers direct-drive power. Here, where the widest range in the widest variety of Powerglide cars is shown, all are direct-drive in all models and with all horsepowers. Whatever your preference in power, Chevrolet's thrifty truck driving, effortless highway cruising, lowest initial cost, lowest gas consumption with minimum upkeep — you'll find it here in a valve-in-head engine built by the valve-in-head builder!

Master 150 Series Wagon



"Super Turbo-Fire V8" has all the advanced engineering features of Chevrolet's V8 design — the multiplied by the lightbreathing of a dual exhaust system and a four-barrel carburetor. Optional at extra cost.



"Turbo-Fire V8" has an amazingly short piston stroke that gives it more "revs" down. Lighter, more compact than other V8's, with a superb new carburetor design of 8 to 1, and a better, more 12-volt electrical system.

The "Blue-Flame 136" with Powerglide" gives the most of economic thrift at lowest price — with Synchro-Mesh and Touch-Down Overdrive it sets new standards of six-cylinder valve-in-head efficiency. And hydraulic valve-lifters give super-quiet performance.

*Optional at extra cost.

All with the style that's stealing the thunder from the high-priced cars

No matter which engine you choose, you get Chevrolet's sparkling new body design, the slimmest styling on the road. You get that commanding view through the Panoramic Windshield. You get a "big-car" way of going that stems from the fleeting ease of Glide-Ride front suspension, the stability of Carriage-Type springs. You get your pick of three modern drives, a full range of power assists . . . and you get all this with the savings of Canada's lowest-priced line of cars. Come drive a Chevrolet and discover the whole story!

$3,494,100 IS NEEDED THIS YEAR

OBITUARIES

On February 18, Miss Clara Wood of Elk Point passed away at the age of 66 years.

She is survived by 2 sisters; Mrs. Emily Craven of Elk Point, Mrs Annie Ford of England.

Funeral services were held on Monday February 21 at 3.30 p.m. at the United Church in Elk Point. Rev W Adams officiated and interment was made in the East Cemetery.

Park Dale Funeral Home of St. Paul was in charge of funeral arrangements.

On February 20 Mr Fred Kitt of Myrnam passed away at the age of 64 years.

He is survived by his loving wife, Mr. Christina Kitt of Myrnam, 1 daughter, Mrs. Annie Reed of Edmonton.

Funeral services were held on Tuesday Feb. 22 at 10:00 a.m. at the Greek Catholic Church, Myrnam. Rev Fr. Maley officiated and interment was made in the St. Peter's Cemetery

WOLF ATTACKS, BITES BOY

Four-year-old Alan Bain of Welland, Ont., shows the bandages on his legs inflicted by a wolf which attacked him as he played on a lonely farm road. His mother, glancing down the road, saw Alan being mauled by a big gray animal. She rescued the boy from under the nose of the wolf, who had torn most of the clothing off the boy and had bitten several deep gashes in his legs.

TRAFFIC SAFETY LANE

By J. W. McKAY
Inspector, Highway Traffic Board, Edmonton

In our method of accident reporting certain facts are found (1) The driver was obviously drunk

(2) His ability was impaired

(3) His ability was not impaired

(4) He had not been drinking.

In some places chemical testing is used which gives a scientific basis where there are no such tests then the testimony of a witness, and admission of the driver or fleeing happer on his person.

Such traditional methods of determining a state of intoxication are obviously subject to question. Evidence about appearance and conduct is honestly reliable in the case of a driver in an advanced stages of intoxication. It is doubtful value, however, in identifying a driver who had enough to drink to impair his driving ability, but not enough to cause him to exhibit actions and appearances commonly associated with drunkenness. Even a medical practitioner has difficulty in identifying such drivers. For those reasons, countless hundreds of drivers suspected of having intoxicated are released either as "not under the influence" or are included under the category entitled "information not stated." At present, records do not give us a true or complete picture of the important role which alcohol, intoxication plays as an accident cause but we do know it plays a major role.

Another factor that is causing increasing concern is now overcoming to such prevalent drug habits — has to do with the driver under the influence of drugs. The use of such drugs as veronal, luminal, barbital and amytal is increasing rapidly and is also added complication in the problem of intoxication as cause.

Main attention that is now asked must be directed to the identification of the driver under the influence of liquor or drugs.

DRIVER VIOLATIONS

In arrests regarding increased attention is being devoted to an examination of driver violations. The shift in attention is all for the good, for violations of law are without question the most outstanding causes of accidents.

Many reports disclose that a driver violation occurs in 86 per cent of all accidents. Then about nine out of ten accidents involve a violation. This exists ordinary high rate is maintained, not by reports from cities and rural areas in the USA reports from 120 cities show a violation committed in 89 per cent of the accidents. In rural areas 84 per cent show a driver violation. Estimates are that driver violations contribute to at least twice as many accidents as do roadway defects and vehicle failures combined.

Since most accidents result from a combination of factors, it is difficult to determine one specific cause of an accident. In many cases violation on the part of one or several drivers constitutes the only cause. But in many other instances the accident may traceable to a combination of driver failures and road conditions, defects, and so on. In cases where the problem of determining a cause of the cause of an accident is exceedingly difficult. We shall know more about causes for the influence that drivers violation has on accidents, experience warrants on accidents, experience warrants in reports that more accurately than they do at present with analysis of primary causes

One of the outstanding facts about drivers violations disclosed by reports is that most people in the hands of violations committed More than five different violations have been identified

The following is a statistical analysis of fatal accidents taken in 1947 a view of the statistics for USA. This is given to indicate the proportions.

Excessive Speed Drivers 18 per cent Rural 24 per cent Rural 4 way Urban 13 per cent Rural 6 per cent Drivers Under Urban 2 per cent Rural 3 per cent Disregard Stop & Signals Urban 11 per cent Rural 4 per cent Other Violations Urban 20 per cent Rural 17 per cent No Reported Violations Urban 40 per cent Rural 43 per cent

CONDUCT OF ELECTIONS

In our country, a democracy, we have the opportunity to select the best qualified candidate to represent us in any election.

It has been our experience in the past to note a great number of ballots being rejected and in many cases accepted when they should be void on some technicality. A large majority of new of the other persons at large there is never much enthusiasm about the qualifications of these ballots that, when [illegible] we witnessed in the recent election last week, [illegible] very devil to peg.

The laxity now exists during municipal & school elections are conducted [illegible] receive more than ever what a beautiful democratic [illegible] we are living under.

Elections [illegible] the essence of freedom. No oppressive regime [illegible] to suppress the polls and the secrecy of a ballot. [illegible] for educational program on how to vote is never too [illegible] to the contrary.

It is amazing to note how many people vote and have no idea whether they should put an X or numbers and where to put them. No ballots are marked with the aim of unregistered, undetermined, sometimes on top of the [illegible] rubber stamps of dividual lines, anywhere but the right place.

We understand that the election act clearly states all rules should be posted in a conspicuous place at the poll and that the Deputy Returning Officer and his assistants should make a point to advise voters on accepted procedure [illegible] To further [illegible] we believe that a comprehensive, [illegible] previous years, and educational program for the guidance of voters.

The question of who is entitled to vote is forever a bone of contention. It seems that voters lists are drafted without the co-operation between Municipal Registrars, enumerators and the Deputy Returning Officers have no means of checking on the validity of a voter and [illegible] to vote. Voters from the [illegible] district, undetermined immigrants, etc., are some of the [illegible] problems. Because these majorities in most instances offer no grounds for contest, nothing is ever done about it. When it's close there is a lot of [illegible] and much [illegible] of money spent. [illegible] purpose in rectifying the malpractices [illegible] in the matters up in the best manner out of a bad situation.

SPORTS, AMATEUR VARIETY

Editor
St. Paul Journal
Dear Sir,

At the risk of bringing down upon my head all the wrath of dyed in the wool lovers of sport I must set down my impressions of what I consider to be good sportsmanship.

If a player is too skillful to be stopped legitimately he must be stopped at all costs, chopped down, brought down with [illegible] considered impossible so he will no longer be a threat. Time and again this winter I have observed good clever stick handlers to be worn out a bit too much by their opponents, being so busily manhandled that from then on their style of play becomes just as ordinary and uninteresting as that of a group of youngsters batting a tomato can on an open road.

The Hornets this year have done us great service by showing us that it is possible to play a clever game and to win on style of the minor tactics resorted to by inferior opponents whose only purpose seemed to be to win at any price.

The fans are in large measure to blame in the manner in which the game degenerates; if clever plays were cheered and dirty ones booed, the players, who pay the piper, pick the tune, would soon give up unfair tactics and play the game in a clean and gentlemanly fashion.

To give you a case in point, at a recent game I overheard a lovely old grey haired grandmother whose kindly eyes seemed the mirror of kindliness scream out during a close checking play "Kill the ——".

If we could but realize how the conduct of elders influences the young we'd all have a great concern about how we react at hockey games. As an opposite to the clever, clean player and our youngsters will realize that is what we want them to become.

A Sports Fan

Ed. Note: Partition V's, please note.

TALK - TALK - TALK

The House of Commons, remarks The Financial Post, has now been 19 seasons for seven weeks. It has been sitting 5 and a half hours a day, 4 and a half days a week. This would seem long enough to deal with a good deal of the nation's business. What has actually been achieved?

In terms of action, during these seven weeks the House of Commons has done only two things. It has voted to approve German membership in NATO. It has approved an extension of supplementary unemployment insurance benefits. That is all.

For day after day during an unusually prolonged debate on the Speech from the Throne back-bench members droned through their private catalogues of dreary thoughts to a bored audience of a couple of dozen.

If a trade association or a trade union or a church group of 300 people attempted to conduct its affairs as the House of Commons is doing, it wouldn't last a year. Members of Parliament, instead, complain that the public is indifferent to their debates. What do they expect?

I WONDER
BY C. E. B.

The views and opinions expressed in this column are those of the writer and not necessarily those of the St. Paul Journal.

May I reprint in its entirety, an article from the Saturday Night which should clear up a lot of doubt if the minds of some in respect to the language and [illegible] that has existed over educational matters in [illegible] division for some time. A careful reading and digesting of the article, should be of [illegible] value to all of us.

There is a noticeable [illegible] about the trust that [illegible] people in North America [illegible] place in the power of science to create a bright new world. Either war or peace, it is [illegible] scientists will discover [illegible] providing us with every [illegible] more deadly weapons if they are needed, more [illegible] to [illegible] more leisure [illegible] [illegible] but the crises will come [illegible] a democratic society [illegible] waste manpower and we [illegible] doing this in our universities [illegible] a failure to take every precaution for securing the best students [illegible]

In mathematics and science the [illegible] results for [illegible] in secondary schools is [illegible] [illegible] There is a great deal [illegible] to the same report in Israel, at a time we started Winnipeg [illegible] Israel [illegible] [illegible] a school there there never will be a bright new world.

That should open our eyes [illegible] important factor right here [illegible] our midst. Can we not set aside and forget our personal prejudices, push hands in a kindly [illegible] spirit of good will and advance [illegible] [illegible] [illegible]

PROVINCIAL AND CONSTITUENCY AFFAIRS

By RAY REIERSON, M.L.A.

The formalities of the opening with the traditional Speech from the Throne and the moving and seconding of its reply over, left this week entirely clear for our Legislature.

Lee's Mens Shop
"Where the good suits come from"
ST. PAUL ALBERTA

J. Hooper Pierce, Labour Leader and leader of the Opposition had all the debate on Monday afternoon. He offered little actual criticism of Government Policy except the division of financial responsibility between the Province and the Municipalities. He declared that the total debt was now 36 million dollars higher than in 1936 and that payment of Municipal debt was being made only by having Municipalities assume responsibilities that the Government should carry. He also supported the bringing in of a Marketing Act permitting the establishment of Producer Marketing Boards.

His views on Provincial-Municipal debt was scarcely fair now almost 100 per cent of our Municipal debt, besides the school and hospital is owned by cities, towns and villages for utility projects streets, sidewalks, fire fighting equipment, etc., and is predominantly cared for by loans from the Provincial Treasury at low interest rates. Our school debt is guaranteed by the Province and has spurred on a school construction and building program putting at least 15 years ahead of Manitoba and Saskatchewan. We also have more hospitals beds on a per capita basis than any other Province in Canada.

The introduction of a Marketing Act during the session has been roundly hooted

Private Members days, Tuesday and Thursday saw three opposition members introduced.

The first to R. J. McDonald, liberal asked for a commission to our established agent from the Department of Health to investigate and set Hospital rates. This was vigorously opposed by members from the government side of the House on the grounds of the success of our Hospital scheme to date, and that it would delegate authority to a commission that rightly rests with the government. This motion was defeated 46 to 8.

Mr. E. Roper, C.C.F. leader, introduced a motion supporting Premier Manning in Premier Frank Hall's Pipeline has taken over as a public power project.

His stand was primarily based on the theory that the taxpayers of Canada should not be asked to cover the cost of loss without having the opportunity of sharing in the profits of such a venture.

Premier Manning opposed the motion on the fact that even though the C.C.F. party advocated by Mr. Roper regarding profit and loss has been fully carried, the Government of Canada had established rules regarding a report of gas which were not regulations were annual reports.

Pipe natural gas across Canada was granted to the United States Pipeline. One stated that no gas could be exported to the U.S. until the Eastern Canada Market had been served, the other that the market must be served by an all Canadian route.

These regulations had placed the obstacle of limited markets along a long and costly route. Until of the Great Lakes Province the Eastern cities would be reached. Further the U.S. Federal Power Commission was moving very slowly in connection with a Canadian line to the Minneapolis area and may not bring down a decision a time to start construction of the main pipeline from Alberta to Minneapolis.

The TRANS-Canada Pipeline Co., can secure funds only on the type of guarantee asked at a rate that would give our producers a fair return and the consumer a competitive price in the East, unless construction were held up for a year and the line to the U.S. established as a certainty. Additional delay would hinder development, slow down the installation of several large allied industries and fail to secure the requirement for hundreds of people planned this year at this huge $300 million project. The debate was adjourned until next week.

A motion by Mr. Brethen, Conservative, Calgary, asked for a Judicial Inquiry into the purchase of a jail site at Calgary. It charged that all land transactions of the Government were not in the best interests of the province. The motion was defeated 46 to 8.

Active debate continues on the Throne Speech with little alarm. Unfortunately, forthcoming. The opposition has now joined for a judicial inquiry into the purchase of a certain site for jail purposes. This is usual for the sale of a Government property. The effort to suggest that authority should be taken away from a Government elected representation placed in the hands of a group not responsible to the people themselves. For a government not wishing to assume full responsibility for their actions. Suggestions could prove an easy out. However the Social Credit party has always maintained that both the authority and the responsibility of a Government should rest with the representatives elected by the people Commission in the future as in the past will only be established to seek out information and deal with problems not readily dealt with either by the Public Service or a committee of the Legislature.

Government Bills introduced to date are generally amendments to existing legislation required to bring statutes up to date. Bills covering major changes will be covered in detail later.

Mr. Roper C.C.F. again stressed compulsory Motor Automobile insurance at some length and reaffirmed his support of Marketing Legislation. He gave the house a resume of his visit to the California State Legislature and Senate early in Jan of the year.

Nearly fifty of the 61 Members of the Legislature took advantage of Hon. Lucien Maynard's invitation to visit the Fort Saskatchewan Jail on Tuesday morning. The members and the Press visited each part of three groups. Opportunity was given to speak to the prisoners, take photograph and question the staff.

The general opinion was that it is a well operated institution in keeping with the purpose as a penal and corrective and psychoclassifying in the main section makes rehabilitation work difficult and costly. The female section of recent construction is modern and only half filled at present. The establishment of a new jail at Calgary should solve the crowding as well as expanding facilities for a greater attention of leading towards establishing the services of reforming is a more useful social outlook.

The operation of the jail farm at the fort as well as keeping all of the usual maintenance gangs occupied, has in the past been the main approach to Training Corps-trainees. Vocational Training Lessons have also proved popular A new modern metal shop is now under construction which will produce war car license plates for 1956 and could commodity road signs. The Calgary Jail will be established in conjunction with a farm and cattle raising.

The recent disturbance at the fort was due to dissatisfaction over food being tasteless. This, if is being rectified by additional instruction from the Chief at the Edmond Remand Centre. Canteen All food was found to be of first quality in its raw state and kitchens are well equipped with modern, sanitary equipment. Prisoners selected for the duty do the cooking and preparation of all food under supervision. The meals prevailed in the female section of the jail for ourselves at noon was very good. We are assured that it represented what was on the menu for the prisoners that day.

NEW REGULATIONS SUGGESTED TO REDUCE HIGHWAY ACCIDENT RATES

With highway death and accident rates soaring in all provinces of Canada, authorities everywhere are considering new traffic regulations to decrease the appalling toll. One agency, a committee from the Ontario legislature, after examining and studying traffic control in Canada and the U.S., has made sweeping recommendations, some of which may be adopted by many provinces. Most radical of the suggestions is that persons under 21 be issued only probationary licenses and that persons over 21 be required to take new driving tests from time to time. Some of the other recommendations are shown on this illustration.

Rules For Curling Show Different Classifications In The Foursome

"Do you curl?" If you don't, you should because almost everybody does. A couple of years ago there were only a couple of hundred teams in Canada, today there are thousands. The game originated in Scotland where a couple of cobblestones hunted frozen chunks of anything they could find along the river to see who could slide the closest. A couple of years ago there were only a couple of hundred teams in Canada, today there are thousands. The game originated in Scotland where a couple of cobblestones hunted frozen chunks

The first man on lead, carries the skip's broom to and from the rink. He also carries a pocket full of chalk to keep the skip's cigar. The skip should never make suggestions as it lowers the prestige of the entire rink. The lead must know absolutely nothing about the game as nobody will ever ask him for advice. He is supposed to clap every time the skip makes a good shot and sometimes go for games without making one slap but he is never allowed to boo. The lead is an unpardonable sin for him to criticize any shot made by any other member of his rink.

The second man must have more money than the lead, that's why he can play second. He doesn't have to sweep the lead's rock as hard as the others. He gets the rocks on first before the game and takes 'em off afterwards. He must pay for the bottles of the skip's rocks before the start of the game. He must pay for the lunch after the game but doesn't have to pay for the lead's lunch unless he wants to. In out-of-town games, he and the lead must buy the gas for the skip's car and pay all the expenses. They always ride in the back seat, never in front. They must agree with the 3rd and skip on all matters at all times.

The third man should know something about the game He is the more money than either the lead or 2nd He should never live on the lower side of town where the leads and 2nd's live. He doesn't associate with them on or off the ice; it wouldn't look good. He can argue with the skip over the proper shot to take. He sits in the gallery see that he knows more about the game than the skip. He can scowl or frown when the skip misses, that's the reason why you can usually tell third men by the heavy lines on their faces. As he is generally the only one who has money, he settles for parks, and is allowed to smoke a cigar, but it should never be longer but more expensive than the skip's. If the 3rd man is particular about his dress and deportment, it is hard to tell it in front the rink.

The skip. He is the aristocrat, supposed to know all about the game and sometimes does. Either he or his wife must have more money than the other they put together. He must own a car but can make the 3rd man drive it. The skip. He is the aristocrat, supposed to know all about the game and sometimes does. Either he or his wife must have more money than the other they put together. He must own a car but can make the 3rd man drive it. The reason why you can usually tell third men by the heavy lines on their faces. As he is generally the only one who has money, he settles for parks, and is allowed to smoke a cigar, but it should never be longer but more expensive than the skip's. If the 3rd man is particular about his dress and deportment, it is hard to tell it in front the rink.

Lynx Shot By Forsene Boys

It seems that any story Lynx rearing out of his natural mountain haunts into this district is not long for this world.

A beautiful specimen in his prime was the last creature to feel the sights of Joe Forsene, Thursday morning and was brought down 2 and a half miles east of John Forsene's farm.

The Lynx was spotted by a bus driver who warned the boys and he has proven Mr. Forsene and his two sons Joe and Bill out to find an object has been of necessary. He was still loitering in a clump of bushes near the highway, but upon being discovered turned to run away. Joe armed with a 45 MM rifle, let go from about 60 feet and wounded the animal. It found shelter beside the bushes, and again stopped. Bill Forsene then let fly passing it with a 22 rifle. Approaching the snarling wounded animal, the boys finished him off with two more shots before he resigned himself to his fate.

The lynx, weighing about 32 pounds, is the first to be seen in that specific location, although several have been reported seen and shot in the neighboring district.

Elk Point Holds Annual Bonspiel

The annual Elk Point Curling Club bonspiel started off with a swing as the Elk Point Curling Club played the part of gracious host to out of town curlers. 32 rinks participated in the bonspiel.

Playing started in some, Boy Scout Hall from 2 until 6 p.m. Friday afternoon and was brought down 2 and a half miles east of John Forsene's farm.

Playing resumed in some, Boy Scout Hall from 2 until 6 p.m. Friday afternoon and was brought down 2 and a half miles east of John Forsene's farm.

The Lynx was spotted by a bus driver who warned the boys and he has proven Mr. Forsene and his two sons Joe and Bill out to find an object has been of necessary. He was still loitering in a clump of bushes near the highway, but upon being discovered turned to run away. Joe armed with a 45 MM rifle, let go from about 60 feet and wounded the animal. It found shelter beside the bushes, and again stopped. Bill Forsene then let fly passing it with a 22 rifle. Approaching the snarling wounded animal, the boys finished him off with two more shots before he resigned himself to his fate.

The lynx, weighing about 32 pounds, is the first to be seen in that specific location, although several have been reported seen and shot in the neighboring district.

Thanks Extended To Curlers & Help

Extended thanks are extended to all participating rinks for their splendid co-operation with the executive in their enthusiasm and sportsmanship.

A total of seven sub-zero games were played as scheduled. The members of draw committee Paul Bogus and Peter Ferrence did a fine job and are to be commended.

Also a vote of thanks to Mr. Walter Blake who devoted much of his time a helping to make the draws and rendering the ball quet to Master of Ceremonies.

It was a pleasure to see the ladies there were required to travel to Bonnyville to play their game and these ladies are to be congratulated for their willingness to assist the draw committee in helping to keep everything going. Thanks go to Bonnyville Curling Club for their patience in waiting for all rinks to arrive. Such has been necessary during the bonspiel.

Members of the Elk Point Curling Club who helped in the kitchen, coffee, ect., to the buffet and Luncheon deserve a special vote of appreciation. Their work curlers and the out-curling wives and friends who made it possible for their catering to the bonspiel. The splendid job they are doing is evident from the comments they've made toward purchasing of matched rocks by operating the board at the rink.

Thanks go to the caretaker C. Bain for his work in the ice and keeping the ice in the best speed and had the sweepers on hand for every game. Thanks to Charles Desmeyer who assisted Mr Bain with the ice during this spiel.

The donors of all prizes and Cash donations have shown their interest in the fine sport of curling by setting an incentive and reward for their curling efforts. Summarily an early bird showing. Tom Latchaw was at the rink before 8 a.m. on several occasions to brew some coffee for curlers passing for early draws.

It is hoped that all curlers enjoyed their stay at Elk Point and that they might come again by the guests at next annual Bonspiel. We shall make every endeavour to send as many rinks as possible to the bonspiels held at neighboring points.

Jack Bolley,
President Curling Club

SIX BIRTHS AT ELK P. HOSPITAL

Six births were recorded at the Elk Point Hospital during the month of February.

Proud parents of the new-born, reported Mr. and Mrs. Wagliche on Clandonald who were blessed with a baby girl; Mr. and Mrs. Steve Hillon of Dewberry who went home with a baby boy; Dr. and Mrs. K. L. Miller of Elk Point were left a baby girl by the stork. Another girl was born to Mr and Mrs Adolph Frying Pan of Frog Lake Mr and Mrs. Pat Maslak of Lindberg received a baby girl as did Mr. and Mrs. George Kraus of Lindbergh.

MONTHLY MEET OF FUA IS HELD

The monthly meeting of the Elk Point F.U.A. was held at the home of Mr R. Flanders on Feb. 26.

An interesting discussion was held on the 1954 program including the mass delegation to Ottawa and Provincial Government Car Insurance.

Our local is sponsoring a dance to be held on March 11th. Everyone is welcome.

The next meeting is to be held at the home of Mr. Dan Miller on March 26th at 2:30 p.m.

Shower Held For Mrs. Tom Bennah

On Wednesday, February 23, a shower was held at the home of Mrs Letha Rasmussen for Mrs. Tom Bennah formerly Miss Barbara Baldey.

Forty-five guests presented the thrilled newly wed with numerous gifts. Hostesses were Mrs. R. Koch, Mrs. C. Boss Jr., Mrs. D. Schroeder, and Mrs. R. Rasmussen who sought to wished many years of joy and happiness.

Local News

Miss Wilkinson spent a most week-end in the city. She attended the University Guest Week activities and reports that Evansdale was a beehive of activity in the activities.

Dr F. G. Miller, Mr. Peter Yevanchuk and Joe Mah just through one hundred per cent of the bag cap to represent Elk Point in the Edmonton Annual Bonspiel. He entered Miss Mary John Bykowich on the loss of her mother, Mrs Bzakopiel of Myrnam.

Bob and Jim Kerigan were home again for the weekend returning to Lamont, Bobby with their dad.

Bonnie and Jeanne Morris took a No. 2 Normal course here December, behind the fourth year at University of the Alberta and Lesna Gould who works in the main branch of the Commercial Bank in Edmonton. Barney Elk Point Resident Mr. Schuman has employed at the Co-op Department Store in Elk Point. Paul Perreault is on a business trip in the city.

Concert High School

The Elk Point High School Concert Band, under the direction of Mr. Bob Lamont assisted by Mr. Wench 11th Line and other soloists, will be a real favorite band night.

Questions you may ask about...

THE TORONTO-DOMINION BANK

The Bank of Toronto and The Dominion Bank are now one—The Toronto-Dominion Bank! With a network of 452 branches, operated by 5,600 employees, Toronto-Dominion offers Canadians outstanding banking service. With offices in New York and London, plus world-wide connections, the bank has excellent overseas banking facilities. With assets of over one billion one hundred million dollars, and more than one billion dollars in deposits, Toronto-Dominion ranks as one of Canada's large banks, serving a million Canadians.

Many customers may be wondering how the amalgamation will affect their connections with the individual institutions. We hope the following may be helpful.

Do I continue to use my same cheque book, passbook and other bank forms?
Yes, for the time being. New cheque books, pass-books and other bank forms with The Toronto-Dominion Bank's imprint will be introduced later.

Will changes result in my Bank of Toronto or Dominion Bank cheque forms continue to be valid?
Yes.

Will my savings deposits retain the same number?
Yes.

Will my arrangements for business loans and credit facilities continue?
Yes.

Is the personnel of my present branch likely to change?
The amalgamation will not involve any change in policy with respect to staff movement.

The manager of your local branch of The Toronto-Dominion Bank will be happy to give you further information.

C.N.R. Propose To Curtail Passenger-Express Service

Will Use Buses Truck - Ashment To Monday

Chamber of C. Registers Strong Protest At Meeting

At the request and invitation of the St Paul Chamber of Commerce, four officials of the Canadian National Railways were present at a special meeting to explain and give their reasons why the company is proposing a change in its passenger, express and mail service from Ashmont to Headsberg. Members of Board of Trade from Elk Point Lindbergh, Hilmburg and officials of the Salt Plant, united to present a strong case in favor of retaining the present schedule.

Mr. Dunbar, Superintendent of the Edmonton Division was chief spokesman accompanied by Mr. S Bell, District Passenger Agent and Mr J. W. Bennett, District Mail and Express Agent, who took a part in the discussion. Mr. Broad, Secretary to the officials was also on hand.

Mr. Alex. Tannas President of the St Paul Board, introduced the visitors and called on Mr. Dunbar to give a full detailed explanation of the proposed change in the passenger train service effect on April 24th.

Mr. Dunbar opened his defence on behalf of the railway by explaining that revenues during 1954 had dropped drastically and that a review of the passenger service in the Alberta-Hinterland had forced his company to effect the change in the interest of economy.

It would mean, said Mr. Dunbar, a saving of $5,000 monthly salary of train and engine crews, some $4,000 monthly on fuel, plus $27 penalty mulles due to short run classes, cut down 1 to 2 hours on terminal detention, reduce cost of maintenance equipment and cost of locomotive.

A set of figures covering November December and January passenger traffic was presented to show the low traffic on the route, from Athens to Bonnyville. It was stressed by company officials that the months chosen for study had been the months of lowest traffic and not a true picture of the situation.

The total monthly average receipts of express for the three months was St. Paul $2,000.00, Elk Point $6,776, Bonnyville $4487.94.

Mr. Dunbar stated that the proposed change was not a curtailment of service but would provide a more convenient service which would take nothing away from the existing transportation system.

Mr Dunbar gave assurance that freight schedules would be maintained and that no change is proposed.

The Athabasca-Hotnsburg passenger, express and mail service would be transferred at Ashmont from train to bus and truck which would travel via the highway on the same schedule as the train. Exact time-table figures of departure and arrival at these motor vehicles at the different stations was not yet available from the traffic department, but did not have a representative at the meeting.

One truck and bus, more if needed, will make the trip from Ashmont to St. Paul and other vehicles will handle the traffic down the line to Heinsburg. As much as possible they will use the main highway but will not the main highway, but will have to turn off for Owlseye, Edwardville, Arneliste.

A direct passenger service will be maintained from Edmonton to Grande Centre and will make connections at Ashmont to Grande Centre and will make connections at Ashmont to Grande Centre and will make connections at Ashmont

Rabies Control Correspondence
The editor
The St. Paul Journal
Dear Sir:
With reference to the notice appearing in the last issue of the St. Paul Journal to the effect that the Town and School Administration would assume no responsibility for the destruction by trapping and other means I am reliably informed that the notice was not signed by or with the authority of the Town and School Administration, and would like to know who was responsible for the insertion of the public notice.
The impression referred to was that a notice would be issued to the effect that all dogs running at large would be destroyed on the school and the trustees of the school district would take other measures. Such statements Arrangements have been made for the impounding and destruction of dogs found running at large and I am not aware that any such notice has been issued.
It is quite natural that the private citizens should be concerned for the safety of their children, parents, and it is apparent that the

FORMALITY TAKES BACK SEAT ON RAFT

An exciting night-nalle raft ride down the Rio Grande river during the day, and a romantic beach parties at night enlivened Princess Margaret's last full day in Jamaica. The scene, the embarked on the royal yacht Britannia for Nassau, Bahamas, her last port of call in her tour of the West Indies during which she had visited. Prepared for one of the most interesting experiences of her month-long tour, the young Princess wore a pedal pushers, shirt and sunglasses Lady Heath Ford, wife of the governor, was Margaret's companion on the trip.

Public Health in Alberta
From 1905 to 1916 Public Health was a branch of the Department of Agriculture It was then transferred to the Department of the Provincial Secretary and later for another year was again transferred to the Department of Municipal Affairs. Finally in 1918 the Department of Health was created and given responsibility for administering all legislation relating to Health
The Department of Public Health now consists of fifteen divisions, each responsible for its own special field The divisions and chief functions of each are as follows:
1 **Public Health Education.** The division endeavours to educate better health practices and habits of the people by means of literature, lectures, radio programs, motion pictures and film strips.
2 **Communicable Disease.** The function of this division is to forecast the incidence of communicable diseases throughout the Province and to advise and assist local health authorities on the most effective methods of prevention and control.
3 **Entomology.** This division was established in 1944 for the purpose of controlling insects. It makes surveys of spotted fever, plague and other insect and encephalitis
4 **Hospital and Medical Services** Responsibilities of this division include pay-ments of hospital grants, supervision of hospitals, payments of hospital and medical care of maternity cases, hospitalization of various pensioners, mothers' allowances in special need to dependents in these groups Training of nursing aides is also supervised by the division as well as the care of chronic and geriatric patients Supervision of Mun Hospitals This division also supervises the hospital boards of the province which a committee also supervises the Provincial Laboratories. Well equipped laboratories are maintained at Edmonton & Calgary Services are provided to all Municipal districts, hospitals and Boards of Health by the Provincial Laboratories and services are distributed from these centres and various examinations and analyses are made for the detection and control of disease
6 **Mental Health.** Mental hospitals under the direction of this division provide scientific mental and nursing care for the mentally ill Guidance clinics help to solve behavior and emotional problems in both children and adults and thus prevent mental illness
7 **Sanitary Hygiene.** By the supervision of clinics and by means of lectures, this division seeks to curb venereal and venereal diseases
8 **Tuberculosis Division.** This provides free diagnostic and treatment services for all tuberculosis cases Mobile X-ray units periodically survey the entire population of the Province Modern sanatoria are maintained near Calgary and in Edmonton
9 **Cancer.** Three diagnostic clinics are maintained to which suspected cancer sufferers are referred by their family physicians Diagnosis, radium, X-ray and surgical treatment as well as treatment by a Cobalt "bomb" are provided at government expense
10 **Crowded Paler.** Below 1950 diagnosis and treatment clinics have been provided for sufferers at government expense
11 **Rheumatoid Arthritis Clinic.** Services provided here include, free hospitalization and treatment to Albertans up to 30 years of age.
12 **Sanitary Engineering Division** protects public health by supervision of water supplies and sewage disposal systems. Hotels, restaurants, slaughter houses and dairies are inspected in these parts of the province not provided with this service by their local health authorities.
13 **Statistics.** This division, formed in 1947, compiles and disseminates vital statistics.
14 **Vital Statistics Division** records all births, marriages and deaths.
15 **Public Health Nursing Division** organizes the health program of rural communities Prevention of disease is the keynote with special emphasis being placed on prenatal and infant health supervision.

Let's Eat
BY
IDA BARLEY ALLEN
"Grandmere had a lot of sigin' when it came to cookin' and observed the end. She learned many healthful secrets by trying various methods, per example, that's why she always had the best preservative effects of many spices. She learned to keep celery and onions fresh; to preserve fish, and to keep meat from spoiling. She prepared in her own kitchen.

The Season Why
"Today we have many spices prove helpful in food preservation. Celery seed is one of the best. Kosher spices contain celery seed. Mustard seed is another spice that helps to preserve meat, especially, and so has a preservative effect on meat as it ages, as well as on frozen pork products. Mustard seed is excellent for keeping fish or meat from spoiling. Cloves are also good for the preservation of meat and fish of all kinds.

Pickling Spices
"Pickling spices are a combination of many spices. Pickling spices are a combination of many spices. Pickling spices are a combination of many spices.

Finds Comfort In Olden Day Air - Tight Heaters

Perhaps you will think, upon reading this title — "Here she-Bite" and pass on, but you might be surprised to know how many farm homes still rely on the old air-tight heater and big wood pile to heat them through the winter months. You who have graduated to natural gas or propane, oil or electricity, or even coal heaters, may look down your noses from heights of the "good old days," when you, too, carried vast piles of wood and fed the flo-lation those of the old air-light you who still do it, look long-ingly about to the same-tree-ing that used to heat the present monster out to the trash pile.

For myself, I feel a certain affinity to the old air-tight. I can remember the big heaters we had when I was a kid. There was one my father made from an old gas barrel. It had a door cut in the front, through which it was fed, for the stove-pipe. It stood on a hole at the top, near the back legs of heavy wrap-iron.

Bill, Stewart's uncle, is home on the big kitchen-living-room part of the house. It is one of the bed-rooms, almost as big and ugly about the huge air-tight as I've never seen quite that size since, but suppose they are all about

If you remember some of my brothers to keep the monster supplied with fuel, and a log it was when the mercury dropped to 20 of so below.

It was a big old log house, cold in winter Father would stay up quite late, reading and stoking the fire, then he'd fill the heaters and go to bed. Sometimes the old air-tight would rebel at being thus summarily choked off when it wanted to roar, and with a "Whush" would blow the old hallway across the room and into the smoke until someone awoke, and, after running to them stopper and closed the damper back on. We usually kept a sedate roughout the lot at night to guard against this upheaval.

But, oh, how cozy it was to dress by, in the dark of winter mornings! And how grateful we turned our shivering little bodies to its glow—first on one side then the other—as we had our Saturday night scrub in the big galvanized washtub. And how we crowded up, shedding mitts, scarves and rubbers after our twomile hike home from school!

Even now, when I come in from a severe chilling, to an eyeless by-passed heated home I unconsciously glance around for that hideous black demon, the air-tight radiating its fearsome blast of heat—oh, nothing beautiful, nothing kind—to ease my aching muscles, tense with cold, to melt my chilled marrow and restore my frozen spirit!

—Irene Magnuson

MILLIONS BEING SPENT IN SEARCH FOR ALBERTA OIL

From the U S border to within a few miles of the Northwest Territories, Alberta is being combed by oil drillers hoping to find new oil or gas fields as with an Ledue, Redwater Pembina or Turner Valley. Millions of dollars are being spent in the exploration work, a good part of it to determine the limits of known oil areas, but of these millions a good part will be spent on the search for new fields as well. Hundreds of thousands of dollars are being spent in the construction of roads and railways crews to man them.

Vegreville Rangers Take Sunday Tournament, Wainwright Second

St Paul Hornets 16-game winning streak ended on Sunday afternoon when they were knocked out of their own tournament, losing the first game of the day to Wainwright by a lopsided score of 10-3 to Easter rally on the second draw against Vegreville but a rough 3-2. The evening finals saw Wainwright weaken to the might of the Vegreville Rangers 6-2

The opener started with a roughhouse three men in the penalty box at one crack Hallet was dispersed with a misconduct penalty for 10 minutes and Tourtecotte of Wainwright a Dust of St Paul were given the and for roughing. It was while a man short in Powell River that Wainwright banged in the first goal on a breakaway by Gaultier Bessow for St Paul in the first of the second half Wainwright then shot GOAL 2 in the second and 3 more in the last during Hallet's tallied 2 in the third Final 10-3

Scoring for St Paul Both Dubois-Dion, Lemieux - Michaud, Simeon assisted Wainwright - Gaultier-Bertoli, McIntee, Hallet, Sheffield Hallet-Gaultier Tourtecotte - Gaultier-Hallet Tourtecotte - Gaultier, Gaultier - Touchotte, Berry

St. John's vs Vegreville

The light St. John's Caligians were treated to a rough game by the Vegreville Rangers, contenders in the Eastern Alberta Hockey League For the first few minutes of the game St. John's outskated the Rangers into a one goal lead scored by Ernest Charteau from Maurice Mercier after nine minutes of play. The boys climbed for one more at the 16-minute mark in the second and that was all. Roland Cold scored on an assist by Basil Mercier.

For Vegreville points from Bill Chetuk-Dominik Shantin-Dennis Chetuk Vegrey-Demchuk, Zen Chetuk-Dinni Chetuk, Ulrey-Basher Rose, 5-7

Finals

The finals locked local flower Hornets and Wainwright Rangers raised out to watch Wainwright and Vegreville face off for the $250 purse money of $150 Vegrey and Wainwright netted for $75 00, second money

The Vegreville Rangers have just completed a 2 out of 3 series in the Eastern Alberta League defeating Wainwright 3 straight and are standing by to take on the winners between Vermilion and Viking

From the start it looked like the Army Camp boys were going to have a bad time of it and they did, outscoring the Rangers several scrambled for Wainwright and Tourtecte and Gaultier responsible for the other point in the third Vegreville Dimchuk-Dueber Ulrey-Bertoli, Basher-Herchuk, Ed Bertchuk, Vegrey, Dueber, Dimchuk, Mark Morton for the Rangers sallied Emmett into a misconduct penalty of ten minutes during the second period.

St. Paul Wins over St. Johns

In an exhibition game Saturday evening, St. Paul opened off with the collegians. Allegiance to the crowd was fairly evenly divided with both teams getting a lot of support and the fans enjoying an intense cheering game.

It wasn't the College's weekend for end after keeping close to the heels of the Hornets (6-3 at opening time in the third) they fell by the wayside and ended on the short end of a 9-3 count.

Church Paul Dion racked in a hat trick for three St Paul goals Nestor Hryvnk, Pete Melnechuk and Dusty Double also counted St. John's marksmen were Ernest Charteau, Basil Kvtnuk and Jacques Joly

Lineups

ST PAUL — Gauthier, G Vallieres, L. Blanchette, W Shkiun, T Lafleneche, P Dion, C Richard, B Double, P. Melnechuk, N Hryvnk, J Cyrpko, Zaharchuk.

BINGO
in the
Mallaig Community Hall
Saturday, March 19
at 8.30 p.m.

THEPHEN NEWS

A school hockey tournament took place at the Thomson Rink in Thepha Tuesday playing were from Mallaig, Thorton, St Vincent and Mallaig. The first game was played between Thorton and St Vincent, St. Vincent won by a score of 5-4. The second game was played between Mallaig and Mallaig was won by Glendon by a score of 5-1. The final was played by Glendon and St. Vincent, making Glendon the champions by the score of 7-1

The annual Community League Meeting was held last week Re-elected were Mr Art Guilbault, president, Mr Marvin Fish, vice-president, and Mr George Paisely, secretary

Mrs Jean Martin and Roger Metaxa were visitors to the city last week-end

Miss Celeste-de-Marie was confined to the hospital this week We wish her a speedy recovery

Miss Lorraine Barbotier and Mr. Raymond Clermont were visitors to Thepha last week-end

Prizes for the T S easy contest were awarded for grade 5 and 6 class here They are under the guidance of Mrs. Jean Martin.

Mr and Mrs. Alfred Belanger from Edmonton B C are visiting friends and relatives in Thepha

I WONDER

BY C. B. B.

The views and opinions expressed in this column are those of the writer and not necessarily those of the St. Paul Journal

If the average reader knows why small town newspaper publishers become prematurely grey-haired? This question came to my mind on number of times through personal contact with these chaps. The answer became very apparent after I undertook contributing my "two-bits" worth and joined the ranks of this group of unfortunates.

I was of the firm opinion the "Big Mention's" and recipients of weddings, an news and every district, was the Municipal Councillor and the Subdivisional Local Trustee I had not assumed it was quite correct. The scribe of a local weekly newspaper comes in for his share Sometimes it comes in writing, sometimes by a verbal castigation.

An unknown publisher of a small weekly once said that it contains more truth than poetry.

EDITOR'S TAPE

We never realize how much the Hometown paper means to us Till we have wandered far away from old familiar haunts—if And then it is just as welcome as a letter from a friend.

We read it through, from front to back, from beginning to end, We remember how the paper was a standby at our home,

And how we would grab for it as soon as it would come

So loaded with all the personals. Did read the livestock news, Branded this and dehorned—if they acted with his views.

But Mother never seemed to have one part which she preferred, She just sat down, when she had time and read it, every word.

The editor, remember, was a friend to all readers alike, Before folks would try to "use" words of "purple prose" or Plato like, He always had a column any good things to say.

He noticed all the little things that meant a lot to folks; When "Crippled Charlie Hoskins" little dog got hurt and died, He would say a word in a pretty piece that all the readers cried,

So when your subscription paper comes, sit down and read it through,

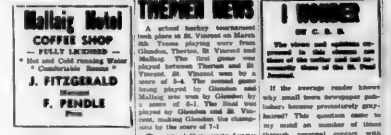
And give a kindly thought to him that got out for you

It may not be impressive, and it isn't the work of Art,

But every word you read in there, comes straight from someone's heart.

How true. Your weekly plays such an important part in our lives. Editor Charles Grandall in the poem, "He likes the editorials— if they ended with his views"—which an editorial appears and it is not an agreement with your views, before you blow a fuse, keep in mind that when these editorials are composed, forewost in the writer's mind is the all an approximate four thousand eyes are going to read and absorb the interest of the article or letter.

So, a happy medium is hoped for in its reception by the readers. On the other hand, it would be awfully dull if we did not receive friendly blasts from the faithful readers, just bre dull, I wonder!



REMINISCENT OF HURRICANE HAZEL

Floods almost as great as those which followed Hurricane Hazel last autumn are threatening parts of Southern Ontario as melting weather and heavy rains run off the deep snow cover. This is Highland Creek, near Toronto, normally a placid stream, which has washed out two bridges, marooned 10 families, and has ten-foot chunks of ice tumbling along the rushing water.

THE RED CROSS

It is through, not in, the Red Cross that a man contributes his money or donates his blood It is a clearing house or agency or a sort of rope between a drowning man and his rescuer.

This international movement was conceived in the mind of Henry Dunant a hundred years ago as he stood in horror at a whole army of wounded soldiers resting in death beneath the burning sun on the battlefield of Solferino. By these determination and strength of character Dunant organized the population of nearby Castiglione into a first-aid unit. The Red Cross today is a whole network of societies embracing the world.

It depends for its existence on private generosity, it cannot accept financial aid from any government. The record it maintained proof of the high regard in which Alberta citizens held their own Red Cross. It is a record they will try hard to maintain.

The campaign to raise funds is on during the month of March. When the canvassers call on you, give and give generously, giving to this organization is tantamount to a moral obligation.

PIT AND THE PENDULUM

GIVE THE REFEREE A CHANCE

During the past hockey season, we feel that St. Paul district fans have been more than patient over the treatment of their local hockey team. When the Hornets were in a slump and couldn't win a game . . . fans let loose in the press to patronize the green gamers and supply the right kind of moral support that helps a team along.

The hockey fans of St. Paul district who have a special interest in the world of sports are very grateful for the enthusiastic support of their team.

Probably the only blight in the situation is the fact that some of the fans have become over-enthusiastic and are letting the intensity of the games carry them away.

In this column you will find a letter from a fan who enjoys hockey in St. Paul, but who has not been treated fair courteously. He's entitled to as well as with nothing.

Our reporter said this is one of our observation, not complaints, as their party have been treated rather badly in the last few weeks.

There were willingly take on a pot, the toughest in the book. They accept compensation for it and do it strictly for the love of the game. They are happy when they played hockey and have a deep affection for the game.

We are unconcerned in the heat of the game why a fan might call a man roughneck, bushhead, blind as a bat and leave it at that. However, this has never ever led to any with a member or fans leaning over the fence, harassing them in personal fashion, and when's more such fans have a right to be in task after the game.

We believe there is no call for that sort of thing. Last Sunday after one of the tournament games, one spectator begged a referee, calling him every name under the sun, stupid, blind and why had he not seen a specific play through and, finally, when referee did take to referee, he answered he couldn't make direct eye-to-eye contact.

The hockey rule book, if any of you have ever read it, is very broad in its interpretations and relies on the judgement of the referee to a great extent. What is often considered a penalty play on the part of a biased fan is quite legal according to the regulations. When your own player pulls a fast one, it's considered pretty cute, but if the opposing player does it, that's different. He should be penalized and if the referee doesn't see it you think he's a pet.

We're not saying that the referee should be treated with kid gloves. It is part of the sport to have him there and be able to rave him, but let's keep it within reason.

We would suggest that a better knowledge of the rules would help our reasoning and understanding and also help us enjoy the game to a greater extent.

LETTER OF COMPLAINT

Dear Sir:

I am writing this letter in hope that it is published in your paper, concerning a little incident which happened at a hockey game on February 13th. It seems that a couple of good sports fans, too long able to get us mad by using profane language against our personal appearance, went and gave some wrong information to the RCMP.

Naturally the RCMP did their duty and came up to tell us to be more careful. After a little discussion, we asked them to bring the person or persons who had told them so, but told us it was alright and to go back and cheer. I could have punched out a lady who used profane language concerning my cowardly nose. I didn't get mad because I feel sorry for people who are that ignorant to go to those measures when it comes to sports. (Boy, I am glad my nose wasn't bowing that didn't stop us from cheering, a few adults sent a little girl to pull the fan off one of us, and a little boy to bark at us in the rink. But the referee didn't send us to after the game is over, three St. Paul women came up and told us they knew the person who gave the false information, to make a little trouble, and told us they enjoyed cheering against us. Hurray, that's what we call good sports. Keep it up you St. Paul sports fans, don't let a few poor sports spoil your reputation. We like your town and the people who live there.

We'll be back for some more fun with you good sports fans.

A couple of Bronseau sports fans

DANGERS OF STORED GRAIN

The approach of spring brings with it several dangers about which those concerned with the handling of farmers' grain are already issuing a warning in the first place, at this time of year, there is always the danger that, because of leaky roofs or faulty walls, some of the harvested grain may become wet and develop heated spots. It takes only a few kernels of heated or bin-burnt grain to cause a loss in grade and this situation may arise quite easily if a core of heated grain becomes mixed with good dry grain as it is loaded out.

Another danger, to which we drew attention at this time last year, is that a grain treated for seed with mercurial or other fungicides. This practice brings with it dangers that have to be watched closely, particularly by those who are charged with the responsibility of handling grain for human consumption and export.

Every year a certain number of cars of grain are condemned by the Grain Inspection Department as unfit for human consumption because of the presence of mercurial treated grain. Here again, in many cases, it may be just a few bags of treated seed left over from seeding that final precaution should be taken therefore, to see that this does not their way into grain that is delivered into the elevator. Every bagged and that wagons & other receptacles used in the handling of treated seed grain are thoroughly cleaned.

DO IT RIGHT! DO IT YOURSELF!

W. G. Advises Canadian National Railways At Tuesday Meeting

(continued from page one)

ways, built roads and communications systems which were far in advance of the development of the country. To such pioneers as the jubilee year, we pay tribute and honor them for their foresight and courage.

With the development of freight and passenger traffic into and out of St Paul and district, business has correspondingly increased, but for some reason the railroad service here have remained static and in some respect retrogressed, and have permitted other means of transportation to overtake, surpass and take the business which should have been theirs.

We feel that the present situation presents a challenge to us and to the C.N.R., and our purpose, this evening is to lend out why the C.N.R. has not been receiving its share of the transportation business, and how, by a co-operative effort on the part of the railway and the communities involved, the facilities and service of the C.N.R. may be popularized, expanded and increased, rather than be curtailed.

In every business, in the march of time and progress, there comes a time when major decisions must be made. Whether to meet competition or accede, curl up in the shell of existing expansion and say that nothing can be done about it. That time of decision has now arrived with the C.N.R. and its facilities into St. Paul. There is more freight, express and baggage business originating from this district than ever before, and there is no good reason why the C.N.R. should not receive its just proportion if they will assume a positive attitude and go after it and get it. By curtailing the services into St. Paul the C.N.R. officials appear to have adopted a defeatists, negative, the can't be done attitude, whereas they are absolutely unknown to their predecessors, the pioneer railway builders. Whereas they should increase and improve their services, meet competition, so as to attract, demand and compel and increase patronage for the transportation facilities which they have established.

The C.N.R. system is nationally owned, and every citizen of Canada is concerned to see that it prospers and develops to serve the people of the Dominion as a whole, and in the residents of this district in particular, and to do so on a sound business-like economic basis. In this regard I respectfully submit for your earnest consideration, the following:

(a) An increase of passenger train service into and from St Paul to meet competition by other transportation systems.

(b) To improve the day coach on this line—the present one being old, antiquated and of the "Dorothy" trolley type.

(c) Have departures from St. Paul arranged so as to arrive in City at 10 o'clock in the morning and have a train leave at 6 o'clock or thereabouts in the afternoon so that passengers may go into Edmonton, do a full days business in the City, return home the same night.

(d) Go out and look for business, instead of the aloof independent attitude which is now adopted.

(e) Spend a little money in advertising, as the public are entitled to time to time to stimulate business and to keep before the public in a practical way the advantage of railway passenger travel.

The C.P.R. on the Edmonton to Calgary line were faced with a competitive situation and as a consequence they speeded up their service, improved their rolling stock.

By taking the attitude of curtailing passenger service, you are not throwing or giving away a very important part of the transportation business into St Paul. Why not improve, increase and develop it, and as the volume of business is here, why not go out and get it.

If we, as a Chamber of Commerce, can help—let us know. We want to help you.

By retreating from the situation hoping you lose your will to fight and if this attitude be continued, the railway will soon be relegated to the "has been" type of transportation and when the freight and express department of your business are challenged, you will again wonder, until the railway transportation will be recorded in history as having failed to meet the challenge and portions of the existing stock will be placed in the Smithsonian Institute museum as a relic with the one horse shay

UNBURST MOTOR COACHES are constructed to give you the ultimate in safety in travel. This combined with the fact that SUNBURST drivers have long accident-free records will make your trip by SUNBURST worry-free.

FERTILIZER MEANS DOLLARS

The use of commercial fertilizers has increased steadily in Western Canada during the past 25 years. Now a days, it is rare to find a district for each dollar a grain grower spends on fertilizer he receives anywhere from one to five dollars in return. During the past several years research has been relatively intensified. Undoubtedly, dollars will be harder to "come by" in 1955, and many farmers may hesitate before parting with hard cash for something they feel they can "get along without."

Study the Problem. Farmers are well advised to study their fertilizer problems and the first question may well be—is it necessary at all? The Provincial Department of Agriculture will supply information on the use of fertilizer and a visit from a field fertilizer man to the work will be behind their recommendations.

Tests Your Fertilizer. As every grower knows, a certain yield per acre is necessary to make a profit out of growing, harvesting, etc. Any yield above this minimum represents the profit obtained per acre. Higher yields than these give greater profits. Some only growth means a better chance to avoid early frosts and, in the rust areas, may lessen moisture difficulty in storage. A grain grower serves himself and the fertilizer industry by insisting on a grain crop settlement, vigorous early growth are much in evidence words "Thanks" particularly important, of course, in the case of wild oats which are controlled by 2,4-D.

Money may be "spoken" the year, but all the evidence available indicates that farmers of Western Canada will receive an excellent return on every dollar they spend on fertilizers in 1955.

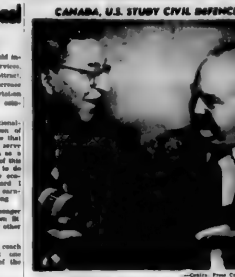
CANADA, U.S. STUDY CIVIL DEFENCE



U.S. civil defence preparations and experiments include the use of this farm vegetable cellar, pressed into service during demonstrations in Colorado by the U.S. Federal Civil Defence administration (see advised all evacuees, in the event of an H-bomb attack, to get below the surface of the ground to avoid deadly radiation from the bomb's fallout.

List Of Donors To Mount St. Joseph Shrine At Garneyville

En 1952, ceux dont les noms suivent ont donné $125 ou plus pour ériger le monument qui sera érigé au sommet de la colline du pélerinage.

Edouard Vallée, Jean Baptiste Larose Desaulniers, Mr & Mde H. J Desmeules, M & Mde A. C Lapierre, Bertrice et Rose Bach, Bertrice et Katia Bach, M & Mde Lionel Marcotte, M et Mde Jos. Mr & Mde J N Vallée Mr & Mde W Brosseau, (Garneyville) M C.O. Joly et famille (St Paul) M & Mde J. W Beaudoin (St Paul), M Jean Trudel (Lac Pruel) Mde. U de Blois, M & Mde Alex Gagnon et famille (Cloutier).

En 1953, il fut posé la première pierre du chemin de la croix grand stations au sommet de la colline. Ont alors contribué du bon (environ $ 55 du 100 pieds):

Les Indiens de la Reserve (Kawawaym): 2000. M & Mme Jos. Bellefeuille 500, M & Mme Alphonse Bellefeuille 500, Mde Mde J Collins, 100, Mde Geo Vachon 200, M Hector Plante (St Paul) 200.

En 1954 — Les Instions de la Reserve Lesserville 600 ; Mr P Lapointe 1,000. M Ernest Charbrand 1,000 Mr Ali Lapointe 200, M Eugene Trudel 200, Mr Bernard Cloutier 200, M Omer Dorscher 500, M Henri Bureau 200 M Geo Dorscher 200, M G Poitras (St Paul) M Hector Plante 200.

Le père Directeurs du pelerinage remercie aussi les contributeurs anonymes qui ont donné ou qui feront not on donnant la quete samedi et dimanche aux messes, le grand bingo organisé par les Dames de Ste Anne de Beaupré le deplacement au pouilli du mont St. Joseph.

Above is the list of the contributions to the St. Joseph Garneyville Shrine

All our Catholics know the month of St. Joseph must be celebrated with greater devotion than ever this at all, to comply with the wishes of the Bishops all over our country so to satisfy the need to put ourselves under the protection of the Protector of the Universal Church.

As Director of a pilgrimage in honor of St Joseph in the diocese of St Paul, I feel it is my privilege as well as my duty to do public all devoted subscriptions to this main place. In conformity I am having seven leaflets posted at a suitable place in St Paul and Bonnyville churches and I will address the congregation at both Bonnyville on March 13th and St Paul on March 20th.

This is also the Jubilee of the St Joseph Oratory in Montreal and I am sure that some day soon an Indian St Joseph Church will stand a temple worthy of the great Saint

I thank very heartily all those who have already contributed & who will also contribute on the 13th, by attending the bingo in Bonnyville Legion Hall right after the evening mass

School Division Refuses Petition Therien People

A petition by 110 ratepayers of the Therien district demanding to be segregated from the St Paul School District No 4A, in preference for Bonnyville was rejected recently by the School Board

A counter petition had also been circulated, both of which were reverted into the Department of Education However it is within the jurisdiction of the St. Paul Board to approve or reject They ruled against it

ST. PAUL, Alberta
March 10th, 1955

To the Rate Payers in Division No. 4
Farmers and Retired Farmers:
Ladies and Gentlemen:

You are all very well aware of the forthcoming election of municipal officers in the Municipal District of St. Paul No. 56, to be held, Saturday, March 19.

My name has been put in nomination and I am running on the ticket for Division 4. At this time I wish to respectfully request your support on the results of my good reputation and for the following important reasons.

If elected I will watch general business administration in the Municipality, very carefully. I will also see that this above mentioned Municipality Council will allow the farmers, market outlets without to much difficulty; I will see that the councillors, and other municipal employees do not increase the taxes more than the cost level. Farmers have been hit by crop failure and low and quick prices and can stand no further increase in taxes. I will see that the taxes are spent on all to keep taxes at a minimum . . . farmers are paying too high taxes as it is!

Yours very truly,
HARRY VASCHUK,
Candidate for Councillor,
Division No. 4,
St. Paul M.D. No. 56

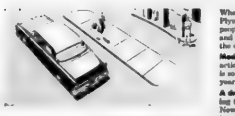
So big and beautiful—

'55 PLYMOUTH

Brings you fresh, new high style with The Forward Look

Longest, lowest, smartest ever...

with new Motion-Design styling...today's best value!



Wherever you go, you see more and more new '55 Plymouths! Whenever one crosses by, you notice people glance admiringly at its impressive new length and brilliant new beauty! Already it has influenced the entire industry's stylists.

Modern as tomorrow! Everyone likes the look of action in such rakish angle. The sleek new Plymouth is so long and low—more than two inches longer this year and barely five feet from roof to road.

A dream to drive! Motorists everywhere are applauding the increased visibility you get through the big New Horizon swept-back windshield. It's the first four wrap-around with panels that blend back to give you extra glass area at top, as well as at bottom. For road-hugging stability, Plymouth for '55 is actually wider than it is high—front tires are spaced wider apart, rear springs are wider, too.

Livelier power! You'll hear many comments on the added horsepower provided this year in the new high-performance Power Flow 6 engine of the Plaza Club Sedan shown above. Plymouth also has new V-8 models for flashing performance.

Yet, with all its beauty, bigness, and action-packing features, Plymouth is priced with the lowest! Look it over . . . check its value . . . and you'll see why the big swing is to Plymouth this year!

Thriftiest in the long run!

New carburetion in the thrifty Plymouth PowerFlow Six engine makes your fuel last longer . . . insures more power under all driving conditions. Rugged construction means long engine life and low maintenance costs, too. Under the Plymouth beauty, you will find more value.

Manufactured in Canada by Chrysler Corporation of Canada, Limited

Plymouth is the car to measure against this year . . . see it now at your Chrysler-Plymouth-Fargo dealer's!

WALTZ OFF WITH TITLE AT VIENNA

Weathering more wind and sub-zero temperatures, this group of Canadian couple swept to their second straight world pairs title in figure skating championships at Vienna. The couple, Frances Dafoe and Norris Bowden, both of Toronto, delighted a gallery crowd of 6,000 with brilliant jumps, tosses and an intricate entry by 66 points. Another Canadian pair, teen-agers Barbara Wagner and Bob Paul, finished an unexpected fifth to establish themselves as "comers."

—Central Press Canadian

Forty-Four Rallies Of FUA Grassroots Have Taken Place

Through cold weather caused others also at several meetings, the series of "grassroots" meetings being held under the direction of the Farmers' Union of Alberta is otherwise proceeding according to schedule.

This was the statement made to the provincial press this week by Edmonton headquarters of the organization's farm crusade.

A total of forty-four rallies most of them taking the form of community suppers with panel discussions and Workshops, have already attracted this newspaper

PROVINCIAL AND CONSTITUENCY AFFAIRS

By RAY REIERSON, M.L.A.

The past week was a busy one in the Legislature dominated by Hon. C. E. Gerhart, Provincial Treasurer, bring in the budget at a night session Friday. More than some sessions housed Members and of major interest to all concerned I will review this field and [illegible] of the various estimates of the weeks activities later.

The grand total of expenditures of $223,895,075 is an increase of $46,000,000 over last year's record.

The largest single feature is an appropriation of $6,000,000 as a school tax redemption subsidy to be used to roll back school taxes to a uniform 23 mills. That together with a substantial increase of $5,000,000 in agricultural grants will assure continued progress in this field with lower taxes to all property owners. To facilitate building taxes at the level, an annual increase of $2,000,000 per year for the next five years in operational grants will be made.

Capital construction grants on a per capita basis will be increased by $10.00 per man and will now range from $3,000 to $7,500 depending on the size of school or addition. This will cost an extra $1,000,000 for a total of $4,000,000.

All necessary borrowings at low interest rates will be available directly from the Provincial Treasury for which [illegible] is being set aside. Likely [illegible] a total of $24,611,325 or a increase per cent of the total cost of educational in the Province.

The Highway program will be reduced by $1,300,000 but a special fund of $1,300,000 will be set up as extra assistance in key municipal area on a 100 per cent basis to bring district highways up to good standards. Consequently the overall appropriation should remain the same with substantial additional maintenance for local construction in this community. This fund is considered as a major achievement for members representing low assessed M.D.'s and has taken several years to bring about.

The Medical Services plan received in the Speech from the Throne will cost an initial $1,200,00 this year

All other increases are in line with increased construction of Public Works and added services & Loan funds. It represents again the effort of the Government to keep the progress of the province at a high standard while ensuring every possible benefit of increased maintenance and low interest rates to our people. A new land fund to Homestead Leases of $1,000 for clearing and breaking should help a great deal in assisting new farmers on Homestead Leases to [illegible].

To outline further budget detail would absorb too much space at this time and will be reviewed at later issues.

The two contentious resolutions mentioned last week both received further debate. On Elmer Roger's motion to refuse to Guarantee the bonds of Trans-Canada Pipe Lines, J. Harper Prowse accused the Premier of distorting facts in connection with the rules last down by the Government of markets. He felt that if Trans-Canada concerning rents and Canada Pipe Lines could not finance on the open market without Federal Guarantee that it should be built by the Federal Government as a publicly owned enterprise Mr Maynard, Attorney General accused Mr. Prowse of sounding the death knell to this project going ahead as planned. H. J. Macdonald liberal of Calgary wanted to pipe line gathering system scrapped. Vote was delayed on order to give Mr. Roger opportunity to close the debate.

Mr. Brechin's motion asking for a judicial inquiry into profits of a middle man in the purchase of a jail site at Calgary was spoken to for 45 minutes and adjourned by Premier Manning. He devulged many inaccuracies in Mr. Brechin's charges but agreed that [illegible] has been substantial profits made to J. Mc Nab Dunsmuir of Vancouver who held an option on the land in question without the Government's knowledge. He said that had this been revealed the land would not have been purchased. In reply Mr. Brechin was not publicly [illegible] ... including 6 government representatives having been exploited to the sum of very [illegible] of public funds He will speak again on this during the coming week

A resolution requesting it to be made an offence to enter a farmyard and carrying a firearm without first securing the owner's permission received another debate. It passed 21 to 17 on a recorded vote Last year Legislation was passed clarifying poaching property with No Hunting or No Trespassing Signs. This, when implemented will make it an offence to enter the farmyard without permission before any hunting can be done on farms whether posted or not

Interior Sewer Not Finished

The Elk Point Welfare Association wish to report that work has now been completed on the Sewer and Grade Hut. The interior of the building has been insulated and shelved

We would like to express our appreciation to all those who gave their time and efforts to the project, namely the carpenters, electricians and the ladies who supplied them with lunch. Special thanks go to Mr Hobden who gave a great deal of his time at this work

Another vote of sincere thanks is expressed to Tim Cumsford and Company Ltd., Lindbergh, who donated $30.00 in order to sponsor a Boy Scout from either Bodkond or Rosalyn to attend the World Boy Scout Jamboree to be held in August, 1953 at the Niagara Falls, Ontario.

VOTE A. C. POTTS

Will take here I am again at the request of a number of my neighbors and ratepayers I have entered my name as a candidate for councillor

I have had many years of experience in municipality and hope I am worth. A builder all my life, formerly a councillor, resigned before taking up farming, I have the time to do the work well and the know-how. I make no promises but will do my best.

Vote for me as always.

1. I stand for lower taxes.
2. Have work on our side roads.
3. Have a suitable pool program for the entire Division.

A. C. Potts

Local High School Students Hold Successful Amateur Night Friday

Fri Friday, March 4 the Elk Point High School Students Union held its third annual Amateur night in the High School Auditorium. A record crowd filling the auditorium to capacity, watched local talent cut of town talent perform 23 items. The program was divided into four sections, song and instrumental solos, duet or trio numbers, Band numbers and Action songs

In the first section the solo Horn and blues by Dean Bowman captured first with second going to Andrew Shegba for his rendition Lullaby took third

Bibby Pavlyuk and Bibby Demchuk took first in Group 2 with a duet presented in their own inimitable fashion. The selection was Wow in the Joel House Hoe. A dance number the Shavian by Elaine Wazowich and Lou Berube was awarded with third going to Sheila and Chester Czajkowski for the duet May you Never Be Alone Like Me

The first prize in the theme section went to the Jones-ens Boy's and second to Mike Mudryk and his Melody Men.

The audience now a top dance routine Baggy Britches by Lalina and Lucille Stopa, Janette and Rosemarie Zasitsky, and Diane and Gale Cerahn take first in the last group.

Second went to Merle Keller and Cathy Keppie for their action song, Swinging on a Star The Little Shoemaker, another action song by the Jim Cowan Girls captured third. The audience judged the selection by use of cards which were collected after each section was completed

WEDDING

Brisbane—Grisbee

The Elk Point United Church, February 28, was the setting of a pretty wedding when Miss Dora Adeline Brisbee, daughter of Mr. and Mrs. Fred Brisbee of Bonnyville was united in marriage to Mr. Dalsie Grisbee son of Mrs. M. Shabee of St. Albert, Rev. W. J. Adams officiated.

Given away in marriage by Mr. Fred Brisbee, the bride wore a white net over a white satin gown, organ and pearl design at the bottom, bolero of white lace and Cathet Keppie for their duet with pearl trimming and a pink rose corsage

The bride's mother accompanied the bridegroom dressed in a navy crepe dress adorned with a pink rose corsage

Bridesmaids were the Misses Ann Brisbee, cousin of the bride dressed in a green lace gown over taffeta with bolero, short vest trimmed with lily of the valley she carried a bouquet of pink carnations. Miss Doreen Kjenner wore pink net over taffeta with lace bolero and short vest with short veil. Miss Rose Danyluk, yellow net over taffeta with lace bolero, crown of pearl trim with veil

Attending the groom were Andy Berryzak, Peter Sereda, John Lazowne Ushers, Dave Stotsko, and John Mervyn Jones.

Mrs F. G. Miller accompanied at the organ while Mrs O. Roach sang "Ave Maria" and "Wedding Prayer"

Wedding receptions were held at Frog Lake Hall on the 26th and King George Hall on the 28 and dances at the home of both parents of the couple. They will take up residence in Elk Point.

Out-of-town guests for the Mrs Hecja of Vancouver, Mrs Bootel, Edmonton, Mr and Mrs Kennett, Mrs Lucy and Mrs Vroham, Howdl, Mr and Mrs Stotsko, Radway, Mrs Lucy and Stotsko Regina, Mrs. Ann Cobell, Edmonton.

Keep Up With Two Brothers

John and Mike Perenco, not to be outdone by brothers Joe and Bill who shot a lynx last Tuesday, repeated on Thursday by tagging themselves a beautiful lynx, reportedly harvested north of the first cut that.

John, driver of a school bus operating in this district, was on the right-of-way, 5 miles North-West of Bonnyville on the road gravel locality somebody saw what they thought was a lynx crossing the road. After completing his route he returned home to pick up a 22 rifle and headed for Mike.

They found the animal still on the road, a sitting duck target. At a 100 feet it took three bullets to quieten him. The wounded animal died valiantly, trying desperately to get away inspite of its fatal wounds. It only collapsed after a close shot took the life out of it.

In each instance the hunters reported that Lynx usually try to attempt to run away or use claws.

Local News

An FUA Dance is to be held in the Spotted Pony Mail March 20. Dr Wesgerich returned recently from a week in Edmonton where she brushed up on her anesthesia technique.

Home over the week-end was Ann McDonall accompanied by Norma Kipp who is attending Secretary's art in Edmonton.

Since the first of March the hours of telephone service have been increased to 16 per day The telephone office is now open from 8 a.m. till 12 p.m. on weekdays and from 10 a.m. till 12 noon on Sunday. Effective as to Sunday 24 hour service and anyone wishing to install a phone please contact Mr. D. Tymm at the Dominion-Toronto Bank.

Rose Prusak who will complete her course at McTavish Business College, Edmonton this month is home for the weekend.

Ruth McGinnis has left for Calgary where she will take a ten month nursing course.

Miss Saunders has joined the office staff of the hospital Assistant Mrs. Edwards and Mr Secretary with the book work Miss Saunders hails from New Norway.

Mrs. Adam, who has so kindly helped at the hospital for the last couple of months, is leaving in the middle of March for an extended visit to her home in Scotland.

We are pleased to see Mr Sedan enjoying the amateur site and a recent show We've missed him at the curling rink but learned he kept the phone hot when Eddy was playing the finals of the Men's Bonspiel

Mr. Wilford Van Etter is back in town after several months spent with his son in California

Plays Host To St. Paul High

Last Wednesday, two teams from the St Paul High School were entertained by Elk Point High School players in two games between the boys James Krywark's rink of Morris Aarbo, Milton Lawrenson and Mac Fenton edged St Paul's Bill Diggins, Henry Reiland, Bill Zink and Bernard Dupuis 10-6

The Elk Point girls' rink, Evelyn Soldan, Marvis Visentine, Anne Pelensky, and Marie McDonnell walked away from Valerie Castle, Sonia Romanenko, Joan Olenik and Claudette Desmarais by a 8-1 victory

Lunch was later served at the highschool. A return game is to be played soon.

United Church W.A. Plans Irish Supper

The Elk Point United Church W.A. held their regular monthly meeting on Wednesday, March 4 at the home of Mrs Hobden with Mrs. Flanders as co-hostess An Irish Stew Supper was planned for March 16th to be held at the Scout and Guide Hut, commencing at 5 p.m.

How do you choose a Bank?

Probably because you find it convenient and like the people there. Both The Bank of Toronto and The Dominion Bank grew in Canada through many years of close, personal service to their customers in all walks of the nation's life.

That familiar, friendly service will continue to be a dominant feature of The Toronto-Dominion Bank. The experience of the men and women who contributed so much to the progress of the individual institutions is now combined to serve you better.

You'll like the Toronto-Dominion people—and you'll like the convenience of our 459 branches across Canada.

A dinner serum, that has given at least temporary relief to several persons, will be described to the Toronto Academy of Medicine on Thursday by Dr. Gordon Murray, Director of the Crown Memorial Research Institute in Toronto. The cancer treatment, Dr. Murray says, is "definitely not a panacea," which signifies that it is not necessarily a cure but a treatment that can give relief. The serum, obtained from horses, may be one of the most significant developments in cancer treatment in the past decade.

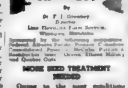
Fashions

The princess line is ruling the spring scene, and a thing it does it seems to resolutely fashion Good country sight for,like eye contrasting, is prepared to give almost any figure the right foundations for any line This coat is cut on the princess plan and has an away-from-the-neck collar that is wide-cut and without the pressed silk stuff. A low piece shawl-collar line and seaming on it.

Pockets embrace the easy-to-do skirt. Flapped pockets are placed slant-wise.

SEEDTIME and HARVEST

By Dr. F. J. Greenway
and
Lane Demonstration Farm Service,
Winnipeg, Manitoba



MORE SEED TREATMENT NEEDED

Owing to the poor conditions under which grain was threshed, harvested in 1954, nowthe the seeding season farmers will use the spring which is to be used next, should treat their seed with fungicides greatly from seed to crop.

Important Benefits — There are four good reasons why it will pay to treat grain this year if it is to be used for seed:—

1. To control smut and other seed-borne fungus diseases that may develop (2) To protect the seed against seedling blight and other organisms present in the soil (3) To ensure better and more uniform stand (4) To improve yield and quality.

Recommendations — The seed treater when all wheat and barley is treated with a good approved seed treatment chemical. Unless your wheat seed is exceptionally clean, dry, healthy and free of noxious horse seed — treat all flowers — for best results wheat seed lots that seed should be treated at least 24 hours in advance of seeding. If is not necessary to treat oats, although it is good practice that all seed of oats, barley, and flax sown in Western Canada in 1955 be treated with a suitable fungicide. Treat all your oats and barley seed this year, but be sure and treat all of land one year before sowing.

The most effective seed-treatment chemicals for cereals are those which organic mercury compounds. Upon C, Ceresan M, Leytosan, Leytosan Puturgen, and many others) Either the liquid or dry-powder should first be thoroughly cleaned and then treated according to the directions of the manufacturer Make sure the chemical and seed are thoroughly mixed to ensure uniform coverage of all kernels. Don't overdose the seed Chemicals containing mercury are poisonous and should be handled with care. Seed treated with these chemicals should not, of course, be sold for consumption purposes or fed to livestock.

Seed treatment is a sound investment in low-cost crop insurance that only demand and treated seed is used.

Simple Rules To Prevent Tooth Decay

By Dr. L. G. MANDIN, ST. PAUL

Of all living things, plants, animals and human beings only man tries to alter the order of nature—with results that are sometimes disastrous

Nature endowed man with a sound body having a variety of chemical conditions a body equipped with mechanism required to maintain health and disease

Nature also provides man with a bountiful supply of wholesome natural food That natural food contains all necessary substances for building strong, healthy bones and sound teeth As well as all necessities of the body so that the whole body may be well prepared for the struggles for existence

Automatic automotive except and use the food in the form in which it is found, as containing in the plant of nature.

Man, in his superior knowledge or conceit or what you will, but in the scientific preparation of natural foods, has changed them, robbed them of their vitality, distorted them, put a departure from nature's plan.

Which drab for instance — can take only the place of nature's heart material favored for man-kind. It also provides other substances that are necessary for our health. The shell of the grain contains the vitamin material in the seed's first one. Previously that was discarded with the chaff and dust refuse.

Now knowing this violation there is certain acts against health this and other things, we humans use. The effect is with which of the loaf is thought we have learned how to take the grain and turn it into flour leaving as refuse as nature is in putting it together again with the vitamin in the bran.

How much better it would be if we had a managed factory to salvage by saving that in the natural form a balanced product.

Specifically, such manner of food that is, and others as are forthcoming, will provide the development of dental disease and decay

In subsequent articles in this series, food habits and dental decay will be discussed more fully They will serve

CNR Financial Statement Has Revenue Increase

The monthly income and expense statement of the Canadian National Railways for January released here today, shows a slight improvement in operating revenues compared with the corresponding period of last year.

Operating revenues in January this year totalled $47,240,000, compared with $46,537,000 in 1954. Operating expenses were reduced by $2,646,000 resulting in a net improvement of $3,349,000 over last year. These figures are the operating revenues and expenses only, and do not include taxes, equipment rentals and fixed charges.

In regards to our telephone system, efforts will be made to obtain a dial system for St. Paul and district to improve Rural Telephone system. Long distance lines are very much required and it is considered if we could get some.

Talks are to be held in Lac La Biche and Cold Lake on Friday's until Monday. It is suggested that we should have the reeve which at times is most accurately apprised at all times, and should a call this office can be provided for the delegate.

Advertising: Mr. Forster

Mr. Forster is working on a plan to have a reporter advise Lamerton people what is going on in St. Paul. He's keen to get more local stuff as he has been in touch with all members of his committee who have accepted ideas on the matter. Mr. Ted Parello is not expected for this meeting next week.

Agricultural Committee Minutie

Mr. Bissnette reported that he had contacted all the members of his group and that they all had many interesting and constructive suggestions. One mentioned the revised amount of fill for the land and also some discussion was declared that they would look into three breeds and Mr. Chapman would take the Chairmanship of this branch.

Mr. Jacobson of the Dairy brought up the question of quality of cream, stating that farmers have a lot to learn in handling cream so that their losses would be brought to a minimum. He is going to write a pamphlet on how to have a cream more profitably Mr Castle discussed handling of eggs particularly and this will be gone into at later date.

In the matter of bugs, Mr Lambert says that there are so many pamphlets, now issued that there was too much to be read. In handling cream so that their losses would be brought to a minimum. He is going to write a pamphlet on how to have a cream more profitably Mr Castle discussed handling of eggs particularly and this will be gone into at later date.

In the matter of bugs, Mr Lambert says that there are so many pamphlets, now issued that there was too much to be read.

One of the most urgent matters brought up was the need for a seed cleaning plant. Many farmers in the district were contacted and only 10 agreed they are needed.

Mr. A Lamothe gave a talk on this project on March 2nd. It is estimated a new plant would cost about $45,000. Should the project go ahead, shares would be sold at $5 each. Need of seed grain had to be brought in and they will see Mr. Bennett to see if the government would give the per bushel refund.

Convention Mr. M Blackmore

Mr. Mathieu called a meeting and at that time could not decide on what subjects to talk about.

We decided to delay definite action till we can somewhere and have harmony.

Some of the matters discussed were the need for breeding of new premises; closing hours prevention.

Donations to another new spot and it was suggested that all appeals should have the OK of the Chamber. If in doubt, any members should turn it down.

We should try to help the older business' first and then try to encourage only those that would benefit the town and district that the town needs.

Building Mr. Bellveau

Mr. Bellveau has contacted some town owners on improving this, and wants to contact prospective home owners to see if they cannot improve their homes and also to study newest methods and plan them so to interested parties.

It was also suggested that the town have go-kaner on these improvements. There are four on this committee who have a program to present to the Town Council.

Where in the committee set to study business premises to see what improvement could be made there. This latter proposition will also be brought to the attention of the council which could pass a by-law on the suggestion.

Experts From Committees Of Senior Chamber Of Commerce

At its first 1955 executive meeting the St. Paul Chamber of Commerce board experts from all its committees chairman outlining a program for the year. We publish here below as taken from the records by secretary

(Communications- Mr Fuller

To ascertain what plans the Government is in regards to roads, especially Route 28 which affects St. Paul

It was planned to discuss with the C.N.R. to have passenger service of freight and express could be arranged so that every revenue could be secured there.

Mr. Fortier is working on a plan to have a reporter advise Lamerton people what is going on in St. Paul. He's keen to get more local stuff as he has been in touch with all members of his committee who have accepted ideas on the matter. Mr. Ted Parello is not expected for this meeting next week.

ABERDEEN ANGUS OPPORTUNITY SALE

OLD HERMITAGE FARM, Edmonton
Edmonton Exhibition Sales Pavilion
TUESDAY, APRIL 5th., at 1:00 P.M.
Offering Comprises:
Note:

Fully Accredited Herd, Bangs Vaccinated, Blood Tested
Selection Sale of 30 Registered Aberdeen Angus Females
6 1954 yearling heifers; 16-1953 heifers, (3 bred sired by Ellesmere 1514th. No. 119745)
10 1952 Cows, 3 bred to Ellesmere 1514, 2 bred to Bondstreet Jester 1st and 1 bred to G.M. 169th)
12 Cows born from 1941 to 1951. (17 bred to Ellesmere 1514th and 1 bred to Bondstreet 54th)

That is a reduction sale and is not by any means the bottom has been reached. These cattle are not in show condition but will be presented in natural breeding condition. Mature females will all be bred or with calf at heel. Due to the necessity of Old Hermitage farm having to reduce their herd, this is a genuine opportunity to purchase registered Aberdeen Angus females of a dependable type, suitable for the establishment of new herds as well as additions to established herds.

Write for catalogues to Old Hermitage Farm, 10808—Jasper Ave; C. W. Carrigan, Fairview, Alta., or Don Ball and Association, Edmonton.

The sale will be subject to the following terms and conditions:

The Department reserves the right to withdraw any of the lands from the sale at any time or to include other lands.

Lands sold shall be subject to reservations for existing surveyed roads, or roads hereafter surveyed, provided application for such roadway is made by the Provincial authorities prior to the issue of Patent. The issue of lands sold are subject to adjustment in accordance with the revised plans of survey.

Purchasers of timbered lands must take out a permit subject to the usual terms and conditions before any damage to the timber on the land.

Sand or gravel must not be removed from the leased land until a permit has been obtained from the proper authorities and payment made of the required fee and dues.

The Province will only convey the surface rights of the land and will be subject to the usual reservation in favour of the Crown.

The sale shall convey to the purchaser only those improvements upon the land which are the property of the Crown at the date of sale. All such improvements are fixtures and shall remain on the land and be the property of the Crown, and shall not be removed or destroyed until final payment on the land has been made.

If any improvements are stated in this notice to be the property of anyone other than the Crown then the preceding paragraph shall not apply. The improvements may be sold at the sale but no representations are made and no warranty of any kind is given as to ownership or otherwise.

TERMS OF PAYMENT

On cross in cases of forty acres: Payment in full of the purchase price shall be paid at the time of the sale or ten-fifth of the purchase price shall be paid at the time of the sale and the balance of such purchase price shall be paid in 9 equal successive annual instalments, with interest at the rate of four per cent per annum, which interest shall be paid with each instalment on the balance thereof from time to time remaining unpaid. Any instalments not paid when due will be subject to interest at the rate of five per cent per annum.

On area of forty acres or less: Payment in full of the purchase price shall be paid at the time of the sale or one-fourth of the purchase price shall be paid at the time of the sale and the balance of such purchase price shall be paid in 3 equal successive annual instalments, with interest at the rate of four per cent per annum, which interest shall be paid with each instalment on the balance thereof from time to time remaining unpaid. Any instalments not paid when due will be subject to interest at the rate of five per cent per annum.

On the lots in Vanlos, Plan 6936 R.T.: Payment in full of the purchase price shall be paid at the time of the sale.

Upon a parcel of land being sold, the purchaser shall immediately pay the Clerk of Sale the full amount of the purchase price or pay the amount of the first instalment, and in addition make payment in full for the improvements which are listed herein; otherwise the parcel will at once be put up again.

Payment sufficient to cover the requirements of the first instalment, calculated on the upset price, must be made in cash, or by marked cheque on any chartered Bank of Canada, payable at par at the place of sale, or by guaranteed non-negotiable transfer vouchers, certified non-negotiable transfer vouchers or certified cheques.

If the amount bid for a parcel of land exceeds the upset price the difference between the upset price and the amount bid may be paid in cash or personal cheque

Further particulars covering the terms and conditions of the sale may be obtained by communicating with the Director of Lands, Department of Lands and Forests, Edmonton.

Prospective bidders should satisfy themselves as to the quality etc. pertaining to the lands.

By Order,
V. A. Wood,
Director of Lands

Department of Lands and Forests,
EDMONTON, Alberta.

RED CROSS CAMPAIGN GETS LIFT FROM STRONGMAN HOPEFUL

Doug Hepburn, the world's weight-lifting champion, in the centre of attractions for a group of Red Cross girls in Toronto. Doug, the strong man from Vancouver, will display his muscle power by lifting all eleven girls at once above his head on a platform, as part of the present Red Cross fund-raising week activities. He was the world weight-lifting championship in Stockholm in 1953 and figures he can do it again, particularly as there are new Russians in the contest

PROVINCIAL AFFAIRS AND CONSTITUENCY AFFAIRS

By RAY REIERSON, M.L.A.

The Pr vate Members resolution introduced by Calgarians in the purchase of the Chesterme Jail site and requesting a Judicial Inquiry went down to a 9 to 8 defeat after several hours of additional debate Premier Manning spoke during Tuesday's sitting. He explained that land brings a higher price for industrial or institutional uses than for agriculture and as such the Government had not paid an excessive amount for the land but unfortunately the option holder had secured this difference rather than the title holder He asserted the house that the change to the Spy Hill site was made mainly because the objections of the Chesterme residents but also on Brabant part had done much damage than complete clearance by a court had possibly made He proved conclusively in his address that the price paid for the Spy Hill Ranson was in line with going prices in the area.

Mr. Maynard announced that he had filed a libel action against the Edmonton Journal for the Editorial referring to him in their edition of the previous Saturday, and that the evidence presented at the action would be of the same purpose as a Judicial Inquiry.

Mr. Brachon in closing the debate apologized for his reference to the fact that the middle man was a rare horse owner and it might have got this information from "the horses mouth" some both the premier and Mr. Brachon

purchase price shall be paid at the time of the sale and the balance of such purchase price shall be paid in nine equal successive annual instalments, with interest at the rate of four per cent per annum, which interest shall be paid with each instalment on the balance thereof from time to time remaining unpaid Any instalments not paid when due will be subject to interest at the rate of five per cent per annum.

PRESSURE ON CNR NEEDED

What the St. Paul Chamber of Commerce really achieved with its strong protest to Canadian National Railways against the proposed curtailment and change of services from Ashmont to Heinsburg is hard to assess at the moment. One point we are certain of is that the protest did no harm and is the only means by which we can get recognition.

It is unfortunate that officials of this railway did not consult the business men of this town and give some kind of warning before all their plans for the change had been made and organized. It makes it that much harder to convince them now that they should not go ahead with the infamous proposal which is bound to spell their doom as a transportation system in this district.

Last week's story in this newspaper and the brief presented by the Chamber of Commerce reviewed the situation very well and brought out all points of the controversy. We will not comment more on them but would urge every business man, and all private citizens to enter protests either through their Member of Parliament at Ottawa whose government is directly responsible for the administration of the railroad or direct to CNR officials at Edmonton and our local scene of operations.

Canadian National Railways must be made conscious of its importance of maintaining good transport service for both the passenger and the grain that only they which will increase as the industrial growth of this districts continues.

NEEDS WATCHING

The Federal Government, says The Financial Post, may be asked to take on a job for the western grain growers that will make its current attempt to solve its marketing problems look like small potatoes. The new job is a national crop insurance scheme whereby the farmer would be reimbursed for the crops that did not materialize.

Anyone with even a slight knowledge of growing things knows something of the heartbreak and discouragement which faces the farmer when nature turns against him. A whole year's work and planning may be lost in a few days of searing heat or in a matter of hours, when frost or rust may strike. If some sound and sensible way can be devised for minimizing the individual risk and loss it would be a national blessing.

The problem however, is big and enormously complicated. Administration difficulties would be terrific. We would need an army of inspectors and perhaps a squad of lawyers to settle each individual case. Crop insurance would be something entirely different from any other kinds of protection that we are familiar with today.

Above all in this matter one point should be clear and from the beginning. If we are to have any sort of crop insurance, it must stand on its own feet. The good crops, not the general taxpayers, must carry the poor ones. Anything else would be grossly unfair, and wildly unsound.

HEATED GRAIN

With the coming of spring thaws and rain there is a danger that farm stored grain may become wet through leaky roofs or badly sealed doors or heated spots. A. F. Doherty, the chief grain inspector of the board of grain commissioners, advises that presence of just a few heated kernels or non-burned kernels will result in lower grade.

Leaking roofs or water seeping through walls and floors will cause a core of grain at four or five inches to become heated or otherwise out of condition. By use of modern sugar loaders these cores may be broken and the spoiled grain will become mixed with good grains. In many instances even though farmers notice these spots of heated grain they may think that a mixture of such a small quantity would not affect the grade of the grain. The board of grain commissioners wishes to call this matter to the attention of all farmers so that they may have an opportunity to examine their stored grain and prevent degrading by carefully separating out any pockets of spoiling grain.

SAGE ADVICE

A grandfather heard his two little grandsons, 6 and 4 years old, in close conversation. The older advising the younger, who was about to start school.

"The thing is don't ever learn to spell," he said, "they'll try you first on an easy word. Once you learn to spell 'cat' you're trapped. After that the words get longer and harder."

MALLAIG BULLETIN

C. B. BILLELVILLE, LOCAL REPRESENTATIVE

To Electors of Div. 7 Mun. District No. 86

Electors of Division 7
M.D. of St. Paul No. 86
Ladies and Gentlemen:

Saturday, March 19th, is election day in the M.D. of St. Paul. I have been nominated as a candidate for Division No. 7, and at this time would like to ask for your support.

If I am elected to serve on this northern district of the M.D. I will justify the confidence you have shown me and endeavour to the best of my ability to look after the many pressing needs of this fast growing area.

Foremost on my program would be a policy to keep our annual Municipal road building commitments and to keep our roads in good condition. Many of our roads require much attention at present. Many have been neglected for years and a few thousand dollars spent on each of them would go a long way to improve the condition of same.

Municipal councils are the only level of government which has a policy of keeping expenditures in line with revenue. I will be guided by this principle if elected. I will also endeavour to keep in touch with the ratepayers.

Should you have any problems concerning the municipality, please feel free to contact me. I will be glad to discuss them with you.

Municipal Council

Yours truly,
A. S. KHEVENKY

Smart Game Played Friday

Mallaig hockey fans and visitors were treated to one of their first and best doubles of hockey knowhow, Friday evening when Paul Dion and George Valliere, dominet Mallaig Roughriders unleashed with the Roughriders in an exhibition game against the Grimsby aggregation.

The game came and speed of Dion coupled with Valliere's accurate defensive and offensive situations in the Grimsby net, found hard to break through. It was a distinct treat to see Dion stickhandle through the opposition, at times we wondered if he did not have a secret glue formula so his stick the puck seemed to stay right on the blade through all manner of opposition checking.

The final score was a highly favorable 7 to 1 favor of the Roughriders with the Grimsby boys never getting any real scoring threat after the first period.

Grimsby back in uniform and as flashy as ever on defence Ross McLean, Ward and Gregg were very effective and a constant threat to the Roughriders.

The entire game was a real treat. It was a pleasure to witness this type of hockey, we hope to be able to see Paul Manville and Steve Gauthier with the Rangers and handled the game in a very creditable manner.

Sunday evening the Roughriders defeated Bonnyville in a game played in Bonnyville by a score of 5 to 3. Falkenan missed the net for a goals, Anne Malo and Mac Gauthier each tallied a goal.

I WONDER

BY C. B. B.

The views and opinions expressed in this column are those of the writer and not necessarily those of the St. Paul Journal.

Is it not time we took a little "look" at our neighbouring province to the west, and see what progress Mr Bennett is making in his administration.

It seems his tenure of office as Premier is going to be an adventurous one. The Arrow Lake deal in itself must cause him considerable worry, this matter we understand will appear in the Courts before long, but alas, trials and tribulations never cause him to sit usually in benches. It would appear Mr. Bennet Gundersen, his financial adviser and general factotum, in the B.C. Social Credit government, has made a new revelation, that his I.M.C. Gundersen appointment as a Director of the Bank of Commerce (which is reputed to conduct the B.C. government's banking business) was quick, proper business. Social Credit had the quarrel with the private banking system.

Tut-tut Mr Gundersen, isn't that a slap at the league or pertaps more? In any event it must be embarrassing to Premier Bennett Could it be possible that Mr Gundersen does not know, Social Credit platform and policy enunciated by Major Douglas in British Columbia and Alberta, has been continually a fight against the banking system.

There could be some excuse for Mr Gundersen, even though he was B.C.'s provincial treasurer and then later rejected at the polls by the voters, he was a former Liberal and probably does not know Major Douglas himself, watched the Aberhart Government at the beginning, that the Bank of Canada on behalf of the International Bankers would try to throttle the great experiment (Social Credit). The efficient literature of the Social Credit party provided that the banks must no longer have the power to expand credit as in the past. Attorney-General Maynard went a bit further, he said that the banks had exercised this function "criminal constitutional authority" contrary to the intentions of the Fathers of Confederation.

Unfortunately a few over-enthusiastic Social Credit experts, imported from Great Britain, England, let a bit too far by hinting a pamphlet urging the public to "exterminate the Bankers' Dragon" even went as far as citing them by name For that vehement little essay, two gentlemen responsible for it's composition were found guilty of Criminal libel. As a result several plans were set up by the Social Credit government, in an attempt to have its own banking and credit system. They all failed until an odd piece of legislation was passed in 1946, called "An Act Respecting the Rights of Alberta citizens."

This act proposed a money system outside of Alberta in competition with the money of the Bank of Canada. What ever may be said about this project — and it was illegal — it was an outright attack on the banking system.

Now Mr. Gundersen says that Social Credit has its quarrel with private banking system. Just how gullible does he believe the people of B.C. to be. The right wing of a government employee — such Mr Gundersen happens to be, through his various positions — as well as sitting on the directorate of the Social government's bank in B.C. is contrary to the people of B.C. to allege, and, it is a very curious situation and dubious arrangement for him to act as Prov's treasurer and a banker — it does be a embarrassing and confusing fact for British Columbians.

To the old-time Social Creditites who may yet regard Gundersen as one of their number in the same category as the pamphleteer until conscience smote as shaken, sought, should they stand resignation, treasurership and premiership taught them their position is untenable as would any gentleman and honourable man. He questioned had brought down the premier a week or two ago, straight advice Lieut governor Bowen, adjourned to his room to consult a private banker. Would that be some of Mr. Gundersen's relations closely connected with the Canadian Bankers on Ottawa. I wonder!

Photo Press Ottawa

Poor skiing conditions failed to thwart Ottawa's Art Tommy, who zoomed to victory in the slalom and downhill events to win the **Imperial Quebec-Kindersley** combined trophy at Mont Tremblant. His performance virtually assured him a berth on Canada's 1956 Olympic ski team.

To Electors of Div. 6

To the electors,
Municipal Division No. 6
On Saturday, March 19th you shall decide who will represent you on the St. Paul School Council. I have made personal contact with as many of the voters as possible. Any that I may have missed was not intentional. I would like your whole-hearted support.

Should I be elected as your councillor, I shall do my utmost to fulfill my duties to the best of my knowledge and ability.

The trust and confidence you place in me, by giving me your support, shall be held in the highest respect and appreciation.

Leslie W. Hinch,
Candidate Division No. 6

KIDDIES CORNER

A TRIP TO CHINA

Shanghai is the largest city in China. It is also the largest seaport in the country.

In China people travel by bus, street cars and jinrickshaws which chinese boys or men pull. These people who pull the jinrickshaws are called coolies.

These men wear cotton pants, cotton blouses and wear straw slippers.

In the streets of China there are many people, not only from China, but from all parts of the world. In Shanghai there is a part of the city that is very old. In the new section it is very modern and many of the new buildings are there.

Some men wear pantaloons and others wear kilts. The women wear trousers and three-quarter length coats. The children wear almost the same clothing as their parents.

The chinese carry heavy loads balancing two poles on their shoulders with loaded baskets at each end. The wheelbarrow is not the same as ours. There is a wheel also, inside on top and a shaft on each side. This is used extensively in this country.

In China most ares four and five inches and are fatter.

The chinese farms are about four by five acres in size.

These grow rice wheat, rice, pineapples, vegetables, tea, mulberry trees, barley and rye.

The Chinese transport most of their goods on boat on canals and rivers. One canal is over hundred miles long, one is called the Grand Canal some passages are so poor that they have to stop at night to go north. They live on boats in the water These boats we see alongside.

Anne Fraser,
9 years old, Grade 4.

The Chinese ride with buses, street cars and jinrickshaws. The chinese alone are several thousand years old. The men wear drive the jinrickshaw has padded cloth saves. The men who drive are fortunate is a poor man.

The manner of clothes who live on farms are four out of five. The farms are only four to five acres in size.

The men grow wheat, mulberry trees, pineapples, barley, rice, vegetables. On each the wheat is two of three inches tall they plants crops between the rows. They have very few roads so they travel on the canals and rivers.

The chinese sometimes are in poor because they have no sales. We will progress.

The students finish their little education now to finish. They go them to the sea. From they where seem was at last very long because the little ones are sent to their other themselves.

Richard Hartshaw,
Age 6, Grade 2

St. Paul Players Hold School

A highly successful Hockey School was held in Mallaig on Friday and Saturday of last week, under the instructions of Paul Dion, George Valliere and Reno Gauthier, outstanding players of the St Paul Hornets aggregation.

Approximately 100 student players from Mallaig, Glendon and St. Vincent attended the two do periods Many valuable points were gained by the students on skating, body-checking passing and position.

The Mallaig Roughriders and supporters are very grateful to the instructors for their generosity in doing this work as well as their efforts expended in teaching the latest hockey technique to our local boys. Most of the students players benefited tremendously from the brief period of training, the results were prominently noted on Sunday's evening's game.

The instructors found there was considerable good hockey material among the students and therefore applications of efforts and endeavours to the line may very reasonably bring a much higher standard of local hockey.

Our sincere thanks are extended to Paul, George and Reno, we hope to again have the pleasure of their competence and absolute abilities at some future date.

Mallaig News

The Another selection this week has not been quite as affable as we would wish for A bit thawing at times with the thermometer hovering around zero Nevertheless we are only a week away from the first official day of spring (21st)

Hay production cost has been Five carloads were shipped out last Tuesday This all helps to keep our economy from toppling over.

A change in train service is expected to go into effect on April 24th. This change is not expected to affect our present service on this line There may be some slight change in arrival and departure of freight or passenger trains but no regular service is anticipated.

Don't forget (Editor) the Chop Suey supper Thursday evening Sorry, but I'm not sure what time it starts. Let's all go and find out.

Beloet St. Paul By 6-2 Count

Mallaig Roughriders played a terrific rough-and-tumble game on Thursday evening. They returned victorious by a score of 6-2 They are now top contenders for the North Star Hockey Trophy. This fine trophy was kindly donated to the North Star League by Messrs P Poirier and H Maseau.

These two gentlemen are to be commended for their generously and sportsmanlikeness They type of interest in the here in the back-ground. Let our Mallaig color game.

The semi-finals of the league should commence this week with a games between Bonnyville and St. Paul. The winner of two out of the three games will then play a series of 5 games against the Roughriders. The winner of 3 games out of the 5 shall be presented with the trophy Attached to the base of the trophy will be an engraved plaque showing them as the 1954-55 winners or runners up. The Trophy they shall retain for a year

Hold Suspected Cases Of Rabies For Veterinarian

By MARCEL CHEVRETTE, D.A.

DO NOT KILL THE ANIMAL

If it is killed early in the disease, the Negri bodies in the brain (explained under diagnosis) may be so widely scattered as be so small as to be hard to find on microscopic examination. Thus it is always advisable to keep the suspected animal alive at least long enough to allow full development or symptoms. Put it in a secure pen or tie it up securely, preferably the former. Give it plenty of food and water. Call your veterinarian who is skilled in the diagnosis of rabies and other allied animal diseases. For example, the dog may have distemper, acute indigestion, etc., which would make him act queer. If the dog or other animal has rabies, it will show progressive symptoms and die within a few days, usually in 5 to 8 days. If it is alive and well at the end of 14 days one can be certain that the animal did not have rabies. Then a lot of needless antirabies treatment can be avoided by confining the animal and placing it under the supervision of your veterinarian.

All cases must be reported to the Federal Health of Animals Division as rabies is a reportable disease under the Canadian Contagious Diseases Act. Contact the closest Veterinarian Inspector of this Division or notify your District Veterinarian, Edmund Bonger, RCMP or District Agriculturist and they will report for you.

DIAGNOSIS

Rarely the symptoms. Confine the animal. Call your veterinarian. If it is living at the end of 14 days it didn't have rabies, or if it has been sick for over 14 days before the time of bite, rabies is very unlikely. If it died before that time, it may have died from some other disease unless the symptoms were very diagnostic. The final diagnosis is made at a laboratory.

If it is necessary to kill the animal, do not shoot it through the head, as a whole undamaged brain is essential for a satisfactory laboratory examination.

The pathologist will take very thin sections of certain parts of the brain to look for Negri bodies. If found, the animal had rabies. If not found, a suspension of brain tissue is injected into young mice. If the original animal is infected the mice will usually show symptoms in 7 to 21 days. But in some cases, a much longer period of observation is necessary, even up to several months, before it is safe to say that virus was not present in the specimen.

Vermilion Group Attend K.C. Curling Spiel

Vermilion — Knights of Columbus sponsored an inter - club bonspiel here Representatives ranks from the Meadow, Elk-Kinsmen, Lamont, Innisfree, Bellamont and the Knights completed the rink, entered games and at the conclusion of last day's play it was found that each club had a perfect record of three victories and no defeats.

The winner was one of the Lamont rinks skipped by Dr. Hoffman with Art McLean, Vic Tillett, second, and Stan Mayrish, lead. The final game brought two undefeated rinks together the Bellamont Legion rink and the Gordon Lefrenz skipped Mannix lodge fourtsome. The Lamont boys down three rocks and home scored a 6 and win. To the parkers went a very fine trophy donated by the Knights of Columbus.

The curling was just half the fine program arranged. At 8.30 p.m. curlers, their wives, and friends, others interested gathered at the Holy Name Parish hall where dinner was served by the CWL.

Grand Knight Angus MacMillan, master of ceremonies explained that the idea of the inter-club bonspiel was to promote good fellowship between the various men's organizations in Vermilion. He felt that the curling games and banquet were a definite result of achieving this objective. The cup donated by the K of C was for annual competition and it was fully attended that the event would become an annual affair.

Mr. MacMillan then asked the Dr. Roberts Legion rink to step forward to receive the trophy. Deputy Major George Weale made the actual presentation to third man Neil McLean. In accepting the trophy Neil expressed the gratitude of all taking part and voiced the opinion that such a grand competitive event, combining recreation and sociability, should be all means be continued.

ED. NOTE. The above report might be a suggestion that such a social event would be just the thing for St Paul.

THEPIEN NEWS

Last Tuesday there took place in Thepien when a game between the Old Timers and the Junior Team. It was a good game but a person would have the least thought of rolling it fast and rolling but would rather call it slow and fasty.

The line period was started off with Angus Gillard, Bosun Bissett, Roland Bissett, Blackie Lightning and Cecil Thorne. The Rivalry Brothers, in goal assisted by Charlie (Terry Sawchuk) with Bastien Carl, Ted Kennedy and George Takacs (Little Geordie) who played a well earned game on defence.

After three minutes on the ice the first line came out, tongues hanging and bones crunching, bolstering for the good old bottle of liniment.

But the second period was not to be seen. Doris Fourie Plaquon (Allen Sauve, Ken Bolingbroke and Leo Anchor, (the three not sure (some) He.

With three old fellows on the ice and could witness many exciting things in all kinds there took consist Some were hanging here and there some were either running or riding and even worse, some were trying to figure some out more round and the ice was pretty hard on the backsides.

COOKRIDGE NEWS

We are sorry to report Mrs. [illegible] is confined to the Vilna hospital recently. She is being taken care of with her good health.

Quite a lot of lumber is rolling through the district from the north but the busy driver who starts his run at the new small hours is rather trying on the nerves.

A number of Cookridge residents were in town Monday to meet the Council and clear up the matter of those boundaries.

Saturday is to be cleanup and paintup day for the Credit Union building.

Please note the change in time for the FUA meeting. It is to be held on Saturday, march 19th., at 2 p.m. Everyone please attend

NEW ENGAGEMENT RUMORS FLY

British publications are making prominent mention that the engagement of Peter Townsend, father of his children and RAF hero and Princess Margaret will soon be announced. One publication told of an interview with Townsend, above, which quoted him as saying: "The word cannot come from me." Marriage of the princess to Townsend, who is divorced from his former wife, would in all probability nullify all her successors rights to the throne.

—Central Press Canadian

To Assist In Building Of Seed Plants

To assure clean seed grain for farmers within a Municipality the Department of Agriculture will, on application by a Municipality to the Department of Agriculture, be prepared to assist in the building of Seed Cleaning Plants within a district.

In order for Municipalities to participate in this assist the following requirements are necessary:

1. An Agricultural Service Board must be formed within the District or Districts, and be in operation to the satisfaction of the Department of Agriculture.

2. One or more Municipalities must provide financial assistance equal to the contribution of the Department of Agriculture.

3. Plans of the building and equipment to be installed must be approved by the Minister.

4. Farmers must subscribe share capital equal to or greater than the contribution of the Government of the Municipal District or Districts. If the Association is also paid improvements in addition to those included in the plan, funds so required must be obtained by the sale of additional share capital.

5. Farm shareholders must organize themselves into a Co-operative Association. The Board of Directors of this organization will be responsible for the construction and operation of the plant.

6. Two or more plants may be built in any municipality, provided the quantity of seed to be cleaned annually more than one plant.

7. One or more Municipalities may subscribe to the construction of a plant provided the location of the plant will serve farmers from each area.

8. Agreements between the Department and the Council of the Municipal District, and between the Council and the farmers Association, must be completed before any construction can be made by the Department.

9. The Department of Agriculture may accept or reject any application by the Municipality for assistance in construction of a seed Plant.

10. The amount of financial assistance from the Alberta Department of Agriculture, under the policy, will depend on the type of seed plant or plants required to serve the Municipal District.

Yours very truly,
HARRY TURCHUK,
Candidate for Councillor,
Division No. 6
St. Paul M.D. No. 19

ST. PAUL, Alberta
March 5th, 1955

To the Rate Payers in Division No. 6
Farmers and Retired Farmers:
Ladies and Gentlemen:

You are all very well aware of the forthcoming election for councillor in Division 6 of the Municipal District of St. Paul No. 19, to be held, Saturday, March 19.

My name has been up for election and I am running on the ballot for Division 6. At this time I wish to especially call your attention at the merits of my good reputation and for the following important reasons.

If elected I will watch general business administration in the Municipality, very carefully. I will also see that side roads are maintained to standards which will allow the farmers market outlets without to much difficulty; I will see that the councillors, and other municipal employees do not make their salaries as was the case last year. Personal have been hit by crop failure and low hay and cattle prices and can stand no further increases in expenses. It is my dedicated purpose, above all, to keep taxes at a minimum . . . farmers are paying too high taxes as it is.

Yours very truly,
HARRY TURCHUK,
Candidate for Councillor,
Division No. 6
St. Paul M.D. No. 19

RADIO BROADCAST OVER CFRN

By J.M. DECHENE, M.P. For Athabasca

This is Sunday afternoon and, having attended Church and paid our tribute to the Supreme Master of all, it appears to me that we might be allowed to visit together and have a few moments of conversation, before resuming our usual labour of the week which is beginning. That is why I have accepted the generous offer of Station CFRN to use the facilities of its broadcasting station to call on you, and once more, enjoy the too few minutes at our disposal to briefly discuss some aspects of the public affairs of this country.

Although I have been a member for many years I admit that, at times, I still feel like a stranger down here, and when Spring is near and the sun rises a little higher in the sky, and we hear the crows, advance guards as it were of Spring, my mind reverts back to the Prairies, to Alberta and Athabasca.

Nothing of very great importance has happened in the House since we had our last visit together. According to rules, after the Debate on the Address had ended, most of the time of Parliament is taken up with what we call Private Members' days, and look like private members' business, although every week her particulars of the Opposite Party and groups, are supposed to give you a list of the schemes and ideas in a House of Assembly [illegible] Commons, there are also a few, unfortunately some cranks, but as a rule we take a whole day in the House in order to propound the many questions that there are. This is not said in a spirit of criticism, but some of these questions are very weird and, at times, so contradictory as coming from the same man or the same group as to be astonishing. I will give you instances of this in few moments. After the Debate on the Address is over, the Minister of Finance also tables the Estimates for the forthcoming fiscal year and then comes for the formation of the Committees on Supply and Ways and Means. Whereupon he moves that the House resolves itself in Committee of Supply, the private members have again the opportunity to voice any matter of interest or any grievance which they might believe is of sufficient importance to warrant the attention of Parliament. This opportunity is very often given, in my estimation, far too little and continues to be frequently abused. The intention of Parliament when these rules were adopted was that such grievances would be matters to interest to a large number of people. Unfortunately many members have used this privilege to voice almost any grievance, of interest to very few people, even to themselves only and of local interest. However, two debates have taken place which are of a more than ordinary importance and which I should mention here accordingly. First, on four motions of non-confidence in the Government on its foreign policy. Although the time does not permit to go into details, for many Members day and look for

HAPPY BIRTHDAYS

A Special Photographic Feature Presented By PETER VAITKUNAS STUDIOS St. Paul, Alberta

Pictured on the left side of this panel is a young Miss who has no difficulty pouting and seems quite happy and at ease in front of a luscious cake which is certainly an incentive for a beautiful smile. She is Gloria, 1 year-old daughter of Mr. and Mrs. Orval Tessenhilen, St. Paul. Orval is a photographer working with the above firm. Two, on the right, is a young fellow who is mighty happy these days. Leo has every right to be because he is the son of Mr. and Mrs. John Van Brabant . . . and his "Old-Man" has just been elected Mayor of St. Paul. Johnnie is Ronny, 1-year old son of Mr. and Mrs. Irvin Pederson, Ashmont.

NOTICE

Opinions expressed in an article of this newspaper February 22nd with reference to Municipal administration of the County Lake (amount was not in any way connected with the Smoky Board of Trade and this organization assumes no responsibility) for the publication of the statements in question.

St. Paul Juveniles Entering Playoffs

The St Paul Juveniles are entering the N.S.H.L. playoffs this week. Following a tough game at Bonnyville on Monday which called for a return game on Wednesday (yesterday) because of a tie score 4-4 . . . as made known last St. Paul was to take on Bonnyville and the winners play Mallaig. The victors of the game will meet for championship

The team has suffered a few casualties lately Bernard Belland received a bad injury in a game against Vilna Eddie Hebert took a Mallaig puck on the forehead. He was replaced by Bernard Gagnon Henry Belland followed suit when he was struck on the forehead, recovered at Bonnyville Saturday. All are getting along quite well.

M.D. Elects Full Slate Councillors

'73 Per Cent Turn Out After Blizzard Conditions

Elected — R. Laruson, P. Lesyk, S. Demchuk, A. Lamothe, R. A. Sloan, L. W. Sloan, A. Poirier

High winds and drifting snows Thursday and Friday preceding Saturday's Municipal election, calling for balloting in all of the seven Divisions, cost every available plow and grader on 24-hour shifts to clear the way for one of the Municipalities most important and hotly contested election, fought enthusiastically in every division.

The record showed that 2021 votes were cast out of a possible 3403, for a turnout of 73 per cent of the electorate

The majority in the individual divisions ranged from complete victories to close ones, the outcome of whom hung in balance until the last polls had reported to Returning Officer Rodolphe Lafrance in the Municipal office in the St. Paul M. D. Office

Armand Lamothe, running against three other candidates in Division 4, came in an Overhead majority He let his nearest opponent, Mr Maurice Jean of Lalonde, by 7 votes

In Division No. 3 past councillor Steve Demchuk fought a hard campaign against Mr Laurent Sirovite to top his poll with a small 39 lead.

Biggest upset was recorded in Division 1 where R. D. Sloan received complete confidence of the rate-payers, registering 326 votes to R. Pirowski's 64.

Below are reproduced the results being tabulated by divisions and polls:

Aunt Tillie Goes To Town Before Large Audience

Local Actors Handle Script With Talent

CAST OF "AUNT TILLIE GOES TO TOWN"

From the moment Aunt Tillie (typically old Maid started "Going To Town" in the Parish Hall, there was nothing to pointed house was kept cleaning with laughter until the last curtain had fallen.

The play, sponsored by the Ladies of the Altar Society, was released by centrals with the celebration of St. Patrick's Day showing was held at St Bride's on Thursday evening

The plot of the play centering around the reconstruction of an old maid who, after inheriting gets involved in a nightmarish situation, was saved and supported with loads of pep and artistthoroughly clean and wholesome entertainment.

The part of Aunt Tillie Trask was played by Mrs. Kay Guthrie who did superbly portraying a typical old maid, even to minute details as speech and determined to have her own way She rose for one into the part and made the role her own and was ably supported by her daughter and nationalities. Her deportation and natural magnetism made her a natural actress in the play.

Mervin Tucker (German Joe) is a mild mannered boy who gets himself involved into a mess of trouble which he finds himself in stage stirred in a under hand and a revolver. In women's clothing having him into an impersonation of Aunt Tillie and the role had one of the best roles and probably the most uncomfortable one, went through with it without a slip . . . that is on for on the script is commended.

Keeping Mervin deep and hopelessly hugged down in trouble is Marcel Dansereau who has the part of Ronald Hamilton, a friend who is anything but that. He keeps involving him into one hilarious predicament after another which in any opinion of competence until he himself got involved into trouble of his own. Marcel was bright and breezy in his role, a major one and highly acclaimed.

Mrs. Robert Colbourn, pretty and charming Juliette (Pamela Marsh) gets the run around from her boy friend and a nasty jab in the hurch, at the altar due to all the shenanigans Mrs. Colbourn's grace, refined manner and flawless acting brought the part to one of romance into the play.

She was simply hysterical . . . and had the audience in about that condition. Mrs. Colbourn was one of the outstanding performers in the production and her natural role was a great credit to her fine acting.

A small part was that of Prof Perry (Gaylord Long, Gaylord is seen Cook) but his interpretation of an criminal was long enough to convince us by he was a good actor.

Other actors in the cast were Miss P Gerard as Ellen Needham, Mr. Patrick O'Neil (Lieut. Governor) Zenoski's wealthy employer, Mrs S. Lessard (Mrs. Tilly Tucker); Mrs. O. Ballard (Dr Hattie Bing, chiropractor).

Mr. Dennis ably directed the play with the assistance of Mrs. Homer Bissonnette. Mr. Ted Pawlyk was make-up director.

Entertainment at intermission was provided by a male's Quartet of Messrs. Lourens Bertsch, Jim Lamoureux, Ed. Bertsch, and The Female Trio's first number was "Happy Wanderer" and the encore was a negro spiritual.

Mrs. Hector Bissonnette filled in after the musical bit with a French monologue.

Mrs. T. Pawlyk acted as master of ceremonies, introducing the cast and calling upon Rev. G. Pandit, Parish Priest, who thanked the players and the audience for encouraging the play, proceeds of which are going for re-decoration of the church.

Judge Declares Trustee Seat Open For Election

The case of the controverted Municipal School Election in sub-Division 1 of St. Paul School Division No 43 was heard Tuesday afternoon by District Court Judge Peter Cavadzuk who ruled the election invalid and declared nominations opened for another election.

The Controversy over the issue arose out of a dispute on the eligibility of several voters and the rejection of spoiled ballots.

Both candidates, Mr Wilfrid Dechene and Mr Charles Wiseman polled the same number of votes (289) at the February 29th election. After the Returning Officer had rejected two contentious spoiled ballots, Mr. Dechene was declared elected on a days' Advancing to the by-laws, he could have been declared elected on the fact that he had entered his nomination papers first, but both parties had agreed, at the time, to the lot draw.

Lawyers for both the defense and the prosecution and the judge concurred that all the ballots in question were definitely spoiled and that the election had been held, but on the claim of ineligibility of the two voters in question, whose participation could have affected the final results, and upon agreement of Mr. Dechaine, the election was declared invalid. He said vanished and a new election will be held.

The new election is to be conducted entirely in the manner of a regular annual election. Nominations will again be declared open to the public and any candidate who desires to do so can present himself.

United Church Serves St. Patrick Tea

The annual St. Patrick's Day Tea given by the W. A. of the United Church was held in the Parlors on Monday, March 14

It was convened by Mrs. Weissenhofer. Mrs. Taylor received the guests assisted by W. A. President, Mrs. Hester. Daffodils and shamrocks decorated the tables and Irish sweets were also included.

Those presiding at the tables included Mrs. Elliot, Mrs. G. Mason, Mrs. Guthrie, Mrs. Larsen, Mrs. Mullins and Mrs. Cooper. There was also a table table with a lovely assortment of gifts for sale.

Mrs. Williams and Mrs. Lee kept trothly made tea and coffee which was enjoyed by all who served. In spite of inclement weather there was a very good turn out of friends from all over town who enjoyed a pleasant afternoon.

Tuesmasters' Table Topics

St. Paul Toastmasters' Club has been holding regular weekly meetings with an increase in membership . . . up to the 30 quota. Increased interest encourages members to attend the educative sessions and to participate to their ease in the active ranks

As a result of the members need information to the public we will publish from week to week the names of scheduled speakers and those attending the meeting.

Next Monday at the Donald Cafe, Ted Paradis will be meeting Chairman, Mr Jim Davidson, Toastmaster, table topics for impromptu speeches in which all members speak for two minutes will be chosen by Paul Dosket, gavel, evaluator, Mr. Fred Parsons

Five ... will be given by Jules Van Brabant, evaluated by Lebarbenne, Dr J. A. Meisenbrink, evaluated by Mike Shyah. L. Demers evaluated by L. Dechenenne, Jos O'Driscoll, evaluated by Abel Rady

Be on time to keep the meeting rolling along on schedule

Airforce "Dragons" Knock Off Power

In reply to our request for better power connections with the "Almighty" last week, our good friend Mr. George O'Brien, Canadian Utilities supervisor from Vegreville, called in person to explain that they are in good relations, but cannot be held guilty for the presence of gremlins, the time in the form of the RCAF at Cold Lake who fouled up the lines with one of their target droppers

Mr. O'Brien was very good explanations of the consequences but neither is to say that they were somewhere best ensure trouble which had repercussions throughout the system.

Ashmont News Correspondence

Lucky ticket number from a page served chosen by Gladys Hunter Hall march 11th named Mrs. M. Mackinlay Fourty hour weekly guarantee See shop foreman, Fred Arnold at Conroy Motors Ltd. St. Paul. Ph 59. -7

Dear Hockey Fans

I have had the pleasure of staying in the Town of St. Paul for the past two months. I have also had the pleasure of watching the Hockey Hockey's on.

A business tax on Hockey and a winning team for Ashmont has made a town like ours a real fan. Such a team should be supported.

I have noticed that the hockey fans of St. Paul do not intend in the future, that is to say future additional for the Hockey.

Leaving my stay in St. Paul I also saw the Pee Wee Basketball and Hockey games and also met most of these games at that occasion and I find the managers and the basketball players in real good standing. The number of fans attending their games can be counted on one hand. The soccer fans of St. Paul seem to forget that the younger boys mentioned are the future Hockey.

I am sure that if hockey fans of St. Paul gave more support to these young fellows, it would encourage them to play a better brand of hockey and there should be in time become stars with the Hockey.

In closing, may I thank the people of St. Paul for their generous assistance. I have had with them My stay as a whole was very pleasant and I will be back for a better job and to see the Hockey Cup in St. Paul.

Yours for better hockey

Ernest Ashmont

Government Aid For Building Municipal Grain Cleaning Plants

By MARCEL CHEVRETTE B.A.

Previous to World War 2 the Alberta Department of Agriculture set up a policy whereby the Department would assist organized groups of farmers to purchase a portable seed cleaning unit for use by the group This was done because it was recognized that the farm housing mill could not do an adequate job of cleaning seed grain.

The portable Unit was an improvement on the farm mill, but was not completely satisfactory, mainly due to inefficient operators, and weather conditions during the winter cleaning season

Following World War 2, the Department set up a stationary Seed Cleaning plant, in a vacant army drill Hall at Camrose This plant was equipped with good cleaning machinery, and a trained operator was put in charge. The farmers brought their seed to the plant, and found that the results were much more satisfactory than when depending on the Portable. The work done by the plant was convenient, but the plant was not convenient to operate

FIRST CLEANING PLANT

After one year's operation of this plant the Department of Agriculture and the Municipal District of Camrose realized that both the first of the present Municipal Seed Cleaning Plants. The plant went into operation early in 1948, and has been very successful.

During the summer and fall of 1948, three more plants were built under the Government's three-way policy, under this policy, the farmers in the district to be served by the plant, organized a Co-operative Seed Cleaning Plant Association, under the Co-operative Associations Act, and sell shares to a minimum of one-third the estimate cost of the plant. The Municipal Council gives a grant of approximately one-third of the cost, and the Department of Agriculture gives a grant equal to that of the Municipal District to a maximum figure based on the estimated cost at the time of construction.

BUILDING COSTS

During the 1949 construction season we built two plants of the over-all bin capacity of 17,000 - 20,000 bushels. Cost-to-date of this was made up of working bins, and the balance storage bins Cost of these plants averaged about $38,000 completely equipped.

Simple Rules To Prevent Tooth Decay

By Dr. L. C. MANSEN, ST. PAUL

Every tooth in the head first started from four or five tiny buds—quite separate from one another.

Gradually they grow together, so that they become joined in one mass in a fully formed tooth crown, before breaking through the gums.

If we look closely at the surface of a back tooth, we see that it is not flat. It has four or five high rounded points called cusps In between the cusps are the crevices or valleys, which mark the places where the buds joined together to form the tooth crown They are also the spots where decay sets in if the buds that formed your teeth grew together perfectly Most of us weren't that lucky

When the buds do not join perfectly, the crevices between the cusps have tiny cracks, so small at first that they couldn't be seen with a powerful magnifying glass, but large enough to let in the bacterium that cause dental decay.

The bottoms of these crevices that the buddists grew where each tooth one another are the spots where decay is likely to [illegible]

If these places are not kept clean, daily, gooey deposits of sweet and starchy foods will collect there. These deposits will help bring about the formation of acids that will eat the enamel to bits. Then enamel will rot [illegible] and a tiny cavity or depression will grow. It gives one easily before then acids.

Once inside the enamel, the germs that make acids and cause decay work faster and easier in the softer corner of the tooth. Where growing conditions are ideal for them. The enamel is undermined and decay undermines it at last. Usually, the unsuspecting victim is treated lovely.

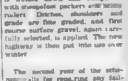
In the next article we shall tell about the tiny germs that cause decay and how they work in the mouth and teeth.

HIGHWAY CONSTRUCTION IN ALBERTA

Alberta's first four-lane super highway is now under construction and lies between Cromfield and Dawden, this 20 mile stretch will consist of four 12-foot lanes, two asphalt-mound shoulders and a 30-foot centre strip dividing the eastbound and westbound. The new highway will rank with the finest ever built in Canada

All main highways in Alberta are being built on a four-year schedule. The first year sees acquisition of location, purchase of right-of-way, design and the building of the sub-grade Drainage is of major importance and this is given close attention when road construction is planned.

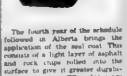
Highways must be built from the bottom up. Shallow clays going into the sub-grade must be carefully selected. Samples are sent to run in the field laboratory to check how stability of the base materials



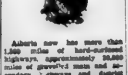
As it takes shape, the sub-grade is wetted down and compacted with huge rollers. Sheep's foot rollers, Pneumatic rollers, Smoothers and grader are fine graded, and then a coarse surface gravel, square carefully selected, is applied. The new highway is then put into use over winter

The second year of the schedule is for resurfacing any base materials that have been caused by frost action or traffic. After the base has been completed and screened gravel is spread to a depth of five inches minimum. Five layers of crushed gravel, mixed with water, is compacted, and the latter consisting of 6-inch thickness of the plant mix. The total thickness of the finished course is nine inches or more

At the beginning of the third year any base failures are corrected and a coat of asphalt is applied After a month the plant mix of asphalt and sand. A ribbon of the mix three to four inches in thickness, is laid to be smooth as a table, is rolled into place at the rate of one to two miles per day A few hours after the new surface has been laid, it is ready for traffic



The fourth year of the schedule followed is the application of the final application of the seal coat This consists of a light layer of asphalt and rock chips, which seals the surface to give it greater durability and resistance When lines are marked and additional guide posts and markers erected, the new highway is completed.



Alberta now has more than 1,500 miles of hard-surfaced highways, approximately 20,000 miles of graveled main and secondary highways and dusted roads and more than 30,000 miles of graded roads which are still to be graveled. Engineering skill and knowledge behind the construction and maintenance of this vast system are the most expert obtainable, and modern methods are built into every mile of road. And search for better methods never ends.

PROVINCIAL AND CONSTITUENCY AFFAIRS

By RAY ROBINSON, M.L.A.

The stormy week just ended in the Legislature has left many things in regard, of a variety not often available.

The debate on the Budget Resolution, two months provincial, ended Friday afternoon for the second time during the week. At a night session Tuesday evening a motion of non-confidence by A. J. MacDonald, Liberal of Calgary, was declared out of order by the Speaker and when no one rose to continue the debate the usual procedural question was put "that the Speaker do now leave the chair and that the house resolve itself into the Committee of Supply to consider matters of Supply to Her Majesty." The motion passed by voice vote Mr. E. Boyer, leader of the C.C.F. requested on Wednesday that consideration be given to re-opening the debate since the turnout of the previous evening had caught many interested in speaking, by surprise. Premier Manning agreed that circumstances had been most unfortunate and requested a unanimous vote to permit re-opening of the debate which was granted to the loss in argument but accomodation had proved it to be unsatisfactory. They had accepted the bid of $64,000, other bids ranged from $59,00 to $61,000. The liberal member had questioned the reason for a $25,000 appropriation on the estimates for the coming fiscal year for this building, since it had been sold. The reply to this was that the Government had reserved the right to rent the building for the maximum period of 1 year from date of sale at a reasonable established rate of $800 per mo. ($1 per sq. ft.) This rental included all utilities and caretaker services. The rental is payable monthly and cancellable on 30 days notice. The building was to be moved by the new High-way Building organized to be ready for occupancy in 2 months time. The balance of the appropriation would then be returned to the general revenue account.

The alleged profit made on the Alberta Hiser's sale also came to be exaggerated 1 individual had purchased it for $175,000 and later purchased it for $200,000 and before the ink was dry on the contract, the same amount the transaction was registered at a value of $225,-000 Considerable money was spent in cleaning the building of occupants by buying unexpired leases, real estate agents commissions, financing and re-roofing the building for investment by a Hotel. The plan of conversion was abandoned when one of the owners, also a Cal. Hotel owner, found that he did not have sufficient funds to carry out necessary improvements to his Calgary Hotel and complete plans in Edmonton. They endeavored to sell for $350,000 but later accepted $300,000 for the building from the Government.

The Village of Bawlf again had been held by a lessee with the option to purchase for over 2 yrs. The lessee negotiated a deed for lot on the land and had gone to considerable expense in levelling, gravelling and lighting, as well as the erection of a small building. The land was considered by the Village Council and Village Council Board to be exclusively reserved for a Liquor Store by negotiated terms. A Calgary Real Estate firm who contacted the lessee option holder and learnt that the asking price was $34,000. This was considered by high Negotiators went on how, ever, until witnesses were present at $40,000. The sale on bidder and $38,750 plus selling expenses. For the property. Mr. Bawlf is now building, remodelling trainers, and contractors per ... ...

Duchesne Comments On Rail Curtailment

After the announcement by CNR officials on the proposed railway changes allowing the service between Edmonton and Saskatoon, we as a private business man in the interest of the public, took the matter up with Mr. J. M. Duchesne, Member of Parliament for the Constituency of Athabasca . . . our views and representations on the Diesel unit. We strongly urged him to contact, directly, the head executives of the railway and do all things within his power reasonable to change their minds.

We publish below text of correspondence received by Mr. Duchesne and copy of letter he wrote to transport officials.

* * *

Ottawa, March 18th, 1955

Mr L. H. Brechin,
Publisher,
St Paul Journal,
St Paul, Alta.

My Dear Mr. Brechin

Your letter of the 14th instant reached me a day or two after the important matter treated therein had already been brought to my attention. You will note by the enclosed copy of the letter I have on this subject that I immediately took the matter up with Headquarters here, and I am sure that you will also note that I used very strong and, I hope, clear language in discussing this matter

I took advantage of the situation to remind them of the neglect by the company and the Government to fill the gap East of Hecaumey. I have already expressed these views to the Prime Minister and to the Honourable Minister of Transport, Mr George C Marler.

I admit to you, Mr Brechin, that I am discouraged to come to the conclusion that this great project which I had so much at heart, of through transportation East and West, North of the Saskatchewan and Beaver Rivers, will apparently not be constructed while I have the honour to represent Athabasca. It was one of my cherished dreams and visions to justify the many years I have given to help them and the trust that the people of North-Eastern Alberta have reposed in me for so long.

P.S. — After writing the accompanying letter, I had a conversation with the Executive Assistant to the Honourable the Minister of Transport, who stated to me that the proposed system to replace the discontinued passenger service would really provide a much better distribution of express, etc from the junction from Adeline and Heimburg

Yours sincerely,
J M. DUCHESNE
Member for Athabasca

* * *

Ottawa, March 18th, 1955

Mr. D. I. Grant,
Executive Assistant to the President
of the Canadian National Railways,
Montreal, Que.

Dear Sir:

I have just been advised of a rather stormy meeting which was held recently at the Town of St Paul, Alberta in the constituency of Athabasca, which I have had the honour to represent here for many years. The storm arose when it was announced that your company intended to abandon the passenger service on the circular route between Heimburg, Elk Point, Abilene, Mallaig, Thorsby, Bonnyville and other points East up to the Cold Lake end of the line. I said circular route because the map will certainly reveal that this service covers a circle from the south East of St Paul to the North East of Bonnyville.

I wish to add my protest to those of the people concerned. While it is possible that there is a decline in number of people using the train, still it has to be served, and I cannot believe that you will cease to operate on that line from Athabasca to Cold Lake and East of St. Paul to Heimburg. This line serves a large number of people and there must be substantial business derived from all that territory. Besides, As a matter of fact, the St. Paul line has been known as one of the best business in your main line through Edmonton. Why you should decide to stop operating the passenger on the train handling that business, is not quite clear to me. It is bad enough for the people concerned to have been disappointed for 25 many years in the future of the company to see its line North of the Saskatchewan River, closing that gap between Hecaumey, Alberta and Frenchmen's Butte in Saskatchewan, and between Cold Lake and Mt. Walburg. It may be that a solemn promise made by the Railway companies, as well as by the Governments of Canada, has been forgotten by the present management, but I assure you it has not been forgotten by the people concerned.

Traffic Safety Lane By J. W. McKay

Director Highway Traffic Board
Edmonton, Alta.

Today we are hearing more and more of this word "psychophysical" attributed to it relates to automobile driving. Our Province is sponsoring a system of drivers' tests which are called psychophysical tests. These tests come from observations by experimental psychologists as they studied the driver. They discover that certain behaviour patterns determine, to some extent, the effectiveness of a driver behind the wheel.

The "psychophysical" means, in effect, the relation between the psychological act and the physical act. A combination of eye, nervous physical control in the way of manipulative skill, and to manoeuvre a vehicle safely, physical control must be coupled with psychological control through the exercise of accurate judgment and the intellectual guidance of the basic driving skills.

The term "psychophysical" underlies the relationships between the body and the mind. It is quantified by the formula S-R log R, where S is the sensation obtained from a given stimulus of experience and R is the physical stimulus or movement occurring affecting the person. K is merely a multiplier or portion just as pi is 3.1416, such the diameter of a circle is multiplied to find the circumference.

Psychophysical testing includes the measurement of the physical and mental qualities needed for efficient driving and mental qualities needed for efficient driving. A driver must become drive, one seriously paralysed cabinet driver from one who is mentally abnormal. Those with safety.

Now let's consider some of the qualifications sight, hearing, touch, smell. Next consider what a driver must do to keep out of trouble such he does see, hear smell and touch. Speed, safety and strength of movement are essential. Finally consider the activity of the brain or mind in arriving at decisions, accurate judgment and careful planning and the evaluation of danger

Major Bekzil Organizes Plastic Plant

Estimated to cost $225,000 for land, building and equipment, a processing plant to convert polythene into various plastic products is planned by Polychemical Industries Ltd., for the refinery area southwest of Edmonton, according to officials.

The company has been organized by a group of Edmonton business and professional men headed by Roger H. Bekzil, barrister, president. Sandy Lee, oil broker, is vice-president, and William D. Cleek, barrister, is secretary.

Other directors are Eric M Duggan, investment dealer; Dean R. M. Hardy, head of the department of engineering at the University of Alberta; Oliver C. McIntyre, president of Capital City Bus Co., Ltd and C. P. Pachal, chemical engineer and production superintendent for a chemical manufacturing company.

The company has acquired acreage for the plant site in the vicinity of the Canadian Industries Ltd. polythene plant.

At its plant, Polychemical Industries plans to convert polythene into pipe, tubing, sheeting and packaging film. Subsequently the company plans to use additional raw materials to manufacture a wider range of finished plastic goods. The plant is expected to have an initial maximum capacity of 150,000 pounds a year.

Officials say the plant will be equipped with automatic extrusion machines requiring few skilled operating persons. These machines, in addition to handling polythene, are reported capable of extruding other plastic raw materials, including cellulose acetate which is produced at the Canadian Chemical Co Ltd plant at Edmonton.

Comments On Rail Curtailment

(Continued from Editorial page)

I was a member of the Alberta Legislature delegation to Winnipeg, Montreal and, later, to Ottawa, in the early twenties, to bring to the knowledge of the members of the Railway companies the need for transportation North of Beaverhill Lake and of the Beaver Rivers, and, in the late twenties, to continue to recommend these views when the two great Railway transportation companies decided to get together on the operating of the Northern part of Saskatchewan, Alberta and British Columbia, and when they applied to Parliament for Charters in that regard. In the latter, when thousands of Alberta, many of these thousands were directed to that country, to be served by these proposed lines, and they are still waiting.

I write to this length so that it may be understood at Montreal that what might be considered the simple matter of abandoning a passenger service on a line out West, may become a serious one in view of the conditions briefly described in this letter.

Will such a state of affairs be allowed to longer obtain or it will result in a large number of people on what is the most productive area of the Province, agitating for small non-paying railway company's Bill will be made such a company . . . for the purpose of transportation to serve the area that the people deserve and which they have been entitled previously.

Your truly,
J. M. Duchesne,
Member for Athabasca

ED NOTE We've done a lot of talking, heard many expressions, but we still haven't received word that there will be any change in the proposed lines. Time is running out.

We thank Mr. Duchesne for his interest and for his co-operation. We hope it will do some good.

Most glamorous way to arrive ...most exciting way to go!

There are few possessions from which you can derive the pride and pleasure that are yours when you own a Chrysler.

Whenever you make your appearance in this magnificent motorcar, your arrival becomes a noteworthy occasion. It introduces you as one who appreciates truly modern beauty — tastefully simple in design and masterfully crafted.

Every time you turn the ignition key of a new Chrysler, you're ready to discover again a driving pleasure without equal. The quiet purr of a mighty engine invites you to travel far away from the cares of the day. Luxurious surroundings coax you to relax and enjoy each mile to the fullest.

To sample this pleasure, drive a new Chrysler soon. Note the admiring glances that come your way when you ride in this superb automobile. Then you'll realize that you belong in a Chrysler!

RADIO BROADCAST

by J. M. DECHENE, Member Parliament

Hello Edmonton, St. Paul, Athabasca. Lac La Biche, Mirbinray Beaver, Bonnyville, Athmore and all points in between.

I am again today enjoying the courtesy of broadcasting Station CJCA of Edmonton. Members of Parliament from our parts of the country have often appreciated the service it has given for many years. I am convinced that it has been of great benefit to all the people interested in the conduct of affairs in Ottawa. It has allowed the people to hear from Headquarters and, at times, to get a somewhat different view expressed as to what is actually happening than may have been conveyed to them by the Press and in the very brief daily news broadcasts over the radio.

The questions which have been debated for many days in the House, and which I discussed with you in my last broadcast on March 10th, over Station CFRN have not yet been passed. The Bill for the control of international waters has been sent to the Committee on External Affairs where it is presently fully studied. The non-contributory pension on unemployment is still pending. Other important business arose that had to receive the attention of Parliament. The Canadians have begun their service, and, with the Russian situation a most vexed question, Canadians are also meeting with the result that the attendance in the House of Commons, to a visitor unaware of its traditions and rules under which we proceed, would hardly convince him that business are not attending to. As a matter of fact, new paper men are here in the Press Gallery for years, often repeat the odd cliche of the members not paying attention to important debates in the House of Commons. Yet, these men rarely meet when they are busy with their own critiques, the majority of the members who are not interested know in the House are, in fact, at part stated attending to most important matters between 3 and the 6 meetings I believe that in the broadcast a year or so ago, on the few minutes at my disposal I did give a brief account of the situation however, because of what I have since read in the papers mentioned I thought it was good business to bring this situation to your hearing again. For instance, a Private member's motion was to be considered a few days ago when Canada leads the producers of 3 wheat and the retirement of most Yet, many of the members of the House to attend a meeting of one of those Committees, mentioned which, because of a lack of quorum and also because Mr. Speaker before that Committee relates to a question of urgency, should be proceeded with as quickly as possible.

With the knowledge of the considerable number of veterans of the first war who have made citizens I have not invited veterans of the second war of the distinguished members of Parliament to be present in Parliament to be the Honourable Minister of Veterans Affairs, to an address Athabasca, it is a great pleasure that I announced the Bill presented to Parliament to be the Honourable Minister of Veterans Affairs, to an address

V'S GOALIE MAY SIGN WITH NHL

By times now to be ahead for Jean McClelland, Penticton goalie who has been playing on the negotiation list of Montreal Canadiens for the NHL. The 24-year-old native of Timmins, who played junior and senior hockey in Ontario before going west to Penticton, B.C. had four shutouts in the eight games the second senior hockey champs played in Germany and 6 goals against average of less than one a game.

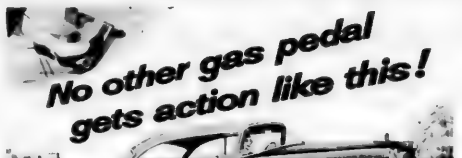
No other gas pedal gets action like this!



Illustrated—CENTURY 2-Door 4-passenger RIVIERA

THIS PEDAL does more than just feed gas to an eager and high-powered V8 engine.

When you give it the extra nudge that means it beyond the half-throttle position, something happens that never happened before in an automobile.

You hear a businesslike purr, which tells you that twenty power vanes, deep inside the 1955 Dynaflow Drive,* have changed their pitch—just like the variable pitch propellers on a modern airliner.

And with the same result in the way you get-up-and-go, with a safety-surge of power for pulling out of a tight spot on the highway.

Words can't describe it. It's a new sensation—something you simply must try for yourself.

There's nothing like it on the 1955 new-car

Fact is, there's a lot to see at your Buick dealer's.

There's fresh new styling. There's higher horsepower in every Buick V8 engine. There's a new Airpower carburetor. And there's good-old-fashioned integrity in every nut, bolt and rivet. But, this year, don't simply make a visit to the showroom—here these trim and thrilling new beauties are on display.

The smart thing to do—if you want to know what's what in new automobiles—is to get behind the wheel of a 1955 Buick and drive it. How about doing that soon?

*Standard on Roadmaster, optional at extra cost on other Series.

Fire Brigade Smoker Held On Friday

The Elk Point Volunteer Fire Brigade held a smoker in the Legion Hall on Friday March, 18.

The evening's program consisted of a sing song, arm games, and wrestling matches. The wrestling matches were put on by Mr. Bob Hoffman and Mr. Ed Fowler. Mr. Hoffman will be remembered by those who were two out of three falls at the expense of ringside referee Henry Sherwood.

A [illegible] was given and a most enjoyable time was had by all.

Old-Timers Give Out Challenge

This is going to be a tough combination of experience vs. youth. An old-Timers rink from Elk Point, their combined years totalling 284, today issued a challenge to all comers, older ones if there are any and the youngest generation if they dare.

The power house is made up of Dr. F. G. Miller, from Marvel, Charley Desmyer and O. J. Fuhr.

LOCAL NEWS

Mr and Mrs. Art Babcock are back in town after several weeks holiday Mrs. Babcock visited her sister in Drumheller while Mr. Babcock made a longer trip to see their many friends, farther east in Ontario.

Mr. and Mrs. Herbert Bale from the Bat Plant have gone east for a three week vacation.

The home of Mr and Mrs. Marion Austin was the scene of a farewell party for Miss Betty Davidson, a grade 10 student at Elk Point who left recently for Ottawa. The invitations have moved from the Elk Point and Marvel to pass to stay with her sister and attend school in Canmore. Miss Mc Lahan is also from Edmonton waiting at the home of Mrs and Mr Alex McCallum.

Reeve McGinnis won the body and received $3.00 worth of groceries given away to customers by the Co-op store. During the week all persons purchasing groceries at the Co-op are given a free entry form which is filled in and dropped into a box. Every Saturday a draw is made and some lucky person receives the groceries. (Our winners were William Bergstrom and Charlie Jenkins

Lone Two Bank Cops To Bonnyville Tourney

Both the Dominion and Bank of Commerce rinkers were lone two Bonnyville curling teams last Sunday from the local curlers While one rink skipped by H Warren won its games, the other one had rather enough points to keep the Dominion Bank Trophy in 1 total-points finish.

In the three games, Bonnyville's Ideal Dairymaster, Al Harper, Lyle Mack and Cash had a good load of 3 games running home to take the Commerce Cup.

The [illegible] Bonnyville team was skipped by Grimm, who threw lead rocks, Jerry Zazulak mixed seconds, Tanner Mack and Paul Beagle skip rocks

After the games local curlers, Hamilton, Harry Warren, Burton Hutchitt, Mildenhall Guzman, Hector Sherwood, Beulah Blake and Lawton entertained the guests at a supper and dance. The meals had also catered for parties for a large social time. Much was won by W Blake with a score of 9 of a possible 12

Plans In The Making For 4-Sheet Rink

A meeting of the curling club will be held shortly to discuss plans for a new 8-sheet curling rink The club membership has moved in the last few years and it is high time provision is made for the art of curling and have finally secured some ice Sheet Table seating, button receiving and heating are some of the features which were accomplished at the meeting which will be revealed to the making of tabletents for the Easter Tea.

A vote of thanks was extended to Mrs. Tyson for efficiently arranging for luncheon served to the Dominion competitors who finished the walls and ceiling of the hall recently.

Mr Rykiforuk very kindly donated a table to furnish the hut and Mrs Baker contributed a chair Further contributors of cupboards, tables, chairs, would be greatly appreciated.

Plans were made for a tea to be held on Saturday April 2 in the hut.

Hobby Fair To Be Held in Heinsburg

The Ladies Auxiliary to the Canadian Legion at Heinsburg are sponsoring their second Hobby Fair on Saturday, March 26.

We have been informed by the ladies that a great improvement will be shown over last year's very successful fair . . . a good indication that it should be well worth while to attend and view the ingenuity and craftsmanship of Heinsburg's local talent.

Entries of any type of exhibit will be accepted until Friday 8:30 p.m. when the doors of the hall open to the public at noon with a cordial welcome of Mr Everybody welcome.

Jacks Tournament A Novel Idea

As a novelty the Elk Point Grade 9 class under the supervision of Mrs. Halchard held a Jacks tournament. An elimination draw similar to those in curling was made and the various games played

Jill Farron defeated Irene Gunderson in the finals to win top honours while Mike and Sharon tied for Phyllis Hall and Marvin Jacks.

Boston in First Game Of N.S. Cup Tourney

The Elk Point High School Hockey Team entered the Divisional Cup Tournament but to no avail. They lost their first game to Hensburg High School 5-4 which ensured all hopes of ever taking home the trophy.

Elk Point led at the end of the first period 3-2 and remained ahead at the end of the second with a 4-3 lead, however two fast Heinsburg tallies in the early minutes of the third period went unanswered. Marksmen for Elk Point were Victor Aarbo and Moe Perron each scoring 2 goals

Line up for the game was Goalie, James Krush, Defense: Nels Hall, Peter Gomowyk, Moe Perron, Bob Hilliday, Forwards: Dave Fenton, Larry Bannbstrom, Victor Aarbo, Don Belsey, Milton Lorenson and Merrit Aarbo.

Welfare Assn. Hold Meeting

The Elk Point Welfare Association met in the Hut on Thursday evening. Dr Wengenuk presided over a large attendance. Report on the ground There are eighteen boys working on their tennis court. Several are ready to be mowed on the new fixtures Miss Lafleur, guide has much a very large group of girls that she devotes the greater part of her time to the tenderfoot and the second class. Some guides are working for badges under the following tenders Mrs. Jean and Mrs. Jessie Mcdonald, women. Mrs. Fenson—Cooking & Laundry, Mrs. Warren—Needlework and Home Lover Mrs. Belsey—Child Nurse Mr Stephan—Cyclist Mrs. Keep—Dr. Cyclist and Mrs. Lorenson—Mrs Matchard—Horsewomen and Readers Mrs. Lorenson—Curling and First Aid. Mrs C. A. Johnson Mrs. Jessie Mcdonald.

On March 18, Jill Fenton passed the requirements for her first class badge, for which Mrs Lorenson substituted as tester. Miss Lafleur certainly invites members or friends who are interested in forming a meeting at any time

The Brownies under the leadership of Brownie Eagler and Mrs. Sadlowsky have been learning the art of dancing and have finally selected names which will given Table setting, button receiving and heating are some of the features which were accomplished at the meeting which will be revealed to the making of tabletents for the Easter Tea.

A vote of thanks was extended to Mrs. Tyson for efficiently arranging for luncheon served to the Dominion competitors who finished the walls and ceiling of the hall recently.

Mr Rykiforuk very kindly donated a table to furnish the hut and Mrs Baker contributed a chair Further contributors of cupboards, tables, chairs, would be greatly appreciated.

Plans were made for a tea to be held on Saturday April 2 in the hut.

TORONTO-DOMINION BANK

MANAGER

Hospital Notes

Patients recently confined to the St. Therese Hospital were Mrs. L. Stubel, St. Paul; Mrs. S. Bourne, Ashmont. Mr. Joseph Cossette, St. Lina. Mr. Gordon Bednar, Bremner. Maurice Robinson, St. Paul. George Joly, St. Paul; Mrs. G. Bartley Ashmont. Jean Michalchuk, St. Paul; Cecile Langlois, St. Paul; Wm. Carnival, Saddle Lake; Wendy Keezowenin, St. Paul; Mrs. G. Gauvin, St. Paul; Hector Dion, St. Lina. Mr Oscar Johnson, Lake Eliza. Claire Lafrance, St. Paul; Mr Paul Nerwal, St. Paul.

Recent births were to
Mr and Mrs. Antoine Lafleur St. Lina, a girl; Mr. and Mrs. Mike Rykowich, St. Paul, a girl; Mr. and Mrs. Oscar Miesel, St. Paul, a boy; Mr and Mrs. Mike Severin, St. Paul, a boy.

Hospital Bingo Good Success

Mrs. J Porter, Mrs. Ed Cote and Mrs J. Langlois were in charge of arrangements for the Hospital Bingo which realized the sum of $147.00 to pay for the oxygenation installed in the children's ward.

The Committee wishes to thank everyone who contributed in any way especially the St. Paul Journal, to make this evening a success.

The Rev. Sister in charge of the children's ward would like the public to know that this opportunity was seen by anyone interested.

Two Curling Trophies Brought Home

Two of St. Paul's Curling Trophies have been recaptured from Vilna and returned home Thursday evening the Darling Ladies who swept back by Yvonne Joly. Mrs. Ted Genereux, C Joly and Solange Couillard.

The Cashey Trophy was recovered by Bert Cassire, Gerry Steedsman, Felix Cassiby and Nick Gerdy.

Police Drive Tops Last Year Sum

The St Paul Branch of the Canadian Legion, on behalf of all past, present and future gala patients express hereby their appreciation for all contributions made during their recent drive

The total net contribution was in the amount of $12895.86 as compared to last year's net of $11284.67.

The business places were most of always the same good public spirit, there being to our knowledge only two that refused to make a contribution. The net increase however, was due mostly to the large contribution made through the rural canvassers

The country was divided into small subdivisions, some small, others big according to the area the canvassers felt they could cover The Town residences were divided into four blocks by a Line down main street, and an other North and South on the Lavoie Hotel Street.

The contributions were as follows:

Penny Banks	$62.10
Business Places	$372.50
Town, School envelopes	$58.30
Residence S.E. St Paul	$111
Residences N W St. Paul	104.40
Residences N.E. St. Paul	$35.05
Residences N.W St. Paul	$42.35
Rural S.E. St. Paul	$64.85
Rural S.W.	$135.30
Rural N.E.	$69.50
Rural N.	$46.80
Rural N W	$146.05
Rural St Brides	$34.75
Rural S.W.	$43.80
Rural N.E. Edmoard	$43.80
Rural Lac La Nonne	$13.50
Country School Envs	[illegible]
Grand Total	$1295.32
Adv. & envelopes	$64.47
Net Total	$1265.86

5 Curling Cups To Home Here During Off Season

Brought Back Before Ice Softened Up

Unless the weather changes for the worse and freezing conditions return in general Curling Centennial, five district curling cups which have been recovered recently and delivered on several occasions will remain in St. Paul until next season.

St Paul Curlers who, until almost three weeks ago were in the possession of not one single cup, took to the road to bring them back.

The Canadian Bank of Commerce a straight challenge trophy for inter-town competition was held over the last summer by Vilna and retained all year. It was taken to St Paul and again lost to Bonnyville On Sunday Don Guthrie skipping took P J Labossiere R J Wasylenchuke and Leonard Belzeyl to Bonnyville and recovered it in 13-10 game

The Dominion Bank Cup, presented by the Vilna Branch, a two-team total point event, had also strayed to Bonnyville, but will come back here by two rinks made up of Don Guthrie, Vic Labossiere, Bill Higgins, Ray Pilarchuk; and Bill Lander, John Prun, Marcel Joly and Skip Wilson. This took place last Wednesday and on Sunday it was again successfully defended at St. Paul against Vilna competition.

The Cashey Trophy, for competition between regular local rinks came back to St. Paul and was defended Sunday against Vilna by Bert Cassav, Al Dirk, F. Cassiby and Nick Gerdy.

A two-rink, Ladies Total Point Competition, the Bonnyville Hotel Cup was lead back to St. Paul after rinks skipped by Kay Guthrie, Solange Couillard and Dorothy Bouget e met to toss stone against. They won 8-3 and tied 8-3. Rinks: Kay Guthrie, Carmen Wolmbaldone, Bea Bedard, Rose Tuchak. Lucille Desmarais, Laurette Couin, Anne Lord and Grace Lafond.

During Ladies' Wear Trophy took its place on local display, recovered from Vilna it was defended again Sunday by Mrs Tony Joly, Anne Desmarais, Mrs. Andre Joly and Solange Couillard

Lindbergh News

Mr and Mrs. Mel Schumacher and son have left Lindbergh for Calgary.

Mr O Davidson, Chief Engineer of the Canadian Salt Co., resigned and left for Calgary

Mrs Bowen is at present in the Elk Point Hospital recovering from an operation.

Mr and Mrs. A. Wynne are the proud parents of a baby son, born on March 15.

A bridal shower was held Fri., March 19 for Miss Carmelina Crozzoni, elder Daughter of Mr and Mrs. Harry Crozzoni of Lindbergh. Everyone took place at the home of Mrs. O Switzer.

Mr. and Mrs. Bert Sills have left Lindbergh for Windsor, Ontario to get a new car and also enjoy their annual holiday.

Mrs George Keck of Lindbergh will be in charge of the Bill's residence and the 3 children. We hope the Bill's will have a nice trip motoring back from the East.

Mrs. Mike B. Krymanowski, Saturday, April 20th. Bury, Alberta.

Protest Continues Against CNR Proposed Changes

Meeting Held At Elk Point, Friday

Continuing its protests on proposed rail changes by CNR officials, effecting their district from Ashmont to Heinsburg, members of Chamber of Commerce held a joint meeting at Elk Point last Friday evening.

Under the chairmanship of Mr. D. J. Tyson, president of the Elk Point Chamber, members followed up with stronger resolutions, drafted in more detail to express lucidly why the CNR is losing business and how it can correct its defect.

A letter embodying the new resolutions was drafted and addressed to Mr. R. Graham, General Superintendent of Canadien National Railways at Edmonton A further letter was addressed and despatched to the Edmonton Chamber of Commerce seeking support and co-operation. It is felt this move may greatly affect merchandising from the city and the problem is a mutual one

Letters of the new resolutions and copy to the Edmonton Chamber are found in their complete text on the editorial page.

PAUL HORNETS

This is the St. Paul team which may well be called the "Come-Back" club in the Eastern Alberta Hockey League. Organized in about mid-season when the Hornets were taking a merciless beating before they climbed back steadily to tie in fourth place and to total more bank. With the right start and the breaks at the end they might have shaded to the top of the league. They are, front row, left to right, Head Coach Clarence Richard, Basil Bychok, Richard Mc Kenzie, Bill Melnychuk, back, George Chrapko, Lloyd Simchuruk, Paul Blue (result), Ernest Goodbier, George Yellow, Leonard Belzeyl, Bill Skakun and Terry Lafleur. Missing from picture is trainer Ed Bouvier. Missing from picture was Lorne Gosselin, Gerald Cassiby, Ronald Bychok, Edmond Lavoie, Ed Bouvier and Nick Gerdy. Missing from picture was Ed Bouvier. Missing from picture was taken with a broken hand.

Funeral services were held on Tuesday, March 29 at 10:30 a.m

Harry Young, President Farmers' Union Holds Meetings At Owlseye Champlain, Flat Lake and Spedden

Young Farmers Should Be Given Chance To Purchase Land On Government Finance

Mr Henry Young, of Millet, President of the Farmers' Union of Alberta held a round of meetings in this district last week which took him to Champlain School, Flat Lake Hall, Owlseye and Spedden.

The bad weather conditions and the drifting snow kept large crowds from attending, except at Spedden Friday evening where the hall was packed.

Mr Young conducted the rally at the request of the local executive with meetings organized by Mr Mike Bouquett of Cark.

Mr Young spoke on union policies and brought the membership to date on activities of the provincial executive and its efforts to further the lot of the farmers.

The Farmers' Union president pointed out how pressure from the organization is being brought today in some of the legislature being considered at the present Alberta Session.

A program is being lined up on Marketing Boards and although it does not embody all the requests of the farmers, a definite step is being taken in marketing board school grants to reduce the mill rate have long been suggested by the unions and are now being recognized, promotion of farmers from farmers who rain property in the fall is being considered; new regulations allowing passengers to travel at farm trucks are changes which are being sponsored by the farmers' Union

Mr Young showed concern at the exodus of youth from our farms today. He pointed out that one of the main reasons for this abandonment of the land rests on a lack of purchasing power by young farm people

Farming has developed to such a modern stage that a young man cannot, as in the old days, file a homestead and develop it by hand over a period of years He needs capital to make the investment and to finance operations. The young generation ready to retire, hesitate to sell because the amount of payments and consequently we have old farmers operating farms who should be retired and young people leaving farms because they lack finance

"It is about time," said Mr Young, "that the Federal Government considers some legislation which would bring about a plan to help young farmers purchase land and machinery on a budget system

FOR SALE — Oil Style Piano accordian in very good shape Hardly used. A very good offer for Apply St. Paul Journal, St. Paul. -21

If you are planning to grow vegetables for the first time this year, set out the plants or seed in the soil can be properly worked.

You can grow them in the hill system or in rows. The soils for setting plants at intervals of 12 to 20 inches in rows. The rows should be spaced three to four feet apart. Then allow enough room to form a mat of each row.

If you need berries of large size and excellent quality, use the hill system shown in the accompanying garden graph. This system requires a little more work than the mated-row system and for that reason is not used by commercial growers. Space the rows two to three feet apart, as illustrated, and plants 12 to 18 inches apart in the rows. Do not allow runners to develop.

The hill system is used because it is the most productive system. Each plant is allowed room to develop a large number of runners which will root and produce plants. Runners are cut off as they appear. Only enough runners are allowed to develop to replace plants that may be lost during the winter.

The soil for a strawberry planting should be moderately fertile, well drained and contain enough humus to retain moisture. Be sure that both humus should have been worked under before the plants are planted.

Glendon News

The Annual Meeting of the Glendon and District Red Cross Society was held at the home of Mrs. Tom Wetrich on Wednesday evening, March 16th. As the President Mr Brett Brosseau had moved away from the district, Mr M Kane was nominated to act as chairman of the meeting

The financial statement showed that the total receipts for the year 1954 were $264.68. Among the correspondence read was a letter from Mr W A Davis, director of branch organization, Calgary stating that this was the most successful campaign conducted in Glendon since 1946, and he was most grateful.

The following slate of officers were elected for the coming year

Pres.-Mrs. A. J. Lashin, Vice President Mr M Kane Secretary-Treasurer Mrs A. Monroe Directors Mr Tom Wetrich, Mrs M Kane and Mrs. J. Pawlowich.

The following canvassers were appointed for the present campaign: Mrs M. Kane and Mrs. Wetrich in the northern section of Glendon, Mr. A. D. Munro for the country, Mrs Edmund Harper Bonnevie, Mrs. August Press, Mouse Lake and Mrs. Ben Mc-Lean, Elinor.

A very interesting round robin arranged was recently completed at the Glendon Curling Rink, when the male members of the curling society were in competition for a seven year trophy donated by Mr Austen Stevens of the Red and White Store Most of the games were keenly contested and in many cases the result was in doubt up to the last stone thrown Everyone at Glendon was Mr A J Shandro, who skipped out Mr Eric Martinell in the final game Others on Mr Shandro's rink were Mr Steve Rosychuk, Jr., Mr Joe Sedwey 2nd and Bert Hillman, lead

On Sunday evening, March 27, a very successful banquet was held in the Masley Hall This was organized by friends and neighbors of the Chanas family, who recently lost their home and all its contents by fire. The proceeds were donated to Mr and Mrs. Chanas, who, with their three younger sons are staying for the present at the home of Mr and Mrs Harold Howatt in Glendon.

The Traffic Safety Lane
By J. W. McKAY
Deputy Minister Traffic Board, Edmonton

Proper analysis and understanding of the psychological causes of accidents have long been known to be of their reduction. Many unknown factors, however, are devoid of all the relationships between psychological factors & accident experience. It is even difficult to obtain a sizeable correlations, statistically, between groups of factors and accidents, although a few have obtained by large [illegible] Experience has clearly established, however, that the [illegible] is undoubtedly much greater than the incompetent driver in the near future

It must be remembered that [illegible] are [illegible] made at the time of the accident

Aptitude and Ability

It may be well that we understand the difference and meaning of these terms. Aptitude is the capacity to do a certain thing. Ability is what one can do at a certain moment. Aptitude is the [illegible] of many things that [illegible] ...ment. Ability is the ...ment of [illegible] ...ge, etc. (the Field of vision—the [illegible] ...ness of [illegible] ...ther [illegible] ...f you with your eyes focused [illegible] ...ou can see [illegible] ...ment [illegible] ...ness [illegible] ...ness [illegible] ...ness

Safety Sam Says...

Taming Lions is no trick...

compared to speeding when it's slick!

We'll bet even a lion-tamer wouldn't consider speeding over wet roads. Because if he did, his chances of living long enough to do any more lion-taming wouldn't be so good. Just like your chances of doing any more of whatever you like to do wouldn't be so good. It's a thought to consider, what with Winter all around us.

NIAGARA TO UNDERGO ANOTHER NATURAL FACE LIFTING

The broken white line indicates the crack in Niagara Falls extending far ahead from the direction at the U.S. side of the Falls. The crevice is widening and engineers fear a new Falls could take out a huge triangular portion of the creeping.

Relates Harrowing Encounter With Cougar On Vancouver Island

We have been hearing so much about lynx around here, I thought some of your readers might like to share a letter received a few days ago from my brother. He is Alan Arnold, formerly of Elk Point, now residing in the little lumbering town of Port Lands, B.C., which is situated on the northern tip of Vancouver Island. He is married and has five lovely daughters. They had been living in the heavy timber about forty miles from the town. He works with a lumber outfit, but had been laid off, due to the boss's illness.

Here is his letter, in part:

"Things were as usual until 2 weeks ago, at 4:00 in the morning our dog started to make an awful uproar at the door. We woke up in time to hear him meet the enemy out in front of the house in the garden. A cougar, no less, which prevented to kill our Buffy, the battery in the flashlight went dead. Well, with a candle we rushed downstairs and made a batch of as escapers, grabbed the 22 (small calibre) and ran outside. The dog stopped whimpering so I shot at the cougar from about 15 feet. We then locked back in the house in case it wounded it enough to make it attack in our torchlight, its eyes were terrific and it never moved to let loose of the dog. We got gas from the lamp, soaked rolls of toilet paper and threw them through the campers window to give us light to shoot by. A burning torch 2 feet away never moved the beast. I only had 2 shells, and used them all hurriedly. A neighbor turned up more bullets, so I shot again.

By now the cat had dragged the dog about 20 feet toward the bush, along the wire fence. My 4th shot finished it and it dropped to finish, a hole in the fence and fled. We spent the remainder of the night in an agony of suspense and next morning showed the dog still there, so I was sure the beast was wounded and waiting for night to come back and finish the feast.

I left my girls with instructions to stay indoors and barricade up as well and a dog. We chased the animal through the heavy timber behind the yard for half a day. Eric wounded it in the foot. No kill, though. So a number of reports up here came and helped me out a bunch, and so in a roaring blizzard, Edna and I washed. The kids went to bed reluctantly.

About dark our cow acted nervous so we threw the cougar was back. At 7:30 I looked out with barely-contained flashlight, and the beast was at the carcass. At fifteen-minute intervals I checked, but the cougar wouldn't come inside where the traps were, so we decided it was now or never, we planned our attack.

Edna held the light over my shoulder and dimmed intermittently on the eyes. 1 shot. (Wild a mile, 32 special and 20-30 shells—I'd borrowed during the day.) The straw was driving down as thick as soup, but we thought we saw the cougar roll over and then last night at 4. About 10 seconds later we heard terrific thumps and then silence. We were still as mouse, but persistent chucks showed the eyes, enough our poor rabbits' (as we spent a better night.

Next morning we searched in the foot-deep snow, but found no sign of cougar. And man-like he tightened curse and we scoured the bush. No sign. Late next day Eric and I set out to shovel up, and to have a last shooting and shoot what showed on the snow. Lo, no cougar, but behind the cougar, the bush, about 20 feet from the fence, a bullet hole.

Between the two bullet under the skin of the shoulder which we had imagined it striking about the head. Well, I'm sure glad I'm a member to anyone or anything is dead. I should have felt about that one night, but was relief and a sort of feeling of pride that we had to bring Buffy back to help save the day.

The cougar was large, over 6 feet long, solid and a female.

It measured 6 feet 10 ins. and weighed 180 lbs.

We took some snaps of me and the kill and will send one later on. I don't know yet if I'll get the $25 bounty for the cougar or not, mainly because I don't have a firearm license. I'm not worried about that, quite frankly.

In the house, that's there isn't dog killed, one wounded, 2 or 3 cougars seen on the trails and 2 shot, a male and a female, both large, and that. The bush trader hurting does very hard, so . . . moved in on the shoot . . .

The most hold up work on our new house, as rather than leave my family alone when I returned to work, I moved them into town to stay with sister Grace for the month or so until the house is ready. It was too much worry for Edna alone with the kids. Well that's more the less of it, and for the middle part of June I will consider excitement I'm to tend.

Friends, I think so too.

Irene Magnuson

CARD OF THANKS

It is with a feeling of deep gratitude that we wish to express our sincere thanks to all the kind friends and neighbors whose help and sympathy greatly helped in alleviate the great loss felt during the bereavement of a beloved husband and father.

Export Markets For Alberta Oil

At a press conference recently officials of Imperial Oil Limited suggested that the best available market for petroleum crude oil lies on the east coast. The North Central States and Ontario.

The recent statement underscores of the international page, line to Montreal appearance is unnecessary or because he be a victim of Montreal-refined to send finished products back as far as Hamilton through the Trans-Northern pipe line operating in Western Pennsylvania Industry.

However it seems apparent that Toronto will continue to be a refining centre and the growth certain local consumption expanding market for present oil.

In recent times new refineries have come into the east market suggesting that economic factors must have considerable consideration in deciding the source of crude oil supply not withstanding the fact that lower freight rates will continue to exist for Alberta oil. In the future it is possible to see

An example of the changing trend. The long pipeline operations in America's mainly developing Petroleum field, Seventy-Six miles Railroad Oil Station limit from [illegible] [illegible] [illegible]

Simple Rules And Suggestions To Prevent Early Tooth Decay

Thousands of thousands of living things floating around in my mouth" What do you mean"

That is a common reaction when people are told of the tiny organisms of the mouth, some of which produce acids leading to the destruction of the tooth.

Most people know a little about bacteria, but usually think of them as germs that are associated with tuberculosis, pneumonia, diphtheria and similar diseases.

There are many thousands of bacteria of different kinds in the normal mouth and everywhere in the body performing a valuable duty for the most part. But they, too, are mostly concerned with in these articles we are only the formidable nature of Lactobacillus Acidophilus Taken apart and interpreted, the name suggests a rodshaped one that produces a certain kind of acid.

If we find them, many times a day with highly-refined starches and sugars such as white flour products pastries, candies, sweet drinks and confections of all kinds, then will respond by working at top speed Deposits of this sort of sweet, pasty substance will gather in the fissures, crevices and other spots around the teeth, and acids will form which will eat into the enamel

These few simple suggestions, if closely followed, will help us to avoid much of the distress and discomfort that accompany dental decay

Eat only at meal times avoid snacks and confections between meals brush all the crevices of the formidable nature of Lactobacillus Acidophilus Taken apart and interpreted, the name suggests a rod-shaped one that produces a certain kind of acid.

WEDDING

Greaves-Young

Lindbergh principals, Carmelita Dawson Mary Grosmont, daughter of Mr and Mrs Harry Grosmont of Lindbergh and Leonard Douglas Young son of Mr. Hill, Young of Lindbergh, were solemnized Wednesday, Feb. 16, 1955 at 2 p.m. in the Lindbergh United Church, Rev. Mr. Morris Davis officiating.

Given in marriage by her father the bride wore an ankle length gown of white satin with fitted bodice and sweetheart neckline. Her veil was held in place by a coronet of pearls and sequins and she carried a bouquet of carnations and ferns.

Bride's matron was attired in a floor length gown with pink sweetheart neckline.

Bridesmaid Miss Hogarth, Alcheson, wore satin gown with net over tunic. Both maid of honor and bridesmaid carried bouquets of pink carnations and ferns.

Groom's attendant was Bridal Lindbergh Community Hall and the wedding was a dance at Spring Park, Hall.

Given in marriage by her father in Lindbergh

MALLAIG BULLETIN

C. R. BELLEVILLE, LOCAL REPRESENTATIVE

I WONDER

BY C. R. B.

The views and opinions expressed in this column are those of the writer and not necessarily those of the St. Paul Journal.

If some people have been overheard saying that this column has gone fresh material, become a gentle, mild-mannered and quiet little fellow, lacking sparkle and crispness, no longer is a natural character of this type of plain people.

March 17th, that patron saint's anniversary has passed us by, this small corner of the world without any word of appreciation, mention or turbulent demonstrations of other attributes of Irish temperament—which generally accompanies March 17. We did notice a few wearing the green but that was about the extent of it.

Unfortunately I was not in the neighborhood of St Brides on that memorable date, or else I might have had the honor of being one of the Emerald Isle become a bit more than usual interested in the news from the world where that Little Island is a bit of concern, among us, French, Scotch, Irish, Dutch and Polish. Even that old man was the descendant of a Scotsman of Norse birth and Indian and Irish extraction, but that is of no consequence, for, of more especially pertinent importance.

Yesterday many men and women, of Irish descent, were celebrating their patron saint's day, many remembered St. Patrick's festival by attending a dance at Spring Park Hall.

Undoubtedly, I was not in the neighborhood of St Brides on that memorable date, or else I might have had the honor of being one of the Emerald Isle become a bit more than usual interested in the news from the world where that Little Island is a bit of concern, among us, French, Scotch, Irish, Dutch and Polish. Even that old man was the descendant of a Scotsman of Norse birth and Indian and Irish extraction, but that is of no consequence, for, of more especially pertinent importance.

Yesterday many men and women, of Irish descent, were celebrating their patron saint's day, many remembered St. Patrick's festival by attending a dance at Spring Park Hall.

Mrs. Mary Fitzgerald, Alex Charlton, Mrs. Annie Kay Prudent, Lake Cowley and Mrs. Edmund Zilai, at 2 p.m.

The other night a new O'Casey play opened in Dublin and the long-rumored Dubliner's Revival to be in season. They did about ten, fans and talk back to the actors, but no one rushed on to the stage with avowed intention of loosing the players in the orchestra pit no one took off his shoes and threw them accusingly toward the Guards.

It is not by some standards, a very tame country.

The question arose as to whether the Irish were losing one of their utmost colorful characteristics—that of very vivid expression and fervent participation in the support of their feelings. It would indeed be a brave man who, on the 17th, would question a Irishman's devotion to his country, but if he did—and lived to tell the tale—he would first treat it as the Irish are more tolerant today than in the days gone by, it is not because they have changed, but it is because they have gained an improved their superiority, on the feel of the world.

They find it is no longer necessary to punish home or meet with a onslaught. If you were to ask how your Ireland stands today, your reply would be, as always, hugs in the hearts of all true Irishmen. Wherever they are no longer that breaker-of-law-and-order-and-the-peace-within-the-realm, I don't, will you! I wonder.

STARS OF OLD TIMER HOCKEY GAME

This picture was to be released at the time the Juniors played the old-timers. It was held over for the second game, but with the spring weather having finally taken its toll on the ice we've published it before baseball time rolls on. From left to right: Pierre Richelieu, Ray Asbrydie, "Shack" Johnny Fitzgerald, Martin Gresham, George Belanger and Paul Berdahl.

"Aunt Tillie Goes To Town"

"Aunt Tillie goes to Town" played by the artists of the St. Paul Allied Arts, in the Mallaig Parish Hall, Sunday evening, was received with loud and hearty appreciation by a capacity audience.

The story namely kept the audience in stitches through out the three acts, as much on, as a number of occasions the actors unable to continue with their lines, due to the unbridled laughter and enjoyment by the throng of amused listeners.

Particular mention goes to Marcel Denors (Ronald Howland) Mrs. L. Letourneau (Lucenda Talbot) Mrs. J. O'Driscoll (Aunt Tillie) and Germain Joly (Marcel Duchere), for an almost perfect characterization of difficult parts, with excellent support from the balance of the cast All made for a delightful evening.

At the first intervale, the Male Quartet, whose very first appearance in the audience, filled with their humorousness resultants and generous encores They have created a mathe in the corner of the Mallaigite's hearts that no number filling again, we hope at the near future

Mrs Blanche Bremner is to be highly congratulated on her dramatic Powers revelation during the second intervale This type of recital is a rarity in the district and we hope that we may have the pleasure of hearing her again.

EDITORIAL

TUG OF WAR

Another Mallaig Trustee election is in the incubation stage, Sub-Division No. 2 once again go to the polls. The time it ought be a choice to our minds.

It is time we did to help local men and their interests. It is time we did to help each other, somehow a few of the city's leaders cut the life line and left us to drift in the murky sea of the unknown. We do not have to, as they thought, let the local Principles and aims, national or municipal, be destroyed on the altar sacrifice, despite of the violent storm and possible defeat of purpose it had to face.

At the last election we were a bit lackadaisical and content with the Captain in charge and this time—the Admiral will assume command with all necessary war gadgets at his disposal Much as the fox that feared a spectator at his disposal Much as the fox that feared a spectator at his disposal Much as the fox that feared a spectator

LOW-COST BANK LOANS
FOR
HOME IMPROVEMENT

Loans to assist in financing the improvement of existing homes are available under the National Housing Act which authorizes Central Mortgage and Housing Corporation to guarantee loans made by banks or approved instalment credit agencies for additions, repairs and alterations.

5 1-4 % INTEREST

The rate of interest may be any rate agreed by the lender and the borrower but must not exceed 5¼% per annum computed semi-annually and not in advance so long as the borrower is not in default.

Loans are re-payable in monthly instalments, together with interest, in three years if the principal amount does not exceed $1,250 in the case of a one-family dwelling or $1,250 per household unit in the case of a multiple family dwelling. For larger loans the term is five years.

For more complete details and advice call on us today.

CHAMBERS CONTINUE PROTEST

The President,
Edmonton Chamber of Commerce,
EDMONTON, Alberta

Dear Sir:

At the request of the Chambers of Commerce, we enclose copy of a letter directed to Mr R. Grisbon, General Superintendent of the Canadian National Railway, Edmonton, which is self-explanatory. The matter referred to is of the utmost importance to every citizen residing in the territory and it is felt that your organization should further our support.

In this district, practically all commodities pass through the city of Edmonton enroute to or from their points and if the proposed change of service is inaugurated, the various merchants have intimated that they will make an all-out effort to purchase their requirements from Eastern Canada bringing their supplies by truck from Saskatoon and North Battleford or routing their shipments from Montreal southwards via the Canadian Pacific Railway line to the South. It thus would seem to pass, it is apparent that the various businesses of the city would be seriously affected.

We in this community look on your city as our city and we feel that your organization should lend a helping hand

* * *

Mr R Grisbon,
General Superintendent,
Canadian National Railway,
EDMONTON, Alberta

Dear Sir

This letter is directed in protest to the proposed discontinuation of rail passenger and express service east of Ashmont, Alberta, replacement made by bus and truck transportation.

In response to public demand, a joint meeting was held in the Village of Elk Point by our local Chamber of Commerce and attended by delegates representing St. Paul, Edwardville, Armistice, Hersehedge, Lindbergh and the Canadian Bank Commerce Limited. It was agreed by all present that rather than curtailment, we request an improvement in service by your organization inaugurating and adhering to the following suggestions

(a) Change in time schedule, the train providing greater passenger comfort leaving Heinsburg in the morning and arriving in Edmonton on or before twelve o'clock, returning from Edmonton at 5.30 p.m., permitting passengers to conduct their business and return to their respective homes at one day.

(b) Numerous complaints have been heard relative to express and freight service for it is apparent shipments by express require two days after order in Edmonton before received at branch line points, freight shipments requiring four days. This situation can be rectified by more numerous pickups as took prior to the outbreak of the last World War.

In this great country of ours, many come from distant lands and assisted those that followed later, carved their homes, cleared the land, built the towns and villages, having before them a dream that the railway company would in time complete the line from Heinsburg, Alberta to Frenchman's Butte, Sask. and connect there directly with Eastern Canada. Despite these efforts the Canadian National Railway (Government owned) would appear to have lost faith. Rather than the long-awaited announcement of the closing of the gap, we face suspension of our rail passenger and express service

In view of the aforementioned, we, the citizens of North Eastern Alberta request the matter be given your careful consideration and discussed fully with your executive and with the knowledge of the pledged support of the various Chambers of Commerce, we fit to adhere and carry out our suggestions, remembering today's decisions are the making of tomorrow.

We shall look forward to receiving in due course your comments.

Yours very truly,
D. J. Tyron, President
Elk Point Chamber of Commerce

THE NATURAL FEAR OF DISEASE

We read much today about the fear of disease. On the one hand we are assailed by advertisements to beat minor symptoms, transient pains, fleeting aches, feelings of uneasiness, and the like, and to take the proper steps to avoid serious illness.

On the other hand, psychologists tell us that many of our ills are, in a way, figments of our imaginations. Sometimes it is true, a constant preoccupation with one's physical condition results in what we know as hypochondria—an exaggerated fear of disease.

No doubt the public occasionally is confused by these apparently opposite viewpoints of medical authorities. A doctor of a medical outpatient one day may find himself persuaded to have a physical examination. Next day another writer tells him that 95 per cent of all ills cure themselves and that most sickness is out of the flesh but of the fancy.

With this great weight of human lives in the balance, can anyone wonder why the scales have been tipped in the balance, can anyone wonder why the scales have been tipped in the direction of a dynamic nation-wide program to alert people about cancer?

We can't all be calm and dispassionate, but most of us have enough self-discipline to give thoughtful regard to this question. When the occasion arises and you are worried about your physical condition, isn't the sensible solution simply to see your doctor?

And see him once a year anyhow, no matter how good you feel. Worry a bit about yourself once in a while. In small doses it's good for you.

RICHARD PLEADS FOR PEACE AFTER $100,000 BOUT

—Central Press Canadian

The kid of Canadian fists and the toughest cop of the round rival of Montreal Forum Maurice, the Rocket, Richard, squads for more ever intervened and radio. Richard appealed to the fans to accept his suspension in good faith as he had done. and added "everyone is glad here in Montreal Canadiens "so that no further harm will be done." He said it hurt not to be playing but promised he would take his punishment and return next year to help the club and win the Stanley Cup.

—Central Press Canadian

The mob fury was directed at Clarence Campbell, above, head of the NHL, who suspended Richard until April 15 after an attack on Hal Laycoe in Boston on March 13. At the game between Detroit and Canadiens at Montreal Forum, Campbell was pelted with tomatoes, eggs, peanuts and finally a tear gas bomb. Police arrested some 67 rioters who did $185,000 damage to the Forum

PROVINCIAL AND CONSTITUENCY AFFAIRS
By RAY REIERSON, M.L.A.

(Continued from last week)

The introduction of a Marketing Act as changing legislation to establish Producer Marketing Boards as nearly all farm products except cattle and sheep met with much favor. Beef and Milk Producers had registered strong protests and were reluctantly excluded. Satisfaction was expressed by farm organizations generally. Full detail will be given on a later issue.

Mr Page's resolution requesting a Royal Commission investigate the Liquor Act was defeated. Many held that such a commission would do a better job when the work of the Alexander Foundation sponsored by the government had been carried on for at least 2 more years. Mr Manning indicated as well that he would favor a full scale review at that time

A resolution introduced by myself requesting that the Commission now sitting on Metropolitan Problems of Edmonton and Calgary investigate the advisability of placing Industrial Assessment, Tax Roll instead of Municipal and revenue

Therefrom be distributed on the basis of need and service both to the municipality brought virgorous debate.

The part-fleeting used for moving this resolution is that if such a move were feasible it would give uniform taxation, decentralization of industry and a fair and equitable division of revenue. In the overall competition for new industry and the average investment should be left unexplored.

Several opposition members opposed it on the basis that it would further centralize revenue before re-distribution of it. Expressions of gradualism are never used

Hon J. D Jorgenson gave a report of the activities of the Department of Public Welfare, concentrating on Homes for the Aged. Under a new amendment grants will be increased from $500 per bed to $750 per bed using a base of 80 sq. ft. of floor space as a bed. Consequently a one floor type home become with kitchen, dining room, central lounge and additional living rooms for married couples, as well as staff and nurse resting apartments) $100,000 would qualify for a grant of about $32,000 or more.

This would provide comfortable accomodation for 35 persons. No time should be lost in proceeding with at least 3 of these homes as the St. Paul Constituency as part of the Jubilee Celebration.

Loans for the balance not covered by the grant are available direct from the treasury through the Municipal Capital Expenditures Loans Act at very low interest rates. With additional assistance for centralized areas. Provincial funds being available a House of this type would become self sufficient possibly from the outset.

* * *

The main consideration during the three government days and three night sessions of the past week were the estimates. The 3 detailed study of each appropriation included in the budget It gives the opportunity to private members of questioning any phase of the operations of any government department. A great deal of interesting information came out of this questioning but often the detail is so varied that to report it fully would require unlimited space

The most important debate resulting from the study of the estimates was a thorough review of the circumstances of Trans-Canada Pipe Lines being able to secure financing to proceed with the project this year.

The total main pipe line contained to cost $300,000,000 is to carry Alberta natural gas to Montreal with a branch line to serve the Minneapolis area of the U.S.A. Its ultimate use anticipated in existing heads of consumption until the U.S. Federal Power Commission has approved Trans Canada's application for the import permit to supply the Minneapolis market. This is a severe blow some hold as the capacity of the line was designed to fill this, with early returns from it making the whole project financially insane. The pressure applied by U.S. coal interests mainly is behind this decision.

Every indication is apparent that the decision will be reserved in the next year or two, but representation of this, investors are now reluctant to put money into bonds that may not be able to meet interest requirements during the first year or two strictly from Canadian markets.

An application by Trans-Canada Pipe Lines for a guarantee by the Government of Canada of interest on their bonds for the initial years was turned down by the Cabinet. No money was requested since this is now arranged providing interest could be insured. The Industrial Development Department of the Bank of Canada offered to purchase part of the bond issue providing they could be secured a majority of the voting rights. This proposal is unacceptable to give producing companies due to this giving possibil-

tion of complete policy changes that could jeopardize huge investments made in development and finding.

The delay is a serious one. The employment potential for the year was of major importance, as well of mutual progress on the development of a huge Petro-Chemical industry being held in abeyance. Every effort is being made to re-assure the scientists with the height of their ambition. Ignore found to receive the possibility of starting construction this year. The Legislature may not be necessary when the current business is completed but requested in order that members could be recalled on short notice to consider the situation.

The Public Accounts Committee was enlarged to include all of the members of the house with Mr Panich M.L.A. for Vegreville appointed as chairman. The committee will sit next week to review and investigate purchase and sale of properties in which irregularity has been charged by some members of the opposition.

Two private members bills of motions, one requesting repeal of the unearned Lucrimum Tax and the other requesting the establishment of a Hansard System of recording the proceedings of the Legislature were lost. The first one on the basis that a million dollars of revenue would be annually if repeal took place and the latter that the cost of a verbatim record would be overweight on unfulfilmen Provincial Legislatures across Canada have not as yet adopted the system of recording used in the House of Commons at Ottawa Alberta will no doubt do so when other Provinces accept the principle that it is warranted

Another resolution by Mr Dowhan, Conservative of Calgary requests in the mean that Mountainous Standards it is our schools be increased. that two year certificates of teachers be re-established, and that the Emergency Teacher Training Act be repealed Debate is presently in progress on the motion with a great deal of information coming out to completely disapprove Mr Dowhan's suggestions that standards are being lowered.

Many Government Bills are now through second reading stage and with prospects of the considerable of the estimates completed it now appears possible to finalize business before Easter

New Issues
Polychemical Industries Limited
(Incorporated under the laws of the Province of Alberta)
25,000 CUMULATIVE REDEEMABLE 6% PREFERRED SHARES, SERIES A PAR VALUE $10.00

These shares are redeemable on 30 days' notice at par, plus a premium of 5 percent, plus all unpaid dividends. Dividends will accrue from 1st September, 1955 from the respective dates of the allotments of shares, whichever is the later.

PRICE: $10.00 per share
(each Preferred share to carry a bonus of 2 Common Shares, without nominal or par value)

150,000 COMMON SHARES WITHOUT NOMINAL OR PAR VALUE
PRICE: $1.00 per share

With the proceeds of the first issue, the Company will build a plant near Edmonton, Alberta, to manufacture plastic finished goods, using plastic materials reproduced near Edmonton. Initially the Company proposes to convert polyethylene into pipe, tubing, sheeting and packaging film, and subsequently to expand into conversion of other plastic materials as warranted by market demands.

SEEDTIME AND HARVEST

By
Dr. F. J. Greenen
Director
Inter-Provincial Farm Forestry
Shelterbelt Program
(prepared by the following representatives of the Inter-Provincial Farm Forestry Shelterbelt Committee: Dominion Experimental Farms Service)

BEST SHELTER WHAT'S IT WORTH?

The staggering losses from past as 1954 have emphasized the urgent need for unbiased research on the rural problem. What financial benefits to the country at large and to the farmers of Western Canada? The question has been discussed by the industrial leaders that storm east of Ontario and has taken in the Prairie Provinces since 1926.

Concrete [illegible] For the [illegible] year, 1939-40, [illegible] 1947 that is before [illegible] and other [illegible] were [illegible] grown [illegible] acreage, since the [illegible] [illegible] [illegible]

FARM VARIETY-PLOT

Our Crop Testing Plan will again distribute, free of charge, to farmers who are interested in growing, at home, a small demonstration plot, seeds of some 20 different varieties of wheat, oats, barley and flax.

This is an opportunity to study and compare as they grow, not only the standard types, but also most of the latest and more promising varieties.

Apply to — "The Crop Testing Plan", Seeds Grain Company, Limited, WINNIPEG, Manitoba.

BLAZE MARKS SCENE OF $1,000,000 FIRE IN ST. LAWRENCE TOWN

Where once stood homes and buildings, all that remains now is rubble after flames razed through heart of St. Lawrence town at Nicolet, Que., destroyed 20 structures for a loss of $1,000,000 and leaving 300 people homeless. A stove exploded in a restaurant while the owner was preparing to close for the night and in a matter of minutes the flames, fed by stiff south wind raced from building to building, scattering sparks and embers for half a mile. Two hours after the outbreak, ruins covered an area of nine blocks in the town. It was the worst fire to have destroyed in a small Quebec community since 1936 when the town of Riverside and Coteau were all but levelled by two fires within a week.

Dubious Charity Appeals Coming From India's Beggars

Usual charity appeals are coming out of India, according to the Family Herald and Star Weekly. These appeals take the form of begging letters addressed personally to people whose names, with addresses, have appeared in some Canadian publication. The Family Herald, with over 600,000 subscribers, receives many such letters, and has had an especially good opportunity to observe these letters.

Individuals in India, seeking charity, apparently obtain copies of the Family Herald either by direct subscription or by having it sent to them by friends, and use it to compile a list of names and addresses of Canadians to which they send appeals. The Family Herald is a rich source of names because it is known for its wide coverage of news events, its popular "Voice of the Farm" readers' forum, and the many consultation services and other services it has always provided for its readers.

The begging letters are often reported and sent to the Editor's attention by Family Herald readers, and invariably describe the dire straits of poverty. Usually a writer of the letter is doing it for some deserving friend or herself as being a deeply faithful person Christian doing missionary work, or attempting to raise a large family. Some of the letters contain a poem of cheap fancy work, or interior workmanship, which they beg the addressee to buy.

Letters are mailed directly to the Editor with the request that the money sent be sent to some member of the staff.

The number of these letters being received has caused the Family Herald some concern. Family Herald subscribers are inclined to be generous to people in distress, and often write letters of encouragement to the writer of begging letters from India. As a result, a delegate is now in India to interview some of the writers of these letters, and to investigate the circumstances behind the appeals. The Family Herald states, because they are almost always printed on a press of some sort, take the latter general form, are always a variation from the same theme in India—East Calcutta. The town is usually Amalgamated.

SEEDTIME HARVEST

By Dr. F. J. Greenway, Director, Lacombe Experimental Farm Service, Winnipeg, Manitoba

Sponsored by the following organizations: Canada Packers Limited, Canada Starch Company, Limited, Dominion Rubber Company, Limited, Robin Hood Flour Mills Limited, Quaker Oats Company.

STOP SMUT LOSSES
TREAT SEED OF OATS AND BARLEY

Field examination has revealed that over 50% of the seed stocks of soft and barley western farmers intend to use in 1955 is contaminated with smut. Every farmer in Western Canada should treat his seed for smut control this Spring.

Seed Control: All the smut diseases that attack oats and barley, covering Loose Smut of barley, can be easily, cheaply and effectively controlled by disinfecting the surface of the seed with an approved seed-treatment mercury compound. Copper, copper seed treatment services to control the seed, patient soft is at a high weight, shrunken or withered seeds from soil borne organisms that grow out of the soil and seedling blight. Seed that is protected against these diseases will produce more uniform stands and higher yields.

Seed Treatments. The organic mercury compounds are the best all-round seed-dusters for oat and barley. The approved seed treatment chemicals include such commercial compounds as Agrosan G, Semesan 34, Leytosan, Ceresan, Panogen, Certan, ample but usually give good control when the best results are to be obtained from any seed treatment. These may be listed as follows: (1) Clean the seed thoroughly before treatment. (2) Make sure the chemical is thoroughly mixed with the seed to ensure complete, uniform coverage of each kernel. (3) Treat seed of barley and oats at least one week before seeding. Avoid over-treating or soaking the seed. Carefully observe the directions accompanying the chemical. (4) Don't feed seed that has been treated with an organic mercury compound to livestock, as such seed grain that is to be used for commercial purposes. (5) Remember that treating seed does not control other kinds of diseases associated with smuts.

Many smut losses in oats and barley could be avoided by proper seed treatment. Buy only clean, treated seed in 1955.

FASHIONS

Prettiness is the keynote of the new lingerie. It is softness of pajama, slip or sleepwear. That charming night dress is fashioned in nylon tricot with a nylon trimmed satin yoke and sleeves and with applique embroidery placed here and there. There is ribbon ruffle at the neck and for the ruffled sleeves. The neckline is elasticized permitting an off-shoulder effect if desired.

Wide Preservers

The Montreal Rocket getting ready to fish the ball coming in more of one's way from ground from a lighter with the top of the fish amid the smoke downpours.

FIFTH IN DISCUS, FIRST IN GLAMOR

—Central Press Canadian

Glamour queen of the Pan-American games at Mexico City, Beatrice Joan de MacDonald, shown, was Canada's first point-winner, placing fifth in the women's discus throw. The 22 year-old Toronto school teacher is among the 70-odd Canadians competing in the 18-sport schedule which winds up March 31. Over 2,000 athletes from 22 nations and territories are entered in the games, which are considered a warm-up for the 1956 Olympics.

Government Aid For Building Municipal Grain Cleaning Plants

By MARCEL CHEVRETTE B.A.
(Continued from Last week)

Cuts on all grain bags are delivered one-quarter of an inch from bottom with border reinforcement. Bins have a steel cross-bar off centering used more are used on grain bags.

All openings, legs, and spouts are in the annex. Screenings can not pass through a hopper, leg, spout or bin which is used for grain.

Experience has shown that standard elevator garner spouts, gin gates, etc., are not safe enough or clean enough for a most cleaning plant. Because of this, we have required special spouting for the different locations in the plant, and also special flat-tight, self-cleaning bin gates. This system of spouting is not only safe and clean, but is very simple and flexible.

By using an electric hoist, for dumping the trucks, which will handle any length of truck from a pick-up to a long base, 3-ton truck, a long dump type hoist is used for the unloading pit, instead of the long open, grate covered type used in elevators.

A twenty ton truck scale is used.

For cleaning equipment, we have installed a four cylinder indent machine, with aspirator and seed scalper, along with a Carter disc wind and screen machine, with aspirator suction fans. After considerable investigation, we are using the Superior Type 4 Indent machine, and either the Crippen 51 2 or the Clipper 24DD wind and screen machine.

The combination of machines is proving satisfactory, both for quality of work done, and for capacity.

All plants are equipped to treat the seed and also for the seed barley diseases and were wants control. A special machine built by C C Cullams of Spokan, is used. This machine is designed to use the old-trusted powder treatments, and is very accurate, and has a capacity of 600 bushels per hour. It is portable over the driveways and is fed from the overhead bins and delivers the treated grain to the bins either outside the building or on the driveway. A special attachment has been developed which makes it possible to use liquid seed dressing through this machine.

As dust is a real fire hazard in any grain handling plant, vacuum dusting fans have been installed in all recent plants to keep this hazard at a minimum, and are giving good results.

The department of Agriculture, as well as assisting in financing the construction of the plant, also assist by supervising the construction, and operating of the plant.

The management is the responsibility of the Board of Directors of the Co-op. Usually same as Member. One Director, the local District Agriculturist, is appointed by the Department. Two are appointed by the Municipal council and two

Farmer Board. The remaining six are elected by the shareholders, for over-lapping terms. All directors except the District Agriculturist, must be bona-fide farmers.

The Board of Directors appoint the Plant Manager, and outline the policy, under which he will operate the plant. The Manager is hired on a yearly basis. Additional help is hired on a seasonal basis as required.

The charges for services are kept as low as possible to cover operating and overhead costs, and to build up a reserve fund. Any surplus earnings above this are returned to the shareholders as interest on share capital and patronage dividends.

There is some variation in the rates charged, due to local conditions. Following is a typical scale of charges.

Cleaning commercial seed, 6 cents per bushel, cleaning farm-saved seed, 10 cents per bushel. Sacking Registered seed in cotton, per sack. Treating seed with powder 4 and a half or 5 cents per bushel. Treating seed with liquid 6 cents per bushel. Charge for handling sacks of seed 2 to 5 cents, depending on quantity. Market cleaning to 1 per cent, 3 cents per bushel. Rough cleaning forage seed $3 per hour or 1 and a half cents per lb.

Cleaning or forage seed and Market grain a dome or 1 at times charge on commercial seed 1 cent in grain cleaned before Jan. 1st next season.

At most plants, non-shareholders are charged 1 cent or 2 cents per bu. more than shareholders.

In order to encourage a better fall run, most plants reduce the charge

The plants, in addition to cleaning and handling farmers' seed are also custom cleaning registered seed for pedigreed growers. The plants are fully valuable as they equipped to clean 50-55 bushels per hour. Most of the plants that were in operation in 1954 are also equipped to do custom cleaning of registered seed.

RESCUED MINER THANKS HIS MANY RESCUERS

Basil Buddy, right, has many men to thank for saving his life as he starts by shaking hands with those he owed gather together in Cabell, Ont. Buddy survived 19 hours underground at a Cobalt silver mine, trapped on a narrow ledge while huge boulders fell past him. His fellow workers dug frantically and passed him sheets of steel through a pipe so that he was able to gradually block the falling stone

New Chevrolet Task-Force Trucks!

It's the largest and finest fleet of trucks ever built by the nation's No. 1 truck builder. Whatever your task or trade, there's a new Chevrolet truck to make or save you money on every job. Come and look 'em over!

New Chevrolet introduces "Work Styling" — an exclusive development in truck design. Plus new engines — new capacities — new Overdrive and Power Steering — new features and advantages throughout!

Here's what happens when Canada's leading truck builder pulls out all the stops! Here are trucks that are new from the drawing board out! And they have a whole truckload of new advantages for you!

A new kind of truck styling. First, functional styling that fits your job! For the first time in any truck line, two distinctly different styling treatments are offered — one in light and medium-duty models, another in heavy-duty. Your handsome new Chevrolet truck will be a profitable advertisement-on-wheels for you and your business!

A new outlook for the driver. Truck driving was never like this! The completely new Flite-Ride cab is everything a driver could wish for, from its big Sweep-Sight windshield to its concealed Safety Step that keeps door of mind or more! The new seat is broader and softer . . . new instrument panel and controls are the last word in convenience!

New "high-voltage" engines. With a new 12-volt electrical system for quicker, surer cold-weather starting and increased generator capacity! Plus more efficient cooling and lubrication systems, an improved fuel system, and completely redesigned engine mountings. They're the smoothest, quietest, most powerful Chevrolet truck engines ever built!

And much more that's new. Like the smoother, load-steady ride . . . new High-Level ventilation . . . tubeless tires, standard on ½-ton models . . . new, stronger frames of standard width . . . New Power Steering* and Power Brakes* for heavy duty models . . . new 195DR 8-ton, G.V.W. in 1700 Series. And there's a new choice of transmission, standard or automatic. Come in and see the newest things in trucks!

*Optional at extra cost. Automatic transmission on ½-, ¾- and 1-ton models.

Cups Remain In Bonnyville

On Thursday, March 24, two Elk Point Women of rinks were entertained by the Bonnyville Women Curlers.

Two games were played for the New Bonnyville Hotel Trophy in a total point affair Mrs McDonnell's rink of Mrs. Dyrda Mrs Bolmey and Miss Loftus lost by the same number of points that Mrs. Hagen, Mrs Bentley Mrs Barwick and Mrs Kovach won, thus a tie resulted. Consequently the cups remains in Bonnyville.

OBITUARY

Funeral services for the late Mrs Edna Augusta Smith of Elk Point who passed away on March 23, 1955, at the age of 57 years, were held on Monday, March 28 at 2 o'clock at Elk Point United Church. Reverend Harry Dey officiated and interment took place in the West Cemetery.

Pallbearers were Martin Loftus, George Jacobson, Ed Kendall, Louie Young, Jens Aarbo and Martin Aarbo. Many beautiful floral tributes were received.

Mr Smith is survived by her loving husband, Mr Frederick Clifton Smith of Edmonton, three sons and two daughters, Fred of Cranbrook City, Deanne and Dennis of Elk Point, Mrs Thelma Smith of Cranbrook City, also one grandchild.

Draw Tie With Bonnyville Team

The old-timers journeyed to Bonnyville by bus last Thursday, March 24th, to play the old-timers in a fast game of hockey. What had started out to be a fun time ended up as quite a gruelling contest. Action was provided by the local boys before and during the game. They blew an early 3-0 lead in the third period when the opponents pumped three goals past goalie Max Dorrick. It was left at a tie.

After the game, the locals were treated to refreshments which they enjoyed enormously.

Local players were Max Dorrick, Peter Dorrick, Martin Aarbo, Harry Silverman, Bully Mikkelsen, Burt Lafee, Bob Barwick, Barry Andrishak, Charlie Hall, Andy Horniak, Eddy Bodden, Bob Quin, Walter Dixon and Barry Kent.

Fewer Attend FBA Meeting

The regular meeting of the Elk Point F.U.A. was held at the home of Don Pinder owing to stormy roads fewer members were able to attend.

A successful dance was held at Spring Park, the proceeds of which will be sent to the Building Fund Board in order to the Spring Park Community for the use of their hall and for their help at various times during the evening.

A motion was passed that the Secretary write the PFA in regard to the letter we have not received their PFA cheques. Any members present please attend the next meeting which will be held at the home of Mr. F Hall

Phone Service To Increase Soon

To celebrate the belief that Elk Point is unable to obtain 24 hour telephone service a delegation from Elk Point, Mr D. Tyson, Mr. M. Mahnic and Mr P. Ferrance visited Edmonton where they conferred with Alberta Government Telephone System officials.

It was revealed that our 120 ring subscribers is to be increased to a 200 ring board and that the prospect of installing 24-hour service within the next few months is very probable.

To date there are 96 combined phones with 24 paid up applications waiting for installation. Any other citizens wishing to subscribe for a telephone please contact Mr D. Tyson or the Toronto-Dominion Bank and submit your application.

How do you choose a Bank?

Probably because you find it convenient and like the people there. Both The Bank of Toronto and The Dominion Bank grew in Canada through many years of close, personal service to their customers in all walks of the nation's life.

That familiar, friendly service will continue to be a dominant feature of The Toronto-Dominion Bank. The experience of the men and women who contributed so much to the progress of the individual institutions is now combined to serve you better.

You'll like the Toronto-Dominion people—and you'll like the convenience of our 450 branches across Canada.

St. Paul JOURNAL

Volume 50, No. 14 THE JOURNAL, ST. PAUL, ALBERTA THURSDAY APRIL 7th, 1955

C.N.R. Abandons Bus Service Proposal

Continue Serving Abilene To Heinsburg By Railroad

Schedules Revised To Connect With Transcontinental Service

After reconsidering at the suggestion of Chairwoman Mrs. Paul, Ella Paul, Lamberth and Hendricks a proposal to transfer passengers and express from train to bus from Ashland to Heinsburg Canadian National officials announced last week announcing that the change has been abandoned.

St. Paul will continue to be served with a daily passenger service and plans for a mixed train down the line to Heinsburg will also provide a daily service.

The letter comes from D. I. Grant, Executive Assistant to Donald Gordon, President of the Railway, in addressed to Mr. J. M. Dorchene Member of Parliament. Mr. Gordon reviews the situation officially.

The letter was forwarded to Mr. Walter Lambert, president of the Athabasca Liberal Association and copies to all Chamberlain concerned.

Mr. Lambert, also received confirmation in a telephone conversation with Mr. Roger Graham, Western Manager. He was informed that CNR officials will be in St. Paul on April 14 to give further explanations. Chamberlain concerned will be invited to take part.

* * *

MONTREAL,
March 28th, 1955.

Dear Mr. Dechene:

This will acknowledge your letter of March 15th and the one of March 18th together with enclosure. I have had an opportunity of looking into the matter to some extent and am sure that a understanding of Western Region officers will be working on necessary 3rd and 4th considerations, such as the re-design of train service in the territory between Edmonton, Heinsburg-Grand Centre Dawson Creek, the abandonment in connection with the agreement of Grand Centre to move their traffic on trains Nos. 15-16 and the re-arrangement of the train service between Edmonton and Heinsburg, at the same possible cost, a plan has been prepared whereby the service would be substituted for rail service for the handling of passenger mail, baggage and express between St Paul and Heinsburg.

A subsequent review of this proposal by the Department of Transport has developed that the number of passengers carried in trains 16 and 15 between Ashland and Heinsburg is not sufficient to warrant operating a railway-owned bus, and it additions it has also been developed that the highway between Ella Paul and Heinsburg is not suitable for winter travel for many months. Moreover, the study of this proposal developed that the highway only passes through St. Paul, Ella Paul, Lindbergh and Heinsburg. These developments confirm that it would not be practical to adopt the proposal for highway operation as discussed at the train service meeting referred to.

Mr. Hawke was sent forced to the railroad His popularity in Vegreville—our Lac western metropolis—zone—at when it was discovered he was an old football player Offered a job (he is a football and paper manager by trade Mr Hawke made Vegreville his headquarters during these turbulent first years he spent in Alberta, playing semi-pro football and finding adventure exploring the wild parkland.

Reclining in his bed, Mr. Hawke recaptured with his usual quiet wit the spirit of the day, relating some of his earlier exploits.

NEW M.D. COUNCIL SWORN AT MONDAY MEETING

Some old legislators and new members on St. Paul's Municipal Council took their place at the council table in sweeping government after a general election held in all divisions. Left to right, Division No. 4: Mr. Ernest Bouchard, Division No. 5: Mr. Paul Lamb, Division No. 6; Mr. Leslie W. Shaner, Division No. 3; Mr. E. D. (Sandy) Shaw, Reeve, Division No. 1; Mr. Art Poirier, Division No. 2; Mr. Henry Lavoueen, Division No. 8; Mr. Armand Lamothe, Division No. 4.

R. Sloan Named New Reeve For Municipality

Armand Lamothe, Deputy-Reeve

Called to order their first meeting after election many councillor, sat at the Council Table to take oath of office and home their reeve. The latter was returned for Mr R. D. (Bert) Sloan who received the only nomination for the position. Mr. Sloan an unremunerable past councillor, well versed in the current affairs of the Municipality, was considered an ideal choice for the chair.

Mr. Armand Lamothe was named Deputy-Reeve to assume the Reeve in case of absences.

General election in all the divisions with new councillor appointments made it necessary to draw lots to determine terms of service for each of the new members.

First three names drawn will serve terms of three years each. They were Mr. E. D. Shaw, Mr. Leslie W. Shaner and Henry Lavoueen. Two year terms went to Armande. Mr. Ernest Bouchard & Art Poirier, Paul Lamb was named for one year.

Before proceeding into the more business, Council moved appreciation of the valuable services rendered by Mr J Hawke, previous reeve, forced to retire because of illness.

Alarm and Search For Last Six-Year Old Brings Out Hundreds Volunteers

BOY BOARDS WRONG BUS TO VISIT FRIEND; FOUND SLEEPING PEACEFULLY

Six year old Raymond Bouchard made a social call Tuesday night which caused grave concern to his parents Mr and Mrs Emil Bouchard of Mile Quatre and sent an army of St Paul volunteers searching half the night and until he was located sleeping peacefully at the farm home of one of his playmates.

The boy left the class room at 3:30 to board a bus driven by Robert Dennis. It was told up about ten minutes, but when he didn't appear, Dennis drove the children home and returned to report the incident to the school authorities who went to his school and couldn't find him.

When he did not appear home at the usual time, the Bouchard's became anxious and started to make inquiries At about 8 p.m. general alarm was sounded calling the firemen, the reserve militia and hundreds of St. Paul citizens who conducted a search directed by Sergeant Hutton of the RCMP and Phil Germain, Fire Chief

A systematic search of the school was made, nearby sloughs, bushes were carefully screened and the route to Blue Quills checked to ease the boy had decided to walk home and met with no accident

It was at about 11 p.m. when an unidentified woman mentioned to Mrs. Bouchard between Raymond and the Chretien boy and believed she saw the two together in the bus. The woman [illegible]

Mrs. L. Therien Is Elected Jayeette Pres.

Mrs. L. H. Dewsin Vice-President

Jayettes met Tuesday evening at the Donald Hotel to close off the year's business and elect a new executive for 1955 They chose for president Mrs. Lorne (Hermie) Therien, a member of long standing and very active in the organization.

Mrs. L. H. Dewsin, was named Vice President with Mrs. Marcel Dewsin immediate Past-President automatically taking over the position of Second Vice President. Mrs. Jerry Shiteh was elected Secretary-Treasurer for the coming year

The board of directors was filled with Mrs. John Bagan, Mrs. Joe O'Driscoll, Mrs. John Van Brabant, Mrs. Maurice Mathieu and Miss Trudy Saumder

Membership committee chairmen of Mrs. Nick Gordy and Mrs. E. Bedard. Refreshment Mrs. Lena Stubel and Mrs. Pat Ferby.

Mrs. Lorraine Dupuis and Mrs. Ramon Bedard were left in charge of the Parade Uniform. Three new ladies received a welcome, two for their direction in this case and for good management in obtaining an increased membership of twelve.

The financial statement presented by Miss. John Bagan in the absence of Mrs. Leonard Bedard was much indicative of a prosperous club, whose funds in the immediate past are turned over to their affiliate organization the Jayettes who in turn directly promote community activities.

The girls are planning their annual banquet to be held some time [illegible]

Testmasters' Table Topics

Here's the line up of activities for the next Tuesday, 12th meeting at the Lavoue Cafe Monday April 11.

Toastmaster, L. H. Dewsin, general evaluator, Marcel Chevrette, table topics, Stan Powers; chairman, Dr. J. A. Melanchuk.

Scheduled five minute talks will be given by Walter Lambert, Mike Pavlyk, Lawrence Ayotte, Alex Farmer, well-known for those will be Speaker Ralph Hamilton, Leo Lamothe, Maurice Mathieu and Jim Devlin.

Speakers of the five minute talks must let the Toastmaster know, several days ahead, the subject chosen.

Secretary - Treasurer Ralph Cancelle informs us that banners for the courses have arrived and are available to the members who wish to pick them up Part of next meeting will be devoted to organizing the program to be followed.

Daniels Confesses To Series Of Local Robberies

Broke In To Four Town Businesses

Mentis Daniels, 23 years, resident of St Paul was apprehended last Thursday after attempted robberies at the NADP and Lambert Brothers store both to confession of previous thefts at St Paul Sales and Service and the Beaver Lumber Yard.

Daniels who has been living in and out to St. Paul the past six months was checked by a policeman on Patrol at 5 a.m. on the morning of the robberies—at the NADP where he entered an adding machine for a cash register and got nothing. Further thieving at Lambert Brothers netted him about $10. in silver taken from the cash register.

After the robbery was reported in the morning, RCMP made further investigation on Daniels and followed him to Vilna where he was taken into custody, apparently attempting to make out of the district

By five o'clock his fingerprints taken from questionable stolen at St. Paul Sales and Service on November 25 and 26th, he was confronted by the series of crimes. Daniels confessed to the theft from the Beaver Lumber on December 11, getting away with a till and about $30.00 in silver. The 11 was recovered, hidden under the floor of the chicken shack at the rear of the premises. Daniels also confessed to the theft from the Lambert Brothers store on the previous morning before 9 a.m. on November 12 when $20 was taken.

Daniels is being held in custody at St Paul Police Cells awaiting trial in the coming session of District Court.

NOTICE

A few trades are to be issued a notice to the effect that unless [illegible] to front should be [illegible] immediately on a called basis.

At this time we send about [illegible] to those in our mailings has been overdone and his funds spent to the point of [illegible] from our system. Loyet at the reserves has dropped dangerously low and unless [illegible] local cannot meet the demand.

We would like to further caution citizens to reasonable use of protective measures during this time of the year. Loyet [illegible] power [illegible] cause.

Now that the Town has purchased a "Towing" outfit of its own, enforcement of service [illegible] would be kept at a minimum.

Membership committee chairmen of Mrs. Nick Gordy and Mrs. E. Bedard. Refreshment Mrs. Lena Stubel and Mrs. Pat Ferby.

Mrs. Lorraine Dupuis and Mrs. Ramon Bedard were left in charge of the Parade Uniform. Three new ladies received a welcome, two for their direction in this case and for good management in obtaining an increased membership of twelve.

The financial statement presented by Miss. John Bagan in the absence of Mrs. Leonard Bedard was much indicative of a prosperous club, whose funds in the immediate past are turned over to their affiliate organization the Jayettes who in turn directly promote community activities.

The girls are planning their annual banquet to be held some time [illegible]

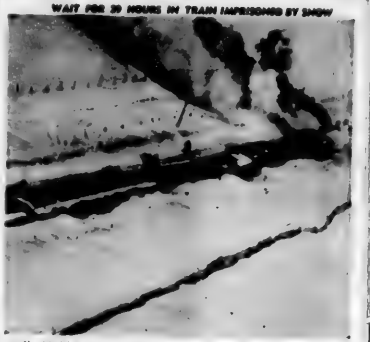
WAIT FOR 30 HOURS IN TRAIN IMPRISONED BY SNOW



Almost buried in snow near Dr. Lavin, Que., this Quebec Central train was stalled for 30 hours in one of the worst March storms in memory. Passengers sang and played cards to while away the hours. When the track was finally cleared and the train pushed into Sherbrooke, townspeople staged a welcome party.

He Is Not Here, He Has Risen

How these words thrill and comfort us. There are no other words in all Scriptures to us who know that where He is there we shall be also. Something that we ever simply blinded by their Master to "witness" This witness by our living Lord has been handed down to us and our hearts respond in a glad Amen.

Although eye has not seen nor natural action can understand the resurrection to us the assurance of the glorious power of life and our overlasting union with Him God reveals Himself to us who believe, directly, by His abiding presence with us.

As we stand by the tomb of there is pain, it was on the Judean at death drives near, we have a sorrow that cannot be eased, a sense and certain witness, that just beyond the river are the gates of life Eternal Life We find that this simple witness is most effective and brings the greatest comfort in the departing soul.

"Hold Thou Thy cross before my closing eyes,
Shine through the gloom, and point me to the skies."

The stone tomb has brought to us an age of fear The empty tomb opens to us the way to eternal peace Greater than the forces of destruction are the powers of God to bring life and restore It we have found life's true basis and life's divine Source As a conscious experience we need not be unduly concerned as to the unknown path before us.

Some 70 years ago, Lyman Abbott, a well known American preacher, wrote the following beautiful thoughts on Christian living —

"I neither know, or wish to know, what the future has for me. I would not if I could, stand at the open window and peer into the unknown beyond I am sure that He whose mercies are new every morning and fresh every evening who brings into very epoc of my life a new surprise and makes in every experience a new discovery of His love, who reveals Himself as gladness with gratitude and sorrow with comfort, who gives the lark for the morning and the nightingale for the twilight, who makes every year better than the preceding year and every new experience an experience of His marvelous skill in gift-giving, has for me some future of glad surprise I would not forestall if I could."

"I fear no foe, with Thee at hand to bless.
Ills have no weight, and tears no bitterness."

Rev. H G Smith,
Hospital Chaplain,
Edmonton.

In Memoriam

In memory of our dearly beloved daughter, Alice Thkinson, who passed away April 7, 1954.

Today recalls the memory of a loved one gone to rest,
And those who loved her best.
The flowers we lay upon her grave may wither and decay
But the love for her, who lies beneath,
Will never fade away.

Sadly missed and always remembered by her parents, Mr. and Mrs. Oscar Johnson, sister Doris and brother Clarence. Her husband Frank Yakimovich and Daughters Pat, Gay and Joy.

NEWSBURG NEWS

Hemsburg is certainly having its face lifted What with everybody housecleaning Gregory and the barber's being remodelled and painted, the M Bucha putting in a laundry and a kitchen cupboards, you'd never know the old place Now! If only we could get some action on the streets You know Mr Councillor, I almost fell in a hole on the corner of 6th and main, right by the small hall to be sure! There's a hole there you could drop our final in.

Ladies Auxiliary held their meeting on the 1st. They decided to call off their Hobby Fair, after all, owing to the terrible road condition and the uncertain state of the roads. A very clumsy about it, after all the correspondence to obtain judges, etc; but all thought it was best We'll try again later so everyone, keep a tab on what you'd like to exhibit and have it ready

Mr Buck assures me that the St. Paul School Board had a meeting at Primula re-garding the busing of school children It seems that half a mile to go to Elk Point and half to Heinsburg The decision will be made at the general meeting at St Paul the month Could be they'll need two buses' No"

Our old timer, Mr S Mazepa is back to stay the summer with his son Walter on the farm He spends his winters in the east with a daughter, where he can so warm and cozy all the time

Our ferry crew got right on the job when the mild weather struck. They had that jigger up in no time flat Keep up the good work Mr Rawson The snow crews are on the job again W Bevyk, J Hrdzuk, C Pinsel hart, and no hugh water You betee change the sign on the other side. SLOW FERRY We know it's slow

George Bartling is back in town for good He had a new accident while away, and almost drowned. You know it's hard digging in winter George, to be careful next time

We have new tenants in J Block's house on the farm. The new Wolchuk man. No doubt he'll come calling on you. I don't know his name as yet But welcome

Talk goes around that Bob Maxwell is building a new home Then should begin before the old hall and Mrs. Maxwell must be getting anxious We would be.

Lucky people the Kapuscha and Mozeps are taking in the big light in Edmonton next week. We'll all listen to you yell, folks, on our radios.

Herby Wigmore in the air knew a thing before her a visit at Stan Plant, but he stayed in at Heinsburg

My them certainly has been a lot of shuffling of cars lately What with Kapuscha getting a new Plymouth. John an almost new Plymouth. W. Fibovich a Ford and Rich McMillie doing a beauty of a job on his Buick. Also two new sequential Sedans. Mr. Tochuk and P Bucha. I mean expecting new cars sequens now

Mrs. Player and Mrs. Horton will be our canvassing for your Red Cross Donation, so be ready and receive them with a smile.

Simple Rules To Prevent Tooth Decay

By DR. L. G. MARSH

Are Germities To Blame?

Is it germicide armed with a vial of acid and small brush that go about dropping acid on our children's teeth, and seem to enjoy behind our best attempts to prevent decay?

We may try to conserve faithfully the rules of mouth health, control diets, as dentists advise, of the teeth after meals—we may feel sure that we have done everything we have been advised to do, only find, later after time, that cavities in spite of all are alarming fast.

So, it is a sad fact that the harm is often done by those who would willingly sacrifice their own health for that of their children — aunts and uncles, grandparents, friends and even parents themselves.

Why should it be that the kindly impulses of these magnificent souls, should so often take the form of gifts of candies, cookies, cakes, soft drinks, ice cream, smothered in chocolate and sweet of dental disease and decay.

Mushy syrups—all these confections that are so perfectly adapted to the development of dental decay?

Why must fond mothers, clasping parting for children, say with one another as laying before their young guests the most delicious display of such foods, whom the children have learned to love and expect?

It has been established that more than half a million children may spent during the year season on candy eggs and animal figures. Is it any wonder it is impossible and in the circumstances perhaps not altogether desirable that our children be forbidden the use of such sweets but the let us recognize the fact that there is a time and place for these things, that will do the least harm. That time and place is after a wholesome nutritious meal has been eaten.

Sweet and starchy substances should never be served, or made available between meals or between meals.

If we can train ourselves and the food relatives and friends of our children to use ingenuity in disproving foodgoes in other, practical ways, if we can train our children to expect sweets only after meals, and to brush the teeth well after using them, we shall have taken a great step forward in the control and prevention of dental disease and decay.

CANADIAN FLIERS TRADE JETS FOR SKIS

Flying an skis instead of its their F-86 Sabre jets many Canadian fighter pilots from the 1st Canadian Air Division in France have returned to Canada. Of 48 Canadians who returned from French Air Force F-O Will Mercer received two weeks of skiing at the winter resort of Megeve, France. Preparing to take the slopes here are, left to right, Flying Officer Ken Chisholm, Winnipeg; Flight Lieutenant Bob Lee-Warner, Montreal; and Flying Officer Ken Ellerton, Toronto. Ellerton was injured in a ski accident at Megeve and is now in hospital in Lachine, Que. Lieutenant Lee-Warner is also in hospital, suffering from a broken leg. The others are in top physical condition, more than pleased with their visit to the ski-playground

LOW-COST BANK LOANS
FOR
HOME IMPROVEMENT

Loans to assist in financing the improvement of existing homes are available under the National Housing Act which authorizes Central Mortgage and Housing Corporation to guarantee loans made by banks or approved instalment credit agencies for additions, repairs and alterations

5 1-4 % INTEREST

The rate of interest may be any rate agreed by the lender and the borrower but must not exceed 5¼% per annum computed semi-annually and not in advance as long as the borrower is not in default.

Loans are re-payable in monthly instalments, together with interest, in three years if the principal amount does not exceed $1,250 in the case of a one-family dwelling or $1,750 per home-unit in the case of a multiple family dwelling. For longer loans the term is five years.

For more complete details and advice call on us today.

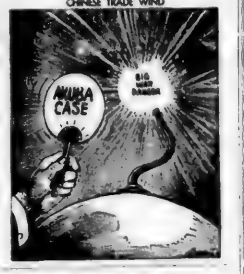
CHINESE TRADE WIND



PEDDLERS SHOULD BE OUSTED

A new artificial cow [illegible] homes are back on the market in Indonesia. The importation of [illegible] ceased during the [illegible] St. Paul and [illegible] the past several months.

We are told that we live in a free country but when how-many-thousand dollars they're put taxes are forced to compete against these stickers, we believe freedom of movement could be improved.

These peddlers remind us that these people are in one table to local [illegible]. For example, on an equal basis a town [illegible] is maintaining an overhead to compete with fly-by-night [illegible] who talk fast and leave town in the same manner.

The [illegible] and [illegible] pay [illegible] reduced prices For a few [illegible] he [illegible] they lack a great number of people and [illegible] business with them. But what happens after [illegible] Where's our guarantee of service? What if something breaks down. Who are you going to get to repair [illegible] These are all good questions and even more. Do you have a [illegible] dealer or run back to [illegible] St. Paul every [illegible] and plead for him to help you out of your problem. Is that fair?

The Town of St. Paul has some kind of a by-law restricting such dealings, but it has become obsolete in the past years and should be refurbished [illegible] more specific ills and catastrophes how this obsolescence can be avoided. Under the present license fees should be increased and different trade and professional [illegible] so as to [illegible] with their influence on the business men.

A traveling service such is not found in St. Paul should be allowed to operate [illegible] a consequence of [illegible] for example, but only in direct competition with an established business should not be allowed except on the same grounds of privilege and location as the local enterprise.

It is our understanding that the town has this problem under [illegible] and [illegible] can and should legislate to keep these invaders out of the town and the immediate district.

THE SEASON AHEAD

When spring comes around each year there seems to be an irresistible temptation to attempt predictions of crop production for the coming season. These efforts are hazardous however, and in the most fortunate years are inaccurate. The outcome of grain crops depends on weather conditions, and weather forecasting in the prairie provinces of western Canada is a most uncertain undertaking.

Long-range weather observations in the prairie regions show that dry and wet periods follow each other at irregular intervals. There is a substantial average precipitation on a six-month April-to-end of summer basis, however, which is more subject to severe droughts than other parts of the prairie regions. In every season a certain amount of moisture has been stored in sample and [illegible] rainfall which is from there that the extra-heavy production of grain has come. No one can say whether the coming season will be dry or wet.

At the present time subsoil moisture appears to be above normal on summerfallow land in almost every district in the province of Alberta. Last autumn was exceptionally dry in the Calgary district only 1 inch of rain fell from September to December inclusive, and that in the form of flurries of September. Nevertheless, abundant rains during August provided a substantial moisture reserve. In that month the rainfall at Calgary was 9.3 inches. Total rainfall from April to the early part of September was 16.6 inches.

It would seem, therefore, that crops should have ample moisture to provide a good start. The final out-come depends on the [illegible] and [illegible] of rainfall in the latter part of May and in the month of June. A drought in June always spells disaster in growing crops.

This coming season Alberta farmers will probably seed 12,980,000 acres to grains of which a little over 6 million acres will be in wheat. The barley acreage will total around 3,600,000, an increase of 347,000 acres over last year. It is estimated that about 1,640,000 acres will be planted to oats, an increase of 286,000 acres. The growing crop will have to run the risks of drouth, hail and insect pests before harvest time comes. Notwithstanding the acreage situation, particularly with wheat, the general hope is for a good crop in 1955.

WHEAT POOL BUDGET

NOT A JOKE

Up to now it's been difficult to get Canadians to take civil defense seriously, says The Financial Post, chiefly because of the wishful impractical mass evacuation schemes proposed for the big cities. It has seemed to most that civil defense against atomic war could be as formidable as to be almost impossible. But increasing information now suggests this view is inadequate.

O. M. Solandt of the Defence Research Board said, "It is quite obvious that a large proportion of the people who are likely to be injured by fall-out after the bomb explosion can be saved from death or injury by suitable guidance and

FBA and AFA Organize

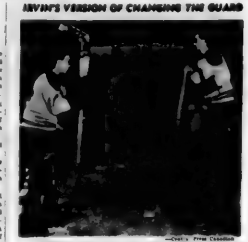
It is announced issued from the FUA Central Office it is revealed that the Liaison committee of the Farmers Union and the Alberta Federation of Agriculture held a meeting in Edmonton March 30th.

Those present at the meeting were: Hughes of Flatbush, Robert Muir of Leduc, F Wilford of Stavely, Archie Hogg of High River and Ub Fennell of Smith. Roy Marler and Henry Young were called in for discussion.

The purpose of this committee is to study ways and means of improving the relationship between the two organizations.

It was agreed that there should be a joint meeting of the boards or executives of the FUA and AFA to discuss further recommendations of the committee. A special committee, consisting of Roy Marler Mrs C Y Armstrong and Henry Young was set up to study and report on the problems of the relationship between the Provincial Farm Unions and the Canadian Federation of Agriculture.

IRVIN'S VERSION OF CHANGING THE GUARD



Buckingham Palace has no monopoly on the changing of the guard ceremony, at least as far as Irvin's version is concerned. Rat tee posters, James Plante, and Charlie Hodge, left are kept hopping as they take turns guarding the pets. Irvin's revolutionary tactics instigated to help the Canadian Sportsmen Show, at Edmonton, appears to be paying off. The show was the first two games, dropped the third, then won the fourth in their best-of-seven Stanley Cup semi-final series.

The Traffic Safety Lane

By J. W. McKAY
Inspector, Highway Traffic Board, Edmonton

Different psychological factors must be considered in a critical study of the relationship between psychophysical optimum and accidents. Each has a definite contribution to make. We will have to depend on the common sense explanation of accidents — such as careless driving, reckless driving, etc. — which is nothing more than a simple accident of circumstance. An athlete's 100 yard dash, for example, is judged by measuring his reaction time, or speed of movement of his limbs. Finger to the laboratory. Are they wrong. Perhaps not entirely. There is something of value in these single measures, they are properly interpreted. As total indicators they are inadequate and will yield low correlation with a generalized pattern of behaviour.

The clinical psychologist has studied certain methods of approach that may be good. He gives certain pencil-and-paper tests. Then by exploratory conversation with the examinee, he derives certain data. By testing the extraneous talks and answers his questions, the examiner arrives at a conclusion. This method has merits. This method used in conjunction with other testing procedure and not as a sole method can be very beneficial to "spot" the accident prone driver.

These methods have been tried in some of the older traffic countries. In some cases they were very beneficial and in others not so good, depending on the examiner's interpretation. But with the volume of traffic that we have in Western Canada, more will have to be done in diagnosing the cause of accidents.

Accident prone drivers will have to learn these privileges of driving until a correction is made, if possible, in their driving life

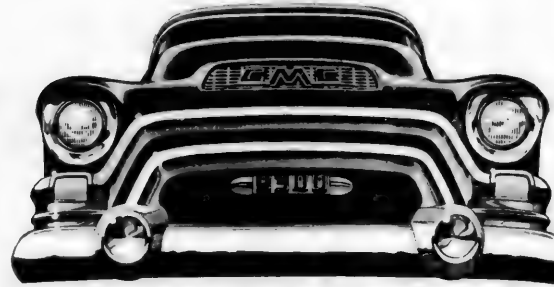
Now! We proudly present

GMC Blue Chip Trucks for 1955



Here to give you better value, better handling and better earnings is the new generation of trucks with more than 500 improvements!

Now we can show you the trucks that were born in the making. The job entrusted all General Motors engineers. But here at last is the BLUE CHIP version of every type and weight truck in modern use.

GMC's BLUE CHIP line supersedes all previous GMC models. It has no less than 500 new features—every one an extra asset to owners.

Smart passenger-car looks—even to a rakish hash windshield with wide-horizon visibility — are backed by unheard-of economy and precision. That means engine-size, frame-size, axle-size and otherwise!

Earning capacities are boosted. Operating efficiency hits heights never before reached. Handling costs are shrunk.

And GMC BLUE CHIP advances go clear across the board. Name your type of work, and there's a BLUE CHIP GM... from dump to Pick-up to 18-wheel tractor—that fits it to a T.

For new values—new prestige of ownership —new ways to better your income—come see the BLUE CHIP GMC's now!

● **GMC BLUE CHIP CABS**
These all new beauties include a cowless 95" dash-purpose cab and model that's easy to service!

● **GMC BLUE CHIP STYLING**
Indeed beauties—with the smart, rakish look of advanced and contemporary-type instrument panel.

● **GMC BLUE CHIP POWER PLANTS**
General Motors has stepped up the power in the mighty GMC valve-in-head 4's. And there are two great new V8's, with valves in the head for maximum power.

● **EXTRA GMC BLUE CHIP HIGHLIGHTS**
- New cabs with panic comfort, wonderful visibility
- New corrosion shields for rough operation
- Better shockless fit for greater maneuverability
- New frames and axles for longer trouble-free service

See it at your GMC dealer's

Mild Successful Easter Tea

The members of the Elk Point Welfare Association would like to take this opportunity of thanking all those who made their Easter Tea such a success.

Mr Jd Mitchell, who conducted a successfully concerned Easter Cake Auction, took the proceeds of $ realized was $11.60. Many thanks was the lucky winner.

Mr. Graham gave his services, distributing sheets and tables to each. Thank you Mr Abinett.

The Ladies' Aid were able to be of town helped by selling tickets and running refreshments for Braves Ball.

The Girl Guides did a grand job serving and selling tickets. The Ladies' Dressmen made table runners and candles. Mrs Ellis and Mrs Hunt cared for the weekly receipts.

Mrs A. Brown made and donated the seasonal tea aprons which were sold by Mrs. Hyde-Lay, Mrs Robson.

Mr Abrahams kindly advertised the event which helped our town people in learning the proceeds made.

The lunch committee, Mrs Hobson, Mrs Sokloski, Mrs Parker, Mrs Beattie, Mrs Flanders and Mrs Trees carried on their usual smooth manner.

Miss Thomas, who previously lived in the district, but now resides in town is many from the country spoke of the bad roads.

The Toronto-Dominion Bank Report — event deal by lending Mr. Ellis, Mr. Hobson and Mr. Hyde-Lay were present at the meeting. Mr. Ellis announced we have to form a new the purchase of the Scout Hall and the Children at their various meeting.

LOCAL NEWS

Mrs Fred Shourdak spent last week in the city, a guest of her daughter, Mrs. Dubois.

Fred Shiels and Beverly were away for a few days visiting Mrs. Shiels's home at Rodney.

Mr Pah had an appendectomy last week in the General Hospital and Mike Hanak spelled the nurses and turned on the alarm.

Responding quickly the volunteer Fire Brigade arrived on the scene and proceeded to quell the flames. An hour later the fire burning embers had the situation under control.

Relaxed to have been started by an overheated furnace, the fire confined to the first floor and the top floor under the roof caused considerable damage and smoke damage. If it hadn't been for the efficiency of the Fire Brigade and the call to arms, a total loss would have resulted. A whole block of the town might have gone up in smoke.

The Fire Chief would like to thank its-standers for their cooperation when they were asked to remain away from the burning building and out of the way of working firemen.

Fire In Shoe & Upholstery Shop

A fire broke out in Dan Woodcock's Shoe and Upholstery Shop early Wednesday morning, March 30, while the owner was in the city. At 4:30 a.m. Jerald Meleski and Mike Hanak spotted the fire and turned in the alarm.

Responding quickly the volunteer Fire Brigade arrived on the scene and proceeded to quell the flames. An hour later the fire burning embers had the situation under control.

Relaxed to have been started by an overheated furnace, the fire confined to the first floor and the top floor under the roof caused considerable damage and smoke damage. If it hadn't been for the efficiency of the Fire Brigade and the call to arms, a total loss would have resulted. A whole block of the town might have gone up in smoke.

The Fire Chief would like to thank its-standers for their cooperation when they were asked to remain away from the burning building and out of the way of working firemen.

Mr. and Mrs. M. Kooley Celebrate Anniversary

A reception was given on Sunday afternoon in Alberta in 1908, March 1908 Mrs wedding anniversary recently.

Mr and Mrs H J Kooley, 11213 104 St marking their anniversary with a family gathering, hosted by a number of friends in Church Centre, Mrs. Hendrickson James Kooley pledged their marriage vows on March 17, 1900 at Huntsville, Ont., and for eight years resided in the district. In 1908 they left their native province and journeyed west to Alberta and settled on the land in the Vermilion district Mr Kooley joined the staff of the Canadian National Railways serving as superintendent in Vegreville. The family moved to Edmonton in 1926 and resided here until 1932 when the call to the land beckoned them back to the good farmlands of Alberta. This time they chose the Elk Point district and farmed the land until 1948 when they moved to Bonnyville.

The couple have three sons and five daughters, and 14 grandchildren. —Edmonton Journal

Blessing of the New Fire, the Paschal candle solemn Procession, the Easter Prophecies, Litanies of the Saints, Blessing of Baptismal Water, Renewal of Baptismal Promises, Solemn Mass of the Easter Vigil with general communion.

It is understood that those who have entered at the Easter Vigil Mass have assisted to the prayer of Holy Mass, the Mass being after midnight.

A few children will make their first Holy Communion during this ceremony.

Easter Sunday

10:30 a.m. Solemn High Mass.

There will be benediction before and after the ceremonies of Holy week, and especially in the evening.

All are welcome to our services.

Rev. Bro. Champagne,
Pastor

Senior Citizen Scrolls for Alberta's Pioneers

For their contribution to Alberta's Fifty Golden Years, all pioneers who were in the Province at the time of its establishment in 1905 or before, will be presented with Senior Citizen Scrolls, upon application. Create will be presented with a beautifully engraved leader of the scroll will contain the name of the pioneer, and the script will identify the recipient as a Senior Citizen. The name will be hand written on each scroll by an artist

● **Who May Apply:**
All persons who have been in residence in the province since the year 1905 or prior, may apply for a Senior Citizen Scroll. A short period of absence does not disqualify you.

● **How To Apply:**
Application must be made for scrolls. Forms are now available at Municipal Offices in each district or from the Judging Committee. Completed application forms are to be sent to the Committee (address below).

CLOSING DATE FOR APPLICATIONS—August 1, 1955

To enable the Jubilee Committee to prepare and distribute the scrolls, your cooperation is requested. Completed applications must be received by August 1, in order, that distribution may begin by August 25.

● **Distribution of Scrolls**
The majority of scrolls will be mailed from the Jubilee office to the applicant, but communities wishing to be responsible for distribution at applicant, but communities wishing to be responsible for distribution at special presentation ceremonies, even prior to August 25, are requested to prepare a list of eligible citizens and ensure that application forms are submitted well in advance of the date scrolls are required.

● **Senior Citizen's Day**
A Senior Citizen's Day has been added to the agenda of official dates for the Jubilee Year. September 16th has been set, as the date on which throughout the province will be holding special Senior Citizen Scroll presentations to coincide with their own Jubilee activities.

Unknown Identity Of Correspondent
This week we received a telephone message on Tuesday morning, unable to publish it because the author did not sign his name.
It is permitted to use these letters in the paper even if the author's identity cannot be published unless the name of the author is on file. Anyone of the letter will identify himself or herself and we will answer his enquiries in giving them votes.

Plan For Formation Of Boy Scout Association
A meeting of the Welfare Association was called for Monday, April 4, at the home of Dr Weegarten to discuss plans for the formation of a new District Council for the Boy Scout Association.
Mrs Tredger and Mr Mildenhall were made district representatives to the new council. Mrs Weegarten was named secretary-treasurer.
Meetings to be held spring & fall in various locations on Beaver Hills. Such a meeting of representatives from Cherry Grove, Ardmore, Cold Lake, Elk Point and Grand Centre, will be held in Bonnyville in April.
The Welfare Committee would appreciate very much having more parents or interested citizens put the group to a no-partisan and non-sectarian basis. Any young people There is a small membership fee of 25 cents payable to the Secretary Mrs Clarence Rose You are urgently invited to join and attend our next meeting at the Scout Hall.
The quilt donated by Mr A Robert is to be raffled on April 16th It is presently on display in Barwick's window.
Card parties on individual homes were planned for May The dates will be announced later.

F. C. Keitges Sets Construction Co.
A transaction of interest to the citizens was completed Thursday last in Lethbridge when F C Keitges Construction Company was sold to the Public Limited Co of Lethbridge and McLeod.
Mr and Mrs Keitges have now made final arrangements for the purchase of the Foothills Motel on Fort McLeod and will be moving to our midst to take over the business May 1st.
We wish them luck in their new venture.

Joint Service At United Church
A joint service will be held in Elk Point United Church on Easter Sunday 10th April at 11 a.m. The Choir of Elk Point will give a special Easter Anthem. All are invited to join us in a happy Easter service.
Preacher will be W. A. Adam.

UNITED CHURCH SUNDAY SERVICES

Easter Services April 17th.,

St Paul 11 a.m. Benediction of the Lord's Supper will be administered following the Reception of members into membership of the United Church of Canada

Bible 3 p.m.

You are cordially invited to join with us in the glad services at this Easter Anniversary of the Christian Church

Rev. Ben Taylor
Minister

The Regular monthly meeting of the W.A. of St. Paul United Church will be held in the Hall at 2.30 p.m. Thursday All Ladies interested are invited to be present.

Art Pinson, District Supervisor for St Paul Utilities was in this week for a routine check of operations.

CNR Abandons Bus Proposal

(Continued from page 11)

Bonnie - Continental" [illegible] mission at each direction, now train No. 1 leaving due to arrive Edmonton at 3.35 p.m., thereby providing connection with train No. 2 for the eastward direction for connection is provided from train No. 25, arriving at Edmonton at 1 p.m., with return train No. 2 due to leave Edmonton at 1.30 p.m.

The latest proposal will not result in any reduction in the presently operated passenger service to and from St. Paul, and also will provide adequate service for the small amount of traffic offering for stations in the area between St. Paul and Heinsburg. The proposed mixed service will adequately take care of Lindbergh Salt traffic and will improve the handling of livestock from that area to Edmonton. Other traffic will also be well taken care of under this suggestion, and the estimated savings in passenger train miles over the present operation will total approximately 600 train miles per week

Yours very truly,
D. I. Grant, Q.C.
Vice-President

Proposed Train Service
(six days per week)

Arena Shows Deficit of $1500 During 1954-55 Season

St. Paul JOURNAL

Volume 30, No. 15 THE JOURNAL OF ST. PAUL, ALBERTA THURSDAY, APRIL 14, 1955

Reconstruction of 28, St. Brides-St. Paul

Jaycees Tender Resignation As Arena Managers

Councillor Charges Commitee of Poor Administration

MEETING RECORDS VOTE OF THANKS FOR GOOD WORK

In presenting the Arena Financial statement and making year's accounting to the Town of St. Paul Jaycees, Stephen Lord, publicity director, announced a $1,500 deficit for the 1954-55 season.

Mr. Max Fenwick, President of the Jaycee Chamber of Commerce, tendered the resignation of four, further announced that the organization has no intention of managing the arena next year and asked councillors to accept his resignation.

No demand was made for the Town to take over or help pay the deficit

In a full detailed explanation of the year's management Mr Pantyk pointed out that the deficit was mainly due to the necessity of hiring players to bolster Hornets entered in the Eastern Alberta Hockey League The team of city staff could not have evened in the [illegible] but minor [illegible] dollars were paid to players each week.

To bail once the deficit, Mr Pantyk suggested a ball for which proceeds from the arena for the last two years amounting to $1794.69, plus a [illegible] amount of free labor donated by the members of the Chamber of Commerce, including surgery, dentistry, to the arena, which is town property, was applied to pay the rent, $75.00 per month, amounting to $1180 owing to the town. Motion on this was made by Mr. John Bashin and seconded by Romeo Bedard

Of the deficit a balance of $1,000 is still owing to business men in St. Paul who are helping the arena.

When discussing the financial statement, Mr. George Perry charged the Jaycee Arena Committee with lack of administration, suggested that the arena should be able to pay for itself. He also advocated a plan of centralized administration in St. Paul should be organized under one body formed with delegates from all organizations.

Mr Stan Powers, member of the delegation, said that the Junior Chamber of Commerce, in its management of the arena was undertaking work out of its sphere of activities, according to the constitution Junior Chambers of Commerce are primarily organized to train and educate young men in public affairs St Paul Jaycees plan to devote more time to this type of activity and leave running the arena on the shoulders of those whose real responsibility it is to do so.

"Jaycees took the initiative in building the arena, but cannot be expected to continue operating it forever," said Mr Powers Other members on the delegation were Mr. Charles Genereux Jr., Arena Chairman and Mr. Louis Lafour jeune.

The meeting voted a vote of thanks to the Jaycees for their good work in connection with and after the best of their ability. Councillors did not accept resignation and requested reduction of the Jaycees, but asked to have the deficiency explained in here the deficiency explained in here with representatives from the Jaycees present. This will be done at the next meeting of Council.

Nine Miles Of Highway Built To Paving Standards

Estimated Cost of $30,000 To $100,000 Per Mile Calculated

Mr Ray Rousseau, Social Credit M.L.A. returned to St. Paul after the Easter adjournment of the session with the good news that plans are completed for the reconstruction of the [illegible] highway 28 from St. Brides to St. Paul.

Tenders are out for building a first class road to paving standards which means that when the time comes the grade can be easily hard surfaced. Although this is not expected for several years it is within the realm of possibility that the grade will be completed during the coming summer.

Plans call for the building of

Secret Revealed

The good truck business is rolling. It's dealer has all popular makes, then sure enough, he gets a call for a used Mack-will-one-quarter ton. Anyone got one? And, if there are no used 5 and seven-eighths ton in stock, then he goes several calls for that sam ite we've gathered up the best variety of truck makes and sizes we could find. You look them over, we've tored of looking at them

• • •

Here's a 1952 Fargo 1-Ton that's in good shape. It's never had a big load, tires and motor are good and there's lots of miles left. Your your today at this one

$890.00

• • •

Plot Uncovered

It's anvisibly reported that all our used trucks have new motors, new transmissions, new tires and many accessories it ain't an A few have but most are just good, reliable used trucks that are extremely safe at the price But depreciation has set in and you can buy for as little as 50% of new price

• • •

Want to economize in a good used truck? Take a look at these dandy 1951 Fargo, Studebaker and GMC's They're as good as new and all reconditioned and guaranteed

$1200

How To Make A Fortune

Competition is tough and like some other dealers, we pay money for used trucks then we sell them for Why? Ask the factory representative. He never is tired of telling you how one or more of these Fine Used Trucks can save you dollars in gas, oil, tires, labor and crossed instruct Lots of water On actual test rests with good proof results

HERE'S THE QUICK RIDE

Mr. Mrs. Miss Smith, Jones and Brown, Lots for sale

HEINSBURG NEWS

Seems like the holiday brought a lot of visitors to the district Among those are the Georges Kenners, Ons Blocks, Jimmy Gregor, Marjorie Gregor, Eddie Bach, Jean Hunt

Also at the farm home of Mr and Mrs G W Horton were the Eric Thomas from Camrose and Mr and Mrs O'Hanlon from Calgary She is a niece of Mrs Horton.

The Easter dinner guests of the Hortons included the above as well as Mr and Mrs Lars Holstrom and Mr and Mrs Bill Holstrom and family Wee, what a crowd!

Among those who went away for the holiday are Walter Pilewich and Dean Mykitiw, who went to Coleman, Mr and Mrs. I. Sherley are visiting in Edmonton The P Burks visited a sister at Grand Centre The Kaspenka and Mesapos took in the big fight in Edmonton.

Bill Haverluk from Vatheuver was here visiting his folks His mother has been recovering from a broken hip, these months here in the Pioneer Home Bill's visit improves why I was told that Bill invented a new window cleaning fluid which is being patented We wish him every success in this but if this is so, we'll certainly miss him in our local hall

Among the various things the Easter bunny dropped, was a sparkler for Eric Horton's girl friend who lives in Bellevue, Alberta

We had a little freezup in town, but he's no small fur has to learn He was caught setting fire to dry grass on the bright lot, but someone came along and put it out under control

Mrs. Grauman is in Hospital suffering from a heart attack Slowly recovery to you, Mrs Grauman

Mrs. Mc Mannus' sister was here in the line of sport last week in the one T Horton is building It looks like the work of a master craftsman Don't believe me" Well come and see it.

Remember about the hole on our street" I mentioned it last week, George Gregor drove right into it His car is damaged severly, so is Mort Raymond, a passenger who pushed his head through the windshield I guess [illegible]

Attention all Auxiliary members, the auxiliary has been advised that there is a special program for members over CKUA every Sunday at 4:45 p.m It may be interesting to listen in next Sun.

Eddie Burk is busy tearing the old jeep apart and putting it together again Could be he's going some place this summer Maybe like the Dodge is getting a down payment on it Where'd you pick up the trade, Eddie"

Seems like our postmaster and station agent aren't too keen about the mixed train coming in so late and going out so early, Sure unGodly hours for anyone to work

Eradication Aim Of Rabies Control In Area

By MARCEL CHEVRETTE

There are several principles which, if followed, will control rabies in any area Eradication should be the aim though, not just control. This is difficult in remote areas where wild animals are infected

1 All dogs should be confined or tied up This is of the greatest importance as most of the human cases originate from dog bites The stray or roaming dog that runs around the country, which, if it becomes infected, may bite people or animals, is the most dangerous dog If all other dogs are confined until they can be caught and destroyed Full co-operation of all dog owners in observing the law concerning keeping their dogs confined is a must

Next in importance, for controlling rabies is the destruction of any infected animal the disease may develop in. Any animal suspected of being infected should be destroyed and tissue examined by a veterinarian. Since every case cannot be diagnosed on clinical symptoms alone and since positive and conclusive proof of rabies can be determined by microscopic examination of brain tissue, it is important that the head of any animal suspected of being infected should be sent to the provincial laboratory at Edmonton for examination.

Another important factor in controlling rabies is the destruction of wild animals, especially in areas where rabies is present. The fox population is on the increase in the north and this number of dogs has increased rapidly in the past few years. Foxes are very susceptible to rabies and are responsible for many cases of rabies in dogs and cattle. Trapping and poisoning are effective methods of reducing the fox population.

Vaccination of dogs should be carried out preferably in the fall of the year, before the number of foxes, coyotes and wolves. Everyone should read a Read it this week

Bounty on fox ears Answer—get a bullet-in from your District Agriculturist

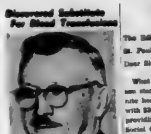
Eligible Substitute For Giant Transformer



DR. G. EDWARD STTINGER
... Answer Free Question

Through extensive expert meditation with the chemical substance known as "Dextrine," one research man at Queen's University Kingston, Ont., was satisfied that it was the perfect substitute for the giant transformer. Dr G. Edward Stringer, dean of medicine assisted by dr Robert E Scagno of the department of physiology have come up with a white powder, scarce one to a person in liquid form and when one is needs stopped and corrected can be dissolved in sterile water for intravenous use. Will not deteriorate for years. The dry powder is the new Dextrine is to come in the corner of the red blood cells when they are exchanged in the distention of vital tissue or other causes.

ST. LINA NEWS

The Little Royal held on the 20th of March at the Vermilion Hotel with a committee was attended by many interested citizens.

Dairy cattle of various breeds were shown in splendid quality as they were excellently shown by the Students of the School Among the dairy cattle there were sheep, swine, worthy mention of milk horses and baby beef was also shown

We were also introduced to the staff who have done a wonderful job in making the school of agriculture a great success.

The girls who did an excellent job of serving, cleaning and getting meals were proud to display those hard worked projects.

In the name of the St. Lina Club we would like to congratulate all those who made this a great success

CORRESPONDENCE

The Editor,
St. Paul Journal

Dear Sir:

What put Aberhart and social new started in Alberta was a definite basis of propaganda, starting with $25 a month for each person providing he or she votes for Social Credit and gets their ticket That sure looked good after the depression we had been through and with all the thumping politicians [illegible] we always with all the wonderful advantages they provide for us, irrespective of the means they use to by. Wake up, its later than you think

In Alberta we have a great wealth in natural resources What heritage have Social Crediters got to cover themselves with Alberta oil and uranium credit is to be unbalanced." What do you think British Columbia voter if it wasn't the Alberta oil royalty that a provincial government is claim the municipal property tax, what right [illegible] have come up with a white powder, scarce one to a person in liquid form and when one is needs stopped and corrected can be dissolved in sterile water for intravenous use. Will not deteriorate for years. The dry powder is the new Dextrine is to come in the corner of the red blood cells when they are exchanged in the distention of vital tissue or other causes.

Is the social credit have done away with and wonder of any town's British districts and our local municipal districts and now the province's student, competitive music festival is on music, and what have we got to be proud of

We are able to talk at right and a ballot box at a provincial election thanks for power to [illegible] though 19 year olds are a right to vote the Bow-ah-ah and Mcmeddie get [illegible] votes, but when it was all over they found their ticket to vote and a lot more Do you remember we had an election last per cent in Lever [illegible] call that an election" Do you remember for a municipal election [illegible] Ottawa that we would have a [illegible] and responsible government and yet we let it slip by Do wonder somebody [illegible] people are not capable of governing themselves properly [illegible] have to be governed We cannot and will not let this happen here What a government we have the people's a lot less than who" we have [illegible] government Where's the credit"

There are red shirts, Lovers shirts, blue shirts, etc., and a government that promises us the shirts off their backs in [illegible] wouldn't [illegible] of the color We contribute to such a system, we are not [illegible] seriously Thanks, we'll wait for the next election when we'll have the outcome of some is quite obvious to us all.

The good is all or nothing and it always ends up with nothing [illegible] Remember or earlier How many people have suffered the consequences or [illegible] control of their own state and especially for [illegible] more than their own people, always in danger for the purpose of improving the conditions for their own state affairs

Maybe one could say "Well, the people of that country were ashamed, or didn't know better, so they allowed that to happen, to let the no few control so many, they earn well deserve what they get." Just look around what's happening here, right at our own children Maybe they should wear uniforms (as already suggested by some) all the color and glory of any hue. Sure they know how to wear out pants out of magazines, but what do they really learn our children? Here's a lot of room for a deep thought and a book [illegible] moment, but whatever it is, the individual instances at last in the masses only the more [illegible] [illegible] (production) is [illegible] Social Credit has lured the best

Yours truly,
Native Son of Alberta.

The Traffic Safety Lane

Types of Tests

In spite of the tremendous number of accident records and the bewildering array of motoring devices, some fairly satisfactory methods have been obtained by experimentation.

In 1912 Massachusetts devised ways of measuring seven eye qualities. He found that the lowest nine-tenths in a type of ability made a poor test for the next seventeen.

His experimenters were issued on the "Action Theory" which assumes that correct thinking will guarantee safety in action. He employed a device consisting of a wooden box covered with plate glass, on or which moved a black-velvet belt, eight inches wide. The examinee fixated a distant car, and at the same time noted a pedestrian crossing his path. Symbols on the belt were interposed to represent pedestrians and certain objects and directions. If the examinee could discriminate correctly actual traffic conditions, his score was high. If not, it would indicate lower intelligence" the type measured. No amount was taken of the examinee's ability to act through reactionary set up.

Somewhat later, Burtt improved on the technique by using letters on a tape. When certain letters appeared, a key was pressed. Correct discrimination were supposed to indicate the ability to react properly. This technique again was modified by Scott & Roberts by cutting strips of film to represent pedestrians and double holes to represent vehicles. During the testing period unexpected distracting noises were given to endure a fatigue factor.

Labs found by similar devices and by so called clinical tests that uniformity or consistency of response was more important than speed of action. The best man as a driver might be slow to react but evaluated only by a safe driver on the other hand he may be quick to respond and accurate, and also be equally safe. The person with inconsistent reactions, slow at one time and faster at another, was the poorest risk. This is understandable in the light of everyday experience and observation of driving performances.

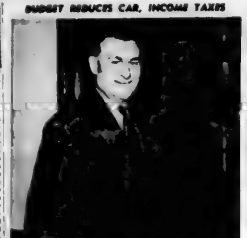
BUDGET REDUCES CAR, INCOME TAXES



Beaming in his first national budget, Finance Minister Walter Harris had the first delight since the war. Some of the tax cuts designed to stimulate the economy were announced, such as the reduction of excise tax on cars. Income tax reductions amounted to ten per cent. Though he budgeted for a deficit, Mr. Harris has hopes that revived economy would reduce the amount to be borrowed.

—Central Press Canadian

COOKRIDGE NEWS

Mr and Mrs Lawrence Bethune of Edmonton were business visitors in the district recently.

The school children are enjoying beautiful weather for their Easter holidays. The roads will soon be dry.

Mr. Sargent, whose contract with water supplies was terminated by B.C. Lumber Gambles accompanied him to spend a few days at the home of his parents.

Mr and Mrs Philip Gambles and son visited his sister Mrs D Zamlak and Mr Zamlak of Elk Point, before returning to his work at Prince George, B.C.

Mr Philip Gambles also visited Goodridge a few days. His winter fishing partner, Mr Theort of Lac La Biche who a visitor at the Gambles home over Easter.

On Monday Mr. Fichert P Gambles and E. Johnson left for Stettler on a business trip. They plan to be away about two weeks.

Saturday saw the return of Mr Cecil Griffith from Cheif Lake where he spent the winter with his brother Edward. He plans to put in his farm.

It is understood another farm transaction has taken place with before the new residents just another auxiliary farm.

Saturday night the FUA monthly meeting at the hall.

Official word was received in the district that the Goodridge School District is now placed in the Bonnyville School Division. This means a change in boundary lines of the L.I.D as some of our district was formerly in St. Paul municipality.

We understand wedding bells still soon be ringing for one of Goodridge And from the hot weekend rumors that June is the month chosen by a fair young maiden for her wedding month.

We are sorry to report Mrs. Cutsdal has been placed in an Edmonton hospital for treatment.

A Directors meeting of the Sports Club will be held at the Hall on Friday evening, April 15th at 8 p.m. All directors are requested to be present.

Cancer Society Conducts Annual Crusade

During the month of April the Canadian Cancer Society is conducting its annual Cancer Crusade for funds with a view to carry on its research, Public Education and Cancer Welfare programs. During that time the Society's thousands of canvassers will have a big school task for they will not only be asking for funds but will be leaving at each home life-giving information.

"As a public service the St. Paul Advertiser has, with the cooperation of Mrs. E. J. Sheahan prepared a list of questions most frequently asked and these are listed below with their answers. During the next few weeks many of these questions and answers will appear."

Questions & Answers On Cancer

Q. What is cancer?

A. Cancer is a wild disorderly growth of cells. It may occur in any part of the human body. These cancers steal the food of the normal cells and destroy their function.

Q. Is cancer a disease of old people?

A. While cancer occurs most frequently in the older age group, no age is free from it. It may occasionally occur in very small children.

Q. Is cancer "catching" or contagious?

A. No. Cancer is neither infectious or contagious. There is no record in medical literature of physicians or nurses getting cancer from their patients.

Q. Is cancer hereditary?

A. There is no evidence that the disease itself is inherited. However there may be inherited tendencies to form cancers of different types but the method of observe Where the disease is common in a family the individual should be doubly alert to any suspicious conditions.

Q. What is the relation of food to cancer?

A. So far as is known, no food nor combination of foods has any influence on the cause or cure of cancer.

Q. Does use of aluminum cooking vessels cause cancer?

A. No. This rumor was traced to its source and found to be false Research has proven that even taking small amounts of aluminum in the diet does not affect the incidence of cancer?

Q. Does cancer come from a single bruise?

A. A type of bone cancer may sometimes result from a single severe injury. It is believed that a single injury to soft tissue, such as the breast, will not cause cancer to develop.

Q. Is cancer increasing?

A. More cancer is reported each year. This may be due to better methods of diagnosis and to the fact that more people live to the so-called cancer age. However, the death rate has decreased among those discovered early and treated.

Special spring showing at your Plymouth dealer's

Put your eye on the buy of the year...

the long, low, beautiful PLYMOUTH

Take a smart look at STYLE

The sculptured beauty of motion-inspired Forward Look puts Plymouth distinctively ahead in style . . . proves it keeps its value high for a very good reason. It's style that gives you extra visibility, extra spaciousness, and a new kind of pleasant convenience—with a ride that's admirably unsurpassed.

Take a first look at PERFORMANCE

This year Plymouth offers a far-ranging choice of power—with Chrysler's Fire Dome and a great new V-8. You'll want to try them on the road and check their lively getaway, luxurious quiet, amazing smoothness. All Plymouth engines deliver their superb performance on regular grade gasoline.

Take a close look at QUALITY

Plymouth's reputation for quality is guaranteed in the full line and entire operation of Chrysler Corporation's 1955 Forward Look. More solid than ever before, and low-priced, too—see your Plymouth dealer soon!

You owe it to yourself to see and test-drive this beautiful new beauty of the highways—the longest, lowest, liveliest Plymouth ever.

You'll find brilliant new colours, now being shown for the first time. And you'll see sparkling new Sportone hardtop styling, now available on Plymouth sedans and other body types.

We've made special plans to let you drive and ride in these new Plymouth models. Don't miss this special Spring Showing of the cars with motion-design for The Forward Look!

See PLYMOUTH'S MOTION-DESIGN for TOP PERFORMANCE 1955!

I WONDER

BY C. R. B.

The views and opinions expressed in this column are those of the writer and not necessarily those of the St. Paul Journal.

If I may reminisce this week and devote this column to how times and people change over a few years Back in 1936, then a resident of Deaghan, Manitoba, where I spent two happy and memorable years, in a lovely town full of charming, talented and friendly people living young at heart, and interested in social activities, within a short period after my arrival, I found myself taking a prime part in a number of musical entertainments, such as choral groups, concerts, shows, operettas, etc.

I must become quite friendly with a chap by the name of Bill Ballard, who was at that time a carpenter's apprentice to Dougherty. We were both active in the same musical group but a lot of rehearsals were slightly at variance to personal matters. If I recall correctly, I was a member of the Masonic Lodge there, and I happen quite strongly to think I became associated with the liberal institution Lake many months after I arrived. Bill left the aforementioned spell was not long after that he became engaged to a very attractive young lady named Ethel Mae Hall, who was a member of the Presbyterian Church choir. I suppose Bill felt the surroundings would be more conducive to domestic felicity. Quite evidently the choice was a successful one.

This past week a newspaper reported Bill and apparently the Social Credit's cemetery theorem failed the ball to perform. Leaving himself on a political career, at the last Manitoba provincial election, he was one of the two Social Credit candidates to be Members Legislature. The other candidate was a well known local man, who was well entrenched in the Dauphin area, and had held many political positions. Both were personable young men, and I have no doubt they would have been elected, but for the fact that the Social Credit party was in the ascendancy at that time, and the Liberals were in the doldrums. Bill was defeated by a very narrow margin of 24 votes. Quite evidently the Dauphin area was not ready to change its political complexion.

Bill's father, a brick mason, died in Dauphin about two years ago, and I had the pleasure of meeting Bill's mother, who was a very charming lady. Bill's mother was a member of the Dauphin Choral Society, and I had the pleasure of hearing her sing a solo at one of the concerts. Bill has a very pleasant personality, which is one of his greatest assets in his political career.

I distinctly have followed his political representation in the Manitoba house, in the newspaper reports, and quite well. I am retained the report of his political activities as a member of the Legislature. Although I have not had the pleasure of meeting Bill for many years, I am sure he has made a very capable representative, and somewhat. Bill has a very pleasant personality, which is one of his greatest assets in his political career.

In May 1939, Bill, then president of the Lions Club, organized and presented a masterful Minstrel Show. The minutes made from this entertainment went towards purchasing glasses for the poor with defective vision, a most worthy cause. The show was well received and a success. One of the acts in this humorous evening was a "Ballet Dance" executed by 4 of men attired in burlesque women's "unmentionables". This attire in itself was sufficient to pull the audience into the aisles, leave alone the ungraceful and awkward dance routine of the clumsy men.

EDITORIAL

TRUSTEE ELECTION NOT NECESSARY

Official word was received this week from the Minister of Education that the Order in Council, P.C. 1955-, Thereon No. 6/55 and Thereon No. 63, has been transferred from the St Paul Separate School District No. 83 to the Bonnyville School Division No. 1, effective from December 31st, 1954.

This will reduce subdivisions in the Bonnyville area extensively. Voters of the school districts affected will be entitled to a sub-divisional trustee next year.

In view of the altered circumstances, a happy solution to the entire problem from both the Bonnyville School Division No. 1 and the St Paul Separate School Division No. 83 has been reached. Instead of taking some $300 to $400 of the taxpayers money on a trustee election, it was decided by the two boards to appoint the present trustees for the ensuing year.

Would any person who contemplates running for the office of Trustee in Subdivision 2 please take notice and please take immediate action. It would be an unnecessary and also costly election.

Bill was the "star" of the ballad. Bill, his appearance, personality, general makeup, purpose in life, and ambitions were of a high, lofty, noble nature. Where are they now? Bill, I have many times wondered what has become of you. Are you still living in Manitoba, possibly in Dauphin, or have you moved to greener pastures? Are you still married to the same girl? Have you any children? Are you still interested in politics? Are you still a member of the Masonic Lodge? Are you still a member of the Lions Club? Are you still a member of the Dauphin Choral Society? Are you still a member of the Dauphin Choral Society? Are you still a member of the Dauphin Choral Society

MUDDY SOUTH SIDE

The inconvenience located on the South side of St. Paul's main street was one complaint in common the question of muddy slop on the street at the best, the middle of June and in some years the situation exists through July and fall.

It's not only a fault that the Town planners of yesteryear did not run the main street north and south instead of east and west to bring out an equal amount of sunshine on both sides of the road.

As it is those of us on the south side are forced by a local by-law to clean up our sidewalks at our own expense, but to what avail when you consider the road that is being tracked off the road onto the sidewalks and the buildings.

Gets to be a mucking the main street, "that is the middle of it and it is north side, cleared up very well this spring. Thanks to the department of public works and the town for periodically removing the snow. But what of the South side problem?

Those of us whose residence are in the same predicament have enough foresight to shovel off the snow and stir it up so it can melt faster Why doesn't the grader pay more attention to the south side and break up the ice so it will melt and flow away Why don't they clean up the gutters and keep them open at all times?

It's not going to be easy. It's going to cost a lot more perhaps, in money and in attention, but to wash every bit of it so that the shopping public, getting out of cars on the south side of our main street does not have to wade through a sheath of mud most of the year. This is something for our Town Council to consider

ONE MAY BE YOUR OWN

Most Canadians believe in protecting their families with insurance. The home is protected by fire and burglary policies. Protection against premature loss of family income generally is provided by life insurance with disability benefits. Family health is safeguarded by hospitalization and surgical policy plans.

But there is a type of personal insurance based on the principle of saving life instead of financially compensating for sickness, disability, or death.

Cancer—the nation's No. 2 killer—took an estimated death toll of nearly 30,000 Canadians last year. It threatens to the same must of our homes by attacking approximately one out of every four of the nation's people at some time in life.

How can we guard against this revenge of the pitiless family enemy?

Cancer Society statistics show that the average victim has a 50 percent chance of recovery—but that can be "insured" only if the patient is treated in an early stage of the disease.

Early treatment of course depends on early diagnosis. Some types of cancer are revealed by easily recognizable early symptoms. Others, known as "silent cancers," can be detected in an initial form only by a doctor

To insure against these enemy that is in ambush for humans, every adult should have a yearly physical check-up. Men over 45 should have a twice-yearly chest x-ray and women over 25 a semi-annual pelvic examination.

The Canadian Cancer Society is underwriting a three-point nation wide program to present cancer facts to physicians and public; to give needed service to patients; and to give financial support to cancer research—the long-rage solution for this menace

To make certain that that life-saving program will continue without interruption you can do it to yourself to contribute generously to the cancer control fund-raising campaign here which runs throughout April. It will pay dividends in lives saved, and one of them may be your own.

WATCH THOSE PUDDLES

When children play in water during the spring the result may be tragedy, warns the Don't Drown committee of the Alberta Safety Council.

Even shallow mud puddles can be dangerous to small children. Records show children have become mired in a mud puddle and fallen forward, drowning in a few inches of mud and water.

In the country, the thawing pond is a source hazard then open water. Children who have played on its ice all winter do not realize that the ice is loosening in spots in spring to support their weight.

Fencing the open water-hole is the only safe way of keeping small children out, but in spring, there seems to be more puddles than children, so fencing in the children becomes the more practical policy.

At this time of year, all small children should be watched while they are outside, unless they are safe from harm in a fenced area. Children of school age should be warned of the dangers of playing in and around ponds, ditches and construction and asked to look after small children who possibly have wandered away from home. Municipal authorities also should be informed of open excavations that have filled with water and become dangerous.

Letting children play in mud puddles during the spring may mean more than wet clothing, lost rubber boots, and colds—it may mean their lives.

PROVINCIAL AND CONSTITUENCY AFFAIRS

By RAY REIERSON, M.L.A.

Efforts to secure an increase in the St. Paul Municipal District's Public Works Grant for 1956 was rewarded by an additional $5,000. This brings the increase to $10,000 or enough to restore the regular grant from $63,000 to $73,000. Bad weather made construction costly and the additional funds were requested to assist in offsetting some of the deficit resulting from this.

The three final days before adjournment until May 10th passed quietly but were filled to capacity in bringing business to conclusion.

The Public Accounts Committee brought in their report which in general terms outlined the report under consideration. It found that no irregularities existed in any department concerned, no member of the cabinet or of the Public Service had committed any improper act, and no evidence was brought out to substantiate the charge of waste and extravagance Members of the opposition termed the report an effort to whitewash the situation and voted against its acceptance.

The final vote in favor was 43 to 9.

Royal assent was given to all bills that had gone through third reading. The marketing act was held up for consideration by the Agricultural Committee when it is in May, at the request of the Federation of Agriculture who oppose the enactment of cattle and sheep from the Bill.

The sitting scheduled for May 10th will concern itself mainly with the problem of delayed construction of the Trans-Canada Pine Lake This delay is considered very serious in view of the corresponding delay on other related industrial developments and the employment opportunities it would have created this year.

In his closing remark, Premier Manning stated that he was fully aware of the fact that the province we have a strong majority on our side of the house is because of the public's confidence in this administration as demonstrated by the polls. During the 20 years in office I said one-quarter billion dollars of the people's money has been budgeted through the Treasury. He had been personally responsible whole Treasurer, for the supervision of very nearly 1 billion dollars of this money. He wanted the public to know that the responsibility was being taken very seriously by the government. Every dollar of expenditure was carefully considered, and the full faith contained by the people of this Province in the integrity of the government was a high tribute indeed to them. He stated further that the reason a greater number did not sit on the opposition side of the house was because the voters did not enjoy the same support as had been our privilege in past elections His reply to the charge made by Mr. Roper that the government left the voters perfect and could do no wrong, was that certainly being human, mistakes could be made, he say but would be foolish, but the greatest care would continue to be taken to avoid mistakes, and certainly any mistakes made once would not be repeated.

OLYMPIC MEDALS NEED NEXT GOAL
...Special Press Canadian
Heading the lucy of Canadian swimmers who ranked with the world's best at the Olympic games was Marilyn Ward Bain Whitehorse. The 15-year-old swimmer picked up two gold medals in 18 minutes and was judged the games' most outstanding athlete on this account After setting a games' record in the 100-metre butterfly, she returned in 15 minutes to win the 400-metre free-style. As all, Canadian swimmers won four events and came close in many others Their performances placed well for Canada's showing in the 1956 Olympics.

He felt that the committee had served a good purpose in proving conclusively that no dishonesty had taken place by any member of the Government or Civil Service involved in any of the transactions, even though the effect was contrary to all principles of justice where any one person suffered monetary the private equity

All leaders of opposition parties stated that the matters given in the committee reports indicated clearly that no dishonesty had been shown in the Executive Council Ministers or Public Servants involved.

Privation Of War Years Great Aid In Tooth Decay Prevention

By DR. L. G. MANDIN

It seems pertinent in Better Nutrition week that Canadian citizens have made positive advances in the dental health of their teeth in the past few years. The results of their examinations during the latter part of the second world war and the years following showed a startling condition.

Before the war, the men and women who conducted the tests found little change, from year to year, in the appalling amount of missing or decayed teeth among the children of those countries. The story was always a discouraging one

In 1939, in London, England, statistics showed that only five children out of one hundred were free from dental decay By 1942 an astounding change had taken place The figures showed that twenty-four out of 100 were free from decay Steady improvement was noted until, in 1947, thirty-seven in every hundred had perfectly sound teeth

From a further study of the work of the researchers, it appears that there may be at least one bright spot in the midst of war and privation.

All the world knows how Britain suffered for lack of normal food supplies during the late war and the years following The Lost Leaders learned what vitamins needed for health. Because we have restricted though adequate food and were served at a few years' meal, usually on seven times the rations to decay that existed under normal conditions before the war

In Italy during the same years of privation a similar improvement of children was found. Italian children were given a diet largely of starchy substances but still the rate of decay was much lower than in England. Why? Because the starchy materia available in Italy was of a coarse natural type, not refined as it is used here. And, of course, there were few if any concentrated refined sweets to be had

In Norway, comparable tests which pre-war figures showed a drop in dental decay of about fifty per cent during those years when the diet was restricted to the coarser natural types of food In this the only way we can bring the same benefits to our children—through the wart and privations that seemingly face later or wars.

The Canadian Cancer Society urges everyone to watch for danger signals that may mean cancer, and shall always mean a visit to the doctor

SCOTT'S SCRAP BOOK

by R. J. SCOTT

Vegreville Observer States Case Of Two Innocent MLA's

An old political crossfit, and fishing friend from Vegreville, in his "observer" had seven given his interpretation of the conviction of Two Social Credit M.L.A.'s. Mr. Horton is an old avowed Liberal.

Mr. Horton's views are often certainly as emotional, to-dent as his old cat, and he knows it. We keep an avowed Liberal paper open to the editorial, but seldom agree, because it has always said he is a wonderful fair old man.

The political sensation of the past few days has been the prosecution of two Social Credit M.L.A.'s from the Legislature We can pass on the suggestion of Mr Pearson, Liberal leader, that the resignations were unnecessary since the members were acting in the House illegally and were therefore not members at all

Technically, Mr. Pearce is probably correct but technicalities can be dismissed in such a case

There is a lot of excellent humour in the situation. It seems that Mr J. C. Lauderyea of Lethbridge and Mr R. Lee of Taber are sort owners of what is called Administrator Bulletin No 2 on 199 St. This property had been confiscated by the Government and the two gentlemen, with their associate, have been profiting from the rental received. There is no suggestion here that they made any undue profit, probably they did not But the Succession Duties Act frowns upon such practices on the part of members of the Legislature In fact the Act forbids it entirely and provides penalties for any members who infringe the law

It seems that the legal firm for the gentlemen concerned had to advise them of their standing under the law Ah, those wicked, wicked, lawyers One would think that they had deliberately led the unsuspecting Mr Lauderyea and the equally innocent Mr Lee into a trap. Shame on them to take advantage of these babes in the woods.

Added humour is given to the incident by the fact that these members are supposed to be law makers. It seems incredible that they did not know the laws they helped frame or at least voted for

Now the Alberta Election Act of which we have a copy under our hand, is very clear, very decisive and very understandable Even a dumb-bell like us, can read it and see what it means, or seems to mean. All Mr Lauderyea and Mr Lee had to do was to read the Act to see what a mess they were in.

Another little touch of humour arises from the fact that Mr. Lauderyea was once a student under the late Mr. Aberhart who taught him mathematics Seems a pity that Mr Aberhart did not also teach him to read No use passing the buck to the lawyers, just read your own law

The kindly and generous Mr Manning gave the two members credit for being honest in resigning Oh sure they were when they got caught.

Both the gentlemen have announced that they will be candidates in the ensuing by-election and feel certain of being elected and thus vindicate Quite possibly they are correct in this. Lethbridge especially in both the Federal and the Provincial ridings, seems to have been full of suckers since 1935 Probably Taber is not better.

A little further along in the Act we notice a provision which is far from funny This provision is that members sitting illegally in the Legislature can be sucked for $200 for each and every day that they sit. This works out to $1,000 a week which in a six week's session comes to $6,000 which is not bay in any language even Alberta But we do not expect the boys to be forced to pony up. It would sure make a hole in the treasury.

Oh well, if Mr. Lauderyea fails to be elected he can always find a job as a cook, chef or culinary expert, or whom he is said to be a dandy Mr. Lee, if he fails re-election, can also hunt up an honest job, perhaps as dish washer for Mr. Lauderyea.

NEW 1955 MERCURY

bigger all over—in size, in power, in value

Now in 3 series, 10 models, the daringly low Montclair, the beautiful Monterey, the budget-minded Custom.

New 188- and 198-horsepower Super-Turbo Overhead-Valve V-8 Engines—the last word in high compression power.

For 1955, Mercury makes the boldest move ahead in the automotive industry—introduces an entirely new, out-of-the-future car that looks and goes like 1960. This year is an all-new-car year for Mercury—new bodies, new styling, new chassis, new engines, new models, new performance!

For example, Mercury's bigger—in length, width, and wheelbase. It's lower—only 58½ inches high in some models. It's more powerful. 188 horsepower in the Custom and Monterey lines; 198 horsepower in the costlier new, ultra-smart Montclair Series.

Here's super-compression, dual-exhaust performance you've never experienced before. For Mercury gives you instant acceleration in every speed range—from a standing start to highway speed limits. You enjoy split-second response in traffic . . . make molehills out of mountains—with effortless SUPER-TORQUE power.

The news is almost endless, for in 1955 you get the most Mercury ever packed into one car. A new Full-Scope windshield. Improved ball-joint front suspension to assure a more comfortable, smoother-than-ever ride. New, optional Merc-O-Matic Drive with faster get-away acceleration at your command. And much, much more . . . a wider range of series and models—the new, ultra-smart Montclair series, the popular Monterey series, and the economy-minded Custom series.

Stop by at your Mercury dealer's. See the big, beautiful '55 Mercury for yourself, and get all the news firsthand!

SUNDAY SCHOOL

Elk Point, 11 a.m.
Hylo, 2 p.m., Vanloo School 11:00 a.m.

A combined service of Elk Point, Heinsburg and Lindbergh churches is arranged on Easter Sunday morning at the Elk Point United Church. The large congregation assembled from the three charges and also from the Anglo Lake Area, south of the river.

A number of children sat at the table of the Church on their own Sunday School chairs, while many very adult had further seating accommodations provided in addition to the already full pews. It was a happy service of worship.

The Choir sang two Anthems "Christ the Lord is Risen Today" and "Christ Arose," led by Mrs C. A. Johnson, choir leader, and Mrs. F. K. Miller at the organ. Many beautiful flowers were brought including Easter Lilies, Hyacinths, Daffodils, Tulips and roses All making a lovely display of nature's exclamation of the Resurrection

This is the Record Easter that the United Church has had a good service which has proved a success in many ways.

Farewell Party For Two From Hospital

Don Bentley's residence on Thursday evening was the scene of a farewell party for Rose Dabylski and Gladys McGinnis who have left the Elk Point Hospital staff.

Following the entertainment of dancing and lunching to records, Mrs Shupert presented the two guests with travelogues. Lunch was then served. Rose will begin work at the Bonnyville Hospital in May. Gladys is still undecided.

Rooney Bjerke To Elk Point And District

The work has dropped in four times during the past two weeks, each time leaving behind a precious cargo to proud parents

Mr and Mrs. George Hodgson of Cold Lake were left with a girl on very early this June Mrs Hodgson is the formerly Miss Dora Lorenson of Mossberry

A boy was born to Mr and Mrs James Rooney of Mannville and another boy delighted Mr and Mrs. John Jones of Derwerville

Ted Paradis New Jaycee President

Chambers Hear Decision On New Rail Changes

Daily Train Service Continues On Line

Four Canadian National Railways officials headed by Mr G E. Dunbar, Division Superintendent from Edmonton met a delegation of Chamber of Commerce members from Bonnyville, Lindbergh, Elk Point and St. Paul by appointment in the room of the complaints on the charge of train service and schedule from Ardmore to Bonnyville.

It was on the main concern a confirmation of notice by Mr. J. H. Dorbener, Minister of Parliament for Athabasca and Mr. A. L. Grant, Executive assistant to Mr. Donald Gordon, president of the C.N.R. which appeared in our April 7th issue.

Mr. Paul set out the reasons to be served by a daily passenger service which will merge into a mixed service during the time to [illegible]

St. Paul, previously on the main line of the Edmonton daily into Bonnyville, has been [illegible] relegated into a subsidiary line, while the Grand Center route [illegible] Athabasca becomes the main line.

Mr Dunbar stated that there has been a nation wide change in all CNR train schedules, going into effect on April 29th, with the new "Super Continental" passenger train to operate.

The schedule in this district has been drawn to enhance the arrival and departure of the "Super-Continental" to provide better connections to enable rural and town passengers to be in Edmonton.

For the reason trains coming into this territory will leave Edmonton later in the morning and arrive there earlier, with a two hour and 30 minute stop over in the city.

Starting out in Edmonton at 8:30 p.m. daily except Saturday, Train No. 26 (Edmonton-Grand Centre) will arrive at Athabasca Junction at 7:43 p.m. where it will be met by Train No. 106 (Sask. St. Paul which will depart at 8:00, arrive St. Paul 8:30 p.m., connect to mixed train No. 105 leaving at 9 p.m., arriving at Elk Point 9:55, Lindbergh 10:25 and Heinsburg 10:55.

In the morning it will leave Heinsburg on its return trip at 8:00 a.m., Lindbergh 8:45, Elk Point 7:30, arriving at St. Paul 7:55, connect to passenger train and on to Abilene to meet the Grand Centre Train on its way to Edmonton, arriving there at 1:10 p.m.

To maintain St. Paul's and the east's regular train service with Grande Centre, the train from St Paul which connects with the main line will therefore be used from St. Paul on this manner.

In the morning either it has departed at 8:30 p.m. daily except Saturday, or will depart at about 9:00 and by here by the day after it returns to Athabasca in the evening to meet the Edmonton Passenger and carry on back south to connect for the evening train. Whether it will stop over remains undecided.

Mail going to Mallaig, for instance will leave St. Paul at about 7:30 p.m., transfer to the Grande Center run and down the line. Return mail from that district will be picked up at 9:30 p.m. in Abilene and sent down this way. Instead of shipping out by 4 in the afternoon, as before, the schedule is delayed in the evening and advanced slightly in the morning.

The new schedules will mean the

JAYCETTES HOLD ANNUAL BANQUET

St. Paul Jaycettes (Auxiliary to the Junior Chamber of Commerce) marked the end of the 1955-56 year of activities with a banquet held on the evening of Wednesday. Pictured above are members of the executive and the working committees which helped to make the year a success. Left to right, Mrs. Lloyd Fenton, Secretary; Mrs. Hubert Demers, Immediate Past President who completed two years as president; Mrs. L. G. Brenik, Vice President; Mrs. Joe O'Brien, Mrs. Lionel Fortier, Mrs. Rene Bedard, Treasurer; Mrs. Theodor Mailloux, Mrs. Ralph Grody and Mrs. Romeo Bedard.

St. Paul Militia Passes Inspection Before Brigadier Jenner, Saturday

Inspection of the St. Paul Troop D & E of the 94 Independent Machine Battery, on Saturday, April 7th in the Rehoul Auditorium was conducted by Brigadier Jenner, Major John Van Straubenzee, Colonel Cormack, Lt.-Col Cameron and Major Hardy Officers in the inspection party Capt Mailloux, C.O., Lt. Paul, Lt. Bedard, Lt. Cyr and Lt. Bellerose. W.O. 2 White and W.O. 2 Dobbie

Following the inspection both troops marched past in review order. The Brigadier addressed the men and public, commencing highly on the drill, drove and being impressed by the said the fine spirit and drill was equal if not better than other Militia units in Alberta.

The demonstration commenced with the burial of a fallen comrade, following syllabus. The ceremony showed a fine drill under command of the RCO's.

W.O. 2 Trotzier turned the parade over to the Major and for a march past and review showing the value of the course and skill, duty and leadership derived therefrom.

Parade was dismissed to the Legion Club Rooms where a Social tea was held for the men, their wives, escorts and Legion members.

Brigadier Jenner took the opportunity to meet members of the Legion and the public during tea upon by Captain H. Mailloux to make an address, he praised the Militia in St. Paul for the fine show display,— and also a very appreciative to the wives of the Militia personnel for being so co-operative and understanding towards the men for the time and effort they spent being absent from home and making the Militia possible.

The interest shown in St. Paul for the Militia was so great, it was hard not to give full recognition to such an eager unit.

He continued that negotiations made with the St. Paul Legion for rental of the Hall for Army training had been completed with satisfaction. Engineers will be in St. Paul, soon to make necessary adjustments, including an orderly

and alarm room. He also informed that would be retroactive to June 1954 and payment would be received by the Legion.

Colonel Cormack who is known to many in both the Legion and Militia then spoke commending on the inspection and how pleased he was to be back in St. Paul to renew acquaintances with his many friends.

He was grateful to the co-operation given him in organizing the reserve unit which he had help start some three years ago. His efforts greatly helped make possible the unit of today

Toastmasters' Table Topics

Mr Mike Panylyk has the honor of acting as Toastmaster for the Monday, April 23 meeting in the Lavoie Cafe. He will call upon Paul Drodz, Alex Rudy, Lawrence Binette and Alex Tannas to make five minute addresses.

Individual evaluators named are Louis Letourneau, Ray Boucher, Greg O'Neill and Lee Lambert evaluating respectively the speakers in the order mentioned

Table Topics will be in the hands of Mr Maurice Mailloux and the General Evaluator Mr R. Comette.

Skakun and Letourneau Elected Vice-Presidents

Junior Chamber Of Commerce One Active Community Organization

MIKE PANYLYK

Retiring President of the Junior Chamber of Commerce who tabled an entertaining report at the annual meeting. Mike received a strong vote of thanks for his efforts the past year

Mr "Ted" Paradis quickly took over the Presidency of the St. Paul Junior Chamber of Commerce from Mr Mike Panylyk at the annual meeting, Tuesday night in the Legion Club Rooms. Mr Wm Skakun was the choice for the First Vice-President and Mr Bill Shaskun was elected Second Vice-President.

In accepting the position, Mr. Paradis expressed his gratitude to the trust and honor bestowed in him. Said Mr. Paradis, "I feel that the Jaycees is one of the most important, the biggest and liveliest organization in Town and I shall do my best to maintain its high premise in the community today."

The jobs of Secretary and Treasurer went respectively to Mr Bill Shelaghen and Mr Lawrence Belcourt. Mr. Mick Gordy, Mr Alfred Bay, Mr Pete Lemire and Mr Ben Colbourne, Mr Ben Powers was appointed Executive Director, a position which the junior body needs very much with the provincial organization.

PRESIDENT'S REPORT

Mr Mike Panylyk in his President's report said "Through the year's activities recently after his term began, the organization received a provincial convention, the first of its kind ever held in St. Paul. A great deal of favourable publicity for St. Paul was derived out of this affair which was very successful — in fact so successful that

Town's Activities

Other enterprises initiated, the annual clean-up campaign, handled by the Jaycee Belle Dames, showing a small profit of $200 despite of adverse conditions, house numbering of St Paul town and business, promotion of a bingo in conjunction with the Curling Club, improvements on the arena, running the dance and building a new lotion, etc., sponsoring of the St Paul Hornets, a difficult task with no team to start Christmas lighting system to embellish the town for yuletide festivities brought to the fore, provision for entertainment of public functions of the Toastmasters Club, and an organization designed to stimulate education and public speaking—some of the more important projects of Jaycees to turn out leaders in society.

Mr Panylyk said "The Jaycees have assumed a position which is envied by many and they are looked upon as such and it will continue to be the keen aim of their ability."

FINANCIAL REPORT

Mr Albert Tremblay presented a financial statement showing a balance of about $500 in the bank at present, however, he noted the $1200 deficit in connection with operation of the arena. The $500 reserve is specifically earmarked for bleacher construction on the Arena.

[illegible]

Representation from the Baseball Club reported on a recent meeting announcing that the St Paul Co-op has volunteered to sponsor the baseball club in the

BUSINESS CHANGES TAKE PLACE

Business changes, involving three firms were made over the week end.

Electric Power and Equipment, owned and managed by Mr. John Tessel and sold the electrical contracting interest and stock to Cameron Building Supplies. The Frigidaire home appliances dealership has been turned over to Bedard and Sons Mr. Ted Reeves of Bruce and Robinson, Redmonton was in town to make the arrangements.

School Busses And Drivers Inspected, Tested

Monday, in town and district and Wednesday in Smoky Lake, Provincial Police Constable Ken Bissonnette of the Highway Traffic Board, Edmonton A meeting of the nature was also held at Elk Point

Conveniently held during the Easter Holidays, the busses were presented for inspection and drivers submitted to psychological tests.

Mr McKay reported that all busses were found to be in very good condition with a credit to the drivers possessed a high standard of physical qualifications.

The Highways Traffic Board keeps close watch on the accidents and by so doing it has maintained the rate at an acceptable yearly clean There is a report of only one child fatality involved in the past decade.

Mr McKay said that bus drivers are being recognized as a conscientious group with a good record

Drivers and busses who passed the tests are

FHA Pleased With Alberta Legislation

In a statement from FUS headquarters, President Henry Young expressed satisfaction over several items of legislation enacted at the recent session of the Legislature. His statement is as follows:

"We are pleased to see that the Provincial Government is taking action on the following matters at the recent session.

1. The special school grant which will make it possible to reduce the school mill rate to 23 mills for operation of schools.

2. The new system of advances to homesteaders for clearing and breaking land.

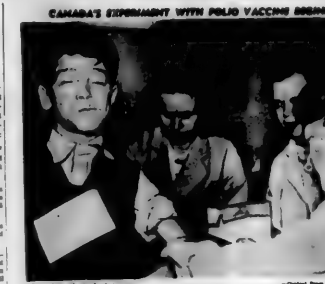
3. Amendments to the Assessment Act which will Apprevent Farmers from being assessed at an extra rate on land leased to oil companies.

4. New regulations to permit the carrying of passengers in the cab of farm trucks.

5. New regulations under which hunters will in future have to get the farmers permission before hunting on his land.

All these matters are FUA policy and we are gratified to have them implemented by the Government. We are expecting final action on the Marketing Act before long and shall continue to work for other items of policy."

CANADA'S EXPERIMENT WITH POLIO VACCINE BEGINS



One of the first of what may be 200,000 inoculations against polio comes Harry Lowendgen, [illegible] age seven, to manfully grit his teeth Harry's school in Toronto was chosen as the one where the inoculations began. Authorities are using Salk-vaccine which was [illegible] tor as suspected, it is possible that need widely in the U.S. last year [illegible] but whose results have not yet been made public. If the vaccinations drawn from the U.S. experiment are not as spectacu- step with Toronto schoolchildren, lar as claimed, Little Harry may be which man, Little Harry may well consider himself a martyr to science.

Cancer as a killer has risen from eighth place in 1930 to second place today, says the Canadian Cancer Society

Record Entry For Alberta Safety Council Rural Essay Competition

A record shattering 32,000 pupils in Alberta rural schools are competing in the farm safety essay contest, according to the Alberta Safety Council, which sponsors the annual event. The period for submitting entries closes April 8

Hon. R. D. Jorgenson, Minister of Public Welfare, is chairman of the Safety Council's essay committee while working closely with [illegible] Allan A. [illegible] Assistant Minister of Education, H. B. Macfarlane, M.L.A., Pincher Creek, Chief Superintendent of the Alberta Safety Council, A. S. Erlandson, and Paul Lawrence, Bonnie Glennon

Entries have been received from 45 school divisions, averaging 1,700 schoolrooms in all parts of the province. The number of pupils already entered is 4,000 more than last year.

The contest is open to pupils in grades 5, 6, 7, in any rural school division in Alberta. The four grades are divided into two groups: [illegible] consisting of 5 and 6, and the other grades 7 and 8

Teachers are to select and send to the superintendent by April 15, as many as two essays written by pupils in grades five and six, and a like number for grades seven and eight. The eight best essays from the division, four from each group, are to be sent by the superintendent to the Alberta Safety Council where they will be judged by a committee while working in close co-operation with [illegible]

CNR MISSION ACCOMPLISHED

For members of Lhembers of Commerce along the line from Athabasca to Hinnisfree, last week's meeting with officials of the Canadian National R . . . ished the goal of a mission. Early, co-operation and co-ordination of the Hennessy, Lindbergh, Elk Point and St. Paul fraternally influenced an effort of decision on a proposed change of schedule and method of transportation to much better advantage for all concerned.

Granted, nothing extra has been provided by the CNR, but we have at least arrived at a compromise which is much better than the initial proposal to transfer mail, express and passenger service to truck and bus transportation from Abbeye to Hinnisfree.

In effect we have lost the convenience of a Mainline service from Edmonton to Hennessy and been relegated to a subsidiary line. As of April 24, the mail passenger will go by bus from Edmonton to Grande Centre, making the connection with St Paul from where it will revert to a mixed service to Hennessy.

Looking at the CNR's problem objectively, in the face of reduced revenues in all spheres of transportation in Canada, they cannot be blamed too much for paying more attention to Cold Lake and Grande Centre which is booming with a forty million dollar National Defense project and is naturally demanding more attention and paying more revenue on its passenger lines, express and freight service.

It is impossible to expect this district to compete with that kind of opposition.

For the moment and the future we were concerned with retaining what we had and that has been accomplished handsomely, although points along the line are faced with changes of schedules, both in passenger and freight which will naturally demand some adjusting of daily routine, but should cause no serious problems and will naturally become accepted in time

An honest effort to satisfy the people of the district in abandoning the bus-truck service has been made, and while some adjustment will be necessary for inability we should try and co-operate and work together on a mutual problem to the same end. We want good service from the CNR and they should do everything in their power to give it to us. This attitude will prove beneficial to both parties and should tend to improve the service

Deliberations of the past month have proved one thing—that unity has a great influence in solving our mutual problems. It also has brought into contact, officials of the CNR and business men of the district, providing an opportunity to discuss unofficially many little problems which have a great influence on general goodwill. We have learned a lot from these officials and we in turn hope they have grasped the overall situation existing here and will govern their policies accordingly.

CAN'T FORGET WHEAT

Failure of the western wheat crop last year was cited by Finance Minister Harris in his budget speech as a major reason for the decrease in our gross national product in 1954. The sharp drop in overseas shipments of wheat, he added, was the chief reason for our decline in total exports.

Mr. Harris did well to stress these important points, says The Financial Post.

In recent years there has been a tendency in some quarters, even at Ottawa, to ignore wheat, to forget that what is still a mighty important factor in our national economy, notwithstanding our great strides in industrialization.

UNEMPLOYMENT INSURANCE

Amendments of unemployment insurance legislation to increase maximum weekly benefits to $30, as proposed by Labor Minister Gregg, will be welcome news to advocates of the guaranteed annual wage. Boosting of unemployment insurance benefits by Ottawa will provide union negotiators with a stiffer up to approximately actual level of earnings while unemployed, will be lost easily to industry because Ottawa, by increasing maximum benefits payable, is helping to bridge the gap.

Main result is that cost to industry of guaranteed annual wage scheme is likely to be greater rather than less as limits of increase in federal unemployment insurance payments. Such payments must be financed out of taxes and will be borne by taxpayers, corporate and private.

Labor Minister Gregg, by choosing this particular time to propose boost in unemployment insurance benefits, has effectively allied himself with union leaders who advocate the guaranteed annual wage, despite the fact that the guaranteed annual wage scheme is recognized as a serious threat to the wellbeing and prosperity of the Canadian economy.

HENSBURG NEWS

Well spring is here to stay I guess. The farmymen along with Mr Herron and his caterpillar have worked hard and steady and had the ferry in by Sunday evening

The farmers are emerging into their fields. Others are a bit behind and are just bringing in their tractors for a bit of repair work, before venturing . Some people about town are seen scratching around their flowers.

H Wenzel, C Isbert and R Mertz were seen racing up the big Hensburg hill last Thurs. Apparently they had a bet as to who'd be the mile winner Mr. Wenzel won

P Buch is now the proud owner of a brand new Ford This is getting contagious around here

Mrs L. Womacks and ladders were visiting their folks this weekend—Lyle now works in Edmonton

The Hotel is undergoing a sersan-operation. It had its stairs removed Mr. Buch performed the I-o and plumbiness is speedy recovery

Stories Mykitow is busy cleaning dishes and ornaments in the hardware The store is beginning to look like its old shiny self again

Mrs Block has been away taking chiropractor treatments last week We hope you'll be feeling better now.

Mr and Mrs Don Lorenson are proud parents of a brand new daughter She has 3 sisters and one brother

Bob Maxwell has begun tearing his old house down That is the spot for the new erection In the meantime they are living in half of the Imperial Lumber House

The Baseball Club has come to life again They've been burning and cleaning the diamond already Also putting on a Dance on the 29th to raise funds for the coming season

One prominent member of Frog Lake reserve caused a disturbance at the hotel last week He is now serving 4 months at Fort Saskatchewan

Mr and Mrs Cosenke had visitors from the States over the weekend

Mr Haverok, who took a trip to the city to visit his daughters, took ill on the way and is now in an Edmonton Hospital

I guess our councillors took heart and his Ari Parenteau filling the big hole on the street. Thanks Mr Councillor

Eric Horton was home on weekend

Mr. Kains is having his warehouse reshingled while Nick Bellas is tearing down the old one at the Imperial

David Player was in hospital recovering from a tonsilectomy

CANADIAN WINS MOHAMMED ALI

Aya Sadly, formerly of Edmonton, Alta., has become the second wife of Mohammed Ali, premier of Pakistan. Under Moslem law Ali may have four wives but so many Moslems frown on that practice that the premier is being criticized at home for marrying a second Miss Sadly, shown pinning a boutonniere on Mr Ali Learned during the latter's tour of Pakistan last year, met Ali in 1949 in Ottawa, set him again when he toured the prairies and again in 1952 when she went to work for the Pakistan embassy in Ottawa When he was appointed ambassador to the U.S., she went to Washington as his private secretary. The marriage ceremony was performed in Beirut, Lebanon.

PROVINCIAL AND CONSTITUENCY AFFAIRS

By RAY REIERSON, M.L.A.

Alberta's Golden Jubilee year 1953 is very quickly approaching the period of celebration. School will initiate the festivities and the observances on June 9th

September, the first Inauguration Day, marks the birthday since September 1st, 1905 was the date on which Alberta became a Province of Canada. This will be commemorated by a program on the Legislature Grounds in Edmonton At nine o'clock in the evening it is hoped that every community, village and Town in Alberta will be the scene of huge bonfires under the direction of local fire chiefs

September 4th has been set aside as a provincial day of prayer to give thanks for the manifold blessings which have been enjoyed by us as citizens during the fifty years of progress

Jubilee Week from Sept. 5 to 10th will include many celebrations throughout the Province with September 10th set aside as Senior Citizens' Day The Senior Citizens of Alberta are without a doubt the group around whose achievements we should pattern our festivals and to whom we should fittingly recognize our appreciation for the sacrifices they made in establishing our wonderful Province.

No better memorial in recognition of these sacrifices could be established than the building of homes for the aged in this fiftieth year Even though this task may appear large it would still be a very small gesture of appreciation to those who did so much to give us Alberta as it is today

Let us all get behind this movement and support it Legislation is in effect whereby one third of the cost will be covered by grant from the Provincial Government and the balance is available on loan at low interest rates.

Fashions

The look for junior dress this season is made up of two parts—a jumper sheath and a topper. Not just any topper, but a topper that belongs. Right in it goes two sets in need for a neat sheath that has a high square neckline and is sleeveless, the color black or cocoa brown. The coat, also in the same cloth, is semi fitted with a shawl collar and white cloth with a velvet color Lined and with such smart detail. It can go gracefully with suits and other dresses.

Simple Rules To Prevent Tooth Decay

"We've the same candy air," said the fellow to the storekeeper, "theme of this and some of that, and a bit of everything you have."

"And how much would you like?" said the storekeeper.

"A billion, eight hundred million children worth," said the fellow.

Alice in Wonderland? No, just fabulous reporting on the consumption of candy in Canada and the United States in one year.

The manufacturers of that candy deemed it worth their while to spend over twelve million dollars advertising their products during the past year.

So much for candy. Add soft drinks, ice cream sodas, bars and sundaes, pastries, cookies and cakes, etc., and if your imagination isn't paralyzed by the results, you may have some idea of the thousands of concentrated, polished sweets normally poured into our systems.

In about the same proportions, we find the effect in the form of cavities.

The other day, one new and learned an enlightened mother having righteously furious because a kindly neighbor had given her three-year-old a dram of pop. A lot of fuss over a trifle? No, because that child had been carefully guarded against developing a taste for sweets. It was a impressively healthy child, having perfect teeth, and the mother hoped to keep it that way.

Displays and advertising make all forms of confections almost irresistible. Add the universal habit of almost forcing those refined sweets on children (they mean kindness to do without the forcing) and any enlightened mother may well quail at the thought of the problem facing her.

Suppose that traces of an acid-forming substance should be discovered in some nationally known manufactured food. Suppose that it should be demonstrated that it would cause the aged in this fifty-year Even though this task may appear large it would still be a very small gesture of appreciation to those who did so much to give us Alberta as it is today

Let us all get behind this movement and support it Legislation is in effect whereby one third of the cost will be covered by grant from the Provincial Government and the balance is available on loan at low interest rates.

THEREFORE notice is hereby given by the Board of the said School Division that unless a poll of the proprietary electors of the said School Division for and against the said debenture loan is demanded as provided by The School Act, the said Board will apply to the Board of Public Utility Commissioners for authority to borrow the said sum by debentures

OF WHICH all persons interested are hereby notified, and they are required to govern themselves accordingly.

Dated at St. Paul this 12th day of April, 1955

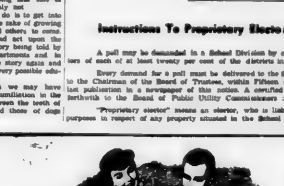
(signed) W. S. GUILLOU
(Chairman)

Instructions To Proprietary Electors In A School Division

A poll may be demanded in a School Division by a demand signed by five proprietary electors of each of at least twenty per cent of the electors in the division.

Every demand for a poll must be delivered to the Secretary of the Division or, in his absence, to the Chairman of the Board of Trustees, within Fifteen days after the date of posting or of the last publication in a newspaper of this notice. A certified copy of the demand must be forwarded forthwith to the Board of Public Utility Commissioners of Alberta at Edmonton.

"Proprietary elector" means an elector, who is liable to assessment and taxation for school purposes in respect of any property situated in the School Division.



All under one roof

A branch of a chartered bank is much more than the best place to keep your savings. It is an all-round banking service-centre that provides services useful to everyone in the community.

In every one of 4,600 branches in Canada, people are using all sorts of banking services. They make deposits, cash cheques, arrange loans, rent safety deposit boxes, transfer money, buy and sell foreign exchange.

Only in a branch of a chartered bank are all these and many other convenient banking services provided under one roof. A visit to the bank is the way to handle *all* your banking needs —simply, safely, easily.

We Are Proud To Announce That We Have Been APPOINTED AS YOUR NEW

FRIGIDAIRE DEALER

We are pleased to announce that we have been appointed new dealers for this popular line of home appliances . . . and can offer our many customers more choice and value when they stop in our store. We guarantee service in Frigidaire as we have in the past in all our other dealings with you. Before you buy home appliances come and see Frigidaire first, at Bedard and Sons in St. Paul.

FRIGIDAIRE ELECTRIC STOVES

STUNNING NEW

Frigidaire Models

Choose From Six Colorful New SUPER REFRIGERATORS

Five models of this new FRIGIDAIRE SUPER REFRIGERATOR that gives you a spacious full-width freezer — a space-making new food compartment — and wonderful storage space on the door. In addition there is a Super 61 — designed for apartments and homes where space is at a premium. Choose from six different models — all big values — all wonderful buys!

May we offer this word of advice to all prospective appliance users in this district. There has been an influx of peddlers going about the district selling various goods at reduced prices. These people offer no guarantee of service on sometimes doubtful materials and will invariably leave clients in the lurch. Buy locally from persons you know who guarantee service on whatever you may buy and wherever you may buy it in town.

Just Like Mom's Only They're A Bit Better

The other day a few of us were discussing our favorites among the many varieties of Canadian fish. One of the men said, "Cod patties are a special favorite of mine I really go for them. And, no one can make them like my mother used to do."

We wouldn't want to argue with our friend, but we're willing to wager that the following recipe will produce golden, light cod patties which will rate high when compared with the memorable flavor of the ones "that mother used to make." If you wish to be honest about it, these will probably taste better than the ones so enjoyable in the past!

Salt cod fish, today, when "processed" correctly, has a mild and delicate flavor, in tender of texture & smooth meats, flecked with colorful bits of sweet pimentos, is the crowning touch for these crisp cod patties—a thrifty, tasty main dish, long-treasured in the Maritimes, which should receive a hearty welcome.

GOLDEN COD PATTIES

2 cups flaked, freshened salt cod
2 cups mashed potatoes
2 eggs, beaten
1 tablespoon butter, melted
1 tablespoon chopped onion
Half teaspoon salt
Eighth teaspoon pepper

Mix ingredients a t least until smooth. Shape into flat cakes or balls, fry in deep fat at 375 deg F. until golden brown. Or shallow fry in hot fat until golden brown.

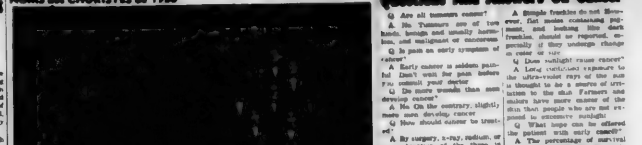
Pimiento Sauce

To one cup of hot, canned white sauce add 2 teaspoons chopped pimiento.

To Freshen Dried Salt Cod

Shred it and wash several times in fresh, cold water. Cover again with fresh cold water, bring to boil Pour off and repeat the operation, depending on the amount of salt in the fish.

NOELS des CHORISTES de 1955



PETER ANTHONY STUDIOS

The St. Paul Choristers are preparing to celebrate this Anniversary on May 15th, 1955. Nearly 200 boys have had the privilege to receive training in the Choir since its beginning. We hope that all our Choir Boys, past and present will be there to sing the High Mass, in the Cathedrale, on May 15th.

The Ladies of St. Paul, who have been so devoted to the Choir all through its history, will serve its members a Buffet Lunch in the early afternoon, at the OFFICIAL RECEPTION, the Choristers will present their Parents and Friends a program of Remembrances.

Les petits CHANTRES de la CHORALE

First row, left to right: Emile Mandin, Arthur Gadi, Cesar Gauvin, Edmond Bedard, Jean Marie Dubois, Alphonse Blondeau, Raymond Cyr, Lorrier Lambert, Kenneth Laird, Gerard Bour; Clément Joly, Albert Bedard, Cornell Mayenberry, Jean Gervais, Roland Thevenet, (secretary); Maurice Mandin, Jean-Marie Pinede, Alcide Bernadine. Third Row: Samuel Meyer, Bernard O'Neil (vice-president); Jean Clet Langlois, Theodore Bressie, Jean Bedard, Adrien Trudeau, Denis Joly. Fourth Row: Keith Cuerrier, William Dalton, Eric Garner, Andrew Brunelle, Laurier Joly, Bernard Genereux (president). Fifth Row: Gerrade Gérard, Marcel Chartrer, Jean Dubeau, Samuel Bedard, Roger Bernadine.

NOTRE-DAME se prépareront à célébrer son 75e anniversaire — cette année 1955. Depuis ses débuts, près de 200 garçons ont eu le privilège d'en faire partie Presque TOUS ceux qui, le 15 mai, pour chanter la Grand'Messe dans la cathédrale de Saint-Paul.

Les Dames de Saint-Paul, dont le dévouement pour le choeur a toujours été une notre admiration, recevront aux Mansions pour le 15e anniversaire un dîner buffet Après ce dîner aura lieu la RECEPTION OFFICIELLE, à laquelle tous les Choristes, les Petits Parents les Amis sont très cordialement invités.

Driver Behaviour

The term "reaction time" is sometimes carelessly used

(1) Simple reaction time the time required to press a key by an alerted examinee upon a given type of sensory stimulus. In other words, you know when you have to do and how to do it but you wait for the given time to do it

(2) Choice reaction time that is the examinee should react if one stimulus appears and should not react if another appears This requires closer attention and involves the use of higher brain centers than simple reaction time

(3) Discriminative reaction time the capacity to react instantaneously under certain conditions but not to react under others, which involves still higher brain centers A simple example is in that if reaction to a buzzer if a green light signal accompanies it, but not to react if a red signal accompanies it or if no light appears

These three types of reaction time are often confused. Each may have relation to only one type of accident.

Another point in regard to reaction time needs clarification. If one has his foot on the accelerator and then places it on the brake, two separate functions or pieces of reaction must be identified There is first of all the time necessary for psychophysical inertia to be overcome secondly, there is the actual time consumed in transferring the foot from the accelerator to the brake pedal The former usually is primarily a mental function, while the latter is primarily physical or physiological

Under emotional stress there is also a possibility of a time lag, due to blocking responses Reaction time is closely related to emotionality This was brought out in the early stages of driver testing The presence of mind was tested by introducing distractions while the examinee was manipulating manual controls. This phase in the study of accident-prone drivers has been neglected.

Another variable interrelated with reaction is intelligence Given a certain state of emotionality and capacity to react in a certain period of time, the more intelligent person can usually adjust more quickly than the person of low intelligence hence he is better able to cope with accident situations In other words he comprehends more easily for his definition.

Questions And Answers On Cancer

Q Are all tumours cancer?

A No Tumours are of two kinds, benign and usually harmless, and malignant or cancerous

Q Is pain an early symptom of cancer?

A Early cancer is seldom painful Don't wait for pain before you consult your doctor

Q Do more women than men develop cancer?

A No On the contrary, slightly, more men develop cancer

Q How should cancer be treated?

A By surgery, x-ray, radium, or a combination of the three in the earliest possible stage of the disease as rare cases, with specific drugs

Q Why should cancer be diagnosed and treated early?

A The earlier a cancer is found, the less likely it is to have spread to adjacent tissues or to other parts of the body Treatment becomes more difficult or impossible when spread has occurred

Q What should a person do who thinks he may have cancer?

A He should go to his physician at once for advice Self-diagnosis and home treatment are dangerous, as they waste valuable time

Q Do freckles ever turn into cancers?

A Simple freckles do not However, flat moles containing pigment, and bathing blue dark freckles, should be reported, especially if they undergo change in color or size

Q Does sunlight cause cancer?

A Long continued exposure to the ultra-violet rays of the sun is thought to be a source of irritation to the skin Farmers and sailors have more cancer of the skin than people who are not exposed to excessive sunlight

Q What hope can be offered the patient with early cancer?

A The percentage of survival rates is relatively high for early cancer adequately treated Statisticians show that successful treatment can be carried out in 95 per cent of early skin cancers, 75 per cent of early breast cancers, 50 per cent of early lung cancers, and 50 per cent of early rectal cancers

Let's Eat

BY
IDA BAILEY ALLEN

Not many years ago, many of us looked down the nose at canned salmon. It was often considered a food to be used at the end of the week when the budget was low

But now, what a difference!

Gourmet Cornish-Baker

Fine quality cold canned salmon, flaked inside and mixed with riced scallions, topped with black pepper and served on lettuce is a good gourmet partaste meal for dinner Pass potato chowder, heated [illegible] flaked canned salmon, chopped shrimps added, becomes a dish meal to arty and appetizing

Canned salmon contains proteins not only comparable to meat, but in the legend there is a high percentage of vitamin D that promotes element essential to sound teeth and supple bones in both children and adults, so seem to contrain the direction of phosphorus and calcium in the body, and plays a vital part in the body chemistry

Tomorrow's Dinner

Chilled Vegetable Juice
Celery Rhinks
Salmon Scallops with Little Herb Whipt Potatoes Buttered Beets
Spinach Cole Slaw
Bread-Butter Custard
Coffee Tea Milk

All measurements are level Recipes proportioned to serve 4 to 6

Salmon Scallops with Little Herbs

Heat 1 can lean bacon, or cook 1 (12-oz.) pkg. frozen lima beans, in either case, save liquid

Drain liquid from 1 (8-oz.) can flaked canned salmon and add liquid from lima beans, fill cup with milk

Melt 4 tbsp. butter or margarine Blend in ¼ cup flour, 1 tsp. salt, ¼ tsp pepper and ½ tsp. worcestershire pickinette Gradually stir in liquid in measuring cup Cook and stir 3 minutes

Remove butter from saucepan Place half the fish in bottom of 1½ qt. casserole Cover with lima beans and sauce Turn into sides 1 cup buttered medium-fine sorbetted bread crumbs Bake 15-20 minutes in moderate oven, 375 degrees F., or until crumbs are brown

Spring Cole Slaw

To 1-lb. crisp fine-shredded tender green cabbage, add 2 tbsp. snipped chives or ¼ cup sliced scallions with a little of the green top, ¼ cup sliced radishes, and 1 grated peeled small carrot. Toss with 2 tbsp. not - sweet French dressing Chill. Blend in ¼ cup sour cream dressing.

Sour Cream Dressing

Combine ¼ cup commercial sour cream, 1 tsp. vinegar, ½ tsp sugar, ½ tsp salt and ¼ tsp. pepper

Trick of the Chef

To chilled canned vegetable juice add 4 drops tabasco and 1 tbsp. lemon juice.

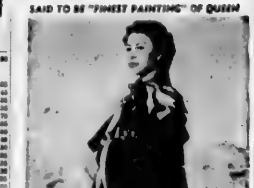
SAID TO BE "FINEST PAINTING" OF QUEEN



—St. Paul's Journal from Colored Print Canadian

Sixth blue cloth of the Garter and background of light blue sky are part of the splendor of this stirring and latest portrait of Her Majesty—considered her finest—by Italian artist Pietro Annigoni. The show is a 3-quarter length study of the Queen, set into the doorway and behind her is a quiet pastoral scene. The British artist was commissioned by the wool-clothed Company of Fishmongers to make the oil portrait for a fee of £3,000.

Zone Commander Lord Installs New Members At Bonnyville

On Wednesday, April 13, Commander Arnaud Lord, Commander Zone of some 4 post his official visit to Bonnyville Branch and installed the officers of that Branch for 1955.

He was accompanied by Commander Maurice M. Mathieu, Jr. Hurtubise, and F. Podlaski of Branch No. 1 of St. Paul.

The following officers were installed: President F. Nietzold, 1st V[illegible] Cecil Marriot, 2nd Vice President Al Vaithem, Secretary, Don MacLennan, Treasurer, George Campbell, Executive, Willi Albert, Jim Baldwin and Walter Bell.

After the installation the Zone Commander introduced the comrades from St. Paul. Comrade Slater, a past zone commander, addressed the veterans in a few well-chosen words among other things complimenting the Branch on their forming of a Ladies Auxiliary.

President Marlboux, of St. Paul Branch expressed his happiness at being present and hoped the members of the Bonnyville Branch would be present at the turning of the mortgage of the St. Paul Branch which will be an important function during the spring summer.

Comrade Hurtubise, a Past President of St. Paul Branch and Provincial Legion worker addressed the Branch members briefly. Comrade Podlaski also expressed his pleasure at being present on this occasion.

The Zone Commander, Comrade Arnaud Lord gave the principle address of the evening which was listened to with great interest and warmly appreciated. He stressed the importance of keeping up a strong membership and Comrade Lord made such a remarkable hit on Legion affairs with the government at Ottawa. He also emphasized the advisability of all Branches being represented at the coming Legion Convention in Calgary June 12-13.

Comrade Lord's duties as Zone Commander are being carried out with excellent results among the various branches.

Since the end of 1st World War, Canadian War Veterans' groups have kept in close touch with federal governments and these veterans view such matters from actual battle experience.

After the close of the business meeting the guests were entertained to a smoker

Canadian Utilities Company Show Good Annual Progress

MR. F. A. BROWN

A substantial growth in company services in the past year and a continued expansion of farm electrification in future years was reported today by F. A. Brownie president of Canadian Utilities Limited, in the Twenty-Kath Annual Report to shareholders

Mr Brownie reported electrical energy sold totaled 88,833,000 kWH 2008.04 more than the previous year Letter revenue was $3,535,775.

Three thousand four hundred new customers were added to the Canadian Utilities power line during 1954, bringing the consumer total to 21,000 now connected to the Fort St. John, Grande Prairie, Vermilion and Drumheller generating plants

Of the 1,646 new consumers 1,200 were farms and Mr. Brownie said the program of farm electrification will continue to be pursued aggressively in future years He said, in the province, some 20,000 farms are now electrified, this being almost 50 percent of the 42,000 which reasonable prospects of electrification power lines has been achieved by months. Private companies, financial assistance to the farmer and the provision of power at cost to the consumer.

During 1954 the company's capital construction program, amounted to $12,540,000 including a gas fueled generating unit at Fairview and the gas turbine generator at Vermilion. The gas turbine is the first to be installed in Canada to generate electricity commercially.

Mr. Brownie said the company anticipated spending $4 or more on capital construction in 1955. The power plant near Peterborough which was the first unit which will be installed in the province. Large capital expansion programs at the mouth of the Hay River

Premier Manning Pays Tribute To 4-H Club Organizations

The extent to which rural youth club progress have contributed to rural living and agricultural development in Canada is impossible to assess adequately," E. K. Manning told the 24th convention of the Dominion Council of 4-H Clubs in his presidential address Tuesday. Hamilton Spectator. But where club work has flourished all the area has prominent and stands as an enduring example of the value of youth training as a means of agricultural extension.

The gate sign, "A 4-H Club member here, marks a road leading to future achievements."

In congratulating Council members and club leaders on their work, Mr. Manning also stated that there is no room for complacency. Although membership has crippled since the Council was formed in 1921, the retiring president pointed out that the percentage of rural youth served by a program of the type and character of 4-H is still at a low level. With rapid changes in the economics of the world, agriculture is changing too and club projects must be revised to keep pace Mr. Manning pointed out that the Council was in a sound financial position and was geared for expansion. He forecasted that further support, if merited, is almost assured for the asking.

Mr. Manning expressed the satisfaction he, personally, had derived from meeting the fine young people in 4-H clubs during his year as president and particularly he commented on the boys and girls who participated in National 4-H Club Week in November, 1954. "Association with these young folks," he said, "Was an inspiration and a challenge to all who shared the privileges of meeting them. One cannot help but be captivated by their keenness of thought broadness of vision and high ideals."

Ben Gamache LLP Candidate

A fairly representative custom of the St. Paul constituency met in St. Paul Wednesday, April 13th to chose a candidate of the Labor Progressive Party for the coming provincial election. Impressive results hopt a monster of the flower ease from attending the convention.

The guest speaker, Ben Gamache, pointed out in his speech that one of our first aims is to fight for power. It is senseless to spend more than half of our budget on maintenance in the assumption that we have to be ready to defend ourselves against attack. Every time we increase our armaments our would be attackers increase theirs by the same amount so we are always in the same relative position.

He also pointed out that the Social Credit boast of having reduced the public debt was effected by the municipal debt having increased from 67 millions to 107 millions during the same period. He mentioned was made either of the rising individual debt for electrical lines rising into millions against already overburdened farmers.

Dan Gamache of St. Paul was unanimously elected as candidate by the convention. In his acceptance address to the convention he said that a large portion of our natural gas is used as active campaign would be carried out to reduce the gas rates and get the ground work prepared to turn the gas ownership to town so the revenue could take care of most of the expenses of the towns now covered by the collection of taxes.

For the farmers the campaign would stress the public ownership of the electrical lines with a refund to the farmers of the sums already paid on the existing lines. The campaign would also cover the possible large revenues to the government from natural gas so as to take care of all present taxes collected from property owners in Alberta in the municipal as well as the provincial field.

ST. PAUL ALBERTA

Fish And Game Association Review Year's Program

(continued from page one)

The Subsection basic fisheries stated the practice of releasing 200 or 300 fish at designated areas having limited spawning or planting 1,000 and 2,000 at one time

The partridge population has been increasing steadily in the past three years. An unofficial spot check by Jerry Steedsman Game Warden re-ods the 1954-1955 counting birds encountered in his travels he reported 5 in 76 in one month in 1953, 60 in 50 and in 1954 from 9 to 10

Brush bunding in the St. Paul area was poor last fall, although districts around were plentiful. It is surveyed many water holes and better feeding grounds there this year.

Dr K W Tenove described the fishing situation keeping in St Paul as one word—scarcity. He named the most popular lakes frequented by St Paul fishermen, catch count therein, methods and interesting statistics we publish elsewhere

Pest Control

Closing of many a rancher's head line cut down the number of crow and magpie. Game Warden explained Mr Wm Arsenault in his report Crow and magpie schools have accounted for a good number of the predators. Statistics compiled indicated that magpies are in the increase and crows are suffering a down grade in population. More co-operation is needed from country children in reducing them, complained. Bodies of them effect and a brushdown of mantime gaol as well as regulations found elsewhere in this paper).

Pests

Mr. Stan Fawcett, Field Supervisor for the Municipality was unofficially called upon to discuss the coyote situation. 10,000 strychnine pellets and 100 crude bait guns were distributed last winter. The guns are not so popular because of the danger element, but are more killers. It is hard to determine the exact effect of the pellets, because many of the animals slink away after poisoning to die in underbrush where they are hard to locate However a rough estimate places the number of coyotes killed in the MD at about 1,000. Control by these methods is much more effective than the old $5.00 bounty pyramid.

BURYING THE SYLLABUS

It was a happy occasion for MCD's of St. Paul's St Nicholas Rectory when they lined up to bury a syllabus which kept them searching and on their toes through an intense course. Proud to have completed their personal exam while they Dave Bondreau tucks in with the corps to start the official burial ceremony.

Warning, however is issued that proper balance of nature must be kept by not destroying all these predators who fill a destined place in the controlling cycle of wild life Coyotes are a great scourge on rats and other small rodents they keep from destroying property.

Mr. Jos O'Driscoll heading the membership committee listed 104 paid up members. There is more room for new blood and an all out drive is being sponsored with the opening of the new term.

George Cyr, regional director, who attended the annual convention at Calgary and the district meeting asked for greater contribution to the provincial organization. It is important that a strong co-ordinated effort be maintained to preserve the fundamental aims of the Fish and Game Association.

The St. Paul branch transacted $433.80 worth of business this year, spending $374.60 for a net profit of $79.80

Complete Executive

President, Phil Germain, Vice President, Dr K W Tenove, Secretary-Treasurer, Will Arsenault, Directors Emile Leroux, Tony Serwein, Leon Fontaine, Stan Powers, W Sutton; Working Committees fish, Dr K W Tenove, Paul Lord, Joe O'Driscoll, pests, Will Arsenault, Stan Powers; membership, Joe O'Driscoll, Louis Lafrenaye, A. A. Lapointe, Paul Lord and Tony Serwein; big game, Emile Leroux; upland game, George Cyr; migratory birds, Paul Letourneau.

Compiled Statistics On Fishing In Surrounding District Lakes

By Dr. K. W. Tenove

The following statistics, facts and figures were compiled by Dr. K. W Tenove for the St. Paul Fish and Game Association. Dr Tenove handed down the report at the Annual Meeting of the Association, Sunday

Regulations

Licenses required only for trout waters — May 16th. to Sept. 15, residents $2.25, 3 day $1.00 (non-residents $5.00)

Land Lakes

St. Vincent, Kalewin (Long Lake); Island Lake, Moose Lake, Old Lake, Corse Lake, Pierre Lake (Trout Lake); Muriel Lake, Smoky Lake, Lac Bellevue, Jessie Lake, Beyne Lake, Fern Lake, Worm Lake.

Lakes For Quality (Dependable)

Kalewin Lake and Fork Lake
Best Summer Lake For Following
Golden Perch — St. Vincent, Wallyred Pike — Kalewin Lake, Moose Lake and Crane Lake, Jack Fish — considered in Muriel, Moose Lake and Crane Lake Lindbergh; Perch — Lake St. Vincent, Sharp Lake and Island Lake (Pear Ibis year).

Angling Rules

Wallyred Pike, slow wobbling plug trolled deep; e.g Canadian Wiggler, Lazy Ike River Runt, Jenfish fast moving with plenty of action, e.g barber pole and most other lures some, being more prominent than others in certain lakes Perch single baited hooks usually with fish eyes.

Ways & Means of Fishing

Slow trolling—very conventional; rowing — some notwithstanding proof, still casting — the most practiced Nothing mentioned of nets, spears, shooting etc

Accessibility

Kalewin — excellent, gravelled highway, 20 hours Long Lake — Pavement, Moose Lake — Pavement, Saseneos, Slough Beach boats, fair roads, Cold Lake — Excellent — roads fair from Provincial, boats and cabins.

Others good dirt roads when dry. Worm Lake, very poor.

Lake Stocking

An extensive stocking of fish has been carried on in the Province of Alberta The following are tried

May-Aug Lac Sante (36-11-4)

Perch	24,333
Pike	82
Pickerel	872
Trout	4,600
Aug Mann Lake	
Perch	12,000
Pickerel	320

The following lakes were tested for limit

Lac Sante, Theodore Lake (Bonnyville district); Good Lake; St Paul district).

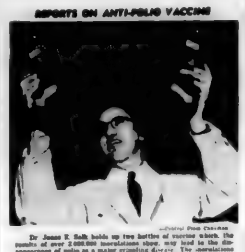
REPORTS ON ANTI-POLIO VACCINE



Dr Jonas E. Salk holds up two bottles of serum which, the results of the vast experiment over not released until April 12. It proved to be 60 to 90 per cent effective and Dr Salk has reason to hope the effectiveness may be even greater than that figure.

Try the drive that's miles ahead! V-8 Meteor!

MORE RESPONSIVE POWER—because of extra engine torque—gives you entirely new instant pick-up you so often need in traffic. In all models you have a 3-way choice of transmissions—standard, gas-saving Touch-O-Matic (hydrafire), new improved Merc-O-Matic Drive* that gives you extra responsive low-gear getaway, and the smoothest of "no-shift" driving!

EVERY MODEL OFFERS AN ALL-NEW OVERHEAD-VALVE V-8 AT NO EXTRA COST! ONLY METEOR IN ITS CLASS OFFERS YOU A CHOICE OF 2 BIG V-8's

Here's a drive like no other drive! Smooth, instant pick-up at all speeds. Remarkable steering ease, and riding smoothness. A feeling of high-spirited pride that comes with being ahead of the crowd.

Meteor is all-new and distinctive, with style-setting beauty outside and in. But even more important—every model is powered by the most modern type overhead-valve V-8 engine—and backed by the experience of the organization that has *built more V-8 engines than all other makers combined.* There's a 162 Hp. V-8 in the Meteor series; a 175 Hp. V-8 in the Rideau and Niagara series. In models equipped with Merc-O-Matic Drive* you have the option of a 182 Hp.* V-8 engine.

See the exciting choice of 13 smart models in four series—Rideau—Niagara—Meteor—Station Wagon—including models priced with the lowest.

*Optional at extra cost

METEOR GIVES YOU A COMPLETE CHOICE OF POWER PATTERNS FOR EASIEST DRIVING

MORE DRIVING EASE! Power brakes* reduce braking effort as much as 80%. Merc-O-Matic Power Steering* does up to 75% of your steering work. Power lift windows* raise or lower by driver's control or by individual window controls. Meteor's 6-way power seat* moves up, down, forward—backward to suit your comfort.

MORE RIDING COMFORT! Meteor's ball-joint front suspension gives matchless road-hugging security, far easier steering. Front springs are angle-posted to soak up road shocks from the front, as well as up-and-down.

The Traffic Safety Lane

By J. W. McKAY

Inspector, Highway Traffic Board, Edmonton.

Reaction time is a phrase on the part of driving ability which a lot of drivers fail to recognize and disregard.

To stop a motor vehicle takes time.

The time it takes to stop a vehicle is made up by a combination of two factors

(1) A driver's reaction time.

(2) The vehicle's braking time

Reaction time is the time it takes from the moment you see an object, recognize its importance — determine your action and produce your action

For instance, you are travelling along the highway. Everything is as normal, very little or no traffic, the road is good — the weather is perfect and a good radio programme coming over the car radio. Then you approach a hill. As you reach the crest your eyes focus on a parked vehicle in your lane. There is another vehicle approaching. Your eyes have picked up these objects — in a moment you recognize a situation — it's danger. You have to think of the action you're going to take — in this incidence it is stop — and then you take your foot off the accelerator and place it on the brake and panic!

This takes time. No two people are alike in this timing. First of all we do not relax to the same degree. It takes longer to arouse one than it does you.

Secondly, my eyes may not be as good as yours. It may take me longer to recognize that the vehicle was parked. It would take me longer to recognize the approaching vehicle. My intelligence does not allow me to make a decision as quickly as yours. I may not be able to move my foot of quickly as you. This is known as reaction time. The average reaction time in cases of this kind is .75 seconds.

Therefore, travelling at 60 mph you are covering 88 feet every second. With normal reaction time (.75 seconds) you will have travelled 66 feet before the brakes of your car take hold.

Reaction time can be measured very accurately. In fact, the Safety Council has found that a result in .30 seconds and it was announced in this manner.

We had a gadget called a brake detonator. It is an instrument that fires 22 caliber blank cartridges on the highway. Here is how it works. The instrument hangs on the front bumper. There are two barrels in the cartridges and the ends of the barrels are dipped with yellow chalk (the last part to the highway). As a vehicle and man comes around the end and plugs in the cigarette lighter so the machine is electrical. At other end is fastened to the brake pedal by a clamp. The instructor sets in with the driver and he holds a stop watch.

The driver is instructed to drive the vehicle at a speed of 30 mph. As soon as he hears the first shot he is to apply the brakes and stop. A .30 second stop the chalk will have been on the ground. The second shot will have been fired. The distance between the two marks is the reaction time that elapsed between the two shots.

The distance between the two marks is the reaction time that elapsed between the two shots. This is where the term "Perception Reaction Time" is derived. Perception Reaction Time is the time it takes from the moment you see an object, recognize its importance — determine your action and produce your action

Fashions

There is a new line to be seen in this trend coat, a line that balances nicely the fitted silhouette with the easy cut; the result is a smart semi-fitted look. The evening curves from under the arms down either side of the front in a princess line that is broken by the flare of the pockets. Drop shoulders and narrow sleeves are other details. The fabric is a loosely woven, fine tweed, makes this a coat that is fun, attractive and versatile.

Question Of Disposal Of Excess Wheat Surplus

The statement so frequently and that at any given time, the heard that there is better no price effort in of matter importexcess wheat surplus would be ance, in relation to the quantity eventually. The fact exists and of wheat consumed in these is perfectly possible to impose of all countries. the wheat on the North American Continent and have no other parts Another interesting point brought of the world who are saving and to us from various sources have stockpiling wheat at just been made shown that people what price. Many doctor have with very low incomes and low the number of cigarettes, and standards of living have a tendas wheat production remains at ency to increase their consumpa fairly high level, as long as tion of wheat for food when init is possible to expand comes rise. However, at higher export markets for income levels, the reverse situwheat as sales cease there will ation appears to be the case in be problems of surplus. other words, beyond a certain point, further increases in income are accompanied by decreases in wheat consumption. The fact that the standard of living has reached a fairly high level on this Continent therefore, is probably a certain explanation of the steady decline in the per capita consumption of wheat in the U.S.A. and Canada since the turn of the century

SOON TO TRY CHANNEL SWIM

—Central Press Canadian

The English channel with its treacherous tides, currents and icy water, is the latest goal of Canada's champion Lady of the Lake, Marilyn Bell. The 17-year-old conqueror of Lake Ontario also has been offered over $75,000 to swim the Columbia river to the Pacific coast this summer, but she has decided to try to channel swim.

Tickets for this Square Dance attraction may be obtained at Bedard's and Hutch's Drug Store at One Dollar per Couple. Only will be limited. Be form your square and obtain as much as possible, preferably before

Death Traps For Children In Old Abandoned Ice Boxes

Old abandoned ice boxes are veritable "death traps" which still are taking a toll of children whose average age is five years, according to a warning issued by the Alberta Safety Council.

From May 1st September is the critical time of the year. During this period, children have leisure time for outdoor play and discarded airtight cabinets with locks or hinges that provide enticing hiding places

Already there have been reports elsewhere of youngsters having been suffocated in discarded ice boxes. Children also become locked in refrigerators, freezers and other airtight cabinets for many reasons

In Alberta, there are many of these abandoned ice boxes They are becoming more numerous each year as purchases of new refrigerators are of a steady increase.

Discarded refrigerators can be made harmless in several ways The first and best, of course, is to remove the door. Another way is to remove the latch stop, so that the door cannot latch Another solution is to drill holes in the cabinet and remove the gasket or destroy the lock mechanism.

Schools and civic organizations might well start a community program which would result in boxless garages and other merchandising out, hauling away and destroying these abandoned ice boxes and freezers

In Edmonton, there is a bylaw which says no person shall leave a refrigerator or ice box that is locked and capable of being opened by hand, at any outside location accessible to children, or in an unlocked storage building that may be entered by children. This is an effective unless measures have been taken to prevent such ice boxes from closing by removing the door handle mechanism or door hinges or wholly removing the door.

The Edmonton Bylaw also gives the medical officer of health the right to order that provisions of the bylaw referring to old ice boxes or refrigerators be complied with at any charge against the person violating the bylaw. Further, no person may deliver or dispose of such receptacles at a public garbage disposal dump or shall abandon such in a public place, or on any place where access by children at play appears possible unless the dangerous character of the receptacle has been removed

Children should be taught that they must not play in old ice boxes and they should report any they see to their parents

THEREFORE, notice is hereby given by the Board of the said School Division that unless a poll of the proprietary electors of the said School Division for and against the said debenture loan is demanded as provided by The School Act, the said Board will apply to the Board of Public Utility Commissioners for authority to borrow the said sum by debentures

OF WHICH all persons interested are hereby notified, and they are required to govern themselves accordingly.

Dated at St. Paul this 18th day of April, 1955

(signed) W. E. GULLION
(chairman)

Instructions To Proprietary Electors In A School Division

A poll may be demanded in a School Division by a demand signed by five proprietary electors of each of at least twenty per cent of the districts in the division.

Every demand for a poll must be delivered to the Secretary of the Division or, in his absence, to the Chairman of the Board of Trustees, within Fifteen days after the date of posting or of the last publication in a newspaper of this notice. A certified copy of the demand must be forwarded forthwith to the Board of Public Utility Commissioners of Alberta at Edmonton.

"Proprietary electors" means an elector, who is liable to assessment and taxation for school purposes in respect of any property situated in the School Division.

ST. PAUL HAS PARKING PROBLEM

A good healthy indication that St. Paul is growing and drawing more trade is found in the parking problem which we are now faced with on busy market days, in fact on nearly every day of the week.

The time has come ... a more consideration of improving our parking facilities has arrived. Streets have been reorganized in the past, but not much effort has gone into finding ways and means of solving the situation.

We are completely in accordance with the civic affairs committee of the Chamber of Commerce who brought it up for discussion at a recent executive meeting with recommendation following to the town who can legislate in this matter.

It has been suggested that some sort of marking system be inaugurated to direct traffic to certain specified lines and at the proper angle to allow maximum parking. That would certainly help, because one can walk down the street and count the empty holes which are just too small for a car to squeeze in and are going to waste.

Employee and employer parking on the back lots of premises would greatly relieve the congestion. A man who walks into an office for a days work is impacting on the public desire to keep a space that could be used by a potential customer, sometimes far away from St. Paul. Every means should be used to make shopping for these people as convenient as possible.

Stop signs at the wrong intersection also were claimed as a nuisance by the Minister of Commerce with sound justification. Why should a busy thoroughfare leading to the station be hampered by a stop sign at the top of a hill which makes it all the more dangerous. Through traffic should run north and south with no interference, as is the case with most big cities.

Truck parking has not improved although a law says they must confine themselves to special lots and streets. No truck larger than a half ton is said to permitted to park on main streets or any of the streets leading immediately onto the main avenue. Huge boxes jutting out from the curbs create blind alleys at intersections, preventing vision from determining if the approaches are clear. How many times we have exited into main street from behind one of those obstructions, to jam on the brakes to avoid a head on collision with cars moving along the main drag. Furthermore it is not fair to the business who must sacrifice good tax frontage.

These matters will be pursued further by the Chamber and brought to the attention of the council for remedy.

We went the people to shop in St. Paul and we should make it convenient for them to do so. If they have easy access to the facilities in our town they will come back to spend more of their dollars when all add up to build and develop our progressive community

KNOW HOW TO USE EXTINGUISHER?

What do you know about fire extinguishers? There's a question that would stump most and the best of us.

The Fire Chief, conducting a routine inspection in one of our larger institutions in Town placed the question to several inmates and working personnel to find out no one knew what to do with the extinguishers and how to use them on case of fire.

Last Friday a meeting was called at the Town Hall to which key men in industries, business and schools were invited.

A thorough explanation was given of methods and properties of different kinds of extinguishers. Those at you who were not there would do well, right now, to read the instructions on your extinguishers and find out what to do. If you can't figure it out by yourself, any member of your fire brigade or the Chief will give you a full course of instruction.

Establishments not protected with some kind of fire extinguishers for preliminary fire fighting would do well to equip themselves properly. When you buy make sure not to invest in the wrong kind. Check with your underwriters for an approved make, to meet your requirements.

Let's grow up, but burn up.

SUPPORTING CBC

Most Canadians will probably be surprised to learn that they are paying taxes to the CBC.

Much, in fact, is the case, as a recent return tabled in the House of Commons makes all too clear. In the last 12 months of 1954, the return reveals, excise and sales taxes on radio and television sets collected by Ottawa, and turned over to the CBC totalled $14,000,000.

Add to this the $6 million-odd subsidy paid annually to the CBC, and it is at once apparent that the total cost to the taxpayers of Canada of keeping the state-owned radio and television system out of the red is more than $21 million annually.

Privately-owned radio and television stations, it must be remembered, don't cost the Canadian taxpayer a nickel.

I WONDER
BY C. R. B.

The views and opinions expressed in this column are those of the writer and not necessarily those of the St. Paul Journal.

If communistic ideologies have penetrated the infiltrationist brains of a group of our feathered friends in these magnificent plains Where they on a free-your plan we could probably come to some reasonable solution. However there is grains requirements over the same sweet centuries, a problem has developed that has remained groups in a dizzy spin.

It seems some green ain't dunks that had travelled extensively in the United States and Canada on their way North, have not returned to the "mid of the free" instead they hobbled to Siberia there to face the grim and harsh punishment of the Communistic regime, who have the habit of either shooting or imprisoning intimidated tourists. Barbershop tonsorists were once heard to say and pinnals, now with the red party emblem, carry a red-breasted morgamer of a redbreasted duck unto in the lot.

Of course those birds may have been over using the steam heating grounds of Nevada, carried from there dire deep secrets into Russia and are now undergoing the customary brain-washing process before winding up in the reeating pen of the Communistic Hierarchy.

It has recently been noted the Soviet Union is making serious gestures to the rest of the world, to come have a look-see what lies behind the iron-curtain, an invitation that is being accepted by western politicians and newspeddlers, so we cannot think the unkindly of our feathered friends if they mistook their political status, thought themselves eligible to participate in the magnanimous Soviet tourist-trade solicitations.

When the brain-washing performance is complete we sincerely hope their mental remains are not being washed down Communist gullets with gobs of Vodka, or are they? I wonder.

Attention Farmers

We don't feel right as implement dealers without any tractors. Come and ask for a big price on pure old Whiskey. But we don't worry, if your price is too low we'll tell you about it.

We have on hand, 3 new DC 4 Case tractors and 2 new 4 foot hydraulic tillers. The tillers sell at $242 each.

QUEEN ELIZABETH AT BALLET SHOW
Central Press Canadian

Ballerina Beryl Grey, representing the Goddess' Wells ballet at the Royal variety show, staged for Queen Elizabeth II in Stockport, curtsies to Her Majesty in ballet style as she was presented to the Queen. At right is the Duke of Edinburgh, ball & Jack Hylton, the entertainment promoter.

Correspondence

Democracy means freedom. The right to support the candidate of your choice, was no less The right to vote without fear is a precious privilege. Under our democracy the candidate does has the privilege of placing a representative at any poll where the election is held.

These rights are surely playing their part in a free election and we feel every being made the use of extremist remarks passed by last week-ending citizens who have objected at preparing for the election in a spirit of hate. The golden Rule could well be applied in such cases.

The report of a meeting held at St Lina on April 17th was not correct in every detail as needless to clarify the report of the 43 who were at the meeting approximately 23 rose to protest with children attending St. Lina school. The remaining voters were not by parents whose children attend other schools, and should be counted as a deciding factor in the case.

Mrs. Doris Magnus
St Lina

Catholics Honor Father Primeau

On Sunday evening, April 24th the entire congregation of the Mallaig Roman Catholic Church met in the parish hall to honor their pastor, Rev. G. H. Primeau on the occasion of his birthday.

An enjoyable and interesting program was given by the parishioners made up of musical selections and musical numbers. During the course of the evening, Harry Magnus made the presentation of a gift to Father Primeau. The gift took the evening a sumptuous lunch was served by the ladies of the parish.

OBITUARY

Mr. Joseph St. Charbonneau

Beaver R. News

First of all I would like to pay to CBB the sum of $10.00 as of April 7 I certainly feel sorry for those three birds facing fining, quarrelsome. Gerald who are blessed with the fine called "woman". It is funny how the men will run after and even get down on bended knees to beg those so called women to have their let for the rest of their life. And when it comes to quarreling, well I have never heard of anybody either man or woman quarreling with themselves as of late better half' miss not want to be bested by the weaker sex let him put on his hat and disappear until the atmosphere has cleared of whatever might be flying, whether it be words or pans.

Miss Mary Miller was home from Edmonton for the Easter holiday

Margaret Vallee and Shirley Miller also spent their Easter school vacation at their homes here Shirley returned to Edmonton on Sat. while Margaret returned to Fort Kent on Monday to resume studies

Mr. and Mrs. Orval Thompson and Mrs. Mary Smaldon and children left last week for Whitehorse where they hope to find employment. Lucien Vallee also accompanied them.

The district was well represented at the meeting held in St Lina on the 12th. in vote on the transfer of part of Mr. Poirier's district into Mr. Leslie Sloan's Division. It was decided to cut the line half mile west of the range road and put it in Division 8 providing it was agreeable with the councillors.

The snowstorm delayed these farms so bags of gas things and farmers' machine worker have again. The roads were just getting half passable again. Eight to 18 inches of wet snow came down on the 19th. everything thoroughly.

Maurice Brown was a business visitor at the home of his brother recently. We are glad to hear he is improving after his illness.

Walter Thompson and family have moved to A. Thompson's place to be caretaker while Orval is away.

Roland Vallee returned sometime ago from B.C. where he had been working most of the winter.

Kiddies Corner

Oil comes from vegetable, animal and mineral matter. When we take the oil out of the ground we called it crude oil. When we take it out of the ground we don't do anything with it. We have to boil it, to separate the gasoline, gas, kerosene and oil.

We find the oil in Edmonton, Calgary and Lloydminster

We use gasoline for power in our cars trucks, tractors, buses and airplanes

Katherine Annette,
Age 8, Grade 3

• • •

Oil comes from vegetable, animal and mineral matter Oil is found deep in the ground. Some oil is thick and others are thin

Michael Frattogne, refine oil in the Calgary, Edmonton, Lloydminster When the crude oil has been separated we have gasoline, oil, kerosene, coal, tar, petroleum jelly and glycerine.

We use oil and gas in cars, trucks, tractors, airplanes and boats. Glycerine is used to make explosives Kerosene is used in stove engines With petroleum jelly we make cosmetics and ointments.

Joanne Charitrand,
Age 9, Grade 4

• • •

Oil comes from animal, vegetable and mineral matter It's a mixture of liquids. Some found very deep in the ground Men test the ground before digging wells for oil

Mc-Ll Frontenac refine oil at Edmonton and Calgary They boil the oil to get gasoline, kerosene, coal tar, lubricating oil, greases, diverse and petroleum jelly

We use kerosene for diesel tractors, diesel engines and caterpillars

Glycerine is used to make explosives, and in medicines.

Petroleum jelly is used in the making of medicines and cosmetics.

Age 10, Grade 4

Dechene Wins Protest Election

The protested School Trustee election was held in Sub-Division No. 1 on Saturday, April 23rd., when Wilfred J. Dechaine emerged the successful candidate again.

In spite of bad road conditions some 68 voters turned out to respect Dechaine for another 3 year term.

A construction program involving some $140,000 for new buildings at Mallaig, St. Lina and St. Vincent has been approved by the Board and will be implemented in the near future.

Dechene Gives Thanks To Supporters

To electors,
Sub-Division No. 2,
St. Paul School Division.

Kindly accept my thanks for your support in re-electing me again as your Trustee on Saturday, April 23rd.

I appreciate the confidence you have placed in me as your representative and shall continue serving Sub-Division No. 2 to the best of my ability.

W. J. Dechaine

School Board Debentures

Attention ratepayers of St. Paul School Division No. 49,

Our School Board proposes to borrow the tremendous sum of $350,000 on debentures.

You are entitled to demand that a vote be taken on the project. Demands must be made by twenty per cent of the school ratepayers in the Division and signed on or before prospective voters who do not wish to make demands that making the demands also do not be taken as the return of the ballot within fifteen days of the date of the notice (April 30th).

Be sure to vote as your desires in due time and then see that you are not worry out of existence and that land put on the tax roll left with those who last year. The crisis is at the corner We had a poor crop last year and the prospects are not any too good for this year. It is time to debate as to whether we school, hospitals, roads and home conveniences etc. which can be better taught right or have without them.

Just think this over

Questions And Answers About Cancer

Q. Where can I get authentic information on cancer?

A. The Canadian Cancer Society will gladly furnish you with up to date, correct information. These pamphlets are free upon request. Please write or call at your nearest office

Q. Does the use of alcohol bear any relation to cancer of the stomach?

A. Not so far as is known. Alcohol may be an undesirable effect on stomach tissues of some persons but on more so than some other stimulants taken into the stomach with food or drink.

Q. How does cancer spread through the body?

A. Cancer spreads in three ways: (1) Cancer cells may grow directly from one tumor to another. (2) They may enter the lymph nodes. (3) The blood stream may carry cancer from one part of the body to another.

Q. What should be done to prevent cancer of the mouth?

A. Have all jagged teeth repaired or removed. Do not use an ill-fitting dental plate that causes sores on the gum. Consult your doctor should white spots appear in the mouth or on the tongue

Q. What are some pre-cancerous conditions?

A. They might be white-spot disease on mucous membranes, itching patches on the skin, sores from jagged teeth, dark-colored moles that become irritated, unrepaired childbirth injuries. Consult your doctor

Q. Is there any place where cancer patients may obtain free dressings they require?

A. Yes, free surgical dressings are supplied to cancer patients outside of hospital from the Divisional Office in Calgary, of the Canadian Cancer Society. Over half a million dressings were distributed last year

Simple Rules To Prevent Tooth Decay

DENTAL CARE
By Dr. L. G. MARION

Do you ever visit your friends and watch them feeding the pigs apple and potato parings, and other scraps of food considered too unappetizing for human use?

Ever hear of a farmer taking his pigs to the veterinarian to have their teeth fixed?

If you could see, as dentists do, the below par condition of the average human mouth, tooth decay—what you now with the healthy soft tissues and perfect teeth in the mouths of animals, such as dogs and pigs, you might well feel humiliated.

Something surely went wrong somewhere—we know not when, nor how, nor why, but it didn't happen to the animal!

Civilization brought many advantages to humans, but it brought a few troubles as well. Among the latter it brought cultured appetites, a highly developed taste for food naturally refined or sweetened, or otherwise tampered-with foods and drinks, a finicky and fussy attitude toward the matter of eating, which could well take a much less prominent part in our lives.

Being finicky did have benefits: a lot of grief for we often throw away Nature special storehouse for the vitamins and mineral substances provided for building strong and healthy tissues and teeth!

Nature stocks a lot of these vitamins and minerals in or near the skin and outer layers of fruits and vegetables, and in or near the bones of meats.

We can but use too good substitutes for these materials at a fairly high cost in our efforts to cook potatoes in their own peel, removing all the outer goodness from carrots or other root vegetables, or the same from lettuce and cabbage—not just the white inner parts; & so on with dogs and pigs, you might well feel humiliated.

Something surely went wrong somewhere—we know not when, nor how, nor why, but it didn't happen to the animal!

Civilization brought many advantages to humans, but it brought a few troubles as well. Among the latter it brought cultured appetites, a highly developed taste for food naturally refined or sweetened, or otherwise tampered-with foods and drinks, a finicky and fussy attitude toward the matter of eating, which could well take a much less prominent part in our lives.

Being finicky did have benefits: a lot of grief for we often throw away Nature special storehouse for the vitamins and mineral substances provided for building strong and healthy tissues and teeth!

Nature stocks a lot of these vitamins and minerals in or near the skin and outer layers of fruits and vegetables, and in or near the bones of meats.

We can but use too good substitutes for these materials at a fairly high cost in our efforts to cook potatoes in their own peel, removing all the outer goodness from carrots or other root vegetables, or the same from lettuce and cabbage—not just the white inner parts; & so on with dogs and pigs, you might well feel humiliated.

Something surely went wrong somewhere—we know not when, nor how, nor why, but it didn't happen to the animal!

The next time your farmfriend brings up on you, showing how far perfect, cleaning teeth, give a thought to those farm friends. Maybe it's not just a grin — maybe it's a plea, and on you!

Farm Council Meet With Wheat Board

A delegation from the Inter-provincial Farm Council met the Honourable Hon. Gardiner at Winnipeg on the morning of April 18th. In the afternoon a similar meeting was held with the Board of Grain Commissioners

The delegation comprised some 12 persons including the President of the Prairie Unions and Mr Albert Cormack, President of the CWF, Farmers Union Alberta was represented by the Alberta members of the Council, Mrs W C Taylor of Wainwright, Andy Wood of Drumheller and Mr Wood of Drumheller and Mr Wood of Drumheller and Mr

Chamber Commerce Hears Reiorson

(Continued from page 1)

much interested in this deserving enterprise and he trusted it has not gone to one kind of the east as well as those responsible for borrowing the money at a low interest rate.

The plan was theoretically explored and a motion went on record to recommend such a house to the Town who would have to hold title to the property and make the lease. Further discussion will take place at a general meeting of the Chamber of Commerce on Wednesday, May 4th.

Committee Reports

The Civic Affairs Committee headed by Mr Mike Grabiak, reported on its activities and disclosed that parking in St Paul has become a problem. It was suggested that parking markings on sidewalks would divert better usage and save consternation.

Employees of firms on main street should be induced to park their cars, during the day, on back lots, leaving parking space to potential customers, all trucks larger than half-tons should be kept off main street and streets and avenues leading directly to the main artery.

Rapid way streets are not deemed to be the most practical answer. It is felt that the main street which is actually the main avenue of St. Paul should be fed by three streets retaining their right of way and not hampered by a number of undetermined stop signs with no definite pattern.

Streets running north and south should be through streets. It was pointed out for instance, that the street leading to the station should not have a stop sign at the telephone office corner, because of its importance as a main thoroughfare and further that is was not practical on the hill climb where cats stopping in winter under icy conditions have to back up for way for a running start at it.

Posting of traffic signs is entirely under the jurisdiction of the Town.

It was agreed that the Town should continue to allow $3 per cent purchase of paints for exterior decoration of homes and business, to help the clean up and beautification campaign.

Closer inspection of sanitary and health conditions of districts where no water facilities are available was recommended.

Chamber of Commerce membership a moment of endorsement stop signs with no definite pattern.

Chamber Of Commerce Approves Seed Cleaning Plant and Home For The Aged; Hears Ray Reiorson MLA

Agricultural Committee Reports Good Progress On Seed Cleaning Plant Of MD

The regular meeting of the St Paul Chamber of Commerce, Wednesday noon, ran through a busy agenda, recommending the establishment of a seed cleaning plant, a home for the aged under Provincial assistance and heard Mr Ray Reiorson review important phases of the last Alberta session along with information on roads and problems affecting the St Paul district

Mr. R. Bouvier of Edmonton, representing the National Films Board was also a guest speaker elaborating on a tourist promotion program for St Paul and particularly for the Town through his organization. He recommended the use of free films on a "Lands You" and inclusion of the Glenfel into a Tourist Bulletin.

Speaking on the prosperity of Alberta, Mr Reiorson said that we must not lose sight of the fact that Agriculture is still our greatest asset and will continue to be in spite of industrialization.

Covering the legislature, Mr. Reiorson clarified some of the facts in connection with the formation of new M.L.A's ridings. Mr. Lesbarron and Mr. Lee, said that the Public Accounts Committee investigating the actions of three members found no evidence of dishonesty and that both members can now be considered cleared and honourable. He said that of the $100 million dollars received by the government, only $40 million was considered ordinary income as there is many liabilities included and scheduled.

The budget, increased to $22 million dollars, includes benefits to every municipality in the province The higher distribution of grants to municipalities, schools hospitals will enable hand improvements otherwise not possible.

"We are achieving today, in the construction of roads, what imaginations of ten years ago would find hard to conceive," said Mr. Reiorson. Highway 36 is on the program for base grade and eventual paving, possibly completed within the span of the next 3 to 5 years. All other highways are being built on a paving plan as well.

Market roads acts St Paul, by special appropriations, are receiving consideration through Municipal grants in gone districts. These such roads will be reconstructed in the municipality.

Writing for 1000 to 2000 telephones under a new system leading to automatic phones is being started this year in St. Paul. The construction of a new building necessary for the change will be the next step.

Speaking on a government plan of incorporating a Bank of Canada, Mr. Reiorson strongly expressed the advisability of St. Paul securing such a house during this jubilee year as a token of appreciation to all our pioneer fathers who established the Town and district.

A motion to recommend this idea and give support to the town went on record. Delegation will approach the council at the next meeting.

Seed Cleaning Plant

Mr. Laurent Bisette, Chairman of the Agricultural Committee reported some encouraging facts on the organization of a seed Cleaning Plant in the Municipality of St. Paul.

The idea took root at the annual meeting of the MD who directed investigation. It was picked up by the Chamber of Commerce through its agricultural Committee, discussed with the Co-op, Farmers Union and individual farmers all of whom are strongly in favor (Cleanseo to deadline does not permit us to elaborate in full, but next week we will publish an account of Mr Bisette's report, recommendations and importance of the matter.)

The meeting, chaired by Mr Alex Tomma, was very well attended by leaders from all over and had the pleasure to recognize the presence of several business women

Charging Communist influence in the CCF group of his constituency, Hon. Ernest Manning, Premier of Alberta, has resigned from the CCF and will sit as Independent member for the next of his term. Pictured is discussion with Mr. Manning and Mr. Tom Thomson. Thomson said his decision was one he would believed by his resignation as he was. from him is Mrs. Thomson.

Contract Given For St. Paul-St. Brides' Road

Brent Construction Bids $216,397.00

The Provincial Department of Highways released information last week disclosing that contract for rebuilding the grade between St Paul and St Brides has been awarded to Brent Construction Co. of Edmonton on a tender bid of $216,397.

Mr Ray Reiorson, M.L.A. for St Paul constituency, was interviewed on the matter said that construction is scheduled to commence immediately as the weather permits. Completion of 30 to St. Brides is join the two centres is expected to be completed first thing this summer, by Hamilton Construction, contractors of that particular stretch.

The nine miles of road between the two points is of 32 foot wide top, constructed to paving standards.

Unsuccessful Bids

Unsuccessful bids on the Highway 28 contract were: Ludwig Construction, $216,272. New West Construction, $219,141. Ekkens's Ltd. $220,744. Associated Construction, $233,192. McGregor Johnson Ltd., Edmonton, $236,134. Poole Engineering, $257,690, and Square M Construction, $253,831.

It is the policy of the Provincial Government to accept the lowest bid of all contracts, providing the contractor meets the approval of the Highway Department.

Toastmasters' Table Topics

Toastmaster Fred Parrish, a Vilna resident of the Union, will call upon the speakers at the next meeting in the Lavoie Hotel on Monday, May 9 He has selected for his five-minute speakers, Mr. Joe O'Donnell and table topics are the responsibility of Dr. J. A. Mcdonald.

The club is continuing to operate on a years of enthusiasm, registering 73 percent of its membership at the meeting. There is always room for guests, welcome at all times and persons interested in public speaking may attend without obligation.

UNITED CHURCH SUNDAY SERVICES

Sunday, May 8th., 1966. Anniversary service.

St. Paul, 11 a.m., Rite 3 p.m.
Preacher: Rev. E. J. Thompson, M.A., Ph.D. Principal St. Stephen's United Church, Theological College, Edmonton.

You will enjoy these services, come and worship with us.
Rev. Roy C. Taylor,

E.A.B.L. Hosts At Two Hills

Members of the Eastern Alberta Baseball League met at Two Hills on Sunday to review the ball season coming very soon.

Two Hills applied for and was granted one year's leave of absence Reasons cited were shortage of players and a dependency of the town on Hallowe'en activities which would be unable to participate in the mid-season schedule because of a local league there.

Mr. Mike Pahlych, Cherry Grove, Pete Pahoran and L. H Drown. The committee was given full authority to work out the details.

Coming Events

The Brownies of the 1st St Paul Pack will have a "Cookie Hop" Glen Allen on Friday, May 6th. They will be calling from door to door Those cookies are ready and packaged specially for the Canadian Girl Guides Association and are guaranteed They sell for 50c per package of 2 dozen.

Meeting of the W.A. to the United Church, Thursday, May 5 at 8:30 in the Church Hall

There will be a meeting of the St Paul Tennis Club in the Town Hall on Thursday, May 12th at 7:30 p.m. to elect a new executive for the coming season. All Tennis enthusiasts are welcome to attend.

Mother's Day Tea, Saturday, May 7th in the Elks Hall. Serving between 2 and 5 p.m. Home Bake Sale in conjunction. Sponsored by the Ladies Auxiliary to the Canadian Legion

Toastmasters Prepare For Convention At Medicine Hat

The Provincial Convention of the Alberta Junior Chamber of Commerce, held in St. Paul in 1964 was considered much and will be held in Medicine Hat May 21, 22 and 23.

To further the compliment of a large attendance here, St Paul Jaycees are forfeiting all fees of members to travel south for a representation worthy of the town.

A local auctioneer is organizing a bus load of Jaycees and gold shorts (very loud) with crazy plugging of St. Paul on the fishing paradise of the North East will be on the morning message to tourists, hunters and fishermen.

A theme song is being composed with appropriate literature circulating the boundaries of our north.

All members participating in convention are going on a volunteer basis and are taking care of expenses personally

ACWL Raffle Winners

The tickets recently sold by the A.C.W.L. were drawn on Saturday, April 30th., and the lucky winners were: 1st., Mike Pawlyk, a wool comforter; 2nd., Rodney Sardisk, a ham and 3rd., Mrs. Anne Bryck, Darling, a box tablecloth.

The league takes this opportunity in expressing their thanks to all who bought and sold tickets. Special mention goes to the ushers of the articles drawn and to Mr. Homer Chanler of Vilna.

Sponsored By Jaycees; Car Bingo Second Evening

$1200 First, $700 Second Prize; Local Club Enters On Its Own

St Paul Junior Chamber of Commerce members are already planning the annual July 1st Baseball Tournament now a host the event of the times and reclaimed the prize money from $3,000 to $5,000. Another downward policy most Alberta towns have followed.

The question of establishing the amount of first money was left to a committee appointed to run the tournament, but open discussion indicated that the first prize will probably be $1200, second $700, third and fourth $500 and the four losing clubs will get $300 each.

Instead of wrestling or boxing entertainment, the Jaycees are featuring the last two years; the organization will feature a car bingo, probably staging it in the arena. Mr Mike Pahlyk has volunteered to handle the organization of such which should draw a good holiday crowd.

Ball Team On Its Own

Jaycees, Bill Paul, are not sponsoring a baseball club for entry in the tournament. It was decided to let the local team, now operating on its own, be aware if they wish and to supply the baseball material.

The St. Paul Baseball Club is operating strictly as an independent unit and will be competing in the Senior "B" tournament, sponsored by the Alberta Baseball Association. Failure to pay the $300 entry fee along with the other clubs will result in the loss of their berth.

Mr. Ted Parada, President of the Jaycees will be directing chairmen of all clubs in the league meeting to discuss the question. Another meeting will be held at Elk Point, Monday, May 9 to draw the schedule and decide on the final details.

Tennis present at Two Hills for the meeting were St Paul, Vermilion and Two Hills

St Paul Ball Players have appointed their coach in the person of Mr Bill Shalun and Chesley Gauvreau Jr. Secretary-Treasurer They are still looking for a regular and reliable man to fill in the position of manager and umpire.

A good line ... apparently a team for St Paul Most of them have said they have signified their intention to play here but Ted Parada Chairman, Buck Joly, Johnny Kotowich, Bill Shalun, Ray Boudreault, Gerry Pundick and Ronnie Blacka

Rev. F. T. Holmes Pastor

LOCAL NEWS

Local news . . . is good news. If you go visiting or have relatives and friends visiting you, please let us know about it. There is no obligation.

Mr Pierre Benoit, Vice-president of the Whitecap Construction Company was in St Paul on business and visiting the Dominion Corporation Bank Manager, Mr Lavoie.

Mr and Mrs Maurice Hulse, of Mr. Hulse's home town of Fort McMurray, Alberta, are visiting with Mr and Mrs Hulse's parents Mr and Mrs Wentzell, Mr Marcel Wentzell is employed by the mine.

No announcement on his return has been made as yet.

Mr Eric Bissett is back on Hockey at St Paul Hockey arena after a two week absence with a broken leg. Eric has opportunity to test out the new skates he received as a present and was pleased to report that they are "super" Eric's many friends in St Paul will be glad to know that he is on the road to recovery.

Mr and Mrs Ted Parada left on Thursday for Edmonton where they will attend the Provincial Jaycee Convention.

Mr Parada is Provincial Director of the Jaycees and will be attending other meetings while there.

Mr and Mrs Maurice Hulse left for Edmonton last Tuesday morning after receiving a message that Mrs Hulse's father had passed away.

Mr and Mrs St Paul's University student Peter left for Eastern Canada where he will be visiting friends on the way home.

Peter Brown is in Montreal where he will be stationed at Montreal with the Dominion Corps. Both boys belong to the University Army corps to which they devote many hours during the winter months.

Mr and Mrs L.D. Beaudoin of Edmonton are spending a few days visiting with Mr and Mrs Gravelle.

Mrs Eugene Bertrand has left for the west where she will spend three weeks holiday with her daughter Mrs Jean Faucher.

Mr Bill Lichter former Assistant manager of the Royal Canadian Bank of Commerce has been promoted Manager to the Gardar Branch. He replaced Mr J. A. Sutherland who left for Prince Albert.

Mr Lichter's wife is the former Miss Dolphine Gravelle of St Paul.

Brownies Attend Meet

St Paul Brownies were among exhibitors at a recent meeting of the organization held at the MacDonald Hotel in Edmonton.

Brownies competed against entries from all over the province and received recognition for their outstanding works in several departments.

Mrs. W. G. Fuller, Brown Owl for the St. Paul Troop was official delegate at the Provincial convention.

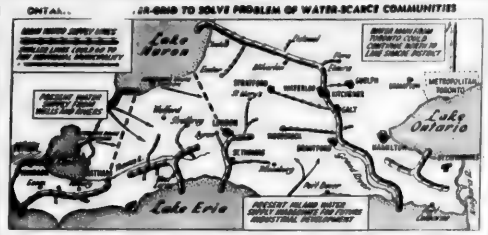
He that believeth on the Son hath everlasting life." Jn. 3:36
Rev P. T. Nelson, Pastor.

World production of coffee in the 1955-56 coffee year is expected to total 61.8 million bags of 132 pounds each. That total is slightly more than the previous year's output.



Solution to the urgent demand of Southern Ontario for water may be found in the establishment of water basins from the Great Lakes to various communities inland. The plan, announced by Premier Frost, will be studied by a special provincial commission and would co-ordinate the present municipality water systems into several great networks. Provincial aid would be given to bring soft water to big cities like the Roman students of centuries ago, who many water inland and give water-starved areas new life. All over Southern Ontario wells and rivers are proving inadequate to supply the rising demand for water and the provincial government considers it a new problem which can be solved in small communities when, and if, the water grid is completed. The possibility of great demand for water for agricultural irrigation will be explored by the commission.

Farmers Have Until June 1 To Pay For Certified Seed

Farmers can pay for registered or certified seed until June 1, 1956 with a delivery of up to 500 bushels over the quota.

Quota can go in payment or part payment for up to 100 bushels of registered or certified seed wheat, oats or barley. The Wheat Board has laid down a few rules concerning this delivery.

1. The excess grain must go in payment for seed grain. The farmer must sell enough grain to pay for the seed.

2. If the farmer buys his seed from the elevator he must sign an order for the seed bought either before, or at the time he delivers his grain. If he buys his seed through one of the other agencies (Crop Improvement Associations, Elite Crop Testing Plots from a bona fide dealer in registered or certified seed or from a registered seed grower) he must submit a certified copy of the invoice covering the purchase of the seed along with instructions to the elevator agent to issue a cash ticket to the seller for the value of the grain delivered over the quota.

3. The farmers must in all cases have an entry made in his permit book in the space provided for over-supply (overages) with the notation "Seed Grain Purchase."

Simple Rules To Prevent Tooth Decay

By Dr. L. G. Rambo
Dental Corp

If your child believes the usual cripple by the time he is in his fifties, he may well be a dental 60's.

Dental disease affects practically everyone at some time. The pain, anxiety and even the disfigurement of dental decay, for instance, affects about 90 to 95 per cent of the population.

The most effective approach to the nation's dental disease problem lies in instilling the right kind of dental health habits in children early in life and in making available to them sound preventive measures.

Sugar sugar is the arch enemy of your child's teeth, one of the basic rules for sound dental health is the elimination of excessive amounts of sugar in the diet. In this regard, the between-meal snack looms as the worst offender. Foods commonly eaten by children between meals often contain large amounts of sugar, inviting dental decay because such snack generates the production of new enamel destroying acid.

Parents are urged to substitute such other foods as nuts, popcorn, potato chips, cheese or fresh fruits when children want to nibble between meals because these foods appease the appetite without leading to the harmful decay-producing acids.

The toothbrush — when used properly — remains one of the most effective weapons for preventing tooth decay. It should be used immediately after eating — especially after eating sweets — because the build-up of enamel-destroying acid occurs rapidly and must be removed.

However, the toothbrush can dislodge the sticky food particles only if it is used in the right way. Since these food particles are most likely to adhere to areas between the teeth, the best method of toothbrushing concentrates on these areas.

In cleaning the teeth, the upper teeth should be brushed downward and the lower teeth should be brushed upward. The bristles should be worked between the teeth. The chewing surfaces should also be cleaned as well as the inside surfaces facing the tongue.

A child should be taught to use a toothbrush as soon as all his teeth have come in — usually between the ages of two and three. He may not do a very good job and his mother or father will probably have to go over the teeth afterwards, but the proper work will have been laid for a basic dental health habit at an early age.

Come in and see 'em today!

NEW CHEVROLET Task-Force TRUCKS
with a whole truckload of new advantages for you!
Here's what happens when Canada's No. 1 truck builder pulls out all the stops! Here are some of the new advances ready to work for you right now.
These new Chevrolet Task Force Trucks do more jobs. Do 'em faster! Do 'em better! And do 'em with more economy. If you've got a job for a truck, we've got the modern truck for your job! Look over the new features and advances highlighted here — see what one of these trucks offers so much that's new. Then come in and look over these Task-Force Trucks in person.
A General Motors Value

A new kind of truck styling
It's Work Styling — an exclusive development in truck design with the emphasis on ease of handling and convenience. On the job, your truck "looks the part" — becomes a profitable advertisement, an valuable key for you and your business.

New 19,500-lb. G.V.W. capacity
New Chevrolet Task-Force Trucks are designed for loads of 19,500 lbs. G.V.W. and more. And they're ready to go all the way up to 78,000 pounds Gross Vehicle Weight — the highest ever for Chevrolet!

New "high-voltage" engines
All new engines feature a new 12-volt electrical system for better starting and increased power. Choice of Thriftmaster Six or Loadmaster V8 engines. They're the last word in smooth, quiet and thrifty truck power!

The cab is a room to the view
New Wrap-Around windshield — for the driver, more visibility than ever before! And new Non-Glare rear window. New High-Level ventilation for cleaner, cooler air. New beauty and welcome — new stronger cab construction — new comforts and convenience throughout!

A smoother, load-steady ride
New springs front and rear provide a smoother, more stable ride for the driver and load alike. Chevrolet's new and exclusive extended Safety Type, gives extra protection against accumulations of mud, snow, or ice on the running boards.

New stronger standard-width frames
These trucks are new from the driver's seat back! All models have new ladder-type frames of standard width, with full-length parallel side members. This new design provides greater strength, rigidity and durability.

New Overdrive or Automatic
New Chevrolet offers you new Overdrive as well as improved Powerglide. Overdrive is a new Transmission Overdrive is now available as an extra-cost option on some deliveries and Automatic on ½-, ¾-, and 1-ton jobs.

New Power Brakes* and Tubeless Tires
Now you can get the extra ease and safety of Chevrolet Power Brakes (available on all models) and Tubeless Tires (available on some models). Both items are standard equipment on all ½-ton models.
*Optional at extra cost

New handling ease with Power Steering
Driving's easier, safer and less tiring with Chevrolet Power Steering (available on all models). Ask about Chevrolet Task-Force Trucks. It's optional at extra cost.

New colors! New two-tone combinations
Take your choice of a longer-than-ever list of attractive new colors and two-tone combinations. Ask your sales and advantages of the advantageous value of your Chevrolet Task-Force Truck.

Correspondence

Dear Editor

It is to be hoped that all ratepayers on the St. Paul School Division take note of the time of the year that the by-election is to take place and be sure to get out and vote.

Some of the schools there want to add 2 or 3 classrooms to, have not now enough children to fill existing classrooms. It is high time that the board and administration refrained on the ill-fated behind the times recreation program with regard to needed for more and more, and for more and bigger school-houses, more taxes, this is no fairy and empowered to do nothing else. This should make that it not the size of our municipal debt or the size of level of taxes and drives that in Ontario the difficulties of getting to some teachers. They claim can shape our children's future. Then part of their duties have been sadly neglected. We have teachers in the division but there are many instances being school two days than a five-year old playing with an abacus. Surely another of the board has given one thought to how we are going to carry this added tax burden. To many of us are paying more than we can afford now, not certainly very few of us are affluent, a case for our board.

Let us all get together and get the word that we can no longer go such an empty and unnecessary project, but let that energy be diverted into factories that will be more profitable to parents and children.

Disappointed Parent

Red Wing's Domination of Jr. Cups Title

Central Press Canadian
This is the trio that helped end Western Canada's five-year domination of the Canadian junior basketball title Co-captains of the Toronto Nortown Hi's, Bill Karpinski, left, and Marv Cohen, flank Don Green, centre, who sank 20 points in the final game of the best-of-five series in Toronto to sweep the series. Hi's brought Toronto its first junior cage title since 1946.

SPRING PARK NEWS

The main topic of Conversation these days is the weather, round after round has been played this year and the country shudders, have to go to push mowed when the mosquitoes are unable to make their presence felt. Some of the local golfers have had our [illegible] out again, the weather and the wind will be ideal for [illegible] of having them [illegible] Modern and fertilizer ought to have some [illegible] in bed.

Mr and Mrs Walter Cox (nee Dell) Kepler from Greenwood, B.C., spent a few days at Mr. Cox's parents' place, Mr and Mrs A. L. Kepler.

Mr and Mrs Jim Bateman (nee Ann) Smith from Edmonton spent the week-end visiting relatives at Spring Park and Elk Point.

Mr and Mrs Jack Booth and daughter Carol from Edmonton have moved to their farm. Carol will resume her schooling in Elk Point.

Spring Park has to admit it's the dullest week on record for a weather and golf point of view. We cannot even boast the neighbours unless we go to hours of browse or walk.

Pete Gaudaire was really smart when he ordered ducks from the Hatchery. They will certainly survive this weather.

Mr and Mrs O. C. Graves Jr. are the proud parents of a baby girl born April 29th. A name for Patty.

Mr and Mrs. Gus Heliquist have remodelled and redecorated the home. Really looks nice too. Had June meeting to be held at the home of Mrs. Felix Gaudaire. House all the Ladies will be able to get there.

Heinsburg News

Marjorie Rushton arrived home last Tuesday for the holidays attending the University of Alberta for the past year, she has secured a position on the teaching staff at Red Deer for the coming term.

Betty, second daughter of Mr and Mrs. Archie Clarke is being married to Lloyd Ing - King this week. They are making their home at Vermilion.

Walter Black will be graduating from the Faculty of Dentistry this month. He will establish his office at Fort Saskatchewan.

Mr and Mrs. Tom Bigler are proud parents of a baby boy, Wade Gordon.

The baseball dance has been postponed indefinitely.

Mrs. Alec Berman has been away visiting her father and relatives at The Pas last month. She enjoyed her trip immensely.

Mrs. Robinson (nee Little) Borden, Heinsburg, has retired on account of ill health. The neighborhood of Lake and district is rooming district gives her a farewell party. She will be greatly missed in the district.

Tom Lumpel has traded his truck for a car. He won't have to worry getting the mail out while on route now.

T. Borton came home with a 1956 Meteor.

Mrs. Grauman is back in hospital as is Cecil Nelson who is suffering from a severe case of eczema.

Carl Gochie returned home from hospital, but is limping badly. He has been ill for the past six months and doesn't seem to respond to any treatment.

Mr. Hamden's cousin, Weden, who has been in Canada now for two and a half years, has been reunited with his wife and three children, who arrived here from Syria, last week.

A new family from Norway also arrived here last week. They have taken up residence on the late Ben Gierabeck's farm which was willed to their baby son.

Miss Mettie Ogierwald is visiting her sister, Mrs. John Orr a few days. She has been a constant nursing aide in Elk Point and the last several years in the Royal Alex in Edmonton. She is on her way now to a new position in a Saskatoon Hospital where she will specialize in Psychiatry in the Polio Wards.

Goodridge News

With the roads being what they are the travelling public just ain't.

Mrs. J. Dominico who has been the guest of her uncle and Aunt, Mr and Mrs H. Nordskog, is returning to her home at Cold Lake.

The weather might have been bad last week for crops and lumber but it brought lots for cribbage games. Mr. M. Macdonald, while [illegible] to two, made seven with 29, Mr. [illegible] got a perfect hand of 29 points. [illegible] with that hand.

Lawnmowers Sharpened ON THE REAL Sharpener

We're specialists in repairing and sharpening lawnmowers. If your mower is dull and hard running, let us make it like new. The Ideal Grinder sharpens the reel blades and straight blade to a precision-cutting edge, making your lawnmower easy-running, smooth-cutting and gives your lawn that "new look." Give us a trial.

Amazing new kind of house paint guaranteed 5 ways better than any other house paint made!

1. 100% BLISTER-PROOF on new wood. Marshall-Wells Formula 5 paint is guaranteed to be impossible to blister.
2. MORE BLISTER-RESISTANT on previously painted surfaces. Marshall-Wells Formula 5 paint forms a tough, flexible film that prevents long after other paints blister.
3. STAIN-PROOF. No staining from rusting nails or corroding metals such as screens, downspouts, wire and wrought bumpers.
4. FUME-PROOF. No discolouration from sulphur fumes. Marshall-Wells Formula 5 paint is not affected by sulphur fumes, chemicals.
5. SELF-PRIMING. Contracting — Resurfacing — one coat formulation means "Formula 5" is the best base undercoat.

MARSHALL-WELLS FORMULA 5
BONDS SO TIGHTLY ON NEW WOOD THAT BACK CAN CARRIES A
BLISTER-PROOF GUARANTEE!
Because new "Formula 5" represents such a radical improvement in paint performance, Marshall-Wells devoted five years of rigid testing to prove each of its 5 big advantages. The proof has been so convincing that "Formula 5" now goes on the market with a double-your-money-back guarantee on every can!
This is your assurance that all those big advantages will carry through to your home — that on new unpainted wood "Formula 5" will be completely self-priming, providing six years best protection — that it will be 100% blister-proof, as fully bonded that no moisture can make it peel or blister!
The same revolutionary chemical discovery that gives such complete paint protection also gives sharper, cleaner white tones and modern colors. Use "Formula 5" once and you'll never go back to old-style house paints again! Use

HOUND OF SPRING

SCHOOL YARD MESS

Keeping children c... this time of the year and in the interest of an exceptionally muddy sp... a bond enough problem in itself.

Seeing them to school to play on the muddy grounds is discouragement enough but the parent who has her child's cleanliness at heart. Have you ever taken a good look at it ... a wood condition exists there that any other place in town.

The situation is not one for this spring only. It is a condition that needs consideration immediately. A gravel-ling program or seeding into lawn, drainage, etc., is in order and should be undertaken by the school trustees

We leave you with that thought.

CLEAN UP, PAINT UP

The rooms of eloquent verse written by poets each spring can hardly be attributed to inspiration from heaven. The mental fields which, overnight, become emerald carpets are the magic handiwork of Nature The bursting buds which make of every tree an admired debutante and the multi-hued flowers peeking through the snow-covered sod are Nature's creations

In fact, about the only unsightly things we see about us in spring, sights that would jar the eyesiveness at any poet, are man-made. Drab, mud-begrimed houses, garages with beaten barns, broken down fences; weed infested yards and roadways.

While such eyesores are more evident in large urban centres where buildings are tightly concentrated, they are also to be seen in many rural areas — but spread over more square miles.

Man, however, is trying to do something about eliminating them. In Canada each spring an annual beautification campaign is conducted, urging citizens to clean up and paint up their properties. This year it officially starts on May 15 Plans are being formulated in several parts of Canada to make this the biggest campaign of this kind to date. In Saskatchewan a province-wide clean up, paint up program will be co-ordinated with the golden jubilee celebrations. In Essex county in Ontario, a farmstead improvement project is underway to beautify county farms in preparation for the world plowing match which will take place there this fall. In Niagara Falls, already a garden spot, beautification will be more vigorously promoted in preparation for the world jamboree of Boy Scouts to be held there this summer.

But we shouldn't wait for special events to stir us into cleaning our surroundings. Beautification should be carried out when it is needed. However, if you must wait for an occasion, then jump on your local "clean up, paint up" campaign wagon with vigor If there is no local campaign, then help start one. Make Canada a beautiful place, not only for visitors but for Canadians.

DON'T KILL THEM ALL

Proper control of predatory animals and birds does not mean their complete destruction, advises F. H. McCormick, executive director of the Canadian Civilian Association of Marksmen.

Mr. McCormick says that all animals and birds have their place in nature and it is only when their population level gets out of all proportion that control is necessary. Pointing to Hastings as an example, he says that this species of bird has become a nightmare to many farmers and civic authorities. Lacking a natural enemy and thriving in settled areas where shooting is forbidden, the startling quietly went out of control. Its egg... are a similar problem in some localities.

Coyotes, foxes and even skunks have become so numerous in many parts of Canada, they form a threat to farmers' livestock and poultry and have to be controlled. In other areas, gophers, groundhogs and jackrabbits are in the predator class which offer good off season hunting to varmint rifle enthusiasts. The crow and the sparrow are a couple of winged marauders which have been steadily getting out of hand in recent years and also provide good sport for shooters. While admittedly these birds do eat harmful insects, their piracy of nests of song and game birds far outweighs their virtues, Mr. McCormick says.

CAR PRESSURE

Bargain hunters of car prices may be relieved in one of Canada's greatest auto sales lanes, reports The Financial Post.

If not, automakers soon will be reducing the break production pace of recent months.

These are the twin possibilities inherent in the present situation. Which one becomes reality depends upon how hard dealers can sell, how optimistic manufacturers are, how car-conscious consumers become.

"Sure, production has been high," an auto industry executive told The Post. "But we still haven't built up the backlog we usually plan on for the spring selling season."

But: "I think substantial production cutbacks are inevitable," says another. There's no hedgeing the market's guess this year."

Time For Building

It's Spring, the sun is shining and it's also time for building. We offer you a complete supply of all building materials at the lowest prices. Call on us for free estimates and service that will save you money.

MALLAIG BULLETIN

C. R. BILLEVILLE, LOCAL REPRESENTATIVE

I WONDER

BY C. R. B.

The views and opinions expressed in this column are those of the writer and not of The Journal.

It need cost "Elmer Pie" has become a friend to the column for the past few months. If he has been not aside it is not because I have not thought of him and enjoyed several good meals of bacon and ham, which invariably brought him to mind, but it is because the information from the Federal Dept of Agriculture would have been pulling Elmer through a rather stiff experiment, was not available until very recently they were able to determine were investing and important facts as to what has been happening to "Elmer".

Some months ago I mentioned that the Danish Landrace hog was making the British market from us rise in his better and leaner quality, so while Canadian producer can grow and supply the market with as good if not better hog, unfortunately this we have type has not been named but will be given a name before long He is a shapely white animal with floppy ears and round, and hams that produce leading cuts and increase producer profits

Carrying the blood of the high quality Danish Landrace, the crossmost but durable American Chester White and the British Black Berkshire breeds, the new improved "Daddy" is reported to have children with good bonners and never kicked their good mothers. Both are important in breeding.

The new hog is the product of seven years breeding experiments here on the farm of the federal experimental station at Lacombe, Alta. The idea was to get a more uniform meat carcass averaging one to one-and-one-half inches thick between the two breeds and to get a hog that would produce more lean meat and less fat. The long lean Yorkshire has been supplying bacon for the Canadian and export even markets for years It has meat cuts and a rather arched back, the new Lacombe pattern has a flatter back, floppy ears that almost cover the eyes, a fuller appearance and more round hogs in bacon Litters of the new breed average about 10 pegs, the same as the Yorkshire, but the average weight at birth is about three pounds — one half pound heavier than the Yorkshire.

The Dept. of Agriculture goes on to say — while certain amount of exposure to sunlight is highly beneficial to "Elmer's" health and thrift, over-exposure to summer sun may result in ... very burning which frequently causes an unthrifty, stunted condition in the growing pig Provision of a suitable shade will protect your "Elmer" to rest comfortably during hot weather and will reduce the amount of injury from sunburn.

CLASSIFIED

LAND FOR SALE — N.E. half Sec 3-B-10 3 miles from Mallaig on bus route, electricity to give Full quarter under cultivation, clean land, 60 acres in summerfallow 13 bag beans, 1 brooder large enough for 6 cows, 2 heats, 10x24 and 30x32, workshop 32x40, new garage 16x24, 4 granaries 12x 12. All in good condition. Good well and dug out 20x25 through which the farm is fed. Price for 56,000. Apply L. C. Blain, Mallaig, Alta.

ANNOUNCED

Wedding announcement of Miss Carol Ann Cassels

Wedding announcement of Miss Carol Ann Cassels, Winnipeg athlete, according to a quotation by Gisele MacKenzie in a magazine, can't take a cookout before dinner without considering it's wicked. That's what the Mallaig set-up said. But that's not what Gisele's manager says in mind. His story is that she was misquoted in that statement and that if a dozen others in the magazine One of Canada's most famous radio and television singers, Gisele is now in New York where she has met many former Canadian bandleader Bob Shuttleworth, deep the magazine story.

I do not think that we have worry about what Elmer will get during sunburn; if this year is a repetition of last summer but just in case that Elmer or his sister "Elmerita" should get sunburnt, a cheap, satisfactory treatment consists of applying cold cream to the affected parts at intervals of several days after which time there is normal healing.

All in all, we are quite pleased to learn of and welcome the arrival of this new breed type hog We hope he will take his rightful place in the kingdom of the "Porkers", there to reign supreme over the starlets of the world for many years to come.

If your subscription is due, why not drop in and renew?

Mallaig News

What a jolly old fellow is the weatherman, he must have been slightly confused last week as he dumped silent another of a heavy wet snow on us. Don't tell the kiddies but sometimes I think he upset as well as the rest of the world.

It has been a long while since we had hardening rain, have been so long that even it was quite common to see human tied to it, either with a bonnet wagon or a sleigh.

Mrs. Pete Bodnaiuk and two young daughters, Darlene and Corny were Edmonton visitors over the week end Fred Downing from Dawsby, B.C. is at town receiving acquaintances.

Unseasonable weather brings about unseasonable sickness, it would appear that the malady is known as "Municipalitis" and "Schoolitis", tentatively is classified by the Medical Profession, apparently it continued a few in the Mallaig area the cold. But that's not what Gisele's manager says in mind. His story is that she was misquoted in that statement and that if a dozen others in the magazine One of Canada's most famous radio and television singers, Gisele is now in New York where she has met many former Canadian bandleader Bob Shuttleworth, deep the magazine story.

Mrs G Magnus, President of the Red Cross Society wishes to extend her thanks to the district for the generosity shown during the annual campaign for funds. The objectives of $100 was reached and turned over to Red Cross Headquarters Thanks is also extended to the ladies who so generously donated their time to make this drive a success

Some of us are going to get kinks in our necks trying to see the lofty Mr. You, but those three any member of times a day but most difficult to see with the human eye, even field glasses do not help much. Hope none of them be able to make a nose-dive on Mallaig at a probable speed of 600 or 800 M.P.H.

A reply has been received from the former Motor-logged Officer, Mr W R. Fryers, Aviation Ferry Officer, Cod Lake, in connection with the "Radiocender" found by Oscar Bellerive on his farm some two weeks ago. Mr Fryers writes to Bellerive

"We enquired about it through our Edmonton office and learned that it was released on April 8th from Edmonton Airport on a test flight for shipping radio receiver used in recording the astonat Test record of the transit there was followed by radio signal for some 25 minutes to the 45 minute between some signals of longer or shorter time. Radio sonde stations are usually located about 100 miles apart The only one near you is Kenosoke, although occasionally ... may be made here with different type "sonde." The instrument under drift eastward at high level until the balloon breaks of developes a leak Data from the sensor is picked up by the original ground station and put on the teletype for general distribution In this way Test Flights are ... with information on upper air conditions including temperature, humidity, pressure etc gathered by the "sonde" and radio. The information is quite interesting to the many of us that found the "Radiosonde" quite a common instrument.

The others may hear of their "Out-doors" Symphonies Pop Concerts etc, yesterday afternoon while on a quiet stroll I found myself a guest at an Out-door Frog Symphony ... the ... dangonash it is Bach's Symphony ... D Major ... Beethoven's ... Symphony, however I was pleased to hear The guests of honor were a half dozen "Greenhawks" and their lady friends in the centre of the pond who also added quite frequently with their quacks quacks It all indicates spring has at last arrived and we are all pleased about it as our amphibious friends

HOPES TO BEAT WORLD GLIDING RECORD

—Central Press Canadian

If all goes according to plan, Norman Bruce of Calgary, Alta., will set a new world record in the glider he and his daughter are constructing. The world record is 300 miles and Bruce, an enthusiast for long droughtmasts, is confident that the "soaper" can better that distance.

Interprovincial Council Meet

A meeting of the Interprovincial Council was held at Winnipeg on April 19th Chairman John Blade presided. Representatives were present from the Manitoba Provincial Council. A letter was received by Mrs. Wood and Helen Young. The usual routine business of the meeting was transacted. Immediately following the business session A letter of appreciation from Mrs. Cain, Alberta Provincial Council was read by Mrs. Wood and Miss Young. Mrs. Wood, President of the Provincial Council, gave a report of the meeting which she attended in Winnipeg on March 29th. Mrs. Wood also read a letter from the Provincial Council of Manitoba requesting that the Interprovincial Council meeting be held in Winnipeg in July. Mrs. Wood suggested that the meeting be held in Edmonton during Exhibition week. A letter from the Provincial Council of Saskatchewan was read by Mrs. Wood. Mrs. Wood suggested that the Interprovincial Council meeting be held in Saskatoon during the week of the Provincial Exhibition. Mrs. Wood suggested that the meeting be held in Saskatoon during the week of the Provincial Exhibition. A letter from the Provincial Council of Saskatchewan was read by Mrs. Wood. Mrs. Wood suggested that the Interprovincial Council meeting be held in Saskatoon during the week of the Provincial Exhibition.

Reports were given on various activities of the Council since last July 1, 1953, and the progress of the Farm Union movement in British Columbia. The public relations work of the Council was discussed, including the meetings with the Farm Machine Companies and the Canadian Chamber of Commerce. In connection with the latter, it was decided that a further approach should be made to the Province.

The Council took a grave view of the strike at the Lakehead terminals. It was decided that unless an immediate settlement is reached, the Federal Government should be asked to intervene to settle it.

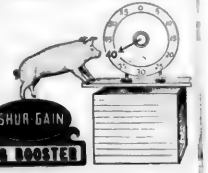
The operation of the PFAA was discussed and it was felt by all present that extensive amendments are necessary. This matter was put on the agenda of the Interprovincial Conference for discussion.

It was decided that a bill to provide for the voluntary organization for the payment of farm prices does should be presented at the next session of Parliament providing the satisfactory arrangements can be made.

Finances and various other matters were also considered by the Council.

How About That!

BOOST THEM UP TO 40 LBS.
AT WEANING WITH SHUR-GAIN



Big strong weanlings – 12c the 60-pounder weaned at the SHUR-GAIN Demonstration Farm – are worth more money. Yes, 60-pound weanlings are worth more if you're selling weanlings . . . and they're worth more when they reach market weight, because they have far better market quality on less total feed. Put your pigs on SHUR-GAIN Pig Booster and see!

See us about SHUR-GAIN Pig Booster and about how YOU can make greater profits from hogs

Vegreville Hog Raisers Show Quality Increase

Vegreville hog shippers in 1954 averaged just about 30 per cent Grade A hogs — quite an increase over the provincial average of 18 per cent Grade A's. These figures are based on the grading results of all shipments for the year from farmers in the Vegreville Livestock Shipping Association Hog Quality Competition. Each shipper must market a minimum of 25 hogs in order to qualify for the competition and their money At the end of the year, the results are computed into Group 1 and Group 2 The second group only competed with less than the required minimum of 25 hogs Prizes of $25.00 $15.00 and $10.00 are paid to the first group only.

The Vegreville farmer at the top of the list had an average of 50.7 per cent Grade A hogs The difference in market value between a Grade A and a Grade A 200 pound live weight hog is $2.00 On that basis surrounding the farmer marketed 30 hogs the increase in his income would be $227.30 for raising Grade A rather than C grade hogs. The cost of raising a Grade A and a Grade C hog is the same.

Mr W. E. Pidcreamy, the District Agriculturist for the area, co-operates very closely with the Shipping Assn'n. His advice is sought regularly concerning management and production problems which may arise at any time

The Traffic Safety Lane

By J. W. McKAY
Inspector Highway Traffic Board, Edmonton

Emotions a Reaction Time

Under emotional stress there is also a possibility of a time lag. Reaction time is closely related to emotionality and cannot be considered entirely apart from it. For the most part in accidents study this phase has been neglected.

There is the illustration often used which I will relate

"I am a business man situated in a down town office. My duties is to interview the public and try to solve many of their problems. On a particular day I leave home in the morning in my car, and head to the office. Everything is good. By, it's good to be alive. The sunrise is an good health, I'm in good health, the office work is caught up, the sun is shining brightly on a spring morning. Everything is perfect As I drive along the traffic [illegible] my insurance company paid the damages But they had a black mark against me"

Well, this sort of thing goes on our streets and highways every day Many accidents both crippling and fatal are caused through emotions.

Check yourself the next time you feel upset. Get control of yourself, at least while you are driving.

Real Hope For Senate Reform

There would seem to be some real hope for Senate reform now that Hon William Euler has entered the picture, remarks the Financial Post He is the man, it will be recalled, who led the long and successful fight to oust the discredited Senator Farris.

In the Senate last week, Mr Euler introduced a bill calling for a six-month time limit on filling vacancies left by death in the upper house Such a measure would certainly bring the reform problem to a head. Either the Senate would be brought up to full strength and persuaded to put to use, or it would quickly shrink out of existence

At present in that 102 member body, there are 21 empty seats, some of them for over five years, and as most Senators are well past the [illegible] age limit many vacancies are about to come frequently

Futures Market Aids In Sale Of Grain Crop

The Winnipeg Grain Board recently issued its usual comprehensive Annual report which reveals that, in wheat and flour combined during the crop year August 1, 1953 to July 31, 1954, Canada exported the equivalent of 147.6 million bushels of wheat in flour, 6.6 million bushels to the United States and 140 million overseas. Deliveries [illegible] Canadian wheat either in the form of wheat or wheat flour.

During the above period, the Board said, in round figures, 83 million bushels of wheat for domestic purposes, 84 1 million bushels under the IWA and 132 5 million bushels at the Class 2 level, making a total of 274 4 million bushels, of which 101 3 million were applied to the 1952-54 Food Account and the balance, 166 3 million, to the 1953-54 Feed Account.

In the case of Oats the Board said 102.8 million bushels during the Pool period August 1, 1953 to October 15, 1954, and in the case of Barley, just over 113 7 million bushels during the Pool period, August 1, 1953 to September 20, 1954 Altogether 69.3 million bushels of oats were sold from the farmers' market as against 21.7 million bushels on a fall basis whilst in the case of barley sales on the futures market totalled 42 million bushels against 36.3 million bushels sold flat.

It would appear from these figures that the Winnipeg Futures market was of some considerable benefit to the Board in helping with the sale of both oats and barley.

LOCAL NEWS

Mrs. Ken Geisterfeer and Robin Lee are visiting at Bartling's.

Mrs. Hlonia arrived on Friday, Apr. 29 to take over her duties as assistant admitting officer at the hospital. Accompanied Mrs. Hlonia is her twelve year old son, Arthur, who will attend school in grade 7.

Mr. and Mrs. Mike Holosko and Nick Hawrish motored to Edmonton on business.

Mr. E. MacDonnell is attending a U.F.O. convention at the Macdonald Hotel in Edmonton.

Mrs. F. O. and K. C. Miller were in the city on business this week. They were accompanied by Miss Barbara Miller.

Mr. Adam Lewis is the Mrs. Allen attending a party in England and other country her mother for two weeks on the Island. Mr. went to Buffalo Inn, Farmer in the North of England to spend some time with Rev. and Mrs. Lewis.

Carl H.L. Bill Dargbush and Walter Gienow tried out their golf clubs on the Vermilion Course last Sunday.

Spring must be here. On Sunday Lena Lake saw the dedication of the season's fishing enthusiasts who were out renewing the weather during up nets and unraveling tackle which was negligently chucked on the corner last fall. Although the results were poor with nets as well as rods, the fact was very heart stirring to see all the old cronies in the busy outing again, heaven knows it is their enthusiasm that keeps their boats and gear going up and down the shoreline all along the shore.

UNITED CHURCH SERVICES

Sunday, May 8, 1955. Mothers Day Service

The young people of Elk Point United Church are taking the Service on Sunday next as a celebration of Mother's Day. This is one occasion in the year when opportunity is given to show the ability of young members of the Church, what can be done by them. Mothers are asked to come along and rejoice in a service of worship. Carnations will be given to each Mother at the Service. Fathers are also specially invited to come. All are welcome.

Elk Point residents are hereby notified that they are required under the Garbage By-law to keep their back yards and alleys behind their premises in a clean condition.

The next few weeks have been declared clean-up time and residents must see that steps are made on or before the 15th of May to meet inspection as required by law.

Dated at Elk Point, Alberta this 6th day of May, 1955.

Paul Potoroki,
Secretary-Treasurer,
Village of Elk Point,
Elk Point, Alta.

Church Students Visit Here

On Thursday April 28, the Ukrainian Church, Elk Point had a visit of eight Theological Students from St. Stephen's College, Edmonton, accompanied by Dr. C. Johnson, Professor of Church History.

The young people of the Church entertained the students to a grand supper after which a most interesting evening was given by the Theology Students. Each student gave an address of history and growth of the Work of Student Ministry in Northern fields, brought a real insight into the various systems of service of Churches.

With a panel discussion on Scripture has a place in the Church, is yours in the Ministry" provided a great interest. The evening closed with a short devotional period conducted by Dr Johnson.

Among the Students was Ralph Marshall, son of a former minister of Elk Point, Rev Samuel Marshall. Many friends were glad of the opportunity to meet Ralph after many years.

E. Sarabia Wins Scholarship

It was with real pleasure that we heard of the honour conferred on Miss Evangeline Sarabia, one of the successful graduates three years ago of Elk Point High School.

Evangeline has won a World University Scholarship to attend the Lake Couchiching Conference to be held in Geneva Park, Ontario, August 13-26. The Conference is sponsored by the CBC and the Institute of Public Affairs.

This honour is of special significance when we realize that only six University Students were chosen from across Canada. Four from its Eastern Provinces, one from Saskatchewan and Evangeline from Alberta.

As if this were not enough she has been elected to the exclusive Golden Key Council of Edmonton University as Secretary. Well done Evangeline

Andrishuk Return From States Picks Up Relics

Mr and Mrs Steve Andrishuk returned home Saturday evening from an eventful and interesting trip in the United States

Steve parked Darts up at Rochester where she had been hospitalized for three weeks and the couple resumed the two week roof of eleven central states. The return home took them through Iowa, Missouri, Kansas, Colorado and Manitoba and was interrupted by interesting visits to famous Museums such as the Boot Hill Museum at Dodge City Kansas, and the Buffalo Bill Collection at Billings Montana

Steve managed to pick up a number of curious relics for his museum at Elk Point including a mounted lizzy alligator, a flat horn blunder toad and some fish fossils and dinosaur bones from Medicine Bow in Wyoming

A dust storm in Kansas and a hail storm out of St. Louis, not to mention a train crash in Missouri, contributed to the eventfulness of the trip.

The weather down south was ideal, says Steve "It was 100 in Kansas The leaves, grass, crops are about two months ahead of our season and Hi growth, although green is very dry."

Dora enjoyed the trip very much and is feeling much better

New Jackets For Fire Brigade

The Elk Point Volunteer Fire Brigade has not only bought some more modern fire fighting equipment but has also taken steps to improve the appearance of the men as a unit New fire jackets with red rivets will soon distinguish the Local's many volunteer crew from the rest of the Elk Point citizens

Equipment purchased by the Brigade includes a new hydrant gate and some adaptors for the coupling of the 1 and a half inch and one and a half inch hose

Residents of Elk Point are reminded of the Cleanup Campaign in progress and are invited to co-operate by improving appearance of their property and to check for all possible fire hazards. The 1955 fire brigade wants to "Clean Up, Don't Burn Up."

Plain Talk from
DR. F. MacNEILL SMITH
Liberal Candidate

Canada has one of the most advanced programs of social security in the world. Its aim is to ensure that the economic shocks of life are available to all citizens without undermining the rewards of individual enterprise. In the 1953-54 budget, social insurance expenditures totalled $1,203,400,000, amounting to nearly 23 cents on every tax dollar. In 1955, 264 million dollars will be paid out in Family Allowances, reaching 2,300,000 families, however each month for the benefit of 3,500,000 children. Each child by age 16, will receive $1,188. President Eisenhower has referred to this measure, introduced in 1944, as the most significant piece of social legislation of the past fifty years. When we add to this, old age security pensions, unemployment insurance, disability pensions, veterans' aids, to mention but a few of the services, we can see how far our Liberal governments have led us towards the goal of ultimate social security for all. Certainly the goal is not fully achieved — because of Liberal government versus continual progress.

PROVINCIAL AND CONSTITUENCY AFFAIRS
By RAY REIERSON, M.L.A.

Two planes of snow removed during the past week were in the Elk Point received 34 hours Telephone Service, effective May 1st., and the contract covering Highway Construction from St. Paul to St. Brides corner was issued.

Twenty-four hour service in Elk Point represents two years of co-ordinated effort and cooperation on the part of the citizens of the village, St. Cheo Brides and the Alberta Government Telephones.

The first request for the service was launched when only 93 phones existed in Elk Point. The request was turned down but the same year given that when it did subscribers were contacted approval would be granted.

The first step in making the objective possible to achieve was to install automatic line and exchange facilities. This was carried out in the form of new cable capable of carrying 300 phones and an exchange with 100 outlets.

The granting of applications for new telephones was carried out by exchanges handled individual and group interests in getting maximum service with the result that the applications were quickly allocated to the number of phones available. The local Telephone Superintendent, Mr. J. Ba... and all are responsibly low in securing instruments for new phones. It seems impossible to fill Point together with the Lake, Mr. Alex Chipak, St. Lina, Mr. Paul Maurice Parenteau, Thereen, Miss V. Berezhulka, St. Paul, Mr. Frank Noel, Saddle Lake, Mrs. Bertie Davidson, St. Paul, Mrs. Maurice Chretien, St. Paul, Mrs. James Needham, Onoway.

Recent births were to Mr. and Mrs. Laurent Joly, St. Paul, a girl Mr. and Mrs. W. Schultz, St. Paul, a girl, Mrs. Camille Boisseau, Lafond, a boy; Mr and Mrs. Louis Mandin, St. Paul, a girl, Mr. and Mrs. Real Lavoie, Lafond, a boy.

The contract covering the construction of a lane road from St. Paul to St. Brides to paving standards issued to Ernest Construction Ltd. for $216,000 is another landmark in the dream of having a paved highway from Edmonton to St. Paul and beyond. Five years ago the suggestion was brought audible of doubt and idle chatter. Today it is an accepted fact that the hope will become a reality when five contracts only designing Beaver Hillsold recovers remain brought to the last two years should see gravel surfacing replaced by asphalt in several increasing strides.

The St. Paul - St. Brides section will not be paved until the second type of surfacing machine. It from the west in the interest of safety, since to isolate a portion of pavement will only tend to encourage high speeds and unnecessary risks.

Chamber Mee. Council At Plenary Session
Asks Construction Of Old Folks Home

A portary session of the town Council, Chamber of Commerce, representatives from the Chamber of Commerce, representatives and executive of a home for the aged and St. Paul Hospital Board was held on Tuesday evening, May 10th, at the Council chambers for the purpose of discussing the question of providing a home for the aged in St. Paul.

The meeting was opened by Mayor Wm. Gosselin who explained the objective purpose to achieve was to obtain adequate low and exchange facilities. This was carried out in the form of new cable capable of carrying 300 phones and an exchange with 100 outlets.

The granting of applications for new telephones was carried out by exchanges handled individual and group interests in getting maximum service with the result that the applications were quickly allocated to the number of phones available. The local Telephone Superintendent, Mr. J. Ba... and all are responsibly low in securing instruments for new phones. It seems impossible to fill Point together with the Lake, Mr. Alex Chipak, St Lina, Mr. Paul Maurice Parenteau, Thereen, Miss V Berezhulka, St Paul, Mr Frank Noel, Saddle Lake, Mrs Bertie Davidson, St Paul, Mrs Maurice Chretien, St Paul, Mrs James Needham, Onoway

Incorporation Of Cleaning Plant

Following a number of preliminary meetings at which the proposed project and was discussed a meeting held on 18 of April last, it was decided that a company would undertake the formal organization of the Association

Steps have been taken to made the point a better formal incorporation can be undertaken. A meeting of the Provisional Board has been called for Thursday, 12th of May at 8 p.m. in the Town Office at which times articles of incorporation will be signed and the St Paul Seed Cleaning Plant Association will become a reality.

Mr H W Webber, Supervisor of Agriculture at Athabasca for the Provincial Alberta will be present to advise and assist the Board with the incorporation procedure

All farmers and businessmen interested in the Seed Cleaning Plant are invited to attend.

Derwent Joins Baseball League

At a meeting of the North Eastern Alberta Baseball League, held in Elk Point, Monday night, Derwent was accepted as the fourth team of the circuit. They replace Two Hills, given a year's leave on special request

Derwent was established as President of the Association and Mr Bill Shabaga as secretary-Treasurer, his second term of office

Schedule for play opens on May 24 with Derwent meeting Vilna at Derwent. The season will be completed by a holiday should be completed by the end of July for the Playoffs in early August

Top teams will play their standing and 2nd and 4th will square off together in 2 out of 3 semi-finals and finals.

Teams entered in the league are St Paul, Vermilion, St. Paul and Derwent.

Tribute Paid To Mothers By St. Paul Brownies

The First St Paul Brownie Pack paid tribute to mothers in keeping with Mother's Day on Friday last They exhibited their work and handicraft and entertained with songs, marching and a play entitled "Magic for the Golden Bar."

14 Brownies were presented the Golden Bar. 1 Brownie was enrolled

Marion Fuller, Joyce Olenik and Leanne Higgins received their Golden Bar. Carol Anne Mellon, Janet Dubeau, Linda McCloskey received their second Bar stripes.

Each Brownie presented her mother with a hand made needle case

A delightful lunch was served by the members of the local association during which Irene Mahon, age 5, and Janice Hatton, age 8, blew out candles and the Brownies hastily sang Happy Birthday for each of them. The program closed with the lowering of the flag and the singing of the National Anthem.

The First St Paul Brownie Pack wishes to thank all those who so generously patronized Cookie Sale on Saturday last The results were highly gratifying

School Children Honor Mothers

A fine tribute of appreciation of motherhood was widely paid to Mothers on Mother's Day Sunday, May 8, by St Paul School children who signed two performances, in the afternoon and evening of that day.

Under the direction of the sisters and teachers, children from all grades 1-12 filled the stage to express their warm feelings of gratitude and thanksgiving through pantomime, duets, song and recitation of what Mother meant to them.

Rev. Father G. Tardif said the opening prayer and welcomed the mothers with words at the beginning of the program and made an invitation to pray them the strength to fulfill their obligations.

At Sunday night's meeting of the Ladies Auxiliary to the Canadian Legion the following were elected to assist in conjunction with the Agricultural Society in the plans for the Golden Jubilee celebration in St. Paul: Mrs. P. Wilson, Mrs. W. Guthrie and Mrs. W. Hallock.

From the Canadian Legion Branch No. 168, Comrade Norman Slater.

Mr. and Mrs. Paul Lord and Mr. and Mrs. Rich Kress took a short story of the future while visiting Ontario. Mrs. Kress' sister lives in Edmonton but Saturday. They saw new the Sputnik in the Gardens.

Gossmore received the go ahead on three contracts this summer building of a new Service Station for Rudel Joly, Goodfish Lake School and private home for Mr. and Mrs. John Bagan.

Stan Shaver of the Inspectors Service Branch, 2 years ago patrol in St. Paul, is leaving for Drumheller and being replaced by Al Kirkwood of Grande Prairie and formerly of Ireland.

LOCAL NEWS

Local news . . . is good news. If you are visiting, or have relatives and friends visiting you, please let us know about it. There is no obligation.

Mr. Walter Kotowich has purchased the Tessier Farm, 3 miles west of St. Paul. This land was formerly cultivated by Mr Lavergne Tessier, now in the Peace River Country.

To the mothers and the parents present he congratulated them on their consistency and encouragement, mainly by and spiritually of Canada's future citizens. Their family unity, necessary for wholesome development of our children today.

The Ladies of St. Anne who have charge of the event, received due thanks from their pastor and the audience.

Toastmaster introducing speakers, Mr. Alec Rudy. Table Topic subjects handled by Mr. Marcel Chevrette and the general evaluator will be Mr. Wilfred Lemieux.

Speakers designated are Paul Drolet, Greg O'Neill, Stan Powers, Fred Farah Respective critics

Firemen Presented With Certificate Of Merit
Receive Honorable Mention Citation For Educational Activities in 1954

Guest of honor at the St Paul Fire Brigade's Annual Banquet Mr Murray Bedard, Assistant Fire Commissioner of the National Fire Protection Association presented Fire Chief Phil Germain a Certificate of Merit with an honorable mention to St. Paul Firemen for their educational activities conducted during fire prevention week in 1954.

Mr. Bedard said that the St. Paul unit has set a glowing example of co-operation with the Town Council and that the efficient working relationship between the two is responsible for the outstanding record in fire prevention and control that have been so major loans due to fire in the past year, and the record for this the regulation fire prevention week was conducted and above all the spirit of unity with the people.

Mr Jules Von Brabant, Mayor of St. Paul, officially thanked the Firemen and emphasized the attitude of the ratepayers to a point of view that men who are on the spot to meet any emergency, meriting their own personal safety and comfort to answer calls, save lives, protect property and safeguard the community as a whole

Lennox councillor, Mr. Ronnie Godard recognized the good efforts of the Brigade and commended them on making donations and bringing home to St Paul by their meritorious actions

Fire Chief Phil Germain, acknowledged the honor bestowed on him and the next words of congratulations expressed to the firemen.

"Support given and understanding of the Council is deeply appreciated and makes the job of running the Fire Department easier," said Mr. Germain.

Secretary - Treasurer of the Town, Mr. L. P Beaumont read to compare the present Brigade with the past, declared that St Paul is under the protection of the most efficient department in its history.

Fire Chief, Pete Yewchuk, of Elk Point Fire Department was a special guest at the banquet and expressed thanks to the St Paul boys for their 2nd position and help in re-organizing his department recently.

Over twenty firemen and their wives were present at the banquet which later adjourned to the Lodge rooms of the Legion Hall

Rat Found On Highway By Henry Charron's
Believed To Be A Lone Traveller

First rat ever to be reported on the St Paul area was found dead on highway 28 directly opposite Henry Charron's home. I may west of Town. The rodent was spotted lying on the side of the road by Andre Charron and packed up with Rudolph Lafrance who also happened to be on the scene

It had been previously spotted by Mr Charron skimming what he drove by believing it to be a muskrat.

Brought into Town, the rat was turned over to Mr. Ben Provencher, Field supervisor for the Municipality then identified it as a Norway rat and Mr. Marcel Chevrette, District Agriculturist confirmed the identification as such a few old timers who have had the opportunity of seeing rats in Eastern Canada.

How the rat made his entry in St. Paul is not known but it is surmised he probably hitch-hiked his way over in a box car and chose St Paul as his destination.

Many of the more aggressively known as brown rats, are about eight inches long, and however their colour is usually the black rats This particular one, of 12 pounds, did however enter in a full grown adult with short pointed nose and tail equal to its body length

Rats are getting the best of a fight to keep them out of Alberta and their numbers are increasing at the southern parts No Counting quantities, however, have ever been found north of the Saskatchewan River

It is highly improbable that the rat migrated to St Paul overland and alone. Rats usually live in colonies and wander away in groups only when shortage of food or under conditions forced them out The theory presents itself that perhaps some rats were turned out of Saskatchewan, from where they are invading Alberta, in the numbers which are now coming out hoppers

Estimated farmers of rats is about from 7 to 10 miles a year, depending the force which resist the invasion

Upon examination the rat found was found to be not to marks indicating he how he came to his end. Intent, he couldn't have been run over by a vehicle unless submerged gently off the road and then left on the bank with a stray stone It is possible he might have died a natural death

Report of the find will be made to the provincial government and if further rats are discovered, the authorities will take the necessary steps to prevent any further. There is no reason to fear these creatures of the dominion, but a watchful eye should be kept and animals reported whenever they may crop up

Other Organizations Take Part In Jubilee

Part of Corb held a meeting early in April and laid out a program of actions On April 18th, delegates from the Agricultural Society began to lay plans for Golden Jubilee Celebration for this district At a second meeting of the Society it was decided that other organizations should be given an opportunity to take part in the planning and conducting of the Golden Jubilee Celebrations.

All organizations in the town and district are invited to appoint delegates to a Golden Jubilee Committee which will represent all interested organizations and which will be responsible for all Golden Jubilee activities during the year.

The first meeting of the Jubilee Committee will be held in the Town Council Chambers, 10th of May at 8 p.m. All interested persons are invited to attend.

NOTICE

Precipitation For Prairie Provinces

Compiled from the records of Dominion and Provincial Gauges. Records up to and including May 2nd.

Rainfall from April 1st to May 3rd has been considerably more than normal in Alberta and Saskatchewan, but somewhat better than normal in Manitoba.

Alberta rains from April 1st to May 3rd have been 156 percent of normal; Saskatchewan 213 percent of normal and Manitoba 103 per cent of normal. The weighted average for the three Prairie Provinces of 208 percent of normal is unusually high so far.

All Crop Districts in Alberta except Crop District 8, have had less than average rainfall from April 1st to May 3rd. In Saskatchewan, all Crop Districts have had better than normal rainfall and in Manitoba all Crop Districts, except LLLLS and 9 have had better than average spring rains.

The growing season on April 1st started with a reserve moisture for the three Prairie Provinces of 162 percent of normal, compared with 90 percent of normal for the previous year.

Combining the reserve of last fall with the rains which have occurred from April 1st to May 3rd gives an all-round moisture increase for the three Prairie Provinces of 163 percent of normal compared with 96 percent at this time last year, the total favor for Alberta now being 184 percent of normal, for Saskatchewan 172 percent of normal and for Manitoba 133 percent.

Grande Semaine De Fierty Rurale 12 au 19 mai

(Continued from page 1)

La président du Cantle, Mlle Gariepy-Lemieux, secrétaire trésorière de la J.A.C. explique qu'au cours d'octobre d'autre entre parents et jeunes de près de 500 paroissien du milieu rural au Canada, on aura l'occasion de démontrer la véracité de ce slogan et de se convaincre que, "lorsque la famille est forte, le pays le pays aussi le sera."

Programme de la Semaine

Ces veilloes se tiendront du 12 au 19 mai dans nos campagnes et feront partie du programme officiel de la Semaine Fort. Rurale qui comprendra en outre la "dimanche de la fierté rurale." Au cours de ce dimanche, les paroissiens de leur paroisse, assisteront en grand nombre à la messe de communion et des circonstance et porteront fièrement leur costume régional. Ensuite, les grandes veilloes paroissiales commenceront le lendemain.

Les Semaines, à la campagne

Cette Semaine typiquement française se déroulera pour la 1ère fois, mais semble promise aux plus grands succès, car elle répond aux préoccupations profondes des milieux ruraux. Par exemple, par les années passées, des journées portaient sur la fierté rurale, l'établissement, la vie paroissiale, la famille, la profession, l'amour. Cette année, comme nous l'avons expliqué, l'accent sera mis sur "Semaine Familiale" c'est-à-dire la compréhension et l'amour entre les membres de la famille.

Les initiateurs croient que de telles sujets, étudiés ralièrement au cours de réunions sociales peuvent avoir d'excellents résultats. Une prise de conscience salutaire et bienfaisante dans la vie de tous les jours.

La Semaine de Fierté est aussi douée une "célébration," mais elle un caractère d'extrême gaieté. Un vent nouveau souffle dans nos campagnes et nos villages. Une atmosphère de fierté et de joie règne partout. Les années, comme nous l'avons expliqué, l'accent sera mis sur "Semaine Familiale" c'est-à-dire la compréhension et l'amour entre les membres de la famille.

HEINSBURG NEWS

The Home and School Association held their general meeting last Wednesday On Account of the bad roads it was poorly attended and started rather late Mr Mercier informed us that Elizabeth Meger got the Scholarship for highest marks in English in Grade 12 last term. He hasn't yet received the Grade 9 results so will let us know by next week As Canada, on ours occasion is represented at the Graduation Exercises on May 24th.

The Ladies Auxiliary also had their meeting last week They have decided to have their postponed Hobby Fair in early fall Let's hope the roads are dry by then They are having a Bingo this Saturday, May 14 so everybody try to be there.

Jimmy Wilson has done a marvelous job of redecorating at home As of this week's enough, he undertaken to build kitchen cupboards too.

Margaret Rashleigh has acquired a position as cashier in a Banff hotel Pretty good holiday job eh, Peggy.

Lila Sharkey has quit school and now drives back and forth to work at the Salt Plant.

Mrs. Cosmbe is away visiting daughter Phyllis in Two Hills.

Mr Harvath purchased a house at Elk Point, so daughter Ilga and family live in the one in Heinsburg now

Mrs Shatkin is throwing with the cafe in June 15th In the meantime they are having the latter remodelled to re-vats in the.

Walter and Eddie Back drove down from the city to be home for Mother's Day Walter is already working part time at the Fort

Eric and Tree Horton drove all the way to Bellview last week end to visit Eric's girl friend there Their wedding bells will be ringing this fall sometime

Mr and Mrs Morris Kaiser are visiting their folks at Wainwright.

The Engers are selling part of their farm equipment and are renting they farm. They have moved to Lloydminster where Mr Enger will work on the oil refinery They hope to move to Vancouver this fall.

The E Kiermers are living at Mike Kawaka now. Elmer will be working there this summer.

Someone is busy stealing gasoline out of parked cars. Sometime they're going to get caught and it won't be worth it

The Basket Social and Dance put on by the Girls' Soft Ball Team turned out quite successful The postponed baseball dance will be held May 20.

Mr and Mrs Anton Haverak were visitors in Heinsburg and Lindbergh recently

The Beadle family is moving back to the city He is the night watchman for the CNR and his working hours are too short now, on account of the new train schedule.

Lake Laurier is something for a spectator to see. The recent winds we've been having broke up the ice and piled it along the north-west shore. It was just there with such force, that it upturned Jack-pines by the roots. The road is blocked and you have to detour around here.

George Bolting is plagued with the oil sickness again and has returned to University Hospital

The Hotel is undergoing operations again this week. This time the bar is being remodelled also the cafe kitchen.

St. Paul United Church News

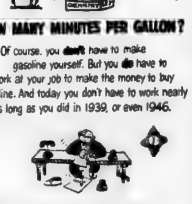
On Sunday, May 8th., 1955 Anniversary Services were held at St Paul and Ashmont with the Rev. E. J. Thompson, M.A., B.D. Ph.D. Principal of St. Stephen's United Theological College, Edmonton, as the Special Preacher.

Dr Thompson was greeted by many of his old friends at each appointment and he recalled with pleasure many happy associations It is hoped the records will be preserved at the Graduation Exercises on May 24th.

The Ladies Auxiliary also had their meeting last week They have decided to have their postponed Hobby Fair in early fall Let's hope the roads are dry by then They are having a Bingo this Saturday, May 14 so everybody try to be there.

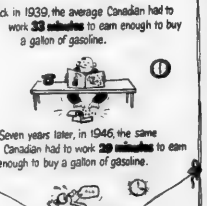
On Sunday, April 10th, 1955 a very large attended service was held at the United Church in St. Paul when 33 members and adherents were received into full membership. Of these, 20 were received by letter of transfer. In the meantime, a class in Training of Church Life is being formed for the Church Officers, Auxiliary Members and the Christian Workers. The Official Board of the St Paul-Ashmont Charge will meet in the Church on Tuesday May 17th., 1955 at 8 p.m. It is very important that every member of the Board be present.

Rev Roy Taylor
Minister

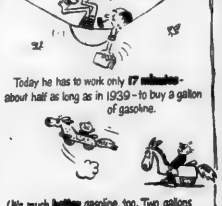


HOW MANY MINUTES PER GALLON?

Of course, you don't have to make gasoline yourself. But you do have to work at your job to make the money to buy gasoline. And today you don't have to work nearly as long as you did in 1939, or even 1946.



Back in 1939, the average Canadian had to work 33 minutes to earn enough to buy a gallon of gasoline.



Seven years later, in 1946, the same Canadian had to work 29 minutes to earn enough to buy a gallon of gasoline.

Today he has to work only 17 minutes about half as long as in 1939 – to buy a gallon of gasoline.

(It's much better gasoline, too. Two gallons of today's gasoline does the work of three gallons made in the 20's)

Opening Of New Era For Homeless Children Found In New School

EDMONTON — The laying of a corner-stone at the new St Mary's Home Technical School on Sunday, May 15, will mark the opening of a new era for the homeless boys of Western Canada. The half-million dollar structure, which was started last fall, is now complete in time for the opening of school in September. The new school will provide accommodation for 120 homeless boys, and will teach them a craft or trade to enable them to take their place in society.

The Rector Major of the Salesian Order, Father Renato Ziggiotti, is currently on a tour of the society's establishments in the United States and Canada, and will be in Edmonton to officiate at the corner-stone ceremonies Father Ziggiotti was chosen Superior General of the order in 1952. In World War Two, the Allied Command entrusted him with the organization of Don's Towns in the wake of the bombarding armies.

The Salesian Fathers, who run the home, have made a specialty of training men and have been running similar institutions in other countries for more than a hundred years They first made their way to Canada in 1900, and they took over the operation of two years in the Montreal. They took over the care of the boys at St. Mary's Home in 1941. Since then they have built up a reputation as a school for boys in Vancouver.

The present St. Mary's Home was originally built as a fire station, and is not ideally suited to the necessities of an orphanage. The new home will provide lodging for more than twice as many boys as the present one and will also give the boys a more homely atmosphere in which to grow up The addition of regular training shops and laboratories will enable the Salesians to impart richer members of the order who have special training in such crafts as printing, carpentry and mechanics.

The boys, who have always had a special party on Hallowe'en, decided this year to hold the special celebration in May instead so that it might coincide with the corner-stone laying ceremonies A party will be held at which they have made it an annual "good deed" to which the boys with some mischief's kindness on that day when it usually wants a mother to remember.

Traffic Safety Line By J. W. McKay

Inspector Highway Traffic Board Edmonton, Alta.

Eyes of A Driver

In continuing my discussion on the subject of the qualifications of a driver, I wish to deal with eyesight.

Good eyesight is a very important factor in safe driving. Many drivers fail to grasp the importance and also the different parts of eyesight play in driving ability

First of all there is what is known as VISUAL ACUITY This is the ability to discern objects with a clear-cut distinction. That is your eyes can discern the outline without any fuzzy edges that are not there Poor vision in this phase will cause much difficulty in reading The test that detects poor eyesight in this case is the Snellen test. Probably you have had an eye test and you were asked to look at two or three lines of letters all of different sizes and when you were through maybe you were told you had 20-20, 20-30, or 20-60 vision. Well, 20-20 vision is very good It means that there is a sign board and your vision is such that you read it clearly at 20 paces Then maybe it was 20-30 This means that you should read a sign board at 20 paces but you have to stand at 30 paces and so on. This is one phase of vision that is necessary in driving

Field of Vision

This is another part your eyes play in driving How much can you see out of the corner of your eye? As you drive along the highway, your eyes are focussed on the roadway ahead of you, maybe on the centre line or the edge of the highway Then you cross an intersection, a roadway cutting across the highway. There is a car on it coming towards the highway. You should be able to detect it through the side of your eye without having to take your focus from the centre line

Good vision in this respect is 180 degrees — 210 degrees. That is if there was a line drawn across your face, parallel to your eyes it would be 180 degrees. With your arms outstretched from your shoulders, you should be able to detect your hands even with your eyes focussed ahead. If you should have to swing your head forward to a position of about 120 degrees then your field of vision is poor.

Many of our intersection accidents in the cities are due to faulty Field of Vision.

At glances do not seem to help poor vision in this respect, but there is only one way to compensate. The individual will have to look direct to the left or right and not depend on his field of vision which he does not have

NORMAL WEATHER IN STORE FO R MOST OF CANADA
Most of Canada can look forward to normal or near normal temperatures for the next 28 days, according to the long-range weather forecast by the meteorological office The outlook is a drop of the western provinces and a rise in the north of the U. S. border

Importance Of Child's First Teeth Is Often Overlooked

by DR. E. G. MANDEL

The fairy godmother who rewards a youngster for placing a tooth under his pillow at night may be doing the child grave harm. If a first tooth is removed or lost too soon, serious dental troubles can result

The adjacent teeth may "drift" toward the opening left by the lost tooth, causing the successful permanent tooth to appear in the wrong place

The unhappy result may be a severe case of highly irregular second teeth and an unsightly appearance In order to avoid this faulty tooth alignment, dentists will sometimes recommend use of a space maintainer when certain primary teeth are lost prematurely.

The belief that a child's first teeth are not important "because they will fall out anyway" has produced much damage to both health and appearance

From the standpoint of general health, a child cannot chew his food properly and thoroughly with poorest and free from discomfort if teeth are missing or badly out of proportion.

The child's first visit to the dentist should come when all his teeth have arrived, usually between the ages of two and three. This visit should not be definitely a tooth alignment, dentists will sometimes recommend use of a space maintainer when certain primary teeth are lost prematurely and the child can receive good friends.

If your child can be given a happy introduction to dental care and proper health habits, you will be helping him to appreciate many of the principle diseases of mankind.

These are the basic rules for your 2 dental health, for children

1 A balanced nutritious diet (a) Fresh fruits
2 Proper use of the toothbrush immediately after eating
3 Early detection and treatment of dental decay to prevent more serious disease later
4 Routine consumption of fluoridated water if the community of fluoridated water supplies the supplementary fluoride prescribed by the chosen tooth
5 Enjoy a fun dental visit a regular check up and treatment under the supervision of a dentist.

Prepare Your Machinery In Advance

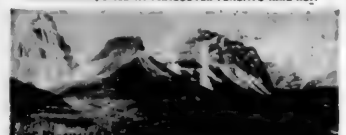
He should you have had the experience of being ready to start on a trip — long or short — only to realize you have a flat tire. Have you ever had the additional annoyance of going to put on the spare only to discover it too is flat? Taken a lot of extra time to get going doesn't it! It probably goes through your mind, "I must get more tires — why don't they check the spare when they check the other tires"? Farmers who neglect to check their tillage machinery in the spring run into exactly the same type of annoyance once they begin the spring work. The work-ing takes only a day or two in the spring and can mean earlier harvesting and added yield in her season.

Any [illegible] should be replaced or repaired when bolts and rivets should be tightened, and, in the case of nuts, one of the flat sides should be left parallel to the nearest frame surface or edge so that any loosening can be quickly spotted. Parts such as levers, turnbuckle frames and trip out mechanism should be checked to see they are in proper working order. Special care should be taken to see that the mechanical or hydraulic lift equipment and the depth or control apparatus are in good working order.

All bearings should be properly lubricated — this will mean cleaning and repacking the main bearings if this was not done before storing the machine, and greasing and oiling all the secondary bearing surfaces. In the case of drive chains, either of the grease cup or roller type they should be thoroughly cleaned in diesel and after all grease and dirt has been removed they can be inspected for wear or over damage. If the machines are being used in a moderately heavy to heavy soil, these chains should be soaked in kerosene overnight before being placed in service. Any chains that are worn more than one and one half times the chain thickness from the shaves should be sharpened or replaced. Care should be taken to see that the correct amount of tension is provided for the soil being handled.

Machinery racks can save valuable time, and thus money, during the spring work. Have you tried carrying a bundle of wire or shipping bags with you as you check your machinery? When you find any part that is bent, worn, broken, rusty or in need of sharpening, put it on. You won't forget to fix it before you get on the land if you use this method of reminding yourself.

IFAP says that women in Laos in southeastern Asia have found a new use for surplus American butter. Instead of eating it, the people prefer putting the butter to more than one and one half



NEW LUXURY, SPEED IN VANCOUVER-TORONTO RAIL RUN

See CPR luxury flyer the "Canadian," fun the Rose River valley as a backdrop as it makes run from Toronto to Vancouver. The Canadian and the new CNR flyer "Super Continental," have hard-ground aspect, many of the roller grills and even hand-operated window shutters. They will make the trip in a little over 72 hours. Trains are the railway companies' answer to the inroads made in rail travel by airplanes.

Tourist Service Week Helps Promote Business

Tourist Service Week (May 1 to 7, 1955) is Canada's traditional week to remind us of tourists needs and desires — and to get and interest in our country. Since 1948 Tourist Service Week has pointed out a yearly necessity for special attention to tourist trade problems by all appropriate provincial, regional and municipal authorities, local business men's associations, chambers, restaurants, hotels, motels, resorts, service clubs, the schools, the press, radio and TV.

While Tourist Service Week is only one week in the year, its message to Canadians is something for them to act on every week in the year round — to obtain, in every possible way the reputation of their own communities and for all Canada as hosts to all visitors.

The widespread benefits of a healthy Visitor Industry" are felt first at the local level where visitors spend money. One of the aims of Tourist Service Week is to correct the mistaken idea that proceeds of tourist trade are shared only by those uncertain fields of activity such as accommodation and transportation. The fact is everybody benefits. Whatever you happen to do for a living — whether you work in industry, farming, trade or some other business or profession — you can be sure that some part of your income originates from visitors to your community or your country.

Objectives of Tourist Week

1. Encourage needed improvements and highest standards of cleanliness, attractiveness, efficiency and courtesy in all services used by visitors, including fuel, air, water and road transportation, stores, service stations, restaurants and other retail outlets; all types of accommodation, including hotels, motels, resorts, camps, public services such as border authorities, information booths, ambulances, etc.

2. Promote development of tourist attractions such as historic sites, community parks, festivals, pageants and other special events that will make your area a more interesting place to visit.

Talk up the idea of travel in Canada at all appropriate business, community or social gatherings and especially whenever you meet officials, teachers, press, radio and TV people and others who influence opinions.

3. Support community tourist promotion organizations such as [illegible] in its efforts to interest visitors in your area and to assist them after they have come.

4. Feature distinctive local foods, handicrafts etc. in all places frequented by visitors in your community.

5. Practice conservation of all recreational resources, including water, forests, wildlife and scenic attractions.

7. Be at all times courteous, accommodating and helpful to travellers and visitors. It is in everybody's best interest to make visitors want to stay longer, want to come back again and want to recommend the places they have visited to others.

The U.S. farm support price program is to the farm community what a minimum hourly wage is to labor. U.S. farmers are told to suggestions that support prices be lowered.

FBA Sets Up Commission Study Insurance

As a result of the a deepened satisfaction with the present situation regarding car insurance in Alberta, a joint Committee was set up recently by the Farmers' Union of Alberta and the Alberta Federation of Agriculture.

This committee which is making a further study of motor insurance in order to prepare a submission plan held its first meeting at Calgary on April 27th Ron Marler of Edmonton was appointed Chairman and Mrs. W. J. Taylor of Wain-right Secretary. The other members of the Committee are Wolf Hegonis of Calgary and Arnold Pratt of Lethbridge.

The meeting dealt largely with procedure to be taken and recommendations were made to secure detailed information for study by the members before the next meeting which will be held in June.

The Alberta Wheat Board has announced that it is prepared to receive applications from prospective permanent to deliver grain in excess of their quota in order to their delivery [illegible] of that wheat quota is available for such grain.

HAPPENS ONCE IN 50,000 BIRTHS

Identical triplet bull calves, a once-in-50,000 occurrence, are handled by Mr and Mrs. Fred Dillon on their farm near Gilliam, Mo. The prized shorthorns are Pete, Peter and Repeat.

—Central Press Canadian

Armistice Hours

The spring meeting of the Armistice Hall Society was held on May 6th (last) well attended, considering the condition of the roads. Plans were made to improve the renovations planned for the hall, decision being to put in a cement foundation. A new hardwood floor will then be laid and the walls and ceiling sealed with [illegible] plywood. It will be a thrilling moment for the community when this is accomplished. For far too many years the hall has remained static, showing no improvements and falling into debt. Since new management took over the hall some 3 years ago, the hall has cast off the burden of debt and progressed to a state where something concrete will soon be shown for our efforts. We give thanks to all the loyal folks who have supported and patronized the hall despite its delapidated condition, and we are pleased that we shall soon be able to offer something better. Work will commence immediately following the completion of seeding.

It was also decided to hold a dance on May 25, in aid of the Red Cross and Cancer Fund. Watch for posters.

The Armistice Ladies' Club held their April meeting at the home of Mrs. Larsen. It was one of those rare beautiful days and the meeting was well attended. A sum of money was voted to be given to the Red Cross, and an assortment of toys for the Children's Ward of the Elk Point Hospital. A most delicious lunch was served by Mrs. Larsen.

We hear Joe Price has taken a job in the Peace River area, and expects to leave soon, leaving he here in charge of the farm. It's a shame to have a good road-builder leave the district, when we are so badly in need of roads, but we have hopes something will be done soon. A year like this, fixing feeds seems almost as important as farming.

Up to February 22 Canadian sales of wheat under the International Wheat Agreement in the current crop year had totalled 96.4 million bushels or 69.2 per cent of last year's guaranteed quantity. A balance of 55.3 million remained in Canada's quota

WHAT ABOUT A SPORTS DIRECTOR?

An idea which is catching on rapidly in many medium sized Canadian communities is that of hiring a director to manage recreation and control training on all levels in order to have a fairly rapid development of talent in the minor ranks and providing a wholesome occupation for our boys.

The idea has been discussed previously in connection in sports circles in the Town Council and the Chamber of Commerce The general feeling in the Town is that it would be of great benefit to the community as well as being in keeping with its modernistic

The question arises from time to time as to whether a man qualified and experienced in coaching himself in St. Paul and taking more training can afford to do so.

It's a new concept, which, because the Junior-Senior Lacrosse — combination the minor sports club and a number of organizations on the Town Council and the Chamber of Commerce is under consideration At present it is being investigated by the

Because this is something entirely new for St Paul, a complete trial must be drawn up all aspects of the proposition. Public opinion must know it wishes to decide if we want a sports director or not.

Last Year proved conclusively that there is definite need for organized coaching. It was wonderful to see many of the local senior hockey club had been picked by the pros for replacement could only be obtained from the outside and at a high cost The same applies to all other sports.

A qualified director could be a graduate of the University with professional education degree or he could be a former athlete with the proper coaching ability and minor sports experience preferable. The University graduate may demand more money than a former athlete. Who is right?

Should he be hired on a yearly basis or just coaches what are required of the team who will have control over him and a number of details to be worked out before a decision is established

A committee at a recent meeting, consisted of an executive, remuneration to local team a director and a committee here on the basis of the low sports A cheaper proposition, it has its merits and it is a start and a step in the right direction.

We urge the Chamber of Commerce to present its brief to the Town as soon as possible and all other organizations interested to discuss the proposition hand down an opinion We also invite comment from the public Bring it to the attention of your council, or let this newspaper know your attitude

HOME FOR THE AGED

Everybody apparently is in favor of the idea All that remains — the authority to go ahead by those who have the power to control and make the necessary applications for the grant, namely the Town of St. Paul and its citizens.

The Chamber of Commerce recommended at its last meeting and sent a delegation to the Town Council urging favorable attention. No objection was registered and council instructed the secretary to get all information required The Town did not commit itself as yet but seems favorable

In view of the fact that our local M.L.A. Mr. Ayerst, is strongly in favor of a home for the aged and that his government provides grants and loans, it seems logical that we should not miss the opportunity to bring some comfort and age to those who pioneered our district and made it what it is today

The project in this Jubilee Year, is all the more logical because it would stand as a concrete monument of our appreciation. If we take immediate action, it might just be possible that we can make the official opening of this home one of our main Jubilee Year celebrations in September

IN APPRECIATION

The Business men on the south side of the main street, between Brosseau's and M & D Motors, acknowledge with thanks the efforts of the Town to solve the consistent mud problem. Prompt action, following the request by the group, was undertaken and for the first time in five years the street is dry. Continued co-operation will be appreciated further.

FUNNY WAY TO SELL BUTTER

Cheese may improve with age but that surely isn't the way with butter Yet Ottawa seems to think so, says The Financial Post Again this year, it is expected to introduce its summer plan of "store the fresh and eat the old."

By handling prices, just as the grain is getting green and butter normally reaches its peak of quality, new production will be channelled into government warehouses and the stuff stored last year will be moved into consumption.

This is a funny way to sell butter, especially when we have so much of it. And it isn't working. There is twice as much government butter in storage this year as there was last.

Rapid Increase In Motor Car Industry

The Canadian motor car industry — which got a slow start this year but now of the Ford strike — has passed some important milestones, reports The Financial Post.

It had its first 10,000-car week this year, as set-workers built 10,122 for the week ending April 1.

Past moving Ford car production reached 3,573 for the week, 42 more than produced by General Motors.

The [illegible] record [illegible] 100,000 [illegible] the first quarter [illegible] slightly more than [illegible] the first quarter of 1954 [illegible] despite the Ford [illegible] settled in the last few days of January.

Report To Chamber Of Commerce On Seed Cleaning Plant

[illegible] from page 1

[illegible] from each P.U.A. Local in the St. Paul District together with a number of interested farmers, met [illegible] by Mr. Parkinson, Agricultural Engineer, with the Department of Agriculture, outlining the reasons why a plant should be built as well as how to go about it. Mr. Ray Bateman, M.L.A. was present at the meeting and was urged the farmers to take advantage of the grants offered by the Department of Agriculture and the Municipality to build a plant.

A provisional board was appointed to carry out the initial steps in organizing the Association. A committee of three was named to meet with the Municipal Council to ascertain whether they favored such a plant and if they would make a grant to the Association if and when it was formed. The Council voted in favor of such a grant. The Association of the Association was now proceed with the knowledge that we have the sanction of the Municipality and the Government.

The next step will be to have the Provisional Board meet with a representative of the Co-operative Activities Branch to draw up articles of incorporation. This will be done as soon as road conditions and other circumstances permit. When this is completed, farmers will be asked to purchase shares of $50 apiece.

It is estimated that at least $15,000 of share capital will have to be obtained before construction will be able to be undertaken. The estimated cost of the plant is $42,000 with the possibility of it going up to $45,000 with added machinery installed to take care of grass and legume seed. The Co-operative principle and the shareholders share the cost equally, members could do a great deal to make this proposed plant an unqualified success. As an organization we should do all we can to boost it in general, as individual prosperity [illegible] we should do something more concrete such as talking to your own customers about it and urging them to purchase shares. We all realize that the plant will not fall but left solely at the [illegible] to pass on to the [illegible] and many will not have the ready cash to purchase shares immediately I would suggest that business men purchase shares if called upon to do so. I am sure that they could later be sold to farmers who wish to become members, or should that no farmer would be left out due to lack of ready cash.

The average price for grain received by producers in Canada in January was 79 cents a bushel compared with 94 cents in January a year ago. Heavy marketings around the new price, that and lack of export trade, the price of grain in the U.S. being also at low levels.

FLY RAPE BLOOD TO SAVE U.S. BABY

A congratulatory kiss is bestowed by Serena Robert on her mother, Mrs. Helene Robertson of Redwood City, Calif., after the news that a supply of rare blood had been obtained from Cree Indians in Alberta in time for the child's fifth birthday. Mrs. Robertson is expected by doctors to [illegible] the blood factors she needs to live [illegible] years after birth. Only 23 persons in the world are known to have the blood-type that may save the child and 21 of them are on the Indian reserve in Alberta. (CP Wirephoto)

How To Fight Poison Ivy

The North American Continent is the only area in the world infested with the three-leaved plant which brings discomfort and misery to millions of country dwellers and nature-loving city folk each year. Captain John Smith, one of the earliest English settlers on this continent, described poison ivy as the cause of a disease that lasts for two weeks.

The ivy, oak, sumac, poison oak and poison sumac, contain oils causing susceptible persons to break out in an itchy rash which can develop into spreading blisters and, eventually, into open, itchy sores.

Until recently, John Public's report on the time it takes to get over a case of poison ivy was approximate. Nowadays, however, medical science has provided a drug which promises the condition, and chemists have developed modern weed killers that help to eradicate the noxious plant.

The most important control measure in prevention of poison ivy is the knowledge that you have been exposed. Poison ivy has a characteristic three-leaf cluster, the surfaces of the leaves being smooth and glossy, or sometimes hairy. Workers at Syracuse University recently conducted tests which showed that a preparation called Brintamin Lotion with Sirvenium will completely prevent the itching, the tell-tale rash of poison ivy if the application is applied within eight hours of exposure. Evidently the sirvenium combines with the irritant in the plant oil in such a way as to render it harmless to the skin. The doctors say that if you don't get the Brintamin before you have the rash starts, the remedy will still help relieve the itching.

For patches of ivy growing in the yard or in places where children play, commercial sprays containing 2, 4-D or a chemical called [illegible] sulfonate are effective killers if used correctly. The spray should be applied in hot dry weather when the second of poison ivy's two growth periods. This occurs when the leaves are fully formed. The spray must be applied generously. After two or three days the plants will wilt. At this time, many gloves or newspapers which are thrown away after use, you can dig and pull the plants up by the roots. It is potentially dangerous to burn poison ivy since the toxic oils are stirred in the smoke and can cause severe poisoning if the smoke is inhaled.

Care and a bit of planning are needed to avoid the misery of poison ivy, but those who have suffered from the disease are only too happy to be able to do something about this form of vexatious. Thanks to weed chemicals and Brintamin Lotion with Sirvenium poison ivy need no longer be considered [illegible]

Historical Life Of Louis Riel In Book Form

The stirring life of Louis Riel is the subject of a new historical book being offered for sale exclusively in Alberta's golden province. The 314-page publication entitled "Louis Riel, 1844-1885" is a critical study of the life of [illegible] Canadian leader of the Red River and North-West Rebellions. Written by the late William McCartney Davidson, it is now being offered for sale by The Edmonton Publishing Co., Calgary, at $2 a copy.

Mr. Davidson's account of the book was published in serial form in the Albertan in 1951 and a pamphlet was offered for sale in the following year. However, the present book is the first complete unabridged version of Mr. Davidson's 16-year study of Louis Riel.

The book begins by tracing Riel's ancestors and the activity of his parents, Jean Louis and Julie Riel. It tells of his early life with the Metis, his education in Montreal, and the Red River Rebellion of 1870. The last section deals with the Riel Rebellion of 1885, its failure, and Riel's subsequent trial and execution.

The book is one of several planned during Alberta's fiftieth anniversary by non-government bodies as a contribution towards the province's historical heritage.

William S. Walker, an oldtimer of the Athabasca district and one of the original Pool members, passed away on February 12. He was the first farmer to win a Master Farmer Award in that district.

NEW FISH "SPLASH" IS BRAINCHILD OF ONTARIO FISHERMAN

With opening of the trout fishing season in most provinces of Canada, streams and lakes are being whipped by fly fishermen and ridden by spinning, casting, mini-fishing enthusiasts. One group of fishermen, and women, who are trying their luck in the Huntsville-North Bay area, have a new thrill to seek. Pat Fenton, Toronto, holds up a splash, a cross between a lake, and spoonbill trout, one of 25,000 which have been planted in the waters there. Hundreds of anglers have headed into the area anxious to land one of the [illegible]

New House Paint Revolutionary In Performance

Introduction of an exterior house paint that will not blister, hasrisked as the most revolutionary development in paint performance on modern homes, has been announced by H. H. Cowell, president of Marshall-Wells Canadian Companies, Winnipeg. The new paint, to be marketed under the trade name of "Formula 5" is suitable for commercial and industrial uses, as well as private dwellings. In addition to being guaranteed blister-proof, it is also fume-proof, stain-proof, self-priming, and can be used on wood, masonry and other common exterior surfaces.

Historically, painting can be traced back thousands of years. As early as 2450 B.C., white lead was used by the Romans as a basic paint pigment. Since that time, the quality of house paint has been judged largely by the [illegible] of white lead.

Herein lies the secret of Formula 5's non-blistering qualities: the white lead and zinc oxide found in all present-day house paint, have been eliminated and a new ingredient which stops blistering has been introduced. The only solution the industry [illegible] previously been able to offer consumers was information on how to prevent or reduce the [illegible] of moisture. Therefore, to home owners throughout the country, Formula 5 will come as welcome news because blistering caused by excessive moisture has been the most common of all complaints against paint.

Formula 5 is guaranteed blister-proof on new wood and is more fume-resistant on previously-painted surfaces. Also, rust and corrosion from nails, downspouts, gutters and other metal adornments on a building will not stain the new product. And mildew fumes, traditionally a nuisance in areas around sewage plants, refineries, paper mills, canneries and similar industries will not [illegible] these surfaces.

Mr. Collis said that during the past five years, more than 10,000 gallons of the paint have been sold under the different name and label in the United States. Through a field survey, it was found that the paint had been applied to houses, farm buildings and industrial buildings and consistently good results. In fact, not one single complaint was received. "This, in itself, is a unique experience in the paint industry," stated Mr. Collis.

[illegible] is now being introduced in Canada this year from the plant of the Lakes to the Pacific Coast.

New Catholic Seminary To Be Built On St. Albert Trail

An expenditure of more than $500,000 is estimated for a new Roman Catholic seminary, to be built on the St. Albert Trail after three miles north of Edmonton, according to an announcement Thursday by church officials.

The building will provide accommodation for 100 students, in training for the priesthood.

Preliminary work is in progress on the plans and specifications. The architects are Blair and English of Edmonton. The contract will be awarded as early as possible as it is hoped to have the foundations ready by fall. Occupancy of the building is being planned for next year.

For many years, Roman Catholic students have taken courses at St. Joseph's seminary on 118 St.

Funds for the new seminary were raised during a campaign in the Edmonton archdiocese several years ago.

Language Survey At Elk Point

Teachers from Elk Point Centralized School, Heinsburg Centralized School, St. Paul Public School, Lindbergh and Primrose attended a Language Survey institute held at the Elk Point High School on May 10. Mr. R. E. Bentley presided with Mr. D. Bladon as secretary.

The institute dealt with language problems and proposed remedial measures to be applied. Acting as consultants were Mr. A. E. Earl, Co-ordinator of Teachers Training Service, Mr. Edward of the Department of Education, with the Language Service Bureau, instructors in Elementary Curriculum, Miss Lamport from the Faculty of Education, Mr. Kocetz Superintendent of the St. Paul Inspectorate, Mr. Sylvester and Mr. Beauregard of Bonnyville.

Various difficulties encountered throughout the St. Paul Inspectorate in the teaching of language, and other subjects, were discussed and remedies were suggested by the teachers which would assist in the construction of a new language curriculum.

United Church W.A. Meeting At Rabbam's

The United Church W.A. met on Wednesday, May 4 at the home of Mrs. A. Rabbam. Mrs. Pyrell acted as co-hostess.

The Manse committee reported that the repairing and decoration of the bathroom at the manse is practically completed.

The serving committee had on hand several little girl's pinafores for immediate sale and found no difficulty in disposing of them. Anyone wishing to leave an order for pillow slips, children's garments, ect., may contact Mrs. Plaudens.

Mrs. Mason's flatspot which the ladies were to have entered is to postponed to June 24.

Mrs. D. Tyson and Mrs. P. Petrusky kindly offered to take the June meeting.

LOCAL NEWS

Mr and Mrs. E. A. Hanson and Marions who left Armstore recently are in Yoshon B.C. visiting Arnold Langrow who has been working in a lumber mill there for several years.

Max Dzenik has purchased the former McQuillon house from Alex Lindquist.

Of interest to the Elk Point district is the engagement announcement of Miss [illegible] nurse at the Elk Point Hospital to Ron Lobright. The wedding is planned for July.

Mrs. J. Trudger left Sunday for Kingston, Ontario where she will spend several weeks with her sister.

Mr. Steve Andrusiak and family, Cross and Elsie are presently in Stony Plain visiting Doris' Parents.

Louise Sobowsky and Mary Scroska visited Elk Point last week-end. Mary and Louise expect to be employed at Banff this summer, and then Louise plans to attend University. Mary will go to the University of Brit. Columbia.

Doreen A. is home from the University of Alberta where she has been taking her first year in the Faculty of Education.

New additions to the Elk Point Hospital Staff are Joan McGrow of Drumheller and Helen McHale of Calgary who are completing their training at Barons Aub.

Elk Point Again In Ball League

Meeting at Elk Point on May 9, delegates of the four teams of the North Eastern Alberta Baseball League got things under way for the 1955 season.

Representatives included Buster Card of Vermilion, Marcel and Vienne Joly of St. Paul, Buck Robert and Don Hordos of Elk Point and John Rybowiak and Paul Zaniuk.

Last year's executive of Ronnie Robert and Bill Blakun were re-elected and the twelve game schedule which will begin on May 24 is being drawn up by the secretary Two Hills have obtained a years leave of absence and Don went to the newcomer in the league.

The Constitution requires twenty players registered with a team and names of the players are to be submitted to the secretary by the fifth game.

The League is still without a trophy. Is there any generous firm who could supply one?

Social Evening For Miss Jepson

A large number of Rumby and district people attended a social evening held in the Rumby Legion Hall, honoring Miss E. A. Jepson, last Friday evening April 15. Miss Jepson has operated the Jepson Drug in Rumby for the past nine years, and recently sold the business to Mr. George Wyllie. The social evening was held in the Rumby Hall.

Miss Jepson, who will be leaving Rumby in the near future, was presented with a leather briefcase. The presentation was made by Dr. H. E. Bell. Dr. Bowman spoke about Miss Jepson's interest in the community activities, and Mr. C. O. Fry, president of the Rumby Chamber of Commerce, thanked Miss Jepson on behalf of the community for her assistance in Chamber of Commerce work previous to and during her term as secretary of the Chamber.

Miss Jepson was born and received most of her high school and pharmacy apprenticship at Elk Point where her parents Mr. and Mrs. A. Jepson still reside.

—The Rumby Record

Was Used On Hand For Red Cross Knitting

A meeting of the Elk Point Branch of the Red Cross was held on May 3 for material for sewing and knitting has not been received However, for women who are interested in knitting immediately, Mrs Eaton does have some wool for members. The next meeting for Elk Point and District Red Cross is scheduled for Heinsburg, June 15.

'Card Party In Aid of Brownies

The recent card party held at the Nurses Residence in aid of the Brouns and Guides was well attended. There were seven tables of bridge and crib and a sum of $15.50 was realized. All agreed that this is an enjoyable way of helping this worthy project and we shall expect to host of more card parties

UNITED CHURCH NEWS

Last Sunday Mother's Day [illegible] was observed in the United Church when young people took over the whole of the service

Those who took part were Shirley Cash, Marjorie Jodhanson, May Main, Barry Keith, Lee Schade, Joanne Miller Raymond Cook Fetton and Jill Tennant

We feel that special mention should be made of the very able and wonderful way in which Raymond Pinder delivered the sermon. It is with real pride and pleasure we announce that Raymond has declared his intention of entering in for the Ministry and he will be received as a Candidate at the next Presbytery which will meet during the Conference in Calgary at the end of May. We do hope he will have a successful period at the University and Theological College during the coming year. Elk Point Church is filled with able young people in our midst, it is good and gives one encouraging hope for the future.

Beginning on Sunday, week of May 8th, the United Church will hold its services at 11:00 a.m and not 7:30 p.m. Also the Sunday School will meet at 9:45 a.m. instead of 11:00 a.m. Will all members and friends please note the change in time. The morning services will be during the Summer Months until the end of September when it will revert to the evening hour.

Money in the bank

Millions of Canadians know the value of a bank account—the security and comfort it brings, the peace of mind it assures, the enterprise it makes possible.

When you keep your money in a chartered bank you *know* it is safe. And you are dealing with friendly, experienced people, skilled in the management of money and anxious to share their knowledge with you.

There is a type of account to suit your purpose, some designed to help you accumulate funds, others featuring the convenience of chequing.

Your local branch bank provides these and many other services. It is much more than a handy, safe place to keep money. It is a banking service-centre where you can count on prompt and courteous attention to *all* your banking needs.

Only a chartered bank offers a full range of banking services, including:

SAVINGS ACCOUNTS
Keep your money safe, yet you can readily increase or use bits of it.

CHEQUING ACCOUNTS
For individuals and companies who pay by cheque. Your cancelled cheques serve as receipts.

BANKING BY MAIL
Convenient, and saves time. All your routine banking can be handled in this way.

JOINT ACCOUNTS
For two people, any of whom can make deposits or withdrawals.

FOR SALE — 23 milker purebred Holstein milking at Clint Auction Market, Monday May 28th. The cattle have all been under a record-of-performance grain-per-day test at Pagetvik Farms, with flying colors During high school, he was employed part and full time by Weston's Bakery so he has been working his way through in a very practical way Our Last year he attended his first term in the Faculty of Law at the University of Alberta. Now he tryes his hand at being a milk man Still next fall.

Bill Kotsch's smiling face is back with us again Here's one farmer who likes a change in winter and avoids employment elsewhere.

Mrs F Bazvich is busy with a petition again This time it concerns the school grant This would certainly be a dull neighborhood without Mr Bazvich interpreting views.

Friends of Mrs. Borden Lipsey (nee Jean Pashley) will be happy to know that she is a proud mother of a baby girl

Jack Bandle has been unable to get into the Air Force on account of failing his Physics test His plans are going back to school to try again.

The bush of the road built at Hedgeway last year is proving an badly and Mike Stark is in danger of losing his fence This is a job for the county.

The school was surprised to report of their efficient plastic On Friday the school was out planting trees around the school grounds. This is one way of having a living memory of Alberta's 50th Jubilee.

It would be a nice gesture if the town residents would do the same and beautified their homes.

Mr Jenner, our No 1 gardener has been able to produce a tomater vine about 2 feet long. It boasts of two ripened already His peas are also up Mine are still in the ground.

Lloyd McEwen and Mort Raymond are going in for chicken farming Mort is building a new chicken house while Lloyd purchasing from Mr Bendle, house ware and chickens complete. The Bendles have moved to Edmonton.

Bob Maxwell has begun construction of his new house

Mr and Mrs. P Burk have been to Edmonton to attend their son's graduation.

Art Grendal is now working at McIvina's Garage

Gravel trucks are busy in town again Seems like old times It hasn't rained for a few days now

Mr P Hazian of Pretvale has traded his farm for a couple of houses in Edmonton The new owner of the farm has three children who will be attending school here

The members of the Ladies Auxiliary wish to thank all who so kindly stayed home to play Bingo last Saturday They made out very well in spite of the fact that so many went to St. Paul to try for the car.

Mr and Mrs Hembon went to the city on Monday

Donald Black is busy plowing gardens in town.

Some farmers got some grain in during the two dry days we had last week, namely L Kapiack, W Sawuk and F Bendzsuk.

BLISTER-PROOF GUARANTEE

PRINTED ON EVERY CAN OF
MARSHALL-WELLS *FORMULA 5*
HOUSE PAINT.

This NEW KIND OF HOUSE PAINT bonds so tightly on new wood moisture can't get through. New *FORMULA 5* is fume- and stain-proof, too!

The wood knows that you can give paint in an new wood. Here "Formula 5" gives you a starting demonstration of two of its key advantages. It's completely self - priming — sealing the wood pores to provide its own best undercoat. And it's 100% blister-proof — so fully bonded that no moisture can make it blister . . .

Many will say this is impossible — but Marshall-Wells stands behind every can of "Formula 5" with a double-your-money-back guarantee. It's proved that of rigid testing on houses and in our laboratories proved that the qualities that make "Formula 5" blister - proof on new wood or [illegible] repainted.

Use the new "Formula 5" House Paint on your new home also make it the most blister-resistant paint you can apply to previously painted wood! Furthermore, it will not stain [illegible] or corroding metals, nor discolor from sulphur-ous fumes in the air.

Depth & Distance Judgement

Good eyesight on the respect should be able to give you:

1. The shape of the object
2. The size of the object
3. The distance the object is away from you.

You may call this three dimensional vision This phase of your eyesight is very important. It is

Brothers Are Canada's Youngest Tree Farmers

A legacy from their great-grandmother has made three Woodstock family Canada's youngest certified farmers. Mrs. Alberta Allison died last year at 63. She had $2,000 to leave her grandchildren and she put it into 40 acres for trees at $50 an acre. From her, Keith Stevens, 8, at left, Jim, 13 and Don, 11, received 40,000 trees, now growing on the farm. The deed they hold sets forth the needs of forest conservation, enjoins the boys to enjoy and to preserve and not to destroy the trees. Their aunt should get them thousands of dollars. "It is not as much as an investment in stocks and bonds," said the Hon. Clarence Porter, James A. Vance, Ontario's part-president in Canada of the Canadian Forestry Association.

Correspondence

Dear Editor

In regard to the letter recently published in the St. Paul Journal signed "Disappointed Parent," I would like to express my opinion about the heaped-for expenditures and extentions to the St. Paul School Division' schools.

I personally disagree with the fact that good, modern schools are unimportant in this day and age. They help the education as much as the teachers for, if more efficiency they help the better the children like to attend them. The fact is important for this cause, although a certain amount of education is necessary, a great deal of students will quit school if the teaching facilities are not up to date. An example of this strategy is that people who rely on the public for business will build their business premises in a way the public likes in order to attract customers. The same holds true of the students who must or will be attended School.

Teachers alone cannot build-up a student's education. By keeping up with the standards of other Edmonton schools would attract more teachers to the area. Teachers for the most part are a number of students who are being brought to our municipal schools, (for those pupils cannot be sent back to their assigned country schools) the children must be educated in modern schools with modern facilities.

The Disappointed Parent's argument may be that he or she learned quite well in his or her school but that's the same as trying to get along with a team of horses today. Yes, it can be done but it is not modern.

Of course, we do need good teachers, but the best qualified teachers are quite reluctant to work in poor, badly equipped does not prevail. Thank You.

A Student
Lyn Magnusen

The amazing part of it is that drivers can have a good acuity and a good field of vision and fair on depth perception. I have talked to some drivers who had very good reading vision but were on poor on depth judgement as they believe it. They were unaware that such phases of vision did not exist.

When two people get together they should compare their vision one with another. It may surprise you the amount of difference there may be. In the south, should have a periodic

MALLAIG BULLETIN

C. R. BILLEVILLE, LOCAL REPRESENTATIVE

Clean - Up Week Sponsored By Junior Chamber

The Mallaig Junior Chamber of Commerce in conjunction with Chambers of Commerce and Boards of Trade across Canada, have joined in with the clean-up and paint-up campaign week The Mallaig Chamber have chosen with the dates selected May 23rd and May 30th for the purpose which is cleaning and paint-up the week starting and finishing on May 30th. It would be advisable to the fact two days drive to beautify the environment as much as possible.

Mallaig Chamber is not only asking the merchants but is also an invitation for all others who have their business or Canada or from Mallaig and surrounding communities. Let's be prepared to give all visitors to our little town as one of the finest in Alberta, let's keep it shiningly clean and brighten it up.

I WONDER

BY C. D. S.

The views and opinions expressed in this column are those of the writer and not necessarily those of the St. Paul Journal.

How many of us use our powers of observation and are able to speak on what we have observed This gift I cannot help but immensely admire in one of our most prolific feature writers in Western Canada, Bruce Hutchinson In reviewing one of his articles he has chosen our lovely Dandelion as his subject under the title "Gold in the Spring."

He speaks of a young lad about 6 years of age who is not old enough to have lost his sense of beauty, coming into his home with a tight little fist full of dandelions, the bright Gold color harmonized with his sense of beauty, unfortunately that knowledge will not last long. The dandelion was carried in from the East as a precious package of seeds, by a woman travelling to the West in a pre - ed wagon, to provide, in her new home, the only touch of earth returned in the East by a generation of sensible taste. Thence it is said, sprang the legend that now covering the forgotten pioneer's help, the dandelion doubtless would have reached the West under it's own power, moving on its wind with cunning parachutes of fluff Nothing can stop this world voyager

It must become so common, man mourned it as he usually mourns anything easy to come by, in favor of surprising rare and inherent Only the unbought eyes of a child are likely to see the beauty of the dandelion, holding its tiny cloud of yellow glory. As they shine at least once a year at about this time, anyone can have all he wants. Somehow the perfect unity of parts to be rooted out and destroyed. Yet there's much less beauty now cultivated with large investments of money and time. If the dandelions were only rare, temperamental and difficult to grow, it would be cherished and pampered in every garden. Spring Dandelion shows would be arranged, probably opened by his Mayor & recorded by television The gardening columns of the newspapers would devote the usual hints on dandelion culture, a keen yellow with the never blossoms would be the pride of the town.

The dandelion is an fine in color, and makes an excellent wine. There is a Dandelion Festival in Chrysler themselves, but it made the fatal mistake of being easy to get Hence it is hard to get the chrysanthemum is surrounded by a cult of worshippers who jealously guard their secret while the dandelion is left to grow itself freely to everybody and is therefore the despised weed of spring, an abundance of watering and care

A dandelion will happily set up housekeeping in any crack in the pavement, in the inch of hardpan by the back door, on some stretch of gravel. A thing will raise its cheerful head and pour out its prodigal gold like an indecent Midas. It prefers, however, a background of grass and with a little encouragement will take full possession. The householder who has dandelions in his lawn may not appreciate the dandelion's friendly interest and common sense in his defence the finest weapon ever developed by the ingenuous of extermination unstinting the dandelion may yet come into its own.

Much labor, chemical and sometimes evil, is needed before it is rare and expensive enough for general admiration. Meanwhile, from one end of Canada to the other, the humble dandelion grow importially at the gardener who vainly assaults it and at the child who gathers it, in the rich wisdom of childhood, and brings it to my back door with his little hands and a sudden look of wonder.

That terminates Mr. Hutchinson's observation of the dandelion. He who can observe and write in such glowing terms of the dandelion, is nothing short of a genius.

When you are operating and shopping the pretty golden head of the dessertat in the world of flowers, bear in mind that you are dealing with a strong and handy personal that may some day come into fame as the "Golden Rag", of the flower world and stands by human or governmental assistance to survive, in the vale of war.

EDITORIAL

SUDDEN END TO 49

The quick and unexpected announcement of the dissolution of our Provincial Government came as a distinct shock to many who cons...ently believed the Secred's were as solid as the rock at Gurnisar.

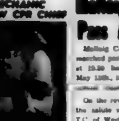
The alertness and persistent investigation by a small handful of Liberals suddenly opened the flood-gates, exposing indiscriminate financial actions on the part of the top-heavy Social Credit government, causing them to scamper for cover like frightened rabbits and from the safe shelter of Democratic legislative rights, ask the Lieut.-Governor to dissolve Alberta's 19th legislature.

Alberta and Edmonton in particular, may well be proud and boast of a famous regiment, the Loyal Edmonton, when called upon distinguished themselves in World War I. They returned from the War covered with glory. The remaining 49 Social Credit members of Alberta's governing party have only no claim to any such honor nor the glorious antecedent. They were totally and completely routed by the electorate of Alberta, and have received their just deserts. Their dissolution of the legislature under the direction of Mr. J. Harper Prowse, official opposition leader of the Liberal party in Alberta.

The snap election being called will bring forth a torrent of words in an effort to explain the Secred's position. Elsewhere would be well advised to take into consideration the hasty and blushing retreat made by this large political group at the first serious encounter with a bodiless sized opposition.

Under a Liberal administration this Province would have cause to be as proud as the Loyal Edmonton drive.

DAIRY MECHANIC NOW CPR CHIEF



New president of the $2,000,000,000 Canadian Pacific Ry. is R. Crozier, successor to W. A. Mather, who retires at 65 after following career as an engineer. Crozier, at 57, was born in Edmonton, B.C., is of Irish descent. He succeeds to

Mallaig Hours

What a shock to arise to a snow covered ground again on Monday morning. Mallaig received a snow flurries all day and until into Friday. Doggone these atomic blasts in Russia, we hope Sunday morning's detonation was the last for some time. Farmers are badly delayed in their spring work. Some 10 per cent are on the land working under difficult conditions from a weather view point.

The Imperial Oil Farm Equipment and service station under the able management of A. (Slim) Martin is getting a face lift-ovision this week. This building now has a much neat and clean appearance.

Road conditions between Mallaig and St. Paul are again in a poor condition due to the recent rains and rain. We hope this condition will be changed this week.

Mr R. Denning and R. Lapkin were business visitors to Edmonton this week. Mr Bobinville and Mrs Chapdelaine Jr. are week end visitors to Bonnyville

The fishing enthusiasts are out in full force. The first Wabasca Lake adventurers are scheduled to leave Mallaig this week end Good luck and good fishing to'n.

At a recent meeting held in the Parish Hall the Mallaig Baseball Club was organized for the season. This year it will operate under a Board of directors composed of John Fitzgerald, Henry Magnus and Lucien Amyotte The date to the Mallaig Sports Day will be announced later

Mrs. Paul Trymbe took seriously ill last Friday, May 6th at their home northeast of St. Lina Due to the impassable road conditions, it was necessary to transport her on a stone boat and tractor from their farm home to the main road some 2 and a half miles in order to continue on by car to the hospital for medical attention We are pleased to report she is asking very favourable progress towards recovery after a trying ordeal.

Mallaig Cadets And Kayakites Pass Annual Inspection Friday

Mallaig Cadets and Kayakites marched past the reviewing stand at 13.30 hours, Friday evening, May 13th., in the course of their annual inspection.

On the reviewing stand to take the salute were Capt Alton, C.T.C. of Western Command, Northern area, accompanied by Capt Rev G Primeau, Lieut J P Marchand, Chief instructor of the Corps, Lieut. D Gervais, Signal Instructor, Sgt Mel B. Cousin and Sgt M Kalpetrack, of Western Command

Following the salute, Kadetten gave a precision drill march on the parade ground, from there both Corps marched into the Parish Hall.

Cadet R Martin conducted demonstrations over the P.A system, Field Craft was demonstrated by Cadet Lawrence Johnson, Ranger Chapdelaine, B. Amyotte, G Belanger and A. Amyotte Rifle demonstration by Cadet M Gratton, Bren Gun by Cadet R Lapkin and A. Cadet Marshall Hand grenade by Cadet Pierre Desbiens, Map Reading by Cadet A. Gascon. Telephone communications by Cadets D. Pelletier, G Hartmiene and W Martin Radio and wireless by Cadet Sg-Mj R. Pelletier.

At the conclusion of demonstrations, Capt. Alta spoke on the Cadet movement on behalf of both Corps and the Rev co-operation between the Corps, Parents and Western Command. He was agreeably pleased with the results of the Cadets and Kadetten work over the past year

He then presented and congratulated Cadet Sgt Gilbert Labrette on winning the Corps highest award, marksmanship for the years 1953-54, lapel buttons plus a Sixpan medal in memory of his being one of the 18 highest scorers in Northern Alberta Area, Strathcona Rifle Competition.

Kadette commander Aurore Desbiens, on behalf of the Kadettes, thanked all those concerned for their support with particular thanks to Capt Rev Primeau, Miss Rentning and Miss Gervais for the training and generous assistance given the Kadettes over the past year

John Fitzgerald, as Grand Knight of the Knights of Columbus, sponsors of these two groups, gave a brief and resounding talk

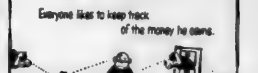
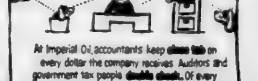
Everyone likes to keep track of the money he earns.

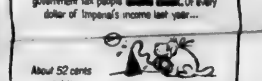
At Imperial Oil accountants keep close tab on every dollar the company receives. Auditors and government tax people double check. Of every dollar of Imperial's income last year...



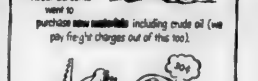
About 52 cents went to purchase raw materials including crude oil (we pay freight charges out of this too).



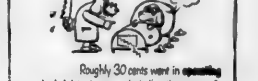
Roughly 30 cents went in operating and administrative costs, including the wages of Imperial's 13,000 employees.



10 cents went in taxes to federal, provincial and municipal governments. (This did not include provincial road taxes.)



About 4 cents went back into the business to help replace worn-out equipment and provide for future needs.



About 4 cents went in dividends to the company's shareholders.

A PROVINCIAL ELECTION

The Social Credit Government of Alberta prorogued the third session of the twelfth Legislature of the province suddenly and announced an election two years ahead of its limited time to get lined up to contest an election which has been called for June 29th.

Party organizers, caught unaware, are hustling against time to get lined up to contest an election which is certain to be called as quick as possible.

Election is our democratic way of life and essential to our existence Politicians and party members take sides on issues, others make their decisions quietly in the polling booth fanfare Whichever way one chooses, our franchise must be exercised.

Before the guns begin to boom we would like to retrieve our policy of the past concerning elections and support of Candidates

The weekly newspapers association, to which we belong, does not recommend one-sided attitudes, members, especially weeklies where only one is in circulation and could sway irresponsible opinion.

It would take on a tremendous research staff to investigate each attitude, the mass of subterfuge to attain a sound, objective opinion in many of the problems and technicalities involved Daily papers have the personnel for that kind of reporting.

However, if gross indiscrimination one way or another would come to our attention, we would feel hostile to expose it in order to inform the citizens of this constituency.

As matters stand, presently we will abide with our policy of the past to allow any candidate, free use of our columns to discuss politics, so long as it is done without malice and confirms with the ethics of good newspapering Paid advertising will be treated in the same manner

We urge every citizen of this constituency to make an immediate study of the political situation which exists in our province, come to a sensible conclusion in view of the facts and above all, exercise his franchise in the choice of delegates or candidates, voting conscientiously when polling time is declared.

RAT CONTROL IN ALBERTA

In the war against rats in Alberta the front line is being held stationary. In some areas the pesky rodent is being pushed back toward Saskatchewan. These facts were revealed recently at meetings of rat control officials held at Wainwright and Oyen. The meetings were called by the pest control division of the Alberta Field Crops Branch, those in attendance included Pest Control officers, municipal and agricultural service board authorities and district agriculturists in the rat infested areas.

In reviewing the rat situation since 1951 it was generally agreed that the present system of rat control is proving effective The rat area is spreading north and south as rats infiltrate from the east. However, there has been no significant westward movement since 1951.

Officials of the Department of Health, explained the importance of rat control from a public health standpoint. It was pointed out that there is definite evidence of bubonic plague among rodents in the area from Oyen to Hanna Those rodents, such as gophers, ground squirrels and field mice, seldom come in contact with man and as a result the possibility of transmitting the plague to man is remote However, rats present a different picture — they seek man, they do not live long without man's support. They if rats recover into an area, contract the disease from other rodents, the danger of man contracting the disease is increased From this standpoint alone rat control is of utmost importance.

Eight full time pest control officers work in the infested area from the North Saskatchewan River to the Cypress Hills. These men supply poisons, demonstrate and assist with control measures during their farm to farm checks. These officers reported most residents are giving excellent co-operation and support.

It was agreed by those in attendance at both meetings that the present rat control program deserves all the support possible from every Alberta as well as from those directly connected with rat control work. It was revealed that rat-dents in eastern Alberta have become more rat conscious, particularly in localities where rats have been found. These people know from first hand experience what an expensive and damaging nuisance the rat is. Tribute was paid to these people for their wholehearted co-operation and assistance.

INDUSTRY NEEDS A BOOST

Canada should spend far more on promoting the tourist industry, says The Financial Post.

"Professionals like Lee Dolan have helped bring enormous spending to this country But until their arms are unbound and their efforts are backed with the kind of promotional money that any other business pleades, gler success would make, then we won't come near touching the potential that stands in our."

CAN THEY BAKE A BETTER CHEESE CAKE? CERTAINLY!

The question before the gathering, unless our memory fails us, was "Can a better cheese cake be produced?" Everett Biggs, centre, dairy commissioner for Ontario, was shown that better cheese cakes and many of them could be baked by the Peel County Junior farmers at the annual May fair at Brampton when the principal discussion centred around the making of more and better cheese and other milk products. Left, to right, Betty Thomas, Milton; Muriel Speers, Port Credit; Myrtle Mitchell, Streetsville; Junior Farmers' provincial president, Harry Campbell, Alton and Jean Beamish, Caledon East.

Dixième Anniversaire De La Petit Chorale De Notre-Dame

Dimanche, le 15 mai 1955, donnera une fête inoubliable pour tous les membres de notre chère Maitrise Notre-Dame Grâce au splendide dévouement et l'initiative des Dames de L'Autel de St-Paul, grâce à la généreuse collaboration de tous les paroissiens, cette fête a revêtu une splendeur extraordinaire.

Quelque temps avant la grand' messe, on pouvait voir tous ces jeunes choristes ensemble en face du palais épiscopal. Au moment venu, ils défilèrent avec beaucoup de sérieux et de piété dans la cathédrale: ils allaient rencontrer Son Excellence Mgr Philippe Louis Leclerc, le grand ami des Jeunes, des Jeunes Chanteurs en particulier A leur retour dans la cathédrale, ils entonnèrent le chant d'Ave Recordis Magnus qu'il exécutera au cours de leur procession; à la tribune de l'orgue ils rendirent avec un bel ensemble le chant liturgique Albert Lafrance conduisit le propre de la messe

Au prône, M. le Curé Tardif souligne le 10e anniversaire en termes heureux; il remercia les jeunes, les dévouées religieuses qui les ont formés, tous les généreux bienfaiteurs de la Chorale Notre-Dame

Le banquet suivit la messe; il fut servi par les Dames de L'Autel Elles avaient préparé un excellent repas, qu'elles ont servi avec un maternel dévouement surtout envers les plus jeunes membres de la Chorale. Son Excellence Mgr Lussier avait tenu à honorer de sa présence ces agapes de fêtes. Il était accompagné à la table d'honneur de plusieurs membres du clergé, de M. le Maire, de M. F. Lavoie, et des dirigeants, anciens ou actuels, de la Chorale Notre-Dame.

Le souvenir de Remerciement fut un régal artistique pour tous les assistants. Le Rév Père Marlaud, o.m.i., assuma sure de St-Paul, qui vint chanter la grand'messe, fit quelques mots à ses jeunes amis de la chorale Son Excellence Mgr Lussier présenta ses félicitations et des remerciements à tous Il souligna les bienfaits de l'éducation esthétique reçue à notre Ecole de St-Paul

Edwin N. Davidson of Cardale was appointed one of the chairmen at the Wheat Pool convention in place of J M Wheatley of Chauvelier, who was one of the four original chairmen elected.

Traffic Safety In Small Towns

Canadian towns and villages are showing Canadian cities the way to greater traffic safety By far the smallest number of accidents occur in towns and in villages and at rural intersections, the National Safety Council estimates in an analysis of road traffic accidents.

Using a special study of the Provincial Bureau of Statistics, the National Safety Council estimates that in the same period 1953-54 as one of each accidents occurred in towns and villages, compared with 41 per cent in cities, 38 per cent on highways and 21 per cent on county and township roads More than two-thirds of these accidents occurred in clear weather when the road was dry

There is evidence in the rural accident record to encourage complacency, the National Highway Safety Conference points out.

The record of our losses in human and material resources amounts to a national problem which only the concerted action of all of us can solve."

Canada's first National Highway Safety Conference is being held in Ottawa, May 30-31, with delegates in attendance from all of the 10 provinces Agriculture will be represented by a large delegation of 25 persons, president of the Canadian Federation of Agriculture, will be chairman of the delegate division on agriculture; vice-chairman is J. A. Ferguson, president, Ontario Federation of Agriculture; secretary, Colin C. Greif, Canadian Federation of Agriculture.

Miss Evangeline Soraka Honored At Banquet Held In Her Behalf

(continued from Elk Point Page)

Mr Walter Blaker, a learned brother of Miss Soraka rose to know by her counsel that she would make a name for herself and complimented her for doing so.

GOOD QUOTE

With rare ability as an orator, well poised and able to think on her feet, Miss Soraka gratefully thanked the Chamber of Commerce and the citizens of Elk Point for their kindness in organizing and the great honor conferred upon her. In her own words we quote the text of her address:

"Mr. Chairman, Ladies and Gentlemen I'd just like to say thank you very much for the gifts, encouragement and hope you have given me. I think the most important things a person needs wherever she or he undertakes to do something is moral support from friends. I have had a great measure of that kind of support from the people here at my home town. I know that I will make a much better and stronger delegate because of your confidence in me.

In hearing both some of the best things that have happened in my life—attending the Health and Recreation School in Red Deer and the Christian Leadership School in Edmonton and now the University of Alberta, I must admit that if it hadn't been for the community help and training from my parents and teachers during public and high school days, I would most likely have missed the opportunity of attending these schools.

I only wish that there were more young people from this Polish tribe could be given equal opportunities. If you encourage them in the manner you have encouraged me, I think you would soon have a group of young people that you could be justly proud of.

Some of you may be wondering about the kind of conference I will be attending. Every year the Canadian Institute of Public Affairs and the CBC hold a one week conference at Lake Couchiching in Ontario. The scholarship I won will cover the cost of Board and room and tuition. The topics discussed will be implications of Atomic Age, Defence and Security, Economy and Trade and other world problems. There will be speakers from Canada, the United States and the United Kingdom. This conference promises to be one of the highlights in my life so far hope that I can bring some small recognition to Elk Point in return for your trust in me."

Elk Point Scholarship

Evangeline is the daughter of Mr and Mrs. Mick Soraka who farm on the outskirts of Elk Point, just south of the station. She is the second oldest daughter of a family of six girls and one boy. Evangeline was born in Smoky Lake district where her parents moved to the Elk Point district from Andrew.

Evangeline attended public and High School at Elk Point, taking a prominent part in music and extra-curricular activities. For three years she was the choice of the Chamber of Commerce for the Health and Recreational course at Red Deer. When she learned, she conscientiously and enthusiastically imparted to the youngsters of Elk Point, taught physical training, recreation and tap dancing, she is very proficient at.

Upon graduation she entered the University of Alberta in Pharmacy, but changed over to Experimental psychology and has taken two years of Arts and Sciences (honors) of a 4 year course.

She is a member of the Golden Keys council of the University of Alberta, one of three girls on a panel of 12. Students for these duties are chosen on the basis of extra-curricular activities and are the official host for campus society, in charge of freshmen and promote Varsity Week when the campus is thrown open to visitors. Miss Soraka 5ft½ in. the important duty of Secretary-Treasurer for the Council.

Wool production in Canada is running at about eighteen a half million pounds a year, leaving a wool deficit for Canada of about 40 million pounds annually.

B.C. TOTEM POLE FOR EASTERN INDIANS

Six Nations' Indians from the Oshweken reserve unveiled this 50-foot totem pole near St. Catharines, Ont., in the accompaniment of tomtoms, bro- ss and dances. The totem pole was made by Chief Mungo Martin of Cadboro Bay, Victoria, B.C., and is the largest this side of the rockies. Wing-spread of the totem is sixteen feet.

Plain Talk from DR. F. MacNEILL SMITH

Liberal Candidate

The Liberal party standard on policy has always been to encourage the development of the resources of the country. The encouragement of mineral exploration, of water conservation, of agricultural development, of secondary industry, of better transportation, of better marketing, of trade, of power, of the development of the north, of the encouragement of the fishing industry, of the encouragement of the lumbering industry, of the encouragement of the tourist industry, of the encouragement of the fur industry, of the encouragement of the oil industry, of the encouragement of the mining industry, of the encouragement of the agricultural industry, of the encouragement of the pulp and paper industry, of the encouragement of the chemical industry, of the encouragement of the petro-chemical industry, of the encouragement of the manufacturing industry, of the encouragement of the construction industry, of the encouragement of the service industry, of the encouragement of the transportation industry, of the encouragement of the communication industry, of the encouragement of the financial industry, of the encouragement of the marketing industry, of the encouragement of the export trade, of the encouragement of the import trade, of the encouragement of the tourist trade

Mum, Write Me A Poem Almost Today

My daughter said, in the midst of May
"Mom, write a poem about today."
Just see how green the shining grass!
And those cotton clouds a floating mass.
And listen! There's a robin's song
Oh, I've waited for spring all winter long!
"It's so sweet to be alive
When the sky is so deep and so blue,
The sun is so warm on my face and
I've discovered a million things to do,
We'll tend the garden and rake the lawn."
And make a swing in the trees
And go for a ride on our Dad's bike
And then—a picnic—way we,
Mother please"
"Oh! I'm so glad the powers that be
Invented Empire Day,
So we can be outside in the spring,
I love a holiday in May!"
So she wanted me to write a rhyme
Of the sun and the sky today,
Though her every word was a burst in song,
Youth is a song in the heart of May.

Irene Mossmuller,
Edmonton, Alberta.

Tests at the experimental farm at Lethbridge indicate that lambs fed hay and grain outgained and were more economical to feed than those fed silage and grain. The investigation of the hay-fed lambs were also of better quality

Jackie

You think I'm a hard-boiled egg
Writing tickets at forty-three?
Well, perhaps I'm thinking of Jackie
And all that he meant to me.
Here's that! Tell you about it?
Well, stranger, the boy was my son.
God, what I'd give to hear "DADDY"
Once more when the day's work is done
The driver was just in a hurry,
He didn't intend any harm.
But the sun and the stars quit shining
When I picked up my boys broken form.
Well, indeed, I'll tell you a secret,
I don't want to pinch anyone.
But I'll ride my cycle through hell
To protect another man's son.
So next time you feel like speeding,
Or planning a backward play;
Just pause and remember Jackie,
The son of a hard-boiled cop.

Platform Of Labor Progressive

By MR. DAN GARNACHE

The labor Progressive Party is called a party of Communists. Most people think that communism is something belonging to Russia or China and their statelifters — and that Canada is lucky to have nothing to do with it. For a long time in Canada we have had many institutions owned and run by the community for the community. Let's look at a few of our Canadian community possessions.

OUR SCHOOLS most of them are operated by the community for everybody's children. Canadian history records the names of Egerton Ryerson who over a hundred years ago led the fight to make our schools communistic — or free and available to every child Spain in 1936 and 1937 waged a bloody civil war to have public schools and lost. The motto — «Let all over the world give a hand to Franco to beat the people of Spain. They have had their victims alone to decide anything. All Canadians are ashamed to have also our technical schools, commercial schools and universities run by the community so that not only the child of the well to do can have a full education but every child with talent. This is responsible as long as their parents work free for the millionaires.

OUR CHURCHES: they are all community affairs, and they have been ever since they have refused to pay tithes to the rich. Even the Catholic Church in Canada is run by the community and not by the priests. Most people think that communism is something belonging to Russia or China and their statelifters — and that Canada is lucky to have nothing to do with it. "Want some help with your homework, Bud?"

It's a good thing young Ted is only joking.

If his Dad could hire up on that offer, Ted would soon find himself floundering in a sea of farm chore family income management, recreation duties, taxes, wills, trusts, business interests and other related subjects.

You see, Ted's father is a typical life underwriter — a man who has not only been trained for his job, but keeps up-to-date by means of his life insurance company's constant conservation under them they exist to be. And the men who represent companies in this business are always provided with increased skills.

Doing this calls for more than study. It takes real understanding of people's needs. And since each family's needs are different, the company representative must schedule guidance in making plans to fit those needs — individually.

All in all, the life insurance man you deal with today is a very good man to know. And his progress is another reflection of the many ways in which the life insurance business has developed with the times to meet your changing needs!

St. Arnault Bros. Lumber Yard

START MADE ON NEW BRUNSWICK POWER PROJECTS

—Central Press Canadian

Initial stages of construction for New Brunswick's Beechwood power project are now in evidence. The project, shown here in an artist's sketch, is scheduled for completion in 1957 as part of a $200,000,000 power development for the province through harnessing of the St. John river. The Beechwood site, 105 miles north of Fredericton, will have an estimated 800,000 feet apart before it produces its 120,000 potential horsepower. Altogether, when the province has developed other sites on the river, 974,000 horsepower will be added to the power grid. Beechwood, called "Little TVA," will be the first completed.

HEBERT LUMBER

MALLAIG — ALBERTA

Mallaig News

The weather has been a bit more agreeable this past week with the result spring seeding is going ahead on an around the clock basis. Approximately 90 percent complete.

Three officials of the C.N.R. were over the line this week checking the earnings of the stations at Mallaig, Thorsby and Glendon.

The Cadets, Kayderites and Instructors of the Mallaig Cadet Corps wish to thank the public for their enthusiastic support at the Inspection on the 13th inst.

Another carload of Victory seed oats was received by the Alberta Seed Growers Co-op this week. It was unloaded by the farmers in record time.

School and Council elections over now, the topic of conversation is Provincial elections. The Social Credit party have called their Nomination in St. Paul for Saturday, May 28th followed by the Liberal nomination on Monday May 30th. Looks like a two-way contest. No announcement from any other party.

No report of any visitors over the weekend. The only visitor we heard of during the week was at Anderson's Garage, his or their call was at a very unconventional hour, sometime during the night; having no one on hand to wait on them, they removed some few dollars from the till.

Everyone is busy gardening right now, rakes and hoes are taking quite a beating but we are prepared to wager they will last as long as the persons wielding same.

Fishermen were out in full force over the long weekend, several went to Worm Lake, we do not have the results of their catch as yet.

There are indications that fewer farmers are treating their seed grain this spring. While there may be a slight saving in not treating seed the Alberta Wheat Pool suggests the tibie is a false economy. Each year an average of about 170 boxcars of smutty wheat are shipped from this province and at the present time the discount is 13 cents per bushel.

EDITORIAL

WE THE PEOPLE

By I. B. BELLEVILLE

The forthcoming Provincial election on June 20 is unique in itself, outstanding here it came to be.

The Socreds are heaping criticism on the opposition Liberal leader, Mr Prowse assuming him interests for the adventure mainly then, the people.

Stock-in-trade phrases such as gutter politics, irresponsible," "absurd," "ridiculous," "nonsense" are the vogue and to date the only defence they have to offer. As time runs out before the fate 20th. the tempo of hurling will no doubt increase as fast and expressively.

The Socreds [illegible] have set up a [illegible] their objective in making, demanding the electorate look at [illegible] and speak on issues which have allowed to [illegible] at the floor of the Legislative Assembly. How can the people judge wisely and settle if they have had no opportunity to hear the evidence.

If Mr. Prowse charges were as absurd [illegible] why prorogue the session then dismiss the matter and not permitting these significant questions to be discussed as is customary on all occasions?

Did Mr. Prowse have more pertinent questions to ask than the so-called technical Treasury Branch accounts [illegible]?

In British law one is innocent until proven guilty. Social Creditors will now never prove Mr Prowse guilty of the charges made against him, the government the only court which could have ordered their inquiry demonstrates my position. They now demand "We the people" to sit in judgment on a case without any testimony.

They defeated their own ends by their impulsive haste.

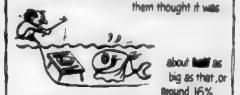
THINKING ABOUT PROFITS?

The people who conduct public opinion polls

asked a large number of Canadians this question:

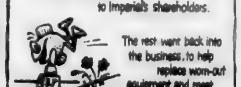
"How big a profit do you think the average Canadian company makes?" Most people thought it was nearly 28% on the income dollar.

Then these people were asked what profit they thought a company ought to make. Most of them thought it was



about half as big as that, or around 15%.

Actually, Imperial's profit last year was less than one-third of what people thought we made, or a little more than 8%. Of this, just over 4% was distributed to Imperial's shareholders.



The rest went back into the business...to help replace worn-out equipment and meet future needs.

CANADA'S DEFENSE COSTS

JUSTICE WAS DONE

An unfortunate young man from Vilna who was the loser of a Car Range tie-breaker in laying claim against the Curling Club for the prize he thinks is due him undisputedly, while at the same time making some serious allegations.

This reporter happened to be on the scene of this little misunderstanding and can vouch for all the facts as they unfold.

We sympathize with the young man who received a double shock in one evening, that of winning a car and then having to give it up, all in the space of 5 minutes.

However, we feel that the officials of the St Paul Curling Club acted wisely and followed the only just course possible

Two leaps were declared at the same time: one was immediately recognized and the other held up in confusion of a surging crowd before it could be brought to the officials' attention. In the meantime the young man in question above was declared winner, but when the Lady from Elk Point was recognized with a legal leap, officials reverted to tie-breaker cards to break the tie in accordance to the rules and regulations.

Evidence proves that both said leaps at the same time and both were eligible on the same basis. Had not the crowd interferred, this young man would have had to go through the same procedure in the first place. It was regretably postponed a few minutes, but certainly no injustice was done. Both agreed to play the tie breaker and both had an equal chance of winning and should be satisfied with the outcome.

We would just like to ask this fellow or anyone concerned, just how they would have felt and thought had they been in possession of a delayed legal bingo and not been recognized. That would really have been a gross injustice

WHEAT SELLING TROUBLES

Mr Howe, at last, seems to have lost some of his optimism about government wheat marketing. In Parliament he painted a gloomy picture. He offered little hope of clearing Canada's overloaded storage before the new crop starts [illegible].

Guessing wheat is only one part of Canada's job. We must also sell it. And we have not been selling it nearly so fast as we have been growing it.

Long before this every possible salesman should have been encouraged to get on the job. Instead we have persisted in maintaining an absolute government monopoly at marketing.

If Parliament lacks the nerve to face up to the situation, and do what is necessary then let us hope that Walter Gordon's economic commission will be permitted to investigate and prescribe promptly. The health of a majority industry is [illegible].

GARDEN BOOM

Canadians apparently plan to spend more time around the garden and in the backyard this year than ever before.

Their planning and spending — are causing the biggest boom yet for plant nurseries, manufacturers and retailers of outdoor furniture and even swimming pool builders.

The "green thumb" urge and the desire to relax in the outdoors is increasing business a month as 25 per cent for those firms that cater to "leisure."

This relatively new "leisure industry" already is growing rapidly as Canadian continue to spend considerable time, effort and money on preparing the proper setting for relaxation.

STOPPING THIS LEAK

In the 50 years between 1851 and 1941 some six and a quarter million people came into Canada while nearly six millions left for the United States. Little wonder, comments The Financial Post that our population was slow in building up. But with the great boom in industrialization in this country, and all the opportunities that have opened up, this leak is being gradually plugged.

We are still losing each year, too many people, and particularly highly trained young people, looking for wider opportunity and bigger money south of the border. But other Canadians are coming home from the U.S., and more and more Americans are coming to Canada.

ART THRIVES IN MONTREAL CENTRE

Armand Vaillancourt one-time steeman and medical student and now a sculptor, has chosen a tree trunk in a crowded section of Montreal as his latest sculpturing object. He spent five months and his spare time working on it and expects another five months this year to complete the work. He doesn't like the term as "abstract" and as he explains it, gathers a sympathetic if somewhat puzzled group of spectators. It is now a gigantic part of French-Canadian interest on thrilling Montreal the art centre of Canada.

Diet Has Much To Say In Problem Of Unhealthy Gums

By DR. L. G. MANDIN

Doctor, my gums bleed easily, and they're often sore. What sort of tooth paste should I use?" A common question often heard in the dental office, almost an all too common complaint.

As well taste a spongy dumbbell, undernourished child to a physician and say "Doctor, what sort of ointment could I use to make Jimmy's arms and legs strong and healthy?" Absurd? Not more absurd than expecting a tooth paste to build up unhealthy flabby gums to normal health. What Jimmy needs, of course, is plenty of a well balanced diet and exercise and that's just what your gums need too. If they are weak and soft, a little emphasis must be needed on certain kinds of food. The lack of which results in spongy flabby soft tissues that bleed easily.

Remember nothing about has ever suffered from misery in the dark. Sunshine is the best tonic. They had much trouble with sore gums and loose teeth, until Captain Cook discovered that the disease could be prevented by the use of fresh vegetables and fruit.

Years ago, millions of rice-eating people of Japan and China suffered from a disease called beri-beri with symptoms much like to-day's scurvy. They had been eating highly polished rice. Faulty scientists found that the cure for the disease lay in the husks and scourings that had been polished off the rice—that is, the outer layers and skin of the grain.

These and other similar examples show that lack of certain substances in the diet will produce flabby unhealthy gums likely to bleed easily.

Another factor has had much to do with the unhealthy condition of the gums as often found now. The practice of cooking foods to soft pulp leaves the gums and underlying bones without the stimulation of exercise.

So, to build up and preserve healthy gums and strong jaw bones, first, a well balanced diet next, a lavish use of whole wheat products, bran and whole grain cereals and unpolished rice; asparagus, lettuces and grapefruit, or juices of these fruits if the natural fruits are not available, and fresh vegetables, raw as often as possible. And to provide exercise, raw apples, carrots, celery and nuts. Fibrous foods that will have much the same effect on the gums as the "daily dozen" have on the body muscles

ANNOUNCEMENT

The management wishes to announce another drop in price on SHUR-GAIN Concentrates. Take advantage of these lower prices to make your grain go further.

Shur-Gain concentrates means quicker marketing with better grades and more money in your pocket with less work.

The Traffic Safety Lane

By J. W. McKAY
Inspector Highway Traffic Board, Edmonton

SEEING AT NIGHT

The ability to see well when handicapped by darkness is a great asset to any person, especially to the driver. It is understood that eyes cannot pierce darkness without the aid of light. But even with lights, darkness plays tricks by creating shadows. The eye that can discern shadows and is capable to discerning proper distances and can give a true picture of the facts, is, as I have mentioned before, a priceless asset.

The eye is a very delicate organ and has many functioning muscles so that it can perform its duty correctly. Man has made a mistake that operates on the same principle as the eye, it is the camera.

Most everyone has taken pictures with a camera. In order to get good, clear pictures, some knowledge of light and darkness and distance judgment is necessary.

We know that if the day is real bright we have to lessen the lense opening to shut out some of the bright light, as there is more light then is required. On the other hand, when it is dull and foggy, and shooting we have to open the lense so as more light can get in to make the desired picture. Well, the camera was copied from the eye.

On a bright sunny day, the pupil of your eye is closed down to prevent too much light getting in and destroying the picture desired and of course damaging the intricate mechanism of the eye. Then when it is [illegible] or darker the pupil opens more or gets larger so that more light can get in to give the desired clarity of the picture

At night you can imagine how the eye must work harder than in daytime. You are driving along with your headlights to light up the roadway. The pupil of the eye is open to a certain degree. Then you must meet a pair of dazzling headlights. The excess light has not yet had to close because there is too much light. Then the light is gone in a matter of seconds. There is semi-darkness again the pupil has to open

So as you drive at night your eye is continuously working hard opening and closing in order to give a true picture of what is in front of it.

You can readily understand that it is very important that the eye should be in the best of condition. If not, then you will not get good pictures.

Next week I will continue

Plain Talk

from DR. F. MacNEILL SMITH
Liberal Candidate

The Liberal party is by definition the party of progress and reform. In the nineteenth century it was the party in the forefront of the movement to guarantee freedom of speech, of assembly and of religion and to extend the franchise to the common man. A... European countries have had Liberal parties, but in recent years they have disappeared by the rise of various Socialist parties which are based on class conflict rather than on political concepts. The primary tenet of the Liberal party is the freedom of the individual. Additionally, as stated for a liberal program of some seventy years ago. We feel that there are certain tasks that the new province must find means to carry on. Some of these are the expansion of the Canada Social Credit Corporation, which assists in rural development program but we don't want the welfare state—the individual must find prosperity for himself and must have an opportunity to secure it for his children. The removal of unnecessary restrictions on the free enterprise system and the encouragement of new industry are also necessary. We do not feel, as the present government does, that industry can be lured into the province by the promise of cheap labour. We feel that there are certain basic rights of the individual which must be preserved, such as the right to the secret ballot, freedom of speech, freedom of religion and the right to assemble peacefully for political purposes. The removal of certain restrictions on the right of free enterprise

The son of a hard-boiled cop.

R. G. (Greg) O'NEILL & Co.

Jackie

You think I'm a hard-boiled egg?

Wrong!

Writing tickets or bumping into

Well, perhaps I am thinking of Jackie

And all that he meant to me.

How's that? Tell you about it?

Well, stranger, the boy was my son.

God, what I'd give to hear "DADDY"

Once more when the day's work is done

The driver was just in a hurry.

He didn't intend any harm.

But the sun and the stars quit shining

When I picked up my boys lifeless form

Well, mister, I'll not give you a ticket;

I don't want to pinch anyone,

But I'll ride my cycle through hell

To protect another man's son.

So next time you feel like speeding,

Or passing a boulevard stop

Just please just remember Jackie.

The son of a hard-boiled cop.

Sweeney for Liberals; Reierson for S.C.

Open Convention Chooses Sweeney By Acclamation

Nominated By Mayor Jules Von Brabant

An open Liberal Nominating Convention of 91 delegates and 52 interested party members and spectators crowded the Parish Hall at St. Paul, Monday, to nominate Mr. J. B. Sweeney of Edna by acclamation to represent the [illegible] and named him as the Liberal candidate in the forthcoming provincial election.

Mr. Sweeney was nominated by Mayor Jules Von Brabant of St. Paul and seconded by Mr. Steve Petrick of Elinor. Executive members present were Mr. Wm. Strachan of Vilna and Mr. Lloyd Fetter, St. Paul, who was a candidate in the last provincial election.

Mr. Sweeney, past Deputy Minister of Agriculture, admitted that his party was not quite prepared for an election on such short notice as has been granted, but the Liberals were organizing as rapidly as possible to expose the true issues to the public.

"The Liberal party is not responsible for the expense of a province-wide election as the Social Credit Administration is trying to imply," said Mr Sweeney. "It is impossible to believe that one man formed an election upon the people a short time before normality. The Social Credits were caught in an embarrassing situation and backed out of it, dumping the legislature in fear of further dissension."

Mr Sweeney disclosed that the Alberta Government had never been a party for a marketing set and procrastinated on the issue until it was forced by strong pressure of farm groups and had committed itself to political reasons. He assured the public that the Liberals would have been in favor of the special Act granting old age pensioners an extra $20 Golden Jubilee bonus and that a change of government would take away this privileged gift to Alberta Pioneers.

Mr Sweeney pointed out that the Social Credit's claim to prosperity was brought about by the federal policies which came into effect about the time the Social Credits came in power and that they have progressed through dominion assistance and aid from which has helped agriculture and secondary trade treaties with the United States and other countries.

The convention went on record with a full vote of confidence for the Right Honorable Louis St. Laurent, Prime Minister of Canada, Hon. Lionel Chevrier, liberal leader of the opposition in Alberta and Mr J. M. Dechene, Liberal Member of Parliament representing the constituency of Athabasca, and all the policies of the party.

• • •

Proven to Speak Here

Mr J. R. Sweeney announced that Provincial Leader J. Harper Prowse would be guest speaker at a meeting in the St. Paul Parish Hall on Thursday, June 9th, 8:00 p.m. with an important message for the constituency.

Seventeen Graduate In St. Paul School Ceremony

Honored At Banquet and Exercises; Bursaal and July Valedictorians

By ELAINE BOUTHILIER

The St. Paul High School graduating class was honored at a banquet and ceremony on Friday night, May 20 at which members of parents and friends attended. Guests were Mesdames Valerie Cayer, Gladys Bernhardt, Elaine Johnson, Marguerite Ann-Marie Lavoie and Mr. Gerald McManus, Lavoie, Lawrence Andrew, Marcelline Bernhardt, Mary Ann Marusyk, Lorraine Prescovat, Thelma Smith and Elizabeth Wawryk.

Mr. J. A. Beauregard, master of ceremonies, in his opening remarks welcomed the guests and introduced the Honor Mayor J. Von Brabant, Mr. Ray Reierson, M.L.A. and Mr. R. E. Bell, M.L.A. Mr. Beauregard introduced Deborah Black of the graduating class who welcomed the graduands and expressed their best wishes for success in their careers.

The evening began immediately after the banquet with a piano selection Chopin's Polonaise by Yvonne Meunier. Miss Meunier received much applause at the end of her rendition and was presented with a corsage by Mr. Beauregard.

Mrs. R. Dennie acted as chairman for the evening. Mrs. Dennie introduced the "Graduands" and "Junior Tidets". This was followed by "The Last Will and Testament" read by Jean-Claude Langlois.

The class History was given by Adeline Markowsky and Elizabeth Bumstead. Chairman of the graduating exercises, for the year prophecy. Offering of the school pin was made by Mr. R. Bailthilier.

The two valedictorians were Elaine Dubuisson in French and Gwendolyn July in English.

After two choral selections by the Junior Choir, Miss Lorne Grey Home in the West, by the Boys Choir the diplomas were awarded and given by Chairman Alma Mater.

The Graduates were presented to His Excellency Bishop Latour.

The planning and preparations for the graduation exercises were made by the grade eleven class under the direction of the Home Economics teacher.

Mr. Reierson said that the real reason Mr Manning and the Provincial government had decided to call an election at this time was to obtain a vote of confidence from the people to pass judgement on the integrity and honesty of individual members of the party and after an onslaught of unintentional propaganda by the opposition.

The St Paul constituency under Provincial Social Credit administration has accomplished a task of which it can be proud, he said.

The members of the Provincial Government have been very active in the field of agriculture and the Alberta Legislature Act has been passed unanimously by all members of the house.

Mr. Reierson said "Social Credit is on the march across Canada and the Liberal scandal campaign is considered as a last effort to stop the movement." He said that the administration has no fear of opposition and that all questions on the order paper had been answered and explained adequately and the few remaining at the time of prorogation would have been answered in due time."

Many highways are now falling into a definite pattern and high class roads will soon cover every portion of our province. Telephones and rural electrification expansion is progressing rapidly under Social Credit Administration and every effort is made to see that the farmers receive the necessary and government legislated in his favor as much as possible.

REIERSON S.C. Candidate By Acclamation

Convention Expresses Confidence in Gov't

Social Creditors of the St. Paul Constituency at a convention held in the Parish Hall in St. Paul on the 28th May, unanimously endorsed Mr. Ray Reierson as their candidate in the June 29 election.

The meeting was attended by 61 accredited delegates and fifty followers of the party, whose attendance from a cross section of the constituency reflected a very optimistic feeling of the majority Reierson's were pleased with Mr. Reierson's decision to run in the West, he said, as he is one of the Saskatchewan River south.

Mr. Reierson, M.L.A. for Vermilion, Mr. Ray Reierson as Social Credit candidate for the constituency of St. Paul.

It was received that a full vote of confidence in Premier Manning, his leadership, sincerity and integrity on the record of his administration.

It was then a unanimous vote of confidence in the party, policies and administration of the Social Credit Government and the Social Credit League of Alberta be endorsed.

RESOLUTIONS

It was resolved that a full vote of confidence in Premier Manning, his leadership, sincerity and integrity on the record of his administration.

It was then a unanimous vote of confidence in the party, policies and administration of the Social Credit Government and the Social Credit League of Alberta be endorsed.

Paul Bietz and Elk Point has been appointed Returning Officer for the constituency of St. Paul. Mr. Charles Gauthreau Jr. St. Paul, be carried.

Rainbow Trout Planted in Tobin Lake

A. Paul, Fish and Game Association, delivered the Provincial Fisheries Branch's point of view on the proposed fish hatchery at Tobin Lake southeast of St. Paul.

The fish would be brought to St. Paul by Provincial Government truck, a special Mr. Bercuse. "The people of this constituency should support the government which has done so much of this possible."

He recognized agriculture as the main industry in the province and said that the government gave all considerations possible to the farming public. He substantiated this statement through the generous distribution of municipal, school, and hospital grants allocated in this province.

Mr Reierson said "Social Credit is on the march across Canada and the Liberal scandal campaign is considered as a last effort to stop the movement." He said that the administration has no fear of opposition and that all questions on the order paper had been answered and explained adequately and the few remaining at the time of prorogation would have been answers in due time."

Many highways are now falling into a definite pattern and high class roads will soon cover every portion of our province. Telephones and rural electrification expansion is progressing rapidly under Social Credit Administration and every effort is made to see that the farmers receive the necessary and government legislated in his favor as much as possible.

RESOLUTIONS

It was resolved that a full vote of confidence in Premier Manning, his leadership, sincerity and integrity on the record of his administration.

It was then a unanimous vote of confidence in the party, policies and administration of the Social Credit Government and the Social Credit League of Alberta be endorsed.

Paul Bietz and Elk Point has been appointed Returning Officer for the constituency of St. Paul. Mr. Charles Gauthreau Jr. St. Paul, be carried.

Liberal Ass'n Elects Officers

Ashworth, Lake Eliza, John William Connor, St. Brides; Henry Lecompte, Ashmont; Eugene Pouy, Fenny; Henry Magnan, Mallaig; L. Bisette, St. Paul, J. A. Lagarrie, St. Paul; Henry Plante, St. Edouard; Stan Gadowski, St. Paul; Alphonse Quellette, St. Paul, A. V. Smith Heotsburg, A. C. Potts, Armstrong; Art Brown, Bogdan; Cecil Belleville, Mallaig; William Strachan, Spedden, Armand Lord, St. Paul, William Mashura, Vilna, Bradford Gamelin, Bogden, Paul Dubois, St. Paul.

Notice To Milk Consumers

We are encountering a shortage of milk quotas through failure of some of our producers to return their quotas promptly.

The management would appreciate full co-operation from all producers in returning any milk quotas in their possession in order to allow us to serve you with more efficiency.

We thank you in advance.

Dance

LOCAL NEWS

Maurice Tanner returned to St. Paul last week to move his family. They will take up residence in Barrys where Maurice was transferred by CCIL as field service man on April 7.

Mr. Ted Parish, President of the St. Paul Junior Chamber of Commerce, in a report of the convention at Medicine Hat last week, stated that it went on record as one of the largest ever held and was responsible in developing a maximum of business in very efficient manner.

Over 200 delegates were present, 37 from the north, a good number from central Alberta and the balance from the southern regions. Six attended it on St. Paul namely Mr Ted Parish, Mr Laurent Richard, Mr Lloyd Courtemanche, Mr Romeo Bedard, Mr Alfred Roy and Mr Terry LaBoissonne.

Mr Art Wilkes, Regional President conducted the sessions in orderly fashion. Elected as new regional president was Del Pound of Brooks. Alex Ramsbotty of Grande Prairie Vice President in District 6; Hugh Addison, Edmonton, District 3; Harry Montgomery, Drumheller, District 1 Don Wright, Calgary, District 2.

Operation "Propaganda" carried out by the St Paul boys was successful and well received in the spirit of goodwill and promotion it intended to carry [illegible] journey [illegible] a car with colorful slogans and St Paul photos for the baseball tournament and the town in the form of a pamphlet they distributed it recommended St Paul as the ideal afternoon's paradise giving data on all the different lakes and playgrounds on the Town

Buried Diet Is Recommended For Children

By Dr. L. G. Moodie

Go into the kitchen of the wise mother and see the colorful display of the food she prepares for her family.

First and most important, of course, is the white of milk — the finest food for all ages. For it is the cheapest and richest source of mineral and vitamins — especially for children. Growing children should have a quart a day, with half that amount for adults.

With white as a background, the dark of cereals is a contrast. These too, are good and inexpensive sources of minerals and vitamins—especially the mineral iron, and Vitamin B. Vitamin B is of particular value in building and maintaining the health of the gums, or soft tissues of the mouth.

Now, the bright color of fresh vegetables — the brilliant yellow of carrots, the deep green of the outside leaves of lettuce, cabbage, broccoli, spinach and spinach. A whole alphabet of vitamins come from these vegetables, and we should have from two to four servings of them daily, and raw when possible, of course.

Firemen's Vouchers To Be Picked Up

About half of the Vouchers sent at the recent Firemen's Ball have been picked up, but we have another $9 on hand at the St. Paul Journal, still waiting for delivery.

Those picked up were Hal Caldwell, St. Paul, Raymond Letourneau, St. Paul, Mrs. P. Lord, St. Paul, W. Barking, Elk Point, Mr. A. Lamothe, St. Paul, Mrs. Albert Joly, St Paul, Andrew Joly, St. Paul, Mrs. Ted Trueman, St. Paul, Mr. Cec Thorson, St. Paul, N. Irvine, St. Paul; T. McCann, St. Paul, Marsen Bolash, St Paul, Mabe Wachholz, St Paul, Jean Caldwell, St Paul, Mrs Felix O'Neil, St. Paul, Lionel Agosta, St. Paul, M. D. McLeod, St Paul, Mrs. A. Potter, St Paul, Clovis Doucet, St Paul, S (Gratton, Thorsen H. Gould, St Paul.

Those are still unclaimed: Bob Nee (Names were not available) 16, 61, 105, 126, 127, Yvon Lord, 139 W Lander, 161 Manny Pitre, 160 H Krahenbi, 168 Peter Pedchuk, 198, 211 Mrs S Sondervad, 220, A. G. Motors, 238 J Heimski, 245, Y Collins, 256 S Patterson, 266, 325 Stan Arrchuk, 340, 347

Receives Membership To Elk Point W.A.

A W.A. membership has been made an honorary merit, on an Unitarian Church W.A. and was presented with a life membership certificate and an engraved gold pin. Mrs. Hudson was a student worker in the W.A. for years and always willing and ready to do her part.

For the last few years, due to ill health she has been unable to participate in the activities of the organization, but she still has the cause at heart and makes her annual donations. We are glad that she was very pleased and felt greatly honored to be given this high honor. Congratulations to the members and wishes the W A continued success.

OBITUARY

On May 30, Mr Telesfe Jutenville of St. Paul passed away at the age of 82 years.

He is survived by his loving wife Mrs Lumena Jutenville of St Paul, 6 sons and 2 daughters, Fillion of Lousana, Philippe of Edmonton, Louis of Cold Lake, Leo of St. Paul, Arthur of Fort Kent, Mrs Marie Ostmeer of Bonnyville, Mrs. Alice Bouchard nee of Valeemat, B.C., also 3 brothers 3 sisters all of Quebec.

St. Paul Bears Enter Second Year In E.B.L.

Bill Skakun Named Coach, Co-op Supplies Uniforms And Equipment

On Wednesday, May 5th, 1948 the local boys of Elk Point, Two Hills, St. Paul and Vermilion met representatives in Elk Point to form a baseball League to promote and further the cause of baseball in this district. The four team league emerging from the meeting was called the Eastern Alberta Baseball League and embraced the four above mentioned towns. Romeo Bedard of St. Paul was elected President of the new league for the first year and Bill Skakun the Secretary-Treasurer. Each member team also had two delegates to the league who, with the President and Secretary formed the League governing body.

The league schedule drawn up allowed for 12 games for each team with 6 home games and six away. Games were to be played between May 15th and July 18th. Weekdays and Sundays. Cloudy skies and wet weather hampered the teams to such an extent that Two Hills and Elk Point had played only 11 of their 12 games. The Vermilion Club copped the League Championship by finishing on first place at the end of regular play. In the semi-finals, Elk Point defeated St. Paul in two straight while Vermilion took two straight from Two Hills. In the ensuing finals it was Vermilion again two straight over Elk Point.

ST. PAUL BEARS

The St. Paul Bears Baseball Club was represented by a group of St. Paul boys interested enough to carry on the sport of baseball here. They were moulded together for the first time and as a result did not fare too well. Rich Record was appointed coach of the Club but pressure of other duties made him resign his position to Bill Skakun. The roster of the Club consisted of a few old pros sprinkled with the occasional junior. Players to be shuffled from position to position one day to the next as a result of work or holidays. At one player mentioned "I've played almost every position on the team."

For pitching there were the capable right arms of 'Rapid' Robert Sanders and Irvin 'The Cuban' Everton, with 'Relief' Joe Skaliy giving the odd in relief. Catching chores were ably handled by Mineol and Buck Jolly. First, Second and third were shuffled amongst Bill Skakun, Rolland Charron, Buck Jolly, Bob Sandboe, Joe Skolta and Marcel Jolly. The 'old pro' himself Vladimir Jolly took his turn on shortstop whenever he was available. Help on short also received from Cliff Letendres during relief work at Taylor and Pearson in St. Paul during the summer. The pastures in the outfield were covered by Ben Chaulk, Jerry Uberyn, Joe McCool, Bill Skakun, Clarence Richard and even at one time Charlie Canevan.

The local box office bill did not fare too well because of the [illegible] and business men were not used to having baseball around here for the whole season. The nearby lakes too were very alluring for fishing, boating and swimming. However the first year is always the roughest and now we are in our second year of the league.

At the general meeting in Elk Point last month, the Two Hills [illegible] was influenced into [illegible] of absence with an entry from Derwent taking their place. The league will once again consist of 12 games to be played on Wednesdays and Sundays between Sunday May 30th and Wednesday, July 28th. Playoffs will then taper off with August 1st Civic holiday a League Champion. With any kind of a break in the weather, the district baseball fans in these towns should be assured of a good baseball year.

The St. Paul Bears will be self-functioning this season through the kind generosity of the St. Paul Co - Operative Association, the club will receive all equipment including balls, bats boxes, uniforms, protects and other items at cost. The Co-op also provided the Club with new uniforms last year.

A few new faces will be seen in the St. Paul lineup. Most noteworthy to mention will be Steve Gergichuk who new teaches at Ashmont. Steve is a pitcher in the game and played one year for the Leduc Oilers. He will most be remembered by his comeback appearance with Two Hills on the July 1st and 2nd Tourney season. His blazing fast ball and wicked sweeping curves will give the opposition more than something to think about. Another newcomer will be Jim Gulliver, formerly from Wainwright and now employed at St. Paul Sales and Service. Jim will best be remembered by his number of goals he scored against St. Paul Bears this last hockey season. He will be an asset to the team both in the infield and on [illegible] Baseball League.

Mr. Romeo Bedard

Enterprise sportsman and coach of the St. Paul Bears. Still is holder a lively interest in Baseball. He is Secretary of the Eastern Alberta Baseball League.

Wm. (Bill) Skakun

Enterprise sportsman and coach of the St. Paul Bears. Still is holder a lively interest in Baseball. He is Secretary of the Eastern Alberta Baseball League.

George Pandich and Steve Plesha, both from Smoreno. George played hockey for the Hornets in the 45-46 season and has signified his intentions on coming in to play games for St. Paul. His speed on the plate should cause pitchers to lose hair quickly. Among the Juniors showing up from last year are Johnny Kotanch, Bill Higgins and Eddie Hanson. Over from last years Bears will be Tommy Joly, Marcel Joly, Bill Skakun, Joe Skolta, Bob Sandboe and Buck Joly.

Once again Bill Skakun has been handed the coaching chores and with the assistance of a few old timers will try to form a team which hopes to take the league championship.

Secretary-Treasurer is Charlie Canevan Jr. This year baseball days are going to be held to generate interest at the gate devoted like 'One carload for $1 50 and ladies night' and 'children free with parents' days will be staged.

A small concession to sell soft drinks, cigarettes, bats, pop corn and gum will also be operated. The team will elect a number of ball tournaments, depending upon when they fall. It has signified its intentions of entering the July 1st and 2nd St. Paul Tournament plus one at Two Hills and Elk Point. All these plus hard work and the constant diligent promotive point to a very successful baseball season not only for the St. Paul Boors, but also for the general public.

First President of the EABL. Mr. Romeo Bedard is greatly responsible for the return of baseball to St. Paul. He continues to be a keen enthusiast.

Mr. John Humeniuk

Manager of the St. Paul Co-op Store. Mr. John Humeniuk lent the support of his firm to buy uniforms and equipment for the Bears. This is his second year of "co-operation" with baseball enthusiasts.

EDITORIAL

DAY OF RECKONING

By C. R. BELLEVILLE

Rafters in the [illegible] Hall rang with joy when Jos R. Sweeney, [illegible] and congenial proprietor of the Villas [illegible] accepted the nomination as standard bearer for the Liberal party in the St. Paul constituency, at the coming provincial election on June 29.

Hope runs high in the breasts of the Liberals, without doubt this type of candidate will divert hundreds of votes in favour of Liberalism. Mr. Sweeney has already stepped [illegible] with the old unseen shackles and used and exhausted administration which has [illegible] Alberta. Accepting the [illegible] south around the province [illegible] a rule of confidence and assurance that should have been [illegible] under the progressive and liberal administration.

A government that has the best alternative of being good or not, dare restrict the natural talents of the people into [illegible] people with the [illegible] of [illegible] to be partitioned on their own scheme. When their administrators [illegible] away from this objective, political [illegible] are certain to follow.

For twenty years the people of this northern area have been short-changed and by neglect in road and community [illegible] assume the pioneers and their followers would not be molded into the Social Credit's home of political [illegible] Liberalism is offering a [illegible] of undisputed character and administrative ability opening the long closed door to the voters of the St. Paul constituency to step forward under a Liberal administration.

The opportunity to swing the door open has never been better the electorate thing and will was through in patch for better legislative and [illegible] with hearts full of hope to regain what has been, within [illegible] years. It is rightfully theirs the day of reckoning is at hand

A PLUG FOR THE BASEBALL TEAM

In another section of this newspaper we have devoted a page in the interest of local baseball. A number of business men have considered the support of our baseball team important enough to warrant special attention of the publicity being directed in its favor.

Two years ago baseball management was faced with the complaint that no local boys were featured in our July 1 and 2 Baseball tournament. The reason was obvious. There were not enough players of the right caliber to compete against a good baseball team.

At the present we are evolving through a come-back of local baseball and the possibility of being able to field a good team through the entire summer schedule and of entering this club in the tournament.

The enthusiasm of the coach, manager and players is at a high pitch. The boys have been practising consistently and diligently. They are flush with the success of a few starting games. To keep them going ahead and climbing up the rungs of the Eastern Alberta Hockey League they need the support of the entire community, both financially and morally.

The page in question was designed with that end in view. We want to make everyone in St. Paul Baseball conscious this summer. The schedule, weather permitting, will be run expediently and should be finished by the middle of the summer.

All games are played early in the evening and on Sunday afternoons. There are lots of fishing days left and yearning time. Good baseball is promised . . . so let's see you at the Ball Park for every game.

ESTABLISHING LAWNS

Are you faced with building a lawn this year? New home owners will meet with many problems before the grounds around their homes become the envy of the neighbourhood.

The first step for a good lawn is good soil A good rich garden loam containing plenty of decayed plant material is ideal. The soil should be spread to a depth of about four inches and firmly rolled Rolling is an important part of preparing the seed bed. Poor McCalls, Alberta's Horticulturist, says when footsteps are not left depressed in the seed bed it has been packed enough.

A proper seed mixture will go a long way in making a successful lawn. The grasses must be suited to the area, get along well together and compete favourably with weeds. Another point that must be considered when selecting seed is the availability of water. Many different mixtures are used to suit the many different conditions. Further information as to seed selection may be obtained by writing to Mr P D. McCalla, Provincial Horticulturist, Alberta Department of Agriculture, Edmonton, asking for the publication "Lawn building and Maintenance."

The seed must be evenly distributed An easy way to do this is to divide the seed into two equal parts and broadcast one portion across the seed bed from north to south and the other from east to west. A light raking, in one direction only is all that is required. A light rolling after seeding may mean more uniform and more rapid germination.

Frequent light but thorough watering until the grass seed is germinated is important. The watering for the whole summer cannot be done all at once. Too heavy a watering will cause washing and puddling of the seed. Mr McCalla stresses light and frequent watering.

Many people prefer to leave seeding their lawns until the late summer. In this way they are better able to control the weeds. The seed is bound to have weed seeds in it and these will germinate and grow and then when cropped off at the roots the lawn is more likely to be weed free.

—Alberta Department of Agriculture

BUSINESS OUTLOOK

There is plenty of staying power in the current Canadian business upsurge, reports the Financial Post.

Retail sales alone in the first two months of 1965 are outstanding. The year has already produced many new economic highs. The most impressive gains may be achieved in the next two quarters.

At mid-year, there is no shortage of economic indicators that the Canadian business upsurge, which started in the last quarter of 1964, will last into December and beyond. But the optimism cannot be unbridled. There are still some pointed reminders of potential weaknesses.

Much of the credit for today's rosy picture must go to the solidly confident fellow, the Canadian consumer, who sees no reason to hold off his purchases until tomorrow. While sales are climbing to almost every economic category, prices are standing relatively fixed.

PROVINCIAL AND CONSTITUENCY AFFAIRS

By RAY REBEROL, Two Social Credit Candidate

The Social Credit Nominating Convention held in St. Paul on May 30th unanimously re-nominated myself to contest the June 29th Provincial Election. It was a pleasure to receive the endorsation of confidence and no effort will be spared in securing a new mandate to continue representing this Constituency provincially.

Forty-one delegates distributed from Vilna on the west to Smoky Lake on the East and Lac Bellevue in the south to St. Lina in the North, gathered together with an equal number of visitors which made a total attendance of approximately 90 persons.

The two Resolutions, one affording Premier Manning a unanimous vote of confidence on the strength of his Leadership, Integrity, Sincerity and Ability and the other a unanimous vote of confidence of the Principles, Policies and Objectives of the Social Credit Government and Social Credit League was not with a resounding acclaim.

The convention was a fully representative one with excellent dispersal of delegates from all area.

To open this pre-election series of articles, the schedule of Provincial Grants for Hospitals has been chosen as one that should be of marked interest to all of our people. Figures for 1954 are the latest statistics available compiled. The three Hospital Districts serving this Constituency with Hospitalization Payments from the General Revenue of the Province for last year is as follows:

St. Paul	$50,040.39
Elk Point	$84,845.62
Smoky Lake	$54,555.31

Distribution of General Revenue Payments according to Hospitalization Services Provided—1954.

Maternity	$8,170,155.05
Pediatrics	$1,902,205.45
Per Diem Grant	$1,945,437.20
Outpost Grant	$ 16,400.70
Provincial-Dist. Hosp. Plan	$6,698,351.75
Poliomyelitis	$1,039,261.35
Tuberculosis	$ 51,681.20
Orthopaedic	$ 51,320.00
Psychiatric Wards in Gen. Hosp.	$ 7,271.00
Arthritis	$ 51,327.50
Cancer	

Total Payments for Hospitalization in General Hospitals $1,387,000.00
Tuberculosis Sanitoriums $1,387,000.00
Mental Hospitals $4,717,000.00

Total Payments for all Categories from General Revenue $14,517,000.00

Hospitalization Payments under complete Provincial-Municipal Hospitalization Plan in Municipal Districts operated by Patient by Local by Prov.

Group	Paid		
A	$13.75	$5.50	$8.25
B	$ 12.50	$5.00	$7.50
C	$ 11.25	$5.00	$6.25
D	$ 10.00	$5.00	$5.00
E	$ 8.75	$5.00	$3.75
F	$ 7.50	$5.00	$2.50

PERMISSIONED HOSPITALIZATION

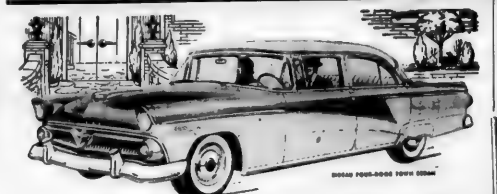
	Patients Pay	Subsequent days
Group A	$18.25	$8.75
Group B	$17.00	$8.50
Group C	$15.75	$7.50
Group D	$ 9.50	$7.50
Group E	$ 9.25	$7.50

From the foregoing it can be clearly seen that the Social Credit Government has made tremendous strides in assisting in the Hospitalization costs of all Alberta citizens, with special consideration as need. The annual sum for this is itself is equal to the total budget of 20 years ago. Social Credit policies has made this possible and will be the basis of augmenting this service in the years to come.

Our Hospitalization scheme when coupled to the new voluntary Provincial-Municipal Medical Care Plan due to be initiated on July 1st this year will do a great deal towards alleviating the fear of sickness and injury.

Free Hospitalization and Medical Services to our 1 century, Blind Pensions, Increases in Old Age Assistance and Y.M. Allowances is the greatest single source of satisfaction to these persons. Compare the other Provinces of Canada. None come anywhere near it. Even Premier Leslie's Saskatchewan Government of your resources has made this possible. Your continuation will assure further progress in these fields.

A vote for Social Credit is a vote for progress. Vote for Social Credit on June 29th.



METEOR—SMARTEST CAR IN THE LOW PRICE FIELD
V-8 POWER BOMBS; EXCLUSIVE TRI-TONE BEAUTY

Choose from 6 smart series
Riviera, Niagara, Meteor, Station Wagon
featuring 3 overhead-valve V-8's
162 Hp.-175 Hp.-192 Hp.*

Come, see the car with more style-setting beauty than all others in its class—V-8 Meteor! It's entirely new from bumper to bumper, even to its new tubeless tires. And everywhere you look, dramatic touches give Meteor grace and loveliness that set it apart. Head and shoulders above the ordinary! There are 13 beautiful body styles—all longer, lower, and wider. You get a V-8 power bonus without paying a premium! Meteor models offer a 162 Hp. overhead-valve V-8; Ridera and Niagara models a 175 Hp. overhead-valve V-8. Both are backed by experience gained in manufacturing over 17 million V-8 engines. A 192 Hp.* is available with Mere-O-Matic Drive.*

In Meteor V-8 you'll feel instantaneous response wherever you need big reserves of smooth power to whisk you out of "tight spots"; howl out steep hills, or for safe passing on the highway. You'll be immediately aware of new steering ease and extra-smooth riding. That's because the Meteor ride* system gives virtually friction-free front wheel action, and embodies front springs tilted to cushion out head-on as well as up-and-down shock.

V-8 POWER IN EVERY MODEL AT NO ADDED COST

NEW ENGINEERING ADVANCEMENT AND ECONOMY result from thoroughly proved advancements in Meteor's great overhead-valve V-8 engines. Full torque is transmitted to the rear wheels in 7/100ths of a second to give brilliant pick-up in all speed ranges. With Mere-O-Matic Drive you have two option of 162 Hp. overhead-valve V-8 engine.
Complete choice of Power Assists. 4-way power seat* moves up-and-down, forward-back. Power-lite on all windows*, too, are controlled separately. Power steering* and power brakes afford extra driving ease!

SEE THE MOST BEAUTIFUL a low-priced car. Here blues in colourful interior designs, new upholstery embroidery and trims.
*Optional at extra cost

Plain Talk from DR. F. MacNEILL SMITH

Liberal Candidate

Few people are familiar with the amount of federal aid which may be obtained for construction of housing for aged persons under Section 16 of the National Housing Act, any interested group of citizens can, on application to the Central Mortgage and Housing Corporation, borrow up to 90 per cent of the value of the project at interest rates of three and three quarter per cent, repayable over as long as fifty years. Certain formalities are demanded, the interest group must form a limited dividend company, incorporated under provincial law, and charge and form a board of directors, to insure continued community interest in the project. The corporation may pay a dividend of over 5 per cent, and the length of time for repayment may not exceed the life of the projected building. There are also provisions as to size of unit, the usual plan is modelled on a motel, with self-contained kitchens and bath, suitable for an elderly couple. Re-lets usually run from $15 to $30 a month. Further information may be obtained from the Regional Office of the Central Mortgage and Housing Corporation in Edmonton.

(Inserted by the Battle River-Camrose Federal Liberal Ass'n)

Bigger Lloyd. Rodeo Planned

The Jaycees are planning a Bigger and better rodeo this year than ever before As this paper goes to press and arrangements have not been finalized which date under way at 10:00 a.m. sharp on Tuesday, June 7th.

The Jaycees also advise that there will be a big surprise feature in this pa' you are on hand to take it in.

Bull Fighting At Lloyd. Rodeo

Willoughby and Tillison, the well-known Brahma bull fighters from cheyenne, Wyoming, will play a big part in the Jaycee Rodeo on June 7 and 8.

This is a dangerous sport and many a contender has been very badly mauled in one of these encounters. If a rider is thrown from a Brahma bull, it turns on the rider, whose life is then in the hands of the bull-fighters.

This puts the arena well in cut in half while the cowboys are riding the Brahmas in order to enable everyone to see some top-notch bull fighting by these two boys from Cheyenne, Wyoming

FUA Building Grant Awarded

The contract for the construction to the new FUA headquarters was awarded to Jamp's Meadow Construction is to begin almost immediately and completion date will be about Sept 30th. The plans were drawn up by Ross Stanley, Architect

The new Farm Union building will be located at 5024-106 St. It will contain space for FUA offices together with a library and board room.

Pentecostal Church Sunday Services

A cordial welcome is extended to everyone to all regular church services.

SUNDAY: 10:00 a.m., Sunday School Classes for children of every age and also bible classes for young people and adults: 11 a.m., preaching service: 7:30 p.m. Evangelistic service.

WEDNESDAY: 8:00 p.m. prayer

Local News

Mrs. Buck Eaton has returned from Edmonton where she had been visiting last week.

Mr and Mrs. Frank Gunnewin, Paulette and Kenny were in town over the weekend. Frank is driving a new new Chev.

Dennis Lambert has joined the Elk Point Telephone staff. You have been hearing her chatting over your Saturday and Sunday line party calls. Welcome Mr Racette were present

Mr. Kenny Vaage did a splendid job as MC calling on Mr Mercer, principle, Mr. Tranbut, Mr Racette, Mr Buck and Miss Kravchuk for speeches. There were all very adequate and brief. Which is perhaps the most interesting talk was the one by Mr Tranbut who pointed out to the pupils the different benefits in the teaching profession, making it sound like a year around holiday with pay. Another talk to be mentioned was by Miss N Kravchuk, Junior Commercial. She gave the graduates a general idea of what to expect upon entering university which was very beneficial to all.

Sorry to say, the attendance was not as expected but those who were there made up for it by the way they showed by showing their enthusiasm and appreciation.

This event was followed by a dance, of course. The Grade 12 graduates was Arthur Thompson, son of Mr and Mrs. Dave Thompson from Primrose

L. Kasjaka, W. Mianno and M Buck took a trip to Pierceland to try their luck at trout fishing. Luck was against them as they came back tired and weary with but one trout and a dozen large suckers.

Harold Bloch is visiting at Prog Lake while recuperating from a broken leg received while at work.

George Betting has left for Wainwright where he will work as cook at the Military Camp.

Stanley Parenteau and Clyde Bosler are leaving for Drayton Valley to work there.

Mrs Bosler Sr. is again seriously ill in hospital.

Mr. Stanley Woods is looking after the gas filling station for Joe Bloss.

I hear the Pelylak family is moving back to town as soon as school is out. Mrs. Pelylyk will rent the only white House will work in the bus

Red Cross Held Meeting

A meeting of the Elk Point Red Cross was held on May 26.

Plans were discussed for attending the Bush Point and District Red Cross meeting to be held in Heinsburg on June 12 at 8 p.m.

All those who are interested attending this meeting please phone Mrs. Helen Kovach as soon as possible, or at least one before the meeting

For ladies who are interested in sewing and knitting for the Red Cross, we are very happy to announce that we have now a good supply of materials to hand.

You may have your choice of making boys' pyjamas, children's nighties, knitted boys' sweaters, and children's socks.

The materials may be picked up at the home of Mrs. Helen, Elk Point.

Recent Births In Elk Point Hospital

Born to: Mr and Mrs. Bruno Young, Lindbergh, a boy; Mr. and Mrs. Louis Young, Elk Point, a girl; Mr. and Mrs. Mike Berbrycz, Cleardmead, twins boys; Mr. and Mrs. Harry Kravchuk, Elk Point, a boy; Mr. and Mrs. Pete Pankiw, Elk Point, a boy; Mr. and Mrs. Marchel Medryk, Derwent, a boy; Mr. and Mrs. Omer Lafraser, St. Paul, a girl; Mr. and Mrs. Ed. Dandora, Lindbergh, a boy.

MERRIMENT NEWS

The highlight event of the week was the colorful Golden Jubilee Grades 9 and 10 graduating exercises. The girls all dressed up in evening gowns while the boys still wore their best suit clothes. The program began with a beautiful supper at which high school pupils, their parents, relatives and Mr Racette were present

Mr Kenny Vaage did a splendid job as MC calling on Mr Mercer, principle, Mr. Tranbut, Mr Racette, Mr Buck and Miss Kravchuk for speeches. There were all very adequate and brief. Which is perhaps the most interesting talk was the one by Mr Tranbut who pointed out to the pupils the different benefits in the teaching profession, making it sound like a year around holiday with pay. Mrs Bosler Sr. is again seriously ill in hospital.

Mr. Stanley Woods is looking after the gas filling station for Joe Bloss.

I hear the Pelylak family is moving back to town as soon as school is out. Mrs. Pelylyk will rent the only white House will work in the bus

Fourteen Members Attend Welfare Meeting, Brownies Get Golden Bar

A Welfare Meeting was held at the Scout Hall on Thursday, May 26, with fourteen members in attendance.

Mrs. Hodgson reported that the Brownies continue to be a very enthusiastic little group. They have completed their requirements for the Golden Bar and are now working for the Golden Hand.

On May 17, the Brownies put on a short program. Each invited a girl who would be interested in joining their organization. Our Brownies' first girls were invested, and the present members planned a Hallowe'en party and explaining to their visitors what they do during their meetings.

The guides under the leadership of Miss Lefthes have earned twenty-two badges this year Mrs. Peter Yewchuk is the new examiner for Heinsburg.

They had a hike and weiner roast at the river several weeks ago and a theatre party in Cold Lake recently. The Guides elected $13.00 at their last meeting and are being made for a tea day camp at Whitney Lake beginning July 4. Mrs. Mac Alsoss, Mrs. Dynda and Mrs. Bodlovsky very kindly consented to be camp supervisors. The Guides need another unit. Any persons having one to lend please inform any of the leaders. It will be greatly appreciated.

Dr. K.C. Miller reported that the Scouts have been holding regular meetings. The boys have been quite faithful in taking a test of supplies containing cigarettes, beer, oranges, kleenex, etc. through the week at the hospital for sale to the patients. As an educational project they have been making furnishings for their corner.

The Scouts would like to go to camp at Moyrel Lake but require one more camp leader. Any Volunteers?

The Grounds Committee reported that ash and evergreen trees have been planted and a fence made around the front of the Scout Hall. Mr Hodson, Mr W Mitchelmore, Mac Fenton, Dean Fenton and Ken Krucik were in part responsible for these improvements Dr Weigertsick is to be commended for her capable engineering of this project.

CAREER MEN IN KHAKI

The Infantryman

Here's a job for the active man who tans his hand. Nine the feet of action and working in the open air.

Today's Infantryman, recognized as the most important man in the Army, has the best — in training, weapons and care. His chances for specialized training and promotion are also enhanced unlimited.

Infantry and the other special branches of the Army offer hundreds of good-paying, lifetime careers. To see where you fit, visit your nearest recruiting office. No obligation, of course.

Remember, in the Army you team up with men and leaders you can rely on — right down the line.

Serve Canada and Yourself in the Army
To be eligible you must be 17 to 40 years of age, single (without dependants) or ex-service personnel of any age.
Apply at your local recruiting office or write to: Director of Recruiting and Selection, Canadian Army (Militia) Headquarters, Ottawa, Ontario.

All he has learned...

The experience and judgment of this man are of direct importance to a large number of people in his community.

He is the manager of a branch of one of the chartered banks. Behind him are years of training in various branches as teller, accountant, assistant manager. Back of him, too, are the special skills and broad experience of the bank he represents.

Everything he has learned about people, and business, and sound banking practice is put to work every day in the service of his customers.

He directs a banking service-centre where a wide range of banking services, designed for specific purposes, are available to everyone in the community.

Of proven ability, tested by years of practical experience, he is a key man in the Canadian banking system.

Only a chartered bank offers a full range of banking services, including:

PERSONAL LOANS — To finance your personal needs: repayment in regular instalments from your income.

HOME IMPROVEMENT LOANS — For repairs, alterations or additions to your home.

COMMERCIAL LOANS — For business or industrial loans, large and small, producers, processors, retailers—every type of enterprise.

MONEY TRANSFERS — By mail, telegram or cable to anywhere in the world.

THE CHARTERED BANKS SERVING YOUR COMMUNITY

St. Paul Bears Win First League Game

St Paul Bears held down the Elk Point Monarchs to a shaky 7-6 win in the first Eastern Alberta Baseball League game at Elk Point on Sunday afternoon.

Bears took an early lead on the mound for full time duties of nine straight innings. He struck out 21 men and walked eight. Shopkeeper for Elk Point struck out 7, walked 3.

The bears had her own opportunely safe 7-4 going out of the night, but suffered a set back of one in the last half, ran scoreless in the ninth while the Point pounded in two in that last frame with two more threatening on scoring position on fifteen and third when the lights went out.

For St. Paul Bark Joly ran in two, M Joly and R Joly 1 apiece and Joe Stolts scampered for 2 Elk Point runs, both Monarchs of Stetsko. Fenton, Boyd and Krawyk 1 each.

Batteries: St. Paul—Campbell, Stark Joly; Elk Point—Shopkeep, Stetsko.

Line Score			
	R	H	E

Next League Game — Elk Point at St. Paul on Sunday, June 5th, 2:30 p.m.

CARD OF THANKS

I wish to express sincere thanks to all of the ladies who were so generous and sympathetic to me after a hosting accident in St Paul through which I lost the use of an eye. Your moral support and efforts to help me financially were greatly appreciated and were of tremendous value.

Rev Fr Chatiron, St. Vincent, Edmond Brochu, St. Paul Hockey and Arena Manag ment, Malignj Hockey Club, Citizens of St. Vincent who organized a raffle, Mr Marcel Lafrenière for taking charge of a collection and all the public of St. Vincent and the district for their understanding sympathy.

Fernand Lafrenière

Permettez-moi d'exprimer mes remerciements les plus sincères à tous ceux qui se sont montrés si généreux et sympathiques à mon endroit à la suite de l'accident dont j'ai perdu l'usage d'un œil. Leur appui moral et l'aide financier qu'ils m'ont apportée, m'ont été une grande consolation.

Je désire remercier tout particulièrement le Rev Père Chatiron, curé de St. Vincent, M Edmond Brochu, les directeurs de l'Arena et du Club de Hockey de St. Paul, le Club de Canoet de Malignj, les citoyens de St. Vincent qui organisé une raffle, M Lalg qui a chargé une collecte, et tous les citoyens du district de St. Paul- St. Vincent- à vous tous, merci pour votre généreuse sympathie.

Gilbert Brochu,

John Fesenko Dies Suddenly in City

Oil Tanker Overturns Enroute To Lakeland Road

An oil tanker owned by John Fesenko on its way to Edmonton overturned about 2 miles from town. The tanker was completely destroyed, spreading gas and fumes to nearby stables, causing a telephone pole.

The driver [illegible] crash and the heavy impact struck a rock shoulder of the road and went out of control and overturned in the ditch. He escaped without injuries. Damage of the tanker is estimated at about $6,000.

Council Discusses Gas Rates With Utility Officials

6.1 Cent Increase Is Demanded

Members of the St Paul Town Council met in committee at a special meeting held on Monday Mr F J Donahue, General Manager Plains Western Gas and Electric Company gained considerable of St Paul Utilities and Mr A H Kaufman Secretary Treasurer of the Imperial Company in the year 1954 and demanded an increase in the gas rate schedule from the consumers.

According to the Company's financial statement the percentage rate of return on their investment of $251,000 was 5.9 per cent for a total of $14,800 Mr Kaufman felt an increase at 6 1c per MCF was justified Roughly a 15 per cent increase on the present rate, this extra revenue is considered reasonable by company officials to meet the 1955 budget.

Mr Donahue outlined the gratuity franchise from the town of St Paul in the year 1948 when they purchased gas rights from a local syndicate

A declining rate scale based on increased consumption was incorporated at the time, domestic rate is $2 for 2MCF plus 40c per MCF for the next 16M, 40c on 1 to 100 consumers, 65c for 100 to 200, 60c 200-300, 55c 300-400, 50c 400-500 35c 500-600, 30c 600-700, 25c 700-800 Franchise was given for 10 years and will be up for renewal in 1958.

St Paul has 300 consumers and according to the contract should be paying 30c per MCF However after negotiations with company officials last year it was agreed to keep the rate at 40c 1954

Mr Kaufman said that the contract rates of 1948 had been compiled on costs of that day, but since the futures have been off balanced due to an increase in operational costs brought about by the higher trends of the day.

The council made no immediate decision on the request for increased rates investigation of the demand will be made and a decision hatched down later.

Should the Council and the Utilities not agree on the rates or a compromise, the case would have to be brought up before the Board of Public Utility Commissioners who would make and rate judgement on the validity of the Utilities' claim.

Second Elk Point Resident Wins New Car At St. Paul Curling Bingo

Mr Pat Pinder and [illegible] of the Elk Point district were the lucky winners of three cars given away by the Curling Club's Bingo last Saturday, who was calling the "about the works", won the 1955 Chevrolet offered as first prize. The other two lucky were Mr and Mrs Frank Mosela of Elk Point and Mr and Mrs Joe Journeck of St Paul and St Edouard Two weeks ago Mrs. Paul Bross of Elk Point won a Chevrolet. Lots of lucky people living out that way!

Below pictured below the main [illegible] there were more than [illegible] to split if the decision on their part was unanimous. One of those who wished to break the tie, Mr. Peter Fenton of Elk Point, Both Mrs. Mosela and Mr. Journeck refused to split but were overruled by Mr Pinder's preferences.

The second bingo of the year, sponsored by the curling club drew a good crowd, completely filling the first Main restaurants on behalf of the Club were Don Gaetaire, president, John Bassin, Vice President and Ted Getsworn.

Mr Roland Bouvrett handled the announcing chores with John Penn as a helper Ace Rudy stood by with his P.A. system

Mayor Jules Van Brabant welcomed the players and also made additional presentations of the cash keys to Mr Pinder and the other 19 prizes won in the evening.

Winners are as follows: on day Stand, Mrs. Rene Dallaire, St Paul; Carving Set, Mr Steve Demgo, Lake Eida. Table Lamp, Mrs. Gervais, Sr., St Paul; Tyrite, Miss Carl Nelson, Lindbergh, Bed and Bed, Gil-ette Brochu, St Vincent, Mr Bill Chamberlain, Fuzzy; Lady's Overnight Bags's Silverware, Mr. Emile [illegible]

Elk Point Graduation

A song was then sung to the Queen Teachers by the Music Class by the Title of "Tribute to Elk Point." Dr. F. G. Smith representative of the School Board for Elk Point, presented the grade twelve graduates with a special address.

Reading this will be Mr. Hintz's last teaching term in Elk Point, as he will be leaving the district to take the Pastor on behalf of the High School Graduates Diploma. The Music Class sang their class song "Let Me Walk My Best Today" which was followed by a complimentary speech by Mr. Racette. The afternoon proceedings ended by singing "God Save The Queen"

At 8.30 p.m. the same day, at the Legion Hall, a supplementary dance was held in honor of the graduates. After a most sumptuous meal, several toasts were proposed. The toast proposed to our Queen was given by Mr. Racette The toast to the grade twelves was made by Robert Bellsky followed by Milton Lorenson's humorous reply. Ann Pelechosky then made a toast to the grade nine graduating class to which Alvin Oake made a reply Toasts were made to the board, the staff and the W.A. who acted as hostesses for the evening. Raymond, Mervin Valentine and Mr Racette, respectively Dr F H Miller made the toast to the Beard's Toast, Mrs. McDaniel to the Staff's toast was Mrs. R Berezuk was unexpectedly called upon to answer the W.A.'s toast

Mr. I. A Berthing was honored guest gave a very ... and as well as educational talk on ... type-your trip to Brazil. With the ... of the graduate's ... sessions.

ASSESSMENT P.U.A. board meeting changed from first Wednesday of the month to the first Monday of every month.

J. J. Bancharuk,
Secretary -9

PROVINCIAL AND CONSTITUENCY AFFAIRS

By RAY REIERSON, Your Social Credit Candidate

It is said on the radio that the Public Accounts Committee of the Legislature has not met for seven years. This is absolutely true. The question asked is "why?" The answer is that the members of either side of the house has asked that it convene

This committee is one of a number of Committees that are drawn up at the opening of the Legislature each year and is on call at any time to carry out its duties of investigating any phase and Public Accounts requested that it be necessary to convene him committee is a motion in the house specifying what is requested. A motion requesting this committee to sit has not been turned down in the past 20 years.

Mr Prowse moved that it be convened during the past session only after Premier Manning had been brought home by another member who made the request with a shout and setting them out at 2,800 yards from ground zero.

Do not doubt for a moment that had Mr. Prowse felt at any time in the past, that calling this committee would have better served his nefarious purposes he would have called it.

He has constantly under a thin veneer of courtesy attempted to accuse and malign, without even vouching himself accomplished nerve to show up his feeble efforts and gutter politics.

These are the liar on the Public Accounts Committee.

Weigh them well, they speak for themselves.

The report of the Committee this year indicated that there had been no dishonesty on the part of any member of the Government or any member of the Public Service in all the transactions investigated. It also indicated that no evidence of waste and extravagance has been brought out.

Every member of the opposition end-eared the first part and agreed that there was no indication of dishonesty but of course would not support the part denying waste and extravagance. To expect them to do that would be like expecting them not to mention this Election.

It is not the intention to construe in this article that the Government of Alberta has never made a mistake in the last 20 years. Certainly it has, just as you and I have, but they have profited by the experience and gone on to greater and greater achievements. Don't be fooled by this malicious and irresponsible attack in the guise and on the cloak fostered by irresponsible attack in the guise and on the cloak fostered by the old line parties. Alberta's darkest hour would be to let them ever secure control again. Vote Social Credit on June 29th

SPRING - SUMMER AUTO SHOW

PONTIACS 1955 BUICKS

Presenting The Pontiac For '55...

A MODEL FOR EVERY NEED AND MEANS

Acclaimed by car Canada's most sought after car in its class. New from the ground up — in its sleek and longer, lowslung lines — now in its most streamlined look. But BIG — big in its deep-seated, road-gripping stability and safety as assured as it will be enjoyed for years to come. Mechanically engineered — with a choice of two great engines — 143 h.p. Big '8' or 180 h.p. V8 — "Four-Way Balanced Ride" — Safety Power steering — Panoramic windshield — "All-Rite" Fisher visibility — and many, many more all new features that make the Pathfinder Deluxe the very finest dollar for dollar value on the market today! See it ... drive it ... you'll buy it!

Presenting The Buick For '55...

NEW PERFORMANCE ! !

—Dynaflash brings a history-making advance in transmission engineering with the new Variable Pitch Dynaflow.

What the variable pitch principle has for smoother, quicker performance is almost limitless. Just how limitless can be determined only by driving it. It gives special performance at all speeds. Inside a 1955 Dynaflow unit beside each of the two turbines is a variable pitch stator, an ingenious device that changes the pitch or cut like a propeller blade, as speed increases. Result? One pitch is for easy "takeoff" the other for maximum power. So when you want instant getaway from a standstill, or more than important when you want to make a quick pass on the highway, you simply press the accelerator to the floor mat. And you're in a safety-surge of power.

Then, when you're back in line, ease up on the accelerator and Variable Pitch Dynaflow resumes travelling in its economy-cruising range.

TAKE A LOOK AT THESE NEW FEATURES

REAR SUSPENSION — The new Wide Stance" rear suspension offers many important advantages. Better stability because the rear springs are mounted outside the frame. New smoothness in stopping, starting and cornering. Safer roadholding and easier handling.

MUTUAL BRAKES — New cam-action brakes on the '55 Pontiac are of the "self-energizing" type in both forward and reverse travel the brake shoes on each wheel utilize the forward or reverse motion of the car to increase the braking pressure on the drum. Soft, silent, effortless, excellent braking control.

STEERING EASIER — A new, recirculating, ball-type gear in combination with related steering components, reduces steering effort on curves and corners. Cushions road harshness much more than before. Even might otherwise travel up the steering column. Steering effort has been reduced ... yet steering remains sharp and quick.

FRONT SUSPENSION — Pontiac's all new Cushioned Front Suspension gives: (1) big car ride, (2) easier handling, (3) more durability, (4) breaking dive control. New spherical joints allow the wheels to turn right and left, move up and down with the bumps of the road.

3 GREAT NEW ENGINES — Pontiacs for 1955, in the Pathfinder, Pathfinder Deluxe, and Laurentian Series proudly possess 3 great engines, 6 great power teams, for every purse and purpose.

NEW POWER AND NEW MILEAGE

With the new Full-Skirt Pistons and Power-packed design of the 1955 V-8 engines, Buick owners are sending a tribute in power and performance to the Series ROADMASTER, SUPER and CENTURY for Buick has set the compression ratio at 8.5 to 1. Get a new high of 256 horsepower. Result? Buick has built in a reserve of power — a reserve that makes it possible for Buick and the engineers and builders of the V-8 universal power efficiency and higher octane premium gas. The new Buick running economical Variable Pitch Dynaflow, the 1955 Buick also features up to 18 miles more per gallon than Buick ever achieved.

NEW STYLYING

— A bright new fresh-brown forward, aft and all around

It's here in distinctive new Wide-Sweep Grille and Hoodsides. Speed lines are there in stainless steel. Exciting tail light — Lively, with modern thrust and new tri-spoked steering wheel — everywhere an invitation. Inside, too, Fashion. Here in Buick for 1955 is the style leadership of today and tomorrow — and the thrilling beauty buy for you.

—Dynaflash brings a history-making advance in transmission engineering with the new Variable Pitch Dynaflow.

Expensive Curtain

By C.E.B.

In the past decade "Curtain" has become a term conspicuous by its use as a "hanging" feature, for picture windows," but it is not widely used or applied against nations that are trying to keep the communistic dictatorial method of observing others going on within their country, by nosing it off from the eyes of the world, refusing to allow any but their own eyes to see and understand their actions.

Almost every day we read or hear of Russia's Iron Curtain and Lauretta Anna's "Bamboo Curtain." The Alberta Curtain has not been outside, created their own "Curtain," which isolates our monetary system (in their way of thinking) from all outside influences, according to the theories they expound, and at every opportunity, change the present monetary system to suit their ideas which will remain late magic.

Under their monetary system, prosperity would be on all sides — a lush and happy living would be ours therefore it would seem that the brighter minds of high finance would be quick to spot the theory as sound or practical.

On May 11th and the Socreds raised their Monetary Curtain in the Legislature, to the tune of approximately $100,000 or taxpayers money, in the form of an election. This Curtain was erected to keep the inquisitive eyes and noses of the opposition out of their actions as an administrative group. It has been torn to the people and ask us to be good, kind and forgiving, in voting them back into office a third and further time.

For instance we should tear this curtain down and take a peep at what's going on behind it, one such would probably be enough but it would be more satisfactory if each of us aiding the Sacred cal

LOCAL NEWS

Here's another — at last with us with temperatures in the 70's, the odd scattered shower and warm Seeding operations are almost complete. How it is a matter of the farmers keeping their fingers crossed until September 1.

We regret to report Albert Chapelle has had to undergo another major operation at Edmonton Hospital in Edmonton last week. At last report he is making very satisfactory progress and is expecting recovery.

The community was shocked to learn of the sudden passing of Myrtle R. Gamble, wife of Orlie Gamble of Goodridge. Our deepest sympathy is extended to the bereaved family.

With favourable weather conditions and reasonably good roads, the topic of conversation is "here we go again for a vacation this summer". Quite a number of the citizens are contemplating a jaunt here and there, the past two summers have been so wet that few were able to get away a decent holiday.

Fishermen over the weekend are no fish's on a dog's back. Pike (jackfish) are biting the lure in all of our lakes. This scribe heard of a giant lit- the brook trout was purported to have been caught by Pickerel Lake. Never a military secret!

The electorate are looking forward to Liberal leader Mr. Harper Prowse's address in St. Paul, on Thursday evening, June 9th., reported to be a head-up talk accompanied by a political promise. It's going to be interesting listening Jos R. Sweeney, the Liberal candidate for the St. Paul constituency is reported to be speaking in Mallaig on June 21st.

Had the rare opportunity of seeing a Moth plane to the Creek on Sunday for a drink, did not appear to be so limited by the country was a bit curious if anything, perhaps it was the smell of my nice pickerel that was the magnet.

The Mallaig Baseball team took a trouncing at the hands of the St Lina team on Sunday at the Thereon Picnic. Maybe were not so good at baseball the time but could overlook the fact an awful lot of our vitality and energy was expended through two consecutive elections to come out the winners.

The Ski Club is holding an exhibition in the Mallaig Skating Rink on June 10th at 10 a.m. Give some young people your support.

4-H Beef Club Exhibition, Wed.

Everyone welcome to attend the Mallaig 4-H Beef Club Exhibition to be held in the Mallaig Skating Rink on June 15th at 10 a.m.

Mallaig was represented for Grand Champion, Reserve champion, Intermediate, Grooming, Daily gain & for competition.

Ashmont Holds Graduation

The 8th annual Graduation of Ashmont School was held in Ashmont High School Auditorium, Friday, May 27th, 1955. Graduation exercises began at 1:45 p.m. with the singing of O Canada, followed by Rev Dicker with a prayer.

Master of Ceremony, David Lawton gave a few words of welcome to the graduates and parents. John Penn, President of Ashmont Students' Union was then introduced, followed by Mr. R. Bassett, honoured guest of the Graduation Ceremonies. Mr Bassett expressed his kind words of congratulations and advice sent to the grade nine and twelve graduating classes.

Mrs J Scott, presiding of the Ashmont Mothers and Bobbed Parents' Association presented an award of ten dollars to Hazle K. Boydell who was chosen in the outstanding, best all-round student in grade nine. Mr F. M. Dancey, Ashmont High School teacher presented the second and third awards of five and three dollars which went to Vincent Lawson and Harriet Holmberg.

Mr S. Georgiadis presented the grade nine graduating class of thirty pupils, followed by Mr J. Bibby with the presentation of the grade twelve graduating class — Agnes Carey, Darlene Cole, Gregory Sullivan, Sharry Sproul, Gertrude Naumhof, Lavern Wilson, Mike Galas and Eric Patterson. Agnes Carey then gave the valedictory address. Dr. Zavalsky, Secretary of Ashmont Students Union gave a brief outline of the financial report for Ashmont Students Union for 1954-55. The evening concluded with the singing of God Save the Queen followed by a prayer by Rev Dicker.

The grade eleven class held a tea in honor of the Grade twelve graduating class. The day which will be well remembered by the graduates was brought to a close by a dance in Ashmont Hall.

Yukon Morning Comes to Help Her People

At St. Joseph's hospital in Hamilton, Ont., a pretty Eskimo girl, Annie Wilkinson, saw the sun rise on Saturday morning for the first time in her life. She was in Canada helping her people to be examined by doctors. Annie, her second year in nursing training. After performing, best all-round student in grade nine for P. M. Dancey, Ashmont High School teacher presented the second and third awards of five and three dollars which went to Vincent Lawson and Harriet Holmberg.

Mr S. Georgiadis presented the grade nine graduating class of thirty pupils, followed by Mr J. Bibby with the presentation of the grade twelve graduating class — Agnes Carey, Darlene Cole, Gregory Sullivan, Sharry Sproul, Gertrude Naumhof, Lavern Wilson, Mike Galas and Eric Patterson. Agnes Carey then gave the valedictory address. Dr. Zavalsky, Secretary of Ashmont Students Union gave a brief outline of the financial report for Ashmont Students Union for 1954-55. The evening concluded with the singing of God Save the Queen followed by a prayer by Rev Dicker.

The grade eleven class held a tea in honor of the Grade twelve graduating class. The day which will be well remembered by the graduates was brought to a close by a dance in Ashmont Hall.

Glendon News

Eighteen graduands of the Glendon High School that year were honored at a very well attended graduation ceremony. The graduands, their parents, teachers and friends enjoyed a well spent evening in the auditorium decorated with flowers and gold and green the school colors. On the walls were the mottos, "Today prepares Tomorrow", "Live to learn and learn to Live", and "Learn to Labour, Labour to Learn".

A program pertaining to Alberta's Golden Jubilee was presented by pupils from Grades 1 to 11. The musician by Rev Fr Gerut, then Mr A J Sundro principle of the Glendon School conferred the graduates. The valedictory was given by Anne Bayliss, and Earl Hilliard made prophecy. The graduates and the audience were entertained by Mr J L Sylvestre, Superintendent of the Bonnyville School Division, who spoke on the importances of education and role it plays on the present day affairs. Mr L F Krawchuk, the Division Trustee, stated that the new 170,000.00 high school and auditorium was Glendon's memorial to Alberta's Golden Jubilee. Mr P Boyko presented the scrolls. Following the program a dance was enjoyed by all. Mr and Mrs. H. E. Rogers were guests of honor and speakers at there home.

The graduands were:

Anne Bayliss, Clarence Kunz, Annie Mickalow, Cornel Pilipchuk, Priscilla Fedoruk, Edward Klimchuk, Jeanette Andrietchuk, Harry Boychuk, Lisa Bonnyfield, Lyle Holmes, Mary Skrypnyshin, Murray Carlson, Olga Wythopon, Richard Gregory, Bernard Hamelin, Steve Onyshko, Rose Lavy, Wilson Mitchelson.

"STEERING WHEEL FARMING"

Gives Agriculture a Brighter Look

Great changes have taken place in farming in recent years—changes that have brought new concepts of crop production and animal husbandry; soil and moisture conservation; management and marketing.

Symbol of one of the major changes in farming operations is the steering wheel. It stands for power—power that has been made available through tractors and machines to do practically every job on the farm; power that has given agriculture its greatest lift in centuries—power that has brought opportunities for a greater participation in higher standards of living.

In the promotion of "steering wheel farming" Massey-Harris and Ferguson have made available machines and implements with outstanding features to apply power in the modern way. Sound, advanced engineering, high standards in materials and manufacture, thorough testing, and prompt efficient service combine to make Massey-Harris and Ferguson machines outstanding in dependability, long life and economy.

Traffic Safety Lone By J. W. McKay

Inspector Manitoba Traffic Patrol

This week I would like to touch on a few points and also give you some information on the Car-Rodeo.

In 1952 I planned a Car-Rodeo along the lines of the Track-Skidpan event in a Provincial outlet. A course was planned and drafted from a series of tests as used in the A.M.A. driver training program.

The first public Car-Rodeo was held at Fort Saskatchewan, sponsored by the Rod Lions Club. Twelve drivers entered and everything went to the first three successful. It created a lot of interest amongst the public. A good deal of interest withstood the skill-driving and above all also they had the event to be very educational. They learned that it is not always the quickest driver available in a safe manner.

In 1953 Fort Saskatchewan repeated the event. Other commissions joined in the promotion of safety: namely the Lions Club, Rotary, the Llayminster Board of Trade, the Junior Chamber. Each of these were very successful.

In 1954 all repeated the event with additions such as, the Student Councils' Program, the Bonnyville, A.M.A., the Jasper Place Lions, the Red Deer Safety Council, the Mounties, Mel Lam's Club, Pembina Lions Club. In addition the Secretary of Alberta's first Provincial Car-Rodeo in Edmonton. All winners were eligible to compete for the Gordon Taylor trophy. This trophy is put up annually and the presentation of the Provincial Champion. Among all drivers were a number of ladies. Mrs Lorraine Hoover, as runner up with a score of 273.5 out of a possible 510.

All service communities are repeating with additional commissions such as Vegreville Lion's Club, Lethbridge A.M.A. Calgary Kinsmen, Innisfail Lion's Club and possibly the St. Paul Jaycees and the Rockyford K.C.'s.

Car-Rodeos are really gaining popularity in our province They are the forerunner of the best of the losing Highway safety educational projects amongst all drivers young and old. In all Rodeos, men, women and teen-agers may compete. Age does not handicap scores amongst men drivers who have several years experience.

Anyone wishing further information about the Car-Rodeo may your local paper or with the writer.

Carlings Comes To Alberta

Carling's Black Label product will be on the market in Alberta before the end of July, said F. F. Heard, President of Red Deer Brewing Co. Ltd., following an extraordinary general meeting of the shareholders held at the Fullmer Hotel, Calgary, on May 25th. It was unanimously agreed at the meeting that the name of the company should be changed to The Carling Breweries (Alberta) Limited. The shareholders endorsed the action taken by their company to produce at the Red Deer plant the beer which has the fastest growing sales in Canada and which has the largest consumption in the United States. It is planned that Mr. Purbrow will work closely with Mr Cunnon in Red Deer.

To further guarantee the exact quality of Carling's Black Label beer, arrangements have been made with The Carling Breweries Limited to have their Production Manager in Toronto, Mr. Peter Purbrow, work in conjunction with the brewing staff of the Carling Breweries Alberta Limited. Mr Purbrow's main responsibilities with The Carling Breweries Limited are control of quality and re-certification of production of their numerous plants to produce a uniform product throughout Canada. It is largely due to Mr. Purbrow that such unparalleled quality acceptance has been achieved in this country, England and the United States. It is planned that Mr. Purbrow will work closely with Mr Cunnon in Red Deer.

INTRODUCING...

J.R. Sweeney

YOUR

LIBERAL CANDIDATE

FOR THE ST PAUL CONSTITUENCY

Born on a farm in the Province of New Brunswick Mr. Sweeney is an Honors graduate of the Nova Scotia College of Agriculture, a graduate of the Ontario Agricultural College and holds a Bachelor of Science degree in agriculture from the University of Toronto.

Mr. Sweeney, a trained agriculturist, spent five years with the Manitoba Department of Agriculture as Lecturer, Instructor and Inspector and therefore, served some years with the Federal Department of Agriculture in Winnipeg, Manitoba.

In 1954 J. R. Sweeney was invited to come to Alberta as Provincial Dairy Commissioner. Having served in that position four years he was appointed Deputy Minister of Agriculture. He served with distinction in that office until 1962 when he resigned from the Social Credit government and engaged in business at Vilna, in the St. Paul Constituency.

While serving as Deputy Minister of Agriculture, Mr Sweeney reorganized the department and at the same time acted as,

(1) Superintendent of Agricultural Schools
(2) Director of District Agriculture
(3) Chairman Wartime Swine Production Committee
(4) Chairman Creamery Licensing Board
(5) Member of the Senate University of Alberta

Mr. Sweeney gained a wealth of experience in various administrative positions and helped to make some contribution as well as to assist in promoting farm organizations and marketing co-operatives

Mr Sweeney has unusual qualifications to be the representative of a rural constituency such as St. Paul. He knows farm problems, he understands the needs of rural people, he can intelligently discuss agricultural matters, and on the floor of the Legislature, he would be able to advocate for farm people.

Mr. Sweeney is a member of the Agricultural Institute of Canada. He is a member of the Alberta Institute of Agrologists.

He has been active in work as President of the Liberal Assn's. He is chairman of the Advisory Board of Our Lady's Hospital at Vilna.

He is a member of the Vilna Chamber of Commerce.

He is a successful businessman being the sole owner and operator of the Vilna Tinsmiths.

Mr. Sweeney is a family man and both he and Mrs. Sweeney are very proud of their six daughters.

As an organizer we consider the best candidate we could find and we selected Mr. Sweeney because of his rare qualifications to be a member. We chose Mr. Sweeney as the Liberal Candidate because we believe he enjoys the confidence of every rural group in our constituency. Because he has been accepted by them to head a united front against the opposing forces. We have chosen Mr. Sweeney as our candidate because we believe he will be a winner on June 10th.

Cold Lake-Grande Centre Air Base Modern in Defence Technique

(continued from page one)

has been given the same consideration as a civilian doctor's duty's work. To keep personnel happy for maximum production and interest in their job, a "homey" atmosphere, as much as is possible, is maintained after working hours.

Airmen are billeted into blocks designed for comfortable living. A recreation Room are allotted to one large room, with individual beds and lamps, sumptuous lounge space and storing facilities which rooms and rest rooms include separate stands with individual lighting, special compartmental showers, etc. There is a small recreation room for those who wish to stay at "home" on pay firsts in the larger recreation centre where bowling alleys, pool tables, theatre, lunch counter and lounge can be enjoyed. The wet canteen is open and comfortable with chesterfields and chairs very comfortable.

Several messes can handle up to 2000 men within the hour and can sit over 1000 at a time. The kitchen catering to the force is spacious with the most modern equipment. No cook thing or pasting instrument by hand . . . an automatic machine does this. Even the garbage receives the utmost consideration and is stored away in a refrigerator room prior to cremation before pick-up.

Church facilities are provided for every denomination with pastors of the various faiths living on the premises. The Roman Catholic tutors about 200 children, includes a genuine two-stage consolation, adaptable for either purpose at a moment's notice. Chairs are stored on a ledge, compartment under the stage.

A novel and unique feature in the prime one classroom is a cloud room with six domes approximately by pushing one knob inside is a spaced heating system to dry the small children's clothes usually wet in the spring and during the winter.

The married quarters contain 256 houses at the moment with 250 more on the building program. Airmen who live in them also pay for rent on the basis of rank. All utilities are supplied.

To govern the affairs of this village with its home a special town council is elected. The Commanding Officer has no say except where prior permission can be given. Air Force Regulations and operations

Good Relations

In a short printing before the Lake Grande Air Base Open Day Officials are very concerned about good relations with the public at the immediate district. He said that the Airmen are going to believe and treat the civilian population with due respect and not to question or abuse them. He receive personally any report of mistreat and would ensure that necessary investigation is hand out punishment.

Air Force Day June 11th

A.M.A. Chrysler who is also Honorary Air Force Day Committee, through the press wishes to extend a cordial invitation to everyone in the district Open House will be held at Cold Lake Air Base on Saturday, June 11, 2 p.m. until 12 midnight.

Object of Air Force Day throughout Canada and at Cold Lake is to give an idea to explain to the taxpayers of the country just how their money is being spent and in what purpose, to make the citizens conscious of the value of the money spent by the defense forces of Canada. It is not a money making proposition. The entry is free and no small charge made for the food and drinks are very reasonable.

DAY'S PROGRAM

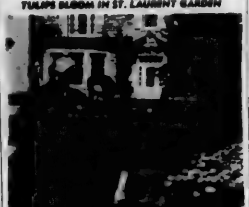
2:00 p.m. — Opening Stitt Ground Display—Displays, weapons and general Air Force Exhibits.
Inspection of Recruit Blocks and Airmen's Mess
Model Aircraft Display.
4:00 p.m. — Air Show
Latest Jet Fighters
Rocket Bombing Display
Para-Rescue Demonstration
Prize Rides for Lucky Winners
4:30-7:30
Invitation Softball Tournament
7:30 p.m.
Monster Bingo—Valuable Prizes
9:00-12:00 p.m.
Dance

Semester System At Alberta College

In another section of our paper we carry an advertisement for Alberta College, Edmonton. One of the interesting features of this announcement is the Semester Plan for High School Graduates. It may be of interest to many students, particularly those who live quite only one to three nights in complete their Matriculation.

Alberta College has an up-to-date Commercial Department where training in Secretarial, Bookkeeping and Stenographic Courses opens the door to excellent opportunities for ambitious young men and women.

TULIPS BLOOM IN ST. LAURENT GARDEN



—Dotted Tree Cheddar

Tulips have grown in the gardens of St. Laurent for some time. It was opened as the home of Canada's prime ministers. Some of the finest varieties of tulips in the world are displayed there and here Prime Minister and Mrs St. Laurent stand beside one of the beautiful beds.

BENSBORG NEWS

The Home and School had their annual meeting last week. Mrs Player was elected president for the coming year. Mr Taschuk is vice-president Mrs Player recently spoke on the importance of having more town people attending these meetings to make them successful. Miss Ruth Lorenzone formerly of Lindbergh came to Bensborg now the Grade nine teacher.

Ladies Auxiliary will play host to the Red Cross meeting here Monday, June 13 at 8 p.m. Every interested should attend. Expected groups are from Elk Point, Lindbergh, Telfair Lake and St. North Park.

Mr and Mrs Black and Donald were away to a wedding during the weekend. The lucky bride is a niece of Mrs. Black's and resides at Red Deer or thereabouts.

The Jr Baseball League which consists of Bensborg, Derwin, Streame Town and Marwayne is away to some pretty good ball playing last week. So far the home team has all three games played, in their favor. Get out and support such a terrific bunch of boys. They get the ump but you maybe they'll do it again.

Mrs Randal Milne (nee Lillian Bysouth) is now a mother for baby boy, George Randal Peter.

Mrs George Gregor has moved to Edmonton to live there.

It is not true that Ike Palylaka are to move back to Holmberg I am sorry to have printed such misinformation.

Mrs Henderson (nee Elsie Makaymuk) her husband and baby Gay Lynn were weekend visitors at Makaymuk's. Also here were Mrs Henderson's sister and Pearl who work in the city

Whitney Lake was the scene of some fine speed-boat racing and water ski riding last Sunday

The appeal for the funds for Carl Cochke has brought in some fifty dollars. Last week he was put on the train and arrangements with Dr Barcquist were made for his treatments. Apparently there was some misunderstanding between the committee and Carl as he came back home next day. He did have an X-ray and was told he could be helped with operation.

Mr Lipicki, school teacher, was the winner of a wrist watch at a Pool Social last week.

Mr Taschuk had the misfortune of having most of his Mink ranch taken from him last week. Fishing Lake Somebody needed it worse than he.

Bensborg Senior Baseball team took third prize at the Sports in Frenchmen's Butte.

Mrs Mike Shostak took a quick trip to Blackfoot last Monday on business.

Gramma Batting was in the hospital but is better now.

The Ladies Auxiliary packed baskets of fruit and delivered to those local invalids on Sunday which was Shut-in Day. Those on comedy Mrs. Sherred, Norway Valley; Mrs. Haverluk, Elk Point and Mrs. Collins from Grandview. The Shut-ins who did get around a bit were visited by different members.

Pentecostal Church Sunday Services

A cordial welcome is extended to everyone to all regular church services.

SUNDAY 10:00 a.m., Sunday School Classes for children of every age and also bible classes for young people and adults.

11 a.m., preaching service 7:30 p.m. Evangelistic service

WEDNESDAY 8:00 p.m. prayer service

Grace Gospel Sunday Services

Sunday Services 10 a.m.—Sunday School Lesson for children of all ages.

11 a.m.—Morning Worship Service.

7:30 p.m.—Evangelistic Service.

Thursday — prayer service, 8 p.m.

Friday — Mens Labe Retreat 8 p.m.

Let's have a real old fashioned get together meeting for Jr. and Sr. Christian Endeavor and Teens. Everyone welcome.

The United States has agreed to aid Hatti with $8.5 million worth of surplus agricultural commodities, payment to which will be made in gourdes, equivalent to nearly 1.6 million dollars or about one-fifth of Haiti's annual budget.

Beaver River News

The weaherman has really been cooperative since we have gotten on a steady work schedule with fine days and no rain. Hills, up country, sometimes very much overrun, are in excellent condition for the start of road work.

Mr and Mrs. [illegible] have moved to Lloydminster and Mr. Andrew Kuzyk has moved his family to Edmonton to attend the wedding of Paul Kuzyk's son. Mrs. Kuzyk will remain in Edmonton for a few days to visit her daughter, Mrs. Mike Shostak.

Last Tuesday was June 7th and Mr. Lloyd Lawrence's son, Donald, was confirmed in the Anglican church. Donald is a grandson of Mr. and Mrs. Jack Lawrence of Beaver River.

The Mr. and Mrs. [illegible] are moving to Edmonton where Mr. [illegible] has obtained employment. Mr. [illegible] has been employed by Mr. Lobay for the past year.

Mr. and Mrs. [illegible] and family have moved to Lloydminster where Mr. [illegible] has obtained employment.

Mr. and Mrs. [illegible] and family have moved to Lloydminster where Mr. [illegible] has obtained employment.

Mr. and Mrs. [illegible] and family have moved to Lloydminster where Mr. [illegible] has obtained employment.

FORMULA 5

HOUSE PAINT

BLISTER-PROOF GUARANTEE

IT'S PRINTED ON EVERY CAN OF THIS REVOLUTIONARY PAINT

DOUBLE YOUR MONEY BACK GUARANTEE

"You are guaranteed that Marshall Wells 'FORMULA 5' House Paint will not be stained by rusting or rotting nails. It will not be disodored by sulfur-bearing fumes and further, that it will not form blisters due to moisture, when applied to previously unpainted wood

READ COMPLETE GUARANTEE ON EVERY CAN

Through the blending of new and improved oils and pigments Marshall - Wells 'Formula 5' has achieved compliance of paint protection never before known! Five years of rigid home testing combined with speeded-up accelerated tests in the laboratory proved the five big advantages of Marshall - Wells 'Formula 5'.

The most severe test for any paint is on new wood. Here "Formula 5" seals wood pores to provide its own best undercoat; and offers 100% blister-proof protection, bonding so tight that no moisture can make it blister. The second revolutionary question that "Formula 5" answers is how to paint over old, rough, worn out paint.

also makes it the most blister-resistant paint you can apply to previously painted wood. Furthermore, "Formula 5" will not stain from nails or other metal rust and will not discolor from sulfurous fumes even in smog-filled air.

On your new house or repaint job use new "Formula 5" from Marshall Wells "Formula 5". Once you see its sharper, cleaner color tones and rich colors you'll never again use a conventional paint.

C'est L'Esprit Qui Vivifie

La Caisse Populaire a prouvé son dynamisme et son esprit de service. Elle a contribué à l'amélioration économique et sociale de notre milieu. Elle a permis à plusieurs de devenir propriétaires de leur maison et de leur ferme. Elle a encouragé l'épargne et le crédit à bon marché. Elle a développé le sens de la responsabilité et de la coopération. Elle a fait circuler l'argent chez nous au lieu de le laisser aller ailleurs. Elle a fait naître et grandir des entreprises locales. Elle a créé des emplois. Elle a contribué à retenir chez nous nos enfants. Elle a fait connaître et aimer notre coin de pays.

Les avantages de la Caisse Populaire sont nombreux: entre autres, elle crée une source de crédit puissant et encourageant à petite épargne, elle crée à l'indépendance économique et à la dignité de l'individu; elle se préoccupe de devenir à satisfaire et non du profit à réaliser.

POLITICAL ISSUES

Most elections are fought on a theme of one or two major political issues. The Provincial election of August 30th has set the pattern on the question of whether or not the Social Credit government has been honest.

The issue was tossed in the arena by the Leader of the opposition, Mr. J. Harper Prowse and the challenge is a fighting hard for it to see who is going to get the biggest bite and consumes the clockwise one way or another on the important vote.

We believe the public of this province and this constituency should take a good close at the issue and regard it properly, in order to cast an intelligent vote on election day.

It is not our intention to set ourselves up as a judge or cast any opinion, but we would like to bring to the attention of the public that the forthcoming provincial election is an important one which will go down in the history of the province.

The charges made against the Social Credit administration are serious. They should be investigated and voters must assure themselves just what is going on in this province and see that justice is done.

Political campaigns call for a great number of meetings, which most of us look at in a boring manner without too much interest and forfeit for the more immediate pleasures of life, leaving it to the politicians. May we suggest that each and every one of you, women as well, in the St. Paul Constituency take a genuine interest in these meetings. If you are inclined to be a Liberal, just don't attend that party's rallies, but make it a point to hear what the Social Creditors or Labor Progressive have to say on their platforms and if you are a Social Credit or belong to another party, don't remain prejudice on one side without hearing what the other has to say. It is only by listening to two sides of a problem that we can come to a rational and intelligent conclusion.

It never has been done in St. Paul in the past, but the idea of an organization, perhaps the Chamber of Commerce or the Juniors, sponsoring an open political rally in this town, at which candidates representing all the parties running would be invited to debate, could be promoted.

Choosing our representatives in parliament, legislatures and on the municipal level is an important part of our democratic system and should be preserved if we are to remain a free people.

RUST CONDITION REASSURING

Although many things can happen between now and the end of the season to intensify or lessen the threat to Western Canada's cereal crops from rust, and no definite conclusion can be drawn at this early date, a recent report from the U.S.A., is to a degree, reassuring. It suggests that, for this time of year and for the stage of the crops, the amount of stem and leaf rust inoculum now present in Texas, Oklahoma, Kansas and New Mexico is less than it has been for 6 years.

The degree of rust infection in the south is, of course, important because it is from these regions that the northward spread of rust begins, affecting crops as they develop progressively further north, but the amount of rust and color in the spring wheat areas of the U.S.A. and Canada. The report emphasizes that the degree of rust in the south at this time is only one link in the chain of events that combine to influence the development of rust in the north central States and Canada later on, but it is on the side of less rust when spring wheat is in its early stages and to this extent, it may have some significance.

BIGGER MARKETS FOR US

In Canada since the end of the war, we have been so impressed by our own rapid expansion in population that we have been inclined to overlook a similar growth and its implications for Canada right next door.

Population in the United States is mounting faster than ever before. Now almost 165 millions, by the end of the century, it will probably total 276 millions, says Kingsley Davis, a Columbia University economist.

For the United States, many times as much richer population will mean headaches in food and raw materials supply. That is true, but it will also mean enormous new markets for nearby Canada, and very likely for many products that we are having most trouble in exporting here.

All in all, the United States is going to have to import more and more from the rest of the world. The old high tariff gang around Washington may not like that but Canada and many other countries have been fighting to keep a toe hold in the American market will certainly not object.

The nation has swung to the use of thousand-in many lines and especially in the building trade. For the amateur carpenter keen on doing his own repairs or a garage, addition, cupboard, or have a "do" carpentry, building materials Plywood are especially adaptable for home use.

The first Western Polled Hereford sale held in Elk or Lea park was a successful one The top lot sold quite two year old yearling bulls averaged $367 All thirty-eight animals, bulls, heifers and calves averaged $18 Among the buyers were Barnes Bros of Bellas who got a bull and three heifers, W A Lawrence of Y ungstown four bulls and amongst Bellaney of Jar 5 Ranch Station and Ed Rund of Pinebee Creek, what got two bulls each The top price went to J W Bell of Irma

Auctioneers were Wally Hughs of Didsbury, George Truswell of Lacey Sask and Carl Magnuson of Fogelvik Farms Journal The sergeant Montreal hospital in Calgary gave a contribution of $300 when a top horsed sire Bright Mixer 12 went on the block, donated by Fogelvik farm and all proceeds going to the worthy cause

EASTBOURN NEWS

Friends and neighbors gathered at Eastbourne Hall on Wednesday evening, May 25 to bid farewell to Mr and Mrs Tom Hallman who have seen to make their home in the Grande Prairie area A banquet of the school children were on hand to sing "For He's a Jolly Good Bus Driver" as Mr Hallman has driven the school bus for three years. On behalf of the gathering E. Corbett made a presentation to which both Mr. and Mrs. Hallman gratefully replied.

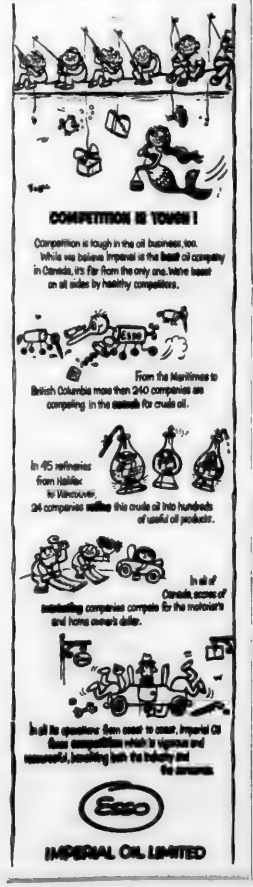
Mr. — Thurston spent a few days in Edmonton and on his return was accompanied by her sister Mrs. J. Downing from Wilson Creek BC. Mrs. Downing was in the district a few days renewing acquaintances at R.S. and Hoadley.

Congratulations go to Gordon Nesbitt on who took part in this years Grade 12 graduation exercises from Bonnyville School

Mr and Mrs Bengston of Edmonton are visiting Mr and Mrs Wm Martin.

NATO JOURNALISTS VISIT OTTAWA

After welcoming a group of 20 journalists from the NATO countries to Ottawa to attend a conference on national defence problems, Hon Ralph Campney, minister of national defence, exhibited a projectile of Canada's new "Bulldog" to Gunner Jean Pierre Gaul (on left) and Gunner Jean Paul Gauthier, students at the school of artillery at Chilliwack. The recently developed weapon is a powerful air missile which can locate and destroy aircraft by means of an electronic "brain" no-



Patricia Grekul And Audrey Aarbo Divisional Essay Winners

The Farm Safety Essay Committee of Alberta Safety Council, in the enthusiasm of the essay competition for the ages of school terms. Entries were received from farm and non-farm homes. Approximately thousand five hundred pupils of grades 5, 6, 7 and 8 were eligible to compete.

Grades 5 and 6 competed one division of the district and grades 7 and 8 the other. Rural teachers received 39 entries each for each and the best for final judging.

A prize was presented for each district winner in each of the two divisions. The prizes were free to girls' boys' camp and later competed for Provincial awards. A total value of accidents were discussed and, according to judges the quality of writing was good.

School Division prizes consist of attractive wall plaques to be hung in school rooms and a smart lapel pin for the pupil writing the winning essay.

Hon. D. J. Jorgenson, Minister of Welfare is Chairman of the Farm Safety Essay Committee Members are Rudolf Hennig President of the Alberta School Trustee Association; R. L. Frame, Chief Superintendent of Schools for Alberta; E. B. Swindlehurst Department of Agriculture, C. Sarmouth, H. Blatchford and R. P. Lauvers, Alberta Safety Council

Local winners are as follows: Andrew Aarbo, Elk Point; Mrs M. C. Rutting, Teacher; R. Rozette Superintendent and Patricia Grekul, St. Paul, Mrs Ida Lasevske Teacher

STOP, LOOK AND LIVE
By Patricia Grekul

Our neighbor, Mr. Jonas Johnson, was getting on in years so he decided to turn his farm over to his two sons, Lloyd and Leonard. The sons were identical twins but were as different in their habits as they were alike in appearance. Lloyd could certainly get done as much work done in one-half the time. Leonard was slow in action and in speech, and usually his shirt sleeve was more thoroughly in school Lloyd was called "speedy" in his class; Leonard was nicknamed "Poky"

One morning Lloyd and Leonard agreed that they should spread the fertilizer making barley crop as their feed bin was running low. The equipment was checked, greased and the tractor started Lloyd was adding the tractor and the crusher while Leonard's job was to keep the hopper full. Mr. Johnson looked on with satisfaction as the chop poured out of the crusher spout.

For an hour everything ran smoothly, then Leonard noticed that the crusher was blocked and no chop was running from the spout. Apparently some straw or perhaps a big mix preventing the grain from going through. Without hesitating, as was his habit, Lloyd removed the screen and poked his hand into the grate to remove the obstruction. He realized his mistake but it was too late. The fingers of his right hand were already in the auger. Lloyd screamed to his brother to stop the tractor but Leonard, having sensed the danger was already standing near the clutch lever. When he heard Lloyd's scream he pulled the lever disengaging the crusher. It as the auger belt.

The day was saved for Lloyd Two of the fingers were badly mangled, but the hand was not hurt Mr Jackson, who was the accident, upon realizing that Lloyd wasn't he set quite hurt trembling and pale remarked "Thank God this wasn't worse and now I wish Lloyd you would always remember to exercise extra speed and more caution. You could have been disastrous. You could have been crippled for life."

I believe we have a very important lesson to learn from this accident. If Lloyd had listened to think before he acted he would have had no regrets. We must all learn to be careful that we do not get over our work without keeping our minds on what we are doing, especially if machinery is in-

STOP, LOOK AND LIVE
By Audrey Aarbo

It was a sunny hot day and Mr Brown was hurrying to get all his hay out before the weather changed. The weather forecast said that rain would fall in three days so Mr Brown had to cut the hay rake it and stack it. He was determined to finish his task before it rained.

After cutting his hay Mr Brown decided it was time to grease and oil his mower, which was run by tractor by means of a power take-off. All safety rules warn farmers to stop the power take-off before greasing moving parts on the mower. Another point stated is to have the power take-off shaft covered with a shield, but Mr Brown did not have a shield, nor did he stop the power take-off on this particular day because he was in a hurry.

As Mr Brown got off the tractor to grease the mower he did not stop to look or think about the danger of an unprotected shaft Bending over to grease a certain moving part on the mower, his loose short sleeve brushed near the turning shaft In an instant his shirt sleeve was tangled around the shaft and tugging violently at his arm. Fortunately the shirt sleeve tore loose at the shoulder, but Mr Brown's arm was badly strained and sore.

While Mr Brown lay in the hospital waiting for his arm to heal, he will no doubt think of the mistakes he made He will be more careful in the future and will probably warn every farmer he knows to be extremely careful.

Do people have to learn expensive lessons in such painful ways? Why don't they stop, look and take time to live?

Shabby Treatment Given To The Alberta Farmers

Mr. Jos. R. Sweeney

By J. R. Sweeney
Liberal Candidate for the St. Paul Constituency

were told that the government would know what was best for us and turned them down cold. The government refused to consider the introduction of a marketing act and there was no indication of it in the speech from the throne.

Bill No. 70 was introduced and debated before the Easter adjournment. It was found to be unsatisfactory to farm organizations and they requested a hearing before the Agricultural Committee of the house to point out what they considered to be serious omissions in the bill.

On May 13th whom Mr Manning's subsidy portrayed the honorable several farm organizations were [illegible] standing in the halls of the Legislature. Only one brief had been presented Mr Manning and Mr Manning alone was responsible for the bill being strangled in the final place, why did he not wait until the winter session was almost finished before he introduced the bill? Why did he present a bill that was not even a basis for the draft suggested by the farm organizations? The Manning government deliberately introduced some of the marketing bill and then abruptly ended the session of dealing with it. The bill was [illegible] rushed ruthlessly and then [illegible] by the government itself Mr. Manning would like you to believe it was introduced by the opposition. Now I ask you farmers

[illegible] 1941 and at every session since [illegible] The government refused to consider a legislation similar to [illegible] that which had been passed in [illegible] Iowa. The farmers [illegible] from which party do you expect to obtain a workable marketing act? The Liberal party had promised to provide a complete study of marketing [illegible] Liberal party had accepted it as a plank in the 1952 election platform.

The Federal Liberal party provided an act in 1949 which was the guide for six provinces to adopt marketing legislation. Thirty schemes have been introduced to handle farm products and the tested legal machinery has been provided by the Liberal party.

It should be understood that marketing acts as such are simply the legal framework under which producers may formulate a scheme to handle a particular commodity. The farmers have been denied the opportunity by the Social Credit government.

The Liberal party will help the farmers establish the machinery of solving some of their marketing problems. On election day you farmers have the first opportunity of registering your protest against the Social Credit government for the treatment handed out to you on the Marketing issue.

As an agricultural I believe I know something about the problems of rural people and I know why they are withdrawing their support of the Manning Government. Naturally they are turning to the Liberal party as the one most likely to form the next government. If the farmers will come into the Liberal camp help to shape a farm policy within the party which will benefit rural people. The next Government in the province of Alberta will be a Liberal Government and will be placed in power by the farm vote. The Social Credit Government is doomed because it has lost the confidence of farm people. They will be swept from out of office on June 29th

Moreton Beckles For Acadian Festivities

Long known as "the capital of the Acadians" St. Paul, Alberta, is preparing to live up to its name with the biggest festival ever held in the Province. Acadian concrete will turn back the pages of history two hundred years to 1755 when the "peaceful French" of Acadiana, were driven from their homes in Nova Scotia and New Brunswick by the conquering British. Sidney Mac Dougal pours a IT century French customs, which will be worn by Moreton girls at the annual Centennial festivities, as she examines an old-fashioned [illegible] accordion.

Plain Talk from DR. F. MacNEILL SMITH
Liberal Candidate

Over one million new citizens have entered Canada during the extensive immigration since the end of the war. Governmental policy has encouraged the [illegible] [illegible] [illegible] stated by Mr. King in 1949 First, we must have permanent immigrants on a selective basis. Immigration into Canada is to be regarded not as a right but as a privilege to be extended [illegible] The national economy dictates [illegible] and the extent of the influx, and it should not unduly disturb the ethnic balance of the country. In 1954 we admitted a total of 154,227 citizens from [illegible] Germany, 24,000 [illegible] from the Netherlands to mention only the larger groups. An effort [illegible] to select immigrants according to their occupations as much as possible, so [illegible] [illegible] [illegible]
